7. Subject to valid existing rights, all of the lands described in paragraph 6 of this order that are shown to be deleted from Public Land Order No. 5169, as amended, are hereby added to Public Land Order No. 5180 of March 9, 1972, as amended by Public Land Orders No. 5193 of March 17, 1972 and No. 5251 of September 12, 1972, and immediately become subject to all of the terms and conditions of that order, including the withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws (except for locations for metalliferous minerals), 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970). So long as these lands remain withdrawn, they shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for by paragraph 2 of Public Land Order No. 5180.

8. The purpose of this order is to supplement Public Land Order No. 5169, as amended, by accommodating the right of the Arctic Slope Regional Corporation to identify certain lands for selection under section 17(d)(2)(E) of the Act, and by reserving additional lands for selection by the Village Corporations and the Regional Corporation under section 12 of the Act, and to make necessary additions, deletions, and corrections in the descriptions of the lands previously included in said order.

9. While the lands described in paragraphs 3 and 5 of this order which are shown to be added to those described in Public Land Order No. 5169, as amended, remain withdrawn, the lands shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations and his authority to make contracts, and to grant leases, permits, rights-of-way or easements shall not be impaired by this withdrawal. New applications for leases under the Minerals Leasing Act, *supra*, will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

10. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. section 4332(2)(C), is required.

ROGERS C. B. MORTON,
*Secretary of the Interior.*

[Public Land Order 5397]

## ALASKA

### Amendment of Public Land Orders No. 5177, No. 5179, and No. 5180, as Amended

By virtue of the authority vested in the Secretary of the Interior by sections 11(a)(3), 17(d)(1), and 17(d)(2)(A), of the Alaska Native Claims Settlement Act of December 18, 1971, (hereinafter referred to as the "Act), 43 U.S.C. sections 1610(a)(3), 1616(d)(1), and 1616(d)(2)(A), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Public Land Order No. 5179 of March 9, 1972, as amended by Public Land Orders No. 5192 of March 17, 1972, and No. 5250 of September 12, 1972, withdrawing lands in aid of legislation concerning addition to or creation as units of the National Park, Forest, Wildlife Refuge, and Wild and Scenic Rivers Systems, and for classification, and Public Land Order No. 5177 of March 9, 1972, as amended by Public Land Order No. 5191 of March 17, 1972, withdrawing lands for selection under section 12 of the Act by the Village Corporations and the Regional Corporation for the approximate area covered by the operations of the Kodiak Area Native Association, now known as Koniag, Incorporated, are hereby amended to the extent necessary to accommodate:

a. The right of the Village Corporations to select and the Regional Corporation to identify for selection pursuant to the terms of the Act, 43 U.S.C. section 1616(d)(2)(E) the following described lands:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 38 S., Rs. 51 thru 53 W.
T. 40 S., Rs. 53 and 54 W.
T. 41 S., Rs. 52 thru 54 W.

b. The right of the Regional Corporation to identify for selection pursuant to the terms of the Act, 43 U.S.C. section 1616(d)(2)(E), the lands in the townships listed below except all those lands within the protracted sections which are wholly or in part within one mile of the mean high water mark of the Aniakchak River as it traverses any of the following described lands:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 36 S., R. 52 W.
T. 37 S., Rs. 51 thru 54 W.
T. 38 S., R. 54 W.
T. 39 S., Rs. 51 thru 54 W.
T. 40 S., Rs. 51 and 52 W.

2. Public Land Order No. 5177, as amended, is further amended as follows:

a. Delete subparagraphs b, c, and d of paragraph 1 in their entireties, and modify subparagraph a of paragraph 1 by deleting the name Akiok, thereby leaving the lands described therein, except as modified below, withdrawn for selection under section 12 of the Act by any eligible Village Corporation established under section 8 of the Act requiring deficiency withdrawal in the Koniag Region.

b. Add to paragraph 1:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 27 S., R. 42 W.
T. 31 S., Rs. 46 and 47 W.
T. 32 S., Rs. 42 and 43 W. (Fractional).
T. 32 S., Rs. 46 and 47 W.
T. 33 S., Rs. 46 thru 48 W.
T. 34 S., Rs. 44 thru 50 W.
T. 35 S., Rs. 45 thru 50 W.
T. 35 S., R. 44 W. (Fractional).

V 38-182 SEP 20 73 XUM

T. 36 S., Rs. 44 thru 47 W. (Fractional).
T. 36 S., Rs. 48 thru 50 W.
T. 37 S., Rs. 47 thru 49 W. (Fractional).
T. 38 S., Rs. 47 thru 49 W. (Fractional).
T. 39 S., R. 49 W. (Fractional).

c. Add to paragraph 2:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 37 S., R. 50 W.
T. 38 S., R. 50 W.
T. 39 S., R. 50 W.
T. 41 S., R. 51 W. (Fractional).
T. 42 S., R. 49 W. (Fractional).
T. 42 S., R. 50 W. (Fractional).
T. 42 S., R. 51 W. (Fractional).
T. 44 S., Rs. 54 and 55 W. (Fractional).
T. 45 S., R. 54 W.

d. Delete the following described lands from paragraph 1a of that order and add them to paragraph 2:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

Ts. 29 thru 32 S., R. 45 W.

e. Delete from paragraph 2 of that order:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 27 S., R. 45 W. (Fractional).
T. 28 S., R. 45 W.

3. Subject to valid existing rights all of the lands described in subparagraph 2 of this order which are added to paragraphs 1 and 2 of Public Land Order No. 5177, as amended, immediately become subject to all of the terms and conditions of that order, including the withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws, 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970). These lands are also withdrawn for classification or reclassification pursuant to section 17(d)(1) of the Act, and are subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for by paragraphs 4 and 5 of Public Land Order No 5177. Any of the lands described in paragraph 2 of this order that are included in Public Land Order No. 5179 of March 9, 1972, as amended by Public Land Orders No. 5192 of March 17, 1972, and No. 5250 of September 12, 1972, and in Public Land Order No. 5180 of March 9, 1972, as amended by Public Land Orders No. 5193 of March 17, 1972, and No. 5251 of September 12, 1972, are hereby deleted from those orders.

4. Subject to valid existing rights, all of the lands described in paragraph 2 of this order that are shown to be deleted from Public Land Order No. 5177, as amended, are hereby added to Public Land Order No. 5180 of March 9, 1972, as amended by Public Land Orders No. 5193 of March 17, 1972, and No. 5251 of September 12, 1972, and immediately become subject to all of the terms and conditions of that order, including the withdrawal of the lands from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, and from location and entry under the mining laws (except for locations for metalliferous minerals), 30 U.S.C. Ch. 2, and from leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. sections 181–287 (1970). So long as these lands remain withdrawn, they shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, as provided for by paragraph 2 of Public Land Order No. 5180.

5. The purpose of this order is to supplement Public Land Order No. 5177, as amended, by providing for 3 villages not previously listed in the order, by accommodating the right of the Village Corporations to select and the Regional Corporation to identify certain lands for selection pursuant to the terms of 43 U.S.C. 1616(d)(2)(E), by reserving additional lands for selection by the Village Corporations and Regional Corporation under section 12 of the Act and by deleting other lands from that order.

6. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. section 4332(2)(C), is required.

ROGERS C. B. MORTON,
*Secretary of the Interior.*

## Title 45—Public Welfare

## CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### ADMINISTRATION OF PUBLIC ASSISTANCE PROGRAMS

On June 21, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 16308) to amend certain regulations relating to the administration of the public assistance programs under titles I, IV–A, IV–B, X, XIV, XVI, and XIX of the Social Security Act. The amendments implement several provisions of Public Law 92–603, Social Security Amendments of 1972, approved on October 30, 1972, relating to: (1) Options for States (a) to charge for cost of reproducing State program manuals and other policy issuances made available to individuals, organizations, or agencies (section 406), and (b) to deny or discontinue assistance to aged, blind, or disabled individuals who have been out of the State for more than 90 days, until they have been back in the State for specified periods of time (section 408); (2) fiscal penalty for failure to comply with requirements for offering and providing family planning services to current recipients and to former applicants of AFDC (section 299E); (3) requirement for States to pass on part of the increases in social security benefits in determining need and the amount of assistance payments to needy aged, blind, or disabled persons (section 304 and 306); and (4) provision for Federal financial participation (a) in costs of institutional services in intermediate care facilities under title XI of the act for States that do not have an approved title XIX plan, (section 292) and (b) in rent payments made directly to public housing agencies on behalf of aged, blind, or disabled recipients of financial assistance (section 409).

Three comments were received on the proposal: one favorable, one objecting to option to discontinue assistance after 90-day absence, and one pointing out the technical error in the statutory reference to section 402(a)(15)(B). The statute provides the discontinuation option. A technical amendment to correct the citation has been submitted. Therefore, no changes have been made and the proposed amendments are hereby adopted as set forth below.

Chapter II, of title 45 of the Code of Federal Regulations is amended as set forth below:

### PART 205—GENERAL ADMINISTRATION—PUBLIC ASSISTANCE PROGRAMS

1. Section 205.70 of part 205 is revised as follows:

**§ 205.70 Availability of agency program manuals.**

*State plan requirements.*—A State plan under title I, IV–A, IV–B, X, XIV, XVI, or XIX of the Social Security Act must provide that:

(a) Program manuals and other policy issuances which affect the public, including the State agency's rules and regulations governing eligibility, need and amount of assistance, recipient rights and responsibilities, and services offered by the agency, will be maintained in the State office and in each local and district office for examination on regular workdays during regular office hours by individuals, upon request for review, study, or reproduction by the individual.

(b) (1) A current copy of such material will be made available without charge or at a charge related to the cost of reproduction for access by the public through custodians who (i) request the material for this purpose, (ii) are centrally located and publicly accessible to a substantial number of the recipient population they serve, and (iii) agree to accept responsibility for filing all amendments and changes forwarded by the agency.

(2) Under this requirement the material, if requested, must be made available without charge or at a charge related to the cost of reproduction to public or university libraries, the local or district offices of the Bureau of Indian Affairs, and welfare or legal services offices or organizations. The material may also be made available, with or without charge, to other groups and to individuals. Wide availability of agency policy materials is recommended.

(c) Upon request, the agency will reproduce without charge or at a charge related to the cost of reproduction the specific policy materials necessary for an applicant or recipient, or his representative, to determine whether a fair hearing should be requested or to prepare for a fair hearing; and will establish policies for reproducing policy materials without charge, or at a charge related to cost, for any individual who requests such material for other purposes.

2. A new § 205.146 is added to Part 205, as set forth below, and part 233 is amended by deleting paragraph (b)(5) of § 233.10 and transferring its content to paragraph (a) of the new § 205.146:

**§ 205.146 Specific limitations on Federal financial participation under title IV–A.**

(a) *Penalty for failure to certify WIN registrants.*—Pursuant to section 403(c) of the act, notwithstanding any other provision of this chapter, the Federal share of assistance payments under title IV–A of the act, with respect to any State, for any fiscal year beginning on or after July 1, 1973, shall be reduced by 1 percentage point (calculated without regard to any other reduction under this section) for each percentage point by which the number of individuals certified to the manpower agency as ready for employment or training under the State's WIN program falls below 15 percent of the average number of individuals in the State who are required to be registered during such fiscal year. (See § 220.35(b)(5) of this chapter.)

(b) *Penalty for failure to offer and arrange for provision of family planning services under title IV–A of the Act.*—Pursuant to section 403(f) of the act, notwithstanding any other provision of this chapter, total payments to a State under title IV–A of the Act, for any fiscal year beginning on or after July 1, 1973, shall be reduced by 1 percent (calculated without regard to any other reduction under this section) if such State:

(1) In the immediately preceding fiscal year failed to carry out the provisions of section 402(a)(15) of the act, which require the offering and arrangement for provision of family planning services, or

(2) In the immediately preceding fiscal year (but in the case of the fiscal year beginning July 1, 1972, considering only the third and fourth quarters thereof), failed to carry out the provisions of section 402(a)(15) of the act with respect to any individual who within 3 months had been an applicant for or a recipient of AFDC under the State's approved title IV–A plan.

This penalty will be applied in accordance with instructions to be issued by SRS.

### PART 233—COVERAGE AND CONDITIONS OF ELIGIBILITY IN FINANCIAL ASSISTANCE PROGRAMS

3. Section 233.20 is amended by revising paragraph (d) as set forth below:

**§ 233.20 Need and amount of assistance.**

* * * * *

(d) *Other requirements.*—(1) Pass-on of part of the increase in OASDI benefits enacted in 1969. In the case of any individual who is a recipient of OAA, AB, APTD, or AABD for any month through December 1973 and in such month also receives OASDI benefits, the total of his aid or assistance for such month, plus OASDI benefits received in such month, shall exceed by $4 (or, if less, the amount of the increase in his OASDI benefits under Public Law 91–172) the sum of the OASDI benefits he would have received in such month without regard to the increase enacted by Public Law 91–172, plus the supplementary aid or assistance payment he would have received for such month under the applicable State plan as in effect for March 1970.

(2) Pass-on of part of the increase in OASDI benefits enacted in 1972. In addition to the amount specified in subparagraph (1) of this paragraph, in the case of any individual who is a recipient of OAA, AB, APTD, or AABD for any month after October 1972 (or, at the option of the State, September 1972) and before January 1974, and in such month also receives a monthly OASDI benefit which was increased as a result of the enactment of Public Law 92–336, the total of his aid or assistance for such month, plus OASDI benefits received in such month, shall exceed by $4 (or, if less, the amount of the increase in his OASDI benefit) the sum of the OASDI benefit he would have received in such month without regard to the increase enacted by Public Law 92–336, plus the supplementary aid or assistance payments he would have received for such month under the applicable State plan as in effect for October 1972 (or September 1972 if the State chose that option).

(3) The State agency must submit to the Regional Commissioner a description of the methods it uses to implement the requirements specified in paragraph (d)(1) and (2) of this section, and must submit promptly a description of any changes in such methods.

4. Section 233.40 is revised as set forth below:

**§ 233.40 Residence.**

(a) *Condition for plan approval.* A State plan under title I, IV–A, X, XIV, or XVI of the Social Security Act may not impose any residence requirement which excludes any individual who is a resident of the State, except as provided in paragraph (b) of this section. For purposes of this section:

(1) A resident of a State is one who is living in the State voluntarily with the intention of making his home there and not for a temporary purpose. A child is a resident of the State in which he is living other than on a temporary basis. Residence may not depend upon the reason for which the individual entered the State, except insofar as it may bear upon whether he is there voluntarily or for a "temporary purpose."

(2) Residence is retained until abandoned. Temporary absence from the State, with subsequent returns to the State, or intent to return when the purposes of the absence have been accomplished, does not interrupt continuity of residence.

(b) *Exception.* A State plan under title I, X, XIV, or XVI need not include an individual who has been absent from the State for a period in excess of 90 consecutive days (regardless of whether he has maintained his residence in the State during this period) until he has been present in the State for a period of 30 consecutive days (or a shorter period specified by the State) in the case of such individual who has maintained his residence in the State during such period of absence or for a period of 90 consecutive days (or a shorter period as specified by the State) in the case of any other such individual. An individual thus excluded under any such plan may not, as a consequence of that exclusion, be excluded from assistance under the State's title XIX plan if otherwise eligible under the title XIX plan (see § 248.40 of this chapter).

5. Section 233.145 of part 233, chapter II, title 45 of the Code of Federal Regulations is revised to read as follows:

**§ 233.145 Expiration of medical assistance programs under titles I, IV–A, X, XIV and XVI of the Social Security Act.**

(a) Under the provisions of section 121 (b) of Public Law 89–97, enacted July 30, 1965, no payment may be made to any State under title I, IV–A, X, XIV or XVI of the Social Security Act for aid or assistance in the form of medical or any other type of remedial care for any period after December 31, 1969. However, these provisions do not affect the availability of Federal financial participation in the cost of medical or remedial care furnished under title IV–A of the Act (pursuant to sections 403(a)(5) and 406(e)) of the Act, as emergency assistance to needy families with children (see § 233.120 of this part), subject to the provisions of paragraph (c)[1] of this section. Federal financial participation in vendor payments for medical care and services is not otherwise available except under title XIX of the Act.

(b) Under the provisions of section 4(c) of Public Law 92–223, enacted December 28, 1971, and the provisions of section 292 of Public Law 92–603, enacted October 30, 1972:

(1) In the case of any State which on January 1, 1972, had in effect a State plan approved under title XIX of the Social Security Act, section 1121 of the Act authorizing payments under title I, X, XIV, or XVI of the Act for assistance in the form of institutional services in

[1] See notice published 8/29/73 (38 FR 23337).

V 38 182 SEP 20 73 XUM

intermediate care facilities is rescinded; and

(2) In the case of any State which on January 1, 1972, did not have in effect a State plan approved under title XIX of the act, Federal financial participation is available in assistance in the form of institutional services in intermediate care facilities pursuant to section 1121 of the act and under the provisions of § 234.130 of this chapter until the first day of the first month after January 1, 1972, that the State has in effect a State plan approved under title XIX.

## PART 234—FINANCIAL ASSISTANCE TO INDIVIDUALS

6. A new § 234.75 is added to Part 234, as set forth below:

**§ 234.75 Rent payments to public housing agencies.**

At the option of a State, if its plan approved under title I, X, XIV, or XVI of the Social Security Act so provides, Federal financial participation under such title is available in rent payments made directly to a public housing agency on behalf of a recipient or a group or groups of recipients of OAA, AB, APTD, or AABD. Such Federal financial participation is available in rent payments only to the extent that they do not exceed the amount included for rent under the State's standard of assistance or the amount of rent due under applicable law, whichever is less.

7. Section 234.120 is revised to read as set forth below:

**§ 234.120 Federal financial participation.**

Federal financial participation is available in assistance payments made under a State plan under title I, IV–A, X, XIV, or XVI of the Social Security Act to any family or individual for periods beginning with the month in which they meet all eligibility conditions under the plan and in which an application has been received by the agency. Such assistance payments include:

(a) Money payments (titles I, IV–A, X, XIV, and XVI, see § 234.11 of this chapter);

(b) Protective and vendor payments for dependent children (title IV–A, see § 234.60 of this chapter);

(c) Protective payments for the aged, blind, or disabled (titles I, X, XIV, and XVI, see § 234.70 of this chapter);

(d) AFDC foster care payments (title IV–A, see § 233.110 of this chapter);

(e) Vendor payments for institutional services in intermediate care facilities (titles I, X, XIV, and XVI), but only in a State that did not, as of January 1, 1972, have an approved plan under title XIX of the act, and only until such State has such a plan in effect (see § 234.130 of this chapter);

(f) Emergency assistance to needy families with children (title IV–A, see § 233.120 of this chapter);

(g) Vendor payments for home repairs (titles I, IV–A, X, XIV, and XVI, see § 233.20(c) of this chapter); and

(h) Rent payments to public housing agencies (titles I, X, XIV, and XVI, see § 234.75 of this chapter).

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302).)

*Effective date.*—The regulations are effective October 30, 1972, except as otherwise specified for § 205.146.

(Catalog of Federal Domestic Assistance Program No. 13.754, Public Assistance-Social Services and No. 13.761, Public Assistance-Maintenance Assistance (State Aid).)

## Title 47—Telecommunication

## CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19677; FCC 73-943]

## PART 73—RADIO BROADCAST SERVICES

### Table of Assignments; FM Broadcast Stations

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Richlands, Virginia, and Welch, West Virginia); RM–1949, and RM–1911.

1. The Commission has before it the notice of proposed rulemaking in this proceeding adopted January 31, 1973 (FCC 73–129, 38 FR 3998) and responsive comments filed by Clinch Valley Broadcasting Corporation ("Clinch") and by Pocahontas Broadcasting Company ("Pocahontas").

2. Clinch and Pocahontas each seek the assignment of Channel 288A. Clinch wishes it assigned to Richlands, Virginia, and Pocahontas to Welch, West Virginia. Neither the showings of the parties nor our own study has indicated the availability of another channel for assignment to either community. Thus, even though there is merit in both of the proposals, it will be possible to accommodate only one of them. In essence, then, it is necessary to make a comparison between them and to determine which possible use would be preferable.

3. Before examining the merits of the conflicting proposals, there is one procedural matter to resolve. That involves the filing of supplemental pleadings by each of the parties. Pocahontas filed a separate motion seeking acceptance of its pleadings; Clinch's request for consideration of its supplemental pleading was contained in the pleading itself. Clinch has opposed the Pocahontas motion. In its motion Pocahontas asserts that Clinch introduced new engineering data in a supplemental pleading to which Pocahontas should be entitled to respond as it did by the filing of its pleading. Alternatively, Pocahontas seeks rejection of both sets of supplemental pleadings. Clinch's response is that it was Pocahontas that first introduced new issues in its reply comments, something contrary to applicable procedural requirements.

4. At times we have authorized the acceptance of supplemental pleadings, and indeed, in some instances, justice clearly requires such action. Nevertheless, we do not do so with regularity lest we undermine our processes. Thus, a substantial showing is required before we could make an affirmative finding. In this case, Clinch's argument is only that it too is entitled since Pocahontas was the first to introduce new data in its reply comments. Nowhere is there a real explanation for the late raising of the new material or any indication it could not have been raised earlier. Under these circumstances we do not intend to accept the late-filed pleadings nor to accept any new showing first advanced in a reply. One other point needs to be made in this connection. All of the improperly raised matters related to engineering issues. Although the issues are important ones, most of the showings would have been unsatisfactory even if they had been submitted properly. This being the case, the Commission has conducted its own study, which is discussed below.

5. Although extensive pleadings have been filed, the questions to be addressed are relatively few. Each of these questions however, has been given lengthy attention, particularly the matter of first FM service that the proponents think one or the other possible assignment might provide. The simple answer to this point is that neither would be able to provide a first FM service. This determination is based on the Commission's own calculations and no substantial evidence has been submitted to support a contrary conclusion.[1] Our calculations, however, do show a notable difference between the proposals in terms of their being able to provide a second FM service. A Richlands station could provide a second FM service to approximately 50 percent of the area it would cover, in contrast to a figure of about 5 percent for a Welch operation. We shall return to this distinction subsequently.

6. Richlands has a population of 4,843, and the county in which it is located (Tazewell) has a population of 39,816. The only local service in Richlands is provided by a daytime-only AM station. Welch has a population of 4,149 and McDowell County in which it is located, has a population of 50,666. Welch is served by a daytime-only AM station and by a Class IV full-time station. Since neither of these communities has an FM assignment[2], a strong case could be made for making a first FM assignment to either of them. Lengthy description of local activities is not required here because we do not question the ability of either community to support a station. Nor need we delve into the particular of their economies or population growth or decline. The fact is that both are in a coal mining region and have felt the impact of the decline in coal mining and its recent resurgence. Both are some distance from larger cities in the region. Thus in overall terms, their general situations are similar.

7. Of the distinguishing factors, the only ones that favor Welch are the larger size of its county (of which it is the seat) and the county's lack of an FM assignment. The situation affecting the county is not the principal basis upon which an assignment is premised. Rather, an assignment is made to a particular community, based on its need and on the ability of a station there to bring a needed service to its coverage area. In these terms, Richlands is to be preferred. It is larger; it has fewer stations and locating a station there would mean the bringing of a second FM service to a far larger area. We also note that Welch has a daily newspaper, Richlands only a weekly. All of these points are of significance and in sum, they make the case clear. Our view is not altered by the fact that Richlands' county already has FM stations, since they are well removed from Richlands. The presence or absence of other services in the county is of importance, but that importance declines sharply with distance. Likewise the suggestion of Pocahontas that an AM station could be built in Richlands is not only speculative, but the showing supporting the assertion was defective as well. Richlands may not be as centrally located in its county as is Welch, but this is of little significance since virtually all of Welch's proposed coverage area already receives two FM services. The balance is clear: Richlands is the preferable location for the assignment.[3]

8. Accordingly, *it is ordered*, That effective October 26, 1973, the FM Table of Assignments (Section 73.202(b)) is amended to read as follows for the community listed:

| City: | Channel No. |
|---|---|
| Richlands, Va | 288A |

9. *It is further ordered*, That Pocahontas' Motion to Accept Additional Pleading is denied and all unauthorized pleadings by both parties are rejected and those portions of the Pocahontas reply comments which, contrary to our rules, raised new issues are stricken.

10. Authority for the actions taken herein is contained in secs. 4(i), 303 and 307(b) of the Communications Act of 1934, as amended. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307).)

Adopted September 11, 1973.

Released September 14, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[4]
VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc. 73-20010 Filed 9-19-73;8:45 am]

[1] The listening test using a single FM car radio on which Pocahontas attempted to rely is without weight, as is its speculation on shadowing based on assumptions and lacking in data or calculations of any type.

[2] Welch once had an FM station operating on a channel assigned to Bluefield, West Virginia. That station was moved some years ago to Bluefield, Virginia. We do not see in this departure of the station from Welch any basis for different treatment than the present case would otherwise merit.

[3] In order to meet spacing requirements a site five miles northeast of the community would have to be used. Clinch has satisfactorily established that it would be able to provide the requisite city coverage from such location, without suffering significant shadowing problems.

[4] Commissioner Robert E. Lee absent.

[Docket No. 19756]

## PART 74—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST AND OTHER PROGRAM DISTRIBUTIONAL SERVICES

### Subpart H—Television Broadcast Booster Stations

REPORT AND ORDER TERMINATING PROCEEDING

Adopted September 11, 1973, released September 14, 1973 by the Commission (Commissioner Robert E. Lee absent).

1. As a result of our Task Force study on re-regulation of broadcasting, we issued a Notice of Proposed Rule Making, released June 5, 1973 (FCC 73–590), looking toward deletion of Subpart H, concerning Television Broadcast Booster Stations, Part 74 of our Rules and Regulations. Closing dates for comments and reply comments were July 16 and July 26, 1973, respectively. Publication was made in the Federal Register on June 11, 1973 (38 F.R. 15374).

2. Rules implementing the service of television broadcast booster stations were promulgated by Report and Order in Docket No. 11331, adopted May 20, 1960, 20 Pike and Fischer R.R. 1505. Such stations are essentially co-channel amplifying transmitters by which the licensee of a UHF television broadcast station may boost its signal where the strength of such signal is low within the station's theoretical Grade A contour.

3. Deletion of Subpart H was proposed on the ground that it serves no useful purpose. There are no stations authorized under this subpart. Construction permits were granted for two such stations in 1960 and 1961, and each was cancelled at the request of the permittee after two-and-one-half months. No licenses were ever issued. No applications have been filed in this service since 1961. It appears unlikely that there would be any requests for television booster stations in the future, inasmuch as conventional translators are available and more practical.

4. No comments were filed in this proceeding.

5. Lack of interest in or utilization of this service appears to have resulted from at least two practical considerations. First, inherent in the co-channel operation of TV boosters are technical difficulties of avoiding undesirable interference. Second, the use of TV translators has been a satisfactory and preferable alternative.

6. We conclude that Subpart H serves no useful purpose and that its deletion from our Rules and Regulations would be in the public interest.

7. In view of the foregoing, *it is ordered*, That, effective October 26, 1973, Part 74 of the Commission's rules and regulations is amended by deleting the provisions of Subpart H in its entirety (§§ 74.801–74.884) and designating it as Reserved.

8. Authority for the action taken herein is contained in secs. 4(i) and 303 (j) and (r) of the Communications Act of 1934, as amended, and Sections 1.425 and 1.427(a) of the Commission's rules and regulations.

9. *It is further ordered*, That this proceeding is terminated.

Adopted September 11, 1973.

Released September 14, 1973.

## PART 91—INDUSTRIAL RADIO SERVICES

### Non-Government Fixed and Land Mobile Telemetering Operations; Correction

In the matter of amendment of Parts 2, 89, 91 and 93 of the Commission's Rules to Permit non-Government Fixed and Land Mobile Telemetering in the Band 1427–1435 MHz on a secondary basis.

In the Report and Order in Docket 19451, FCC 73–757, released July 24, 1973, and published in the FEDERAL REGISTER on August 1, 1973 (38 FR 20435), § 91.554(b) was amended by adding limitations (48) and (49). This is corrected to specify limitations (49) and (50).

Released: September 12, 1973.

## Title 50—Wildlife and Fisheries

## CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, DEPARTMENT OF THE INTERIOR

## PART 32—HUNTING

### Bitter Lake National Wildlife Refuge, New Mexico

The following special regulation is issued and is effective on September 20, 1973.

[1] Commissioner Robert E. Lee absent.

V38-1820 SEP 20 1973 XUM

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

NEW MEXICO

BITTER LAKE NATIONAL WILDLIFE REFUGE

The public hunting of ring-necked and white-winged pheasants, quail, and rabbits on the Bitter Lake National Wildlife Refuge, N. Mex., is permitted as follows: Pheasants, from December 15, 1973 through December 18, 1973, inclusive; quail from November 10, 1973 through January 27, 1974, inclusive; rabbits from November 6, 1973 through January 20, 1974, inclusive, only in the areas open to waterfowl hunting. These areas, comprising 3,320 acres, are delineated on maps available at refuge headquarters, 13 miles northeast of Roswell, N. Mex., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex. 87103.

Hunting shall be in accordance with all applicable State regulations governing the hunting of pheasants, quail, and rabbits.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 27, 1974.

BARNET W. SCHRANCK,
*Refuge Manager, Bitter Lake National Wildlife Refuge, Roswell, N. Mex.*

SEPTEMBER 13, 1973.

## PART 32—HUNTING

### Brigantine National Wildlife Refuge, New Jersey

The following special regulation is issued and is effective during the period September 20, 1973 through January 1, 1974.

§ 32.12 Special regulations; migratory game birds, for individual wildlife refuge areas.

NEW JERSEY

BRIGANTINE NATIONAL WILDLIFE REFUGE

Public hunting of rails, gallinules, waterfowl, and coots on the Brigantine National Wildlife Refuge, New Jersey, is permitted during established State and Federal seasons on only those areas designated by signs as open to hunting.

These open areas are delineated as Hunting Units 1 and 2 on maps available at refuge headquarters, Oceanville, New Jersey 08231, or from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Massachusetts 02109.

Hunting shall be in accordance with State and Federal regulations covering the hunting of migratory game birds.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, as set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 30, 1974.

## PART 32—HUNTING

### Lacreek National Wildlife Refuge, South Dakota

The following special regulation is issued and is effective on September 20, 1973.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

SOUTH DAKOTA LACREEK NATIONAL WILDLIFE REFUGE

Public hunting of ducks and coots on the Lacreek National Wildlife Refuge, South Dakota, is permitted from October 6 through December 4, 1973, but only on the area designated by signs as open to hunting. This open area, known as the Little White River Recreation Area and comprising 310 is delineated on a map available at the refuge headquarters, Martin, South Dakota 57551, and from the Area Manager, Bureau of Sport Fisheries and Wildlife, Federal Building, Pierre, South Dakota 57501. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks and coots.

In addition to the regular duck and coot season, the same area described above will be open from December 16 through December 31, 1973, for the hunting of mallards only in accordance with the State of South Dakota's High Plains Mallard Season.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 30, 1973.

HAROLD H. BURGESS,
*Refuge Manager, Lacreek National Wildlife Refuge, Martin, South Dakota.*

SEPTEMBER 11, 1973.

## PART 32—HUNTING

### Parker River National Wildlife Refuge, Massachusetts

The following special regulation is issued and is effective during the period October 20, 1973 through January 31, 1974.

§ 32.12 Special regulations; migratory game birds, for individual wildlife refuge areas.

MASSACHUSETTS

PARKER RIVER NATIONAL WILDLIFE REFUGE

Public hunting of waterfoul and coots on the Parker River National Wildlife Refuge, Massachusetts, is permitted only on the areas designated by signs as open to hunting. These open areas, comprising 1,900 acres, and known as the Pine Island Hunting Area, Parker River Hunting Area, Nelson's Island Hunting Area, and the Youth Hunting Area, are delineated on maps available at refuge headquarters, Newburyport, Massachusetts or from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Massachusetts 02109. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of migratory game birds, subject to the following special conditions:

(1) The number of hunters on the Pine Island Area will be limited to 100 each day, Parker River Area to 50 each day, and the Nelson's Island Area to 50 each day. Participation will be on a first-come, first-served basis from Monday through Friday, except holidays and opening day. Participation on opening day, Saturdays, and holidays will be by advance permit secured via mail. Hunters on all three areas are limited to 25 shotshells per day.

(2) The Youth Hunting Area will be open during the regular State waterfowl season for Young Waterfowl trainees on selected days except Sundays under the provisions of this special program. Young Waterfowl trainees who hunt will be required to participate in the Bureau's iron shot program. Literature describing this program is available at the refuge headquarters.

The provisions of this special regulation supplement the regulations governing hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1974.

WILLARD M. SPAULDING,
*Acting Regional Director, Bureau of Sport Fisheries and Wildlife.*

SEPTEMBER 11, 1973.

## PART 32—HUNTING

### Lacreek National Wildlife Refuge, S. Dak.

The following special regulation is issued and is effective on September 20, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

SOUTH DAKOTA

LACREEK NATIONAL WILDLIFE REFUGE

Public hunting of upland game on the Lacreek National Wildlife Refuge, South Dakota, is permitted only on the areas designated by signs as open to hunting. The two open areas; Little White Recreation Area (310 acres) and Habitat Unit 10 (1,000 acres) are delineated on a map

available at the refuge headquarters, Martin, South Dakota 57551, and from the Area Manager, Bureau of Sport Fisheries and Wildlife, Federal Building, Pierre, South Dakota 57501. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of upland game subject to the following special conditions:

LITTLE WHITE RIVER RECREATION AREA

(a) Species permitted to be taken: Cock pheasants during the seasons specified below.

(b) Open season: Cock pheasants from noon to sunset daily October 20 through October 27th and 11 AM to sunset October 28 through November 23, 1973.

(c) The hunting of other upland species, as may be authorized by South Dakota State regulations, is permitted from October 20 through December 31, 1973.

HABITAT UNIT 10

(a) Species permitted to be taken; Cock pheasants during the season specified below. The hunting of other species, is prohibited on this unit.

(b) Open season: Cock pheasants from noon to sunset daily October 20 through October 27 and 11 AM to sunset October 28 through November 23, 1973.

(c) Access: Designated parking areas and entrance points will be available in the north and southwest corners of the hunting area. Entrance at any point other than the designated areas is prohibited.

(d) Permits: Hunting will be allowed by special permit-reports available at designated entrances.

The provisions of this special regulation supplement the regulations which govern hunting in wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective until February 28, 1974.

HAROLD H. BURGESS,
*Refuge Manager, Lacreek National Wildlife Refuge, Martin, South Dakota.*

## PART 32—HUNTING

### Ouray National Wildlife Refuge, Utah

The following special regulation is issued and is effective on September 20, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

UTAH

OURAY NATIONAL WILDLIFE REFUGE

Public hunting of pheasants on the Ouray National Wildlife Refuge, Utah, is permitted from November 10 through December 9, 1973, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 7,500 acres, is delineated on maps available at refuge headquarters, Vernal, Utah, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West 6th Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations covering the hunting of pheasants.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 9, 1973.

H. J. JOHNSON,
*Refuge Manager, Ouray National Wildlife Refuge, Vernal, Utah.*

# Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

[ 7 CFR Part 906 ]

### HANDLING OF ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

#### Proposed Expenses and Rate of Assessment for Fiscal 1973–74

This notice invites written comment relative to the proposed expenses of $680,000 and rate of assessment of $0.045 per 7/10 bushel carton or equivalent quantity of oranges and grapefruit, to support the activities of the Texas Valley Citrus Committee for the 1973–74 fiscal period under Marketing Order No. 906.

Consideration is being given to the following proposals submitted by the Texas Valley Citrus Committee, established pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in Lower Rio Grande Valley in Texas, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That expenses that are reasonable and likely to be incurred by the Texas Valley Citrus Committee, during the period August 1, 1973, through July 31, 1974, will amount to $680,000.

(2) That there be fixed at $0.045 per 7/10 bushel carton or equivalent quantity of oranges and grapefruit, the rate of assessment payable by each handler in accordance with § 906.34 of the aforesaid marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than October 1, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated September 17, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[FR Doc.73-20049 Filed 9-19-73;8:45 am]

[ 7 CFR Part 945 ]

### IRISH POTATOES GROWN IN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

#### Proposed Expenses and Rate of Assessment

Consideration is being given to the approval of a proposed $36,825 budget and a twenty six hundredths cent per hundredweight rate of assessment for the Idaho-Eastern Oregon Potato Committee, for its fiscal period ending May 31, 1974. This committee was established under Marketing Agreement No. 98 and Order No. 945, both as amended (7 CFR Part 945).

This marketing order program regulates the handling of Irish potatoes grown in Idaho and Malheur County, Oregon, under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112–A, Washington, D.C. 20250, not later than September 28, 1973. All written comments will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposals are as follows:

§ 945.226 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending May 31, 1974, by the Idaho-Eastern Oregon Potato Committee, for its maintenance and functioning, and for such purposes as the Secretary determines to be appropriate, will amount to $36,825.

(b) The rate of assessment to be paid by each handler in accordance with this part, shall be $0.0026 per hundredweight of potatoes handled by him as the first handler during the fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve to the extent authorized in § 945.44(b).

(d) Terms used in this section shall have the same meaning as when used in the marketing agreement and this part.

Dated September 17, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Food and Drug Administration

[ 21 CFR Part 27 ]

### CANNED GRAPEFRUIT

#### Proposed Amendment to Standards of Identity, Quality, and Fill of Container

*Correction*

In FR Doc. 73–17153, appearing at page 22408 in the issue of Monday, August 20, 1973, make the following changes:

1. In the third column on page 22409, "3. *Flavours*", should read "3.2 *Flavours*".

2. In the nineteenth line of the first incomplete paragraph in the third column on page 22411, the figures in the parenthesis reading "2.2.3" should read "2.3.3".

3. In the first line of § 27.91(b)(1)(vi), "*Accepted number* (c).", should read "*Acceptance number* (c)."

### Office of the Secretary

[ 45 CFR Part 83 ]

### NONDISCRIMINATION ON THE BASIS OF SEX UNDER TITLES VII AND VIII OF THE PUBLIC HEALTH SERVICE ACT

Pursuant to section 215(b) of the Public Health Service Act (42 U.S.C. 216(b)), the Director of the Office for Civil Rights, with the approval of the Secretary of Health, Education, and Welfare, hereby gives notice that he proposes to revise Part 83 of Title 45 of the Code of Federal Regulations to read as set forth below.

This also constitutes notice that, upon publication in final form of the revised Part 83, (1) HEW Form 590A (3/72) and HEW Form 590C (6/72)—*Explanation of HEW Form 590, Assurance of Compliance with Section 799A of Part H, Title VII, of the Public Health Service Act, and Section 845 of Part C, Title VIII, of the Public Health Service Act*—will no longer be in effect, (2) HEW Form 590 (3/72)—*Assurance of Compliance with Public Health Service Act Sections 799A and 845*—and HEW Form 590B (6/72)—*Assurance of Compliance with 45 CFR Part 83*—will be considered to be modified by the deletion of the second paragraphs of those forms, and (3) any entity which has, before publication in final form of the revised Part 83, submitted HEW Form 590 or HEW Form 590B to the Director will be considered to have filed a satisfactory assurance of compliance with the revised Part 83 unless (i) that assurance is rejected in writing by the Director or (ii) the entity notifies the Director that it no longer intends to comply with its assurance.

Persons who wish to submit comments, suggestions, or objections pertaining to these revised regulations may present their views in writing to the Director of the Office for Civil Rights of the Department of Health, Education, and Welfare, 330 Independence Avenue, SW., Washington, D.C., 20201, on or before October 23, 1973. Comments received in response to this notice will be available for public inspection in Room 3256, 330 Independence Avenue, SW., Washington, D.C. 20201, between 9:00 a.m. and 5:30 p.m. Monday through Friday (except Federal holidays).

Dated August 1, 1973.

PETER E. HOLMES,
*Director, Office for Civil Rights.*

Approved September 17, 1973.

*Secretary, Health, Education, and Welfare.*

### PART 83—REGULATION FOR THE ADMINISTRATION AND ENFORCEMENT OF SECTIONS 799A AND 845 OF THE PUBLIC HEALTH SERVICE ACT

#### Subpart A—Purposes; Definitions; Coverage

Sec.
83.1 Purpose.
83.2 Definitions.
83.3 Coverage.
83.4 Effect of title IX of the Education Amendments of 1972.

#### Subpart B—Discrimination in Admissions Prohibited

83.10 General obligations.
83.11 Specific discriminatory acts prohibited.
83.12 Recruitment.
83.13 State law and licensure requirements.
83.14 Development and dissemination of nondiscrimination policy.
83.15 Designation by entity of responsible employee.

#### Subpart C—Procedures

83.20 Procedures for the submission of assurances and evaluation of compliance status.
83.21 Compliance information.
83.22 Review or other investigation.
83.23 Actions by entities against students and employees.
83.24 Procedures for effecting compliance.
83.25 Administrative proceedings.
83.26 Decision, notice, and review.

AUTHORITY: Section 215(b) of the Public Health Service Act, 42 U.S.C. 216(b).

#### Subpart A—Purposes; Definitions; Coverage

§ 83.1 Purposes.

(a) The purposes of this part of (1) to effectuate the provisions of sections 799A and 845 of the Public Health Service Act, which forbid the extension of Federal support under title VII or VIII of that Act to any entity of the types described in those sections unless that entity submits to the Secretary of Health, Education, and Welfare an assurance satisfactory to him that it will not discriminate on the basis of sex in the admission of individuals to its training programs, and (2) to implement the policy of the Secretary that no Federal support will be extended under those titles to any other entity unless that entity submits to the Secretary an assurance satisfactory to him that it will not discriminate on the basis of sex in the admission of individuals to its training programs.

(b) The objective of this part is to abolish use of sex as a criterion in the admission of individuals to every training program operated by an entity receiving support under title VII or VIII of the Act, and thereby to foster maximum use of all available human resources in meeting the Nation's needs for qualified health personnel. Sections 799A and 845 and this part do not prohibit consideration of sex, or any action based on sex, where that consideration or action is designed to overcome the effects of prior discriminatory policies or practices.

§ 83.2 Definitions.

As used in this part, the term—

(a) *"Act"* means the Public Health Service Act;

(b) *"Administrative law judge"* means a person appointed by the Reviewing Authority to preside over a hearing held under this part.

(c) *"Assurance commitment clause"* means a clause in an invitation for a contract offer extended by the Federal Government under title VII or VIII of the Act which, when executed by an entity as part of such offer, becomes, upon acceptance of such offer by the Federal Government, a contractual obligation of such entity to comply with its assurance submitted to the Director under this part.

(d) *"Department"* means the Department of Health, Education, and Welfare.

(e) *"Director"* means the Director of the Office for Civil Rights of the Department.

(f) *"Entity"* means

(1) A school of medicine, school of dentistry, school of osteopathy, school of pharmacy, school of optometry, school of podiatry, school of veterinary medicine, or school of public health, as defined by section 724 of the Act;

(2) A school of nursing, as defined by section 843 of the Act;

(3) A school or college of a training center for an allied health profession as defined by section 795 of the Act, or of another institution of undergraduate education which school or college can provide a training program;

(4) An affiliated hospital, as defined by section 724 or 795 of the Act; and

(5) Any other institution, organization, consortium, or agency which is eligible to receive Federal support.

(g) *"Federal support"* means assistance extended after November 18, 1971, under title VII or VIII of the Act to an entity by means of a grant to, a contract with, or a loan guarantee or interest subsidy payment made on behalf of, such entity.

(h) *"Federally supported entity"* means an entity which receives Federal support.

(i) *"Reviewing authority"* means that component of the Department to which the Secretary delegates authority to review the decision of an administrative law judge in a proceeding arising under this part.

(j) *"Secretary"* means the Secretary of Health, Education, and Welfare.

(k) *"Training program"* means a program of training described by section 724(4) of the Act, a program of education described by, or specified by regulations pursuant to, section 795(1) of the Act, a program of education described by section 843(c), 843(d), or 843(e) of the Act, and a program leading to any license or certification requisite to the practice of a health profession for which a degree specified in any such section is granted.

§ 83.3 Coverage.

(a) If an entity receives Federal support for any of its training programs, all of its training programs thereby become subject to this part.

(b) The obligation imposed by this part on a Federally supported entity not to discriminate on the basis of sex in the admission of individuals to a training program includes not only the obligation not to discriminate on such basis in the selection of individuals for such program, but also the obligation not to discriminate on such basis against individuals after their selection for such program.

(c) If a training center for allied health professions gives to students admitted to an undergraduate program of such center preference for enrollment in any training program of such center over individuals not admitted to such undergraduate program, or gives such students exclusive access to enrollment in any such training program, the obligations imposed by this part shall apply to such undergraduate program.

(d) An entity shall not discriminate on the basis of sex in violation of this part for as long as such entity receives or benefits from Federal support. For purposes of the preceding sentence, an entity shall be deemed to continue to receive or benefit from Federal support for as long as it retains ownership, possession, or use of property which has a remaining useful life and which was acquired in whole or in part with Federal support. If an entity receives value for property which was acquired in whole or in part with Federal support and such value is applied toward the acquisition of other property, such entity shall be deemed to continue to receive or benefit from such support for as long as such other property has a useful life and such entity retains ownership, use, or possession of such other property.

(e) An entity shall not transfer property which was acquired, constructed, altered, repaired, expanded, or renovated

V 38-182 SEP 20 73 XUM

in whole or in part with Federal support unless the agency, organization, or individual to whom such property is to be transferred has submitted to the Director, and he has found satisfactory, an assurance of compliance with this Part. The preceding sentence shall not apply with respect to any real property for which payments have been recaptured by the United States under title VII or VIII of the Act or with respect to any other property for which the transferring entity has refunded to the Federal Government, or otherwise properly accounted for, the Federal share of the fair market value of such property.

**§ 83.4 Effect of title IX of the Education Amendments of 1972.**

(a) The obligations imposed by this part are independent of obligations imposed by title IX of the Education Amendments of 1972 and any regulations promulgated thereunder.

**§§ 83.5 through 83.9 [Reserved]**

## Subpart B—Discrimination in Admissions Prohibited

**§ 83.10 General obligations.**

(a) *Eligibility for support.* No entity will be provided Federal support unless such entity has furnished the Director assurances satisfactory to him that it will not discriminate on the basis of sex, in violation of this part, in the admission of individuals to each of its training programs.

(b) *Eliminating the effects of discrimination.* An assurance of compliance with this part will not be satisfactory to the Director if the entity submitting such assurance fails to take whatever action is necessary for such entity to eliminate the effects of any discrimination on the basis of sex in the admission of individuals to its training programs which such entity practiced prior to the submission to the Director of such assurance, or practices at the time of or subsequent to such submission. The Director may require such entity, as a condition to determining that its assurance is, or remains, satisfactory, to take specific actions, or to submit to him specific information, bearing upon compliance with this part.

**§ 83.11 Specific discriminatory acts prohibited.**

(a) *Discrimination in selection.* In determining whether an individual satisfies any enrollment, eligibility, or other condition for selection for a training program, a Federally supported entity shall not:

(1) On the basis of sex, give preference to one individual over another by ranking applicants on such basis, or otherwise give such preference; or

(2) Otherwise treat one individual differently from another on the basis of sex.

(b) *Discrimination in the provision of benefits and services.* In providing financial aid or any other benefit, or in providing any service, to an applicant for a training program or to a student enrolled in such program, no Federally supported entity shall on the basis of sex:

(1) Treat one individual differently from another in determining whether such individual satisfies any requirement or condition for the provision of such benefit or service;

(2) Provide a different benefit or service, or provide a benefit or a service in a different manner;

(3) Deny an individual any such benefit or service;

(4) Subject an individual to separate treatment or rules of behavior;

(5) Discriminate against an individual by assisting an agency, organization, or individual in providing, in a manner which discriminates on the basis of sex, a benefit or service (except housing) to applicants for or students enrolled in a training program; or

(6) Otherwise limit any individual in the enjoyment of any right, privilege, advantage, or opportunity.

(c) *Housing.* If a Federally supported entity provides housing for any students enrolled in its training programs, housing units made available by such entity to such students of one sex shall be comparable in quantity and quality to housing units so made available to such students of the other sex. A Federally supported entity shall not on the basis of sex limit the housing opportunities of applicants for or students enrolled in its training programs by its policies or practices relating to the granting or withholding of permission for such applicants or students to use housing other than that operated or controlled by such entity. If a Federally supported entity assists, through solicitation, listing, or approval of housing, or otherwise, an agency, organization, or individual in providing housing to such students, such entity shall take such action as may be necessary to insure that housing provided with such assistance to such students of one sex is comparable in quantity and quality to that provided to such students of the other sex. A Federally supported entity shall apprise such students and applicants of the availability of housing operated or controlled by such entity as well as other housing opportunities which may exist in the community.

(d) *Inter-institutional programs.* If a Federally supported entity aids participation, by any applicant for or student enrolled in any of its training programs, in any program or activity of another organization or agency, such entity shall:

(1) Develop and implement a procedure to assure itself that such organization or agency takes no action with respect to such applicants or students which this Part would prohibit such entity from taking; and

(2) Not aid such participation if such organization or agency takes such action.

(e) *Discrimination in employment prohibited.* A Federally supported entity shall not discriminate on the basis of sex in employment practices relating to its professional and other staff who work directly with applicants for or students enrolled in any of its training programs.

**§ 83.12 Recruitment.**

(a) *Comparable recruitment.* A Federally supported entity shall, with respect to each of its training programs, make comparable efforts to recruit members of each sex in the geographic area from which such entity attracts its students. A Federally supported entity shall not recruit for any of its training programs exclusively or primarily at organizations or agencies which admit as members or students, or which provide a service for, only members of one sex unless such entity can demonstrate that such action is part of a recruitment program which does not have the effect of discriminating on the basis of sex in selection for a training program.

(b) *Recruitment practices.* A Federally supported entity shall:

(1) Prominently include a statement of its policy of nondiscrimination on the basis of sex in each announcement, bulletin, catalogue, or application form which describes the training program of such entity or is used in connection with the recruitment of employees who will work directly with applicants for or students enrolled in a training program;

(2) Distribute without discrimination on the basis of sex any announcements, bulletins, catalogues, or other materials used in connection with the recruitment of students for a training program or employees who will work directly with applicants for such program or with such students; and

(3) Apprise each of its recruitment representatives of its policy of nondiscrimination on the basis of sex, and require such representatives to adhere to such policy.

**§ 83.13 State law and licensure requirements.**

The obligation of an entity to comply with this Part is not obviated or alleviated by any State or local law which would render an applicant for or student enrolled in a training program ineligible on the basis of sex for any license or certificate requisite to the practice of the health profession for which such applicant seeks, or student pursues, training.

**§ 83.14 Development and dissemination of nondiscrimination policy.**

A Federally supported entity shall develop a written policy statement of nondiscrimination on the basis of sex, in accordance with this part, and shall publicize such statement to applicants, students, employees, and prospective employees. Such entity shall also publicize such statement to any institution or agency from which it recruits or attempts to recruit students or employees for its training programs.

**§ 83.15 Designation by entity of responsible employee.**

A Federally supported entity shall designate an employee who shall be responsible for its efforts to comply with this part, including the investigation of any complaint communicated to such entity alleging its noncompliance with this part.

**§§ 83.16 through 83.19 [Reserved]**

## Subpart C—Procedures

**§ 83.20 Procedures for the submission of assurances and evaluation of compliance status.**

(a) *Submission of assurance.* Except to the extent provided in the next sentence, after the Director determines that an assurance submitted to him by an entity under this part is satisfactory, such entity need not submit to him another assurance under this part unless the Director notifies such entity that such assurance is no longer satisfactory. An entity which submits to the Department a contract offer under title VII or VIII of the Act shall submit with such offer an executed assurance commitment clause.

(b) *Determination.* The Director will determine that an assurance submitted to him by an entity under this part is satisfactory unless (i) such assurance is not submitted to him in the form prescribed by him or (ii) he determines that such entity is unable or unwilling to comply with its obligations under this part. If the Director determines that an entity's assurance is not satisfactory under clause (i) or (ii) of the preceding sentence, he will attempt to secure a satisfactory assurance before he takes further action under this part.

**§ 83.21 Compliance information.**

(a) *Reports.* A Federally supported entity shall develop and maintain records containing such information as the Director requires for the purpose of carrying out his responsibilities under this part. Such entity shall also submit to the Director, at such time and in such form as he prescribes, any information he requires for that purpose.

(b) *Access to records and facilities.* (1) A Federally supported entity shall permit access by the Director during normal business hours to such of its books, records, accounts, and other sources of information as the Director determines to bear upon compliance with this part.

(2) A Federally supported entity shall permit the Director to make copies of any written information which he determines to bear upon compliance with this part.

(3) A Federally supported entity shall permit access to its facilities by the Director during normal business hours.

**§ 83.22 Review or other investigation.**

(a) *Submittal of information or complaints to the Director.* An individual who believes that he or she is or has been subjected to discrimination prohibited by this Part and who wishes to submit a complaint to the Director, should do so in writing. An individual who has information bearing upon the compliance of a Federally supported entity with this part and who wishes to submit such information to the Director should do so by any means of communication he desires to use. A written communication to the Director under this paragraph should provide the name of the person making the complaint or providing the information, his or her telephone number, the name and address of the Federally supported entity concerned, a descripton of the acts or policies alleged to be discriminatory or otherwise to bear upon compliance with this part, and the names of other persons who may have pertinent information.

(b) *Reviews.* The Director may review any practice or policy of a Federally supported entity which he determines bears upon its compliance with this part, or which he determines bears upon any complaint he has received concerning the subjection of any individual or class of individuals to discrimination prohibited by this part.

(c) *Results of investigation.* If, following a review of an entity's practices or policies, the Director determines that such entity is in compliance with this part, he will in writing so inform such entity and any individual whose complaint concerning such entity was considered during such review, indicating the basis for his determination. If the Director determines that such entity is probably not in compliance with this part, he will attempt to secure voluntary compliance by such entity. If such voluntary compliance cannot be secured, he will take further action under § 83.24.

**§ 83.23 Actions by entities against students and employees.**

A Federally supported entity shall permit the Director to interview any of its employees or students without a representative of such entity being present at such interview. A Federally supported entity shall take no adverse action with regard to any individual or group as a result of, or in regard to, (a) the participation of that individual or group in any activity of the Department undertaken pursuant to this part, or (b) any communication by that individual or group with the Director in regard to that entity's obligations under this part.

**§ 83.24 Procedures for effecting compliance.**

(a) The Director will institute administrative proceedings for the purpose of terminating, denying, or refusing to continue Federal support to an entity, or take other actions authorized by law, including referral to the Department of Justice with a recommendation for judicial enforcement proceedings, if he determines that:

(1) An assurance submitted by such entity under this part is not satisfactory; or

(2) Such entity has failed to comply with such assurance. The Director will not delegate his function under this paragraph.

(b) The Secretary will not, under title VII or VIII of the Act, make, or approve an application for a new grant to, or enter into a new contract with, or for the benefit of, an entity during the period beginning with the issuance by the Director to such entity of a notice of an opportunity for a hearing under this part and ending with final agency action, within the meaning of § 83.26(d), with respect to such entity's compliance with this part.

(c) If an administrative proceeding under this part results in a finding of noncompliance with this part by an entity, such entity will not subsequently be determined by the Director to be in compliance with this part until it has submitted to him an assurance of such compliance that is satisfactory to him. Such assurance shall be accompanied by evidence showing specifically and in detail the actions taken by such entity subsequent to such finding in order to achieve such compliance. If the Director determines that such assurance is not satisfactory, such entity may submit in writing to the Director a request for a hearing, specifying in detail why it believes such determination to be erroneous. After the Director receives such a request, he will give such entity an expeditious hearing.

**§ 83.25 Administrative proceedings.**

(a) *Imposition of sanctions.* No order under this part terminating, denying, or refusing to continue Federal support will become effective until there has been a finding on the record, after an opportunity for hearing, of failure by an entity to comply with this part, and such finding has become final as provided in § 83.26(d).

(b) *Opportunity for hearing.* (1) Whenever the Director determines that administrative proceedings will be instituted under § 83.24(a), notice of opportunity for a hearing will be given by registered mail, return receipt requested, to any Federally supported entity which is to be made a party. This notice will advise such entity of each alleged failure to comply with this part and of the matters of fact and law asserted as a basis for institution of the proceeding. Such notice will fix a period of not less than 20 days after the date of receipt of such notice within which such entity may request the Director to schedule the matter for hearing.

(2) A request by an entity for a hearing should be mailed to the Director by registered or certified mail.

(3) A party named in a notice of opportunity for hearing may waive such hearing and, in lieu thereof, may submit written information and argument for the record. Failure of a party to request a hearing under this section or to appear at a hearing for which a date has been set shall be deemed to be a waiver of such party's right to a hearing.

(c) *Place of hearings.* Hearings under this part will be held at the offices of the Department in Washington, D.C., unless the administrative law judge determines

V 38 I 182 SEP 20 73 XUM

that for the convenience of the parties another place will be selected. The Director will provide promptly and in writing to any party notice of any change in the time or place of a hearing.

(d) *Conduct of hearings.* (1) The Reviewing Authority shall appoint an administrative law judge to conduct a hearing under this part. Such hearing shall be conducted in accordance with procedures prescribed by the Director personally.

(2) A party to a hearing shall have the right to counsel and to a fair opportunity to present evidence and argument and to cross-examine witnesses.

(3) All testimony, documents, and other evidence offered or taken for the record shall be open to examination by the parties, and opportunity shall be given to refute facts and arguments advanced on either side of the issues. A transcript shall be made of the hearing, and the record shall consist of all documents filed from the date of the notice of opportunity for hearing, as well, as the transcript of the hearing and all exhibits made part thereof.

(4) Any individual (other than a Government employee on official business) who, having been invited or requested to appear and testify as a witness on the Government's behalf, attends at a time and place scheduled for a hearing under this part, shall be reimbursed for his or her travel and actual expenses of attendance in an amount not to exceed the amount payable under standardized travel regulations to a Government employee traveling on official business.

**§ 83.26 Decision, notice, and review.**

(a) *Decision by administrative law judge.* (1) Within 30 days after a hearing is held, or after such hearing is waived and written information and argument for the record are submitted, under this Part, the administrative law judge shall make an initial decision based on the entire record.

(2) If a party waives a hearing pursuant to § 83.25(b)(3) and does not submit written information and argument for the record, the administrative law judge shall make a final decision in writing based on the record as a whole.

(3) The administrative law judge shall mail a copy of a decision issued under paragraph (1) or (2) of this section to each party to the hearing.

(b) *Review by the Reviewing Authority.* A party shall have a right to review by the Reviewing Authority of the decision of the administrative law judge. To obtain such review, a party shall, within 20 days after the issuance of the initial decision of the administrative law judge, file with the Reviewing Authority exceptions to such decision with reasons for such exceptions. The Reviewing Authority shall give to each party a reasonable opportunity to file briefs or other written statements. A party may file responses to such exceptions, briefs, or statements within ten days after the filing of any such exception, brief, or statement with the Reviewing Authority.

(c) *Review in certain cases by the Secretary.* (1) In order for a party to obtain review of the decision of the Reviewing Authority, such party shall request such review in writing from the Secretary within 30 days after issuance of the decision by the Reviewing Authority. The Secretary's decision to undertake or not to undertake review will be communicated in writing, within 30 days after such request, to each party. Failure of a party to request a review by the Secretary will not be deemed by him to be a failure to exhaust administrative remedies for the purpose of obtaining judicial review. Review will be granted by the Secretary only where he determines that special and important questions of fact or law require such review, and the Secretary may grant or deny in whole or in part a request for review under this part.

(2) The Secretary will also review a decision on his own motion if he determines that such review is required by questions of fact or law relating to such decision. His decision to undertake such review will be communicated in writing, within 30 days after the issuance of the Reviewing Authority's decision, to each party and such review will be undertaken within 60 days after the date of such notification.

(d) *Final agency action for purposes of judicial review.* A decision under this section will become the final decision of the Department and will constitute final agency action within the meaning of section 704 of title 5 of the United States Code in the following manner:

(1) A decision by an administrative law judge pursuant to paragraph (a) will become final on the 21st day after such decision is made, unless prior to such day review by the Reviewing Authority has been requested under paragraph (b) of this section.

(2) A decision by the Reviewing Authority, under paragraph (b), will become final:

(i) On the 31st day following its issuance unless review by the Secretary is requested prior to such day under paragraph (c)(1) of this section, or unless the Secretary undertakes review on his own motion prior to such day under subparagraph (c)(2) of this section; or

(ii) On the 31st day following a request that the Secretary review such decision under paragraph (c)(1) of this section, unless the Secretary prior to such day grants such review.

(3) A decision of the Secretary under subparagraph (c) (1) or (2) of this section will become final on the day following its issuance.

APPENDIX

Public Health Service Act:

Section 724(4):

The terms "school of medicine", "school of dentistry", "school of osteopathy", "school of pharmacy", "school of optometry", "school of podiatry", "school of veterinary medicine", and "school of public health" mean a school which provides training leading, respectively, to a degree of doctor of medicine, a degree of doctor of dentistry or an equivalent degree, a degree of doctor of osteopathy, a degree of bachelor of science in pharmacy or doctor of pharmacy, a degree of doctor of optometry or and equivalent degree, a degree of doctor of podiatry or doctor of surgical chiropody, a degree of doctor of veterinary medicine or an equivalent degree, and a graduate degree in public health, and including advanced training related to such training provided by any such school * * *.

Section 795:

(1) The term "training center for allied health professions" means a junior college, college or university.

(A) Which provides, or can provide programs of education leading to a baccalaureate or associate degree or to the equivalent of either or to a higher degree in the medical technology, optometric technology, dental hygiene, or any of such other of the allied health professions curriculums as are specified by regulations, or which, if in a junior college provides a program (i) leading to an associate or an equivalent degree, (ii) of education in optometric technology, dental hygiene, or curriculums as are specified by regulation, and (iii) acceptable for full credit toward a baccalaureate or equivalent degree in the allied health professions or designed to prepare the student to work as a technician in a health occupation specified by regulations of the Surgeon General,

(B) Which provides training for not less than a total of twenty persons in such curriculums,

(C) Which, if in a college or university which does not include a teaching hospital or in a junior college, is affiliated (to the extent and in the manner determined in accordance with regulations) with such a hospital,

(D) Which is (or is in a college or university, which is) accredited by a recognized body or bodies approved for such purpose by the Commissioner of Education, or which is in a junior college which is accredited by the regional accrediting agency for the region in which it is located or there is satisfactory assurance afforded by such accrediting agency to the Surgeon General that reasonable progress is being made toward accreditation by such junior college, and

(E) In the case of an applicant for a grant under section 793, which, if the college or university does not include a school of medicine, school of osteopathy, school of optometry, or school of dentistry, as defined in paragraph (4) of section 724, as may be appropriate in the light of the training for which the grant is to be made, is affiliated (to the extent and in the manner determined in accordance with regulations) with such a school, * * *

Section 843:

* * * * * *

(b) The term "school of nursing" means a collegiate, associate degree or diploma school of nursing.

(c) The term "collegiate school of nursing" means a department, division, or other administrative unit in a college or university which provides primarily or exclusively a program of education in professional nursing and allied subjects leading to the degree of bachelor of arts, bachelor of science, bachelor of nursing, or to an equivalent degree, or to a graduate degree in nursing, and including advanced training related to such program of education provided by such school, but only if such program, or such unit, college or university is accredited.

(d) The term "associate degree school of nursing" means a department, division, or other administrative unit in a junior college, community college, college or university which provides primarily or exclusively a two-year program of education in professional nursing and allied subjects leading to an associate degree in nursing or to an equivalent degree, but only if such program, or such unit, college, or university is accredited.

(e) The term "diploma school of nursing" means a school affiliated with a hospital or university, or an independent school, which provides primarily or exclusively a program of education in professional nursing and allied subjects leading to a diploma or to equivalent indicia that such program has been satisfactorily completed, but only if such program, or such affiliated school or such hospital or university or such independent school is accredited.

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

### [ 14 CFR Part 71 ]

[Airspace Docket No. 73-GL-43]

### TRANSITION AREA

### Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Ashland, Ohio.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before October 23, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief.

Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new public use instrument approach procedure has been developed for the Ashland County Airport, Ashland, Ohio, utilizing a non-Federal nondirectional beacon as a navigational aid. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Ashland, Ohio. The new procedure will become effective concurrently with the designation of the transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is added:

ASHLAND, OHIO

That airspace extending upward from 700 feet above the surface within a 5½-mile radius of the Ashland County Airport (latitude 40°54'11" N., longitude 82°15'21" W.); within 3 miles each side of the 002° bearing from the airport extending from the 5½-mile-radius area to 12 miles north of the airport excluding that portion which overlies the Mansfield, Ohio transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on September 5, 1973.

R. O. ZIEGLER,
*Acting Director,*
*Great Lakes Region.*

[FR Doc.73-20004 Filed 9-19-73;8:45 am]

### [ 14 CFR Part 139 ]

[Docket No. 13202; Notice No. 73-25]

### CERTIFICATION OF AIRPORTS SERVING CAB-CERTIFICATED AIR CARRIERS

### Clarification of Serving

The Federal Aviation Administration is considering amending Part 139 of the Federal Aviation Regulations to clairfy, and make more specific, the meaning of the term "serving" used in prescribing the applicability of Part 139 and certain of the provisions contained in the part.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before October 22, 1973, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Part 139 of the Federal Aviation Regulations provides for the issuance of airport operating certificates for land airports serving CAB-certificated air carriers. As originally adopted, Part 139 was applicable only to land airports serving "scheduled" air carriers operating large aircraft (other than helicopters). Amendment 139-1 (38 FR 9795), published in the FEDERAL REGISTER on April 20, 1973, amended Part 139, effective May 21, 1973, to make the Part applicable to all airports serving air carriers certificated by the Civil Aeronautics Board. As noted in the preamble to Amendment 139-1, the FAA recognized that the additional airports to which Part 139 would be applicable by virtue of Amendment 139-1 would not be able to comply with all of the requirements of Part 139 before the effective date of May 21, 1973. The FAA had determined that those additional airports were able to conduct a safe operation, and that provisional operating certificates, subject to such terms, conditions and limitations as the Administrator finds are necessary to assure safety in air transportation, should be issued to those airports pending their compliance with Part 139. Accordingly, § 139.1 was amended to make the Part applicable to all airports serving air carriers, and a new § 139.12 was added to Part 139 which provisionally certificated for a period of 45 days (until July 5, 1973; later extended to October 5, 1973, by Amendment 139-2, 38 FR 17714, July 3, 1973) airports and heliports which, on May 20, 1973, were serving CAB-certificated air carriers conducting only unscheduled operations or operations with small aircraft in order that they might continue to serve such air carriers pending compliance with Part 139. Section 139.12 also provided for the extension of that certification to May 21, 1974, upon the request of the airport operator prior to October 5, 1973, and compliance by the operator with the requirements of that section.

The FAA has received considerable comment and recommendations regarding the broadened applicability of Part 139 to include all airports serving CAB-certificated air carriers. A substantial number of those comments assert that it is unreasonable and unrealistic to consider those airports or landing areas, which only infrequently or occasionally, or seasonally, accommodate air carrier operations, as "serving" air carriers. It is further asserted that the economic and practical burdens of complying with the requirements of Part 139 in these circumstances are disproportionate to the benefits of the air carrier operation and unnecessary, by reason of the infrequent or occasional character of the air carrier activity.

The FAA believes, in the light of comments received and based on additional airport data and information collected during the course of the airport certification program, that a distinction may reasonably and properly be made between airports, for certification purposes, based on "frequency-of-operation." Precedent is found for this kind of distinction in § 121.7 of Part 121 of the Federal Aviation Regulations, which requires intrastate common carriage by commercial operators to be conducted in accordance with rules applicable to domestic air carriers, if the commercial operator's activity exceeds certain specified rates, i.e., a total of 36 or more flights or 18 or more round trips in any 90 consecutive days. This provision was incorporated in the regulations applicable to commercial operators in 1949, and no reasons based on safety considerations for abolishing

V 38 I 182 SEP 20 73 XUM

this frequency-of-operation distinction have become apparent.

Accordingly, the FAA proposes to amend Part 139 to clarify and give definition to the term "serving" as used in the Part. As proposed herein, Part 139 would be applicable to any airport expected to be used by scheduled air carriers as a regular, provisional, or refueling airport. Such airports are identified in air carrier operations specifications and have well defined meanings, as follows: A *regular airport* is an airport approved as a regular terminal or intermediate stop on an authorized route; a *provisional airport* is an airport approved for use by an air carrier for the purpose of providing service to a community when the regular airport serving that community is not available; a *refueling airport* is an airport approved as an airport to which flights may be dispatched only for fueling. The Part would also be applicable to airports expected to be used by air carrier users when the "frequency-of-operation" is 36 or more flights in any period of 90 consecutive days.

This amendment is proposed under the authority of sections 313(a), 609, 610(a), and 612 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1429, 1430(a), and 1432), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend Part 139 of the Federal Aviation Regulations by amending § 139.1 by adding a new paragraph (c) to read as follows:

§ 139.1 Applicability.

* * * * *

(c) For the purpose of this part an airport is considered to be serving air carrier users if—

(1) The airport is expected to be used by any scheduled air carrier as a regular, provisional, or refueling airport; or

(2) The airport is expected to be used by air carrier users for 36 or more flights in any period of 90 consecutive days.

## ENVIRONMENTAL PROTECTION AGENCY

### [ 40 CFR Part 52 ]

### WASHINGTON STATE

### Approval and Promulgation of Implementation Plans; Correction

In regulations proposed on July 16, 1973 (38 FR 18974), for preconstruction review of parking facilities in the Seattle and Spokane areas of Washington State, a permit for construction, modification, or enlargement of any parking facility was proposed to be required "after the effective date of this regulation." At the time of the proposal, a court-ordered deadline of August 15, 1973, for promulgation was in effect.

Promulgation of final transportation control regulations for affected States is now required to take place by October 15, 1973, in accordance with the revised court order. It is the Agency's intention that such regulations will still be applicable to all construction, modification, or enlargement commenced after August 15, 1973, regardless of the date of proposal or promulgation. Wording in regulations proposed for other States has reflected this, and is given herein for Washington State.

This notice of proposed rulemaking is issued under the authority of section 110(c) and section 301(a) of the Clean Air Act (42 U.S.C. 1857c-5(c) and 1857g (a)).

Dated September 14, 1973.

JOHN QUARLES,
*Acting Administrator.*

SUBPART WW—WASHINGTON

1. The document proposing to revise Part 52 of Chapter I of Title 40 of the Code of Federal Regulations, published in the FEDERAL REGISTER on July 16, 1973, at 38 FR 18974, is corrected by changing the words "after the date of this regulation" to read "after August 15, 1973" in § 52.2486(c).

## FEDERAL COMMUNICATIONS COMMISSION

### [ 47 CFR Part 73 ]

[Docket No. 19824; FCC 73-947]

### FM BROADCAST STATIONS

### Proposed Table of Assignments, Sun Valley, Idaho

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations (Sun Valley, Idaho), Docket No. 19824, RM-2060.

1. Notice of proposed rulemaking is hereby given concerning proposed amendment of the FM Table of Assignments (§ 73.202(b) of the Commission's Rules and Regulations) with respect to the petition of Sun Valley Radio, Inc. (SVR), proposing the assignment of Channel 247 in lieu of Channel 288A presently assigned to Sun Valley, Idaho.

2. Sun Valley, population 180, is located in Blaine County, population 5,749. The only broadcast station in the county is Class IV AM Station KSKI at the county seat, Hailey, population 1,425.

3. In support of the petition, SVR adduces substantial information and data concerning Sun Valley and the general area it feels should be served. We are informed that Sun Valley is located approximately in the center of the State of Idaho and that Blaine County's population increase between 1960 and 1970 was 25 percent as compared to the State's overall increase of 6.8 percent. Petitioner states that Sun Valley, as the site of a world famous ski resort, is the focal point of Blaine County. We are told that one million families travel to the Sun Valley area annually for skiing and other recreational purposes (excellent trout fishing area). Petitioner's purpose is to have a wide area facility to serve Sun Valley, Ketchum, Hailey, and Bellevue. In this respect, petitioner describes the educational systems, availability of news media for these communities, and the topography of the area. SVR states that the Wood River Valley area is experiencing rapid growth; indeed, a new resort city, Elkhorn, with condominiums, lodges, shops, a lake, ice rink, and other sporting activities is under construction near Sun Valley. From a technical viewpoint, it is asserted that a station on the Class A channel assigned to Sun Valley would not adequately serve the needs for local expression. It is contended that the terrain—a narrow winding valley with steep mountains—make a station on a Class A channel impracticable. It is asserted that the assignment of Channel 247 may be made to Sun Valley with full compliance with the Commission's Rules and Regulations. Indeed, SVR states that Channel 247 is one of many channels that could be assigned to the area without impinging on mileage separations and that the preclusionary effect is minimal. SVR states that if Channel 247 is assigned to Sun Valley it will file an application for its use.

4. It appears that the assignment of Channel 247 to Sun Valley is possible without changes elsewhere and the preclusionary effect is minimal. While there is preclusion on Channels 244A, 246, 247, 248, and 249A, the area is sparsely populated and there are many other FM channels available for assignment to communities located within the precluded areas. On the other hand, petitioner has failed to submit any information as to the extent of the Channel 247 service area and the nature of FM and other aural service within such area. This information should be submitted. In other respects, we conclude that Sun Valley Radio, Inc., has made a sufficient showing that the public interest, convenience, and necessity might be served by the assignment of Channel 247 in lieu of Channel 288A at Sun Valley.

5. In view of the foregoing and pursuant to authority found in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend § 73.202(b) of the Commission's Rules and Regulations, the FM Table of Assignments, as concerns Sun Valley, Idaho, as follows:

| City | Channel No. | |
|---|---|---|
| | Present | Proposed |
| Sun Valley, Idaho..... | 288A | 247 |

6. *Showings required.* Comments are invited upon the proposal referred to above. As indicated, there are questions about the area to be served and the nature of other aural services that are available in that area. Petitioner should also affirm its intention to apply for the channel if assigned and to promptly build on it if the application is granted. Failure to file comments or address the issues raised may result in dismissal.

7. *Cut-off procedure.* The following procedures will govern:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in this proceeding, and Public Notice to that effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision herein.

8. Pursuant to applicable procedures set out in § 1.415 of the Commission's Rules and Regulations, interested parties may file comments on or before October 26, 1973, and reply comments on or before November 5, 1973. All submissions by parties to this proceeding or persons acting on behalf of such parties, shall be made in written comments, reply comments, or other appropriate pleadings.

9. In accordance with the provisions of § 1.419 of the Commission's Rules and Regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Adopted September 11, 1973.

Released September 14, 1973.

### [ 47 CFR Part 73 ]

[Docket No. 19826; FCC 73-953]

### TELEVISION BROADCAST STATIONS

### Proposed Table of Assignments, Wheeling, W. Va.

In the matter of amendment of § 73.606(b), *Table of assignments*, Television broadcast stations (Wheeling, West Virginia), Docket No. 19826, RM-2214.

1. Notice of Proposed Rule Making is hereby given concerning proposed amendment of the Television Table of Assignments (§ 73.606(b) of the Commission's Rules and Regulations) with respect to the petition of the West Virginia Board of Regents, licensee of noncommercial educational television broadcast Station WWVU-TV, Morgantown, West Virginia (WWVU-TV), proposing that Channel 41 at Wheeling, West Virginia be reserved for noncommereial educational use. Wheeling, population 48,188, has three television assignments: Channel 41; Channel 7, which is occupied by Station WTRF-TV; and Channel 14 which is unavailable for television use pending further action in Docket No. 18261 which concerns the use of that channel for the land mobile service.

2. WWVU-TV, as part of its program to provide a permanent state-wide system of educational television for West Virginia together with the West Virginia Educational Broadcasting Authority[2], is constructing a translator network throughout the state which includes a translator operating on Channel 41 at Wheeling, West Virginia. The purpose of the translator network is to extend the programming of Station WWVU-TV to areas unserved in West Virginia by educational television. WWVU-TV broadcasts 77 hours of weekly programming including a full week-day school service, programming from the Public Broadcasting Service, the Eastern Educational Television Network, and the Public Television Library. The purpose of the translator plan (five of the proposed seven are under construction) is to extend educational programming now serving approximately 85% of West Virginia population to ten additional counties and as concerns Wheeling to provide it and other communities in the Northern Panhandle of West Virginia with such service. The petitioner adduces information and data about the Panhandle which is not essential to our action in this proceeding, e.g., the topography.

3. WWVU-TV notes that there is only one West Virginia commercial television station in the Panhandle area, that is, Station WTRF-TV, Channel 7, Wheeling, West Virginia, although there is service from out-of-state stations.[3] It further points out that since Channel 41 was assigned to Wheeling in 1966 it has remained fallow, and that although a construction permit was granted for use of Channel 14 in 1966, the station was never constructed and the permit was deleted in 1969. It states that commercial television has shown little interest in Wheeling and that it is unlikely that reservation of Channel 41 for noncommercial educational use will deprive the community of a possible commercial television station.

4. While WWVU-TV already is the holder of a construction permit for a translator on Channel 41, its purpose in having the channel reserved for noncommercial educational use is to assure itself that the channel will continue to be used for educational purposes. (In addition to using the channel for a translator operation, it mentions the possibility that the West Virginia Board of Regents may activate the channel as a broadcast station, depending on how the West Virginia educational television system develops in the future.) In the circumstances, it appears that the public interest, convenience, and necessity would be served by the adoption of the Notice of Proposed Rule Making to consider the reservation of Channel 41 at Wheeling as a noncommercial educational reservation.

5. In view of the foregoing and pursuant to the authority found in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend § 73.606 (b) of the Commission's Rules and Regulations, the Television Table of Assignments, as concerns Wheeling, West Virginia, as follows:

| City | Channel No. | |
|---|---|---|
| | Present | Proposed |
| Wheeling, W. Va..... | 7, 11*4, 41 | 7, 11*4, *41 |

6. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before October 26, 1973, and reply comments on or before November 5, 1973. All submissions by parties to this proceeding, or persons acting on behalf of such parties, must be made in written comments, reply comments, or other appropriate pleadings.

7. In accordance with the provisions of § 1.419 of the rules and regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs, and other documents shall be furnished the Commission. These will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, NW., Washington, D.C.

Adopted September 11, 1973.

Released September 14, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[3]

## FEDERAL DEPOSIT INSURANCE CORPORATION

### [ 12 CFR Part 329 ]

### INTEREST ON DEPOSITS

### Offering and Use of NOW Accounts by Banks in Massachusetts and New Hampshire

1. Notice is hereby given that the Board of Directors of the Federal Deposit Insurance Corporation is considering a number of amendments to Part 329 of the Corporation's rules and regulations relating to the payment of interest on

[1] Commissioner Robert E. Lee absent.

[2] The West Virginia Educational Broadcasting Authority is the licensee of noncommercial educational television Station WMUL-TV, Channel *33, Huntington, and WSWP-TV, Channel *9, Grandview, West Virginia.

[3] Station WSRV-TV, Channel 9, Steubenville, Ohio, and stations at Pittsburgh and Youngstown.

[3] Commissioner Robert E. Lee absent.

V 38 1 82 SEP 20 73 XUM

deposits (12 CFR Part 329). The proposed amendments would establish certain restrictions on the offering and use of interest or dividend bearing accounts from which withdrawals may be made by negotiable or transferable instruments for the purpose of making transfers to third parties. These accounts will be referred to herein as "NOW accounts".

By virtue of section 2(a) of Public Law 93–100, depository institutions in Massachusetts and New Hampshire may allow their customers to use NOW accounts, while depository institutions in other States are barred from allowing their customers to use such accounts. The term "depository institution" includes all insured nonmember commercial and mutual savings banks as well as State nonmember banks (including mutual savings banks) that are not insured by the Federal Deposit Insurance Corporation. Section 2(a) becomes effective on September 15, 1973.

The Board of Directors proposes to treat NOW accounts as a form of savings deposit for purposes of Part 329. They would thus be subject to regulation by the Federal Deposit Insurance Corporation pursuant to the authority granted to the Board in section 18(g) of the Federal Deposit Insurance Act (12 U.S.C. 1828 (g)) to promulgate regulations prohibiting the payment of interest on demand deposits, and regulations governing the advertisement and payment of interest or dividends on deposits in insured nonmember banks. Section 3 of Public Law 93–100 has, in effect, extended this authority to all banks in Massachusetts that are not insured by the Federal Deposit Insurance Corporation. The Board accordingly proposes to adopt uniform regulations for NOW accounts in all insured nonmember commercial and mutual savings banks in Massachusetts and New Hampshire and all noninsured banks in Massachusetts.

The amendments proposed by the Board of Directors would establish restrictions on both the offering and use of NOW accounts. Mutual savings banks in Massachusetts and New Hampshire which are presently making NOW accounts available to their customers should consider the way in which any of the proposed amendments, if adopted as final regulations by the Board of Directors, might alter the conditions under which they could continue to make such accounts available; and what steps they would have to take to bring their existing practices into conformance with the regulations. Commercial banks, and those mutual savings banks which are not presently making NOW accounts available to their customers, should bear the proposed amendments in mind in the event that they do decide to make these accounts available before the Board of Directors has had the opportunity to adopt final regulations. The Board of Directors strongly encourages both groups of banks to present their views on the following proposals before the comment period expires on November 1, 1973. This is particularly important with respect to the last set of proposals which are presented here as a series of alternative restrictions, any combination of which might appear in a final regulation. These latter restrictions impose fairly stringent limitations on the use of NOW accounts and could have a significant impact on the attractiveness of such accounts to potential customers.

The proposals are as follows:

(1) Banks in Massachusetts and New Hampshire would be authorized to offer NOW accounts only to residents of those two States and would be required to restrict their advertising accordingly.

(2) No bank would be permitted to pay interest at a rate in excess of 4½ percent per annum on any NOW account.

(3) NOW accounts would be defined as "savings deposits" as that term is now defined in Part 329 with respect to commercial banks. This means that their use would be limited to individuals and certain nonprofit organizations (i.e., those operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes). It also means that the holder of a NOW account could, at any time, be required to give not less than 30 days' written notice of an intended withdrawal to the depository bank.

(4) The holder of a NOW account would be subject to any one or a combination of the following restrictions:

(a) He would not be permitted to draw more than a limited number of free items (e.g., 10 items) on his account during any given calendar month. Additional items would be subject to a mandatory service charge.

(b) No interest could be paid on his account unless he maintained a specified minimum (or average daily) balance in the account.

(c) His account would bear interest at a "split rate", i.e., a lower rate of interest on the first $200 or $300 and a higher rate (not to exceed 4½ percent) on anything in excess of that amount.

(d) No interest could be paid on any amount in his account which exceeded the lowest balance in the account during any given calendar month.

The proposal which relates to the offering of NOW accounts is designed to limit the competition for such accounts to residents of Massachusetts and New Hampshire. Banks in those States which choose to solicit NOW accounts will not be able to offer them to new customers in other States.

No bank would be permitted to pay interest on a NOW account at a rate in excess of 4½ percent per annum. This rate would be the same for both commercial and mutual savings banks in Massachusetts and New Hampshire, thus emphasizing the fact that all banks in those two States would be allowed to compete for NOW accounts on essentially the same basis.

The last two sets of proposals are partially designed to retain the traditional distinction—explicitly sanctioned by Federal law—between demand and savings desposits. This would be done by classifying NOW accounts as "savings deposits" and restricting their use to individuals and certain nonprofit organizations, as well as subjecting the withdrawal of funds to a 30-day prior notice requirement (to be imposed at the discretion of the bank). Limiting the number of free items that may be drawn on such accounts during a single month, perhaps in combination with other of the restrictions described above, may be necessary in order to emphasize the difference between NOW accounts and demand accounts.

2. This notice is published pursuant to section 553(b) of Title 5, United States Code, and §§ 302.1–302.5 of the rules and regulations of the Federal Deposit Insurance Corporation.

3. Interested persons are invited to submit written data, views or arguments regarding the proposed amendments to the Office of the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, D.C. 20429, no later than November 1, 1973.

By order of the Board of Directors, September 14, 1973.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
*Executive Secretary.*

[FR Doc.73-20073 Filed 9-19-73;8:45 am]

## SELECTIVE SERVICE SYSTEM

**[ 32 CFR Parts 1623, 1626, 1628, 1631, 1632, 1641 ]**

### SELECTIVE SERVICE REGULATIONS

**Notice of Proposed Rulemaking**

Pursuant to the Military Selective Service Act, as amended (50 U.S. Code App., sections 451 et seq.), and Executive Order Number 11623 dated October 12, 1971, the Director of Selective Service hereby gives public notice that consideration is being given to the following proposed amendments to the Selective Service Regulations constituting a portion of Chapter XVI of the Code of Federal Regulations. These regulations implement the Military Selective Service Act, as amended (50 U.S. Code App., sections 451 et seq.).

The revocation of § 1623.3 would remove a possibly confusing cross-reference. The revision of § 1626.4(b) eliminates the delay in processing the appeal of a registrant who does not request a personal appearance before the appeal board. The addition of § 1628.6(c) would authorize the Director of Selective Service to cancel an order for an Armed Forces examination. The insertion of a new subparagraph (1) in § 1631.6(b) and the revocation of § 1631.7 would provide "unsatisfactory reservists" additional procedural rights prior to their being ordered for induction. The addition of § 1632.1(d) would authorize the Director of Selective Service to cancel an order to report for induction. The revocation of § 1641.8 eliminates the requirement that a Registration Certificate that has been lost or mislaid be returned to the local board after it has been located.

All persons who desire to submit views to the Director on the proposals should prepare them in writing and forward them to the Director, Selective Service System, Attn: LLD, 1724 F Street NW., Washington, D.C. 20435. Comments received by October 23, 1973, will be considered.

### PART 1623—CLASSIFICATION PROCEDURE

The proposed amendments follow:

§ 1623.3 [Revoked]

1. Section 1623.3 *Physical examination,* is revoked.

### PART 1626—APPEAL TO APPEAL BOARD

2. Paragraph (b) of § 1626.4, Review by appeal board, is amended to read as follows:

§ 1626.4 Review by appeal board.

* * * * *

(b) Upon receipt of the registrant's file, the appeal board shall ascertain whether the registrant has requested a personal appearance before the appeal board. If no such request had been made, the appeal board may classify the registrant forthwith.

* * * * *

### PART 1628—EXAMINATION OF REGISTRANTS

Paragraph (c) of § 1628.6, Order to report for armed forces examination, is added to read as follows:

§ 1628.6 Order to report for armed forces examination.

(c) The Director may direct the cancellation of an order for Armed forces examination for any registrant prior to his failing or refusing to report for or submit to such examination.

### PART 1631—ALLOCATION OF INDUCTIONS

Paragraph (b) of § 1631.6 is amended to read as follows:

§ 1631.6 Action by local board upon receipt of allocation.

* * * * *

(b) Registrants shall be selected and ordered to report for induction in the following categories and in the order indicated:

(1) Registrants described in section 6(c)(2)(D) of the Military Selective Service Act.

(2) Volunteers who have not attained the age of 26 years in the sequence in which they have volunteered for induction.

(3) Nonvolunteers in the Extended Priority Selection Group who have not attained the age of 26 years in the order in which their random sequence number had been reached.

(4) Nonvolunteers in the First Priority Selection Group for the current calendar year in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1.

(5) Nonvolunteers who have not attained the age of 26 years in each of the lower priority selection groups, in turn, within the group in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1.

(6) Nonvolunteers who have attained the age of 19 years during the calendar year but who have not attained the age of 20 years, in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1.

(7) Nonvolunteers who have attained the age of 26 years and each year thereafter in turn, most recent year first, within the year group in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1: *Provided,* That the random sequence number established on December 1, 1969, will apply to any registrant born prior to January 1, 1944.

(8) Nonvolunteers who have attained the age of 18 years and 6 months and who have not attained the age of 19 years in the order of the random sequence number established by random selection procedures prescribed in accordance with § 1631.1 for registrants who during the current calendar year have attained the age of 19 years but who have not attained the age of 20 years.

§ 1631.7 [Revoked]

* * * * *

Section 1631.7 *Registrants who shall be inducted without calls,* is revoked.

### PART 1632—DELIVERY AND INDUCTION

Paragraph (d) of § 1632.1 *Order to report for induction,* is added to read as follows:

§ 1632.1 Order to report for induction.

* * * * *

(d) The Director may direct the cancellation of an order to report for induction for any registrant prior to his failing or refusing to report for induction.

### PART 1641—DUTY OF REGISTRANTS

§ 1641.8 [Revoked]

Section 1641.8, Duty to return registration certificate to local board, is revoked.

Dated September 13, 1973.

BYRON V. PEPITONE,
*Director.*

[FR Doc.73-19956 Filed 9-18-73;8:45 am]

## VETERANS ADMINISTRATION

**[ 38 CFR Part 17 ]**

### SPECIAL AUTOMOBILE EQUIPMENT

**Payment or Reimbursement**

It is proposed to add § 17.115d to provide additional authority under which payment or reimbursement for special automobile equipment may be made. This authority is required to prevent inequities between two distinct benefit program procedures which permit Veterans Administration payment for an automobile or adaptive equipment to the supplier or veteran if he has already acquired same and §§ 17.80 through 17.91, "Payment and Reimbursement of the Expenses of Unauthorized Medical Services," in which procedures are so circumscribed, generally speaking, that an eligible veteran who has not been authorized in advance to obtain an appliance, would not be eligible for reimbursement. Under such circumstances the Veterans Administration finds itself in the anomalous position of providing reimbursement for some equipment obtained under one authority, and denying reimbursement for the additional required equipment medically needed, even though the veteran purchased all of the equipment at the same time.

The new section will permit reimbursement to any eligible veteran who acquires a powered lifter or other device of access or egress, or other appliance or therapeutic or rehabilitative device, coincident with obtaining an automobile or adaptive equipment under the provisions of § 3.808 of this chapter, where such appliance or device is not adaptive equipment for purposes of chapter 39, United States Code, when a medical determination of need is made. The medical determination of need does not have to precede the purchase. Further, this purchase will not be considered as unauthorized when the veteran would clearly have been entitled, had the medical prescription been submitted in advance.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (27H), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420. All relevant material received before October 23, 1973, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

V 38 1 82 SEP 20 73 XUM

Notice is also given that it is proposed to make any regulation that is adopted effective the date of enactment of Public Law 91-666, January 11, 1971.

**§ 17.115d Special automobile equipment.**

Any veteran who acquires a powered lifter or other device of access or egress, or other appliance or therapeutic or rehabilitative device, coincident with obtaining an automobile or adaptive equipment under the provisions of § 3.808 of this chapter (where such appliance or device is not adaptive equipment for purposes of chapter 39, title 38, United States Code) shall be deemed to have complied with this section when a medical determination of need for such is made. The medical determination of need does not have to precede the purchase, and payment or reimbursement is not subject to the provisions of §§ 17.80 through 17.91, since the procurement is not to be considered as unauthorized under these circumstances when the veteran would clearly have been eligible and entitled to the device or equipment had the medical prescription been submitted in advance.

Approved September 14, 1973.

By direction of the Administrator.

[SEAL] RUFUS H. WILSON,
*Associate Deputy Administrator.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[Nev-062152]

### NEVADA

#### Proposed Classification Terminated

SEPTEMBER 13, 1973.

In a notice dated March 16, 1971, which notice appeared at page 5624 in the FEDERAL REGISTER published March 25, 1971, The Bureau of Land Management proposed to classify for entry under the Dessert Land Act (19 Stat. 377; 43 U.S.C. 321-323) the following described lands among others:

MOUNT DIABLO BASE AND MERIDIAN, NEVADA

T. 19 N., R. 47 E.,
Sec. 23, E½SE¼;
Sec. 24, SW¼, W½SE¼.

Containing 320 acres in Lander County.

The lands were *not* thereafter classified as proposed nor was there continuance of the proposed as prescribed by the Classification and Multiple Use Act of September 19, 1964 (78 Stat. 986) 43 U.S.C. 1411-18).

The regulation in 43 CFR 2462.4(b) states that "The segregative effect of a proposed classification will terminate in one of the following ways: • • • expiration of a two-year period from the date of publication of the notice of proposed classification • • •" More than two years have passed therefore, the proposal has terminated by operation of the cited regulation. Land status records will be so noted.

The petition for classification filed by Izona Pierce, Nev-062152, cannot be approved and is hereby denied.

Moneys tendered toward purchase of the land will be refunded shortly.

For the State Director.

WILLIAM J. MALENCIK,
*Chief,*
*Division of Technical Services.*

[OR 8160]

### OREGON

#### Notice of Proposed Withdrawal Addition to National Forest

SEPTEMBER 13, 1973.

The Department of Agriculture, on behalf of the Forest Service, has filed application, OR 8160, for the withdrawal of land as an addition to the Deschutes National Forest.

The land involved was acquired under section 8 of the Act of June 28, 1934, as amended (43 U.S.C. 315g) and is within the exterior boundaries of the Deschutes National Forest.

The land has been determined to be suitable for administration as part of the Deschutes National Forest, and that the land be set apart and reserved as part of said national forest as authorized by Public Law 87-524, enacted July 9, 1962 (76 Stat. 140; 43 U.S.C. 315g.1).

All persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing no later than October 20, 1973 to the undersigned officer of the Bureau of Land Management, Department of the Interior, P.O. Box 2965 (729 N.E. Oregon Street), Portland, Oregon 97208.

The authorized officer of the Bureau of Land Management will prepare a report for consideration by the Secretary of the Interior, who will determine whether or not the land will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested part of record.

The land involved in the application is:

DESCHUTES NATIONAL FOREST

WILLAMETTE MERIDIAN

T. 20 S., R. 15 E., sec. 30, lots 1, 2, 3, and 4.

The area described contains approximately 163.76 acres in Deschutes County, Oregon.

IRVING W. ANDERSON,
*Chief, Branch of Lands and Minerals Operations.*

### Office of Hearings and Appeals

[Docket No. M 74-14]

### BURGESS MINING AND CONSTRUCTION CORP.

#### Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Burgess Mining and Construction Corp., located at Birmingham, Alabama, has filed a petition to modify the application of 30 CFR 77.502 to its Bibb Strip Operation and to its Johns Strip Operation.

30 CFR 77.502 reads as follows:

§ 77.502 *Electric equipment; examination, testing, and maintenance.*

Electric equipment shall be frequently examined, tested, and properly maintained by a qualified person to assure safe operating conditions. When a potentially dangerous condition is found on electric equipment, such equipment shall be removed from service until such condition is corrected. A record of such examinations shall be kept.

Petitioner states that it has four (4) Lima 2400 draglines in operation and one (1) Bucyrus-Erie 88-B dragline, presently out of operation, but subject to return to operation. The five (5) draglines are diesel operated and contain a small low-voltage power generator for lighting purposes only. Petitioner requests that the requirement for testing, examination and maintenance be waived as it applies to this equipment.

As an alternative method petitioner states that although an employee may not be qualified under 30 CFR 77.103, the employee shall not be permitted or required to make repairs to such electrical equipment unless he has the experience or skill to do so.

V 38 I 182 SEP 20 73 XUM

Also major repairs to the generation equipment have been made by the manufacturer and this practice will be continued or a local electrical contractor will be utilized. Petitioner contends that the alternative method will provide the same measure of protection afforded the miners in the affected areas as the application of the mandatory safety standard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before October 23, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings, Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD,
*Acting Director,*
*Office of Hearing and Appeals.*

[Docket No. M 74-7]

## SOUTHERN ELECTRIC GENERATING CO.

### Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Southern Electric Generating Company, located at Birmingham, Alabama, has filed a petition to modify the application of 30 CFR 75.701-4(a) to its SEGCO No. 1 Mine.

30 CFR 75.701-4(a) reads as follows:

§ 75.701-4 *Grounding wires; capacity of wires.* Where grounding wires are used to ground metallic sheaths, armors, conduits, frames, casings, and other metallic enclosures, such grounding wires will be approved if:

(a) The cross-sectional area (size) of the grounding wire is at least one-half of the cross-sectional area (size) of the power conductor where the power conductor used is No. 6 A.W.G., or larger.

As an alternative method petitioner requests that the application of the mandatory safety standard be modified to allow the continued use of its presently existing system. Petitioner states that the safety of mine personnel was a major factor in the design of the system and that to date the system has performed in the manner planned without injury or accident to personnel.

Petitioner states that the mandatory standard requires that the neutral conductor of certain high-voltage mine power cables have a cross-sectional area one-half the size of the power conductor. In SEGCO Mine No. 1, this would apply to seven (7) 4160 volt and four (4) 480 volt borehole cables consisting of 300 MCM cu. power conductors with 2 #6 cu. conductors for the ground and one insulated conductor for the ground continuity check circuit.

In support of its petition, petitioner states that the above phase conductors are over sized in order to minimize the voltage drop at the extremities of each 4.16 Kv feeder. Each borehole source includes a continuously rated grounding resistor to limit the phase-to-ground current to 25 amperes. The existing 2 #6 cu. ground conductors, rated approximately 130 amperes continuous, far exceed the maximum 25 amperes which can be imposed upon the ground conductors. Petitioner submitted, with its petition, a single line diagram showing the characteristics of an AC circuit from the 46/12 Kv substation to the face equipment. The maximum voltage difference between the frame and ground is shown for the maximum length of an AC 4.16 Kv underground feeder at SEGCO Mine No. 1. The normal feeder usually includes approximately 700 feet of 300 MCM borehole cable and 5600 feet of 4/0 cu. cable.

The total Ohmic value of the ground conductors for the distance from the 25 ampere grounding resistor to the most remote extremity of the feeder determines the maximum shock hazard potential which can exist between the machine and ground. Petitioner contends that the following calculations demonstrate that a difference of potential of only 35 volts can occur which is only 35 percent of the allowable 100 volts permitted by the mandatory safety standards.

| | |
|---|---|
| Borehole Cable—800 feet w/2 #6 cu. ground conductors | =0.218 Ohm |
| Mine Power Cable—6600 feet w/2 #4 cu. ground conductors | =1.140 Ohm |
| Total OHMIC value of ground conductors | =1.358 Ohm |
| Maximum IR shock hazard = (25a) (1.4 OHM) | =35 Volts |

Increased resistance at the grounding resistor would limit phase-to-ground amperes to a smaller value, thus reducing the maximum difference of potential if a frame-to-ground short circuit should occur. Petitioner avers that a hazard to personnel could only occur if the grounding resistor was shorted out which could only occur by someone installing a jumper across the grounding resistor. In such an event, 2,400 volts difference of potential between frame and ground could occur regardless of the size of the neutral conductors.

Petitioner contends that the present high-voltage cables have 2 #6 cu. ground wires in the 300 MCM cu. borehole cable and have operated safely for 15 years. Petitioner states that based on calculations, this method cannot create an unacceptable difference of potential at SEGCO Mine No. 1. Petitioner contends that this system provides safety to personnel in the affected area which is practically the same as that required by the mandatory standard, which would require an additional 1/0 cu. neutral conductor installed from the 4.16 Kv borehole source to the extremities of the 4.16 Kv circuits. The continued existing use of the cables having 2 #6 cu. borehole ground wires provides a safety ground system which has very low shock hazard characteristics. Petitioner also avers that the above calculations demonstrate that a difference of potential of only 35 volts can occur which is only 35 percent of the allowable 100 volts permitted by the mandatory safety standards.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before October 23, 1973. Such requests and comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

NEWTON FRISHBERG,
*Acting Director,*
*Office of Hearings and Appeals.*

[FR Doc.73-19976 Filed 9-19-73;8:45 am]

[Docket No. M 74-8]

## SOUTHERN ELECTRIC GENERATING CO.

### Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Southern Electric Generating Company, located at Birmingham, Alabama, has filed a petition to modify the application of 30 CFR 75.804 (a) to its SEGCO No. 1 Mine.

30 CFR 75.804(a) reads as follows:

§ 75.804 *Underground high-voltage cables.*

(a) Underground high-voltage cables used in resistance grounded systems shall be equipped with metallic shields around each power conductor with one or more ground conductors having a total cross-sectional area of not less than one-half the power conductor, and with an insulated external conductor not smaller than No. 8 (A.W.G.) or an insulated internal ground check conductor not smaller than No. 10 (A.W.G.) for the ground continuity check circuit.

As an alternative, petitioner requests that the application of the mandatory safety standard be modified to allow the continued use of its presently existing system. Petitioner states that the safety of mine personnel was a major factor in the design of the system and that to date the system has performed in the manner planned without injury or accident to personnel.

Petitioner states that the mandatory standard requires that the neutral conductor of certain high-voltage mine power cables have a cross-sectional area one-half the size of the power conductor. In SEGCO Mine No. 1, this would apply to approximately 20,000 feet of mine power cable consisting of 4/0 cu. power conductors with 2 #4 cu. ground wires and one insulated conductor for the ground continuity check circuit.

In support of its petition, petitioner states that the above phase conductors are over sized in order to minimize the voltage drop at the extremities of each 4.16 Kv feeder. Each borehole source includes a continuously rated grounding resistor to limit the phase-to-ground current to 25 amperes. The existing 2 #4 cu. ground conductors, rated approximately 170 amperes continuous, far exceed the maximum 25 amperes which can be imposed upon the ground conductors. Petitioner submitted, with its petition, a single line diagram showing the characteristics of an AC circuit from the 46/12 Kv substation to the face equipment. The maximum voltage difference between the frame and ground is shown for the maximum length of an AC 4.16 Kv underground feeder at SEGCO Mine No. 1. The normal feeder usually includes approximately 5600 feet of 4/0 cu. cable.

The total Ohmic value of the ground conductors for the distance from the 25 ampere grounding resistor to the most remote extremity of the feeder determines the maximum shock hazard potential which can exist between the machine and ground. Petitioner contends that the following calculations show the maximum IR drop due to the 25 ampere fault level for feeder lengths in excess of those at SEGCO Mine No. 1:

| | |
|---|---|
| Borehole Cable—800 feet w/2 #6 cu. ground conductors | =0.218 Ohm |
| Mine Power Cable—6600 feet w/2 #4 cu. ground conductors | =1.140 Ohm |
| Total OHMIC value of ground conductors | =1.358 Ohm |
| Maximum IR shock hazard = (25a) (1.4 Ohm) | =35 Volts |

Petitioner contends that increased resistance at the grounding resistor would limit phase-to-ground amperes to a smaller value, thus reducing the maximum difference of potential if a frame-to-ground short circuit should occur. Petitioner avers that a hazard to personnel could only occur if the grounding resistor was shorted out which could only occur by someone installing a jumper across the grounding resistor. In such an event, 2400 volts difference of potential between frame and ground could occur regardless of the size of the neutral conductors.

Petitioner contends that the present high-voltage cables have 2 #4 cu. ground wires in the 4/0 cu. mine power cable and have operated safely for 15 years. Petitioner states that based on calculations, this method cannot create an unacceptable difference of potential at SEGCO Mine No. 1. Petitioner contends that this system provides safety to personnel in the affected area which is practically the same as the proposed system, which would require an additional 1/0 cu. neutral conductor be installed from the 4.16 Kv borehole source to the extremities of the 4.16 Kv circuits. Petitioner also avers that the continued existing use of the cables having the 2 #4 cu. mine power cable ground wires provides a safety ground system which has very low shock hazard characteristics. Petitioner states that the above calculations show that a difference of potential of only 35 volts can occur which is only 35 per cent of the allowable 100 volts permitted by the mandatory safety standards.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before October 23, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

### Forest Service

### COCONINO NATIONAL FOREST ADVISORY COMMITTEES

### Notice of Meeting

The Coconino National Forest Multiple Use Advisory Committee will meet at 2 p.m. September 27, 1973 in the Supervisor's Office.

The purpose of this meeting is to present each member with a copy of the newly revised Forest Multiple Use Guide.

The meeting will be open to the public. Persons who wish to attend should notify the Forest Supervisor's Office, Telephone 774-5261, Ext. 1400. Written statements may be filed with the committee before or after the meeting.

The committee has established the following rules for public participation:

Dated September 13, 1973.

DON D. SEAMAN,
*Forest Supervisor.*

[FR Doc 73-20039 Filed 9-19-73;8:45 am]

### Office of the Secretary

### NITRITES AND NITROSAMINES

### Establishment of Expert Panel

After consultation with the Office of Management and Budget, notice is hereby given that the Secretary will establish an Expert Panel on Nitrites and Nitrosamines.

The Department has been meeting periodically with approximately 50 representatives from government, industry, the academic community, private foundations, and the foreign research community to evaluate information concerning the safety of nitrites and nitrates in food. While these discussions have served to bring together a wide range of experience for expert evaluation, the volume of information now available is such that specific data must be studied and evaluated to effectively advise the Secretary.

Therefore, the Secretary has determined that establishment of an Expert Panel on Nitrites and Nitrosamines is in the public interest in connection with the duties imposed on the Department by law.

The purpose of this panel is to evaluate use of nitrites and the potential formation of nitrosamines in food and to advise the Secretary concerning regulations for the safe use of curing substances.

Notice is given in compliance with Public Law 92-463. The requirements of Draft Office of Management and Budget/Department of Justice memorandum that notice must be published at least 30 days prior to the filing of a committee's charter has been waived by the Office of Management and Budget because of the need for expeditious action.

Done at Washington, D.C., on September 17, 1973.

JOSEPH R. WRIGHT, JR.,
*Assistant Secretary for Administration.*

# ATOMIC ENERGY COMMISSION

## ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON REGULATORY GUIDES

### Notice of Meeting

SEPTEMBER 18, 1973.

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Regulatory Guides will hold a meeting on October 10, 1973, in Room 1062, at 1717 H Street, NW., Washington, D.C. The subjects scheduled for discussion are drafts of proposed Regulatory Guides.

The Subcommittee is meeting to formulate recommendations to the ACRS regarding the above subjects.

I have determined, in accordance with subsection 10(d) of Public Law 92–463, that the purpose of the meeting will be to discuss draft documents which fall within exemption (5) of 5 U.S.C. 552(b) and will consist of an exchange of opinions, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). It is essential to close such meetings to protect the free interchange of internal views and to avoid undue interference with agency and Committee operation.

JOHN C. RYAN,
*Advisory Committee Management Officer.*

[FR Doc.73–20189 Filed 9–19–73;8:45 am]

[Docket No. 70–1372]

## GULF OIL CORP.

### Availability of Applicant's Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a report entitled "Environmental Impact Report—Gulf Youngsville Nuclear Facility" and "Addendum" thereto, dated February 1973, submitted by Gulf Oil Corporation, are available for public inspection in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C., and in the Franklin County Library, 1026 Justice Street, Louisburg, North Carolina. The report and addendum are also being made available to the public at the State Clearinghouse, Office of the Planning Coordinator, Clearinghouse and Information Center, 116 West Jones Street, Raleigh, North Carolina, and at the Regional Clearinghouse, Mr. Roy L. Lowe, Executive Director, Kerr-Tarr Regional Council of Governments, Post Office Box 1500, Henderson, North Carolina.

The report and addendum discuss the environmental considerations related to the proposed construction and operation of the Gulf Youngsville Nuclear Facility located in Franklin County, North Carolina. It is planned for the facility to fabricate cold fuel for High-Temperature Gas-Cooled Reactor power plants.

After the report and addendum have been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement related to the proposed action will be prepared. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a notice of its availability. The notice will request comments from interested persons on the proposed action and on the draft environmental statement. The notice will also contain a statement to the effect that the comments of Federal agencies and State and local officials and interested persons thereon will be available when received.

Dated at Bethesda, Maryland, this 14th day of September 1973.

For the Atomic Energy Commission.

R. B. CHITWOOD,
*Chief, Technical Support Branch, Directorate of Licensing.*

[FR Doc.73–20036 Filed 9–19–73;8:45 am]

[Docket No. 50–16]

## POWER REACTOR DEVELOPMENT CO.

### Issuance of Amendment to Provisional Operating License

The Commission has issued, effective as of date of issuance, Amendment No. 6 to Facility License No. DPR–9. The amendment authorizes the Power Reactor Development Co. to possess, but not operate, the Enrico Fermi Atomic Power Plant.

By application dated August 14, 1973, the Power Reactor Development Co. requested an amendment to the license to possess, but not operate, the Enrico Fermi Atomic Power Plant. The fuel has been removed from the facility and shipped offsite.

The Commission has found that the application for the amendment complies with the requirements of the Atomic Energy Act of 1954, as amended ("the Act"), and the Commission's regulations published in 10 CFR Chapter I. The Commission has made the findings required by the Act and the Commission's regulations which are set forth in the amendment and has concluded that the issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public. The Commission has also found that prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this amendment, see (1) the application dated August 14, 1973, and (2) the amendment to the license which are available for public inspection in the Commission's Public Document Room 1717 H Street, NW., Washington, D.C. A copy of item (2) may be obtained upon request sent to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director of Licensing.

Dated at Bethesda, Maryland, this 5th day of September.

For the Atomic Energy Commission.

ALFRED BURGER,

## WISCONSIN PUBLIC SERVICE CORP. ET AL.

### Notice and Order for Evidentiary Hearing

In the matter of Wisconsin Public Service Corporation, Wisconsin Power and Light Company, and Madison Gas and Electric Company (Kewaunee Nuclear Power Plant) Docket No. 50–305.

By stipulation of the parties dated February 13, 1973, approved by the Board, it was agreed, *inter alia*, that the Evidentiary Session which had earlier commenced, would be recessed and would reconvene at a date to be later designated.

Pursuant to agreement among the parties, approved by the Board, the Evidentiary Session will continue on October 30, 1973, at 10:00 a.m., local time, at the Kewaunee County Courthouse, Circuit Courtroom, 613 Dodge Street, Kewaunee, Wisconsin 54216.

It is so ordered.

Issued at Washington, D.C., this 17th day of September 1973.

THE ATOMIC SAFETY AND LICENSING BOARD,
JOHN B. FARMAKIDES,
*Chairman.*

# CIVIL AERONAUTICS BOARD

[Docket No. 25890; Order 73–9–55]

## AMERICAN AIRLINES, INC. AND TRANS WORLD AIRLINES, INC.

### Order of Investigation and Suspension Regarding Passenger Fare Increases

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 13th day of September 1973.

By tariff revisions[1] marked to become effective September 15, 1973, American Airlines, Inc. (American), and Trans World Airlines, Inc. (TWA) propose to increase their passenger fares in the 48 contiguous states and the District of Columbia by eight percent and seven percent, respectively.[2] Other carriers have filed tariffs proposing increases of five or seven percent for effect on October 1, 1973.

These proposals raise basic issues of rate-making policy which the Board believes can best be considered on an industry-wide basis. In view of the imminence of the effective date of American's and TWA's proposals, we are herein suspending those carrier's tariffs to afford the Board a more adequate period of time within which to evaluate their proposals in conjunction with the proposals which have been made by other carriers for effect on October 1. The Board contemplates reaching its decision on these matters at an early date.

Upon consideration of all relevant matters, the Board has determined that the proposed fare increases may be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be suspended and set for investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly

[1] Revisions to Airline Tariff Publishers, Inc., Agent, Tariff C.A.B. No. 136.

[2] Contemporaneously, American and TWA filed motions requesting the Board to amend Orders 71–4–60 and 72–8–50 to provide that the lawful maximum fares applicable between points in the 48 contiguous states and the District of Columbia are 8.0 percent and 7.0 percent, respectively, above the current fares. By order issued simultaneously herewith, the Board grants in part and dismisses the motion.

V 38-182 SEP 20 73 XUM

sections 204, 403, 404, and 1002 thereof,

*It is ordered*, That:

1. An investigation be instituted to determine whether the fares and provisions described in Appendix A attached hereto,[1] and rules, regulations, and practices affecting such fares and provisions, are or will be unjust, or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix A hereto are suspended and their use deferred to and including December 13, 1973, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board; and

3. A copy of this order will be filed with the aforesaid tariff and be served on American Airlines, Inc., and Trans World Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[Docket No. 24775; Order 73-9-50]

## GREAT WESTERN AIRLINES, INC.

### Order To Show Cause Regarding Establishment of Service Mail Rates

SEPTEMBER 12, 1973.

Issued under delegated authority.

Final service mail rates per great circle aircraft mile for the transportation of mail by aircraft as shown by the Appendix[1] were established by the Board and are currently in effect for Ross Aviation, Inc., d/b/a Great Western Airlines, Inc. (Ross), an air taxi operating pursuant to 14 CFR, Part 298.

By petition filed September 21, 1972, Ross requested the Board to reopen its current service mail rates and fix new final service mail rates per great circle aircraft mile as set forth in the Appendix. In support of its request, Ross alleged that it had incurred increases in its costs for fuel, oil, maintenance, crew costs, hangar rentals, and overhead. These increases were set out in the POD Form 2751-C attached to the petition.

On September 28, 1972, the Postal Service filed a motion for extension of time to reply stating that, since the petition involved a number of routes and points, the determination of the Postal Service position could not be made in the normal procedural time allowed. The request was granted October 5, 1972, and an extension was granted November 3, 1972.

On July 11, 1973, the Postal Service filed a late reply with petition to the Board for leave to file a late document, which is granted. The reply stated that the parties had come to an agreement and supported the rates set forth in the Appendix.

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the petition and other matters officially noticed, it is proposed to issue an order[2] to include the following findings and conclusions:

The fair and reasonable final service mail rates to be paid on and after September 21, 1972, to Ross Aviation, Inc. d/b/a Great Western Airlines, Inc., in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be the rates per great circle aircraft mile based on five round trips per week as set forth below:

| Route: | Rate (cents per mile) |
|---|---|
| Sheridan and Cheyenne via Newcastle and Wheatland, Wyo. | 49.62 |
| Cheyenne and Rock Springs via Rawlins, Wyo. | 58.72 |
| Riverton, Wyo., and Denver, Colo., via Worland, Casper, and Cheyenne, Wyo. | 54.53 |
| Medford and Portland via Klamath Falls and Bend, Oreg. | 51.59 |
| Spokane, Wash., and Boise, Idaho via Lewiston, Idaho | 53.63 |
| Ely and Reno via Elko, Nev. | 44.71 |
| Reno and Winnemucca via Lovelock, Nev. | 60.19 |
| Reno and Las Vegas, Nev. | 45.25 |

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR, Part 302, 14 CFR, Part 298, and 14 CFR 385.16(f),

*It is ordered*, That:

1. Ross Aviation, Inc., d/b/a Great Western Airlines, Inc., Allegheny Airlines, Inc., Hughes Air Corp., d/b/a Air West, Frontier Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc., the Postmaster General, and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rates specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rate of compensation to be paid to Ross Aviation, d/b/a Great Western Airlines, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR, Part 302, and notice of any objection to the rate or to the other findings and conclusions proposed herein, shall be filed within ten days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objection is not filed within ten days after service of this Order, or if notice is filed and answer is not filed within 30 days after service of this Order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rates specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rates shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the Rules of Practice (14 CFR 302.307); and

5. This order shall be served on Ross Aviation, d/b/a Great Western Airlines, Inc., Allegheny Airlines, Inc., Hughes Air Corp., d/b/a Air West, Frontier Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc., and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

[Docket Nos. 25361, 25363, 25364; Order 73-9-52]

## LUTHI AVIATION, INC.

### Order To Show Cause Regarding Establishment of Service Mail Rates

Issued under delegated authority September 12, 1973.

Final service mail rates per great circle aircraft mile for the transportation of mail by aircraft as shown in the Appendix[1] were established by the Board and are currently in effect for Luthi Aviation, Inc., an air taxi operating pursuant to 14 CFR Part 298.

By petitions filed March 28, 1973, Luthi requested the Board to reopen its current service mail rates and fix new final service mail rates per great circle aircraft mile as set forth in the Appendix.

On July 20, 1973, the Postal Service filed a late reply with petition to the Board for leave to file a late document, which is granted. The reply stated that the parties had come to an agreement and supported the rates set forth in the Appendix.

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the petition and other matters officially noticed, it is proposed to issue an order[2] to include the following findings and conclusions:

The fair and reasonable final service mail rates to be paid on and after March 28, 1973, to Luthi Aviation, Inc., in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be the rates per great circle aircraft mile, based on five round trips per week as set forth below:

| Route: | Rate (cents per mile) |
|---|---|
| Williston and Fargo via Minot and Devils Lake, N. Dak. | 64.85 |
| Minneapolis (Twin Cities), Minn. and Fargo, N. Dak. | 67.45 |
| Dickinson and Fargo via Bismark and Jamestown, N. Dak. | 64.17 |

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR, Part 302, 14 CFR, Part 298, and 14 CFR 385.16(f),

*It is Ordered*, That:

1. Luthi Aviation, Inc., the Postmaster General, Frontier Airlines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rates specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rate of compensation to be paid to Luthi Aviation, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR, Part 302, and notice of any objection to the rate or to the other findings and conclusions proposed herein, shall be filed within ten days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this Order;

3. If notice of objection is not filed within ten days after service of this Order, or if notice is filed and answer is not filed within 30 days after service of this Order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rate specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rate shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the rules of practice (14 CFR 302.307); and

5. This Order shall be served on Luthi Aviation, Inc., the Postmaster General, Frontier Airlines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc.,

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

## COUNCIL ON ENVIRONMENTAL QUALITY

### ENVIRONMENTAL IMPACT STATEMENTS

#### Notice of Public Availability

Environmental impact statements received by the Council on Environmental Quality from September 10 through September 14, 1973.

DEPARTMENT OF DEFENSE, ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn.: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-7168.

*Final*

Aquatic Plant Control Program, Florida, September 11: The statement refers to the proposed use of the chemical 2,4-D in order to control the growth and dispersal of water hyacinth in the waters of the State of Florida. The action will result in a temporary deterioration of water quality, with the amount of dissolved oxygen available for other life being reduced; non-target (broadleaf) species will be affected; the elimination of hyacinth could provide an opportunity for the spread of other problem plants; sports fishing in the vicinity of treated plants may be temporarily curtailed (approximately 200 pages). Comments made by: OEO, HUD, USDA, DOI, DOC, EPA, and state agencies and concerned citizens. (ELR Order No. 31488) (NTIS Order No. EIS 73 1488-F.)

Greenville Harbor, Washington County, Miss., September 10: The project consists of the widening of an existing channel from 250' to 500'; the construction of an inner harbor channel (500' wide); the extension of a 300' wide channel into the La Grange Crevasse area; and related work. Dredged spoil will be utilized to provide 390 acres of raised landfill. Marine ecosystems will be adversely affected (Vicksburg District) (50 pages). Comments made by: EPA, DOI, HEW, DOT, and state and regional agencies. (ELR Order No. 31477) (NTIS Order No. EIS 73 1477-F.)

Mississippi River, Vicksburg-Yazoo, Adams County, Miss., September 7: Proposed is a flood control project which will involve the construction of 12.4 miles of levee, a pumping plant, 12 miles of channel works, culverts, and a weir. Also involved is the acquisition of 2,000 acres to mitigate project induced fish and wildlife losses. Flood protection will be provided for 16,400 acres (Vicksburg District) (45 pages). Comments made by: EPA, USDA, DOI, USCG, HEW, and state agencies. (ELR Order No. 31467) (NTIS Order No. EIS 73 1467-F.)

Flushing Bay and Creek, Mississippi, September 7: Proposed is the maintenance dredging of the existing channel to its authorized project dimensions. Spoil will be disposed in approved dumping grounds of the Atlantic (New York District) (28 pages). Comments made by: USDA, DOC, USCG, DOI, USN, and one state agency. (ELR Order No. 31468) (NTIS Order No. EIS 73 1468-F.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630, Waterside Mall, Washington, D.C. 20460, 202-755-0940.

*Final*

Sewage System, Southern Dade County, Fla., September 11: The proposed action is the construction of major wastewater management facilities for the South District. Included are: a sewage transmission system intercepting flows from 9 systems in South Dade; a single 50 MOD regional secondary treatment plant which will replace the 9 smaller plants; and a deep well disposal system for the treated and disinfected effluent. Potential accidents could pollute the Biscayne Aquifer. (The statement "Ocean Outfalls and Other Methods of Treated Wastewater Disposal in Southeast Florida," NTIS Order # EIS 73 0401F, March 22, 1973 should be considered part of this statement by reference (approximately 250 pages). Comments made by: USDA, DOT, HEW, COE, DOC, state and local agencies, and concerned citizens. (ELR Order No. 31490) (NTIS Order No. EIS 73 1490-F.)

Sewage System, Central Dade County, Fla., September 11: The statement refers to the proposed construction of wastewater pumping stations, force mains, a treatment plant, and an ocean outfall, for Central Dade County. Upon completion of phase three of the project, system capacity will be 115 MGD at 90 percent BOD and suspended solids removal. There will be adverse impact from construction disruption. (The statement "Ocean Outfalls and Other Methods of Treated Wastewater Disposal in Southeast Florida," March 22, 1973, should be considered part of this statement by reference.) (277 pages.) Comments made by: DOT, HEW, HUD, USDA, COE, DOC, state and local agencies, and concerned citizens. (ELR Order No. 31489) (NTIS Order No. EIS 73 1489-F.)

DEPARTMENT OF TRANSPORTATION

FEDERAL AVIATION ADMINISTRATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 7th Street SW., Washington, D.C. 20590, 202-426-4357.

*Draft*

Cumberland Municipal Airport, Maryland, September 11: The proposed project involves the construction of a new asphalt runway (5400' x 150'); installation of runway lighting; and construction of a railroad tunnel and related work. One family will be displaced; 168 acres of land will be acquired. There will be loss of wildlife, and increases in air and noise pollution levels (72 pages). (ELR Order No. 31492) (NTIS Order No. EIS 73 1492-D.)

Thief River Falls Airport, Pennington County, Minn., September 11: The project will include the acquisition of 410 acres in fee title and 243 acres in easement; the widening and extending of the NW/SE runway from 90' x 5100' to 150' x 6500'; the construction of parallel taxiways; and the installation of lighting. Eight families will be displaced by the project; two roads will be relocated; air and noise pollution levels will increase (18 pages). (ELR Order No. 31491) (NTIS Order No. EIS 73 1491-D.)

FEDERAL HIGHWAY ADMINISTRATION

*Draft*

Route 99, Stanislaus County, Calif., September 10: The proposed project is the conversion of a portion of Route 99 from four to six lanes. Total length of the project is 5.1 miles; land acquisition will total 25 acres, with 1 family and 2 businesses being displaced. Noise and air pollution will increase. (ELR Order No. 31476) (NTIS Order No. EIS 73 1476-D.)

I 35, US 61, Duluth, St. Louis County, Minn., September 10: The proposed project involves the relocation of 3.6 miles of I 35, and the extension of 4 miles of US 61. The total amount of right-of-way is not specified. Displacements will include 63 businesses and 32 families. A 4(f) review will be filed due to the taking of land from the Leif Ericson Park. Other adverse impacts will include increases in air and noise pollution, and disruption of drainage patterns (193 pages). (ELR Order No. 31480) (NTIS Order No. EIS 73 1480-D.)

Route 36, Macon County, Mo., September 11: Proposed is the construction of 4.9 miles of highway, with bridges and interchanges. The project will require 300 acres of right-of-way, displacing 8 families and 4 businesses. Adverse impact will also include loss of wildlife, and increased air, noise, and water pollution levels (11 pages). (ELR Order No. 31487) (NTIS Order No. EIS 73 1487-D.)

I 40, Durham and Orange Counties, N.C., September 10: Proposed is the construction of 16.7 miles of new I 40, from south of Durham to I 85. The total amount of right-of-way; most of it in timber land, is not specified. Displacements will include 107 families and 40 businesses. Several streams will be crossed, along with the upper watershed of New Hope Creek, causing soil erosion, siltation, and disruption to wildlife. Increased noise and air pollution levels will result (99 pages). (ELR Order No. 31479) (NTIS Order No. EIS 73 1479-D.)

*Final*

Md. Rt. 2 and Md. Rt. 4, Calvert County, Md., September 11: The proposed project is the dualization of 5.68 miles of Routes 2 and 4 in Calvert County. The project will acquire 38 acres of wooded land for right-of-way and displace 10 families and 3 businesses. An increase in noise and air pollution levels will occur (approximately 100 pages). Comments made by: ACE, USDA, DOC, DOI, DOT, EPA, HEW, and USN. (ELR Order No. 31481) (NTIS Order No. EIS 73 1481-F.)

US 23 from Carey to Fostoria, Wyandot, Seneca, and Wood Counties, Ohio, September 13: The project would relocate and improve approximately 20 miles of road on US 23 between Carey and Fostoria, Ohio. The four-lane, linked access, divided highway passes mainly through agricultural lands, displacing about 23 families. The road would also affect traffic in the towns of Carey and Fostoria. Comments made by: USDA, EPA, HUD, DOI, and state agencies. (ELR Order No. 31497) (NTIS Order No. EIS 73 1497-F.)

L.R. 1022 (Traffic Route 219 relocated), several counties in Pennsylvania, September 10: The statement considers the proposed construction of L.R. 1022 (Traffic Route 219 Relocated). The portion of T.R. 219 involved

requires the construction of a 4-lane, limited access highway beginning between Hastings and Barnesboro on S.R. 11409, Cambria County; continuing through Jefferson, Elk and Indiana Counties to T.R. 153, Clearfield County. Project length is approximately 50 miles. An unspecified amount of land will be required for right-of-way. Temporary turbidity, sedimentation of streams, dust, increased noise level and soil erosion will occur during construction (278 pages). Comments made by: USDA, COE, DOI, EPA, HEW, ARC, and state agencies. (ELR Order No. 31478) (NTIS Order No. EIS 73 1478-F.)

## DELAWARE RIVER BASIN COMMISSION

### COMPREHENSIVE PLAN

#### Notice of Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, September 26, 1973, in the ASTM Building, 19th and Race Sts., Philadelphia beginning at 2 p.m. The subjects of the hearing will be as follows:

A. A proposal that the Ninth Annual Water Resources Program adopted by the Commission on September 27, 1972, be readopted and continued unchanged as the Tenth Water Resources Program in accordance with the requirements of § 13.2 of the Compact.

B. A proposal to amend the Comprehensive Plan so as to include therein the following projects:

1. *Warren and Sussex Counties Soil Conservation Districts.* Modification of the Paulins Kill Watershed Project in Warren and Sussex Counties, N.J. It is proposed to delete those parts of the watershed plan providing for two miles of channelization, dike construction, and construction of a grade control structure below the Route 94 bridge on Blair Creek. Flood control structures and land treatment measures in the plan have been completed and, with the proposed changes, it is proposed that the budget be terminated.

2. *Kress, Inc.* A well water supply project to augment public water supplies in Dreher Township, Wayne County, Pa. Designated as well No. 1, the new facility is expected to yield about 26,000 gallons per day to serve the Kresswood Streams development.

3. *Mount Laurel Municipal Utilities Authority.* A sewage treatment facility to provide interim service in Mt. Laurel Township, Burlington County, N.J. A treatment plant and a six mile-long force main will relieve overloaded conditions in existing treatment facilities in the area. The treatment plant will provide 90 percent removal of $BOD_5$ to a sewage flow of about 400,000 gallons per day. Treated effluent will discharge to a tidal portion of Rancocas Creek.

4. *City of Coatsville.* A project to provide emergency supply of raw water to serve the City of Coatsville and adjacent municipalities in Chester County, Pa. The emergency allocation provides for withdrawal of one million gallons per day from the West Branch Brandywine Creek at a new diversion point. The emergency allocation is for a thirty-day period.

5. *Borough of Kennett Square.* Upgrading and expansion of the Borough's sewage treatment plant in Kennett Township, Chester County, Pa. Improvements are designed to provide removal of 92 percent $BOD_5$ and suspended solids from a sewage flow of about 1.1 million gallons per day. Treated effluent will discharge to the West Branch of Red Clay Creek.

6. *Southampton Sewerage Co.* Phase I of a sewage treatment project to serve the Leisure Towne and Hampton Lakes development in Southampton Township, Burlington County, N.J. The treatment plant is designed to provide removal of 97 percent $BOD_5$ and suspended solids to a sewage flow of about 500,000 gallons per day. Treated effluent will discharge to the South Branch of Rancocas Creek below Vincentown.

7. *Pennsylvania Department of Environmental Resources.* A well water supply project to provide public water supplies in the Nockamixon State Park, Bucks County, Pa. The proposed well is located in the park on the north side of Tohickon Creek and is expected to yield 195,000 gallons per day.

8. *Landwhere Corp.* A sewage treatment plant to serve the Reflection Lakes Mobile Homes and Campsites in Manchester Township, Wayne County, Pa. The plant will provide removal of 95 percent $BOD_5$ and 97 percent of suspended solids from an ultimate sewage flow of 340,000 gallons per day. Treated effluent will discahrge to the South Branch of Equinunk Creek.

9. *Chalfont-New Britain Township Joint Sewer Authority.* Expansion of the Authority's sewage treatment plant serving Doylestown Township and adjacent municipalities in Bucks County, Pa. Expanded f cilities will provide for removal of 98 percent $BOD_5$ from an ultimate sewage flow of seven million gallons per day. Treated effluent will discharge to Neshaminy Creek.

C. A proposal to approve the following water pollution abatement schedules as submitted in accordance with § 3-4.2 (2) of the Basin Regulations-Water Quality:

1. *U.S. Department of the Army, Burlington Army Ammunition Plant.* A violation of the effluent requirements of the Commission's Basin Regulations was determined for this facility located in Burlington, N.J., and discharging into Zone 2 of the Delaware Estuary. An abatement schedule for this facility was approved on August 23, 1972, that required compliance by June 1973. The plant has since ceased operation. The revised schedule withdraws the allocation of 11 pounds per day of carbonaceous oxygen demand assigned to the facility and requires the Department of the Army to construct a treatment plant prior to any future reactivation of the facility.

2. *Township of Falls Authority.* A violation of the effluent requirements of the Commission's Basin Regulations was determined for this facility located in Bucks County, Pa., and discharging to Zone 2 of the Delaware Estuary. The proposed schedule permits the Township of Falls Authority to divert its wastewater flows via the Neshaminy Interceptor to the City of Philadelphia's Northeast Plant. Such diversion shall be completed within six months of the completion of the expanded Philadelphia Northeast Plant (December 31, 1975). The allocation of 220 pounds per day of carbonaceous oxygen demand shall be withdrawn and returned to the Zone 2 reserve.

Documents relating to the above projects may be examined at the Commission's offices. Persons wishing to testify are requested to notify the Secretary prior to the hearing.

W. BRINTON WHITALL,
*Secretary.*

## ENVIRONMENTAL PROTECTION AGENCY

[Dockets No. 145 et al.]

### REGISTRATIONS AND TOLERANCES OF PESTICIDES ALDRIN AND DIELDRIN

#### Amendment to Supplemental Notice of Hearing

The hearing session schedule to begin October 2, 1973, in Washington, D.C., in a supplemental notice of hearing issued July 18, 1973 (38 FR 19712), in the consolidated proceedings under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 135 *et seq.*), as amended by the Federal Environmental Pesticide Control Act of 1972 (86 Stat. 973), and sections 406 and 408 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346 and 346a), involving registrations and tolerances of the pesticides aldrin and dieldrin, will begin instead on Tuesday, October 16, 1973, at 9:30 a.m., local time, in the EPA Hearing Room, Room 3906, Waterside Mall, 401 M Street, SW., Washington, D.C.

HERBERT L. PERLMAN,
*Chief Administrative Law Judge.*

SEPTEMBER 14, 1973.

[FR Doc.73-19974 Filed 9-19-73;8:45 am]

### STATIONARY SOURCE ENFORCEMENT PROCEEDING

#### Notice and Procedure for Public Hearing

Commencing on October 18, 1973, at 9:30 a.m., a public hearing will be held to consider the status of compliance with sulfur oxide emission regulations by powerplants through the application of control technology for removing sulfur oxides from their emission gases. The hearing will convene at the Marriott Twin Bridges Motel, U.S. Route 1, Arlington, Virginia, and transfer to the Crystal City Theatre, 1811 Jefferson Davis Highway, Arlington, Virginia, starting October 23, 1973.

Notices of violation have been issued by EPA pursuant to section 113(a)(1) of the Clean Air Act, as amended (42 U.S.C. 1857c-8), with respect to the following powerplants:

(1) Northern Indiana Public Service Co.
Bailly Station
Gary Vicinity, Indiana
(2) Public Service Co., Indiana, Inc.
Wabash River Station
Terre Haute, Indiana
(3) West Pennsylvania Power Co.
Mitchell Station
Courtney (Washington County), Pennsylvania

Pursuant to Section 114(a) of the Clean Air Act, as amended (42 U.S.C.

V 38 I 182 SEP 20 73 XUM

1857c–9), the owners and operators of these and other powerplants, as listed below, have been requested to attend the hearing:

(1) (a) Tennessee Valley Authority
Widows Creek Station
Stevenson, Alabama
(b) Tennessee Valley Authority
Kingston Station
Kingston, Tennessee
(2) (a) American Electric Power Company
Kammer Station
Wheeling Vicinity, West Virginia
(b) American Electric Power Company
Cardinal Station
Brilliant, Ohio
(3) (a) Ohio Edison
Sammis Station
Stratton, Ohio
(b) Ohio Edison
Burger Station
Shadyside, Ohio
(4) (a) Commonwealth Edison
Joliet Station
Joliet, Illinois
(b) Commonwealth Edison
Waukegan Station
Waukegan, Illinois
(5) (a) Kansas City Power and Light Co.
Hawthorne Station
Kansas City, Missouri
(b) Kansas City Power and Light Co.
La Cygne Station
La Cygne, Kansas
(6) Louisville Gas and Electric Co.
Paddy's Run #6 Station
Louisville, Kentucky
(7) Boston Edison
Mystic Station
Everett, Massachusetts
(8) Commonwealth Edison
Will County Station
Joliet Vicinity, Illinois
(9) Illinois Power Co.
Wood River Station
Wood River, Illinois
(10) Potomac Electric and Power Co.
Dickerson Station
Dickerson, Maryland
(11) Philadelphia Electric Co.
Eddystone Station
Eddystone, Pennsylvania
(12) Duquesne Light Co.
F. Phillips Station
South Heights, Pennsylvania
(13) Southern California Edison
Mohave Station
Clark County, Nevada
(14) Public Service of New Mexico
San Juan Station
Four Corners Vicinity, New Mexico

At this hearing each company issued a notice of violation will be required to answer relevant questions and present information bearing on:

(1) The finding of violation;
(2) The nature of the violation;
(3) Any efforts taken to achieve compliance;
(4) Application of control technology both in general and as it relates to specific power plants; and
(5) A reasonable and expeditious schedule for achieving compliance with applicable regulations.

All other companies requested to attend the hearing will be expected to answer questions and present information bearing on items 3–5, as listed above.

In addition, the three companies issued a notice of violation and the first four companies, as listed above, issued a request for information pursuant to section 114 will be requested to submit a detailed report to the Dirceter, Division of Stationary Source Enforcement (DSSE), Environmental Protection Agency, Room 3220, Waterside Mall, 401 M Street SW., Washington, D.C. 20460, to be received no later than 12:00 noon October 12, 1973.

The Administrator encourages other members of the powerplant industry, related industries, vendors of control equipment and other interested persons to attend the hearing and to present information and views pertinent to the application of control technology for removing sulfur oxides from powerplants. The hearing is being held both to fulfill the statutory requirements of section 113(a)(4) of the Clean Air Act, as amended (42 U.S.C. 1857c–8), and to elicit information on the status of compliance by power plants generally through the use of sulfur oxide control technology.

Any person may participate in the public hearing through the filing of written comments or information with the Director, DSSE. Written matter may be submitted for inclusion in the record of the hearing at any time prior to completion of the hearing.

Any person desiring to make an oral statement at the hearing and not otherwise requested or invited to testify shall file a written request (10 copies, if practicable) to make an oral statement with the Director, DSSE, not later than October 12, 1973. Persons failing to submit timely written requests to give oral presentations at the public hearing shall not be entitled to appear at the hearing except at the discretion of the hearing panel. Such persons are not precluded, however, from submitting written statements for the record and written questions to be propounded by the hearing panel. Written requests to make oral presentations shall contain a summary of such person's oral statement. Direct oral statements by invited participants, other than the owners and operators of power plants to whom notices of violation have been issued, shall be limited to twenty (20) minutes, and all other participants shall be limited to fifteen (15) minutes, followed by such questioning as the hearing panel deems appropriate. Requests for additional time can be presented to the Director, DSSE, but must include a showing that any information requiring additional time for presentation cannot be submitted appropriately as written matter.

The public hearing is designed to give all persons an opportunity to participate in this proceeding. Participants may present data, views, arguments, or other pertinent information concerning compliance by the above powerplants with applicable regulations and may submit written questions to be propounded to a witness by the hearing panel. Participants in the proceeding may, in addition, submit written requests to question specified witnesses directly. Such written requests may be submitted at any time and shall be allowed at the discretion of the hearing panel. Requests to question a witness directly shall contain a showing that the issues to be addressed are critical to the issues in the proceeding and that interrogation of the witness by the requesting party is likely to be more effective in eliciting critical information than by the panel or through written questions submitted by such participant. Such requests shall specify the particular issues to be pursued on direct examination of a witness.

The panel may exclude irrelevant or redundant material or questions, and may direct that corroborative material be submitted in writing rather than presented orally.

A verbatim transcript of the proceeding will be made and copies will be available from the reporter at the expense of any person requesting them.

Dated September 17, 1973.

RUSSELL E. TRAIN,
*Administrator.*

## USE OF PRODUCTS CONTAINING CALCIUM CYANIDE, STRYCHNINE, SODIUM MONOFLUOROACETATE (1080) AND SODIUM CYANIDE FOR HOME, URBAN AND FIELD RODENTICIDES

### Notice of Public Hearings

On August 28, 1973, this Agency published in the FEDERAL REGISTER, a notice of intent to hold informal public hearings to solicit views of interested persons on whether or not the use of products containing calcium cyanide, strychnine, sodium monofluoroacetate (1080), and sodium cyanide as rodenticides should be canceled or amended. These hearings are considered necessary to expedite preparations for the formal hearing to be held in December of 1973 as announced in the FEDERAL REGISTER Notice dated June 19, 1973.

This notice is published to provide information to interested parties as to the specific dates and location of these hearings. The dates and locations are as follows:

September 17, 1973, 9:00 a.m.

Room 3906, Waterside Mall
401 M Street SW.
Washington, D.C.

(This hearing may be extended to include September 18, dependent upon the number of requests to present views.)

September 25, 1973, 9:30 a.m.

State Social Services Building
Basement Meeting Room
1575 Sherman Street
Denver, Colorado

September 27, 1973, 9:00 a.m.

Conference Rooms A and B
11th Floor
1600 Patterson Street
Dallas, Texas

October 2, 1973, 9:30 a.m.

Assembly Conference Room
Department of Food and Agriculture
1220 N Street
Sacramento, California

(86 Stat. 996.)

Dated September 17, 1973.

DAVID D. DOMINICK,
*Assistant Administrator for Hazardous Materials Control.*

## FEDERAL COMMUNICATIONS COMMISSION

[TIAS-2594; Supp. 2]

### CANADA-U.S.A. TV AGREEMENT OF 1952
### Amendment to Table A

SEPTEMBER 13, 1973.

*Supplement No. 2* To the Table of Canadian Television Channel Allocations with 250 miles of the Canada-U.S.A. border, dated March 21, 1973, as revised to January 20, 1973.

Pursuant to exchange of correspondence between the Department of Communications of Canada and the Federal Communications Commission, Table A of the Canadian-U.S.A. Television Agreement has been amended as follows:

| Province and city | Channel No. Delete | Channel No. Add |
|---|---|---|
| Ontario: | | |
| Ayr | | [1] 8 |
| Chatham | | [2] 58, 59 [3], 81— |
| Exeter | | [4] 52— |
| Forest | | [5] 21+ |
| Goderich | 34— | 59 |
| Guelph | 16+ | 80 |
| Hanover | | [6] 26 |
| Leamington | 80+ | 22—, 73 |
| London | 52—, 71 | 78 |
| Oil Springs | | [7] 29+, [8] 12— |
| Oshawa | | 16+ |
| Preston | 28 | |
| Sarnia | 71+, 88 | 68, 79— |
| Stratford | 36 | 30— |
| Windsor | | [9] 22—, [10] 26—, [11] 32+, [12] 78 |
| Wingham | 73 | 60 |
| Woodstock | 18 | 71 |

[1] 43°15'35" North Latitude, 82°39'30" West Longitude.
[2] 42°25'40" North Latitude, 82°07'14" West Longitude. This allocation is already included in Table A and is included herein to specify the approximate location of the transmitter site only.
[3] 42°27'00" North Latitude, 82°05'00" West Longitude.
[4] 43°21'00" North Latitude, 81°28'48" West Longitude.
[5] 43°05'00" North Latitude, 82°00'00" West Longitude.
[6] 44°09'00" North Latitude, 81°02'00" West Longitude.
[7] 42°27'15" North Latitude, 81°15'58" West Longitude.
[8] 42°43'21" North Latitude, 82°10'00" West Longitude.
[9] 42°08'00" North Latitude, 82°45'42" West Longitude.
[10] 42°17'42" North Latitude, 83°05'00" West Longitude. This allocation is already included in Table A and is included herein to specify the approximate location of the transmitter site only.
[11] 42°08'28" North Latitude, 82°51'10" West Longitude. This allocation is already included in Table A and is included herein to specify the approximate location of the transmitter site only.
[12] 42°09'00" North Latitude, 82°57'05" West Longitude. This allocation is already included in Table A and is included herein to specify the approximate location of the transmitter site only.

There are apparent short-spacings between some of the Canadian allocations specified above and technically related United States allocations using reference points of cities to which some of the channels are assigned. However, minimum required mileage separations are met on the basis of pertinent approximate transmitter sites specified below.

Approximate site locations:

| Quebec | Channel No. Delete | Channel No. Add |
|---|---|---|
| Sept Iles | | 13+ |

[14] Limitation to protect CJBR-TV, Rimouski, Quebec.

Further amendments to Table A will be issued as public notices in the form of numbered supplements or recapitulated lists.

Copies of the basic Table of Allocations may be obtained from Information Planning Associates, Inc., 310 Maple Drive, Rockville, Maryland 20850 (telephone 340–0250, area code 301).

[SEAL] WALLACE E. JOHNSON,
*Chief, Broadcast Bureau, Federal Communications Commission.*

[FR Doc.73-20018 Filed 9-19-73;8:45 am]

[Docket No. 19819; FCC 73-937]

## HAWAIIAN TELEPHONE CO.

### Memorandum Opinion and Order Re Tariff Investigation and Hearing

1. On April 27, 1973, The Hawaiian Telephone Co. (Hawtel) filed revisions to its Tariff F.C.C. No. 10 [1] under Transmittal No. 344 which are currently scheduled to become effective September 14, 1973. The revisions provide for substantial increases to the monthly rates and non-recurring charges applicable to Hawtel's "Wide Spectrum Services" (CATV channel distribution) offering. In the economic data submitted pursuant to Section 61.38 of our rules, Hawtel estimates that the proposed increases will provide additional revenues of approximately $326,000 annually (to produce an overall rate of return for the service of 9 percent).

2. On May 22, 1973, The Hawaiian Cable Television Association (HCTA), a trade association representing the five cable television systems which use Hawtel's Wide Spectrum Services, filed a petition for rejection or suspension of the above-referenced tariff revisions. HCTA seeks rejection of the revisions on the grounds that Hawtel failed to comply with the notice requirements of §§ 61.32 and 61.58 of our rules and regulations; that the economic support data filed pursuant to § 61.38 was inadequate and incomplete; and that Hawtel failed to demonstrate compliance with the Cost of Living Council's Economic Stabilization Program ("Phase III") regulations. Alternatively, HCTA seeks suspension and investigation of the revisions on the grounds that the claimed rate base is "grossly overstated" (in connection with this point, petitioner challenges the valuation of assets, charges to depreciation and provision for working cash); that the 9 percent rate of return has not been justified; and that the proposed rate increases are intended to intimidate customers into buying the facilities at an inflated price.

3. In its reply, Hawtel denied the allegations in the HCTA petition and attacked the petition itself on two grounds. First, Hawtel argued that the petition should be dismissed for failure to comply with Section 1.44(a) of the rules, 47 CFR 1.44(a) (1972), which prohibits the joinder of a request requiring Commission action (here, a request for suspension of the revisions) with a request for action by the staff under delegated authority (rejection of the revisions). Second, Hawtel believes the petition exceeds the bounds of permissible advocacy in charging it with, among other things, "extortionist tactics" in addition to generally impugning its character.[2] For this reason Hawtel urged that the petitioner be required to supply evidence to prove its charges or that the offending language be stricken from the petition.

4. We agree with Hawtel that the HCTA petition is procedurally defective under our rules. We have previously indicated that we intend to enforce the impermissive joinder rules.[3] Therefore, under § 1.44(e) we shall order the petition to be dismissed. With respect to the second challenge to the petition, since we have ordered it dismissed *in toto*, we do not need to rule on the relief requested by Hawtel. However, we regard it as inappropriate for parties to use extreme accusatory terminology unless they advance a firm factual basis for their charges.

5. Although we have concluded that HCTA's petition should be dismissed on procedural grounds, on our own motion we have made an examination of the tariff revisions. The proposed increase in monthly charges for CATV channel distribution service amounts to approximately 100 percent. We note that this is the first increase in rates which Hawtel has sought since we asserted jurisdiction over the service, *Hawaiian Telephone Co.*, 16 F.C.C. 2d 308 (1969). Hawtel states that the return, after tax, for calendar year 1972 was .62 percent and that it has historically earned a low rate of return for the service. In view of this low rate of return, it would appear that some revenue relief would be appropriate. However, we are of the opinion the magnitude of the increases presents questions of lawfulness and reasonableness which cannot be resolved on the pleadings now before us.

6. In view of the foregoing, we are unable to conclude that all features of the tariff revisions are just and reasonable within the meaning of section 201(b) of the Act. We shall therefore designate the revisions for hearing and shall suspend the effectiveness thereof and enter

[1] Specifically, 2d Revised Page 20, Supplement No. 4 defers the effective date of the revisions until September 14, 1973.

[2] HCTA Petition, at pp. 2, 8, 19.

[3] *See* 41 F.C.C. 2d 232 (1973), 39 F.C.C. 2d 637, 639 (1973).

V38-1820 SEP 20 73 XUM

an accounting order providing for possible refund. However, in view of the currently low rate of return being earned on this service, the concomitant possibility that other Hawtel customers are being forced to bear part of the costs for Wide Spectrum Service, and the protection afforded customers by the accounting order we are providing herein, we shall suspend the revisions for a period of one day.

7. In the present case, we believe it desirable that the Administrative Law Judge render an Initial Decision and that the trial staff of the Common Carrier Bureau be separated from both the Commission and the Administrative Law Judge. As we have previously explained, 32 F.C.C. 2d 89, 90 (1971), the separation of the trial staff simply means that such staff: (1) will not make any oral presentations to the Administrative Law Judge or the Commission without the other parties being present, and (2) will not make any written presentations to the Administrative Law Judge or the Commission which are not served on the other parties.

*Accordingly, it is ordered*, That, pursuant to the provisions of sections 4(i), 4(j), 201, 204, and 403 of the Communications Act of 1934, an investigation is instituted into the lawfulness of the above-referenced tariff revisions filed by The Hawaiian Telephone Co., including any cancellations, amendments, or reissues thereof; and no changes shall be made in such tariff schedules during the pendency of this proceeding without prior approval by the Commission;

*It is further ordered*, That, pursuant to the provisions of Section 204 of the Act, the above tariff revisions ARE HEREBY SUSPENDED until September 15, 1973, and that The Hawaiian Telephone Co., as to the subject increased monthly and non-recurring charges and until further order of the Commission, shall keep accurate account of all amounts received by reason of such increases, specifying by whom and in whose behalf such amounts were paid, and upon completion of the hearing and decision therein, the Commission may by further order require the refund thereof with interest, pursuant to Section 204 of the Act, and the carrier shall file such reports on the amounts accounted for as aforesaid as the Chief, Common Carrier Bureau shall require;

*It is further ordered*, That, without in anyway limiting the scope of the investigation, it shall include consideration of the following issues:

(1) Whether the charges, classifications, practices, and regulations published in the above-referenced tariff are or will be unjust and unreasonable within the meaning of section 201(b) of the Act;

(2) If any of such charges, classifications, practices, and regulations are found to be unlawful, whether the Commission, pursuant to Section 205 of the Act, should prescribe charges, classifications, practices, or regulations for the service governed by the tariff, and if so, what should be prescribed;

(3) The amounts properly includable in the rate base for Wide Spectrum Service, including the net investment of The Hawaiian Telephone Co., in property used and useful in the provision of that service;

(4) The amounts properly includable as expenses and taxes incurred by The Hawaiian Telephone Co., in the provision of Wide Spectrum Service;

(5) The propriety of the plant and depreciation accounting performed by The Hawaiian Telephone Co., in connection with the Wide Spectrum Service since the institution of that service;

(6) The fair rate of return required by The Hawaiian Telephone Co., on its allowable rate base associated with Wide Spectrum Service determined pursuant to the foregoing as well as upon any other alternative approaches that may be appropriate; and

(7) From the foregoing issues three through six, what revenues are required to give The Hawaiian Telephone Co., a fair rate of return for Wide Spectrum Service (as determined in issue six above);

*It is further ordered*, That, the hearing in this proceeding shall commence at the Commission offices in Washington, D.C., at a time to be specified by the presiding Administrative Law Judge; and that such Administrative Law Judge shall, upon the closing of the record prepare an initial decision which shall be subject to the submission of exceptions and requests for oral argument as provided in 47 CFR 1.276 and 1.277, after which the Commission shall issue its decision as provided in 47 CFR 1.282 and that the trial staff of the Common Carrier Bureau be separated both from the Commission and from the Administrative Law Judge;

*It is further ordered*, That The Hawaiian Telephone Co. is named party respondent to the investigation ordered herein and that the Hawaiian Cable Television Association is hereby granted leave to intervene, upon filing within ten (10) days of the release of this order a notice of intention to participate, and shall be permitted to appear and adduce any relevant and probative evidence which bears on the issues specified for investigation herein; and

*It is further ordered*, That the above-referenced petition to reject or suspend filed by The Hawaiian Cable Television Association is, for the reasons cited herein, dismissed.

Adopted September 11, 1973.

Released September 13, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc 73-20016 Filed 9-19-73;8:45 am]

[1] Commissioner Robert E. Lee absent.

[Docket Nos. 19813-19815; FCC 73-929]

## HENDERSON BROADCASTING CO. ET AL.

### Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Henderson Broadcasting Co., Inc., Bloomington, Indiana. Docket No. 19813, File No. BPH-7946. Requests: 96.7 MHz, No. 244A; 420 watts (H & V); 700 feet; Indiana Communications, Inc., Bloomington, Indiana, Docket No. 19814, File No. BPH-8030, Requests: 96.7 MHz, No. 244A; 3 kW (H & V); 300 feet; Bloomington Media Corporation. Bloomington, Indiana, Docket No. 19815, File No. BPH-8032, Requests: 96.7 MHz, No. 244A; 3 kW (H & V); 300 feet, for construction permits.

1. The Commission has before it the above applications which are mutually exclusive in that each applicant seeks the same FM broadcast channel allocated to Bloomington, Indiana. Therefore, a comparative hearing is required.

2. Section 73.210 of our rules provides that the main studio of a commercial FM broadcast station must either be located in the proposed city of license or that good cause must be shown for locating the main studio outside the community. Although Henderson Broadcasting Co., Inc. (Henderson), has proposed to locate its studio at its transmitter site outside of Bloomington, it has submitted a showing in support of its proposal, indicating that the studio will be readily accessible by highway and is only three miles from the center of the city. We find the showing to be adequate, and therefore, no issue will be specified.

3. Section 1.580 of our rules requires that an applicant filing for a construction permit for an FM broadcast station shall publish a notice of such filing at least twice a week for two-consecutive weeks within the three-week period immediately following the tendering for filing of that application in a daily newspaper of general circulation published in the community in which the proposed station is to be located. Henderson's application was tendered for filing on June 7, 1972. Henderson asserts that, due to a misunderstanding between one of its principals and the newspaper which published the notices, only one publication was made during the week of June 11, while another was effected on June 22, and the third and fourth were made on June 28 and 29. We find that the public has received adequate notice of the filing of Henderson's application and that the publications amount to substantial compliance with section 1.580 of our rules.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, because the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. *Accordingly, it is ordered*, That the applications are designated for hearing in a consolidated proceeding, pursuant to section 309(e) of the Communications Act of 1934, as amended, at a time and place to be specified in a subsequent Order, on the following issues:

1. To determine which of the proposals would, on a comparative basis, best serve the public interest.

2. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications for construction permits should be granted.

6. *It is further ordered*, That each of the applicants shall file a written appearance stating an intention to appear and present evidence on the specified issues, within the time and in the manner required by section 1.221(c) of our rules.

7. *It is further ordered*, That the applicants shall give notice of the hearing, within the time and in the manner specified in § 1.594 of our rules, and shall seasonably file the statement required by § 1.594(g).

Adopted September 6, 1973.

Released September 14, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

## STANDARD BROADCAST APPLICATIONS READY AND AVAILABLE FOR PROCESSING

SEPTEMBER 14, 1973.

Notice is hereby given, pursuant to § 1.571(c) of the Commission's rules, that on October 24, 1973, the standard broadcast applications listed in the attached Appendix will be considered as ready and available for processing. Pursuant to § 1.227(b)(1) and § 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on October 23, 1973, which involves a conflict necessitating a hearing with an application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C., by the close of business on October 23, 1973.

The attention of any party in interest desiring to file pleadings concerning any pending standard broadcast application, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

Adopted September 12, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

## FEDERAL MARITIME COMMISSION

### MATSON NAVIGATION CO. AND McCABE, HAMILTON & RENNY CO.

### Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before October 10, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Peter P. Wilson, Counsel
Matson Navigation Company
100 Mission Street
San Francisco, California 94105

Agreement No. T-2851, between Matson Navigation Co. (Matson) and McCabe, Hamilton & Renny Co. (McCabe) provides for a cargo services arrangement whereby McCabe is to furnish Matson comprehensive terminal, stevedore, container freight yard, and container freight station services as required by Matson at the Ports of Kahului, Nawiliwili, and Port Allen, Hawaii. As compensation, McCabe is to receive rates as agreed upon by the parties and filed with the Commission. The agreement replaces a similar agreement between the parties (FMC Agreement No. T-2701) previously approved by the Commission on April 19, 1973.

By order of the Federal Maritime Commission,

Dated September 14, 1973.

FRANCIS C. HURNEY,
*Secretary.*

[FR Doc.73-20043 Filed 9-19-73;8:45 am]

## FEDERAL RESERVE SYSTEM

### ALABAMA FINANCIAL GROUP, INC.

### Order Approving Acquisition of Southern States Life Insurance Co.

The Alabama Financial Group, Inc., Birmingham, Alabama, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Southern States Life Insurance Company, Birmingham, Alabama ("Company"), a company that will engage de novo in the activity of underwriting credit life and credit accident and health insurance directly related to extensions of credit by Applicant's subsidiaries. Such activity has been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (138 FEDERAL REGISTER 14793). The time for filing comments and views has expired, and none has been timely received.

Applicant, the fourth largest bank holding company in the State, controls seven banks with aggregate deposits approximating $664 million and representing 9.7 percent of total deposits in commercial banks in Alabama.[1]

Company will engage de novo in the activity of acting as underwriter for credit life and credit accident and health insurance directly related to extensions of credit by the bank holding company system.

Credit life and credit accident and health (disability) insurance is generally made available by banks and other lenders and such insurance is designed to assure repayment of a loan in the event of death or disability of the borrower. In connection with its addition of credit life underwriting to the list of permissible activities for bank holding companies, the Board stated that:

To assure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally such a showing would

[1] All banking data are as of December 31, 1972, and reflect holding company formations and acquisitions approved through July 20, 1973.

V 38-182 SEP 20 73 XUM

be made by a projected reduction in rates or increase in policy benefits due to bank holding company performance of this service.

Applicant has stated that within ninety days after approval of the proposed transaction, there will be a 5 percent reduction from the premiums presently being charged, for all credit accident and health insurance written by Company; and there will be a 15 percent reduction from the premiums presently being charged, for all credit life insurance written by Company. It appears that the proposed rates are below those generally prevailing in the areas involved. The Board believes that the reduced cost of such insurance coverage is pro-competitive and in the public interest, and accordingly, the Board concludes that considerations relating to the public benefits factors are consistent with approval of the application.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof; it is subject to the further condition that the proposed activities must be commenced within no less than three months after the effective date hereof unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] effective September 13, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-19971 Filed 9-19-73;8:45 am]

### BANK OF VIRGINIA CO.

#### Acquisition of Bank

Bank of Virginia Company, Richmond, Virginia, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares of Bank of Virginia-Petersburg, Petersburg, Virginia. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Richmond. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 8, 1973.

Board of Governors of the Federal Reserve System, September 12, 1973.

### QUINDARO BANCSHARES, INC.

#### Formation of Bank Holding Co.

Quindaro Bancshares, Inc., Kansas City, Kansas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 percent of the voting shares of The Quindaro State Bank, Kansas City, Kansas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank, to be received not later than September 26, 1973.

Board of Governors of the Federal Reserve System, September 13, 1973.

### INVESTORS DIVERSIFIED SERVICES, INC., ET AL.

#### Filing of Application for Exemption

SEPTEMBER 14, 1973.

Notice is hereby given that Investors Diversified Services, Inc. ("IDS"), Investors Syndicate of America, Inc. ("ISA"), IDS Life Insurance Company ("IDS Life"), IDS Life Variable Annuity Fund A and IDS Life Variable Annuity Fund B (collectively the "Variable Annuity Funds"), IDS Tower, Minneapolis, Minnesota 55402, and IDS Growth Fund, Inc., IDS New Dimensions Fund, Inc., IDS Progressive Fund, Inc., Investors Mutual, Inc., Investors Selective Fund, Inc., Investors Stock Fund, Inc., Investors Variable Payment Fund, Inc., 1000 Roanoke Building, Minneapolis, Minnesota 55402 (collectively the "Mutual Funds") (collectively the "Applicants") have filed an application pursuant to sec. 6(c) of the Investment Company Act of 1940 ("Act") for an order of temporary exemption from secs. 15(a), 15(b), and 15(c) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

IDS acts as investment adviser to, and as principal underwriter for, the Mutual Funds and ISA, a wholly-owned subsidiary of IDS. IDS and IDS Life, a wholly-owned subsidiary of IDS, act as investment advisers for the Variable Annuity Funds. ID Life, in addition, acts as principal underwriter for the Variable Annuity Funds. The Mutual Funds and Variable Annuity Funds are registered under the Act as diversified open-end management investment companies; ISA is registered under the Act as a face-amount certificate company.

On May 1, 1973, the Alleghany Corporation ("Alleghany") owned beneficially 44.4 percent of the outstanding voting securities of IDS which ownership gave Alleghany presumptive control of IDS pursuant to sec. 2(a)(9) of the Act. Alleghany, in turn, is presumptively controlled by The Allan Corporation which beneficially owns 29.2 percent of Alleghany's outstanding voting securities. Mr. Allan P. Kirby ("Kirby") owned beneficially 20.2 percent of Alleghany and 2.5 percent of IDS. All of the outstanding voting securities of The Allan Corporation are owned by a series of trust funds the trustees of which are Kirby's wife and four children. The beneficiaries of such trusts are the same as the trustees with the addition of Kirby's grandchildren.

On May 2, 1973, Kirby died. For a number of years prior to his death, Kirby's property had been under the guardianship of his two sons, Allan P. Kirby, Jr. and F. M. Kirby. Kirby's will admitted to probate on May 14, 1973, named his two sons, William G. Rabe, and the Manufacturers Hanover Trust Company as executors to whom the power to vote the stock of the decedent passed under New Jersey law. Under the will, the F. M. Kirby Foundation ("Foundation"), a charitable organization incorporated in 1931, is to receive a specific legacy of one million shares of Alleghany common stock which amount represents approximately 12.3 percent of Alleghany. When this legacy is distributed, the power to vote these shares will be held by the directors of the Foundation who are Kirby's widow and his four children. They also have the power to elect the directors of the Foundation.

Each of the investment advisory contracts and principal underwriting agreements in effect on May 1, 1973, between IDS and the Mutual Funds, ISA, and the Variable Annuity Funds, and the Investment advisory contracts and principal underwriting agreements between IDS Life and the Variable Annuity Funds contained the provision required by sec. 15 of the Act for automatic termination in the event of their "assignment". Section 2(a)(4) of the Act defines the term "assignment" to include, in part, any direct or indirect transfer of a controlling block of the assignor's outstanding voting securities by a security holder of the assignor.

On May 10, 1973, the boards of directors of the Mutual Funds approved new underwriting contracts with IDS, and the boards of directors of the Variable Annuity Funds approved new underwriting contracts with IDS Life. On August 8, 1973, the board of directors of ISA approved a new underwriting contract with IDS.

On June 13 and June 20, 1973, respectively, the Mutual Funds and the Variable Annuity Funds held their annual meetings of shareholders and contract holders. With full knowledge of Kirby's death and its effect on the ownership and the voting of Alleghany stock, the shareholders of the Mutual Funds approved a new investment advisory contract with IDS and the contract holders of the Variable Annuity Funds approved new investment advisory contracts with IDS Life and between IDS and IDS Life. On August 8, 1973 the shareholder of ISA approved a new investment advisory contract with IDS. All new investment advisory contracts approved are identical or substantial indentical with such contracts in existence on the date of Kirby's death.

Section 15(a) of the Act provides, in pertinent part, that it shall be unlawful for any person to serve or act as an investment adviser of an investment company except pursuant to a written contract which has been approved by a vote of a majority of the outstanding voting securities of such company.

Section 15(b) of the Act provides, in pertinent part, that it shall be unlawful for any principal underwriter for an open-end company to offer for sale, sell, or deliver after sale any security of which such company is the issuer except pursuant to a written contract with such company.

Section 15(c) of the Act provides, in pertinent part, that it shall be unlawful for any investment company having a board of directors to enter into, renew, or perform any investment advisory or underwriting contract unless the terms of such contract and any renewal thereof have been approved by the vote of a majority of directors who are not parties to such contract or interested persons of any such party.

Applicants submit that if the transfer of the right to vote the Alleghany stock owned by Kirby at his death constitutes an "assignment" of the investment advisory and underwriting contracts, those contracts would have automatically terminated upon Kirby's death. Therefore, Applicants request an order pursuant to sec. 6(c) of the Act exempting them from the provisions of secs. 15(a), 15(b), and 15(c), to the extent necessary to permit the following: (i) IDS to act as investment adviser for the Mutual Funds on the same terms and conditions set forth in the investment advisory contracts between IDS and the Mutual Funds, all dated June 7, 1972, for the period from May 2 to June 13, 1973; (ii) IDS to act as investment adviser for ISA on the same terms and conditions set forth in the investment advisory contract between IDS and ISA, dated December 7, 1971, for the period from May 2 to August 8, 1973; (iii) IDS and IDS Life to act as investment advisers for IDS Life Variable Annuity Fund A on the same terms and conditions set forth in the investment advisory contract between such fund and IDS and IDS Life, dated July 11, 1972, for the period from May 2 to June 20, 1973; (iv) IDS and IDS Life to act as investment adviser for IDS Life Variable Annuity Fund B on the same terms and conditions set forth in the investment advisory contract between such fund and IDS and IDS Life, dated June 20, 1972, for the period from May 2 to June 20, 1973; (v) IDS to act as principal underwriter for the Mutual Funds on the same terms and conditions set forth in the underwriting contracts between IDS and the Mutual Funds, all dated May 11, 1972, for the period from May 2 to May 10, 1973; (vi) IDS to act as principal underwriter for ISA on the same terms and conditions set forth in the underwriting contract between IDS and ISA, dated December 7, 1971, for the period from May 2 to August 8, 1973; and (vii) IDS Life to act

[1] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Brimmer, Sheehan, and Holland. Absent and not voting: Governor Bucher.

V 38 1 182 SEP 20 73 XUM

as principal underwriter for the Variable Annuity Funds on the same terms and conditions set forth in the underwriting contracts between IDS Life and the Variable Annuity Funds, both dated November 12, 1969, for the period from May 2 to May 10, 1973.

Applicants also seek an order of exemption from the provisions of secs. 15(a), 15(b), and 15(c) of the Act to the extent such exemption is required upon distribution under Kirby's will of the one million shares of Alleghany to the Foundation, in order to permit the following: (i) IDS to act as investment adviser for the Mutual Funds and ISA and IDS Life and IDS to act as investment advisers for the Variable Annuity Funds from the date of the distribution respectively, until, the final adjournment of the stockholder's meetings or contract holder's meetings of the Mutual Funds, ISA, and the Variable Annuity Funds held subsequent to such distribution; (ii) IDS to act as principal underwriter for ISA and the Mutual Funds for the period from the date of such distribution respectively, until, the next board of directors meeting of ISA and the Mutual Funds held subsequent to such distribution; and (iii) IDS Life to act as principal underwriter for the Variable Annuity Funds for the period from the date of such distribution until, respectively, the next board of directors meeting of each Variable Annuity Fund held subsequent to such distribution.

Applicants represent that at the board of directors meetings, held on May 10, 1973, in the case of the Mutual Funds and the Variable Annuity Funds and on August 8, 1973, in the case of ISA, each board unanimously approved new advisory and underwriting contracts after having received full disclosure of the relevant portions of Kirby's will. At the shareholder's meetings of the Mutual Funds and ISA and at the contract holder's meetings of the Variable Annuity Funds held on June 13, August 8, and June 20, 1973, respectively, the shareholders and contract holders, with full disclosure of the effects of Kirby's death on the stock ownership of Alleghany, approved new advisory contracts with IDS and IDS Life and ratified the payment of advisory and service fees to IDS and IDS Life from May 2, 1973, to the date the new contracts were approved by the respective shareholders.

Applicants expect no changes in the investment advisory or underwriting policies, practices, or personnel of IDS and IDS Life due to the transfer of Alleghany stock to Kirby's executors and then to the Foundation. No change will occur in the control relationship between The Allan Corporation and Alleghany.

Applicants estimate that it will cost approximately $350,000 to hold special shareholder's meetings and contract holder's meetings for the Mutual Funds and the Variable Annuity Funds following the distribution to the Foundation. Applicants contend that no substantial benefit to the shareholders would result from such meetings.

Applicants submit that the granting of the requested exemptions is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and the provisions of the Act.

Notice is further given than any interested person may, not later than October 9, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in the application unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

## MASSACHUSETTS ELECTRIC CO.

### Proposed Issue and Sale of Shares of Cumulative Preferred Stock at Competitive Bidding

SEPTEMBER 14, 1973.

Notice is hereby given that Massachusetts Electric Company ("Mass Electric"), 20 Turnpike Road, Westborough, Massachusetts 01581, an electric utility subsidiary company of New England Electric System, a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating secs. 6(a) and 7, of the Act and rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, as amended, which is summarized below, for a complete statement of the proposed transaction.

Mass Electric proposes to issue and sell, subject to the competitive bidding requirements of rule 50, 200,000 shares of a new series of its cumulative preferred stock, —% Series, $100 par value ("stock"). The dividend rate (which shall be a multiple of .04 of 1 percent and the price to be paid for the stock (which shall not be less than $100 per share nor more than $102.75) will be determined by the competitive bidding. Dividends shall be cumulative from the date of initial issue. The stock will not be redeemable prior to October 1, 1978, in connection with a refunding by the issuance of debt securities or other preferred stock at a lesser effective cost of money.

The proceeds from the sale of the stock, estimated at $20,000,000, will be applied toward the payment of outstanding short-term notes incurred to temporarily finance construction expenditures pending permanent financing. According to the declaration, it is expected that these notes will aggregate $28,700,000 prior to the issuance of the stock.

Mass Electric states that the Massachusetts Department of Public Utilities has jurisdiction over the proposed transaction and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction. Fees and expenses related to the proposed transaction are estimated at $75,000, including New England Power Service Company expenses (at cost) of $30,000 and accounting fees of $7,500. The fees and expenses of counsel for the bidders will be supplied by amendment and will be paid by the successful bidders, except as provided in the purchase agreement relating to purchase of the stock.

Notice is further given that any interested person may, not later than October 10, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,

## STRATTON GROUP, LTD.

### Order Suspending Trading

SEPTEMBER 14, 1973.

The common stock, $.25 par value, of Stratton Group, Ltd. being traded on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of Stratton Group, Ltd. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

*It is ordered*, Pursuant to sec. 19(a)(4) and 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from September 17, 1973 through September 26, 1973.

By the Commission.

## WOODPARK ASSOCIATES FUND

### Filing of Application

SEPTEMBER 14, 1973.

Notice is hereby given that Woodpark Associates Fund ("Applicant"), 100 Park Avenue, New York, New York 10017, an open-end, non-diversified management investment company registered under the Investment Company Act of 1940 (the "Act"), has filed an application pursuant to Section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant was organized as a Delaware corporation in June 1969, and filed a Notification of Registration on Form N-8A and a Registration Statement on Form N-8B-1 with the Commission on July 18, 1969.

Applicant represents that during the period from December 1, 1969 to April 1970, it engaged in the offer and sale of its shares of Common Stock, par value $1 per share ("Shares"); that since April 1970 Applicant has neither offered nor sold any of its Shares; and that on or prior to July 16, 1970, all but two of its shareholders (each of which held 500 Shares) tendered their Shares for redemption in cash. Applicant also represents that on July 17, 1973, the directors and remaining two shareholders of Applicant unanimously approved resolutions authorizing and adopting proposals that Applicant cease being an investment company; that it be liquidated and dissolved under the laws of the State of Delaware, and authorizing and directing the officers of Applicant to file a certificate of Dissolution with the Secretary of State of Delaware as soon as practicable; and that on that date the two remaining shareholders redeemed their shares for cash. Applicant further represents that it has no Shares outstanding, and further sales of its Shares will not be made.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than October 10, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

## TELEPROMPTER CORP.

### Order Suspending Trading

SEPTEMBER 14, 1973.

The common stock, $1 par value, of TelePrompTer Corporation being traded on the New York Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of TelePrompTer Corporation being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors.

*It is ordered*, Pursuant to sec. 19(a)(4) and 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from September 17, 1973 through September 26, 1973.

By the Commission.

## SMALL BUSINESS ADMINISTRATION

### INVESTCAL SMALL BUSINESS INVESTMENT CO.

#### Notice of Filing of Application for Transfer of Control of Licensed Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration (SBA) pursuant to § 107.701 of the Regulations governing small business investment companies (13 CFR 107.701(1973)) for the transfer of control of Investcal Small Business Investment Company (Investcal), 1400 Fifth Avenue, Suite 201, San Diego, California 92101, a Federal licensee under the Small Business Investment Act of 1958, as amended (the Act), License No. 09 14-0012.

Investcal was licensed on September 20, 1960. Its present combined paid-in capital and paid-in surplus is $152,000. This proposed transfer of control is subject to and contingent upon the approval by SBA.

Saraphen Investment Company, Inc. (Saraphen), 315 South Beverly Drive, Suite 300, Beverly Hills, California 90212 (a California Corporation), is owned by Mr. Richard S. De Bro and Diana Investment Company, Inc. Saraphen plans to purchase about 70 percent of the common capital stock of the licensee. The major business of Saraphen is investment in financial institutions. When acquired by Saraphen, Investcal will constitute the largest percentage of Saraphen's assets. After the acquisition, Saraphen plans to invest an additional $350,000 in Investcal, bringing its private capital to about $502,000.

The new officers and directors of Investcal will be:

President, Director

Mr. Richard S. De Bro
25440 Malibu Road
Malibu, California 90265

Vice President, Director

Mr. Joseph T. Gudmundsson
3592 Tilden Avenue
Los Angeles, California 90034

Secretary-Treasurer, Director

Ms. Julie W. Solomon
10580 Selkirk
Bel Air, California 90024

Matters involved in SBA's consideration of the application include the general business reputation and character of the new owners and the probability of successful operation of Investcal under their control and management (including adequate profitability and financial soundness) in accordance with the Act and Regulations.

Notice is hereby given that any interested person may, not later than 15 days from the date of publication of this Notice, submit to SBA, in writing, relevant comments on the transfer of control. Any such communication should be addressed to:

Deputy Associate Administrator for Investment
Small Business Administration
1441 L Street NW.
Washington, D.C. 20416

A copy of this Notice shall be published by the transferee in a newspaper of general circulation in both San Diego and Los Angeles, California.

Dated September 7, 1973.

JAMES THOMAS PHELAN,
*Deputy Associate Administrator,*
*Investment Division.*

[FR Doc.73-20030 Filed 9-19-73;8:45 am]

## VETERANS ADMINISTRATION

### 120-BED REHABILITATION/NURSING HOME CARE BUILDING, SEPULVEDA, CALIFORNIA

#### Notice of Availability of Draft Environmental Impact Statement

Notice is hereby given that a document entitled "Draft Environmental Statement for a 120-Bed Rehabilitation/Nursing Home Care Building, at the Veterans Administration Hospital, Sepulveda, California," dated July 23, 1973, has been prepared as required by the National Environmental Policy Act of 1969. This project consists of the construction of a 120-Bed Rehabilitation/Nursing Home Care Building, connecting tunnel to an existing building, parking area and access road; all to be located on the property of the present Veterans Administration Hospital. The draft statement discusses the environmental impact of the above construction. The document is being placed for public examination in the Veterans Administration office in Washington, D.C. Persons wishing to examine a copy of the document may do so at the following office:

Mr. Arthur W. Farmer, Assistant Chief Medical Director for Administration and Facilities (13), Room 600, Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420.

Single copies of the draft statement may be obtained on request to the above office.

Dated September 14, 1973.

By direction of the Administrator.

[SEAL] RUFUS H. WILSON,
*Associate Deputy Administrator.*

## FEDERAL POWER COMMISSION

[Docket No. G-10413, etc.]

### AUTHORIZATION TO SELL NATURAL GAS

#### Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

SEPTEMBER 7, 1973.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[Docket No. G-4359, etc.]

### AUTHORIZATIONS OF SALE, RESALE, AND DELIVERY OF NATURAL GAS

#### Findings and Order After Statutory Hearing Issuing Certificates of Public Convenience and Necessity, Amending Orders Issuing Certificates, Making Successors Co-respondent, Accepting Rate Schedules for Filing

SEPTEMBER 7, 1973.

Each Applicant herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce or a petition to amend an order issuing a certificate, all as more fully set forth in the applications and petitions to amend.

Applicants have filed FPC gas rate schedules or supplements to rate schedules on file with the Commission and propose to initiate, add or discontinue in part natural gas service in interstate commerce as indicated in the tabulation herein.

After due notice by publication in the FEDERAL REGISTER, notices of intervention were filed and withdrawn by the People of the State of California and the Public Utilities Commission of the State of California in Docket Nos. CI73-166 and CI73-211. No further notices of intervention, protests to the granting of the applications and petitions to amend, or petitions to intervene have been filed.

At a hearing held on August 24, 1973, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and petitions and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record,

*The Commission finds:*

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a "natural-gas company" within the meaning of the Natural Gas Act upon the commencement of service under the authorizations hereinafter granted.

(2) The sales of natural gas hereinbefore described, as more fully described in the applications in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sales by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity; and certificates therefor should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates of public convenience and necessity in various dockets involved herein should be amended as hereinafter ordered.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that certain successors in interest, who are herein authorized to continue sales of natural gas in interstate commerce, should be made co-respondents in their predecessors' rate proceedings.

(7) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the FPC gas rate schedules and supplements related to the authorizations hereinafter granted should be accepted for filing.

(8) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates, for sales authorized herein to be continued under new or amended certificates, should be amended by deleting therefrom authorization to sell gas.

(9) Section 154.93 of the Regulations under the Natural Gas Act should be waived to the extent necessary to permit the acceptance for filing of the rate schedules for the sales authorized in Docket Nos. CI73-196, CI73-537, CI73-570 and CI73-652 with contractual provisions for the possible sales of the Federal Government's royalty shares of the gas at prices in excess of the otherwise applicable rates, with contractual provisions to increase rates to higher area rates found to be proper by hearing, rule-making, or Commission approved settlement, or with contractual provisions for reserve incentives.

(10) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that Applicants in Docket Nos. CI66-1312 and CI73-701 be made co-respondents in their predecessors' rate proceedings.

*The Commission orders:*

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order authorizing sales by Applicants of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the applications and in the tabulation herein.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not

V 38-182 SEP 20 73 XUM

be construed as a waiver of the requirements of Section 7 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's Regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against Applicants. Further, our action in this proceeding shall not foreclose or prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. The grant of the certificates aforesaid for service to the particular customers involved does not imply approval of all of the terms of the contracts, particularly as to the cessation of the service upon termination of said contracts as provided by section 7(b) of the Natural Gas Act. The grant of the certificates aforesaid shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The orders issuing certificates of public convenience and necessity in various dockets are amended by adding thereto or deleting therefrom authorization to sell natural gas or by substituting successors in interest as certificate holders as more fully described in the applications and in the tabulation herein. In all other respects said orders shall remain in full force and effect.

(E) Within 90 days from the date of initial delivery, Applicants in Docket Nos. CI61–1306, CI73–440, CI73–537, CI73–570, CI73–627 and CI73–630 shall each file three copies of a rate schedule-quality statement in the form prescribed in Opinion Nos. 468–A, 586, 595, 598, and 607, as applicable.

(F) Within 90 days from the date of this order, Applicants in Docket Nos. G–4359, G–17520 and CI72–711 shall each file three copies of a rate schedule-quality statement in the form prescribed in Opinion Nos. 586, 595, or 598, as applicable.

(G) The certificates and certificate authorization granted in Docket Nos. G–4359, G–17520, CI61–1306, CI72–711, CI73–440, CI73–537, CI73–570, CI73–627 and CI73–630 are subject to the Commission's findings and orders accompanying Opinion Nos. 468, 468–A, 586, 586–A, 595, 595–A, 598, 598–A, 607, and 607–A, as applicable. If the quality of the gas deviates at any time from the quality standards set forth in the Regulations under the Natural Gas Act so as to require a downward adjustment of the existing rates, notices of changes in rate shall be filed pursuant to Section 4 of the Natural Gas Act; provided, however, that adjustments reflecting changes in Btu content of the gas shall be computed by the applicable formula and charged without the filing of notices of changes in rate.

(H) Applicants in the dockets indicated shall charge and collect the following rates, subject to Btu adjustment where applicable:

| Docket No. | Rate (cents per Mcf) | Pressure Base (p.s.i.a.) |
|---|---|---|
| G–4359 | 9.8230 | 14.65 |
| CI61–1306 | 24.0 | 14.65 |
| CI73–53 | 33.0 | 15.025 |
| CI73–166 | 24.0 | 14.65 |
| CI73–211 | [3]7.0 | 14.65 |
| CI73–440 | 18.5 | 14.65 |
| CI73–479 | 27.0 | 14.65 |
| CI73–537 | 26.0 | 15.025 |
| CI73–570 | [1]21.5 | 14.65 |
| | [2]20.0 | 14.65 |
| CI73–630 | 27.0 | 14.65 |
| CI73–693 | [4]28.0 | 15.025 |
| CI73–701 | [3]22.0 | 15.025 |
| | [4]28.0 | 15.025 |

[1] For sales of gas-well gas.
[2] For sales of casinghead gas.
[3] For sales of gas-well gas completed before 6–1–70.
[4] For sales of gas-well gas completed after 6–1–70.

(I) Applicants in Docket Nos. CI73–53, CI73–479 and CI73–652 shall comply with Section 2.71 of the Commission's General Policy and Interpretations with respect to the transportation of liquids and liquefiable hydrocarbons, subject to final judicial review of Order No. 449.

(J) The rate schedules and rate schedule supplements related to the authorizations granted herein are accepted for filing or are redesignated, all as set forth in the tabulation herein. Where the effective date is the date of initial delivery, Applicant shall advise the Commission of said date within 10 days thereof.

(K) Applicants in the following dockets are made co-respondents in their predecessors' rate proceedings and said proceedings are redesignated accordingly:

| *Successor's certificate docket No.* | *Rate proceeding docket No.* |
|---|---|
| CI65–235 | RI70–82 |
| CI66–1312 | RI70–675 |
| CI73–701 | RI72–110 |

Applicants shall comply with the refunding procedure required by the Natural Gas Act and Section 154.102 of the Regulations thereunder.

(L) The orders issuing certificates in Docket Nos. G–6319 and G–10243 are amended by deleting therefrom authorization to sell gas from properties from which sales are authorized herein in Docket No. CI73–701, and the order issuing the certificate in Docket No. G–11175 is amended by deleting therefrom authorization to sell gas from properties from which sales are authorized herein in Docket No. CI73–693.

(M) The acceptance for filing of the rate schedules for the sales authorized in Docket Nos. CI73–196 and CI73–652 should not be construed as meaning that any rate increase based upon the provisions for the sales of the Federal Government's royalty shares of the gas at prices in excess of the otherwise applicable rate or upon reserve incentives would be accepted for filing without suspension.

(N) Pioneer Enterprises, Inc., Applicant in Docket No. CI66–1312, and J. Gregory Merrion and Robert L. Bayless, Applicants in Docket No. CI73–701, are made co-respondents in the proceedings pending in Docket Nos. RI70–675 and RI72–110, respectively; and said proceedings are redesignated accordingly. They shall comply with the refunding procedure required by the Natural Gas Act and Section 154.102 of the Regulations thereunder.

(O) Within 30 days from the date of this order, Applicant in Docket No. CI73–570 shall file three copies of a revised billing statement, as required by Section 154.92(b) of the Regulations under the Natural Gas Act, reflecting any sales of casinghead gas.

(P) Within 30 days from the date of this order, Applicant in Docket No. CI73–652 shall file for each rate schedule three copies of a billing statement as required by § 154.92(b) of the regulations under the Natural Gas Act.

By the Commission.

[11] From Pecos Growers Oil Company to The Nueces Company.
[12] From The Nueces Company to Applicant.
[13] Midwest Oil Corporation's related deletion filing is included in this tabulation.
[14] Petition to amend certificate to include interest acquired from Midwest Oil Corporation.
[15] No certificate filing required. Applicant's rate schedule covers the acreage acquired from Midwest Oil Corporation. Applicant and Midwest are signatory parties to a contract dated October 5, 1967, which covers the subject acreage.
[16] No certificate filing required. 18 CFR 2.64.
[17] From Midwest Oil Corporation to Arkansas Louisiana Exploration Company and Stephens Production Company, *et al.*
[18] Sale previously made under terms of a 10–1–51 operating agreement. Applicant had no certificate or rate schedule on file previously to cover sales from her interest.
[19] Revised billing statement to reflect applicable contract rate effective 1–1–73.
[20] Contract dated prior to January 1, 1973, but Commission restricts the price, the total price for the gas shall be considered to include, as a tax component, 100 percent of seller's taxes.
[21] Deletes acreage which should not have been included in the contract.
[22] Previously accepted for filing.
[23] Proposes rate increases to any higher rate prescribed by the Commission in an area rate proceeding, statement of general policy, rulemaking proceedings or comparable proceeding for the area.
[24] Amends contract to limit its coverage to gas produced from formations above the base of the Granite Wash Formation.
[25] Provides that (1) seller may elect to process the gas for the extraction of liquefiable hydrocarbon, (2) the price is to increase 1.0 cent per Mcf for each 500 billion cubic feet of recoverable reserves (up to a 3.0 cent maximum).
[26] Also on file as Amerada Hess Corporation FPC Gas Rate Schedule No. 31.
[27] From Amerada Hess Corporation to Applicant.
[28] Sale previously made under terms of a 10–1–51 operating agreement. Applicant had no certificate or rate schedule on file previously to cover sales from her interest.
[29] Amends contract to extend term to 1992, eliminates favored-nation clauses, establishes prices of 22.0 cents per Mcf for gas from wells completed before 9–1–70 and 28.0 cents per Mcf for gas from wells completed thereafter, provides for 0.5 cent per Mcf escalation on 1–1–74 and every year thereafter, extends make-up period for prepaid gas to five years, establishes buyer's option to specify development of leases and increased contract quantities for Applicant's acreage.
[30] Also on file as Amerada Hess Corporation FPC Gas Rate Schedule No. 25.

[Docket No. CI74–168]

## HARVEY E. YATES CO., ET AL.

### Notice of Application

SEPTEMBER 13, 1973.

Take notice that on August 30, 1973, Harvey E. Yates Co. et al. (Applicants), 112 North First Street, Artesia, New Mexico 88210, filed in Docket No. CI74–168 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transwestern Pipeline Co. from acreage in Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants state that they commenced the sale of natural gas on August 15, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29), and propose to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicants propose to sell approximately 150,000 M c.f. of gas per month at 54.25 cents per million Btu at 14.65 p.s.i.a.

V 38 I 182 SEP 20 73 XUM

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 28, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. CP73-130]

## MISSISSIPPI RIVER TRANSMISSION CORP.

### Notice of Filing

SEPTEMBER 13, 1973.

Take notice that Mississippi River Transmission Corp. (Mississippi) on August 22, 1973, tendered for filing Seventh Revised Sheet No. 1 to its FPC Gas Tariff, First Revised Volume No. 1 and Fourth Revised Sheet No. 1 and Original Sheets Nos. 28 and 29 to its FPC Gas Tariff, Original Volume No. 2. The Company states that the sheets are to be effective July 5, 1973.

According to Mississippi, this filing is made to reflect authorization for Mississippi to develop and use the East Unionville Field, Lincoln Parish, Louisiana as an underground gas storage field pursuant to Commission order issued July 5, 1973, in Docket No. CP73-130.

Mississippi states that Mississippi has delivered volumes of natural gas to Texas Eastern Transmission Corp. (Texas Eastern) representing the remaining recoverable gas reserves in the Vaughn Sand reservoir of the Cotton Valley formation.

Mississippi also states that Texas Eastern will pay Mississippi for such volumes of natural gas delivered by Mississippi at the rate of 21.475 cents per M c.f. (18.3 cents per M c.f. plus applicable Louisiana severance tax). Mississippi further states that the volume delivered to Texas Eastern is 6.5 billion cubic feet @15.025 less production volumes subsequent to January 1, 1972, resulting in a net volume of approximately 5.5BCF.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 28, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

## INTERSTATE COMMERCE COMMISSION

[Notice No. 344]

### Assignment of Hearings

SEPTEMBER 17, 1973.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 120265 Sub 2, Vandalia Air Freight, Inc., MC-F-11805, Quick Air Freight, Inc.—Control—Vandalia Air Freight, Inc., MC-C-8076, Quick Air Freight, Inc.—Investigation and Revocation of Certificates—now assigned September 27, 1973, at Columbus, Ohio, is postponed indefinitely.

MC 52110 Sub 133, Brady Motorfrate, Inc., now assigned October 17, 1973, at Washington, D.C., is cancelled and the application is dismissed.

W-1069 Sub 1, Gulf Atlantic Transport Corp., now assigned November 27, 1973, at Washington, D.C., advanced to October 29, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 125996 Sub 33, Road Runner Trucking, Inc., MC 125996 Sub 38, Road Runner Trucking, Inc., now assigned October 10, 1973, at Chicago, Ill., will be held in Room 705, 610 S. Canal Street.

MC 71035 Sub 1, W. T. Gibson Transportation, Inc., now assigned October 12, 1973, MC-C-8089, Interstate Motor Freight System, A Corporation—Investigation and Revocation of Certificates—now assigned October 15, 1973, MC 35628 Sub 343, Interstate Motor Freight System, now assigned October 15, 1973, at Kansas City, Mo., will be held in Room 609, Federal Bldg., 911 Walnut St.

I&S M 27070, Increased Class Rates For Short Hauls to and from The South, now assigned October 2, 1973, at Washington, D.C., is postponed to December 3, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-97699 Sub 39, Barber Transportation Co., now assigned October 1, 1973, at Denver, Colo., is postponed indefinitely.

Finance Docket No. 27438, National Railroad Passenger Corporation, Discontinuance of Trains Nos. 98 and 99 Between Norfolk/Newport News and Richmond, Virginia, now assigned September 24, 1973, at Newport News, Va., and September 26, 1973, at Richmond, Va., is cancelled and reassigned to October 24, 1973, at Newport News, Va., and October 26, 1973, at Richmond, Va., in hearing rooms to be later designated.

MC 48213 Sub 34, C. E. Lizza, Inc., now assigned September 26, 1973, at Washington, D.C., is cancelled and application dismissed.

MC 121082 Sub 5, Allied Delivery System, Inc., now assigned October 2, 1973, at Washington, D.C., is postponed to October 11, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 138504, Hatfield Recon Center, Inc., now assigned October 1, 1973, at Washington, D.C., is postponed indefinitely.

MC 107012 Sub 179, North American Van Lines, Inc., now assigned October 17, 1973, at Chicago, Ill., is postponed indefinitely.

MC 125996 Sub 38, Road Runner Trucking, Inc., now being assigned October 10, 1973, (2 days), at Chicago, Ill., in Room 705, 610 S. Canal St.

MC 19778 Sub 83, The Milwaukee Motor Transportation Co., now being assigned hearing October 17, 1973 (3 days), in Room 1086A, Everett McKinley Dirksen Bldg., 219 South Dearborn Street, Chicago, Illinois.

MC 108119 Sub 37, E. L. Murphy Trucking Company, now assigned October 15, 1973, at St. Paul, Minn., is postponed indefinitely.

[Notice No. 354]

## MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before October 11, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74645. By order entered September 12, 1973, the Motor Carrier Board approved the transfer to Rieder Transportation Co., Inc., Gloucester, New Jersey, of the operating rights set forth in Certificate No. MC-133960 (Sub-No. 1), issued by the Commission October 9, 1970, to George J. Rieder, doing business as Rieder Transportation Company, Gloucester, New Jersey, authorizing the transportation of kitchen appliances and fixtures, from Camden, N.J., to points in Pennsylvania and Delaware, and returned shipments of kitchen appliances and fixtures, from points in Pennsylvania and Delaware, to Camden, N.J.—David S. Winston, 1420 Walnut St., Philadelphia, Pa. 19102, attorney for applicants.

No. MC-FC-74662. By order of September 12, 1973, the Motor Carrier Board approved the transfer to William P. Sonderman, doing business as Fredericktown Daily Express, Fredericktown, Mo., of Certificate No. MC-121180 (Sub-No. 2) issued May 5, 1965, to Orville R. Fadler, doing business as Fredericktown Daily Express, Fredericktown, Mo., authorizing the transportation of general commodities, with the usual exceptions, over a specified route between St. Louis, Mo., and Fredericktown, Mo., serving all intermediate points in Madison County, Mo., except Mine La Motte, Mo.—Mr. Herman W. Huber, Attorney at Law, 101 East High Street, Jefferson City, Mo. 65101.,

No. MC-FC-74672. By order of September 12, 1973, the Motor Carrier Board approved the transfer to Otto Services, Ltd., West Allis, Wis. 53212, of Permit No. MC-17702, issued August 15, 1969, to Ben H. Schuster, doing business as Ben H. Schuster Trucking, Menomonee Falls, Wis. 53051, authorizing the transportation of processed milk, empty milk containers, concentrated orange juice, and dairy machinery and parts thereof, between Germantown, Wis., and Chicago, Ill., over specified routes, serving the intermediate point of Milwaukee, Wis.—Richard C. Alexander, 710 North Plankinton Avenue, Milwaukee, Wis. 53203, Attorney for Applicants.

No. MC-FC-74689. By order entered September 13, 1973, the Motor Carrier Board approved the transfer to L. & E. Freight Lines, Inc., Limon, Colo., of the operating rights set forth in Certificate No. MC-135480, issued by the Commission March 23, 1972, to Art Walker, doing business as Colorado Springs-Limon Transportation Company, Limon, Colo., authorizing the transportation of general commodities, with the usual exceptions, between Colorado Springs, Colo., and Limon, Colo., over specified routes, serving all intermediate points.—David E. Driggers, 1600 Lincoln Center, 1660 Lincoln Street, Denver, Colorado 80203, attorney for applicants.

[Ex Parte 241; Rule 19, Exemption 50]

## SEABOARD COAST LINE RAILROAD CO.

### Exemption of the Mandatory Car Service Rules

It appearing, that there is an emergency movement of military inpedimenta from Camp Lejeune, North Carolina, to Fort Stewart, Georgia; that the originating carrier has insufficient system cars of suitable dimensions immediately available for loading with this traffic; that sufficient cars of other ownerships having suitable dimensions are available on the lines of the originating carrier and on its connections; and that compliance with Car Service Rules 1 and 2 would prevent the timely assembly and use of such cars.

*It is ordered*, That pursuant to the authority vested in me by Car Service Rule 19, the Car Service Division of the Association of American Railroads is authorized to direct the movement to the Seaboard Coast Line Railroad Co., the railroads designated by the Car Service Division are authorized to move to, and the Seaboard Coast Line Railroad Co. is authorized to accept, assemble, and load not to exceed thirty (30) empty cars with military impedimenta from Camp Lejeune, North Carolina, to Fort Stewart, Georgia, regardless of the provisions of Car Service Rules 1(b), 2(c), 2(d), or 2(e).

Effective September 10, 1973.

Expires September 21, 1973.

Issued at Washington, D.C., September 7, 1973.

[FR Doc.73-20062 Filed 9-19-73;8:45 am]

[Drought Order No. 69 (Sub No. 3)]

## STATE OF OREGON

### Transportation of Hay to Affected Areas

In the Matter of Relief under section 22 of the Interstate Commerce Act.

It appearing, that by reasons of drought conditions existing in certain portions of the State of Oregon, hereinafter referred to as the disaster area, the Assistant Secretary of the United States Department of Agriculture has requested the Commission to enter an order under section 22 of the Interstate Commerce Act authorizing railroads subject to the Commission's jurisdiction of transport hay to the disaster area at reduced rates:

*It is ordered*, That carriers by railroad participating in the transportation of hay to the counties of:

| | |
|---|---|
| Baker | Lake |
| Crook | Malheur |
| Deschutes | Union |
| Grant | Wallowa |
| Harney | Wheeler |

all located in the State of Oregon, referred to herein as the disaster area, be, and they are hereby, authorized under section 22 of the Interstate Commerce Act to establish and maintain until October 31, 1973, reduced rates for such transportation, the rates to be published and filed in the manner prescribed in section 6 of the Interstate Commerce Act except that they may be effective one day after publication and filing instead of thirty.

*It is further ordered*, That the class of persons entitled to such reduced rates is hereby defined as persons designated as being in distress and in need of relief by the United States Department of Agriculture or by such State agents or agencies as may in turn be designated by the United States Department of Agriculture to assist in relieving the distress caused by the drought.

*It is further ordered*, That, during the period in which any reduced rates authorized by this order are effective the carriers may, notwithstanding the provisions of section 4 of the Interstate Commerce Act, maintain higher rates to directly intermediate points and maintain through rates in excess of the aggregate of intermediate rates over the same routes if one or more of the factors of such aggregate of intermediate rates is a reduced rate established under the authority of the order.

*It is further ordered*, That any tariffs or tariff provisions published under the authority of this order shall explicitly so state, making reference to this order by number and date.

*And it is further ordered*, That, subject to the conditions in the succeeding paragraphs hereof, the use of reduced rates established by authority of this order may be conditioned upon the release by the shipper of the value of the commodity, which released value, in its relation to the invoice value of the property at time of shipment, shall be in the same percentage relation which the reduced rates bear to the rates which otherwise would apply.

*And it is further ordered*, That tariffs containing released rates filed under authority of this order shall show in connection with such rates the following notation:

The released value must be entered on shipping order and bill of lading in the following form:

The agreed or declared value of the property is hereby specifically stated by the shipper to be not in excess of (show percent) of the invoice value of the property herein described.

If the shipper fails or declines to execute the above statement, shipments will not be accepted for transportation at the rates subject hereto. Rates published elsewhere in other tariffs lawfully filed with the Interstate Commerce Commission will apply in such a case. Rates herein published on released value have been authorized by the Interstate Commerce Commission in Drought Order No. 69 of August 8, 1973.

*And it is further ordered*, That notice to the affected railroads and the general public shall be given by depositing a

V 38-182 SEP 20 73 XUM

copy of this order in the Office of the Secretary of the Commission and by filing a copy with the Director, Office of the Federal Register; and that copies be mailed to the Chairman of the Traffic Executive Association-Eastern Railroads, New York, New York; the Chairman of the Southern Freight Association, Atlanta, Georgia; the Chairman of the Executive Committee, Western Railroads Traffic Association, Chicago, Illinois; the Vice President and Director, Economics and Finance Department, Association of American Railroads, Washington, D.C.; and to the President of the American Short Line Railroad Association, Washington, D.C.

Dated at Washington, D.C., this 13th day of September 1973.

By the Commission, Chairman Stafford.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.73-20063 Filed 9-19-73;8:45 am]

[Notice No. 74]

## MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

SEPTEMBER 14, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under the rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 340 (Sub-No. 26), filed July 17, 1973. Applicant: QUERNER TRUCK LINES, INC., 1131-33 Austin Street, San Antonio, Tex. 78208. Applicant's representative: M. Ward Bailey, 1412 Continental Life Bldg., Fort Worth, Tex. 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Candy and confectionery and related products* (except in bulk) and (2) *advertising matter, premium and display materials* when shipped in the same vehicle with candy and confectionery and related products, in vehicles equipped with mechanical refrigeration, from the plantsite and warehouse facilities of M&M/Mars, Division of Mars, Incorporated, located at Doraville, Decatur, Atlanta, and Albany, Ga., to points in Arizona, Arkansas, California, Colorado, Illinois, Indiana, Louisiana, Minnesota, New Mexico, Oklahoma, Oregon, Texas, Utah, Washington and Wisconsin, restricted to the transportation of traffic originating at the plantsite and warehouse facilities of M&M/Mars, Division of Mars, Incorporated.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Atlanta, Ga.

No. MC 531 (Sub-No. 295), filed July 30, 1973. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, P.O. Box 14048, Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same address as applicant). XUM

over irregular routes, transporting: *Liquefied petroleum gas*, in bulk, in tank vehicles, from Everett, Mass., to points in Connecticut, Maine, New Hampshire, New York, Rhode Island, and Vermont.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 110420 (Sub-No. 686), filed July 13, 1973. Applicant: QUALITY CARRIERS, INC., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Fred H. Figge (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from Milton, Wis., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 111170 (Sub-No. 208), filed July 16, 1973. Applicant: WHEELING PIPE LINE, INC., P.O. Box 1718, El Dorado, Ark. 71730. Applicant's representative: Don A. Smith, P.O. Box 43, Fort Smith, Ark. 72901. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products* in bulk, from points in Union County, Ark., to points in Texas, (2) *ground slate*, in bulk, from Bryant, Ark., to Lone Star, Tex., and (3) *chemicals*, in bulk, from the plantsite of Commercial Solvents Corporation, located at Sterlington, La., to points in Alabama, Arizona, Arkansas, California, Colorado, Idaho, Kansas, Louisiana, Mississippi, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Tennessee, Texas, Utah, Washington, and Wyoming, restricted to traffic originating at the plantsite of Commercial Solvents Corporation.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark., or Memphis, Tenn.

No. MC 111201 (Sub-No. 16), filed August 2, 1973. Applicant: J. N. ZELLNER & SON TRANSFER COMPANY, a Corporation, P.O. Box 90818, East Point, Ga. 30044. Applicant's representative: Guy H. Postell, Suite 713, 3384 Peachtree Road NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Beverages* (except alcoholic beverages), in containers, between points in Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 111545 (Sub-No. 188), filed July 25, 1973. Applicant: HOME TRANSPORTATION COMPANY, INC., 1425 Franklin Rd., Marietta, Ga. 30062. Applicant's representative: Robert E. Born, P.O. Box 6426, Station A, Marietta, Ga. 30062. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Steel strapping*, from Pittsburg, Calif., to points in the United States in and east of Minnesota, Iowa, Nebraska, Kansas, Oklahoma, and Texas.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 112520 (Sub-No. 274), filed July 30, 1973. Applicant McKENZIE TANK LINES, INC., P.O. Box 1200, Tallahassee, Fla. 32302. Applicant's representative: W. Guy McKenzie, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Caustic soda*, in bulk, in tank vehicles, from McIntosh, Ala., to points in Florida.

NOTE.—Common control may be involved. Applicant states that the requested authority can be tacked at Pensacola, Fla. with its Sub 204 authority to provide service to points in Connecticut, Georgia, Indiana, Kentucky, Louisiana, North Carolina, Pennsylvania, South Carolina, Tennessee, Texas, and Missouri, but further indicates that a restriction against tacking will be appropriate. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 112595 (Sub-No. 53), filed July 16, 1973. Applicant: FORD BROTHERS, INC., P.O. Box 727, Ironton, Ohio 45638. Applicant's representative: James W. Muldoon, 50 West Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, in bulk, in tank or hopper type vehicles, from the storage, distribution, or warehouse sites of Bulk Distribution Centers, Inc., from points in Campbell and Kenton Counties, Ky., to points in Illinois, Indiana, Kentucky, Michigan, Ohio, and Tennessee, restricted to shipments having a prior movement by rail.

NOTE.—Applicant states that tacking possibilities exist at points in Campbell and Kenton Counties, Ky., on petroleum products having a prior movement by rail, to provide a through service from points in Ohio, West Virginia, and points in Kentucky on and west of U.S. Highway 31, to the destination points requested herein. Applicant states, however, that it has no present intention to tack. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 112801 (Sub-No. 144), filed July 9, 1973. Applicant: TRANSPORT SERVICE CO., a Corporation, Two Salt Creek Lane, Hinsdale, Ill. 60521. Applicant's representative: Carl L. Steiner, 39 South La Salle St., Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sodium sulphate*, in bulk, in tank vehicle, from Danville, Ill., to points in Wisconsin, Missouri, Kentucky, Indiana, Michigan, and Ohio.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 112801 (Sub-No. 145), filed July 16, 1973. Applicant: TRANSPORT SERVICE CO., a Corporation, 2 Salt Creek Lane, Hinsdale, Ill. 60521. Applicant's representative: Carl L. Steiner, 39 South La Salle St., Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid animal and poultry feed*, in bulk, in tank vehicles, from Lincoln, Nebr., to points in Iowa, Missouri, Kansas, Colorado, Wyoming, South Dakota, and Minnesota.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 112822 (Sub-No. 285), filed July 26, 1973. Applicant: BRAY LINES INCORPORATED, P.O. Box 1191, 1401 N. Little St., Cushing, Okla. 74023. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Canned goods*, from points in Oregon and Washington, to points in Alabama, Arkansas, Colorado, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, Utah, and Wisconsin, and (2) *petfoods*, from points in Washington, to points in Alabama, Arkansas, Colorado, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Ohio, Oklahoma, Tennessee, Texas, Utah, and Wisconsin.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg., or Seattle, Wash.

No. MC 112963 (Sub-No. 46), filed August 7, 1973. Applicant: ROY BROS., INC., 764 Boston Road, Pinehurst, Mass. 01866. Applicant's representative: Leonard E. Murphy (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from points in New Jersey, to points in Maine, New Hampshire, and Vermont.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Boston, Mass., Newark, N.J., or New York, N.Y.

No. MC 113784 (Sub-No. 50), filed August 2, 1973. Applicant: LAIDLAW TRANSPORT LIMITED, 65 Guise Street, Hamilton, Ontario L8L 4M1, Canada. Applicant's representative: David A. Sutherland, 2001 Massachusetts Avenue NW., Washington, D.C. Authority sought

to operate as a *common carrier*, by motor vehicle, over irregualr routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between the plantsite and facilities of the Ford Motor Co., located at Romeo, Macomb County, Mich., and the ports of entry on the International Boundary line between the United States and Canada on the Detroit River, restricted to the transportation of traffic in foreign commerce.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., Chicago, Ill., or Washington, D.C.

No. MC 114273 (Sub-No. 147), filed August 6, 1973. Applicant: CEDAR RAPIDS STEEL TRANSPORTATION, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Robert E. Konchar, Suite 315 Commerce Exchange Building, 2720 First Avenue NE., P.O. Box 1943, Cedar Rapids, Iowa 52406. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles and nonferrous metals and plastic articles*, moving in mixed loads with iron and steel articles, from Chicago, Ill., and its Commercial Zone to points in Iowa.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 114632 (Sub-No. 60), filed July 20, 1973. Applicant: APPLE LINES, INC., P.O. Box 507, Madison, S. Dak. 57042. Applicant's representative: Andrew Clark, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products*, in containers, from Olathe, Kans., to points in Iowa, Minnesota, Nebraska, and Wisconsin; (2) (a) *agricultural machinery and equipment*; (b) *attachments*; (c) *engines*; (d) *equipment* designed to be used in conjunction with the commodities described in (2) (a) through (c) above; and (e) *materials, supplies, and equipment* used or useful in the manufacture or distribution of the commodities described in (2) (a) through (d) above (except commodities in bulk) from Salem, S. Dak., to points in Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, New York, North Dakota, Ohio, Pennsylvania, South Dakota, Wisconsin, and Wyoming: and (3) *prefabricated metal buildings, building panels and metal building components and parts;* from Atlantic, Iowa, to points in Colorado, Kansas, Minnesota, Missouri, Montana, Nebraska, North Dakota, South Dakota, and Wisconsin.

NOTE.—Applicant states that the requested authority in (3) above can be tacked with its existing authority at Atlantic, Iowa, to provide a through service from Chicago Heights and Bartonville, Ill., to the destination states named in (3) above. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 115022 (Sub-No. 27), filed July 27, 1973. Applicant: CHAMBERLAIN MOBILEHOME TRANSPORT, INC., 64 East Main Street, Thomaston, Conn. 06787. Applicant's representative: Bernard J. Hasson, Jr., 927 15th Street NW., Suite 306, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings and buildings in section* mounted on wheeled undercarriages, from points in Hampshire County, Mass., to points in Connecticut, Maine, New Hampshire, New Jersey, New York, Rhode Island, and Vermont.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 115841 (Sub-No. 458), filed August 6, 1973. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 1215 Banhead Highway West, Birmingham, Ala. 35202. Applicant's representative: Roger M. Shaner, P.O. Box 10327, Birmingham, Ala. 35202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lighting fixtures, plastic light diffusers, and articles* used in the installation thereof (except in bulk), from the plantsite of Litecraft-Luminous Ceilings, Division of the Celotex Corporation, at or near Scottsboro, Ala., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Miami, Fla., Atlanta, Ga., or Washington, D.C.

No. MC 117344 (Sub-No. 227), filed July 9, 1973. Applicant: THE MAXWELL CO., a Corporation, 10380 Evendale Drive, Cincinnati, Ohio 45215. Applicant's representative: James R. Stiverson, 50 West Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hydrofluosilicic acid*, in bulk in rubber-lined tank vehicles, from Columbus, Ohio, to points in Indiana, Kentucky, Michigan, Pennsylvania, and West Virginia.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 117439 (Sub-No. 45), filed July 30, 1973. Applicant: BULK TRANSPORT, INC., U.S. Highway 190, P.O. Box 89, Port Allen, La. 70767. Applicant's representative: John Schwab, P.O. Box 3036, Baton Rouge, La. 70821. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mineral filler*, in bulk, from Mobile, Ala., to points in Florida, Louisiana, and Mississippi.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Houston, Tex.

No. MC 117878 (Sub-No. 4), filed July 27, 1973. Applicant: DWIGHT CHEEK, doing business as DWIGHT CHEEK TRUCKING, 2909 South Pierce (Box 1882), Amarillo, Tex. 79105. Applicant's representative: Joe T. Lanham, 1102 Perry-Brooks Building, Austin, Tex. 78701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packing houses*, as described in Sections A & C of Appendix I to the Report in "Descriptions in Motor Carrier Certificates," 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from Amarillo, Tex., to points in Louisiana.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Amarillo or Dallas, Tex.

No. MC 118474 (Sub-No. 9), filed July 10, 1973. Applicant: AIR VAN LINES, INC., 135 Post Road, Anchorage, Alaska 99501. Applicant's representative: Michael J. Roberts, 1660 L Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission, between Seattle, Wash., and Minneapolis and St. Paul, Minn., on the one hand, and, on the other, points in Alaska.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Anchorage, Alaska, or Seattle, Wash.

No. MC 119384 (Sub-No. 25), filed July 16, 1973. Applicant: MORTON TRUCK LINES INC., 101 West Willis Avenue, Box 96, Perry, Iowa 50220. Applicant's representative: Arnold Rautanen (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Quincy, Ill., to Cleveland and Solon, Ohio.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 119777 (Sub-No. 259), filed June 18, 1973. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer L, Madisonville, Ky. 42431. Applicant's representative: Carl U. Hurst, P.O. Box E, Bowling Green, Ky. 42101. Authority

V 38 I 182

XUM

sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pallets, skids, bases, boxes, crates, crating, veneer, baskets treads, risers, sills, molding, cardboard, cartons, nails, flooring, lumber, treated poles, treated lumber, treated crossarms, and treated crossties*, from points in the United States (except Arkansas; Louisiana; Texas; Oklahoma; New Mexico; Mississippi; Missouri; Colorado; Kansas; Moncure, N.C.; Chicago, Ill.; Oskosh, Wis.; Jamaica and Long Island, N.Y.; Memphis, Tenn.; and Norfolk and Chesapeake, Va.) to points in Kentucky.

NOTE.—Applicant holds contract carrier authority in No. MC 126970 (Subs 1 and 3), therefore dual operations may be involved. Common control may also be involved. Applicant states that the requested authority can be tacked with its existing authority at points in Kentucky to serve points in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas, however, applicant has no present intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky.

No. MC 119777 (Sub-No. 268), filed July 27, 1973. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Box L, Madisonville, Ky. 42431. Applicant's representative: Ronald E. Butler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Hay bales, construction machinery, tree spades, stump cutters, irrigation equipment, drainage systems, log splitters, log chippers, and* (2) *attachments, parts, and supplies* used in operation of commodities in (1) above, from Pella, Iowa, to points in the United States, including Alaska, but excluding Hawaii.

NOTE.—Applicant also holds contract carrier authority in MC 126970 and Subs 1 and 3 thereunder, therefore dual operations may be involved. Common control may also be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn., or Lexington, Ky.

No. MC 119897 (Sub-No. 16), filed August 3, 1973. Applicant: A–1 TRANSPORTATION COMPANY, a Corporation, 8826 Mississippi Street, Houston, Tex. 77029. Applicant's representative: J. G. Dail, Jr., 1111 E Street NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid coal tar and liquid coal tar products*, in bulk, in tank vehicles, from Houston, Tex., to points in Arkansas, Oklahoma, Louisiana, and Texas.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex.

No. MC 120910 (Sub-No. 5), filed July 5, 1973. Applicant: SERVICE EXPRESS, INC., P.O. Box 1009, Tuscaloosa, Ala. 35401. Applicant's representative: William P. Jackson, 919 Eighteenth Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic articles, pipe, valves, fittings, hydrants, castings, and accessories therefor*, from the facilities of Central Foundry Company at or near Holt, Ala., to points in Arkansas, Louisiana, and Mississippi, restricted to the transportation of shipments originating at th facilities of Central Foundry at or near Holt, Ala.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Tuscaloosa, Ala., or Washington, D.C.

No. MC 123048 (Sub-No. 267), filed July 5, 1973. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 1919 Hamilton Avenue, Racine, Wis. 53401. Applicant's representative: Paul L. Gartzke, 121 W. Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Agricultural implements;* (2) *attachments* for agricultural implements; and (3) *parts* for agricultural implements; from points in Sac County, Iowa, to points in the United States (except Alaska and Hawaii), restricted against tacking with any of applicant's existing authority.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 123048 (Sub-No. 274), filed July 30, 1973. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 1919 Hamilton Avenue, Racine, Wis. 53401. Applicant's representative: Paul C. Gartzke, 121 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors), and *parts, implements, attachments, accessories, and supplies therefor*, when moving in straight or mixed loads, from Jacksonville, Fla., and Savannah, Ga., to points in Louisiana, Missouri, Illinois, Iowa, Wisconsin, Kentucky, Indiana, Ohio, the Lower Peninsula of Michigan, Virginia, West Virginia, Maryland, Delaware, New Jersey, and Pennsylvania.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 124692 (Sub-No. 114), filed July 2, 1973. Applicant: SAMMONS TRUCKING, a Corporation, P.O. Box 1447, Missoula, Mont. 59801. Applicant's representative: Gene P. Johnson, 425 Gate City Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic and aluminum pipe, iron and steel articles, aluminum and aluminum products, and machinery and equipment* used or useful in the manufacture or handling of the commodities described above, from points in Spokane County, Wash., and Tulare County, Calif., to points in Washington, Oregon, Idaho, California, Montana, Wyoming, North Dakota, South Dakota, Utah, Nevada, Arizona, New Mexico, and Colorado, restricted to shipments originating at the facilities of ASC Industries.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its present authority. If a hearing is deemed necessary, applicant requests it be held at Spokane, Wash., or San Francisco, Calif.

No. MC 124947 (Sub-No. 21), filed August 2, 1973. Applicant: MACHINERY TRANSPORTS, INC., P.O. Box 2338, 608 Cass Street, East Peoria, Ill. 61611. Applicant's representative: Rufus H. Lawson, P.O. Box 75124, Oklahoma City, Okla. 73107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Material handling equipment* and (2) *parts and accessories* for material handling equipment, from Waco, Tex., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Fort Worth, Tex., Washington, D.C., or Chicago, Ill.

No. MC 124947 (Sub-No. 22), filed August 2, 1973. Applicant: MACHINERY TRANSPORTS, INC., P.O. Box 2338, 608 Cass Street, East Peoria, Ill. 61611. Applicant's representative: Rufus H. Lawson, P.O. Box 75124, Oklahoma City, Okla. 73107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Electrical substations, related parts, and accessories*, from Springdale, Ark., to points in the United States (except Alaska, Hawaii, Idaho, Nevada, Montana, Utah, and Wyoming) and (2) *parts and accessories* used in the assembly and construction of electrical substations, from points in the United States (except Alaska, Hawaii, Idaho, Nevada, Montana, Utah, and Wyoming), to Springdale, Ark.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Fort Worth, Tex., Washington, D.C., Chicago, Ill., or Kansas City, Mo.

No. MC 126305 (Sub-No. 54), filed July 25, 1973. Applicant: BOYD BROTHERS TRANSPORTATION CO., INC., R.D. 1, Clayton, Ala. 36016. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *spheres, highway marking strip glass, ballotini, and glass*, crushed, ground or powdered, from the facilities of Potters Industries, Inc., located at Brownwood, Tex., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas and (2) *materials and supplies* used in the manufacture and sale of glass spheres and glass spheres (except in bulk, in tank vehicles), from the above-named destination points, to the facilities of Potters Industries, Inc., located at Brownwood, Tex.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 126904 (Sub-No. 12), filed July 25, 1973. Applicant: H. C. PARISH TRUCK SERVICE, INC., Route #2, Freeburg, Ill. 62243. Applicant's representative: B. W. La Tourette, Jr., 611 Olive Street, Suite 1850, St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper*, in rolls, and sheets, from (1) Wickliffe, Ky., to Memphis, Tenn., and (2) Memphis, Tenn., to Dayton, Ohio.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Dayton, Ohio.

No. MC 128521 (Sub-No. 2) (CORRECTION), filed June 5, 1973, published in the FEDERAL REGISTER issue of August 2, 1973, and republished as corrected, in part, this issue. Applicant: BIRMINGHAM-NASHVILLE EXPRESS, INC., 317 Arlington Avenue, P.O. Box 7429, Nashville, Tenn. 37210. Applicant's representative: Walter Harwood, 1822 Parkway Towers, Nashville, Tenn. 37210.

NOTE.—The purpose of this partial republication is to correct the route description to U.S. Highway 43 in lieu of U.S. Highway 431, which was shown in previous notice. The rest of the application remains as previously published.

No. MC 128642 (Sub-No. 11), filed July 25, 1973. Applicant: SKYLINE TRANSPORT, INC., 1910 Russell Street, Baltimore, Md. 21230. Applicant's representative: H. Neil Garson, Court Square Bldg., 1400 North Uhle Street, Arlington, Va. 22201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid dextrose corn syrup and blends thereof*, in bulk, from Skyline Terminals, Inc., Baltimore, Md., to Dover, Newark, and Wilmington, Del.; Altoona, Biglerville, Chambersburg, Denver, Gardners, Harrisburg, Lancaster, Norristown, Philadelphia, Reading, Sayre, Shippensburg, Williamsport, and York, Pa.; Atlantic City, Bridgeton, Camden, Cedarville, Ocean City, Patterson, Pensauken, and Vineland, N.J.; Alexandria, Charlottesville, Cheriton, Harrisonburg, Parksley, Petersburg, Richmond, and Springfield, Va., and the District of Columbia.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 128988 (Sub-No. 26), filed July 30, 1973. Applicant: JO/KEL, INC., P.O. Box 1249, City of Industry, Calif. 91749. Applicant's representative: Ernest D. Salm, 8179 Havasu Circle, Buena Park, Calif. 90621. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Airconditioning, camping, heating, recreational, and mobile home equipment, and equipment, materials, and supplies* utilized in the manufacture, distribution and sale of airconditioning, camping, heating, mobile home, and recreational equipment, from Santa Fe Springs, Calif., to (a) the facilities of the Coleman Company at Wichita, Kans.; (b) the facilities of Winnebago, Inc., and Boise Cascade Corporation at or near Forest City, Iowa; and (c) points in Elkhart, Kosciusko, La Grange, La Porte, Marshall, Noble, and St. Joseph Counties, Ind.; and Berrien, Calhoun, Cass, Lenawee, St. Joseph, and Shiawassee Counties, Mich., under contract with the Coleman Company, restricted against the transportation of commodities in bulk or those which by reason of size or weight require the use of special equipment.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 129516 (Sub-No. 22), filed August 6, 1973. Applicant: PATTON'S, INC., 2300 Canyon Road, Ellensburg, Wash. 98926. Applicant's representative: James T. Johnson, 1610 IBM Building, Seattle, Wash. 98101. K. Elliott Co., Ltd.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y. or Detroit, Mich.

No. MC 138979, filed July 23, 1973. Applicant: KAL AUTO TRANSPORT, INC., 1290 South 10th Street, Richmond, Calif. 94804. Applicant's representative: Robert C. Marks, 3755 Alhambra Avenue, Martinez, Calif. 94553. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Automobiles*, new, used, wrecked, and/or repossessed, between points in California (except points in Imperial, Los Angeles, Orange, Riverside, San Bernardino, and San Diego Counties), Oregon, Washington, Idaho, Montana, Utah, Nevada, Wyoming, and Colorado, under contract with Peugeot Western Dist., Inc.; Saab-Scania, Lts.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 138985 (Sub-No. 1), filed August 2, 1973. Applicant: KELSE McGARY, 80 High Street, Houlton, Maine. Applicant's representative: Frank J. Weiner, 15 Court Square, Boston, Mass. 02108. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Landscape ties, furring strips and pallets*, from Smyrna Mills, Maine, to points in Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, Vermont, and the District of Columbia, under a contract with Guy Friel & Sons, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Boston, Mass., or Bangor or Portland, Maine.

No. MC 139029 (Sub-No. 1), filed July 9, 1973. Applicant: SNODGRASS, INC., 923 Second Corso, Nebraska City, Nebr. 68410. Applicant's representative: A. J. Swanson, 521 South 14th St., P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel*, and iron *and steel articles*, as defined by the Commission, between points in Iowa, Nebraska, Kansas, Missouri, and Oklahoma, under contract with Steel & Pipe Supply Co., located at Manhattan, Kans.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Lincoln or Omaha, Nebr., or Kansas City, Mo.

No. MC 139036, filed July 27, 1973. Applicant: LEONARD GUSTAFSON, doing business as CHIPMUNK EXPRESS, Box 61, Rapid River, Mich. 49878. Applicant's representative: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, Mich. 48080. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Precut and prefabricated buildings and components thereof* and *materials and supplies* used in connection with the transportation, installation, and construction thereof, from the plantsite of American Timber Homes, Inc., at or near Escanaba, Mich., to points in Illinois, Indiana, Iowa, Kentucky, Minnesota, Missouri, Ohio, Pennsylvania, and Wisconsin; and (2) *sawdust*, from points in the upper peninsula of Michigan to points in Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Lansing, Mich., or Madison or Milwaukee, Wis.

No. MC 139039, filed July 27, 1973. Applicant: A. MARIANNI'S SONS, INC., 3301 Tulip Street, Philadelphia, Pa. 19134. Applicant's representative: Alan Kahn, 1920 Two Center Plaza, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metals*, in detachable, roll-off containers, and *empty roll-off containers*, between Philadelphia, Pa., on the one hand, and, on the other, points in Atlantic, Burlington, Camden, Cumberland, Gloucester, Mercer, Ocean, and Salem Counties, N.J., and New Castle County, Del.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 139040, filed July 27, 1973. Applicant: JAMES L. NANNEY, doing business as NANNEY TRANSPORT, Route 1, Benton, Ky. 42066. Applicant's representative: H. S. Melton, Jr., P.O. Box 1407, Avondale Section, Paducah, Ky. 42001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used motor vehicles*, (1) from Detroit, Mich., to Benton and Murray, Ky., and (2) from Benton and Murray, Ky., to Indianapolis, Ind.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Memphis, Tenn.

No. FF-443, filed August 29, 1973. Applicant: NORTHWEST CONSOLIDATORS, INC., 221 1st Avenue West, Seattle, Washington 98109. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, D.C. 20006. Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by railroad, motor vehicle, water and express, in the transportation of (a) *used household goods and unaccompanied baggage*, and (b) *used automobiles*, between points in the United States (including Hawaii but excluding Alaska), restricted in (b) to the transportation of import-export traffic.

NOTE.—Applicant requests that this application be assigned to modified procedure, but should a hearing be deemed necessary, applicant requests it be held at Washington, D.C., or Seattle, Wash.

APPLICATION(S) IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 135895 (Sub-No. 4), filed August 3, 1973. Applicant: DON RAY BOYD AND JACKIE ROGERS, a Partnership, doing business as B & R DRAYAGE COMPANY, 481 Julienne Street, Jackson, Miss. 39204. Applicant's representative: Douglas C. Wynn, P.O. Box 1295, Greenville, Miss. 38701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand, sand products, commercial, technical and industrial sands, and mineral fillers, in bags, in containers and in bulk*, from the plant sites, warehouses and shipping points of the Mississippi Valley Silica Company located in St. Tammany Parish, La., to points in Mississippi, Alabama, and Florida.

INTERSTATE COMMERCE COMMISSION, No. MC-137029 (NOTICE OF FILING AN APPLICATION FOR A POSTAL CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY), filed June 4, 1973. Applicant: John Heywood Thompson, Jr., 108 Clearview Drive, Atlanta, Texas, 75551. Applicant's representative: Gerald A. Braswell, 512 Candlewood Road, Fort Worth, Texas 76013. By application filed June 4, 1973, applicant seeks a Postal Certificate of Public Convenience and Necessity to transport *Mail* in the following territory: (1) Between Ft. Worth, Tex., and Memphis, Tenn., from Ft. Worth, Tex., over Texas Highway 183 to Dallas, Tex., thence over Interstate Highway 30 to Little Rock, Ark., thence over Interstate Highway 40 to Memphis, Tenn., and return over the same route, serving the intermediate point of Texarkana, Tex.-Ark.; (2) Between Shreveport, La., and Memphis, Tenn., from Shreveport, La., over Louisiana Highway 1 to the Louisiana-Texas State line, thence over Texas Highway 77 to Atlanta, Tex., thence over U.S. Highway 59 to Texarkana, Tex.-Ark., thence over Interstate Highway 30 to Little Rock, Ark., thence over Interstate Highway 40 to Memphis, Tenn., and return over the same route; (3) Between Shreveport, La., and New Orleans, La., from Shreveport, La., over Louisiana Highway 1 to Alexandria, La., thence over U.S. Highway 71 to junction U.S. Highway 190, thence over U.S. Highway 190 to Baton Rouge, La., thence over U.S. Highway 61 to New Orleans, La., and return over the same route, serving the intermediate points of Natchitoches, Alexandria, and Baton Rouge, La.; (4) Between Shreveport, La., and Birmingham, Ala., from Shreveport, La., over Interstate Highway 20 to Meridian, Miss., thence over Interstate Highways 20 and 59 to Birmingham, Ala., and return over the same route, serving the intermediate points of Ruston, Monroe, and Rayville, La., Jackson, Newton, and Meridian, Miss., and Tuscaloosa, Ala.; (5) Between Shreveport, La., and Texarkana, Tex.-Ark., from Shreveport, La., over Louisiana Highway 1 to the Louisiana-Texas State line, thence over Texas Highway 77 to Atlanta, Tex., thence over U.S. 59 to Texarkana, Tex.-Ark., and return over the same route; (6) Between Texarkana, Tex.-Ark., and Longview, Tex., from Texarkana, Tex.-Ark., over U.S. Highway 59 to Linden, Tex., thence over Texas Highway 155 to junction U.S. Highway 259, thence over U.S. Highway 259 to Longview, Tex., and return over the same route, serving the intermediate point of Atlanta, Tex.; (7) Between Texarkana, Tex.-Ark., and Cookville, Tex., from Texarkana, Tex.-Ark., over U.S. Highway 67 to Cookville, Tex., and return over the same route, serving the intermediate points of Red Water, Maud, Corley, Naples, and Omaha, Tex.

Appended to the application are copies of seven postal contracts held by applicant which were in effect on July 1, 1971, the critical "grandfather" date: Route No. 75222 relating to service between Ft. Worth, Tex., and Memphis, Tenn.; Route No. 38013 relating to service between Shreveport, La., and Memphis, Tenn.; Route No. 71014 relating to service between Shreveport, La., and New Orleans, La.; Route No. 35019 relating to service between Shreveport, La., and Birmingham, Ala.; Route No. 71015 relating to service between Shreveport, La., and

V 38-182 SEP 20 73 XUM

Texarkana, Tex.-Ark.; Route No. 75511 relating to service between Texarkana, Tex.-Ark.. and Longview, Tex.; Route No. 75512 relating to service between Texarkana, Tex.-Ark., and Cookville, Tex.

Any interested person desiring to oppose the application may file with the Commission an original and one copy of his written representations, views, or arguments in opposition to the application on or before Oct. 23, 1973. A copy of each such pleading should be served upon applicant's representative.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

# REMINDERS

**Rules Going Into Effect Today**

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page,no. and date

CUSTOMS DUTIES—Foreign military personnel; free entry privileges . 22548; 8–22–73

SEC—Applications, exemptions, etc.; new requirements . 22324; 8–29–73

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

# List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

## Title 3—The President

PROCLAMATION 4246

# Johnny Horizon '76 Clean Up America Month

*By the President of the United States of America*

## A Proclamation

While the Federal Government pursues its national responsibility to prevent pollution of our air, water and land resources, no contribution to a better environment can match the exercise of individual responsibility. We must recognize that environmental improvement and protection require the commitment and positive action of each and every American.

We can have clean air, clean water, beautiful, open forests and shores, but all these will not improve our environment if our immediate surroundings are cluttered and degraded. Our most precious environment is the area in which we live—our city streets and rural towns. Environmental awareness goes far beyond the improvement of what we commonly refer to as our natural resources.

The spirit with which we work to enhance our lives must be one of: "I'll help, too." To dramatize this spirit, the Congress has by House Joint Resolution 695, 93rd Congress, designated the period of September 15 to October 15, 1973 as "Johnny Horizon '76 Clean Up America Month" and requested the President to issue a proclamation calling for observance of this month.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby proclaim "Clean Up America Month," and ask our Nation's attention to the Johnny Horizon '76 environmental awareness and action program for America's 200th birthday and related Bicentennial activities. I urge representatives of business, industry, labor, government, civic groups and other citizens to join together to demonstrate the significant results that can be realized when Americans translate their concerns into affirmative action. I further urge neighborhood and community cleanups, beautification programs, resource recovery and education programs, anti-litter campaigns, energy and wildlife conservation efforts and other worthwhile activities.

IN WITNESS WHEREOF, I have hereunto set my hand this nineteenth day of September, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

# Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 7—Agriculture

### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 605]

### PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

#### Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period Sept. 23–29, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.905 Lemon Regulation 605.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuatae the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons continues about unchanged but is expected to ease as the week progresses due to cooler weather and competition from Florida lemons. Sales volume is expected to drop about 8 percent and average f.o.b. price about 56 cents per carton this week. Average f.o.b. price was $8.06 per carton the week ended September 15, 1973, compared to $8.30 per carton the previous week. Track and rolling supplies at 124 cars were down 13 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until October 23, 1973 (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 18, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period September 23, 1973, through September 29, 1973, is hereby fixed at 225,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when ussed in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).)

Dated September 19, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division Agricultural Marketing Service.*

V 38-183 SEP 21 73 XUM

Title 14—Aeronautics and Space

## CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 13209]

## CHIEF COUNSEL ET AL.

### Miscellaneous Amendments

The purpose of these amendments is to make changes in the Federal Aviation Regulations that are necessary because of the appointment of a Chief Counsel of the Federal Aviation Administration and the transfer of the functions of the former General Counsel to the Chief Counsel, effective September 17, 1973.

This rulemaking action therefore changes the term "General Counsel" to "Chief Counsel," the term "Deputy General Counsel" to "Deputy Chief Counsel" and the term "Associate General Counsel" to "Assistant Chief Counsel" wherever they occur in the Federal Aviation Regulations, including Special Federal Aviation Regulations and Exemptions, Special Conditions and Orders issued in accordance with those regulations. For reasons of economy the editions of these regulations that are currently for sale will not be reprinted merely to make these changes. Whenever they are reprinted for other reasons, the printing changes will be made. However, the pages of Part 11, "General Rule-making Procedures" and of Part 13, "Enforcement Procedures" reflecting the changes will be reprinted as soon as possible.

Notice and public procedures thereon are not required since these amendments merely reflect changes of FAA organization, and they may therefore be made effective immediately.

In consideration of the foregoing, the Federal Aviation Regulations (14 CFR Chapter I) are amended, effective September 17, 1973, by striking out the terms "General Counsel", "Deputy General Counsel", and "Associate General Counsel" wherever they appear and inserting in place thereof the terms "Chief Counsel", "Deputy Chief Counsel," and "Assistant Chief Counsel", respectively.

(Sec. 301(a), 302(f), 303(d), and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1341 (a), 1343(d), 134(d), and 1354(a)); sec. 6(c) and 9(e)(2) Department of Transportation Act (49 U.S.C. 1655(c).)

Issued in Washington, D.C., on September 17, 1973.

ALEXANDER P. BUTTERFIELD,
*Administrator.*

[FR Doc.73-20294 Filed 9-20-73;8:45 am]

[Airspace Docket No. 73-AL-8A]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Redesignation of Colored Federal Airways and Transition Area

On June 26, 1973, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (38 FR 16785) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation regulations that would alter Amber Federal Airway No. 1 between Anchorage and Skwentna, Alaska, Radio Beacons; revoke Red Federal Airway No. 82 between Skwentna and Matanuska, Alaska, Intersection; redesignate the Skwentna Transition Area to include a smaller area and also lower the floor. Editorial changes generated by conversion of the Anchorage and Skwentna Radio Ranges to Radio Beacons were made effective October 11, 1973, in Airspace Docket No. 73-AL-8.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

In consideration of the foregoing, Part 71 of the Federal Aviation regulations is amended, effective 0901 G.m.t. November 8, 1973, as hereinafter set forth.

1. Section 71.105 (38 FR 305 and 21492) is amended as follows: In A-1 "Campbell Lake RBN; INT Campbell Lake RBN 331° and Skwentna, Alaska, RBN 111° bearings; Skwentna RBN;" is deleted and "Campbell Lake RBN; Skwentna RBN;" is substituted therefor.

2. Section 71.107 (38 FR 306) is amended as follows: "Red Federal Airway No. 82" is revoked.

3. In § 71.181 (38 FR 435) Skwentna, Alaska, is amended to read:

That airspace extending upward from 700 feet above the surface within 4.5 miles N and 9.5 miles S of the 291° and 111° bearings from the Skwentna RBN, extending from 7.5 miles W to 18.5 miles E of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on September 11, 1973.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and Air Traffic Rules Division.*

[FR Doc.73-20098 Filed 9-20-73;8:45 am]

[Airspace Docket No. 73-WA-28]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Revocation of VOR Federal Airway

On June 26, 1973, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (38 FR 16786) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation regulations that would revoke VOR Federal Airway No. 52 north between St. Louis, Mo., and Quincy, Ill., and VOR Federal Airway No. 9 west between St. Louis and Capital, Ill.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation regulations is amended, effective 0901 G.m.t., December 6, 1973, as hereinafter set forth.

Section 71.123 (38 FR 307, 8133 and 37 FR 23329) is amended as follows:

1. In V-52, "Quincy, Ill.; St. Louis, Mo., including a N alternate;" is deleted and "Quincy, Ill.; St. Louis, Mo.;" is substituted therefor.

2. In V-9 "Capital, Ill., including a W alternate;" is deleted and "Capital, Ill.;" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on September 11, 1973.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and Air Traffic Rules Division.*

[FR Doc.73-20099 Filed 9-20-73;8:45 am]

[Airspace Docket No. 73-EA-53]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Control Zone

*Correction*

In FR Doc. 73-19640, appearing on page 25905 of the issue for Monday, September 17, 1973, the description for Charleston, W. Va. (§ 71.171) should read as set forth below:

Within a 5.5-mile radius of the center, 38°22'22" N., 81°35'35" W., of Kanawha Airport, Charleston, W. Va.; within a 6-mile radius of the center of the Kanawha Airport, extending clockwise from a 319° bearing to a 229° bearing from the airport; within 2 miles each side of the extended centerline of Runway 5, extending from the 5.5-mile radius to 6.5 miles northeast of the lift-off end of Runway 5; within 1.5 miles each side of the extended centerline of Runway 14, extending from the 5.5-mile radius to 6.5 miles southeast of the lift-off end of Runway 14; within 2 miles each side of the Charleston VORTAC 081° radial, extending from the 5.5-mile radius to 2 miles east of the VORTAC; within 2 miles each side of the extended centerline of Runway 23, extending from the 5.5-mile radius to 6.5 miles southwest of the lift-off end of Runway 23 and within 2 miles each side of the extended centerline of Runway 32, extending from the 5.5-mile radius to 6.5 miles northwest of the lift-off end of Runway 32.

[Airspace Docket No. 73-EA-55]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Control Zone and Transition Area

*Correction*

In FR Doc. 73-19642, appearing on page 25906 of the issue for Monday, September 17, 1973, in the seventh line of the description for Wrightstown, N.J. (§71.181), the last figure reading "03" should read "031".

[Airspace Docket No. 73-RM-22]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Transition Area

On August 9, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 21503) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation regulations that would alter the description of the Sheridan, Wyo., transition area.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received, and the proposed amendment is hereby adopted without change.

*Effective date.*—This amendment shall be effective 0901 G.m.t., November 8, 1973.

(Sec. 307(a) Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Aurora, Colorado, on September 10, 1973.

I. H. HOOVER,
*Acting Director, Rocky Mountain Region.*

In § 71.181 (38 FR 578) after the text "• • • from 18.5 miles northwest to 34 miles southeast of the VORTAC", add:

• • • and that airspace southeast of Sheridan bounded on the north by a line located 5 miles south of and parallel to the Sheridan VORTAC 104° radial, on the east by a 35-mile-radius arc of the Sheridan VORTAC, and on the south by a line located 10 miles north of and parallel to the Sheridan VORTAC 138° radial.

[FR Doc.73-19740 Filed 9-20-73;8:45 am]

[Airspace Docket No. 73-NE-23]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Transition Area

On Page 19839 of the FEDERAL REGISTER dated July 24, 1973, the Federal Aviation Administration published a notice of proposed rulemaking which would alter the Laconia, New Hampshire, 700-foot Transition Area.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulations are hereby adopted effective 0901 G.m.t., October 11, 1973.

(Sec. 307(a), Federal Aviation Act of 1958 72 Stat. 749 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Burlington, Massachusetts, on September 5, 1973.

FERRIS J. HOWLAND,
*Director, New England Region.*

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Laconia, New Hampshire, 700-foot Transition Area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 6.5 mile-radius of the center, 43°34'25" N, 71°25'22" W, of Laconia Municipal Airport, Laconia, New Hampshire; and within 6.5 miles northwest and 4.5 miles southeast of the 247° bearing and the 067° bearing from the Belmont NDB, 43°32'09" N, 71°32'09" W, extending from 11.5 miles southwest of the NDB to 5.5 miles northeast of the NDB.

[FR Doc.73-20097 Filed 9-20-73;8:45 am]

[Airspace Docket No. 73-SW-34]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## PART 73—SPECIAL USE AIRSPACE

### Alteration of Restricted Area and Controlled Airspace; Correction

On August 14, 1973, FEDERAL REGISTER Document 73-16768 was published in the FEDERAL REGISTER (38 FR 21917) amending Part 73 of the Federal Aviation regulations to reduce the volume and stratify the altitude structure of the Camp Claiborne, La., restricted area complex, effective 0901 G.m.t., September 13, 1973.

Subsequent to publication, it was determined that several corrections should be made to the descriptions of the restricted areas. The designated altitude for Restricted Area R-3801A should be described as extending from 1,500 feet AGL rather than 7,500 feet AGL. One of the geographical reference points used to define the boundaries of Restricted Area R-3801A and two of those used to define R-3801C should be corrected. Also, the designated altitude for R-3801C should be listed as extending only to and including 14,000 feet MSL rather than FL-200. Therefore, action is taken herein to make the corrections.

Since these editorial changes are minor amendments in which the public is not particularly interested, notice and public procedure thereon are unnecessary. However, as it is essential that the boundaries and altitudes of the restricted areas be accurately stated, good cause exists for making these amendments effective immediately.

In consideration of the foregoing, FEDERAL REGISTER Document 73-16768 (38 FR 21917) is amended, effective on September 21, 1973, as hereinafter set forth.

1. In the Boundaries for R-3801A, Camp Claiborne, La., "latitude 31°23'40" N., longitude 93°06'45" W.;" is deleted and "latitude 31°23'40" N., longitude 93°05'45" W.;" is substituted therefor.

2. In the Designated altitudes for R-3801A, Camp Claiborne, La., "7,500 feet AGL" is deleted and "1,500 feet AGL" is substituted therefor.

3. In the Boundaries for R-3801C, Camp Claiborne, La., "latitude 31°05'15" N., longitude 92°34'54" W.; to latitude 31°18'55" N., longitude 92°49'45" W.;" is deleted and "latitude 31°05'15" N., longitude 92°34'50" W.; to latitude 31°13'55" N., longitude 92°49'45" W.;" is substituted therefor.

4. In the Designated altitudes for R-3801C, Camp Claiborne, La., "to and including FL 200" is deleted and "to and including 14,000 feet MSL" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on September 12, 1973.

H. B. HELSTROM,
*Chief, Airspace and Air Traffic Rules Division.*

[FR Doc.73-20101 Filed 9-20-73;8:45 am]

[Airspace Docket No. 73-WA-23]

## PART 73—SPECIAL USE AIRSPACE

### Alteration of Restricted Areas

On June 26, 1973, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (38 FR 16786) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 73 of the Federal Aviation regulations that would change the Time of designation and the Using agency for Restricted Areas R-3601A and B, Brookville, Kans. The designated altitudes for R-3601A would also be changed.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 6, 1973, as hereinafter set forth.

In § 73.36 (38 FR 650):

1. The description of Restricted Area R-3601A Brookville, Kans., is amended to read as follows:

R-3601A BROOKVILLE, KANS

*Boundaries.* Beginning at latitude 38°45'-20" N., longitude 97°46'00" W.; to latitude 38°39'45" N., longitude 97°46'00" W.; along the Missouri Pacific Railroad to latitude 38°-38'20" N., longitude 97°47'30" W.; to latitude 38°38'20" N., longitude 97°56'00" W.; to latitude 38°45'20" N., longitude 97°56'00" W.; to point of beginning.

*Designated altitudes.* Surface to FL-180.

*Time of designation.* Sunrise to 2400 hours c.s.t., Tuesday through Saturday; sunrise to sunset Sunday.

*Controlling agency.* Federal Aviation Administration, Kansas City ARTC Center.

*Using agency.* Commander, Kansas ANG, McConnell AFB, Kans.

2. The description of Restricted Area R-3601B Brookville, Kans., is amended to read as follows:

R-3601B BROOKVILLE, KANS.

*Boundaries.* Beginning at latitude 38°38'-20" N., longitude 97°50'00" W.; to latitude 38°35'00" N., longitude 97°50'00" W.; to latitude 38°35'00" N., longitude 97°56'00" W.; to latitude 38°38'20" N., longitude 97°56'00" W.; to point of beginning.

*Designated altitudes.* Surface to 6,500 feet MSL.

V 38 I 183
SEP 21 73
XUM

*Time of designation.* Sunrise to 2400 hours c.s.t., Tuesday through Saturday; sunrise to sunset Sunday.

*Controlling agency.* Federal Aviation Administration, Kansas City ARTC Center.

*Using agency.* Commander, Kansas ANG, McConnell AFB, Kans.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on September 12, 1973.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and Air Traffic Rules Division.*

[Docket No. 13194; Amdt. No. 882]

## PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

### Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, D.C. 20591, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective November 1, 1973.

Ann Arbor, Mich.Ann Arbor Municipal Arpt., VOR/DME Rwy 6, Amdt. 2
Ann Arbor, Mich.—Ann Arbor Municipal Arpt., VOR Rwy 24, Amdt. 3
Cheboygan, Mich.—Cheboygan Arpt., VOR Rwy 9, Orig.
Logansport, Ind.—Logansport Municipal Arpt., VOR-A, Amdt. 3
Teterboro, N.J.—Teterboro Arpt., VOR/DME-A, Amdt. 6

Effective September 27, 1973:

Cape Girardeau, Mo.—Cape Girardeau Municipal Arpt., VOR Rwy 2, Amdt. 5
McAllen, Tex.—Miller Int'l Arpt., VOR Rwy 13, Amdt. 9
Napa, Cal.—Napa County Arpt., VOR Rwy 6, Amdt. 4
Santa Rosa, Cal.—Sonoma County Arpt., VOR Rwy 32, Amdt. 6

Effective September 6, 1973:

Torrance, Cal.—Torrance Municipal Arpt., VOR Rwy 11 L, Amdt. 10

2. Section 97.25 is amended by originating, amending, or canceling the following SDF-LOC-LDA SIAPs, effective September 27, 1973.

Columbus, Miss.—Golden Triangle Regional Arpt., LOC Rwy 18, Orig., Canceled

Effective September 6, 1973:

Torrance, Cal.—Torrance Municipal Arpt., LOC Rwy 29R, Amdt. 2

3. Section 97.27 is amended by originating, amending, or canceling the following NDB/ADF SIAPs, effective November 1, 1973.

Hazleton, Pa.—Hazleton Municipal Arpt., NDB Rwy 28, Orig.

Effective September 27, 1973:

McAllen, Tex.—Miller Int'l Arpt., NDB Rwy 13, Amdt. 1

4. Section 97.29 is amended by originating, amending, or canceling the following ILS SIAPs, effective November 1, 1973.

Reading, Pa.—Reading Municipal General Carl A. Spaatz Field, ILS Rwy 36, Amdt. 19

Effective September 27, 1973:

Columbus-West Point-Starkville, Miss.—Golden Triangle Regional Arpt., ILS Rwy 18, Orig.
McAllen, Tex.—Miller Int'l Arpt., ILS Rwy 13, Amdt. 1
Santa Rosa, Cal.—Sonoma County, ILS Rwy 32, Orig.

5. Section 97.33 is amended by originating, amending, or canceling the following RNAV SIAPs, effective September 6, 1973.

Torrance, Cal.—Torrance Municipal Arpt., RNAV Rwy 29R, Amdt. 4

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1948 (49 U.S.C. 1438, 1354, 1421, 1510), sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c), 5 U.S.C. 552(a)(1)).)

Issued in Washington, D.C., on September 13, 1973.

JAMES M. VINES,
*Chief, Aircraft Programs Division.*

NOTE.—Incorporation by reference provisions in §§ 97.10 and 97.20 (35 FR 5610) approved by the Director of the Federal Register on May 12, 1969.

[FR Doc 73-20096 Filed 9-20-73;8:45 am]

[Docket No. 12574; Amdt. No. 103-18]

## PART 103—TRANSPORTATION OF DANGEROUS ARTICLES AND MAGNETIC MATERIALS

### Carriage of Radioactive and Other Hazardous Materials; Suspension

The purpose of this amendment to Part 103 of the Federal Aviation Regulations is to suspend the effectiveness of that part of Amendment 103-17 applicable to § 103.23, which became effective July 11, 1973, and to reinstate the previous rules of § 103.23 in effect immediately prior to that date.

Amendment 103-17, which became effective July 11, 1973 (38 FR 17831), prescribed, among other things, new rules in § 103.23 governing the distribution of packages of radioactive materials being transported in aircraft, consisting of the method to be used in determining the distance packages must be kept from a space occupied by a person or an animal.

As explained in the preamble to Amendment 103-17, the amendment was adopted by the FAA only after a notice of proposed rulemaking had been published (Notice 73-7; 38 FR 6690) and careful consideration had been given to all comments received from interested persons. Upon completion of the evaluation of comments, the FAA determined that the adoption of Amendment 103-17 was in the public interest and would not adversely affect the safety of persons aboard aircraft.

After Amendment 103-17 became effective, the FAA received a letter from the Department of Health, Education, and Welfare (HEW) dated August 6, 1973, regarding Amendment 103-17. The HEW letter supports the continued carriage aboard aircraft of radioactive materials for medical use, since short-lived materials must reach their destination by the fastest means available. However, the letter expresses the view that there are areas of public health concern which indicate a need to continue review of the potential radiation exposure to passengers and crewmembers and suggests that additional data is needed to adequately evaluate exposures under the conditions prescribed in Amendment 103-17. Accordingly, HEW advised that it will defer specific comments on the public health aspects of Amendment 103-17 until data becomes available from FAA studies being conducted.

In light of the HEW comments, the FAA has determined that the public interest requires suspension of the effectiveness of that part of Amendment 103-17 which amends § 103.23 and reinstatement of the rules of § 103.23 previously in effect on July 10, 1973. Such a suspension will permit current studies to be completed and make more data available, thereby providing HEW an opportunity to evaluate the public health significance of Amendment 103-17 and advise the FAA. Thereafter, the FAA will take whatever rule-making action that is deemed appropriate.

In view of the public health considerations involved, I find that notice and public procedure hereon are contrary to the public interest and that good cause exists for making these amendments effective on less than 30 days notice.

(Sec. 313(a), 601, 604, and 902, Federal Aviation Act of 1958 (49 U.S.C. 1345(a)), 1421, 1424, and 1472); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c).)

In consideration of the foregoing, Part 103 of the Federal Aviation Regulations is amended, effective October 1, 1973, by suspending the effectiveness of that part of Amendment 103-17 which amends § 103.23, published in the FEDERAL REGISTER July 5, 1973 (38 FR 17831), and by reissuing § 103.23 as it was in effect July 10, 1973.

Issued in Washington, D.C., on September 13, 1973.

JAMES E. DOW,
*Acting Administrator.*

[FR Doc.73-20186 Filed 9-20-73;8:45 am]

## Title 21—Food and Drugs

## CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### SUBCHAPTER B—FOOD AND FOOD PRODUCTS

## PART 121—FOOD ADDITIVES

### Benomyl

A petition (FAP 2H5004) was filed by E. I. du Pont de Nemours & Co., Inc., Wilmington, DE 19898, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348), proposing establishment of a food additive tolerance (21 CFR Part 121) for residues of the fungicide benomyl (methyl-1-(butylcarbamoyl) - 2 - benzimidazolecarbamate) in or on raisins at 50 parts per million, resulting from application of the fungicide to growing grapes.

Subsequently, the petitioner amended the petition by proposing that the tolerance for residues of benomyl be expressed as "combined residues of benomyl and its metabolites containing the benzimidazole moiety (calculated as benomyl)" and by requesting additional tolerances for combined residues of benomyl and its metabolites containing the benzimidazole moiety (calculated as the fungicide) in dried grape pomace and raisin waste at 125 parts per million. (For related document, see this issue of the FEDERAL REGISTER, page 26450.)

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 FR 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 346, 346a, and 348). Pesticide and food additive tolerances for combined residues of benomyl and its metabolites containing the benzimidazole moiety (calculated as benomyl) have previously been established.

Having evaluated the data in the petition and other relevant material, it is concluded that the tolerances should be established.

Therefore, pursuant to provisions of the act (sec. 409(c) (1), (4), 72 Stat. 1786; 21 U.S.C. 348(c) (1), (4), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), Part 121 is amended as follows:

1. Section 121.343 in Subpart C is revised to read as follows:

**§ 121.343 Benomyl.**

Tolerances are established for combined residues of the fungicide benomyl (methyl - 1 - (butylcarbamoyl) - 2-benz - imidazolecarbamate) and its metabolites containing the benzimidazole moiety (calculated as benomyl) as follows:

125 parts per million in dried grape pomace and raisin waste when present therein as a result of application of the fungicide to growing grapes.

70 parts per million in dried apple pomace when present therein as a result of application (preharvest and/or postharvest) of the fungicide to the raw agricultural commodity apples.

2. Section 121.1254 is added to read as follows:

**§ 121.1254 Benomyl.**

A tolerance of 50 parts per million is established for combined residues of the fungicide benomyl (methyl-1-(butylcarbamoyl) - 2 - benzimidazolecarbamate) and its metabolites containing the benzimidazole moiety (calculated as benomyl) in raisins when present therein as a result of application of the fungicide to growing grapes.

Any person who will be adversely affected by the foregoing order may at any time on or before October 23, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

*Effective date.*—This order shall become effective on September 21, 1973.

(Sec. 409(c) (1), (4), 72 Stat. 1786; 21 U.S.C. 348(c) (1), (4).)

Dated September 18, 1973.

HENRY J. KORN,
*Deputy Assistant Administrator for Pesticide Programs.*

[FR Doc.73-20181 Filed 9-20-73;8:45 am]

## CHAPTER II—DRUG ENFORCEMENT ADMINISTRATION, DEPARTMENT OF JUSTICE

## PART 308—SCHEDULES OF CONTROLLED SUBSTANCES

### Additions to Schedule I

A notice was published in the FEDERAL REGISTER on May 31, 1973 (38 FR 14288), proposing placement of 2-5,dimethoxyamphetamine (2,5-DMA) in Schedule I of the Controlled Substances Act. All persons were given until July 6, 1973, to file objections, comments or requests for a hearing. No comments, objections, or requests for a hearing were received by that date.

A notice was published in the FEDERAL REGISTER on July 2, 1973 (38 FR 17499), proposing placement of 4-bromo-2,5-dimethoxyamphetamine (4 - bromo - 2,5 - DMA) in Schedule I of the Controlled Substances Act. All interested persons were given until August 1, 1973, to file objections, comments, or requests for a hearing. On July 27, 1973, the Church of the Tree of Life submitted comments on the proposal, stating that 4-bromo-2,5-DMA is a sacrament of their church, that its placement in Schedule I without an exemption for the members of the Church would violate the members' Constitutional rights, that the substance is unusually safe, non-toxic, and non-addictive, and that the proposal to place 4-bromo-2,5-DMA in Schedule I without controlling alcohol and tobacco was incongruous and distorted. In discussions between DEA and a representative of the Church of the Tree of Life, it was explained that an exemption for bona fide religious use of 4-bromo-2,5-DMA was subject to the decisions involving the Church of the Awakening (see Kennedy v. Bureau of Narcotics and Dangerous Drugs, 93 S.Ct. 901, 1414 (1973) and 459 F.2d 415 (9th Cir., 1972)), that all evidence available to the government indicated a definite toxicity for the substance, and that control over alcohol and tobacco was neither possible (see 21 U.S.C. 802(6)) nor relevant. The Church of the Tree of Life agreed not to request a hearing on this proposal but reserved its right to petition to decontrol 4-bromo-2,5-DMA in the future.

V 38 1 83 SEP 21 73 XUM

On August 23, 1973, a second comment regarding 4-bromo-2,5-DMA was received; although past the closing date for filing objections, the comments were considered. Dr. Thomas F. Budinger of the Lawrence Berkeley Laboratory of the University of California at Berkeley, objected to the placement of 4-bromo-2,5-DMA in Schedule I and proposed that it be placed in Schedule II instead. Dr. Budinger stated that the substance "clearly has a potential for abuse" but that research now indicates that radioactively-tagged 4-bromo-2,5-DMA may be the only known radiopharmaceutical preparation with a suitable radioactive half-life that concentrates specifically in the brain, thus giving the substance "great potential • • • in the practice of nuclear medicine for diagnosis of cerebrovascular accidents." Dr. Budinger further objected that inclusion in Schedule I would greatly hamper research and development of 4-bromo-2,5-DMA, and that inclusion in Schedule II would not. It is the position of the Drug Enforcement Administration that, at this time, 4-bromo-2,5-DMA does not have "a currently accepted medical use in treatment in the United States, or a currently accepted medical use with severe restrictions." This condition must be found to exist in order to place the substance in Schedule II (21 U.S.C. 812(b)(2)(B)), and therefore, Dr. Budinger's alternative proposal cannot be adopted. In addition, the DEA does not believe that inclusion of a substance in Schedule I will hamper or interfere with legitimate research. Dr. Budinger did not request a hearing.

A notice was published in the FEDERAL REGISTER on July 2, 1973 (38 FR 17499), proposing placement of 4-methoxyamphetamine in Schedule I of the Controlled Substances Act. All interested persons were given until August 1, 1973, to file objections, comments, or requests for a hearing. No objections, comments, or requests for a hearing were received by that date.

Based upon the investigations of the Drug Enforcement Administration (and its predecessor agency, the Bureau of Narcotics and Dangerous Drugs) and upon the scientific and medical evaluation and recommendations of the Secretary of Health, Education, and Welfare, received pursuant to section 201(b) of the Controlled Substances Act (21 U.S.C. 811(b)), the Acting Administrator of the Drug Enforcement Administration finds that each of the following substances: 2,5-dimethoxyamphetamine; 4-bromo-2,5-dimethoxyamphetamine; and 4-methoxyamphetamine; and the salts, isomers and salts of isomers of each such substance (whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation):

(1) Has a high potential for abuse;

(2) Has no currently accepted medical use in treatment in the United States; and

(3) Lacks accepted safety for use under medical supervision.

Therefore, under the authority vested in the Attorney General by section 201(a) (21 U.S.C. 811(a)) and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of title 28 of the Code of Federal Regulations (see 38 FR 18380, July 2, 1973), the Acting Administrator hereby orders that § 308.11(d) of Title 21 of the Code of Federal Regulations be amended by adding new subparagraphs (18), (19), and (20) to read:

§ 308.11 Schedule I.

• • • • •

(d) *Hallucinogenic substances.* • • •

| | |
|---|---|
| (18) 2,5-dimethoxyamphetamine ---- Some trade or other names: 2,5 - dimethoxy-a-methylphenethylamine; 2,5-DMA. | 7396 |
| (19) 4 - bromo-2,5-dimethoxyamphetamine ---- Some trade or other names: 4-bromo - 2,5-dimethoxy-a-methylphenethylamine; 4 - bromo-2,5-DMA. | 7391 |
| (20) 4-methoxyamphetamine ---- Some trade or other names: 4-methoxy - a - methylphenethylamine; paramethoxyamphetamine; PMA. | 7411 |

EFFECTIVE DATES

The requirements imposed upon the three hallucinogenic substances controlled by this order shall become effective as follows:

1. *Registration.* Any person who manufactures, distributes, engages in research, imports or exports any of these substances or who proposes to engage in the manufacture, distribution, importation, or exportation of, or research with, any of these substances, shall obtain a registration to conduct that activity on or before October 31, 1973.

2. *Security.* These hallucinogens must be manufactured, distributed and stored in accordance with §§ 301.71, 301.72(a), 301.73, 301.74, 301.74(a) and 301.76 of Title 21 of the Code of Federal Regulations on or before October 31, 1973. In the event that this poses special hardships, the Drug Enforcement Administration will entertain any justified requests for extensions of time.

3. *Labeling and packaging.* All labels on commercial containers of, and all labeling of, any of these hallucinogens which are packaged after October 31, 1973, shall comply with the requirements of §§ 301.03–302.05 and 302.08 of Title 21 of the Code of Federal Regulations. In the event these effective dates pose special hardships on any manufacturer, the Drug Enforcement Administration will entertain any justified requests for an extension of time.

4. *Inventory.* Every registrant required to keep records who possesses any quantity of any of these hallucinogens shall take an inventory of all stocks of those substances on hand on October 31, 1973.

5. *Records.* All registrants required to keep records pursuant to Part 304 of Title 21 of the Code of Federal Regulations shall maintain such records on these hallucinogens commencing on the date on which the inventory of those substances is taken.

6. *Order forms.* Each distribution of any of these hallucinogens on or after October 31, 1973, shall utilize an order form pursuant to Part 305 of Title 21 of the Code of Federal Regulations except as permitted in § 305.03 of that title.

7. *Quotas.* Quotas on these substances will be established to take effect on January 1, 1974. All interested persons required to obtain quotas shall submit applications on or before October 31, 1974.

8. *Importation and exportation.* All importation and exportation of any of these hallucinogenic substances on and after October 31, 1973, shall be in compliance with Part 312 of Title 21 of the Code of Federal Regulations.

9. *Criminal liability.* Any activity with any of these hallucinogens, not authorized by, or in violation of, the Controlled Substances Act or the Controlled Substances Import and Export Act, conducted after September 21, 1973 shall be unlawful, except that any person who is not now registered to handle these substances but who is entitled to registration under those Acts may continue to conduct normal business or professional practice with those substances between the date on which this order is published and the date on which he obtains the proper registration.

10. *Other.* In all other respects, this order is effective September 21, 1973.

Dated September 14, 1973.

JOHN R. BARTELS, JR.,
*Acting Administrator,*
*Drug Enforcement Administration.*

### PART 205—GRIEVABILITY AND ARBITRABILITY PROCEEDINGS

### PART 206—MISCELLANEOUS

#### Assistant Regional Director for Labor-Management Services

Secretary of Labor's Order No. 13–73, involving certain changes in organizational terminology, was published in the FEDERAL REGISTER on September 10, 1973, at 38 FR 24690, and it provided for the amendment of preexisting documents and issuances to reflect the new terminology in the course of normal updating and maintenance.

Pursuant to Order No. 13–73, the title of the regional head of the Labor-Management Services Administration was designated "Assistant Regional Director for Labor-Management Services". Accordingly, this document is issued to revise these rules by replacing the term "Regional Administrator" with that of "Assistant Regional Director for Labor-Management Services." In accordance with Order 13–73, preexisting documents, forms and issuances referring to "Regional Administrator" shall continue to be used until the supply is exhausted, and it shall be unnecessary to change the term "Regional Administrator" when so used.

Chapter II of Title 29, including Parts 201, 202, 203, 204, 205, and 206 (37 FR 18780, dated Sept. 15, 1972) is amended as follows:

1. Section 201.15 is amended to read as follows:

§ 201.15 Assistant Regional Director for Labor-Management Services.

"Assistant Regional Director for Labor-Management Services" means the administrator of a region of the Labor-Management Services Administration, with geographical boundaries as fixed by the Assistant Secretary.

2. The title "Regional Administrator" as used in Parts 201–206 inclusive is hereby changed to "Assistant Regional Director for Labor-Management Services."

*Effective date.*—This change shall be effective on September 21, 1973.

Signed at Washington, D.C., this 17th day of September 1973.

PAUL J. FASSER, JR.,
*Assistant Secretary of Labor*
*for Labor-Management Relations.*

## Title 40—Protection of Environment

### CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

### PART 80—REGULATION OF FUELS AND FUEL ADDITIVES

#### Controls Applicable to Motor Vehicle Manufacturers

On January 10, 1973 (38 FR 1254), EPA promulgated regulations prescribing certain labeling and gasoline filler inlet design requirements applicable to motor vehicle manufacturers. These regulations require that any motor vehicle that is equipped with an emission control device which the Administrator determines will be significantly impaired by the use of leaded gasoline (e.g., any vehicle which is certified using a catalytic converter) shall be labeled "Unleaded Gasoline Only", both on the instrument panel and adjacent to the gasoline filler inlet compartment, and that the filler inlet shall be so designed as to prevent the insertion of a gasoline pump nozzle dispensing leaded fuel. The regulations further require that when such insertion is attempted with the incorrect nozzle, the filler inlet shall be so designed as to immediately activate the automatic shut-off of that nozzle.

Several of the motor vehicle manufacturers petitioned EPA to re-examine these requirements. Specifically, EPA was asked to reconsider the unleaded fuel labeling requirements, the 0.91" diameter filler inlet restrictor requirement, and the immediate shut-off requirement.

EPA has reconsidered these requirements and has determined to take the following actions:

1. *Unleaded fuel labeling requirement.* The regulations require that a vehicle which requires the use of unleaded gasoline shall be labeled "Unleaded Gasoline Only" both on the instrument panel and in the area adjacent to but outside the gasoline filler inlet compartment. Manufacturers requested to place the label inside the filler inlet compartment. EPA concludes that in general the labeling requirements as originally promulgated are necessary to provide adequate warning to both the vehicle operator and any person introducing gasoline into such vehicle and that the printed notice is not unduly burdensome to either the vehicle manufacturer or the purchaser in terms of vehicle appearance. However, the Agency has decided to add a provision that alternative modification schemes may be approved if determined to fulfill the purposes of this requirement.

2. *0.91" diameter filler inlet restrictor requirement.* The regulations, as promulgated in January, required that unleaded fuel nozzles have outside diameters no greater than 0.85" and that leaded nozzles have outside diameters no smaller than 0.93". The regulations also required manufacturers to equip catalyst-controlled vehicles with nozzle restrictors no greater than 0.91" in inside diameter which would activate the automatic shut-off of nozzles with diameters greater than 0.84" if they are inserted in the filler inlet. Manufacturers argued that they should not be required to design against the insertion of a nozzle with a diameter between 0.84" and 0.93" since such a nozzle would be illegal. The Agency concludes that this argument is valid in that surveillance of nozzle usage in service stations will deal adequately with possible illegally sized nozzles. EPA has revised the regulations to require that the insertion of a nozzle with a diameter greater than 0.93" would be prevented and the attempted filling with such a nozzle would activate the automatic shut-off on that nozzle.

3. *Immediate shut-off requirement.* Manufacturers requested clarification as to how quickly the automatic shut-off must be activated when filling is attempted with a leaded nozzle in an unleaded fuel filler inlet. Based upon discussion with the Society of Automotive Engineers' Fuel Supply Systems Committee and data received from the petitioners, the term "immediately" in the regulation has been defined to require the design of the filler inlet to activate the automatic shut-off of a standard nozzle so as to allow a maximum of 700 cubic centimeters of fuel to be delivered into the vehicle fuel tank per attempt. The provision establishes an ascertainable standard of performance lacking in the promulgated language.

The agency finds that good cause exists for omitting as unnecessary and impracticable a notice of proposed rule making, public comment, and postponement of effective date in the issuance of these amendments, in that (1) they are designed to clarify the regulations or to make more flexible their application; (2) to the extent substantive revisions are made they are of minor regulatory impact and were recommended by the regulated parties; and (3) considerations of lead time for the 1975 model year dictate immediate promulgation.

V 3811833 SEP 21 73 XUM

Part 80, Chapter I, Title 40 of the Code of Federal Regulations is amended as follows, effective on September 21, 1973.

The provisions of this Part 80 are issued under sections 211 and 301 of the Clean Air Act, as amended (42 U.S.C. 1857f–6c and 1857g(a)).

Dated: September 12, 1973.

JOHN QUARLES,
*Acting Administrator.*

Section 80.24 of Part 80, Title 40 of the Code of Federal Regulations, is revised to read as follows:

**§ 80.24 Controls applicable to motor vehicle manufacturers.**

The manufacturer of any motor vehicle equipped with an emission control device which the Administrator has determined will be significantly impaired by the use of leaded gasoline shall:

(a) Affix two or more permanent legible labels reading "Unleaded Gasoline Only" to such vehicle at the time of its manufacture, as follows:

(1) One label shall be located on the instrument panel so as to be readily visible to the operator of the vehicle: *Provided, however,* That the required statement may be incorporated into the design of the instrument panel rather than provided on a separate label; and

(2) One label shall be located immediately adjacent to each gasoline filler tank inlet, outside of any filler inlet compartment, and shall be located so as to be readily visible to any person introducing gasoline to such filler inlet: *Provided, however,* That the Administrator may, upon application from a motor vehicle manufacturer, approve other label locations that achieve the purpose of this paragraph.

(3) Such labels shall be in the English language in block letters which shall be of a color that contrasts with their background.

(b) Manufacture such vehicle with each gasoline tank filler inlet having a restriction which prevents the insertion of a nozzle with a spout as described in § 80.22(f)(1) and allows the insertion of a nozzle with a spout as described in § 80.22(f)(2).

(1) Such filler inlet shall be designed to pass not more than 700 c.c. of gasoline into the tank when the introduction of gasoline into such filler inlet is attempted from a nozzle, as described in § 80.22(f)(1), which has a vacuum port the center of which is located within 0.87 inches of the tip and which passes less than 120 c.c. of fuel when fully and rapidly activated with the nozzle vacuum port plugged. During such attempted introduction, the terminal end of the nozzle spout shall be within the filler inlet beyond the cam surface. The nozzle may have *any* orientation within the filler inlet which may reasonably be expected to be encountered in use. The nozzle valve shall be fully and rapidly opened to a 12 ± 1 gallon/minute flow setting. This test is conducted using a test fixture which positions the filler inlet pipe in the same position as it is installed in the vehicle.

[FR Doc.73–20179 Filed 9–20–73;8:45 am]

## PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

### Parathion or its Methyl Homolog

In response to a petition (PP 3E1302) submitted by Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, NJ 08903, on behalf of the IR–4 Technical Committee and the Agricultural Experiment Station of California, a notice was published by the Environmental Protection Agency in the FEDERAL REGISTER of July 23, 1973 (38 FR 19699), proposing establishment of tolerances for residues of the insecticide parathion (*O,O*-diethyl *O*-*p*-nitrophenyl phosphorothioate) or its methyl homolog (*O,O*-dimethyl *O*-*p*-nitrophenyl phosphorothioate) in or on mustard seed and rape seed at 0.2 part per million. No comments or requests for referral to an advisory committee were received.

It is concluded that the proposal should be adopted.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), § 180.121 is amended by revising the paragraph "0.2 part per million • • •" to read as follows:

**§ 180.121 Parathion or its methyl homolog; tolerances for residues.**

• • • • •

0.2 part per million in or on mustard seed, sunflower seed, and rape seed.

• • • • •

Any person who will be adversely affected by the foregoing order may at any time on or before October 23, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets. SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

*Effective date.*—This order shall become effective on September 21, 1973.

(Sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e).)

Dated September 18, 1973.

HENRY J. KORP,
*Deputy Assistant Administrator for Pesticide Programs.*

[FR Doc.73–20180 Filed 9–20–73;8:45 am]

### SUBCHAPTER E—PESTICIDE PROGRAMS

## PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

### Benomyl

A petition (PP 2F1218) was filed by E.I. du Pont de Nemours & Co., Inc., Wilmington, DE 19898, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of a tolerance for residues of the fungicide benomyl (methyl-1-(butylcarbamoyl) - 2 - benzimidazolecarbamate) in or on the raw agricultural commodity grapes at 10 parts per million.

Subsequently, the petitioner amended the petition by proposing that the tolerance for residues of benomyl be expressed as "combined residues of benomyl and its metabolites containing the benzimidazole moiety (calculated as benomyl)" and by requesting additional tolerances for combined residues of benomyl and its metabolites containing the benzimidazole moiety (calculated as the fungicide) in poultry liver at 0.2 part per million and eggs and meat, fat and meat byproducts (except liver) of poultry at 0.1 part per million. (For a related document, see this issue of the FEDERAL REGISTER page 26447.)

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The fungicide is useful for the purpose for which the tolerances are being established.

2. There is no reasonable expectation that residues in eggs, meat, milk, or poultry will exceed the proposed tolerances and § 180.6(a)(2) applies.

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (36 FR 15623), and the authority delegated by the administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), § 180.294 is amended by revising the paragraphs "10 parts per million • • •" and "0.1 part per million • • •" and by adding the new paragraph "0.2 part per million • • •", as follows:

**§ 180.294 Benomyl; tolerances for residues.**

• • • • •

10 parts per million in or on grapes and mushrooms.

• • • • •

0.2 part per million in poultry liver.

• • • • •

0.1 part per million in milk and the meat, fat and meat byproducts of cattle, goats, hogs, horses, poultry (except liver), and sheep.

Any person who will be adversely affected by the foregoing order may at any time on or before October 23, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets, SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

*Effective date.*—This order shall become effective on September 21, 1973.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2).)

Dated September 18, 1973.

HENRY J. KORP,
*Deputy Assistant Administrator for Pesticide Programs.*

[FR Doc.73–20182 Filed 9–20–73;8:45 am]

## Title 47—Telecommunication

## CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19763; FCC 73–952]

## PART 73—RADIO BROADCAST SERVICES

### FM Broadcast Stations in Certain States

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Ripley, Miss.; Berryville, Ark.; Caro, Mich.; Mitchell, S.D.; Bolivar, Tenn.; Honea Path, S.C.; Pawhuska, Okla.; Oak Creek, Colo.; Springhill, La.; Quitman, Miss.; and Huntingburg, Ind.) RM–2066, RM–2103, RM–2110, RM–2112, RM–2123, RM–2138, RM–2141, RM–2171, RM–2173, RM–2174, RM–2178 (38 FR 20469).

1. The Commission has under consideration its Notice of Proposed Rule Making (FCC 73–607, 38 FR 15971) which was adopted June 6, 1973, and which requested interested parties to submit comments concerning the proposed changes in the FM Table of Assignments, section 73.202(b) of the Rules, on or before July 20, 1973, and to file reply comments on or before July 31, 1973. An Order extending the time for the filing of comments to August 3, 1973 and of reply comments to August 14, 1973, was granted in the case of Ripley, Mississippi. A similar Order which extended the time for filing reply comments up to and including August 8, 1973, was issued with regard to Huntingburg, Indiana. All comments and reply comments that were filed in response to the Notice were considered in making the subsequent determinations.

2. *Caro, Michigan* (RM–2110); *Bolivar, Tennessee* (RM–2123); *Pawhuska, Oklahoma* (RM–2141); *Oak Creek, Colorado* (RM–2171); *Springhill, Louisiana* (RM–2173); *Quitman, Mississippi* (RM–2174). Petitioners have requested that the Commission assign first FM channels (Class A) to these six communities. No additional changes in the FM Table of Assignments are required. The specific channel that has been proposed for each locality and the identity of the petitioner are as follows:

Channel 285A to Caro, Michigan (Tuscola Broadcasting Company).
Channel 244A to Bolivar, Tennessee (Bolivar Broadcasting Service, Inc.).
Channel 272A to Pawhuska, Oklahoma (Cherokee Broadcasting Company).
Channel 280A to Oak Creek, Colorado (Elliott Bayly).
Channel 224A to Springhill, Louisiana (Springhill Broadcasting Company).
Channel 252A to Quitman, Mississippi (Radio Station WBFN).

The populations of these communities range in size from 492 in Oak Creek, Colorado, to 6,674 in Bolivar, Tennessee.[1] With the exception of Oak Creek, which has no broadcast station, each town has only a local AM station which does not transmit at night. The assignment of a Class A FM channel would enable these communities to receive their first local nighttime service. Economic and demographic data further justifying the need of these communities for a first FM assignment was contained in the notice of proposed rulemaking and need not be repeated in this decision.

3. These changes in the FM Table of Assignments comply with the Commission's minimum mileage separation rule provided that the transmitter site in Caro, Michigan, is situated four miles east of that city and the transmitter location in Bolivar, Tennessee is 5.5 miles east of that city. Therefore, since there has been no opposition to these proposals and since the petitioners have all expressed their intent to apply for these channels, we are of the view that the requested assignments are in the public interest.

4. *Honea Path, South Carolina* (RM–2138). On February 12, 1973, Andco Broadcasting Company (Andco), the licensee of standard broadcast Station WHPB in Belton, South Carolina, petitioned the Commission to assign Channel 276A to Honea Path as its first FM assignment. Honea Path (poulation 3,707) is located in the northwest corner of the State in Anderson County (population 105,474) with approximately 3 percent of the city extending into Abbeyville County (poulation 21,112). While this community does receive broadcast service from stations in tht South Carolina towns of Anderson, Belton and Greenville, it has no locally operated broadcast stations. Andco has expressed in its supporting statements the intent to file for Channel 276A in Honea Path, provided the channel is assigned there, and to operate the station independently of its AM operation in Belton.

5. The need of Honea Path for a first FM assignment is clearly stated in the notice of proposed rulemaking and requires no further elaboration here. It is sufficient to note that the shift of Honea Path from a rural agricultural community to a more industrialized locality has been a consequential factor in our decision to assign Channel 276A to that city. However, in order that the minimum milcage separation rule not be violated, the eventual occupant of Channel 276A must build his transmitter 5 miles south of Honea Path. Subject to this stipulation we believe that the assignment of Channel 276A to Honea Path is warranted.

6. *Berryville, Arkansas* (RM–2103). KTHS, Inc. petitioned the Commission on December 4, 1972, to substitute Channel 296A for Channel 237A at Berryville. Berryville (population 2,271) is located in Carroll County (population 12,301) approximately sixty miles south of Springfield, Missouri. It has one Class A FM channel (237A) which is unoccupied and a daytime-only AM station licensed to petitioner.

7. On August 4, 1972, KTHS, Inc. had applied for authority to operate on Channel 237A at Berryville, but its application was rejected duc to the failure of its proposed transmitter site to be the required mileage separation distance of 65 miles from Station KTTS–FM in Springfield, Missouri. A subsequent search by the petitioner for a location this distance from Station KTTS–FM failed to discover a site which was for sale or, alternatively, a site which was economically feasible to develop. The petitioner adds that any of these locations were well outside Berryville's city limits and would have resulted in a signal of dubious quality to this community. In light of these circumstances, the petitioner's request to substitute Channel 296A for Channel 237A at Berryville appears to be in the public interest. The petitioner's engineering statement indicates that Channel 296A is available for use in Berryville without violating our minimum mileage separation requirement. Since petitioner has manifested his intent to apply for Channel 296A if it is assigned and since this change will allow the residents of Berryville to receive a local nighttime service, the substitution of Channel 296A for Channel 237A at Berryville is warranted.

8. *Mitchell, South Dakota* (RM–2112). Radio Station KYNT(AM) in Yankton, South Dakota, filed a petition on January 2, 1973, proposing the substitution of Channel 269A for Channel 265A at Mitchell, South Dakota. Mitchell, with a population of 13,425 persons, is located in Davison County (population 17,319),

[1] All population figures are from the 1970 U.S. Census.

V 38 I 183 SEP 21 73 XUM

about 69 miles west of Sioux Falls. The community has a Class IV AM broadcast station, and the only FM channel assigned to it, Channel 265A, is unoccupied.

9. Petitioner had previously applied on August 8, 1972, for authorization to operate on Channel 262 in Yankton, but was rejected because its proposed transmitter site would have been short-spaced to the reference point of Channel 265A at Mitchell. Since this latter channel is unoccupied, petitioner's request to substitute Channel 269A would result in the elimination of the short spacing problem, thereby allowing the utilization of Channel 262 at Yankton. Channel 269A can be placed in Mitchell without affecting any other FM assignments. For these reasons petitioner's proposal merits adoption.

10. *Ripley, Mississippi* (RM–2066). On September 28, 1972, Kerry Hill filed a petition to assign Channel 288A to Ripley, Mississippi. Ripley, with a population of 3,482 persons, is located in the north central portion of the State in Tippah County (population 15,852). It has no FM assignments and the only local broadcast service which it receives is provided by Station WCSA, a daytime-only AM station. As the notice of proposed rulemaking indicates, the assignment of FM Channel 288A to Ripley would be instrumental in presenting to the public developmental problems which currently affect the community. Petitioner has expressed his intent to apply for this channel if it is assigned. Numerous letters in support of this petition were received from interested persons in the Ripley area.

11. Comments were filed by petitioner, Kerry Hill, and J. W. Furr. Hill supports the proposed assignment of Channel 288A to Ripley. Furr contends that the assignment of Channel 288A to Ripley would be in conflict with his application for the same channel at Aberdeen, Mississippi, which was filed with the Commission on December 26, 1972. Furr states that petitioner's engineering report indicates that a station operating on Channel 288A at Ripley would have to be located in a five-square-mile area approximately six miles east of the city, in order to comply with the Commission's mileage separation requirements and still provide the required city-grade signal over the entire community of Ripley. Furr mentions that in computing the required 65-mile separation from Aberdeen, petitioner mistakenly used the geographical center of Aberdeen as the reference point. He points out that Section 73.208(b) of the Rules requires that the coordinates of Furr's proposed transmitter site be used. When this is done, there are no permissible transmitter sites available which prevents petitioner from having Channel 288A assigned to Ripley. Furr indicates in a counterproposal that Channel 272A could be assigned to Ripley in lieu of Channel 288A.

12. Petitioner in his reply comments notes that his engineering statement was submitted prior to any application for Channel 288A at Aberdeen, and, therefore, could not be expected to consider Furr's proposed antenna site. He does agree, though, that the grant of Furr's application would preclude the use of Channel 288A in Ripley. Petitioner requests that Furr's counterproposal assigning Channel 272A to Ripley be adopted.

13. The assignment of Channel 272A to Ripley would not violate the Commission's mileage separation rule nor result in any additional changes in the FM Table of Assignments provided that the transmitter site is six miles east of the city. In accord with previous decisions, specific notice of the counterproposal to assign Channel 272A to Ripley is not required before it can be adopted. See, e.g., Owensboro on the Air, Inc. v. U.S. 262 F. 2d 702 (D.C. Cir. 1958). Therefore, since the counterproposal would allow this community to have its first FM service, we believe that the assignment of Channel 272A to Ripley, Mississippi, is warranted.

14. *Huntingburg, Indiana* (RM–2178). On April 10, 1973, Paul Knies petitioned to have Channel 265A assigned to Huntingburg, Indiana. This city has a population of 4,794 persons and is located in Dubois County (population 30,934), 67 miles west of Louisville, Kentucky. Petitioner's proposal is in conformity with the Commission's minimum mileage separation rule and does not require any changes in the FM Table of Assignments, provided the transmitter site is three miles north of Huntingburg. Presently, Huntingburg has no local broadcast facilities and petitioner notes that the county has only one daytime AM station an its affiliated FM station. Petitioner has expressed his intent to apply for Channel 265A if it is assigned to Huntingburg.

15. Comments and reply comments were filed by petitioner Paul Knies and Jasper on the Air, Inc., the licensee of WITZ and WITZ–FM in Jasper, Indiana. Jasper on the Air notes that since the communities of Huntingburg and Jasper are in the same county and only five miles apart, on March 28, 1972, it was granted authorization for dual city identification pursuant to § 73.1201(b) of the rules. Jasper on the Air further states that while Jasper is the principal city in terms of its public service obligations, WITZ and WITZ–FM have provided ample local service to Huntingburg. This claim of sufficient service, however, does not follow automatically just because Jasper on the Air has been granted dual city identification. The numerous letters from interested parties in the Huntingburg area present strong evidence that the needs of this community are not being adequately served and that it could use its own local broadcast station. The Mayor, the Chamber of Commerce and the editor of the weekly newspaper, have all stressed the fact that a local radio station, whose primary concern is Huntingburg, would be of substantial benefit. Further, petitioner believes that ample service is not being provided to Huntingburg because WITZ–FM, which is the only nighttime voice in the county, operates only 16 hours a day with up to 14 hours per day of its programming duplicated from daytime-only AM Station WITZ.

16. Jasper on the Air also challenges a claim in support of petitioner's request which was advanced by Thomas Brumett, the Supertintendent of North Spencer County School Corp. and which stated that a station operating at Huntingburg on Channel 265A could furnish 1 mV/m service to eight communities in adjacent Spencer County. Mr. Brumett's contention was without the benefit of engineering advice and Jasper on the Air is correct in noting that a 1 mV/m contour would not extend to half of these communities. However, the principal reason for assigning Channel 265A to Huntingburg is not to serve the eight communities in Spencer County, but to provide Huntingburg with local FM service. Jasper on the Air's last objection involves a counterproposal, advanced in its reply comments, which would assign Channel 265A to communities other than Huntingburg. In our notice of proposed rulemaking we stated that counter proposals advanced in the proceeding itself would be considered if they were included in the comments, so that parties may treat them in their reply comments. Since Jasper on the Air made its counterproposal in its reply comments, we shall not consider it.

17. Petitioner's proposal has the distinct advantage of not only providing Huntingburg with its first local FM channel assignment, but also of creating a competitive broadcast voice in Dubois County. Based on the evidence submitted by petitioner we believe that Huntingburg can maintain an FM station. As petitioner indicates, the estimated retail sales in 1970 for the county were $69,681,000. He also states that there are twenty industrial establishments in the city, along with over 100 places of business. In view of the need for local FM service and the lack of any substantial objection to this proposal, we conclude that it is in the public interest to assign Channel 265A to Huntingburg.

18. Authority for the adoption of the amendments contained herein appears in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

19. In view of the foregoing, *it is ordered*, That effective October 26, 1973, section 73.202(b) of the Commission's rules, the FM Table of Assignments, is amended to read as follows for the communities indicated:

| City: | Channel No. |
|---|---|
| Berryville, Ark | 296A |
| Oak Creek, Colo | 280A |
| Huntingburg, Ind | 265A |
| Springhill, La | 224A |
| Caro, Mich | 285A |
| Quitman, Miss | 252A |
| Ripley, Miss | 272A |
| Pawhuska, Okla | 272A |
| Honea Path, S.C | 276A |
| Mitchell, S. Dak | 269A |
| Bolivar, Tenn | 244A |

20. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307.)

Adopted September 11, 1973.

Released September 17, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc.73–20156 Filed 9–20–73;8:45 am]

[Docket No. 19740; FCC 73–946]

## PART 73—RADIO BROADCAST SERVICES

### FM Broadcast Stations in Kentucky

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Elkhorn City, Hindman, Jenkins and Neon, Kentucky), RM–1914, RM–2091, (38 FR 13387).

1. The Commission has before it the Notice of Proposed Rule Making in this proceeding (FCC 73–495), adopted May 9, 1973, and responsive comments filed by Knott County Broadcasting Corporation (Knott) and by Allen Epling.

2. Knott and Epling had each filed a petition for rulemaking seeking a first FM assignment in Hindman and Elkhorn City, Kentucky, respectively. Each proposed the assignment of Channel 296A and the substitution of Channel 232A for the unoccupied Channel 296A assignment at Neon, Kentucky. Because the communities are closer to one another than our spacing requirements would allow, it would not have been possible to accommodate both requests. Commission study indicated that it would be possible to avoid this conflict and to assign Class A channels to Hindman and to Elkhorn City without depriving any other community of a current assignment. Under this approach, set forth in the Notice, Elkhorn City could have Channel 276A and Hindman could have Channel 296A, provided Channel 232A [1] were substituted for Channel 276A at Jenkins, Kentucky, and Channel 261A were substituted for Channel 296A at Neon, Kentucky. None of these proposed changes would affect any existing operation. The only comments filed were those of the petitioners, and each supported the Notice as it related to its own proposal.

3. This case does not involve conflicts of any sort to be resolved and so does not require extended discussion. Although they have become involved in this proceeding, the communities of Neon and Jenkins would suffer no injury, as each would continue to have a single Class A assignment available for use. Even as to other communities not directly involved, our study of the pattern of assignments suggests that the proposed alteration of the FM Table would not work to deprive such communities of otherwise possible assignments. Since this is the case and since we do not have to choose between conflicting proposals, the question is simply one of the need for the requested assignments.

4. At some length the petitioners have set forth the facts which lead them to believe that a first FM assignment is required in order to meet important local needs. Although neither community is particularly large, each functions as a trade center for a significant number of persons. Thus, even though Hindman has only 808 residents, it is the seat of Knott County and currently supports a daytime-only AM station, licensed to Knott. In fact, Hindman is the only incorporated community in the county, and the proposed assignment would bring the county's first full-time radio service. Elkhorn City is somewhat larger (population 1,081), but it has no local station at all. Since both areas are to some degree isolated and lack nearby full-time radio service, the proposed assignments could bring important area benefits in addition to providing first FM assignments in the communities. In our view, this situation provides ample reason for making the proposed assignments.

5. Accordingly, *It is ordered*, That effective October 26, 1973, the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) is amended to read as follows for the communities indicated:

| City: | Channel No. |
|---|---|
| Elkhorn City, Ky | 276A |
| Hindman, Ky | 296A |
| Jenkins, Ky | 232A |
| Neon, Ky | 261A |

6. Authority for the actions taken herein is contained in sections 4(i), 303 and 307(b) of the Communications Act of 1934, as amended.

7. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 307.)

Adopted September 11, 1973.

Released September 14, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc.73–20149 Filed 9–20–73;8:45 am]

[1] Antenna site at Jenkins, Kentucky, must be located at least 2 miles west of the community.

# Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 905 ]

### ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

### Limitation of Handling

These proposals would extend the current grade and size limitations for the period October 15, 1973, through September 29, 1974, applicable to oranges (but not including the current grade requirement on shipments of Valencia, Lue Gim Gong, and similar late maturing oranges of the Valencia type), grapefruit, tangerines, and tangelos handled between the production area in Florida and any point outside thereof. The proposed limitations applicable to the specified varieties of oranges (including the proposed minimum grade requirement applicable to shipments of Valencia, Lue Gim Gong, and similar late maturing oranges of the Valencia type), grapefruit, tangerines, and tangelos are designed to promote orderly marketing and provide consumers with an ample supply of acceptable quality fruit.

Notice is hereby given that the Department is considering proposed amendments, as hereinafter set forth, pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The amendments were proposed by the Growers Administrative Committee established under said amended marketing agreement and order, as the agency to administer the terms and provisions thereof.

The proposed amendments reflect the Department's appraisal of the need for regulation of shipments of the specified varieties of oranges, grapefruit, tangerines, and tangelos during the period October 15, 1973, through September 29, 1974, based on the available supply and current and prospective market conditions. The amendments are designed to continue shipment of ample supplies of fruit of the better grades and more desirable sizes in the interest of both growers and consumers. The proposed action is designed to maintain orderly marketing conditions by preventing the demoralizing effect on the market caused by shipment of lower quality and smaller size fruit when more than ample supplies of the more desirable grades and sizes are available to serve consumer's needs. The proposed amendments are consistent with the objective of the act of promoting orderly marketing and protecting the interest of consumers.

The regulatory proposals are as follows:

*Order.* 1. In § 905.550 (Orange Regulation 72; 38 FR 25665) the provisions of paragraph (b) preceding subparagraph (1) thereof and subparagraph (9) are amended to read as follows:

**§ 905.550 Orange Regulation 72.**

* * * * * *

(b) During the period October 15, 1973, through September 29, 1974, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

* * * * * *

(9) Any Valencia, Lue Gim Gong, and similar late maturing oranges of the Valencia type, grown in the production area, which do not grade at least U.S. No. 1; and

* * * * * *

2. In § 905.551 (Grapefruit Regulation 74; 38 FR 25665) the provisions of paragraph (b) preceding subparagraph (1) thereof are amended to read as follows:

**§ 905.551 Grapefruit Regulation 74.**

* * * * * *

(b) During the period October 15, 1973, through September 29, 1974, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

* * * * * *

3. In § 905.552 (Tangerine Regulation 45; 38 FR 25665) the provisions of paragraph (b) preceding subparagraph (1) thereof are amended to read as follows:

**§ 905.552 Tangerine Regulation 45.**

* * * * * *

(b) During the period October 15, 1973, through September 29, 1974, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

* * * * * *

4. In § 905.553 (Tangelo Regulation 45; 38 FR 25665) the provisions of paragraph (b) preceding subparagraph (1) thereof are amended to read as follows:

**§ 905.553 Tangelo Regulation 45.**

* * * * * *

(b) During the period October 15, 1973, through September 29, 1974, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

* * * * * *

5. In § 905.554 (Export Regulation 23; 38 FR 25665) the provisions of paragraph (b) preceding subparagraph (1) thereof and subparagraph (9) are amended to read as follows:

**§ 905.554 Export Regulation 23.**

* * * * * *

(b) During the period October 15, 1973, through September 29, 1974, no handler shall ship to any destination outside the continental United States other than to Canada or Mexico:

* * * * * *

(9) Any Valencia, Lue Gim Gong, and similar late maturing oranges of the Valencia type, grown in the production area, which do not grade at least U.S. No. 1;

* * * * * *

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112A, Washington, D.C. 20250, not later than October 2, 1973. All written submission made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated September 18, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[FR Doc.73-20175 Filed 9-20-73;8:45 am]

## Animal and Plant Health Inspection Service

### [ 9 CFR Part 381 ]

### AIRSACCULITIS

### Proposed Inspection Regulations

Pursuant to the authority in the Poultry Products Inspection Act (71 Stat. 441 as amended; 21 U.S.C. 451 et seq.), the Animal and Plant Health Inspection Service is proposing an amendment to Part 381, Subpart K, of the poultry products inspection regulations to clarify present criteria for condemning birds affected with airsacculitis.

*Statement of considerations.* Preventing adulteration of the poultry supply is a principal function of the Animal and Plant Health Inspection Service of the Department of Agriculture. It is the intent of Congress that when poultry or poultry products are condemned because of disease, such condemnation shall be achieved through uniform application of inspection standards.

Airsacculitis is a condition of poultry that renders the poultry adulterated, in whole or in part, requiring condemnation of the entire carcass or those affected parts. Achieving uniformity of application requires that the standards for condemnation be delineated in the regulations. Therefore, the Animal and Plant Health Inspection Service proposes to amend the poultry products inspection regulations to provide a new section concerning airsacculitis. Part 381 would be amended as set forth below:

At the beginning of the part, the table of contents, Subpart K, would be amended by adding a heading for § 381.84, and a new § 381.84 would be added to read as follows:

**§ 381.84 Airsacculitis.**

Carcasses of poultry with evidence of extensive involvement of the air sacs with airsacculitis or those showing airsacculitis along with systemic changes shall be condemned. Less affected carcasses may be passed for food after complete removal and condemnation of all affected tissues including the exudate.

* * * * * *

Any person wishing to submit written data, views, or arguments concerning the proposed amendment may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by November 30, 1973.

Any person desiring opportunity for oral presentation of views should address such requests to the Inspection Standards and Regulations Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the Staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on September 14, 1973.

F. J. MULHERN,
*Administrator, Animal and Plant Health Inspection Service.*

[FR Doc.73-20172 Filed 9-20-73;8:45 am]

### [ 9 CFR Part 381 ]

### FEDERALLY INSPECTED POULTRY PRODUCTS

### Labeling and Official Marks of Inspection

Pursuant to the authority in the Poultry Products Inspection Act (21 U.S.C. 451 et seq.), the Animal and Plant Health Inspection Service is considering amending the poultry products inspection regulations (9 CFR 381.1, 381.130, 381.131, 381.132, 381.133, 381.134, 381.135, 381.142, 381.175, and 381.205).

The proposal is intended to establish procedures for the approval of labeling, marking devices, and containers for use with poultry products; provide criteria for manufacturers to print labels or other devices bearing the marks of inspection; permit inspectors to approve certain modifications of labels previously approved; and establish equitable procedures for processing label approval applications in the Washington office.

*Statement of considerations.* Preventing the distribution of misbranded and improperly packaged poultry products is one of the principal objectives of the Poultry Products Inspection Act. The Act requires that poultry products prepared at federally inspected establishments or distributed in commerce bear marking or labeling which has been approved by the Secretary. Many years ago, the Secretary promulgated regulations to accomplish that responsibility. However, those regulations are in general terms and it appears desirable that they should be modified to clarify the requirements concerning approval of labeling, marking devices, and containers and to provide additional information concerning procedures for submitting such articles to the Department's Meat and Poultry Inspection Program for approval.

During the past few years the poultry industry has been rapidly expanding, not only in numbers of plants and volume of production, but in greater diversification of the types of products processed and marketed. This expansion in the production of new poultry products has required the Department to establish standards and develop new marking and labeling requirements. Many of those requirements have not been clearly understood by many plant owners and operators. This has made it more difficult for them to prepare new labeling material and to follow appropriate procedures in submitting it to the Department for approval. Another development is that for the past few years there has been a large increase in the number of personal visits to the Department's Washington office by plant officials and representatives. This has made it difficult for the Department to maintain a proper balance between the service rendered to those personal visitors and those making application by mail. At one time, applications for labeling approval submitted by mail were not being processed as rapidly as those brought to the Department personally or by a representative. This was an unjust arrangement for plant owners and operators desiring to use mail service. Some minor organizational and procedural changes were made to alleviate this inequity.

Due to the increased workload, and in order to establish clearly understandable procedures and requirements, other changes are necessary so the Department can improve its labeling approval service. This proposal sets forth proposed procedures and requirements for submitting labeling applications which could aid the Department's efforts to formalize this matter so an equitable, expeditious service can be rendered to those seeking labeling approval.

This proposal also contains a provision to formalize the procedure for granting approval to manufacture marking and labeling devices. The Act and regulations promulgated thereunder prohibit casting, printing, lithographing, or otherwise making any device containing the official mark of inspection or any label bearing such mark without approval by the Administrator. At this time, there is no official procedure for delegating such authority. This proposal would rectify that matter. Establishing a formal procedure would be advantageous to manufacturers and suppliers of marking and labeling devices since it would eliminate the possibility of misunderstanding.

The specific proposed amendments to the regulations are as follows:

1. Section 381.131 and the title thereof would be revised to read as follows:

**§ 381.131 Prior approval required for certain labeling and marking devices; conditions and procedure.**

(a)(1) No labeling or device bearing an official mark as provided for in Subpart M of this subchapter, or simulation thereof, shall be used until it has been approved in finished form, as provided in this section. This requirement does not, however, apply to labeling used on the outside of an immediate or shipping container and approved in accordance with § 381.134(b) of this subchapter.

(2) No labeling or device bearing an official mark, or simulation thereof, shall be made or caused to be made in finished form until it has been approved in sketch form, as provided in this section; except that such prior approval of a sketch will not be required when finished labeling is submitted initially: *Provided, however,* That no more than 100 prints of the

V 38-183
SEP 21 73
XUM

labeling may be prepared in finished form without sketch approval and such prints shall be marked "Proof" before being removed from the printing establishment or printing facility.

(3) Inserts, tags, liners, pasters, and similar articles containing printed or graphic matter for use on, or to be placed within, containers or coverings for product shall be submitted for approval in the same manner as provided for in subparagraph (2) of this paragraph. Inspectors in charge may, however, permit use of such devices which bear no reference to any product and which are not false or misleading in any particular, even though not so submitted.

(b) Requests for approval required under paragraph (a) of this section shall be made on Form MP-480, Application for Approval of Labels, Marking or Device,[1] in accordance with the procedures prescribed in this section. To request approval, the applicant (or his agent) shall submit sketches or proofs of the labeling or device, as described in paragraph (a) of this section. Copies of these sketches or proofs shall be attached to Form MP-480 completed as prescribed in paragraph (d) of this section. Applications shall be mailed to: Labels and Packaging Staff, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Post Office Box 7416, Benjamin Franklin Station, Washington, D.C. 20044, or delivered to the office of said Staff, U.S. Department of Agriculture, Washington, D.C. Applications will be processed in accordance with the following procedures:

(1) Applications received by mail will be stamped with the date of receipt and will be processed in the daily order in which they are received.

(2) Applications delivered to the office of said Staff by the applicant (or his agent) shall be handled as follows:

(i) The application shall be left with the receptionist who will stamp thereon the date of receipt, which will be used to determine priority of processing applications as provided in subparagraph (b)(1); and instructions shall also be left with the receptionist identifying the person to be notified of the final action and the method of notification desired; or

(ii) The applicant (or his agent) may schedule a conference with the label review office for the purpose of presenting applications in person. Such conferences will be scheduled, based on available time, Monday through Friday. Every effort will be made to schedule conferences to meet the desires of the applicant. However, availability of label review personnel for such conferences will be dependent upon the processing of all applications on an equitable time basis, regardless of the mode of receipt. These procedures for scheduling conferences only apply to routine applications. Conferences to discuss principles of labeling or special problems will be by appointment during regular working hours Monday through Friday.

Information supplied under this section will be treated as confidential insofar as authorized under the provisions of 5 U.S.C. 552, 18 U.S.C. 1905, §§ 9(a)(5) and 22 of the Act, and 15 U.S.C. 50, and the public information regulations of the Department of Agriculture (7 CFR 1.1 et seq. and supplementary regulations). All information requested must be given either in the space provided on Form MP-480 or by attaching additional sheets as necessary.

(c) The sketch for labeling or a device shall be an accurate representation of the labeling or device as it will appear in finished form. To be considered for approval, the sketch shall:

(1) Show all of the features required by Subparts M and N of this subchapter.

(2) Represent by rough drawings, printing, or other means, the exact information to be shown, the approximate location thereof, and size of type to be used. When a comprehensive sketch of a true color reproduction of the finished labeling or device with complete details is submitted, it will be eligible for final approval under the conditions stated in paragraph (e) of this section.

(3) Indicate transparent or semi-transparent colored coverings.

(4) Present pictorials, if used, in color photographs, color transparencies or color prints.

(5) Indicate, if proposed for multiplant operations, the official establishment numbers of the plants at which the final labels will be used.

(6) Show each applicable ingredient statement and formula for which the labeling format will be used.

(d) Form MP-480 shall be completed in its entirety in accordance with the instructions provided on the reverse side of the form and shall conform with the following provisions:

(1) Entries shown under the item—"Fill Specifications" shall specify the quantity of each component of the product, either by weight or percentage, if the product consists of two or more major distinct components such as "turkey and gravy," "frozen dinner," etc. The space shall not be used for such products as stews, soup, patties, etc.

(2) Entries shown under the item—"Formula Breakdown of Each Major Component" shall specify a formula, listing the ingredients and quantity, either by weight or percentage, of each ingredient used in the preparation of each component making up the product. In cases where the percentages of ingredients may vary, approximate percentages may be given if the limits of variations are stated. When a complex ingredient (such as a breading or seasoning mixture), for which there is no Food and Drug Administration standard of identity, is shown in a formula, the formula shall be further explained by listing the common name of each ingredient therein. The quantity need not be shown for each ingredient in gravy bases, gravy mixes, seasoning mixes, and relishes. The space shall not be used for products that do not have distinctly separate components such as stews, soup, patties, etc.

(3) The space provided for "Complete Formula" shall be used to show the complete formula of the product and to specify the quantity of each ingredient used to prepare the product, either by weight or percentage, in descending order of predominance, when required in the specific case by the Administrator.

(4) "Processing Procedures" shall describe those processing procedures (fabricating, cooking, smoking, curing, canning, etc.) that may significantly affect the physical properties or condition of the product, or both. Description of the establishment control methods exercised with respect to the processing procedures shall be provided when it is required in the specific case by the Administrator to enable determination whether the product complies with statements on the labeling.

(e)(1) Finished labeling shall not be printed prior to obtaining sketch approval except as provided for in paragraph (a)(2) of this section. In any case, if finished labeling is printed prior to sketch approval, the applicant shall assume full responsibility and risk for the labeling which may be disapproved for use in accordance with the regulations in this Part.

(2) Finished labeling submitted for approval shall be accompanied by a copy of the approved sketch or make reference to the approved sketch, if a sketch has been approved, or other approval; or comply with the requirements of this section with respect to submission of sketches for approval: *Provided*, That,

(i) Finished labeling intended for use at more than one official establishment shall be submitted in sufficient copies to provide two copies for each official establishment designated on the application;

(ii) Lithographed labels, metal containers or sections therefrom shall not be submitted for approval. Paper takeoffs can be used to represent lithographed labels submitted for approval. Such paper takeoffs shall not be in the form of a negative but shall be a complete reproduction of the label as it will appear on the package, including any color scheme involved; and

(iii) For fiber containers, the printed layers such as kraft paper sheet, showing the entire label shall be submitted for approval in lieu of the complete container.

(f) At an official establishment, application for approval of a device or a sketch of any labeling or device, proof of any labeling, or any finished labeling completed in accordance with this section, may be submitted by the applicant to the inspector in charge. Applications may also be submitted to Washington, D.C., as hereinafter provided.

(1) If such material is submitted to the inspector in charge, he shall initially review the material as follows:

[1] Copies of this form may be obtained from any Meat and Poultry Inspection Program office or from the Administrator.

(i) If he determines that the device, sketch of labeling or device, proof of labeling, or finished labeling and the formulation of the product on which the labeling is to be used are in accordance with the applicable provisions of §§ 381.96 or 381.97, 381.117 through 381.122, 381.125, 381.147(f)(3), and 381.155 through 381.170 of this subchapter, he shall sign the application in the space provided therefor, and submit an imprint of the device, the sketch of labeling or device, proof of labeling, or finished labeling and the formulation to the Labels and Packaging Staff for review to determine whether the proposed labeling or device complies with all the applicable provisions of this subchapter, and approval or disapproval accordingly.

(ii) If the inspector in charge determines that the device, sketch, proof, or finished labeling or the formulation of the product on which the labeling or the device is to be used is not in accordance with the regulations cited in subparagraph (1)(i) of this paragraph, he shall notify the applicant and request that the labeling or device be revised or the product formulation be changed in accordance with the applicable regulations: *Provided*, That, if the applicant does not agree with the inspector in charge's determination, the inspector in charge shall complete Form MP-442, "Checklist for Accuracy of Labels," identifying nonconforming features of the device, sketch, proof, finished labeling, or product formulation. The completed Form MP-442, signed by the inspector in charge, shall be submitted with the application and the imprint of the device, sketch, proof, or finished labeling to the Washington, D.C., office of the Labels and Packaging Staff for review and decision.

(2) If the Washington office of the Labels and Packaging Staff concurs with the inspector in charge's determinations, the application will be returned to the applicant without further action. If, however, said office does not agree with the inspector in charge's determinations, the application will be further processed in the usual manner for a determination whether the proposed labeling or device complies with all the applicable provisions of this subchapter, and approval or disapproval accordingly.

(3) The operator of an official establishment may submit applications for approval of a device, sketch of labeling or device, proof of labeling or finished labeling to the Washington office of the Labels and Packaging Staff for review If said office determines that the device, sketch, proof, or finished labeling or the formulation of the product on which the labeling or device is to be used is not in accordance with the regulations cited in paragraph (f)(1)(i) of this section, the application will be returned to the applicant with an appropriate explanation of why the material submitted appears not to be in accordance with the regulations. Otherwise, it will be processed in the usual manner for a determination whether the proposed labeling or device complies with all the applicable provisions of this subchapter and approval or disapproval accordingly.

(4) Applications for approval of a device, a sketch of labeling or device, proof of labeling, or finished labeling will be reviewed and processed by the Washington, D.C., office of the Labels and Packaging Staff in the order received by that office. If an application is returned to the applicant because the sketch, proof, or finished labeling or product formulation does not comply with the regulations cited in paragraph (f)(1)(i) of this section, and an application is resubmitted therefor, it will be handled as a new application in accordance with this section.

(g) A sample of the product for which labeling approval is being sought may be required to be furnished by the applicant to the Washington, D.C., office of the Labels and Packaging Staff to determine the acceptability of the proposed labeling.

(h) Two copies of the approved sketch shall be mailed to the inspector in charge of the official establishment concerned, and, if requested, a copy of the approved sketch may be given to the applicant or his agent. Copies of approved sketches for multiplant operations may be sent to the applicant under appropriate procedures approved by the Administrator.

(i)(1) All applications for approval of labeling or devices intended for use on or with products to be imported into the United States shall comply with all requirements of this section, except that the applications shall be presented directly to the Labels and Packaging Staff, Meat and Poultry Inspection Program, Post Office Box 7416, Benjamin Franklin Station, Washington, D.C. 20044.

(2) After receiving an approved sketch, the applicant shall submit the finished labeling or device in the same manner as required for sketches, except that a minimum of four copies of the finished labeling or device plus one for each foreign plant producing the product involved and one for each port of entry where the product will be offered for importation into the United States shall be furnished. Each port of entry and each foreign producing plant shall be listed in the application.

(3) The import inspector shall not allow entry of the product proposed for importation into the United States until he receives an approved copy of the finished labeling or device.

(j) Copies of the approved application for labeling or devices pertaining to domestic product shall be mailed to the inspector in charge of the official establishment concerned, and he shall deliver a copy to the applicant. When an applicant desires wider than usual distribution of approved copies, he shall provide extra copies of the application, along with mailing or other distribution instructions. Approved applications for foreign product shall be returned to the applicant. Copies shall be sent to the inspector of the foreign plant where the product is to be prepared. Each labeling or device made or caused to be made by the applicant for approval of such labeling or device, shall conform to the approved sketch or proof.

(k) The Administrator may approve and authorize the use of abbreviations for marks of inspection under the regulations in this subchapter. Such authorized abbreviations shall have the same force and effect as the marks themselves.

(l) Any action taken by any inspector in charge or any other employee of the Inspection Service under this subchapter with respect to any application for approval of any labeling or device may be appealed to the immediate supervisor of such employee by the applicant. An order under section 8(d) of the Act to withhold any marking, labeling or container from use may be issued only by the Administrator in accordance with § 381.130 of this part.

**§ 381.130 [Amended]**

2. Section 381.130 would be amended by adding a sentence to the end of that section to read: "For the purpose of this section, the Administrator shall not mean his delegate."

**§ 381.1 [Amended]**

3. Section 381.1(b)(3) would be amended by adding the following phrase to the end of the sentence: "unless otherwise specified."

4. Section 381.132 and the title thereof would be revised to read as follows:

**§ 381.132 Authorization required to make labeling or other devices bearing official marks.**

(a) No person shall cast, print, lithograph, or otherwise make or cause to be made any labeling or device bearing any official mark, or simulation thereof, except as authorized by the Administrator as provided for in this section and in § 381.131 of this subchapter.

(b) Receipt of an approved sketch or proof for a labeling or device bearing the official mark as provided for in § 381.131 of this subchapter, shall be deemed sufficient authorization by the Administrator to make or cause to be made such labeling or device in accordance with the provisions of this section.

(c)(1) The operator of the official establishment, prior to making or causing to be made, labeling or devices in accordance with the approved sketch bearing the official mark shall make and deliver to the manufacturer a certificate in the following form:

(Firm's letterhead)

I hereby certify that this establishment (insert establishment number) has been duly authorized by the Secretary of Agriculture, to make or cause to be made the following labeling or device bearing the official mark of inspection, and I do hereby authorize (Name and Address of Manufacturer) to

V 381183 SEP 21 73 XUM

make said labeling or device as indicated below:

Type of labeling or device
Final approval number (when applicable)
Date of sketch or final approval
Brand name
Product name
Quantity (units) to be manufactured
Deliver to: Name and address----------
Signed ----------
Title ----------
Date ----------

(2) The certificate required by paragraph (c)(1) of this section shall be prepared in triplicate and distributed as follows:

(i) The original certificate and a copy of the approved labeling or device and the order to manufacture shall be delivered to the manufacturer.

(ii) One copy of the certificate shall be delivered to the inspector in charge of the official establishment to be filed by him in the official program file in the establishment.

(3) One copy of the certificate, a copy of the approved labeling or device, a copy of the order to manufacture and a record of the quantity received and disposition made of the labeling or device, shall be maintained by the operator of the official establishment as provided for in Subpart Q of this subchapter.

(d)(1) Each manufacturer who shall cast, print, lithograph, or otherwise make or cause to be made, any labeling or device bearing any official mark or simulation thereof shall maintain, as provided in Subpart Q of this subchapter, the documents prescribed in paragraph (c)(2)(i) of this section along with records to show the quantity of such labeling or device so made and the disposition made of such articles by the manufacturer. The manufacturer shall afford to any authorized representative of the Secretary, upon his request, an opportunity to inspect and copy such documents and records during regular hours of business.

(2) No manufacturer shall deliver any such labeling or device to any person who was not authorized, as provided in this section, to receive such articles.

5. Section 381.133 would be amended by revoking paragraph (a) in its entirety; deleting the paragraph designation "(b)" with the provisions of that paragraph becoming the text of the amended § 381.133; and changing the section heading as follows: § 381.133 *Requirements of analysis.*

6. A new § 381.142 would be added to Subpart N as follows:

**§ 381.142 Containers.**

Containers for any product shall not result in the adulteration or misbranding of the product. Containers shall not be composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health under conditions of use. Containers shall adequately protect products and shall not be deceptive. Container composition shall comply with section 409 of the Federal Food, Drug, and Cosmetic Act, as amended, and the implementing regulations in 21 CFR 121, Subparts B, E, and F.

7. Section 381.134 would be amended by revising paragraph (b) to read as follows:

**§ 381.134 Label approvals by the inspector in charge.**

• • • • •

(b) Stencils, labels, box dies, and brands may be used on shipping containers which contain properly labeled immediate containers or immediate containers which contain properly marked poultry products, such as tierces, barrels, drums, boxes, crates, and large-size berboard containers, without approval as provided for in § 381.131 of this part. *Provided,* That the stencils, labels, box dies, and brands are not false or misleading and are approved by the inspector in charge. The official inspection legend for use in combination with such devices shall be approved by the Administrator as provided for in this part.

• • • • •

8. Section 381.135 and the title thereof would be revised to read:

**§ 381.135 Inspector in charge may permit modifications of approved labelings or markings.**

(a) The inspector in charge may permit modifications of approved labeling or marking under any of the following circumstances, provided the labeling or marking, as modified, is so used as not to be false or misleading.

(1) When all features of the labeling or marking are proportionately enlarged and the color scheme remains the same;

(2) When abbreviations are substituted for words, such as "lb." for "pound," or "oz." for "ounce," or words are substituted for abbreviations such as "pound" for "lb.";

(3) When the name and address of the distributor are included in the blank space following the words "prepared for" or a similar statement, on a master or stock label which was approved with the understanding that such information would be added later;

(4) When, during any holiday season, special designs or wrappers are used with approved labelings or markings on a label;

(5) When there is a slight change in the directions pertaining to opening a can or serving the product;

(6) When the appropriate name or class of the poultry is added to a master or stock label which was approved without this information appearing on the label;

(7) When there is a change in the quantity of an ingredient shown in the formula without a change in the order of predominance shown in the ingredients statement on the label: *Provided,* That the change in the quantity of ingredients complies with any minimum or maximum limits for the use of such ingredients prescribed in Subparts O and P of this part, or identified in the original approved application as a condition for approval of the product name.

(b) Request for such permission shall be made to the inspector in charge, prior to printing the modified labeling, on Form MP-480, as specified in § 381.131, except that in lieu of a sketch sufficient copies of the previously approved labeling may be modified to indicate the change(s) and the information on Form MP-480 may be limited to the modification requested.

(c) The inspector in charge shall review the application for permission for use of a modified labeling, and, if appropriate, indicate approval by signing his name in the appropriate space on Form MP-480.

(d) Prior to use, three copies of the modified finished labeling shall be submitted to the inspector in charge on Form MP-480 for his approval. If approved, the inspector in charge will indicate approval by signing his name on Form MP-480 in the appropriate space and distribute copies as follows:

(1) one copy to the establishment operator,

(2) one copy to the inspector at the establishment, for filing along with the original approval, and

(3) one copy to the Labels and Packaging Staff, Meat and Poultry Inspection Program, for review and filing.

(e) If the inspector in charge determines that the modification does not comply with the regulations, and the applicant disagrees, the application for modification must be submitted to the Labels and Packaging Staff for review and decision.

8. Section 381.175 would be amended by adding a new paragraph (d)—a paragraph (c) is proposed in another document to be published separately—to read as follows:

**§ 381.175 Records required to be kept.**

• • • • •

(d) The operator of each official establishment and the manufacturer of any labeling or device bearing any official inspection mark shall also maintain the records required by § 381.132 of this subchapter.

9. Section 381.205(c) would be amended as follows:

**§ 381.205 Labeling of immediate containers of imported poultry products.**

• • • • •

(c) Labeling for immediate containers of imported poultry products shall be submitted for approval to the Labels and Packaging Staff, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, and approved as provided in Subpart N of this Part, before products bearing such labeling will be admitted into the United States.

• • • • •

8. The table of contents to Subpart N—Labeling and Containers would be amended to reflect new headings for §§ 381.131, 381.132, 381.133, and 381.135, and to add the new § 381.142 with its heading, as follows:

Sec.
381.131 Prior approval required for certain labeling and marking devices; conditions and procedures.
381.132 Authorization required to make labeling or other devices bearing official marks.
381.133 Requirements of analysis.
381.135 Inspector in charge may permit modifications of approved labelings or markings.
381.142 Containers.

• • • • •

Any person wishing to submit written data, views, or arguments concerning the proposed amendments may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by November 30, 1973.

Any person desiring opportunity for oral presentation of views should address such requests to the Labels and Packaging Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Servire, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the Staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on September 17, 1973.

F. J. MULHERN,
*Administrator, Animal and Plant Health Inspection Service.*

## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

**[ 29 CFR Part 1910 ]**

[S-73-9]

### ANHYDROUS AMMONIA

### Storage and Handling

Pursuant to section 6(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593; 29 U.S.C. 655), Secretary of Labor's Order No. 12-71 (36 FR 8754), and 29 CFR Part 1911, it is hereby proposed to amend Part 1910 of Title 29, Code of Federal Regulations, as set forth herein.

Paragraph (a)(3) of § 1910.267 applies paragraphs (a) and (b) of § 1910.111, concerning the storage and handling of anhydrous ammonia, to agricultural operations. Since paragraphs (g) and (h) of this section refer specifically to systems mounted on farm vehicles, and since paragraphs (c) through (f) could also conceivably apply, it is proposed to amend paragraph (a)(3) of § 1910.267 by deleting the reference to "(a) and (b)", so that the entire anhydrous ammonia standard will be made applicable to agricultural operations.

Written data, views, and arguments concerning the proposal may be mailed to the Office of Standards, Occupational Safety and Health Administration, U.S. Department of Labor, Room 504, 400 First Street NW., Washington, D.C. 20210. All written submissions received before October 22, 1973, will be considered. The data, views, and arguments will be available for public inspection and copying at the Office of Standards located at the above address. Pursuant to 29 CFR 1911.11 (b) and (c), interested persons may, in addition to filing written material as provided above, file objections to the proposal requesting an informal hearing with respect thereto in accordance with the following conditions:

(1) The objections must include the name and address of the objector;

(2) The objections must be postmarked on or before October 22, 1973;

(3) The objections must specify the provisions of the proposed rule to which objection is taken, and must state the grounds therefor;

(4) Each objection must be separately stated and numbered; and

(5) The objections must be accompanied by a summary of the evidence proposed to be adduced at the requested hearing.

As amended, 29 CFR 1910.267(a)(3) would read as follows:

**§ 1910.267 Agricultural operations.**

(a) • • •

(3) Storage and handling of anhydrous ammonia—§ 1910.111.

• • • • •

(Sec. 6, Public Law 91-596, 84 Stat. 1593 (29 U.S.C. 655). Secretary's Order No. 12-71 (36 FR 8754).)

Signed at Washington, D.C., this 18th day of September, 1973.

JOHN H. STENDER,
*Assistant Secretary of Labor.*

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Public Health Service

**[ 42 CFR Part 50 ]**

### PHS SUPPORTED PROGRAMS

### Sterilization Procedures

In the FEDERAL REGISTER for August 3, 1973, the Department published a notice of Guidelines for Sterilization Procedures under HEW Supported Programs (38 FR 20930). As stated in the notice, the Guidelines have been approved by the Secretary and its policies will be implemented through regulations issued by the affected agencies in the Department. The Public Health Service is among the agencies affected.

Notice is hereby given that the Assistant Secretary for Health, with the approval of the Secretary, proposes to amend Part 50 of Title 42, Code of Federal Regulations by adding a new subpart B which sets forth the policy that programs or projects supported in whole or in part by Federal funds administered by the Public Health Service shall not perform nor arrange for sterilization of any individual within certain classes of persons unless prescribed procedures are followed. Specifically, the regulations would require that such programs or projects shall not perform nor arrange for the performance of a non-therapeutic sterilization of any person who is under the age of twenty-one or who is legally incapable of giving informed consent to the sterilization unless a Review Committee (established in accordance with the regulations) has reviewed and approved the sterilization. Moreover, if the individual belongs to the class of those who are legally incapable of consenting—due to nonage, mental capacity or condition, or court adjudication—the regulations would, in addition to Review Committee approval, require a judicial determination that the proposed sterilization is in the best interest of the patient. The proposed regulations are by way of limitation and do not require any PHS supported program or project to provide or arrange for the provision of sterilization. Upon their effective date, the regulations will apply to existing programs and projects as well as to programs or projects approved for Federal support on and after that date.

Interested persons may address comments, data, views and arguments, in writing, in triplicate, to the Assistant Secretary for Health, U.S. Department of Health, Education, and Welfare, 330 Independence Avenue, Washington, D.C. 20201. All comments received in response to this notice will be available for public inspection at the foregoing address on weekdays between the hours of 9 a.m. and 5 p.m. All material received on or before October 23, 1973 will be considered. It is proposed to make the regulations effective upon their republication in the FEDERAL REGISTER.

It is therefore proposed to amend Part 50 (whose establishment was proposed

V 38 I 183 S SEP 21 73 XUM

on May 21, 1973 (38 FR 13418)) by adding a new subpart B in the manner set forth below.

Dated August 28, 1973.

H. E. SIMMONS,
*Acting Assistant Secretary for Health.*

Approved September 17, 1973.

CASPAR W. WEINBERGER,
*Secretary.*

**Subpart B—Sterilization of Persons Under 21 and Persons Legally Incapable of Consenting**

Sec.
50.301 Applicability.
50.302 Definitions.
50.303 General policy.
50.304 Composition and duties of the Review Committee.
50.305 Duties of the program or project.

AUTHORITY.—Sec. 215, 58 Stat. 690, as amended; 42 U.S.C. 216.

**§ 50.301 Applicability.**

The provisions of this subpart are applicable to programs or projects which are supported in whole or in part by Federal financial assistance, whether by grant or contract, administered by the Public Health Service.

**§ 50.302 Definitions.**

As used in this subpart:

(a) "Public Health Service" means the Health Services Administration, Health Resources Administration, National Institutes of Health, Center for Disease Control, Food and Drug Administration and all of their constituent agencies.

(b) "Sterilization" means any procedure or operation the primary purpose of which is to render an individual permanently incapable of reproducing and which is not a necessary part of the treatment of an illness or injury.

(c) "Committee" means the Review Committee required by § 50.303(a).

(d) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of HEW to whom the authority involved has been delegated.

(e) A person "legally incapable of giving consent" includes any person who (1) under State law, is a minor whose consent to the sterilization would not be legally effective, (2) has been adjudicated incompetent by a court of competent jurisdiction, or (3) in the judgment of a responsible program or project official, appears to be incapable of giving informed consent because of a mental condition or lack of mental capacity.

**§ 50.303 General policy.**

(a) Programs or projects supported in whole or in part by Federal funds shall not perform nor arrange for the performance of a sterilization of any individual who is under the age of twenty-one or who is legally incapable of giving consent unless:

(1) A Review Committee, as described in § 50.304, has reviewed and approved the sterilization, and

(2) In the case of an individual who is legally incapable of giving consent, a court of competent jurisdiction has determined that the proposed sterilization is in the best interests of the patient.

(b) In no case shall sterilization be performed on a legally competent individual, irrespective of age, unless that individual has given written informed consent to the sterilization.

(c) These regulations are by way of limitation and are not intended to require any program or project to provide or arrange for sterilization.

**§ 50.304 Composition and duties of the Committee.**

(a) The Committee referred to in § 50.303(a) shall be composed of not less than five members selected by responsible authorities of the program or project. The members shall be so selected that the Committee will be competent to deal with the medical, legal, social and ethical issues involved in sterilization. No member may be an officer, employee or other representative of the program or project under which the procedure is proposed, nor may any member be otherwise involved in the proposed sterilization. Both sexes shall be represented on the Committee, and at least one member shall be a representative selected from the population served by the program or project.

(b) The Committee shall determine whether the proposed sterilization is in the best interest of the patient and in doing so shall:

(1) Review appropriate medical, social, and psychological information concerning the patient, including the age of the patient, alternative family planning methods, and the adequacy of consent;

(2) Interview concerned individuals, as well as others, who in its judgment will contribute pertinent information; and

(3) Record its findings and determinations, collect supporting documentation and transmit these records to the program or project.

**§ 50.305 Duties of the program or project.**

(a) Whenever the Committee determines that a sterilization of an individual who is incapable of consenting is appropriate, the program or project shall seek to obtain the court determination required by § 50.303(a)(2).

(b) The program or project shall maintain records transmitted by the Review Committee as part of the permanent record of the patient; the records shall be available for examination by the Secretary to determine compliance with these regulations.

(c) The program or project shall report to the Secretary at least annually, the number and nature of the sterilizations subject to the procedures set forth in this subpart, the number of Committee disapprovals of such sterilizations, the number and nature of conditional Committee approvals, and such other relevant information regarding such procedures as the Secretary may request.

## Social and Rehabilitation Service

**[ 45 CFR Part 249 ]**

## MEDICAL ASSISTANCE PROGRAMS

### Sterilization Procedures

Notice is hereby given that the regulation set forth in tentative form below is proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulation will implement the guidelines approved by the Secretary and published in the FEDERAL REGISTER on August 3, 1973 regarding procedures to be followed in safeguarding individual rights in cases of sterilization under title XIX of the Social Security Act.

The provisions of 45 CFR 249.10(a)(11) and 45 CFR 249.10(c)(2) setting forth requirements which must be met in order for a state plan to meet conformity criteria and for federal financial participation to be available in expenditures for sterilization, will be made applicable to services under Titles IVA and VI of the Social Security Act and included in the social services regulations when those regulations are published.

Prior to adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201, on or before October 23, 1973. Comments received will be available for public inspection in Room 5224 of the Department's offices at 301 C Street SW., Washington, D.C. on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202-962-4451).

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302).)

(Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Program.)

Dated September 12, 1973.

JAMES S. DWIGHT, Jr.,
*Administrator, Social and Rehabilitation Service.*

Approved September 17, 1973.

CASPER W. WEINBERGER,
*Secretary.*

Section 249.10, Part 249, Chapter II, Title 45 of the Code of Federal Regulations is amended to add subparagraphs (a)(11) and (c)(2) as follows:

**§ 249.10 Amount, duration and scope of medical assistance.**

(a) *State plan requirements.* A State plan for medical assistance under title XIX of the Social Security Act must:

* * * * *

(11) provide that (i) any non-emergency procedure which will have the effect of rendering an individual permanently incapable of reproducing is supported by evidence that the recipient or some other legally authorized individual acting on the recipient's behalf voluntarily consents in writing to the performance of such procedure and (ii) any procedure or operation the primary purpose of which is to render an individual permanently incapable of reproducing and which is not a necessary part of the treatment of an illness or injury:

(*a*) In the case of any recipient who is under age 21 or legally incapable of giving informed consent has been reviewed and approved by a committee designated by the State agency, and

(*b*) In the case of any recipient who is legally incapable of giving informed consent, has been determined by a court of competent jurisdiction to be in the individual's best interest.

The committee referred to in paragraph (a)(11)(ii)(*a*) of this section shall be composed of no less than five members competent to deal with the medical, legal, social and ethical issues involved in sterilization and shall include at least one member of the population served by the agency. The committee shall have both male and female members. No member shall otherwise be an officer, employee or other representative of the State agency or its local subdivision, or of the institution, agency or physician providing the proposed sterilization. The duties of the committee shall be to review medical, social, and psychological information concerning the recipient, the feasibility of utilizing alternative family planning methods, and the adequacy of consent; to interview or otherwise consult with individuals who in its judgment will contribute relevant information; to determine whether the proposed sterilization procedure is in the best interest of the recipient; and to record its findings and determinations, collect supporting documentation, and transmit these records to the agency.

* * * * *

(c) *Limitations* * * *

(2) Federal financial participation is not available in expenditures for procedures for sterilization unless the requirements in paragraph (a)(11) of this section have been met.

* * * * *

## CIVIL AERONAUTICS BOARD

**[ 14 CFR Part 241 ]**

[Docket No. 25903; EDR-254]

### CHARGES BY FOREIGN GOVERNMENTS FOR AIRPORT AND EN ROUTE FACILITIES AND SERVICES

### Proposed Rule Making

SEPTEMBER 17, 1973.

Notice is hereby given that the Civil Aeronautics Board has under consideration amendment to Part 241 of its Economic Regulations (14 CFR Part 241), which would require certificated route and supplemental air carriers to report charges by foreign governments for airport and en route facilities and services.

The background and principal features of the proposed amendment are described in the attached Explanatory Statement, and the proposed amendment is set forth in the Proposed Rule. The amendment is proposed under the authority of sections 204(a) and 407 of the Federal Aviation Act of 1958, as amended (72 Stat. 743 and 766, as amended; 49 U.S.C. 1324 and 1377).

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before November 5, 1973, will be considered by the Board before taking final action upon the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 711 Universal Building, 1825 Connecticut Avenue, NW, Washington, D.C. upon receipt.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

*Explanatory statement.* On January 16, 1973, the Civil Aeronautics Board's Bureau of Accounts and Statistics issued an information request to all route and supplemental air carriers for the submission of data relating to charges by foreign governments on air carriers for the facilities and services provided by the foreign governments. The request also specified the intention of the Board to initiate a Notice of Proposed Rule Making to amend Part 241 of the Economic Regulations to require the air carriers to submit this data on a recurring basis.

The need for this information arises from the fact that there has been a steady increase in the number of foreign governments which levy charges on international air carriers for airport and en route facilities and services, such as communication facilities and navigation aids, air traffic services, meteorological services, passenger services, fuel through-put services, aircraft landing services, and other ancillary aviation services. Moreover, not only has the number of foreign governments levying such charges increased steadily following the 1967 ICAO conference on "Airport and Route Facilities," but in some cases, the amounts of these charges have also been increased since their initial establishment, apparently with the ultimate goal of achieving a complete recovery of all costs associated with the establishment of the various facilities and services.

To insure that the Board is completely aware of developments in the area of cost recovery policies of foreign governments, and the trends associated therewith, it is proposed to amend Part 241 of the Economic Regulations to provide for quarterly reporting of these charges on a new Form 41 Schedule P-11, "Charges by Foreign Governments for Airport and En Route Facilities and Services" (Appendix A).[1] This schedule will require each route and supplemental air carrier to identify the foreign government to which charges were paid for airport and en route facilities and services, and the amounts charged therefor, broken down by type of expense, and by name of the airport where the expense was incurred. The Board has tentatively concluded that data reported on the proposed schedule will be of considerable value to the Board in revealing the disparity of charges made, not only between airports of different countries, but between airports within the same national jurisdiction.

It is proposed to amend Part 241 of the Economic Regulations (14 CFR Part 241) as follows:

**Section 22 [Amended]**

1. Amend paragraph (a) of section 22—General Reporting Instructions as follows:

(a) Add Schedule P-11—Charges by Foreign Governments for Airport and En Route Facilities and Services in the List of Schedules in CAB Form 41 report to read:

| Schedule No. | Schedule title | Filing frequency |
|---|---|---|
| * | * * * * | * |
| P-10 | Payroll | Do. |
| P-11 | Charges by Foreign Governments for Airport and En Route Facilities and Services. | Do. |
| P-41 | Taxes | Annually. |
| * | * * * * | * |

(b) Include Schedule P-11 in the list of Due Dates of Schedules in CAB Form 41 for the following due dates: Feb. 10, May 10, Aug. 10 and Nov. 10.

**Section 24 [Amended]**

2. Amend Section 24 Profit and Loss Elements to include, following the description of Schedule P-10, the following description of Schedule P-11:

[1] Filed as part of original document.

V 38 I 183 SEP 21 73 XUM

*Schedule P–11—Charges by Foreign Governments for Airport and En Route Facilities and Services*

(a) Schedule P–11 shall be filed by all route air carriers that are performing international operations.

(b) This schedule shall reflect the charges for airport and en route facilities and services by foreign governments, such as communication facilities and navigation aids, air traffic services, meteorological services, through-put charges for aircraft fuel, landing fees, passenger head tax, and other ancillary aviation services.

(c) A separate Schedule P–11 shall be filed for each foreign government to which charges are paid and the name of the government shall be reported in item (1).

(d) Item (2) "Name of Airport" shall reflect the name(s) of the airport(s) under the jurisdiction of the foreign government to which charges for airport and en route facilities and services apply. For each airport reported, show the amount charged by the foreign government broken down by type of expense indicated on lines 1 through 7.

**Section 32 [Amended]**

3. Amend paragraph (a) of Section 32—General Reporting Instructions as follows:

(a) Add Schedule P–11—Charges by Foreign Governments for Airport and En Route Facilities and Services in the List of Schedules in CAB Form 41 Reports to read:

| Schedule No. | Schedule title | Filing frequency |
|---|---|---|
| • | • • • • | • |
| P–7..... | Aircraft and Traffic Servicing, Promotion and Sales, and General and Administrative Expense Functions—Group II and Group III Air Carriers. | Do. |
| P–11..... | Charges by Foreign Governments for Airport and En Route Facilities and Services. | Do. |
| Y–3.1..... | Statement of Traffic and Capacity Statistics. | Monthly. |
| • | • • • • | • |

(b) Include Schedule P–11 in the list of "Due Dates of Schedules in CAB Form 41" for the following due dates: Feb. 10, May 10, Aug. 10, and Nov. 10.

**Sec. 34 [Amended]**

4. Amend Section 34—Profit and Loss Elements to Include, following the description of Schedule P–7, the following description of Schedule P–11:

*Schedule P–11—Charges by Foreign Governments for Airport and En Route Facilities and Services*

(a) Schedule P–11 shall be filed by all supplemental air carriers that are performing international operations.

(b) This schedule shall reflect the charges for airport and en route facilities and services by foreign governments, such as communication facilities and navigation aids, air traffic services, meteorological services, through-put charges for aircraft fuel, landing fees, passenger head tax, and other ancillary aviation services.

(c) A separate Schedule P–11 shall be filed for each foreign government to which charges are paid and the name of the government shall be reported in item (1).

(d) Item (2) "Name of Airport" shall reflect the name(s) of the airport(s) under the jurisdiction of the foreign government to which charges for airport and en route facilities and services apply. For each airport reported, show the amount charged by the foreign government broken down by type of expense indicated on lines 1 through 7.

## ENVIRONMENTAL PROTECTION AGENCY

**[ 40 CFR Part 52 ]**

**CALIFORNIA AND OREGON**

**Implementation of State Plans; Opportunity for Public Comment**

On June 15, 1973, pursuant to § 110(a) of the Clean Air Act and 40 CFR Part 51, the Administrator announced his disapproval of the control strategies for photochemical oxidants and carbon monoxide in the San Diego, Sacramento, San Joaquin, and San Francisco regions, and for photochemical oxidants in the Southeast Desert region, due to the lack of timely submittal of transportation control plans. This was published in the FEDERAL REGISTER on June 22, 1973 (38 FR 16550). The Administrator proposed transportation control plans for these regions on July 16, 1973 (38 FR 18948).

On June 15, 1973, the Administrator also announced his partial approval and partial disapproval of the control strategies for photochemical oxidants and carbon monoxide in the Portland region of Oregon. Transportation control plans were proposed for this region on August 2, 1973 (38 FR 20766.)

If, prior to promulgation, a State has adopted and submitted a plan or revision which the Administrator determines to be in accordance with applicable requirements, the State plan will be approved in lieu of promulgation of all or part of the Administrator's proposals. This notice is issued to advise the public that the State of California has submitted a Revision 3 to the State General Plan and to the plans for San Francisco, San Diego, San Joaquin, and Sacramento, and that the State of Oregon has submitted supplemental information for the Portland region. Comments may be submitted on whether the control strategies should be approved or disapproved in whole or in part by the Administrator under § 110(a) of the Clean Air Act. Only comments received within 21 days from the publication of this notice will be considered. Notice of opportunity to comment on State plans has been published previously on April 24, April 27, May 4, June 1, June 22, July 18, August 3, and August 15, 1973.

A more detailed description of the information submitted is set forth below.

CALIFORNIA

A document entitled "The State of California Implementation Plan for Achieving and Maintaining the National Ambient Air Quality Standards, Revision 3, State General Plan, San Francisco Bay Area Basin Plan, San Diego Air Basin Plan, San Joaquin Valley Air Basin Plan, Sacramento Valley Air Basin Plan," dated June 21, 1973, was received on August 21, 1973, including within it a submittal letter from the Governor dated July 25, 1973. This document notes on page 11 of the chapter entitled "Part I, State General Plan," that a "Regional Transportation Plan" was to be prepared by the Metropolitan Transportation Commission (MTC) for adoption by June 30, 1973, and that, upon adoption, it would be submitted to EPA as a part of Revision 3. The MTC's "Regional Transportation Plan" was included in the submission received on August 21, 1973, consisting of five documents: "Proposed Regional Transportation Plan: Support System Transit—Service Areas," "Proposed Regional Transportation Plan: Existing and Approved Facilities," and "Proposed Regional Transportation Plan: Improvement Proposals," (three maps, dated May 31, 1973), "Regional Transportation Plan, Proposed, June 1, 1973," and a memorandum dated July 10, 1973, from Paul C. Watt, MTC, "Subject: Guide to Revisions and/or Changes In Proposed Regional Transportation Plan" with two attachments consisting of Resolution No. 85 adopted by the MTC on June 27, 1973, and "Revisions to Regional Transportation Plan as Adopted June 27, 1973". Additional documents in the State submission are the "Revision No. 3, Appendix VI—Summaries," dated June 21, 1973, and "Revision to *Appendix* of the State of California Implementation Plan for Achieving and Maintaining the National Ambient Air Quality Standards," dated June 21, 1973. Finally, an unsigned paper by the MTC staff was also included, entitled "Proposed Strategies for Transportation Controls," dated August 21, 1973.

Four public hearings were held by the California Air Resources Board during May 1973, on Revision 3. Four public meetings were held on the Regional Transportation Plan by the MTC.

The Governor's letter, dated July 25, 1973, requests extensions until 1977 of the attainment dates for the photochemical oxidant standard in the San Diego, San Francisco, and Sacramento regions, and for the carbon monoxide standard in the Sacramento region.

OREGON

A document entitled "Department of Environmental Quality, Supplemental Information and Plans, Portland Transportation Control Strategy," has been received, including letters dated August 15 and August 20, 1973, from

Diarmuid F. O'Scannlain, Director, Oregon Department of Environmental Quality. An official transmittal by the Governor is expected shortly. The document consists of Section 1 (Motor Vehicle Inspection/Maintenance—Retrofit Program) Section 2 (Traffic Flow and Mass Transit Improvement Programs), and Appendices A through E. On August 15, 1973, the state Legislative Emergency Board approved an expenditure of $1,000,000 to begin implementation of the vehicle inspection program.

Copies of the proposed California Revision 3 are available at the Regional Counsel's Office, Room 118–A, EPA, Region IX, 100 California Street, San Francisco, California, 94111, and at the Air Resources Board, 1025 P Street, Sacramento, California 95814. Copies of the Oregon supplemental information are available at the Air Programs Branch, Room 10–B, EPA, Region X, 1200 Sixth Avenue, Seattle, Washington 98101, and at the Department of Environmental Quality, 1234 SW. Morrison Street, Portland, Oregon 97205.

Dated: September 18, 1973.

[FR Doc.73–20178 Filed 9–20–73;8:45 am]

**[ 40 CFR Part 120 ]**

**PUERTO RICO**

**Interstate Water Quality Standards**

Notice is hereby given that pursuant to the authority of section 303(b) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1313(b); 86 Stat. 816 et seq; P.L. 92–500) ("the Act"), regulations setting forth standards of water quality to be applicable to the navigable waters of the Commonwealth of Puerto Rico are proposed.

Under section 303(a) of the Act, the Administrator of the Environmental Protection Agency is required to review water quality standards for interstate and intrastate waters adopted and submitted by the States. When he determines that changes in such standards are required to meet the requirements of the Act as in effect prior to October 18, 1972 (the date of enactment of the 1972 Amendments to the Act, P.L. 92–500), he must notify the State. If the State does not adopt the required revisions, or if the revisions submitted by the State do not meet the requirements of the Act, the Administrator is to publish proposed revised water quality standards in accordance with such requirements.

The Commonwealth of Puerto Rico prior to October 18, 1972, adopted water quality standards for both interstate and intrastate waters. After the enactment of the 1972 Amendments, EPA reviewed both the interstate and intrastate standards pursuant to section 303(a) of the Act. (A notice concerning EPA review of all interstate and intrastate water quality standards was published in the FEDERAL REGISTER on December 29, 1972, 37 FR 28775–28780.) The interstate standards for Puerto Rico are identified in 40 CFR Part 120 (37 FR 6087, March 24, 1972). The intrastate standards are contained in the same document which is available for inspection and copying at the Environmental Quality Board, 1550 Ponce deLeon Avenue, 4th Floor, P.O. Box 11488, Santurce, Puerto Rico 00910 and the EPA Regional Office, 26 Federal Plaza, Room 908, New York, New York 10007. EPA's information regulations, 40 CFR Part 2, provide that a fee may be charged for making copies.

On January 17, 1973, the Regional Administrator notified Puerto Rico that certain revisions to its interstate water quality standards were necessary to make the standards consistent with the applicable requirements of the Act. On March 8, 1973, a similar notification was made for intrastate water quality standards. The State has not formally submitted the required revisions within the 90-day period allowed by sections 303(a)(1) and 303(a)(2) of the Act. Accordingly, pursuant to section 303(b)(1), EPA is now proposing regulations setting forth standards required to comply with the Act as in effect prior to October 18, 1972.

Section 303(b)(2) of the Act requires the Administrator to promulgate standards no later than April 1, 1974, unless by such time the State shall have adopted a water quality standard which the Administrator determines to be in accordance with the requirements of section 303(a) of the Act. However, the Administrator is not required to await State action for the entire 190 day period prior to promulgation. Thus, these standards may be promulgated by the Administrator at any time following the expiration of time for public comment.

Except as provided in the attached proposed regulations, the interstate and intrastate standards previously adopted by the Commonwealth of Puerto Rico as referenced above are the effective water quality standards under section 303 of the Act for interstate and intrastate navigable waters within that State. Where the proposed regulations set forth below are inconsistent with the referenced standards, these regulations, if promulgated, will supersede such standards to the extent of the inconsistency.

Interested persons may submit written data, views, or arguments, in triplicate, in regard to the proposed regulations to the Regional Administrator, 26 Federal Plaza, Room 908, New York, New York 10007. All revelant material received not later than October 23, 1973.

Dated September 13, 1973.

JOHN QUARLES,
*Acting Administrator.*

Chapter I of Title 40, Code of Federal Regulations, is amended as follows:

1. Part 120 is amended to add a new § 120.12 as follows:

**§ 120.12 Puerto Rico water quality standards.**

(a) *Mixing zone.* In no case shall the maximum length of the major axis of the mixing zone in coastal waters exceed 4000 feet.

(b) *Dissolved oxygen.* For Class SC waters the disclosed oxygen concentration shall not be less than 5 mg/1 except when natural conditions cause this value to be depressed.

[FR Doc.73–20177 Filed 9–20–73;8:45 am]

## FEDERAL COMMUNICATIONS COMMISSION

**[ 47 CFR Part 73 ]**

[Docket No. 19720; FCC 73–944]

**FM BROADCAST STATIONS**

**Tupelo, Miss.; Termination**

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Tupelo, Mississippi), RM–1915, (38 FR 9835).

1. The Commission has before it the notice of proposed rulemaking in this proceeding, adopted April 11, 1973 (FCC 73–391; 38 FR 9835), comments filed by the proponent, Town 'N Country (TNC) and an informal response from the mayor of Baldwyn, Mississippi.

2. The proposal put forward in the Notice was to assign Channel 240A to Tupelo, Mississippi, as a second FM assignment. Tupleo, a community of 20,471 persons, already has an operating Class C FM station on its only current FM channel. Before we could proceed to make the requested assignment, it would be necessary to favorably resolve the several issues presented by this case. Beyond the always-present question of the justification for the assignment itself, we need to consider the matters of intermixture and preclusion. In some instances, we decide against making an assignment without regard to such other factors, but the reasoning applicable to such cases does not apply here. TNC has provided sufficient support to warrant making the assignment were it not for these other matters. Since there is no dispute on this score, we need not pursue the aspect of the filings concerned with making a prima facie case for assigning a second channel. Instead we will turn to the other questions to see if they dictate a different resolution of the case.

3. The first point to consider is that of intermixture. As TNC has observed, in some instances we have added a Class A channel to the existing Class B or C assignment (or assignments) in a community. If a Class B or Class C channel, as the case may be, is not available and additional FM service is needed, quite obviously this is the only means to bring it. If no other problems are presented and a party is willing to proceed using a Class A channel, we have given our approval. Before we can conclude that no other problems are presented, we need to examine other aspects of the situation. Since Class A channels are normally intended for use in smaller communities, we need to consider the impact on channel availability for such smaller communities. This channel could instead be used at Baldwyn or Booneville, Mississippi, but the latter already has a channel for

V 38 I 183 SEP 21 73 XUM

which an application has been filed. Baldwyn does not, and TNC acknowledges that no channel other than 240A could be made available to Baldwyn. Thus, we face a question of preclusion.

4. How important is the preclusionary effect on Baldwyn? To answer this point we need to consider relative need and likelihood of interest in using the channel at Baldwyn. If the Tupelo need is demonstrably greater or no interest in Baldwyn were apparent, it would be possible to accommodate the TNC request. If not, its proposal must be denied. The material on these points is not extensive. Baldwyn's mayor simply states that there is interest in use of the channel and that we should not deprive this community of 2,366 persons of its only chance for local broadcast service. TNC points to Baldwyn's small size, contrasting it with Tupelo's: TNC also emphasizes Tupelo's growth and economic development.

5. Our guidelines for the making of assignments indicate that one or two FM channels might be assigned to communities having a population under 50,000. Tupelo's population is toward the lower end of the range, and for most communities of like size in Mississippi, we have provided only a single FM assignment. In addition, we note that Tupelo has a VHF television station, three AM stations in operation (two full-time, one Class III and one Class IV), an AM station under construction and a 100 kilowatt operation on its current FM assignment.[1] This is not the picture of great deprivation calling for immediate remedy regardless of the consequences.

6. Baldwyn lacks any means of local expression, save for its weekly newspaper. As a small community, it is a suitable location for a Class A assignment. The mayor assures us that interested parties will step forward shortly. If they did, our current inclination would be to act favorably on their request. However, these interested parties have yet to speak. For this reason, we do not think it appropriate to assign the channel to Baldwyn now. If a rule making proposal were to be filed, the matter could then be pursued. In the meantime, we shall not make an assignment to any community. TNC is invited to renew its request should a Baldwyn proposal not be forthcoming within six months. In this way we can protect Baldwyn's needs in a reasonable manner without precluding a future assignment to Tupelo should Baldwyn parties not proceed in due course.

7. Accordingly, *it is ordered*, That the subject proposal is denied and that this proceeding is terminated.

Adopted: September 11, 1973.

Released: September 14, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc.73-20151 Filed 9-20-73;8:45 am]

[1] It also has a daily newspaper and a large CATV system. Baldwyn has a CATV system, too, but only a weekly newspaper.

## [ 47 CFR Part 73 ]

[Docket No. 19825; FCC 73-951]

## DUAL-LANGUAGE TV/FM PROGRAMMING IN PUERTO RICO

### Notice of Inquiry and Proposed Rule Making

In the Matter of Dual-Language TV/FM Programming in Puerto Rico.

1. The Commission wishes to explore the subject of dual-language programming and to consider the possibility of adopting rules applicable to the presentation of such programming. The need for a rulemaking proceeding was expressed in our Memorandum Opinion and Order adopted June 27, 1973 (FCC 73-706, 41 F.C.C. 2d), continuing in effect the current experimental dual-language operation conducted by San Juan, Puerto Rico, Stations WAPA-TV and WPRM (FM). Pending the outcome of the rule making proceeding to be inaugurated, we declined to expand dual-language operations to encompass new parties or areas of operation.

2. For the purposes of this proceeding, dual-language programming refers to the telecast of a program in one language with the simultaneous transmission of the audio material in a second language. As now conducted experimentally, this has meant the telecast of programs in Spanish on Station WAPA-TV with the audio portion being carried in English on Station WPRM-FM. Thus viewers have a choice of languages when they watch the limited number[1] of programs involved in the experimental operation, mostly feature films.

3. The genesis of the experiment was in 1967 when Station WAPA-TV petitioned the Commission for approval of an agreement with Station WIAC-FM which provided for such an operation for up to 10 hours per week. The Commission indicated its lack of objection to the experiment and the operation commenced. Subsequently objections were raised in a petition for reconsideration, but the Commission found them insufficient to warrant termination of the experiment. On rare occasions, pursuant to Commission approval, the experiment reached beyond San Juan, but for the most part, the experiment continued as originally proposed, save for the replacement of Station WIAC-FM by WPRM-FM. Periodic reports were provided on the experience with the experimental operation.

4. Although there had been some general expressions of interest by other parties, little had happened to suggest that the scope of the subject went beyond the limited purposes of the experimental operation. More recently, however, the Commission received a request from WAPA-TV to extend dual-language operations into the Aguadilla-Mayaguez and Ponce areas of Puerto Rico, and it also received a request from Station WRIK-TV in Ponce for permission to conduct its own dual-language operations in San Juan, Ponce and Mayaguez. In the above Memorandum Opinion and Order the Commission denied both requests to extend dual-language operations and continued the existing WAPA-TV experimental operation pending further action. The action contemplated was the initiation of a rulemaking proceeding on the subject of dual-language programming. In so acting we agreed with the assertion of Station WRIK-TV that all desirous of conducting dual-language operations should be on equal footing, but we held that further inquiry would be required before such operations could be regularized. Even had the requests not been filed, since the experiment had continued for a substantial period, it was clear that the time had come to resolve the legal and policy questions raised by these operations, particularly if they were to be conducted on a continuing basis.

5. In the June 27, 1973, document we indicated our current inclination toward making some provision for dual-language operations on a permanent basis. This inclination should not be taken as expressing a definitive view that such should be our conclusion. Nor, if we should decide to proceed along this line, was it our intention to permit unrestricted dual-language operations. As will be seen from the discussion below, the methodology for conducting these operations may bear significantly on the nature of the restrictions which ought to apply. The broad scope of our inquiry in this proceeding is intended to permit an exploration of all matters pertinent to dual-language operations in Puerto Rico. However, it is not our intention to extend the inquiry to include the possibility of such operations elsewhere. Puerto Rico is unique in that its two languages—English and Spanish—enjoy equal status.[2] It is officially bi-lingual and follows a policy of fostering the ability in all its citizens of being able to utilize both languages. This situation does not obtain anywhere else. By no means do we denigrate the various foreign language offerings of various television and radio stations. Whether partially or totally oriented toward the providing of such offerings, these stations have provided meritorious service in responding to needs in their areas. Nevertheless, the situation on the mainland is different from that obtaining in Puerto Rico. In order for it to be analogous, there would have to be a mainland policy of fostering a facility in Spanish on the part of all continentals. Such, obviously, is not the case. In addition, it is not only Spanish that would be involved on the mainland, for it would be necessary to include the many other languages that are understood by significant numbers of mainland people.

6. At present, the dual-language method utilized in San Juan is that of employing an FM station to broadcast

[1] The parties are limited to providing a maximum of 10 hours per week of dual-language programming.

[2] Title 1, Section 51 P.R. Laws Annotated (1965).

the second audio signal. As we observed in the recent Memorandum Opinion and Order, it was not clear that FM transmissions of material of little value absent the companion video portion was "broadcasting" as defined by the Communications Act. This is a point we intend to consider and one on which we seek comments. Even if we reach the conclusion that it is broadcasting within the meaning of the Communications Act, there are other problems to consider since the programming has little value to a person not watching the TV station. Obviously, it is also duplicative and during the hours involved prevents the FM station from presenting programming directly intended for its FM audience. Were spectrum space unlimited, our concern would be lessened, but since this is not at all the case, we need to consider the impact on FM stations and audience alike. One method of avoiding this problem would be to use a multiplexing approach. Whether the second audio signal were to be multiplexed on the TV signal or were to become one of the forms of FM subsidiary communications authorization (SCA),[3] other problems could be introduced. Technology for the latter approach exists, but in terms of coverage or otherwise, it may not be considered satisfactory. As to the former, new methodology would be required. We need to know how feasible these approaches are, not just technically, but economically as well. What costs would there be for the stations involved, TV or FM? Would it be an expense that they could or would accept? What of the cost to the public? If they had to obtain special receivers or pay for major modifications of current home equipment, would the cost be too high? Would it diminish usage to the point of vitiating the purpose of such operations? Might it not most affect those in greatest need for the service? In responding to these issues parties should address all the policy ramifications and consequences involved. If parties believe that these obstacles could be overcome, they are requested to offer technical proposals for consideration in this proceeding.

7. There are other questions, not necessarily related to methodology, that have to be considered. On what basis should an FM station's main channel be used? What we have in mind here are limitations on the number of hours, or part of the day when the operation would be conducted, or as to minimum number of FM stations in a market before such use of an FM station could be permitted. The possibility of cumulative effects from multiple, perhaps simultaneous, operations also needs to be considered. Should coverage differentials between stations be considered by the Commission or should selection of station be left to private negotiations. What of our multiple ownership rules and our policies on joint rates? Should a rate differential be permitted for dual-language operations? Would this be an unfair form of competition? What of the effect on the inauguration of regular telecasting in English, as once was conducted in San Juan on Channel 18? Would there be an impact? If so, how much should this be taken into account? If such operations are to be permitted on a regularized basis, should they be terminated, reduced or rescheduled upon the commencement of regular, full-time telecasting of English language programming?

8. From reports provided by Station WAPA-TV, we have gathered that dual-language programming has been a popular concept.[4] However, more than local popularity is involved, and before any regularization of this service can be sanctioned, we need answers to the above questions. We seek all useful information, and parties should feel free to comment on any aspect of the issues involved. Because of the wide range of issues involved and the equally wide range of possible solutions, we are not setting forth the language of any proposed rules. While the possibility exists that a further notice of rule making and responsive comments to it may be needed, interested parties are advised that if the information received in response to this document is sufficient for the purpose, rules may be adopted without any further notice. Authority for the subject proposal to amend the Commission's rules is found in sections 4(i), 303(b), (g), and (r) 313(a), and 403 of the Communications Act of 1934, as amended.

9. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules, interested parties may file comments on or before October 26, 1973, and reply comments on or before November 5, 1973. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

10. In accordance with the provisions of § 1.419 of the rules, an original and 14 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters in Washington, D.C. (1919 M Street, NW.).

Adopted September 11, 1973.

Released September 14, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc.73-20153 Filed 9-20-73;8:45 am]

[3] Already, several SCA operations are being conducted on a dual-language basis pursuant to our current SCA rules.

[4] It is not clear how this popularity translates into ratings. WAPA-TV's experience suggests that the impact may vary.

## [ 47 CFR Part 73 ]

[Docket No. 19823; FCC 73-945]

## FM BROADCAST STATIONS IN CERTAIN STATES

### Table of Assignments

In the Matter of amendment of § 73.202(b), *Table of assignments*, FM Broadcast Stations (Brattleboro, Vt.; Ship Bottom, N.J.; Derby, Kans.; Amherst, Mass.; Tallulah, La.; Wadesboro, N.C.; Jena, La.; Bowling Green, Mo.; Chillicothe, Ill.; and Butler, Mo.), RM-2131, RM-2159, RM-2189, RM-2190, RM-2191, RM-2202, RM-2204, RM-2207, RM-2220, RM-2221, RM-2233.

1. The Commission has under consideration eleven petitions which propose amending § 73.202(b) of the rules, the FM Table of Assignments, by assigning a first FM channel to each of the above-mentioned communities. With the exception of Derby, Kansas, none of these ten communities are located in or near an urbanized area. All petitions are unopposed. The specific channel that has been proposed for each locality and the identity of the respective petitioners are as follows:

| | |
|---|---|
| RM-2131 | Channel 244A to Brattleboro, Vermont (Southern Vermont Broadcasters, Inc.). |
| RM-2159 | Channel 261A to Ship Bottom, New Jersey (Max L. Raab). |
| RM-2189 | Channel 240A to Derby, Kansas (Benjamin Foster and Hank Parkinson). |
| RM-2190 | Channel 224A to Brattleboro, Vermont (Radio Brattleboro, Inc.). |
| RM-2191 | Channel 285A to Amherst, Massachusetts (Hampshire County Broadcasting Co.). |
| RM-2202 | Channel 285A to Tallulah, Louisiana (Radio Station KTLD). |
| RM-2204 | Channel 272A to Wadesboro, North Carolina (Carolinas Advertising, Inc.). |
| RM-2207 | Channel 257A to Jena, Louisiana (Radio Station KCKW). |
| RM-2220 | Channel 265A to Bowling Green, Missouri (Pike County Broadcasting Co.). |
| RM-2221 | Channel 232A to Chillicothe, Illinois (William D. Englebrecht). |
| RM-2233 | Channel 288A to Butler, Missouri (Bates County Broadcasting Co.). |

A brief description of each petition follows.

2. *Brattleboro, Vermont (RM-2131 and RM-2190).* Two separate petitions were filed each proposing the assignment of a first FM channel to Brattleboro, Vermont. One was filed on December 11, 1972, as a supplemental filing on March 19, 1973, by Southern Vermont Broadcasters, Inc., licensee of AM Station WTSA, Brattleboro, requesting the assignment of Channel 244A (RM-2131); the other petition was filed on May 4, 1973, by Radio Brattleboro, Inc., licensee of AM Station WKVT, Brattleboro, requesting the assignment of Channel 224A (RM-2190). Both channels could be assigned there in conformity with the Commission's minimum mileage separation rule and without affecting any other

V 38 I 183 SEP 21 73 XUM

assignments in the FM Table of Assignments. Brattleboro (population 12,239)[1] is in Windham County (population 33,074) and is located in the southeastern part of Vermont. It has no local FM facilities, but has two Class IV AM facilities which provide limited nighttime service to Brattleboro and Windham County.

3. In support of their requests, petitioners state that Brattleboro is the fourth largest community in the State of Vermont and the largest community in the state without an FM channel. They indicate it is anticipated that the town of Brattleboro will steadily grow in the next decade. Petitioners state that employment in non-manufacturing occupations has been growing rapidly, especially in the areas of trade, services, and government, and based on a 3.5 percent annual increase in wholesale employment it is estimated that 607 people will be employed in wholesale trade in Brattleboro by 1977. They add that the manufacturing sector of the economy is divided into durables (lumber and wood products) and non-durables (food, paper, printing and publishing, and leather products). Petitioners state that a survey completed in August 1972 showed a 16 percent increase in new retail establishments since 1967 with a 22 percent increase in retail sales between 1967 and 1971. They point out that Brattleboro has six elementary schools, pre-school nurseries, kindergartens, junior-senior high school, and a parochial elementary school, in addition to three colleges located in the area. Petitioners state that if the proposed channels are assigned, the types of broadcasts which will be provided to the residents in this area, presently not available, are political gatherings, local and community meetings, local news concerning emergency conditions, information of interest to the Brattleboro area and civil defense evacuation warnings. Each petitioner states that if its requested assignment is made it will apply for use of the requested channel and, if authorized, will construct and operate a new FM station in Brattleboro.[2]

4. It would appear that petitioners have made a sufficient public interest showing to warrant issuance of a Notice of Proposed Rule Making as to their proposals. Considering the size of Brattleboro and its anticipated steady growth, we are of the opinion that institution of a rule making looking toward the assignment of two FM channels to Brattleboro, Vermont, merits consideration.

5. *Ship Bottom, New Jersey (RM–2159).* Max L. Raab filed a petition on March 13, 1973, proposing the assignment of Channel 261A to Ship Bottom, New Jersey. Ship Bottom (population 1,079) is located on Long Beach Island in Ocean County (population 208,470). There are no local broadcast facilities in this community. The engineering study which accompanied the petition discloses that the proposed channel assignment can be made in conformity with the Commission's mileage separation requirements and without affecting any currently assigned channel in the FM Table.

6. Petitioners states that while Ship Bottom is a well-known resort community whose population expands to 16,000 persons each summer, the FM service it receives from surrounding cities is not adequate to meet its needs. Petitioner adds that neither FM Station WADB in Point Pleasant, N.J., nor FM Station WOBM at Tom's River, N.J., provide a 1 mV/m service to Ship Bottom and that presently the closest FM assignment is in Atlantic City. A local FM station, petitioner emphasizes, will be more willing to concentrate on developments which affect Ship Bottom. Petitioner believes that Ship Bottom is able to support an FM station. He comments that Ocean County's retail business has improved to meet the demands of the tourist trade. He states that 79 county merchandise establishments had a combined retail sale of $41,000,131 in 1971. Petitioner further declares that, as evidence of the prosperity in the county, total personal income has increased in 1970 from $1,013,000,912 to an estimated $1,167,000,826 in 1972. Based upon these considerations, the possibility of assigning Channel 261A to Ship Bottom should be explored in a rule making proceeding.

7. *Derby, Kansas (RM–2189).* Benjamin Foster and Hank Parkinson requested the Commission to amend the FM Table of Assignments by adding Channel 240A to Derby, Kansas. Derby, with a population of 7,947 persons, is located in Sedgewick County (population 350,694), 10 miles southeast of Wichita, Kansas. There are no local broadcast facilities in Derby although a daily newspaper is published in the city.

8. Petitioners state in support of their request that Derby's location, which provides easy access to a number of major employment centers in that vicinity, has been a significant factor in bringing about a sharp population increase. Petitioners mention that Derby now has its own water and sanitation facilities, school and local government, which consists of a mayor and an eight member city council. They also observe that there are thirty civic and 20 religious organizations which serve the Derby community. A local FM station, petitioners contend, would be able to provide assistance to these organizations, thereby allowing them to offer better service to Derby residents. Lastly, they add that a Class A FM channel would be able to extend service to a number of contiguous smaller communities.

9. Petitioners' engineering statement attests that the proposed assignment of Channel 240A to Derby would comply with the Commission's mileage separation requirements and would not interfere with the operation of any existing FM stations. Petitioners have noted that those channels which might have been available to them in Wichita under Section 73.203(b) of the Rules have already been occupied. Petitioners have expressed their intent to apply for Channel 240A if it is assigned to Derby. Since this request would supply Derby with its first local broadcast facility, we feel that consideration of the proposal to assign Channel 240A to Derby is warranted.[3]

10. *Amherst, Massachusetts (RM–2191).* On May 9, 1973 Hampshire County Broadcasting Company filed a petition proposing the assignment of Channel 265A to Amherst, Massachusetts. Amherst, with a population of 26,331 persons, is located in Hampshire County (population 123,981) and is 87 miles from Boston. It presently has three educational FM stations, which are licensed to various colleges in the city, and a daytime-only AM station.

11. Petitioner supports its request for an FM assignment to Amherst by noting the sharp population increase which occurred there and in Hampshire County from 1960 to 1970. During this period Amherst registered a 91.9 percent increase, while Hampshire County had a population gain of 20.1 percent. Petitioner also cites the 1967 U.S. Census of Business which reported that Amherst's retail sales amounted to $15,581,000 for the preceding year. Petitioner remarks that Amherst is essentially a college town with the University of Massachusetts, Amherst College and Hampshire College located within its borders. It contends that an FM assignment to this city would provide a clear fulltime signal to the steel-framed dormitories on the college campuses which obstruct AM reception. Petitioner also stresses the lack of competing radio voices in Hampshire County. Two of the stations in the county are WITT in Amherst, which does not operate at night, and WARE in Ware, Massachusetts, the transmitter site of which prohibits it from serving much of Hampshire County. The two remaining stations in the county, WHMP–AM and FM in Northampton, Mass., are owned by the company which controls two-thirds of the daily newspaper. Petitioner concludes that the assignment of Channel 265A to Amherst would enhance competition among these various radio stations, thereby improving the quality of broadcasting in the county.

12. Petitioner's engineering report determines that the assignment of Channel 265A to Amherst is in conformity with the Commission's minimum mileage separation rule provided that the transmitter site is located two miles southwest of Amherst. The engineering report notes that the requested assignment will have no preclusive effect on any of the six adjacent channels. The precluded area on Channel 265A is limited to a small area near Amherst. Petitioner has expressed its intent to apply for Channel 265A if it is assigned to Amherst.

13. In view of the apparent need for a first fulltime local broadcast service in the area, the proposal to assign FM Channel 265A to Amherst merits consideration in a rule making proceeding.

14. *Tallulah, Louisiana (RM–2202).* Radio Station KTLD petitioned the Commission on May 23, 1973, to assign FM Channel 285A to Tallulah, Louisiana. Tallulah (population 10,500) is situated in Madison Parish (population 15,065) and is in the east central portion of the state. AM Station KTLD is the only local broadcast facility in this community. KTLD has indicated its intent to apply for use of Channel 285A in Tallulah provided the channel is assigned there.

15. In elaborating on the need of this community for a first local FM service, petitioner emphasizes the 26 percent increase in population which occurred between 1960 and 1970. Petitioner contends that Tallulah is the trade and growth center of Madison Parish. It further believes that an FM channel would encourage additional industrial development in the community which would be instrumental in reducing unemployment and raising the standard of living.

16. The engineering data submitted with the petition concludes that there would be no preclusion with regard to the pertinent adjacent channels. While there would be a minimum preclusionary effect on Channel 285A, there is no town with a population of over 2,500 persons which would be denied access to this channel as a result of the proposed assignment. However, in order to comply with the Commission's mileage separation rule and to avoid interference with any existing station, the transmitter must be located west of the city. Subject to this stipulation, we believe that the proposal to assign Channel 285A to Tallulah merits consideration.

17. *Wadesboro, North Carolina (RM–2204).* Carolinas Advertising, Inc., petitioned the Commission on May 23, 1973, to amend the FM Table of Assignments by adding Channel 272A to Wadesboro, North Carolina. Carolinas Advertising, Inc. is the licensee of WADE, a daytime-only AM station which is the only local broadcast facility in Wadesboro. Wadesboro, with a population of 3,977 persons, is the seat of Anson County (population 23,488) and is situated approximately 45 miles southeast of Charlotte, North Carolina. Petitioner states its intent to file an application for a construction permit if Channel 272A is assigned to Wadesboro.

18. Petitioner observes that while the economy of the area is basically agricultural, there has been consistent industrial development. It notes that the greater utilization of farm machinery has contributed to a 50 percent rise in farm income during the last decade in Anson County. Petitioner also mentions that trade and manufacturing employment in the county totaled 3,000 persons as of January 30, 1973, and county bank deposits are in excess of $45 million.

19. Petitioner's engineering report declares that the assignment of Channel 272A to Wadesboro would meet all the Commission's mileage separation requirements, provided the transmitter site is located 6 miles southwest of the city. The report indicates that there will be no preclusionary effect on any of the six adjacent channels. In view of the foregoing information we believe that petitioner has made a sufficient preliminary public interest showing to warrant exploring the possibility of assigning Channel 272A to Wadesboro.

20. *Jena, Louisiana (RM–2207).* On June 1, 1973, Radio Station KCKW, a daytime-only AM station and the sole broadcast facility in Jena, proposed to amend the FM Table of Assignments by assigning Channel 257A to Jena, Louisiana. Petitioner states that should this channel be assigned to Jena it will apply for and, if granted a construction permit, will build a Class A FM station. Jena (population 2,431) is located in LaSalle Parish (population 13,295) in the central portion of the state.

21. Petitioner contends that Jena warrants a first FM assignment because of the rapid growth and the development which this county is experiencing. It comments that the average family income in LaSalle Parish has increased from $3,433 in 1960 to $5,799 in 1970. Petitioner also mentions the construction of three new hospitals in LaSalle Parish, along with the recent establishment of two garment plants and four other manufacturing shops. It states that these additions have increased the number of available jobs by some 1,750 between 1968 and 1970.

22. The engineering study submitted with the petition indicates that the assignment of Channel 257A to Jena would have no adverse effect upon any existing or proposed station and be in accord with the Commission's mileage separation requirements. The engineering report further points out that the proposed assignment would not cause any preclusionary effect on the six adjacent channels. While a certain region would be precluded from operation on Channel 257A as a consequence of the proposed assignment, there is at least one additional FM channel available for assignment to those communities with a population of over 2,500 persons within the preclusion area. For these reasons we believe that consideration of the proposal to assign Channel 257A to Jena as its first FM channel is warranted.

23. *Bowling Green, Missouri (RM–2220).* Pike County Broadcasting Company filed a petition on June 18, 1973, which requested the Commission to assign Channel 265A to Bowling Green, Missouri. Bowling Green (population 2,936) is located in Pike County (population 16,928) and currently has a daytime-only AM station KPCR, which is operated by the petitioner. If Channel 265A is assigned to Bowling Green, petitioner proposes to apply for the channel and construct the station should its application be granted.

24. Petitioner emphasizes the lack of local nighttime broadcast service in a community the size of Bowling Green. It mentions that Station KPCR is unable to get authorization to transmit at night because of the interference problems with Station WCKY, a Class I–B station which transmits on the same frequency from Cincinnati, Ohio. Petitioner then states that a fulltime local FM station would be able to inform the people in this primarily agricultural community of potential weather problems and school closings, services not presently available at night. Petitioner adds that numerous community leaders and members of the public have been concerned about the lack of fulltime local radio service. Therefore, since this proposal is in full compliance with the Commission's mileage separation rules and does not require the deletion or substitution of any channel in the FM Table of Assignments, we believe that consideration of the request to assign Channel 265A to Bowling Green, Missouri, is warranted.

25. *Chillicothe, Illinois (RM–2221).* On June 29, 1973, William D. Engelbrecht proposed that the FM Table of Assignments be amended to include the assignment of Channel 232A to Chillicothe, Illinois. Chillicothe, with a population of 6,052 persons is approximately 150 miles southwest of Chicago and situated at the junction of Woodford, Peoria, and Marshall Counties. The combined population of these three counties is 236,632 persons. Chillicothe has no local broadcast facilities. Petitioner has expressed his intent to apply for Channel 232A if it is assigned to this community.

26. Petitioner supports his request for this assignment by noting that Chillicothe has experienced a 14 percent population increase between 1960 and 1970. He declares that retail sales for this city have been estimated at $16,293,400 for 1972, a 47 percent increase over the corresponding 1963 figure. Petitioner concludes from this information that Chillicothe is developing into a trading center for the numerous small surrounding farm communities. He further states that Chillicothe has two banks and two savings and loan institutions with combined assets of almost $59 million. Petitioner then stresses the fact that a community of this magnitude has a

[1] All population figures cited are from the 1970 U.S. Census.

[2] However, it is not clear from the petitions whether if two channels are assigned to Brattleboro each petitioner is willing to build a station there. Petitioners should furnish information on this point in their comments as well as information as to whether Brattleboro could support two FM stations.

[3] The original petition for this rule making was filed on October 13, 1971, but it appears that the petition was misplaced. The petition was refiled on May 4, 1973. Since the original petition would have been considered by this time under the normal processing schedule, we believe it to be equitable and in the public interest to process the May 4, 1973 petition earlier than would normally be the case.

V 38 I 183 SEP 21 73 XUM

weekly newspaper as its only local medium of mass communication.

27. Petitioner's engineering study demonstrates that this proposal is in accord with our minimum mileage separation rule for all adjacent and co-channel stations. Based on these observations, we conclude that petitioner's request to assign Channel 232A to Chillicothe, Illinois, warrants our consideration in a rule-making proceeding.

28. *Butler, Missouri (RM–2233)*. Bates County Broadcasting Company filed a petition with the Commission on July 18, 1973, which sought the amendment of the FM Table of Assignments to include Channel 288A at Butler, Missouri. Petitioner is the licensee of the daytime-only radio station, KMAM, at Butler. Butler (population 3,984), the seat of Bates County (population 15,468), is located 50 miles south of Kansas City. The only local broadcast service in the city is provided by Station KMAM. If Channel 288A is assigned to Butler, petitioner has stated his intent to promptly file an application for its use.

29. Bates County Broadcasting Company supports its petition by noting that Butler is located in a primarily agricultural region. It states that there is a pressing need for providing local weather information to the farmers in the late evening and early morning hours. As an indication that Butler will be able to support an FM assignment, petitoner remarks that the consumer spendable income per family is $5,100. It also mentions that the city has two banks, three Farm Loan Associations and an airport.

30. Petitioner states that the unavailability of FM channels in nearby communities makes section 73.203(b) of the Commission's Rules inapplicable. The accompanying engineering statement discloses that the proposed assignment would comply with the minimum separation rule and would not necessitate a deletion or substitution of any present FM channel assignment. For these reasons we feel that the assignment of Channel 288A to Butler, Missouri, merits consideration.

31. Since Amherst, Massachusetts, and Brattleboro, Vermont, are within 250 miles of the U.S.-Canadian border, the assignment of the respective channels to these communities is conditional upon the concurrence of the Canadian Government.

32. In view of the foregoing and pursuant to the authority contained in sections 4(i), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend the FM Table of Assignments, section 73.202 (b) of the Commission's rules and regulations, as follows for the named communities:

| City | Channel No. | |
|---|---|---|
| | Present | Proposed |
| Brattleboro, Vt. | | 224A, 244A |
| Ship Bottom, N.J. | | 261A |
| Derby, Kans. | | 240A |
| Amherst, Mass. | | * 265A |
| Tallulah, La. | | * 265A |
| Wadesboro, N.C. | | * 272A |
| Jena, La. | | 257A |
| Bowling Green, Mo. | | 265A |
| Chillicothe, Ill. | | 232A |
| Butler, Mo. | | 288A |

* In order to meet the minimum spacing requirements of our rules, a site 2 miles southwest of Amherst, Mass., would be required; a site 6 miles southwest of Wadesboro, N.C., would be required; and a site west of Tallulah, La., would be required.

33. *Showings required.* Comments are invited on the proposals discussed above. Proponents will be expected to answer whatever questions are raised in the Notice and other questions that may be presented in initial comments. The proponents of the proposed assignments are expected to file comments even if they only resubmit or incorporate by reference their former pleading. They should also restate their present intention to apply for the channel if it is assigned and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

34. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposals in this notice, they will be considered as comments in the proceeding, and public notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

35. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before October 26, 1973, and reply comments on or before November 5, 1973. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

36. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

37. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C. (1919 M Street, NW.).

Adopted September 11, 1973.

Released September 17, 1973.

FEDERAL COMMUNICATIONS COMMISSION

[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc.73-20152 Filed 9-20-73;8:45 am]

## FEDERAL RESERVE SYSTEM

### [ 12 CFR Part 217 ]

### MASSACHUSETTS AND NEW HAMPSHIRE NOW Accounts

On September 15, 1973, a new Federal law becomes effective with applicability to interest-bearing accounts from which the depositor is allowed to make transfers of funds by negotiable orders of withdrawal (NOW's). At the present time, such accounts are offered only by mutual savings banks in Massachusetts and New Hampshire.

Section 2(a) of P.L. 93–100 provides that "No depository institution shall allow the owner of a deposit or account on which interest or dividends are paid to make withdrawals by negotiable or transferable instrument for the purpose of making transfers to third parties, except that such withdrawals may be made in the States of Massachusetts and New Hampshire." The Board regards this language as affirmatively authorizing, so far as Federal law is concerned, NOW accounts in the two States for all depository institutions, including member banks. This authorization, however, is subject to the Board's broad authority under section 19(j) of the Federal Reserve Act to prescribe regulations governing the payment of interest on deposits in member banks.

The Board proposes to treat the NOW account as a form of savings deposit. This would mean that (1) such accounts may be offered only to individuals and certain nonprofit organizations, and (2) withdrawals from such accounts are subject to the right of the bank to require the depositor to give at least 30 days notice of any intended withdrawal, although this right need not be exercised.

The Board believes some limitation is needed so as to assure that the offering of NOW accounts remains a regional, rather than a national, experiment. Accordingly, the Board proposes to limit these accounts to residents of Massachusetts and New Hampshire (except that a bank could offer NOW accounts to any of its present customers). This is consistent with the statutory focus on "the owner of a deposit or account on which interest or dividends are paid."

The Board further believes that some constraints on the use of such accounts are needed in order to differentiate NOW accounts from ordinary demand deposits. Without some constraints, one can expect an excessive initial conversion from family checking accounts to NOW accounts in the two States. Such an eventuality would be consistent with the public interest only if brought about in an orderly and carefully planned manner. Therefore, the Board proposes for the present to permit the payment of interest on the minimum (or average) balance in such accounts, subject to the requirement that the bank impose a per-item service charge on all items written by the depositor in excess of a 10 item-per-month limit. (Such a requirement would not preclude service charges on the first 10 items.) As an alternative, it is considering requiring, if interest is to be paid, (1) that the number of negotiable orders of withdrawals that a depositor writes per month not exceed 15 items, and (2) that there be a minimum (or average daily) balance of $400 in the account. (This alternative might be further conditioned to provide a lower interest rate ceiling on the first $400 in the account than on the remainder, and to call for some per-item service charge for items in excess of 15 per month.)

At the same time, the Board believes that NOW accounts should be differentiated in some fashion from ordinary savings deposits. For that reason, it proposes to set the maximum rate of interest payable on such deposits at a level below that for ordinary savings deposits; it is preliminarily giving consideration to a maximum rate of 4½ percent for NOW accounts.

The Federal Reserve System also proposes to permit all thrift institutions offering NOW accounts to make full use of the Federal Reserve collection system in order to clear these items—so long as any nonmember thrift institution clearing items in this manner maintains a clearing account with the Federal Reserve Bank of Boston. "Full use" of the collection system would include sending items directly to the Federal Reserve for collection and receiving items drawn on the institution directly from the Federal Reserve. Under section 13 of the Federal Reserve Act, the nonmember clearing account must be of a size sufficient to offset the items in transit. The dollar amount of the items in transit would generally be a function of the total dollar amount of the NOW accounts in the institution. Accordingly, the Board proposes to require, as a condition to clearing NOW's for a nonmember thrift institution, a clearing balance of 3 percent of the total NOW accounts of the institution. This requirement is not intended to affect present clearing arrangements for nonmember commercial banks. In this connection, it should be noted that the reserve requirement for a member bank's savings deposits (including NOW accounts) is presently 3 percent.

Interested persons are invited to submit relevant data, views, or arguments with respect to the Board's proposed policies. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than November 1, 1973. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules regarding availability of information.

Pending the Board's adoption of final rules for NOW accounts, it is recommended that member banks abstain from offering NOW accounts, Offering NOW accounts, in the present uncertain environment, would be unwise, since the proposed policies outlined above are tentative and subject to change before final adoption in light of the public comments received.

By order of the Board of Governors, September 14, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-20075 Filed 9-20-73;8:45 am]

### [ 12 CFR Part 266 ]

### FORMER MEMBERS AND EMPLOYEES OF THE BOARD

### Limitations on Activities

The Board of Governors proposes to adopt rules relating to activities of former members and employees of the Board in matters connected with their duties or official responsibilities while employed by the Board.

Although the Federal Criminal Code applies criminal sanctions against former officers and employees of the Government whose activities involve a conflict of interest or an appearance of such conflict, it is believed that rules of the Board on this subject would provide additional protection to the public as well as to both present and former employees, the adoption of such rules seem particularly desirable in view of the increase in the last few years in the number of the Board's employees and in the Board's responsibilities in areas that require applications for its approval.

Accordingly, the Board proposes to adopt the following new Part 266:

**PART 266—LIMITATIONS ON ACTIVITIES OF FORMER MEMBERS AND EMPLOYEES OF THE BOARD**

§ 266.1 Scope.

This Part relates to limitations on former members and employees of the Board with respect to participation in matters connected with their former duties and official responsibilities while serving with the Board.

§ 266.2 Definitions.

(a) "Employee" means a regular officer or employee of the Board; it does not include a consultant to the Board.

(b) "Official responsibility", with respect to a matter, means administrative, supervisory, or decisional authority, whether intermediate or final, exercisable alone or with others, personally or through subordinates, to approve, disapprove, decide, or recommend Board action or to express staff opinions in dealings with the public.

(c) "Appear personally" includes personal appearance or attendance before, or personal communication, either written or oral, with the Board or a Federal Reserve Bank or any member or employee thereof, or personal participation in the formulation of material relating to such an appearance or communication, in connection with any application or interpretation arising under the statutes or regulations administered by the Board or the Federal Reserve Banks, except that requests for general information or explanations of Board policy or interpretation shall not be construed to be a personal appearance.

§ 266.3 Limitations.

(a) *Matters on which member or employee worked.* No former member or employee of the Board shall act as an agent, representative, or attorney for, or appear personally on behalf of, anyone other than the United States, an agency thereof, or a Federal Reserve Bank in connection with any judicial or other proceeding, application, request for ruling or determination, or other particular matter involving a specific party or parties in which the United States, an agency thereof, or a Federal Reserve Bank is also a party or has a direct and substantial interest and in which he participated personally and substantially as a member or employee of the Board through approval, disapproval, decision, recommendation, advice, investigation, or otherwise.

(b) *Matters within Board member or employee's official responsibility.* No former member or employee of the Board shall appear personally before any court, the Board, or a Federal Reserve Bank, on behalf of anyone other than the United States, an agency thereof, or a Federal Reserve Bank, in connection with any proceeding, application, request for ruling or determination, or other particular matter involving a specific party or parties in which the United States, an agency thereof, or a Federal Reserve Bank is also a party or has a direct and substantial interest, and which was under his official Federal Reserve responsibility, at any time within a period of one year after the termination of such responsibility.

[1] While former consultants to the Board are not covered by these Rules, they appear to fall within the coverage of section 207 of the United States Criminal Code (18 U.S.C. § 207) that provides criminal penalties for engaging in activities similar, although not identical, to those described in paragraphs (a) and (b) of section 266.3 of this Part.

V 38-183 SEP 21 73 XUM

(c) *Consultation as to propriety of appearance before the Board.* Any former member or employee of the Board who wishes to appear before the Board on behalf of any party other than the United States or a Federal Reserve Bank at any time within two years from termination of employment with the Board is advised to consult the General Counsel or the Secretary of the Board as to the propriety of such appearance.

(d) *Disclosure of unpublished information.* Former Board members and employees are strongly advised not to disclose unpublished information of the Board obtained in the course of their work. Questions with respect to this provision should be addressed to the General Counsel or the Secretary or the Board.

(e) *Rulemaking proceedings.* Nothing in this section shall preclude a former member or employee of the Board from representing another person in any proceeding governed by a rule, regulation, standard, or policy of the Board solely by reason of the fact that such former member or employee participated in or had official responsibility in the formulation or adoption of such rule, regulation, standard, or policy.

(f) *Effective date.* This Part shall become effective immediately upon adoption by the Board following the period for comment. Notwithstanding the foregoing, the limitations of this Part, other than that provided by paragraph (d) of this section, shall not apply to any activities with respect to a specific matter before the Board in which any former Board member or employee may be engaged on September 21, 1973, the date of publication of this Part, until the expiration of 60 days following the effective date of this Part or of such additional period as the Secretary of the Board may determine to be appropriate in order to avoid inequity.

**§ 266.4 Suspension of appearance privilege.**

If any person knowingly and willfully fails to comply with the provisions of this Part, the Board may decline to permit such person to appear personally before it for such periods of time as it may determine and may impose such other sanctions as the Board may deem just and proper.

**§ 266.5 Criminal penalties.**

Any former member or employee of the Board who engages in actions in contravention of paragraphs (a) or (b) of § 266.3 may be subject to criminal penalties for violation of section 207 of the United States Criminal Code (18 U.S.C. 207).

To aid in the consideration of this proposal by the Board, interested persons are invited to submit relevant data, views, or arguments. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 23, 1973. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules regarding availability of information.

By order of the Board of Governors, September 18, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

## DEPARTMENT OF STATE

[Public Notice CM-68]

### SHIPPING COORDINATING COMMITTEE

#### Notice of Meeting

A meeting of the Shipping Coordinating Committee (as a whole) and its subcommittee, the National Committee for the Prevention of Marine Pollution, will be held at 9:30 a.m. on Monday, October 1, 1973, in Room 4234, Coast Guard Headquarters, 400 Seventh Street SW., Washington, D.C. The meeting will be open to the public.

The meeting will consider preparations for the IMCO-sponsored International Conference on Marine Pollution scheduled to meet in London, October 8 to November 2.

For further information on the subject matter of the meeting, contact Mr. Richard K. Bank, Executive Secretary, Shopping Coordinating Committee, Department of State, Washington, D.C. 20520, telephone, area code 202-632-0704.

Dated September 18, 1973.

RICHARD K. BANK,
*Executive Secretary,*
*Shipping Coordinating Committee.*

[FR Doc.73-20105 Filed 9-20-73;8:45 am]

## DEPARTMENT OF DEFENSE

### Office of the Secretary of Defense

### DoD HEMOGLOBINOPATHY POLICY REVIEW ADVISORY COMMITTEE

#### Establishment, Organization and Functions

In accordance with the provisions of Public Law 92-463, Federal Advisory Committee Act, notice is hereby given that the DoD Hemoglobinopathy Policy Review Advisory Committee has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The Office of Management and Budget has also reviewed the justification for this advisory committee and concurs with its establishment.

The charter for the DoD Hemoglobinopathy Policy Review Advisory Committee is as follows:

*Designation.* The Department of Defense Hemoglobinopathy (Sickle Cell Trait) Policy Review Advisory Committee, hereinafter referred to as "the Committee" is hereby established as being in the public interest in connection with the performance of duties imposed on the Department of Defense by statute. The Committee will be operated in accordance with the Federal Advisory Committee Act (Public Law 92-463) and Executive Order 11686, and implementing OMB and DoD regulations.

*Objectives and scope.* The Committee serves as a scientific advisory body to the Assistant Secretary of Defense (Health and Environment) to provide him with scientific and professional advice and recommendations on hemoglobinopathy policy.

*Duties.* The Committee shall assist the Assistant Secretary of Defense (Health and Environment) by providing professional advice and recommendations concerning the safe and efficient utilization, by the military department, of persons with various hemoglobinopathies, the various methods and procedures to identify such persons, and various medical research programs to answer military requirements concerning military duty for persons with these hemoglobinopathies.

*Membership.* The Committee shall be composed of not more than nine members. Six of the members shall be selected from civil life on the basis of their nationally recognized competence in fields allied to the duties of the Committee. Three members will be selected from the military departments. Each Surgeon General will nominate one military medical corps officer to serve as a member of the Committee with authority to speak for his department.

Members of the Committee shall be selected and appointed by the Assistant Secretary of Defense (Health and Environment) with the approval of the Secretary of Defense or his designated representative.

Members of the Committee shall recommend to the Assistant Secretary of Defense (Health and Environment), from among the membership, a chairman who shall serve during the duration of the Committee.

*Meetings.* The Committee shall meet at least once for a one-day session. The Principal Deputy Assistant Secretary of Defense (Health and Environment), who is a full-time, salaried Federal employee, is designated to approve all meetings and agenda in advance, be in attendance at all meetings, and is authorized and required to adjourn any meeting when he determines adjournment to be in the public interest.

*Responsible official.* The report of the Committee shall be made to the Assistant Secretary of Defense (Health and Environment).

*Support.* The Office of the Assistant Secretary of Defense (Health and Environment) is responsible for providing necessary administrative support to the Committee.

*Resources.* The estimated operating cost of the Committee is $5,000 for one year. Less than one-quarter man-year of full-time staff support is required.

*Duration and termination date.* The period of time necessary for the Committee to accomplish its duties is anticipated to be one year. Should the requirement for the Committee continue beyond that period, the Assistant Secretary of Defense (Health and Environment) may request continuation of the Committee for one additional year. Otherwise, the Committee shall terminate one year from the date this charter is filed, as indicated below, or whenever its mission is completed, whichever is sooner.

*Dated filed.*

MAURICE W. ROCHE,
*Director, Correspondence and Directives Directorate, OASD (Comptroller).*

SEPTEMBER 18, 1973.

### DEFENSE WAGE COMMITTEE

#### Notice of Closed Meetings

Pursuant to the provisions of section 10 of Public Law 92-463, effective January 5, 1973, notice is hereby given that meetings of the Department of Defense Wage Committee will be held on:

Tuesday, October 2, 1973.
Tuesday, October 9, 1973.
Tuesday, October 16, 1973.
Tuesday, October 23, 1973.
Tuesday, October 30, 1973.

These meetings will convene at 9:30 a.m. and will be held in Room 1E-801, The Pentagon, Washington, D.C.

The Committee's primary responsibility is to consider and make recommendations to the Assistant Secretary of Defense (Manpower and Reserve Affairs) on all matters involved in the development and authorization of wage schedules for Federal prevailing rate

V 38 I 183 SEP 21 73 XUM

employees pursuant to Public Law 92–392.

At these scheduled meetings, the Committee will consider wage survey specifications, wage survey data, local reports and recommendations, statistical analyses and proposed pay schedules derived therefrom.

Under the provisions of section 10(d) of Public Law 92–463 and 5 U.S.C. 552 (b)(2) and (4), the Assistant Secretary of Defense (Manpower and Reserve Affairs) has determined that these meetings will be closed to the public.

However, members of the public who may wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the Committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Department of Defense Wage Committee, Room 3D–281, the Pentagon, Washington, D.C.

MAURICE W. ROCHE,
*Director, Correspondence and Directives, OASD (Comptroller).*

## DEPARTMENT OF JUSTICE

### Drug Enforcement Administration

### CONTROLLED SUBSTANCES IN SCHEDULES I AND II

### 1974 Final Aggregate Production Quotas

Section 306 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 826) requires the Attorney General to establish aggregate production quotas for all controlled substances in schedules I and II by July 1 of each year. This responsibility has been delegated to the Administrator of the Drug Enforcement Administration pursuant to § 0.100 of Title 28 of the Code of Federal Regulations (see 38 FR 18380, July 2, 1973).

On July 3, 1973, a notice of the proposed aggregate production quotas for these substances, including a detailed explanation of factors considered, was published in the FEDERAL REGISTER (38 FR 17741). All interested parties were invited to comment on or object to the proposed aggregate production quotas on or before July 30, 1973. No comments or objections have been received by the Administration any proposed quota except amphetamine. On July 30, 1973, the Pennwalt Corporation filed comments stating that (1) the estimated conversion of demand from combination amphetamine products (being withdrawn from the market) to single-entity preparations has been underestimated by DEA; (2) the estimated continuing need for single-entity preparations has been underestimated by DEA; and (3) projected inventories of amphetamines on hand at the end of 1973 have been overestimated by DEA. At the same time, Pennwalt Corporation requested a hearing on the proposed amphetamine quota. The Administrator is now evaluating Pennwalt Corporation's comments and has not reached a decision whether to grant a full adversary-type hearing. Any other person interested in the matter of the proposed aggregate production quota for amphetamines is welcome to submit comments at any time prior to the Administrator's final decision. In the event that comments or objections raise one or more issues which the Administrator finds, in his sole discretion, warrant a full adversary-type hearing, the Administrator shall publish an order for a public hearing in the FEDERAL REGISTER summarizing the issues to be heard and setting the time for the hearing (which shall not be less than 30 days after the date of publication).

Based upon consideration of the factors set forth in 38 FR 17741, the Acting Administrator of the Drug Enforcement Administration, under the authority vested in the Attorney General by section 306 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 826) and delegated to the Administrator by § 0.100 of Title 28 of the Code of Federal Regulations (see 38 FR 18380), orders that the aggregate production quotas for 1974 for narcotics and cocaine, expressed in grams in terms of their respective anhydrous bases, be established as follows:

| Basic class: | *Granted 1974* |
|---|---|
| 1. Alphaprodine | 68,000 |
| 2. Anlleridine | 265,000 |
| 3. Apomorphine | 3,600 |
| 4. Cocaine | 1,125,000 |
| 5. Codeine (for conversion) | 1,071,142 |
| 6. Codeine (for sale) | 41,000,000 |
| 7. Diphenoxylate | 900,000 |
| 8. Dihydrocodeine | 740,000 |
| 9. Ecgonine | 305,300 |
| 10. Ethylmorphine | 31,000 |
| 11. Fentanyl | 3,816 |
| 12. Hydrocodone | 748,000 |
| 13. Hydromorphone | 58,000 |
| 14. Levorphanol | 14,000 |
| 15. Methadone | 3,500,000 |
| 16. Methadone Intermediate (4-cyano-2 - dimethylamino-4,4-diphenyl butane) | 1,700,000 |
| 17. Mixed Alkaloids of Opium | 110,000 |
| 18. Morphine (for conversion) | 37,370,000 |
| 19. Morphine (for sale) | 685,000 |
| 20. Norpethidine | 730,000 |
| 21. Opium (tinctures, extracts, etc., expressed in terms of opium) | 1,765,000 |
| 22. Oxycodone (for conversion) | 3,500 |
| 23. Oxycodone (for sale) | 1,840,000 |
| 24. Oxymorphone | 5,080 |
| 25. Pethidine | 17,900,000 |
| 26. Phenazocine | 300 |
| 27. Thebaine (for conversion) | 996,000 |
| 28. Thebaine (for sale) | 3,050,000 |

The Administrator also orders that the aggregate production quotas for stimulants for 1974, expressed in grams of the anhydrous free base, be established as follows:

| Basic class: | *Granted 1974* |
|---|---|
| 29. Amphetamine | [reserved] |
| 30. Methamphetamine | 517,961 |
| 31. Methylphenidate | 1,516,511 |
| 32. Phenmetrazine | 3,046,344 |

The Administrator also orders that the aggregate production quotas for hallucinogens for 1974, expressed in grams, be established as follows:

| Basic class: | *Granted 1974* |
|---|---|
| 33. Beta-(3,4-methylene dioxyphenyl) isopropylamine | 1,075 |
| 34. Mescaline hydrochloride | 285 |
| 35. N, N-diethyltryptamine | 22 |
| 36. N, N-dimethyltryptamine | 115 |

All persons who submitted an application for either an individual manufacturing quota or procurement quota for 1974 will be notified by mail as to their respective 1974 quota established by the Drug Enforcement Administration.

This order is effective Sept. 21, 1973.

Dated Sept. 14, 1973.

JOHN R. BARTELS, Jr.,
*Acting Administrator, Drug Enforcement Administration.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Indian Affairs

### ALASKA

### Applications for Determination of Eligibility of Unlisted Villages

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Director, Juneau Area Office, Bureau of Indian Affairs by § 2651.2(a) (6), (8), (9), and (10) of Subchapter B of Chapter II Title 43 of the Code of Federal Regulations published on Pages 14223 of the May 30, 1973, issue of FEDERAL REGISTER.

The Alaska Native Claims Settlement Act of December 18, 1971 (Public Law 92–203, 92nd Congress, 85 Stat. 688–716), provides for the Settlement of certain land claims of Alaska Natives and for other purposes.

Accordingly, pursuant to the Authority contained in said Act of December 18, 1971, and § 2651.2 of said regulations, notice is hereby given that the following is a list of Native villages not listed in section 11(b) of the Act who have filed applications with the Director, Juneau Area Office, Bureau of Indian Affairs for the determination of their eligibility for land benefits under the Act:

| Name of unlisted native village: | *Bureau of Land Management serial number* |
|---|---|
| Alaktalik | AA–8481 |
| Alexander (Alexander Creek. | AA–8487 |
| Attu | AA–8488 |
| Anton Larsen Bay | AA–8460 |
| Ayakulik | AA–8482 |
| Bells Flats | AA–8459 |
| Bettles Field (Evansville). | F–19328 |

| Name of unlisted native village: | *Bureau of Land Management serial number* |
|---|---|
| Caswell | AA–8468 |
| Chenega | AA–8483 |
| Chickaloon | AA–8489 |
| Chuloonawick (Chuloonavik). | F–19571 |
| Council | F–19525 |
| Eyak | AA–8484 |
| Haycock | F–19578 |
| Haines | AA–8465 |
| Healy Lake | F–19329 |
| Kasilof | AA–8464 |
| King Island | F–19573 |
| Knik | AA–8485 |
| Litnik | AA–8490 |
| Little Afognak | AA–8469 |
| Montana Creek | AA–8495 |
| Point Possession | AA–8462 |
| Port William | AA–8461 |
| Solomon | F–19570 |
| Tenakee | AA–8491 |
| Uganik | AA–8492 |
| Umkumute (Umkumiute) | F–19558 |
| Wiseman | F–19575 |
| Woody Island | AA–8463 |

The foregoing applications were filed in duplicate with the Director, Juneau Area Office, Bureau of Indian Affairs prior to September 1, 1973. All of the above listed applications constituted prima facie evidence of compliance with the requirements of § 2651.2(b) of the regulations. The Director, Juneau Area Office, Bureau of Indian Affairs has already filed the above listed applications with the appropriate office of the Bureau of Land Management and each application identifies the township or townships in which each Native village is located.

Pursuant to § 2651.2(a)(8) of the regulations the Director, Juneau Area Office, Bureau of Indian Affairs is publishing a notice of the filing of the above listed applications in the FEDERAL REGISTER and in one or more newspapers of general circulation in Alaska and shall promptly review the statement contained in each application. He shall investigate and examine records and evidence that may have a bearing on the character of the village and its eligibility pursuant to this Subpart 2651, and thereafter make findings of fact as to the character of each village. No later than December 19, 1973, the Director, Juneau Area Office, Bureau of Indian Affairs, shall make a determination as to the eligibility of each village as a Native village for land benefits under the Act and shall issue a decision. He shall publish his decision in the FEDERAL REGISTER and in one or more newspapers of general circulation in Alaska and shall mail a copy of the decision to the representative or representatives of each village, all villages in the region in which the village is located, all regional corporations, and the State of Alaska.

Any interested party may protest a decision of the Director, Juneau Area Office, Bureau of Indian Affairs, regarding the eligibility of a Native village for land benefits under the provisions of section 11(b)(3)(A) and (B) of the Act by filing a notice of protest with the Director, Juneau Area Office, Bureau of Indian Affairs, within thirty days from the date of publication of the decision in the FEDERAL REGISTER. A copy of the protest must be mailed to the representative or representatives of the village, all villages in the region in which the village is located, all regional corporations within Alaska, the State of Alaska, and any other parties of record. If no protest is received within the thirty-day period, the decision shall become final and the Director, Juneau Area Office, Bureau of Indian Affairs, shall certify the record and the decision to the Secretary. No protest shall be considered which is not accompanied by supporting evidence. Anyone protesting a decision concerning the eligibility or ineligibility of any unlisted Native village shall have the burden of proof in establishing that the decision is incorrect. Such decision shall become final unless appealed to the Secretary by a notice filed with the Ad Hoc Board as established in § 2651.2(a)(5) of the regulations within thirty days of its publication in the FEDERAL REGISTER.

This is the first and only notice of applications filed requesting the determination of eligibility of unlisted villages under the provisions of section 11(b)(3) of the Act.

MORRIS THOMPSON,
*Director.*

### Bureau of Land Management

[CA 568]

### CALIFORNIA

### Proposed Withdrawal and Reservation of Lands

SEPTEMBER 14, 1973.

The Bureau of Land Management, U.S. Department of the Interior, has filed an application, serial No. CA 568, for the withdrawal of the national resource lands described below, from appropriation under the public land laws including the mining laws, but not the mineral leasing laws, for inclusion in the Amargosa Canyon—Dumont Dunes Natural Area in California. The purpose of the withdrawal and reservation of the lands is to protect substantial public values in the Amargosa Canyon—Dumont Dunes Area which include but are not limited to the desert pupfish, the desert flora and fauna, and the Dumont Sand Dunes.

On or before October 24, 1973, all persons who wish to submit comments, suggestions, or objections in connection with the proposed protective withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, U.S. Department of the Interior, Room E–2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

The Department's regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. Adjustments will be made as necessary to provide the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior, who will determine whether or not the lands will be withdrawn as required.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

SAN BERNARDINO MERIDIAN, CALIFORNIA

Secs. 13 to 27, inclusive;
Sec. 28, that portion lying north of the north boundary of the Warm Springs Indian Reservation;
Sec. 29, that portion lying north of the Warm Springs Indian Reservation;
Secs. 30 and 31;
Secs. 34 to 36, inclusive.
T. 7 S., R. 14 E.,
Secs. 1 to 3, inclusive;
Sec. 4, that portion lying on the east side of the Deschutes River;
Sec. 9, that portion lying east of the Deschutes River;
Secs. 10 to 16, inclusive;
Sec. 17, that portion lying east of the Deschutes River;
Sec. 20, that portion lying east of the Deschutes River;
Secs. 21 to 28, inclusive;
Sec. 29, that portion lying east of the Deschutes River;
Sec. 32, that portion lying east of the Deschutes River;
Secs. 33 to 36, inclusive.
T. 8 S., R. 14 E.,
Secs. 1 to 3, inclusive;
Sec. 4, that portion lying east of the Deschutes River;
Sec. 5, that portion lying east of the Deschutes River;
Sec. 9, that portion of the NE¼ lying east of the Deschutes River;
Secs. 10 to 14, inclusive;
Sec. 15, that portion lying east of the Deschutes River.
Sec. 16, that portion lying east of the Deschutes River;
Sec. 20, that portion lying east of the Deschutes River;
Sec. 21, that portion lying east of the Deschutes River.
Secs. 22 to 28, inclusive;
Sec. 29, that portion lying east of the Deschutes River.
Sec. 32, that portion lying east of the Deschutes River.
Secs. 33 to 36, inclusive.
T. 9 S., R. 13 E.,
Sec. 12, that portion lying east of the Deschutes River;
Sec. 13, N½;
Sec. 14, that portion of the N½ lying south of the Deschutes River;
Sec. 15, that portion of the N½ lying south of the Deschutes River;
Sec. 16, that portion lying south of the Deschutes River;
Sec. 17, that portion lying east of the Deschutes River;
Sec. 20, that portion lying east of the Deschutes River;
Sec. 29, that portion of the W½NW¼ lying east of the Deschutes River, W½NE¼, E½NW¼;
Sec. 30, that portion lying east of the Deschutes River;
Sec. 31, that portion lying east of the Deschutes River;
T. 9 S., R. 14 E.,
Secs. 1 to 4, inclusive;
Sec. 5, that portion lying east of the Deschutes River;
Sec. 6, that portion lying east of the Deschutes River;
Sec. 7, that portion of the N½N½ lying southeast of the Deschutes River, S½NW¼, N½SW¼.

The areas described aggregate about 130,000 acres, of which approximately 39,000 acres are national resource lands administered by the Prineville District of the Bureau of Land Management. The lands are located in Wasco, Sherman, and Jefferson Counties.

The Deschutes River recreation lands include Class II—General Outdoor Recreation Areas, under the Bureau of Outdoor Recreation System of Classification.

ARCHIE D. CRAFT,
*State Director.*

## National Park Service

### COWPENS NATIONAL BATTLEFIELD SITE, S.C.

#### Designation of Boundary

Section 301 and 302 of the Act of April 11, 1972 (86 Stat. 121), authorize a revision of the boundaries of the Cowpens National Battleground (Battlefield) Site in South Carolina to add approximately 845 acres to this area, which previously comprised 1.24 acres. The Act provided that the revision was to become effective upon publication in the Federal Register of a map or other description of the lands so added.

Notice is given that the boundaries of the Cowpens National Battlefield Site, South Carolina have been revised, pursuant to the above act, to include altogether, the lands (approximately 845.76 acres) depicted on boundary map numbered 331-30,001B, dated July 1973, prepared by the Denver Service Center of the National Park Service. This map is on file and available for inspection in the administrative office of the Cowpens National Battlefield Site, c/o Kings Mountain National Military Park, P.O. Box 31, Kings Mountain, North Carolina 28086, and in the office's of the National Park Service, Department of the Interior, Washington, D.C. 20240.

Dated September 7, 1973.

RAYMOND L. FREEMAN,
*Associate Director,*
*National Park Service.*

### WESTERN REGIONAL ADVISORY COMMITTEE

#### Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Western Regional Advisory Committee will be held from 8 a.m. to 4:30 p.m., October 5–6 at the Stovepipe Wells Village, Death Valley National Monument. On the 5th, the Committee will tour Death Valley National Monument for on-the-ground orientation and inspection to provide background for discussion topics on the 6th.

The purpose of the Western Regional Advisory Committee is to provide for the free exchange of ideas between the National Park Services and the public and to facilitate the solicitation of advice or counsel from members of the public in problems and programs pertinent to the Western Region of the National Park Service.

The members of the Advisory Committee are as follows:

Mr. Ben Avery, Phoenix, Arizona.
Mr. Jack H. Walston, Los Angeles, California.
Dr. R. Roy Johnson, Prescott, Arizona.
Mr. James R. Hooper, Crescent City, California.
Mr. Lewis Swifton Eaton, Fresno, California.
Mr. Todd Watkins, Bishop, California.
Mr. C. Clifton Young, Reno, Nevada.
Mr. Ed Fike, Las Vegas, Nevada.
Mr. David W. Baille, Jr., Lihue, Kauai, Hawaii.

The matters to be considered at the are:

1. Mining in Death Valley, Organ Pipe Cactus and Coronado National Monuments and Lake Mead National Recreation Area.
2. Current Legislative Proposals to end or restrict mining in the national parks.
3. National park status for Death Valley National Monument.
4. Other topics of interest.

The meeting will be open to the public. The Committee will plan to arrive the afternoon of October 4, with an orientation program that evening at the Village. On October 5, transportation facilities will not be available for the public, but they are welcome to participate in the tour by providing their own transportation. Any member of the public may file with the Committee a written statement concerning the matters to be considered.

Persons wishing further information concerning the meeting, or who wish to submit written statements, may contact Regional Director Howard Chapman, Western Regional Office, 450 Golden Gate Avenue, San Francisco, California, at 415–556–1486, or Superintendent James B. Thompson, Death Valley National Monument, Death Valley, California, at 714–786–2331.

Dated September 11, 1973.

IRA WHITLOCK,
*Acting Associate Director,*
*National Park Service.*

[FR Doc.73-20093 Filed 9-20-73;8:45 am]

### SLEEPING BEAR DUNES NATIONAL LAKESHORE ADVISORY COMMISSION

#### Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Sleeping Bear Dunes National Lakeshore Advisory Commission will be held between 1 p.m. and 5 p.m. on Friday, September 28, 1973, at the Glen Haven Interim Visitor Center, Glen Arbor, Michigan.

The Commission was established by Public Law 91-479 to meet and consult with the Secretary of the Interior on general policies and specific matters related to the administration and development of the Sleeping Bear Dunes National Lakeshore.

The members are as follows:

Mr. John B. Daugherty (Chairman)
Frankfort, Michigan
Mr. William B. Bolton
Empire, Michigan
Mr. Verrol Conklin
Honor, Michigan
Mr. Frank C. MacFarlane
Cedar, Michigan
Mr. John Stanz
Glen Arbor, Michigan
Mr. Carl T. Johnson
Cadillac, Michigan
Mr. Noble Travis
Leland, Michigan
Mr. Louis F. Twardzik
East Lansing, Michigan
Ms. Charles R. Williams
Traverse City, Michigan
Mr. Charles Yeates
Allegan, Michigan

The purpose of the meeting is to report on the status of land acquisition and related activities, and to bring the commission members up to date on management programs and plans. These items will be presented by the staff of Sleeping Bear Dunes National Lakeshore. Committee reports and discussions include, committee appointments for the commission; background and current status of the national lakeshore master plan; and review of the State of Michigan Waterways Commission proposal to construct a launching facility in Good Harbor Bay.

The meeting is open to the public. It is expected that 20 persons will be able to attend the session in addition to the advisory commission members and the national lakeshore staff.

Any member of the public may file with the Commission a written statement concerning matters to be discussed. Further information concerning this meeting may be obtained from J. A. Martinek, Superintendent, Sleeping Bear Dunes National Lakeshore, Frankfort, Michigan, at 616–352–9611. Minutes of the meeting will be available for public inspection two weeks after the meeting at the office of the Superintendent, 400½ Main Street, Frankfort, Michigan.

Dated September 14, 1973.

IRA WHITLOCK,
*Acting Associate Director,*
*National Park Service.*

## Office of the Secretary

### SECRETARY'S ADVISORY COMMITTEE ON METAL AND NONMETALLIC MINE HEALTH AND SAFETY

#### Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that the Secretary's Advisory Committee on Metal and Nonmetallic Mine Health and Safety, authorized to be established under the Federal Metal and Nonmetallic Mine Safety Act (Public Law 89-577), will meet on Wednesday, October 10, 1973 and Thursday, October 11, 1973, starting at 8:30 a.m. each day, in the Auditorium of the General Services Administration, located at 18th and F Streets NW., Washington, D.C.

Section 7(a) of the Act requires the Advisory Committee to include among its members an equal number of persons qualified by experience and affiliation to present the viewpoint of the mine operators, and of persons similarly qualified to present the viewpoint of the mine workers, as well as one or more representatives of mine inspection or safety agencies of the states. The members of the Advisory Committee are as follows:

REPRESENTATIVES OF THE MINE OPERATORS

Dr. James Boyd, Committee Chairman
Past Chairman of the Board
Copper Range Company, Inc.
700 New Hampshire Avenue NW.
Washington, D.C. 20037

Mr. Marion W. Bevard, President
District Concrete Company
4714 St. Barnabas Road
Temple Hills, Maryland 20031

Mr. Gordon M. Miner, Vice President-Operations
Hecla Mining Company
Box 320
Wallace, Idaho 83873

REPRESENTATIVES OF THE MINE WORKERS

Mr. L. Damian Helnen, Vice President
Local 7044, United Steelworkers of America
627 Julius Street
Lead, South Dakota 57754

Mr. Ernest H. Ronn, Sub-District Director
United Steelworkers of America, District 33
P.O. Box 83
Negaunee, Michigan 49866

Mr. Joseph F. Sedivy, Executive Secretary
Ohio State Building and Construction Trades Council
236 East Town Street, Suite 303
Columbus, Ohio 43215

REPRESENTATIVES OF STATE MINE INSPECTION OR SAFETY AGENCIES

Mr. Norman R. Blake, Deputy Commissioner of Mines
Colorado Division of Mines
Department of Natural Resources
1845 Sherman Street
Denver, Colorado 80203

Mr. Harry R. Mason, Chairman
New York State Board of Standards and Appeals
11 North Pearl Street, Suite 1802
Albany, New York 12207

Mr. Verne C. McCutchan, State Mine Inspector
State of Arizona
431 State Capitol Building
Phoenix, Arizona 85007

The matters to be discussed at this meeting are new and revised health and safety standards relating to (1) air quality, ventilation, radiation, and physical agents, and (2) fire prevention and control in underground metal and nonmetallic mines.

The meeting of the Advisory Committee is open to the public. Public attendance will be limited to the seating available in the Auditorium. Persons desiring to attend this meeting are requested to notify the Executive Secretary in writing of their intention to attend the meeting by Wednesday, October 3, 1973.

Written data, views, or arguments concerning the subjects to be considered may be filed, together with 25 copies thereof, with the Executive Secretary by Wednesday, October 3, 1973. Any such submissions, timely received, will be provided to the members of the Committee

V 38 I 183 SEP 21 73 XUM

and will be included in the record of the meeting. Persons wishing to orally address the Committee at the meeting should submit a written request to be heard, together with 25 copies thereof, to the Executive Secretary no later than October 3, 1973. The request must contain a short summary of the intended presentation and an estimate of the amount of time that will be needed. Copies of the suggested new and revised standards may be obtained from or may be examined in the office of the Executive Secretary.

At the meeting the Chairman will announce whether oral presentations will be allowed, and, if so, under what conditions.

All written notices and requests to the Executive Secretary should be addressed as follows:

Mr James I Craig
Executive Secretary
Secretary's Advisory Committee on Metal and Nonmetallic Mine Health and Safety
Mining Enforcement and Safety Administration
Room 2517
U.S. Department of the Interior
Washington, D.C. 20240

Dated September 17, 1973.

STEPHEN A. WAKEFIELD,
*Assistant Secretary of the Interior.*

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### RAISIN ADVISORY BOARD

### Notice of Public Meeting

Pursuant to the Federal Advisory Committee Act (P. L. 92-463; 86 Stat. 770), notice is given of a meeting of the Raisin Advisory Board at 7:30 p.m., P.d.t., October 5, 1973, in the Runway Room of the Airport Marina Hotel, Fresno, California.

The purpose of the meeting is to: Review marketing policy matters for the 1973-74 crop year; consider California's 1973 raisin production; consider the need for volume regulation during the 1973-74 crop year; and make the annual review of payment rates to handlers for services on reserve tonnage raisins. The meeting will be open to the public.

The Raisin Advisory Board is established under the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), regulating the handling of raisins produced from grapes grown in California. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674).

The names of board members, agenda, summary of the meeting and other information pertaining to the meeting may be obtained from Clyde E. Nef, Manager, Raisin Administrative Committee, 732 North Van Ness, Fresno, California 93720; telephone 209-268-5666.

Dated September 18, 1973.

JOHN C. BLUM,
*Deputy Administrator, Regulatory Programs.*

[FR Doc.73-20174 Filed 9-20-73;8:45 am]

## DEPARTMENT OF COMMERCE

### Domestic and International Business Administration

### COMPUTER PERIPHERALS, COMPONENTS AND RELATED TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

### Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a meeting of the Input/Output Equipment Subgroup of the Computer Peripherals, Components, and Related Test Equipment Technical Advisory Committee will be held Wednesday, October 3, 1973, at 10 a.m. in the Board Room, Building 4A, Varian Data Machines, 611 Hansen Way, Palo Alto, California.

Members advise the Office of Export Control, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer peripherals, components, and related test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

Agenda items are as follows:

1. Opening remarks and review of purpose of subgroup by Irving L. Weiselman, Chairman.
2. Presentation of papers or comments by the public.
3. Discussion and modification of reports prepared by members of the subgroup.
4. Executive session: Continuation of discussion and modification of reports prepared by members of the subgroup.
5. Adjournment.

The public will be permitted to attend the discussion of agenda items 1-3, and a limited number of seats will be available to the public for these agenda items. To the extent time permits, members of the public may present oral statements to the subcommittee. Interested persons are also invited to file written statements with the subcommittee.

With respect to agenda item 4, "Executive Session," the Assistant Secretary of Commerce for Administration, on August 13, 1973, determined, pursuant to section 10(d) of Public Law 92-463, that this agenda item should be exempt from the provisions of sections 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the meeting will be concerned with matters listed in 5 U.S.C. 552(b)(1).

Further information may be obtained from Irving L. Wieselman, Chairman of the subgroup, Data Products Corporation, 6219 De Soto Avenue, Woodland Hills, California 91364 (A/C 213 + 887-8000).

Minutes of those portions of the meeting which are open to the public will be available 30 days from the date of the meeting upon written request addressed to: Central Reference and Records Inspection Facility, U.S. Department of Commerce, Washington, D.C. 20230.

Dated September 18, 1973.

STEVEN LAZARUS,
*Deputy Assistant Secretary for East-West Trade, U.S. Department of Commerce.*

### Office of the Secretary

[Dept. Organization Order 40-1; Amdt. 2]

### DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION

### Organization and Functions

This order effective August 24, 1973, further amends the material appearing at 37 FR 25557 of December 1, 1972, 38 FR 12145 of May 9, 1973, and supersedes the material appearing at 37 FR 25559 of December 1, 1972.

At the direction of the Secretary, Department Organization Order 40-1, dated November 17, 1972, as amended, is hereby further amended as follows:

1. In Sec. 8. *The Bureau of Competitive Assessment and Business Policy.* The Office of Business Assistance is renamed the Office of the Ombudsman for Business. Paragraph .05 is amended to read as follows:

.05 The *Office of the Ombudsman for Business* shall be headed by the Ombudsman for Business and shall:

a. Receive and answer questions on Federal programs of interest to business; assist business by providing a focal point for receiving and handling communications involving information, complaints, criticisms and suggestions about Government activities relating to business; arrange conferences with appropriate officials within the Department and in other agencies, and follow up on referrals to determine whether further assistance is necessary and appropriate; and develop suggested changes to remedy the causes of business complaints about the Federal Government, as appropriate.

b. In carrying out its functions, the Office shall not represent, intervene on behalf of or otherwise seek to assist business and individuals on specific matters, cases, or issues before Federal regulatory agencies or before Federal departments exercising a regulatory function with respect thereto; nor shall it participate in, intervene in regard to, or in any way seek to influence, the negotiation or renegotiation of the terms of contracts between business and the Government.

NOTE.—A copy of the Organization Chart is attached to the original of this document on file in the Office of the Federal Register.

HENRY B. TURNER,
*Assistant Secretary for Administration.*

[FR Doc.73-20086 Filed 9-20-73;8:45 am]

[Dept. Organization Order 25-5B; Amdt. 2]

### NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

### Organization and Functions

This order effective September 16, 1973, further amends the material appearing at 38 FR 15980 of June 19, 1973, and 38 FR 19267 of July 19, 1973.

Department Organization Order 25-5B, effective May 7, 1973, is hereby further amended as follows:

1. In Sec. 12. *National Marine Fisheries Service,* paragraphs .03 and .04 are revised to read as follows:

.03 The *Office of Resource Utilization* shall plan, develop, evaluate, and manage programs of economic and marketing research including demand and supply projections, cost benefit studies, and foreign trade analysis of collection, analysis, compilation, and dissemination of fisheries statistical and market news information; of financial assistance to the fishing industry in the form of loans, mortgages, loan insurance, and subsidies; of microbiological, chemical, and technological research to enhance the quality and utilization of fishery resources; of voluntary national inspection and certification of fishery products; to improve marketing practices and to alleviate extraordinary short term supply-demand imbalances; and of fishery extension services. The Office shall also be responsible for the management of national research programs in fishery products technology.

.04 The *Office of Resource Management* shall manage programs concerning promulgation and enforcement of domestic and international regulations for the protection of marine fisheries and marine mammal resources of the United States; the Pribilof Islands fur seal harvest; the Columbia River Anadromous Fisheries Resources Enhancement; water resources development projects and fisheries environment protection; and State-Federal fisheries management. It shall plan, develop, and evaluate programs to improve the management of fisheries resources so as to achieve the appropriate allocation of these resources among competing users and to protect their environment; establish national guidelines for managing fisheries for biological, economic, and social purposes; provide a mechanism through legislation, coordination, and cooperation for State and the Federal Government to jointly manage resources within these guidelines; and administer a grant-in-aid program to improve the capability of the States to conduct improved biological, social, and economic information required for management of fisheries resources.

2. In Sec. 14. *National Weather Service,* paragraph .02 is revised to read as follows:

.02 The *Office of Meteorological Operations* shall have cognizance over and establish policies and procedures to observe, prepare and distribute forecasts of weather conditions and warnings of severe storms and other adverse weather conditions for protection of life and property; develop the plans and procedures for operation of meteorological field services; and serve as the primary channel for coordinating NWS field services operations and for technical aspects of meteorological programs.

3. In Sec. 17. *Environmental Research Laboratories:* (a) The introductory paragraph is revised to read as follows:

The Environmental Research Laboratories (ERL) shall conduct an integrated program of research, fundamental technology development, and services relating to the oceans and inland waters, the lower and upper atmosphere, and the space environment so as to increase understanding of man's geophysical environment and thus provide the scientific basis for improved services. The ERL shall be organized as set forth below.

(b) Paragraph .02, *Earth Sciences Laboratories,* is deleted in its entirety, and paragraphs .03 through .06 are renumbered .02 through .05 respectively.

4. The organization chart attached to this amendment supersedes the organization chart of June 26, 1973, which is attached as Exhibit 1 to Amendment 1. Copy of the Organization Chart is attached to the original of this document on file in the Office of the Federal Register. A copy of each organization map is also attached to the original of this document on file in the Office of the Federal Register.

HENRY B. TURNER,
*Assistant Secretary for Administration.*

[FR Doc.73-20085 Filed 9-20-73;8:45 am]

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Food and Drug Administration

[DESI 9861; Docket No. FDC-D-495; NDA Nos. 9-921, 10-456, and 10-646]

### CERTAIN CARDIOVASCULAR PREPARATIONS

### Withdrawal of Approval of New-Drug Applications

On August 25, 1972, a notice of opportunity for hearing (DESI 9861) was published in the FEDERAL REGISTER (37 FR 17226), in which the Commissioner of Food and Drugs proposed, under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), to withdraw approval of the new drug applications for Butiserpine Tablets and Butiserpine R-A Tablets in the absence of substantial evidence that these fixed combination drugs have the effect they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling or that each component of the combinations contributes to the total effects claimed for the drugs.

On September 22, 1972 McNeil Laboratories, holder of NDA 9-921 Butiserpine Tablets and NDA 10-646 Butiserpine R-A Tablets, elected to avail itself of the opportunity for a hearing on the two drugs. This request for a hearing was supplemented on July 24, 1973, when McNeil Laboratories submitted data and arguments it contends entitle it to a hearing. The thrust of the request for hearing is that (1) the data submitted constitute substantial evidence of effectiveness of the drugs and (2) the drugs are exempt from the provisions of 21 U.S.C. 355 both because they are not now new drugs and because they are encompassed by the "grandfather" provisions of the Drug Amendments of 1962.

The Commissioner has reviewed McNeil Laboratories' request for a hearing and the medical documentation submitted, with the following findings:

THE DRUGS—RATIONALE AND CLAIMS

a. Butiserpine Tablets contain 15 milligrams butabarbital sodium and 0.1 milligram reserpine per tablet. Butiserpine R-A Tablets (Repeat Action Tablets) are labeled as containing a single dose of Butiserpine in the outer layer for immediate release and a second equal dose in the specially coated core for delayed release. The current labeling indicates that the Butiserpine drugs are effective in the treatment of mild to moderate hypertension, severe essential hypertension, premenstrual tension and anxiety neurosis.

The combination is described as providing the intermediate "daytime sedative" effect of sodium butabarbital and the mild tranquilizing and antihypertensive effects of reserpine, for antihypertensive-sedative effect without sedative accumulation or reserpine overload.

b. Indications for use contained in previous labeling, such as recommendations for use in coronary occlusion, angina pectoris, congestive heart failure, menopausal syndrome, functional gastrointestinal disorders, and insomnia, were reviewed by the National Academy of Sciences-National Research Council, and the Commissioner and found to be unsupported by substantial evidence of effectiveness. These indications for use have been deleted from the labeling by McNeil Laboratories. In its request for hearing the firm has not attempted to demonstrate that these indications are supported by adequate evidence.

c. Butiserpine Elixer was labeled as containing 15 milligrams butabarbital sodium and 0.1 milligram reserpine per 5 cubic centimeters. Each dose contained 7 percent alcohol. Indications for use in current and former labeling were the same as for the other butiserpine drugs. Approval of NDA 10-456 was withdrawn by notice published in the FEDERAL REGISTER on November 29, 1972 (37 FR 25247) after McNeil Laboratories failed to request a hearing.

LEGAL ARGUMENTS

a. The request for hearing on whether the butiserpine drugs are exempt from the drug effectiveness provisions of 21 U.S.C. 355 under the "grandfather" clause, section 107(c) of P.L. 87-781, is denied. The new-drug applications involved had not been withdrawn prior to

V 38 I 183 SEP 21 73 XUM

enactment of Public Law 87–781. They were "deemed approved" under the 1962 amendments to the act and one subject to withdrawal on the basis of the effectiveness requirements of the amendments.

b. The request for hearing on whether the butiserpine drugs are generally recognized as safe and effective for use and not new drugs within the meaning of 21 U.S.C. 321(p) is also denied. No adequate and well controlled clinical investigations of the butiserpine drugs published in the medical literature have been identified in the request for hearing. There is no data upon which experts can fairly and responsibly conclude that the safety and effectiveness of a fixed combination of 15 milligrams butabarbital sodium and 0.1 milligram reserpine has been proven and is so well established that such combination drugs can be generally recognized among such experts as safe and effective for their intended uses. The data are evaluated below.

DATA SUBMITTED IN SUPPORT OF REQUEST FOR HEARING

Literature relative to the individual components of the butiserpine drugs is only partially relevant to a determination of the safety and effectivenes of those components when administered in a single, combined dosage form. Data on individual components do not take into account factors pertinent to an assessment of the safety and effectiveness of the fixed combination, including, among other things, drug interaction (whether it be additive, synergistic, or negative). Insofar as the request for hearing is based on data respecting individual components of the butiserpine drugs, it is denied.

McNeil Laboratories has also identified data on the butiserpine drugs which it states constitute substantial evidence of the drugs effectiveness. On their face, these data do not qualify as adequate and well controlled studies. They may be summarized as follows:

a. *The Dituri Study (unpublished).* McNeil Laboratories described the data as a "double-blind" study of two different treatment regiments. One group of nine hypertensive patients was administered butabarbital sodium 30 milligrams twice daily for four weeks, followed by reserpine 0.2 milligram twice daily for four weeks. Seven of the nine patients experienced lowered blood pressure on both drugs.

A second group of 10 hypertensive patients received reserpine 0.2 milligram twice daily for four weeks, followed by two butiserpine tablets (equivalent to butabarbital sodium 30 milligrams and reserpine 0.2 milligram) twice daily for four weeks. Four of 10 patients on reserpine alone experienced lower blood pressure readings. Three of these four pateints maintained decreased readings or experienced a further drop in blood pressure. Of the six patients who did not respond to reserpine alone, three evidenced a decrease in blood pressure readings on butiserpine.

This investigation, conducted in 1955, is not adequate and well controlled under § 130.12(a)(5) (21 CFR 130.12). The data consists of 32 pages of unevaluated forms upon which are cryptically recorded (1) the identification of the drug as "Group A", or "B" etc., (2) the patient's name, sex, age, weight, and diagnosis, (3) concurrent treatments, (4) dates of semimonthly visits, (5) pulse and blood pressure readings on the dates of visits, (6) side effects, (7) dosage of drug administered, and (8) in some cases, brief "additional comments". There is no manuscript or other evaluation of the data by Dr. Dituri. No statement of the objective of the study is provided as required by § 130.12(a)(5)(ii)(*a*)(*1*) (21 CFR 130.12).

Many patients had multiple diagnosis in addition to hypertension, such as diabetes mellitus, obesity, arthritis, arteriosclerotic heart disease, psychoneuroses, and pyelonephritis. The data do not reflect a method of patient selection that provides adequate assurance that they are suitable for the purposes of the study as required by § 130.12(a)(5)(ii)(*a*)(*2*) (21 CFR 130.12). It is possible these subjects are suitable for purposes of the study, but the data do not show that any criteria other than hypertension was used to include subjects in the study, and no criteria are stated for exclusion of subjects from the study because of concurrent medical conditions. More important, however, is the fact that the data show only three patients diagnosed with "hypertension associated with conditions requiring the use of a daytime sedative (e.g. anxiety and tension)". Because McNeil Laboratories has indicated in its request for hearing (p. 3, Summary of Information) that the drug is indicated for patients with both hypertension and anxiety, it is apparent that the Dituri subjects were not suitable for purposes of the study.

The Dituri data also suffers from other deficiencies. Since there is no protocol or manuscript provided, there is no way for any reviewer of the data to determine how subjects were assigned to test groups to minimize bias as required by § 130.12(a)(5)(ii)(*a*)(*2*)(*ii*) (21 CFR 130.12), or how comparability in test and control groups of pertinent variables, such as age, sex, severity, or duration of disease, and use of drugs other than the test drug was achieved, as required by § 130.12(a)(5)(ii)(*a*)(*2*)(*iii*) (21 CFR 130.12). In this connection, the Commissioner observes that no information on the subjects relative to the history of their hypertension, its severity, duration, or regulation by other drugs was provided.

There is no explanation of the methods of observation and recording of results, including variables measured, quantitation, assessment of any subjects' responses, and steps taken to minimize bias on the part of the subjects and observer as required by § 130.12(a)(5)(ii)(*a*)(*3*) (21 CFR 130.12). The data does reflect pulse and blood pressure readings were taken once every two weeks, but no explanation is provided concerning the quantitative significance between different readings and variables which could influence such readings, such as body position when blood pressures were recorded.

There is no comparison of results of treatment with the control treatments which would permit quantitative evaluation of the results; and the nature of the control is neither stated nor documented, as required by § 130.12(a)(5)(ii)(*a*)(*4*) (21 CFR 130.12). Although McNeil Laboratories describes the study as "double blind" there is no data to show that the study was blind either to Dr. Dituri or the subjects.

Finally, there is no statistical analysis provided, as required by § 130.12(a)(5)(ii)(*a*)(*5*) (21 CFR 130.12). In this connection, however, the Commissioner observes that the group on butiserpine (six of 10 with some improvement) did not do as well as the control group (seven of nine with some improvement).

b. Clark, T. and Cross, C., "Clinical Effectiveness of Four Hypotensive Preparations" Angiology, 16: 238, May, 1965. A group of 118 hypertensive patients was divided into four sub-groups: 14 patients were given butabarbital 30 milligrams three or four times daily for three months; 35 patients were given butiserpine two to four times a day for a minimum of three months and for as long as eight months; 29 patients were given butabarbital 30 milligrams and hydrochlorothiazide (25 milligrams or 50 milligrams) one to three times daily for a minimum of three months; and another 40 patients were treated similarly with a combination of butabarbital, reserpine, and hydrochlorothiazide. The authors concluded that excellent control of blood pressure was obtained by butabarbital in 11 or 14 patients (79 percent); twelve patients (86 percent) reported they were less nervous, irritable, and no longer sufferred from insomnia. The butiserpine patients also were reported to have excellent results in the control of blood pressure (65 percent), nervousness (85 percent), irritability (100 percent), and insomnia (86 percent). Results in the two other treatment groups were also reported as excellent. However, on its face the study fails to meet the requirements of an adequate and well controlled study.

The purpose of the study, as stated by the authors, was to determine the clinical effectiveness of butabarbital alone and in combination with hydrochlorothiazide and/or reserpine. It was not designed to determine the contribution, if any, of butabarbital and reserpine to safety and effectiveness of the combination drug as required by 21 CFR 3.86. On this basis alone the study cannot be accepted as demonstrating the effectiveness of butiserpine. The authors of the paper concur. They state as a conclusion: "Although the role of the barbiturate has not been scientifically established, there is a clinical impression that it adds to the therapeutic usefulness of an antihypertensive agent."

Even if the study were designed to satisfy the inquiry into the roles the individual components play, there are

patent defects in the study rendering it unacceptable. The plan of study did not include a method of patient selection which (1) provides adequate assurance that they are suitable for purposes of the study (all patients were diagnosed as having hypertension, but it is unclear whether and how any diagnosis of anxiety was made, or whether the presence of anxiety was assumed on the basis of remarks or comments by patients to the investigators; the patient population had variable disease conditions in that some patients had labile hypertension, that is variable from day to day, while others had chronic or relatively stable hypertension; (2) diagnostic criteria of the condition to be treated or diagnosed, including confirmatory laboratory tests (diagnosis appears to be based on only one blood-pressure reading, body position unstated; no baseline was established by a number of readings at different times in different body attitudes; no laboratory tests, such as x-ray to determine heart enlargement, renal function tests to determine kidney involvement, eye ground examinations to determine vessel changes, etc. were conducted); (3) assigned the subjects to test groups in a way to minimize bias (labile hypertension patients were administered butabarbital while chronic patients were given the other test substances); and (4) assured comparability in test and control groups of pertinent variables such as severity and duration of disease and use of drugs other than the test substance (the authors state the test subjects were not comparable in duration or severity of disease; there is no indication of what other drugs, if any, the subjects in different test groups received), all of which are required by § 130.12(a)(5)(ii)(*a*)(*2*) (21 CFR 130.12).

The data do not show the methods of observation of results, including the variables measured and quantification (measurement of variables and quantification of results would appear to be impossible given the absence of an established baseline for blood pressure, particularly for those patients with labile or variable hypertension) as required by § 130.12(a)(5)(ii)(*a*)(*3*) (21 CFR 130.12). The data also do not provide information on the nature of any controls employed so as to minimize bias on the part of the investigators, and to permit quantitative evaluation of the contribution the components make to butiserpine (apparently neither the subjects or the investigators were blinded to minimize bias; reserpine was not administered alone and butabarbital was given to patients with labile, not chronic hypertension) as required by § 130.12(a)(5)(ii)(*4*) (21 CFR 130.12).

There was no statistical analysis. The only analysis was computation of rough percentages showing success of butabarbital similar to butiserpine in patient groups with different diagnoses.

c. Johnson, H. J., "Collections of Case Reports" (unpublished). Groups of from 14 to 49 patients diagnosed as suffering from anxiety, hypertension, or both were treated with butiserpine over a period of three weeks to two and one-half years. McNeil Laboratories state the treatments were generally successful.

The Johnson data is nothing more than a collection of case histories of patients administered butiserpine. The data do not purport to be controlled clinical investigations. In no respect are the criteria for well controlled investigations as set forth in § 130.12(a)(5)(ii) (21 CFR 130.12) satisfied by this data; i.e., there is no protocol, diagnostic criteria are unstated, patients were not assigned to test groups to minimize bias, pertinent variables such as duration and severity of disease and use of concurrent therapy are not taken into account, there is no comparison of the patients with any control (historical controls are inappropriate, but even so no data were provided in an attempt to establish such a control), and there is no statistical analysis. All of the data is testimonial in nature.

d. *All clinical data.* None of the data purport to establish the contributions the individual components make to the safety and effectiveness of butiserpine. McNeil Laboratories has not attempted to establish that there is a significant patient population for which combined therapy is necessary. At a minimum, such a population must be identified and documented; and thereafter, separate groups should be administered butiserpine, butabarbital alone, and reserpine alone. Statistical analysis must show a significant increase in effectiveness or safety of the combination over that of either component alone.

CONCLUSION

Therefore, the Commissioner of Food and Drugs, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1053, as amended; 21 U.S.C. 355(e)), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with respect to each of said drugs, evaluated together with the evidence available to him when each application was approved, there is a lack of substantial evidence that each of the drugs will have the effects it is purported or is represented to have under the conditions of use prescribed, recommended or suggested in the labeling thereof.

Pursuant to the foregoing findings, approvals of the above new-drug applications, and all amendments and supplements thereto, are withdrawn effective October 1, 1973.

(Sec. 505(e), 52 Stat. 1053, as amended (21 U.S.C. 355(e)).)

Dated September 19, 1973.

SAM D. FINE,
*Associate Commissioner for Compliance.*

[FR Doc.73-20214 Filed 9-20-73;8:45 am]

[DESI 5668; Docket No. FDC–D–599; NDA No. 5–668 etc.]

## CERTAIN COMBINATION GASTROINTESTINAL DRUGS

### Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications

In a notice (DESI 5668) published in the FEDERAL REGISTER of June 18, 1971 (36 FR 11757), the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the drugs described below stating that the drugs were regarded as possibly effective and lacking substantial evidence of effectiveness for the various labeled indications. The possibly effective indications have been reclassified as lacking substantial evidence of effectiveness in that no data have been submitted pursuant to the notice.

| NDA No. | Drug | NDA holder |
|---|---|---|
| 5-668... | Malglyn Tablets and Malglyn Compound Magma containing phenobarbital, belladonna alkaloids, and dihydroxyaluminum aminoacetate. | Brayten Pharmaceutical Co., 1715 West 38th St. Chattanooga, Tenn. 37409 |
| 11-183 | Aludrox SA suspension containing ambutonium bromide, butabarbital, aluminum hydroxide gel, and magnesium hydroxide. | Wyeth Laboratories Division, American Home Products Corp., P.O. Box 8299, Philadelphia, Pa. 19101. |
| 11-391 | Aludrox SA tablets containing ambutonium bromide, butabarbital, dried aluminum hydroxide gel, and magnesium hydroxide. | Wyeth Laboratories Division, American Home Products Corp. |

The holders of the new drug applications listed above have informed the Food and Drug Administration that marketing of Malglyn Magma Compound and Aludrox SA Suspension and Tablets has been discontinued.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new

V 38 I 183 SEP 21 73 XUM

drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, Maryland 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug applications(s) should not be withdrawn.

On or before Oct. 23, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Food and Drug Administration, Room 6–86, 5600 Fishers Lane, Rockville, Maryland 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within the specified time will constitute an election by him not to avail himself of the opportunity for a hearing. No extension of time may be granted.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before October 23, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after October 23, 1973 a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052–53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated September 13, 1973.

SAM D. FINE,
*Associate Commissioner for Compliance.*

### Health Resources Administration

### NURSING RESEARCH AND EDUCATION ADVISORY COMMITTEE

#### Notice of Meeting

The Administrator, Health Resources Administration, announces the meeting date and other required information for the following National Advisory body scheduled to assemble the month of September 1973:

| Committee name | Date, time, and place | Type of meeting and/or contact person |
|---|---|---|
| Nursing Research and Education Advisory Committee. | 9/24–25, 8:30 a.m., Conference Room 3, Bldg. 31, National Institutes of Health, Bethesda, Md. | Open—8:30 a.m.–10:00 a.m. on Sept. 24. Closed—remainder of meeting. Contact Dr. Doris Bloch, Federal Bldg., Room 6A–10, 9000 Rockville Pike, Bethesda, Md., code 301–496–6955. |

*Purpose.* The committee is charged with the initial review of research grant applications in all areas of nursing education and practice, including studies of extended professional roles model curricula, clinical investigations, historical research, and institutional research development and with surveying the status of research in nursing education and practice.

*Agenda.* Agenda items will cover administrative and staff reports during the open session of the meeting. The remainder of the meeting will be devoted to the review of grant applications and will not be open to the public, in accordance with the determination by the Administrator, Health Resources Administration, pursuant to Public Law 92–463, section 10(d).

Agenda items are subject to change as priorities dictate.

A roster of members and other relevant information regarding the open/closed session may be obtained from the contact persons listed above.

Dated September 17, 1973.

KENNETH M. ENDICOTT, M.D.,
*Administrator, Health Resources Administration.*

## DEPARTMENT OF TRANSPORTATION

### Coast Guard

[CGD 73–213N]

### NEW YORK HARBOR VESSEL TRAFFIC SYSTEM ADVISORY COMMITTEE

#### Notice of Meeting

This is to give notice pursuant to Publice Law 92–463, sec. 10(a), approved October 6, 1972, that the New York Harbor Vessel Traffic System Advisory Committee will conduct an open meeting on Wednesday, October 17, 1973, in the Auditorium of Building 108, Governors Island, New York beginning at 10:30 a.m.

Members of the Committee and their industry positions are:

Admiral John M. Will, USN (Ret.), State of New York Board of Commissioners of Pilots.
Captain H. C. Breitenfeld, United New York Sandy Hook Pilots' Benevolent Association.
Captain W. H. Burrill, State of New Jersey Board of Commissioners of Pilots.
Mr. Richard Dewling, U.S. Environmental Protection Agency.
Captain L. T. Earl, United New Jersey Sandy Hook Pilots' Benevolent Association.
Mr. A. Giallorenzi, American Institute of Merchant Shipping—Petroleum Industry Representative.
Mr. Alfred Hammon, Port Authority of New York and New Jersey.
Captain T. A. King, U.S. Department of Commerce Maritime Administration.
Commodore F. Lindner, Long Island Sound Commodores Association.
Colonel H. W. Lombard, USA, Department of the Army, Corps of Engineers.
Mr. Robert W. Sanders, New York Harbor Panel Marine Towing and Transportation Industry.
Captain R. D. Sante, USN, U.S. Navy, Military Sealift Command.
Captain S. M. Seledee, American Institute of Marine Underwriters.
Captain J. G. Stillwaggon, Interport Pilot's Associates, Inc.
Captain K. C. Torrens, American Institute of Merchant Shipping.

The Agenda for the October 17, 1973 meeting consists of:

1. Brief discussion of changes made to the Implementation Working Paper.
2. Report to the Committee of the progress on Communications analysis. Committee to determine:
   a. Are additional studies required?
   b. Time reports, if any, should be completed.
   c. Briefing of probability of multi-channel Vessel Traffic System Communications Requirements nationally—re: Headquarters Study.
3. Announce:
   a. Status of sub-committees for the study of Long Island Sound and Upper Hudson River.
   b. Specific tasks of sub-committees.
4. Announce the Committee procedures relative to requests for exemptions to the system.
5. Discuss equipment requirements for vessels—determine economic impact on the industry.
6. Report by the Captain of the Port New York, reference to possible speed limits to be imposed in the various areas of the harbor and anchorage area restrictions with respect to length, tugs required, etc.
7. Comments from the floor.

The New York Harbor Vessel Traffic System Advisory Committee was established by the Commander, Third Coast Guard District on April 1, 1973, to advise on the need for, and development, installation and operation of a Vessel Traffic System for the New York Harbor. Public members of the Committee serve voluntarily without compensation from the Federal Government, either travel or per diem.

Interested persons may seek additional information by writing Commander H. A. Pledger, Project Officer, Vessel Traffic System, Third Coast Guard District, Governors Island, New York 10004, or by calling 212–264–0409.

Dated September 7, 1973.

G. W. WAGNER,
*Captain, U.S. Coast Guard, Acting Commander, Third Coast Guard District.*

## ATOMIC ENERGY COMMISSION

[Docket Nos. 50–450 and 50–451]

### DELMARVA POWER & LIGHT COMPANY AND PHILADELPHIA ELECTRIC COMPANY

#### Notice of Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicants' Environmental Report; Time for Submission of Views on Antitrust Matter

Delmarva Power & Light Company, 800 King Street, Wilmington, Delaware 19899, and Philadelphia Electric Company, 2301 Market Street, Philadelphia, Pennsylvania 19101 (the applicants), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, have filed an application which was docketed on August 16, 1973, for authorization to construct and operate two generating units utilizing high temperature gas-cooled reactors. The application was tendered on April 30, 1973. Following a preliminary review for completeness, it was accepted on June 15, 1973.

The proposed nuclear facilities, designated by the applicants as the Summit Power Station, Units 1 and 2 will be located on a site in New Castle County, Delaware, approximately 1.2 miles south of the Chesapeake and Delaware Canal, 5 miles northeast of Middletown, Delaware, and 15 miles southwest of Wilmington, Delaware. Each reactor is designed for initial operation at approximately 2000 megawatts thermal, with a net electrical output of approximately 785 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before October 30, 1973. The request should be filed in connection with Docket Nos. 50–450–A and 50–451–A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and at the Newark Free Library, Elkton Road and Delaware Avenue, Newark, Delaware 19711.

The applicants also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR, Part 50, an environmental report dated April 1973. Following a preliminary review for completeness, it was rejected on June 15, 1973, for lack of sufficient information. The applicants submitted a supplement to the environmental report on July 30, 1973, and the report was accepted. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed construction of the Summit Power Station, Units 1 and 2 is also being made available at the Delaware State Planning Office, Tomas Collins Building, 530 South Dupont Highway, Dover, Delaware 19901, and at the Wilmington Metropolitan Area Planning and Coordinating Council, 4613 Robert Kirkwood Highway, Wilmington, Delaware 19808.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Maryland, this 20th day of August 1973.

For the Atomic Energy Commission.

DARRELL G. EISENHUT,
*Acting Chief, Gas Cooled Reactors Branch, Directorate of Licensing.*

[FR Doc.73–18380 Filed 8–20–73;8:45 am]

[Docket Nos. 50–448 and 50–449]

### POTOMAC ELECTRIC POWER COMPANY

#### Notice of Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Environmental Report; Time for Submission of Views on Antitrust Matter

Potomac Electric Power Company (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed on August 9, 1973, for authorization to construct and operate two single cycle, forced circulation, boiling water nuclear reactors. The application was tendered on July 2, 1973. Following a preliminary review for completeness, it was found acceptable for docketing on August 6, 1973.

The proposed nuclear facilities, designated by the applicant as the Douglas Point Nuclear Generating Station, Units 1 & 2 are located on the east bank of the Potomac River, about 30 miles south-southwest of Washington, D.C., in Charles County, Maryland, and are designed for initial operation at approximately 3579 megawatts (thermal), with a net electrical output of approximately 1173 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before October 30, 1973. The request should be filed in connection with Docket Nos. 50–448–A & 50–449–A.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR, Part 50, an environmental report dated August 8, 1973. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations relative to the proposed construction of the Douglas Point Nuclear Generating Station, Units 1 & 2, is also being made available at the Department

V 38 I 183 SEP 21 73 XUM

of State Planning, 301 West Preston Street, Baltimore, Maryland 21201 and at the Metropolitan Washington Council of Governments, 1225 Connecticut Avenue NW., Washington, D.C. 20036.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Maryland, this 14th day of August 1973.

For the Atomic Energy Commission.

WALTER R. BUTLER,
*Chief, Boiling Water Reactors, Branch 1 Directorate of Licensing.*

[FR Doc.73-18379 Filed 8-30-73;8:45 am]

---

[Docket No. 50-389]

## FLORIDA POWER & LIGHT CO.

### Hearing on Application for Construction Permit

In the matter of Florida Power & Light Company (St. Lucie Plant, Unit 2).

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," and Part 2, "Rules of Practice," notice is hereby given that a hearing will be held, at a time and place to be set in the future by an Atomic Safety and Licensing Board (Board), to consider the application filed under the Act by the Florida Power and Light Company (the applicant), for a construction permit for a pressurized water nuclear reactor designated as the St. Lucie Plant, Unit 2 (the facility), which is to be designed for initial operation at approximately 2570 thermal megawatts with a net electrical output of approximately 810 megawatts. The proposed facility is to be located on the applicant's site on Hutchinson Island in St. Lucie County, Florida, between the cities of Ft. Pierce and Stuart on the East Coast of Florida. The hearing will be scheduled to begin in the vicinity of the site of the proposed facility.

The hearing will be conducted by an Atomic Safety and Licensing Board (Board) which has been designated by the Chairman of the Atomic Safety and Licensing Board Panel, consisting of Dr. David L. Hetrick, Dr. Frank F. Hooper, and John B. Farmakides, Esq., Chairman. Dr. Marvin M. Mann has been designated as a technically qualified alternate, and Michael Glaser, Esq. has been designated as an alternate qualified in the conduct of administrative proceedings.

Upon completion by the Commission's regulatory staff of a favorable safety evaluation of the application and an environmental review, and upon receipt of a report by the Advisory Committee on Reactor Safeguards, the Director of Regulation will consider making affirmative findings on Items 1–3, a negative finding on Item 4, and an affirmative finding on Item 5 specified below as a basis for the issuance of a construction permit to the applicant:

*Issues pursuant to the Atomic Energy Act of 1954, as amended.* 1. Whether in accordance with the provisions of 10 CFR § 50.35(a):

(a) The applicant has described the proposed design of the facility including, but not limited to, the principal architectural and engineering criteria for the design, and has identified the major features or components incorporated therein for the protection of the health and safety of the public;

(b) Such further technical or design information as may be required to complete the safety analysis and which can reasonably be left for later consideration, will be supplied in the final safety analysis report;

(c) Safety features or components, if any, which require research and development have been described by the applicant and the applicant has identified, and there will be conducted a research and development program reasonably designed to resolve any safety questions associated with such features or components; and

(d) On the basis of the foregoing, there is reasonable assurance that (i) such safety questions will be satisfactorily resolved at or before the latest date stated in the application for completion of construction of the proposed facility, and (ii) taking into consideration the site criteria contained in 10 CFR Part 100, the proposed facility can be constructed and operated at the proposed location without undue risk to the health and safety of the public.

2. Whether the applicant is technically qualified to design and construct the proposed facility;

3. Whether the applicant is financially qualified to design and construct the proposed facility;

4. Whether the issuance of a permit for construction of the facility will be inimical to the common defense and security or to the health and safety of the public.

*Issue pursuant to National Environmental Policy Act of 1969 (NEPA).* 5. Whether, in accordance with the requirements of Appendix D of 10 CFR Part 50, the construction permit should be issued as proposed.

In the event that this proceeding is not a contested procedure as defined by 10 CFR 2.4(n), the Board will determine (1) without conducting a de novo evaluation of the application, whether the application and the record of the proceeding contain sufficient information, and the review of the application by the Commission's regulatory staff has been adequate, to support the findings proposed to be made by the Director of Regulation on Items 1–4 above, and to support, insofar as the Commission's licensing requirements under the Act are concerned, the issuance of the construction permit proposed by the Director of Regulation; and (2) determine whether the review conducted by the Commission pursuant to NEPA has been adequate. In the event that this proceeding is not contested the Board will convene a prehearing conference of the parties at a time and place to be set by the Board. It will also set the schedule for the evidentiary hearing. Notice of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

In the event that this proceeding becomes a contested proceeding, the Board will consider Items 1–5 above as a basis for determining whether the construction permit should be issued to the applicant.

The Board will convene a special prehearing conference of the parties to the proceeding and persons who have filed petitions for leave to intervene, or their counsel, to be held at such time as may be appropriate, at a place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.751a. Notice of the special prehearing conference will be published in the FEDERAL REGISTER.

The Board will convene a prehearing conference of the parties, or their counsel, to be held subsequent to any special prehearing conference, after discovery has been completed, at a time and place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.752.

With respect to the Commission's responsibilities under NEPA, and regardless of whether the proceeding is contested or uncontested, the Board will, in accordance with section A.11 of Appendix D of 10 CFR Part 50, (1) determine whether the requirements of section 102(2) (C) and (D) of NEPA and Appendix D of 10 CFR Part 50 have been complied with in this proceeding; (2) independently consider the final balance among conflicting factors contained in the record of the proceeding with a view to determining the appropriate action to be taken; and (3) determine whether the construction permit should be issued, denied, or appropriately conditioned to protect environmental values.

For further details, see the application for a construction permit and the applicant's Environmental Report, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., between the hours of 8:30 a.m. and 5 p.m. on weekdays. Copies of those documents are also available at the Indian River Junior College Library, 3209 Virginia Avenue, Ft. Pierce, Florida 33450, for inspection by members of the public between the hours of 8 a.m. and 9:30 p.m. Monday through Thursday, 8 a.m. and 5 p.m. on Friday, and 2 p.m. and 5 p.m. on Sunday. As they become available, a copy of the Safety Evaluation Report by the Commission's Directorate of Licensing, the Commission's draft and final detailed statements on environmental considerations, the report of the Advisory Committee on Reactor Safeguards (ACRS), the proposed construction permit, other relevant documents, and the transcripts of the prehearing conferences and of the hearing will also be available at the above locations. Copies of the Directorate of Licensing's safety evaluation, the Commission's final detailed statement on environmental considerations, the proposed construction permit, and the ACRS report, may be obtained, when available, by request to the Deputy Director for Reactor Projects, Directorate of Licensing, United States Atomic Energy Commission, Washington, D.C. 20545.

Any person who does not wish to, or is not qualified to become a party to this proceeding may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715. A person making a limited appearance may only make an oral or written statement on the record, and may not participate in the proceeding in any other way. Limited appearances will be permitted at the time of the hearing in the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, not later than October 23, 1973.

A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of Items 1–5 above.

Any person whose interest may be affected by the proceeding, who does not wish to make a limited appearance but who wishes to participate as a party in the proceeding must file a written petition under oath or affirmation for leave to intervene in accordance with the provisions of 10 CFR 2.714. A petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A petition for leave to intervene must be filed with the Office of the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., not later than October 23, 1973. A petition for leave to intervene which is not timely will not be granted unless the Board determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Board has considered those factors specified in 10 CFR 2.714(a)(1)–(4) and 2.714(d).

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have all the rights to participate fully in the conduct of the hearing, such as the examination and cross-examination of witnesses, with respect to their contentions related to the matters at issue in the proceeding.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705, must be filed by the applicant not later than October 11, 1973.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of the petition or request for limited appearance should also be sent to the Chief Hearing Counsel, Office of the General Counsel, U.S. Atomic Energy Commission, Washington, D.C. 20545, and to Mr. Jack R. Newman, Newman, Reis & Axelrad, 1100 Connecticut Avenue NW., Washington, D.C. 20036, attorney for the applicant.

Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708, an original and twenty (20) conformed copies of each such paper with the Commission.

With respect to this proceeding, pursuant to 10 CFR 2.785, an Atomic Safety and Licensing Appeal Board will exercise the authority and the review function which would otherwise be exercised and performed by the Commission. Notice as to the membership of the Appeal Board will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 13th day of September 1973.

UNITED STATES ATOMIC ENERGY COMMISSION,
GORDON M. GRANT,
*Acting Secretary of the Commission.*

[Docket No. 50-389]

## FLORIDA POWER AND LIGHT CO.

### Receipt of Application for Construction Permit and Facility License; Availability of Applicant's Environmental Report; Time for Submission of Views on Antitrust Matter

The Florida Power and Light Company (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed an application dated May 14, 1973, which was docketed September 4, 1973, for authorization to construct and operate a pressurized water nuclear reactor. The application was initially tendered on April 19, 1973. Following a preliminary review for completeness, the Preliminary Safety Analysis Report was found to be acceptable for docketing; however, the Environmental Report was rejected for lack of sufficient information. The applicant submitted additional environmental information on August 8, 1973, and the application was found acceptable for docketing. Docket No. 50-389 has been assigned to this application and should be referenced in any correspondence relating to it.

The proposed nuclear facility, designated by the applicant as the St. Lucie Plant, Unit 2, is to be located at the applicant's site on Hutchinson Island in St. Lucie County, Florida, between the Cities of Ft. Pierce and Stuart on the East Coast of Florida. The facility is to be designed for initial operation at approximately 2570 megawatts thermal, with a net electrical output of approximately 810 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before November 20, 1973. The submittal should reference Docket No. 50-389-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and at the Indian River Junior College Library, 3209 Virginia Avenue, Ft. Pierce, Florida 33450.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, an Environmental Report. This report, which discusses environmental considerations related to the proposed construction of the St. Lucie Plant, Unit 2, is available for public inspection at the aforementioned locations, and is also being made available at the Department of Administration, State Planning and Development Clearinghouse, 725 South Bronough Street, Tallahassee, Florida 32304.

V 38 I 183 SEP 21 73 XUM

After the Environmental Report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Maryland, this 12th day of September 1973.

For the Atomic Energy Commission.

KARL R. GOLLER,
*Chief, Pressurized Water Reactors Branch No. 3, Directorate of Licensing.*

## CIVIL AERONAUTICS BOARD

[Docket No. 25881]

### AMERICAN AIRLINES, INC. AND HUGHES AIRWEST

**Route Exchange Agreement, Notice of Prehearing Conference**

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on October 24, 1973, at 10:00 a.m. (local time) in Room 726, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before Administrative Law Judge Alexander N. Argerakis.

In order to facilitate the conduct of the conference parties are instructed to submit one copy to each party and four copies to the Judge of (1) proposed statements of issues; (2) proposed stipulations; (3) requests for information; (4) statement of positions of parties; and (5) proposed procedural dates. The Bureau of Operating Rights will circulate its material on or before October 11, 1973, and the other parties on or before October 18, 1973. The submissions of the other parties shall be limited to points on which they differ with the Bureau of Operating Rights, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., September 17, 1973.

[SEAL] RALPH L. WISER,
*Chief Administrative Law Judge.*

[Docket No. 24488; Order 73-9-58]

### INTERNATIONAL AIR TRANSPORT ASSOCIATION

**Fares Over South Pacific**

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 14th day of September 1973.

By Order 73-7-55, dated July 12, 1973, the Board approved IATA agreements revising the South Pacific fare structure. The Board's approval of that portion of the agreement which provides for through fares between the mainland U.S. and South Pacific points in excess of the sum of local sector fares was approved subject to modification after receipt and evaluation of carrier justification and comments from interested third parties.[1]

Comments in support of the IATA agreement have been received from American Airlines, Inc. (American), Pan American World Airways, Inc. (Pan American) and Air New Zealand Limited (New Zealand). The respondents generally contend that IATA negotiates fares for international routes based on cost considerations for the routes to be operated; that it would be unsound to construct an international fare for a long-haul, low-traffic-density route by using a domestic fare that is recognized as unprofitable; that domestic and international fare structures will always coexist and the resultant fare undercutting cannot be entirely eliminated; that the Board has approved IATA resolutions establishing the precedence of specified through fares over any lower combinations of intermediate fares; that the problems of establishing international fares are made more difficult because of the multi-tier domestic fare structure to Hawaii; and that fluctuations in domestic fares are beyond the control of IATA members and compliance with the Board's proposal would create additional problems of routing control and other undercuts. Pan American further alleges that the Board erred in its fare table in Appendix B of Order 73-7-55 in that the combination of fares over Honolulu are in fact understated and are not in conformance with the IATA agreements.

The Board has on several occasions in the past addressed itself to the matter of the combinability of fares. The first major decision, IATA Regional Traffic Conference Investigation, 24 CAB 463 (1957), commonly known as the TAN case, dealt primarily with the combinability of U.S. domestic fares in international air transportation offered by non-IATA carriers. More recently, by Order 72-10-1, October 2, 1972, the Board conditioned IATA Resolution 001 (Permanent Effectiveness Resolution) as follows:

> No IATA resolution shall be construed as preventing any agent or carrier from selling a ticket or any number of tickets for air transportation to any person who meets the travel requirements affixed to the air fares subject to the stipulations contained in the lawful tariffs of the various carriers involved in said transportation, as filed with the Civil Aeronautics Board (where such filing is required by law).

[1] For example, the sum of the local-sector coach/economy one-way fares over Honolulu on mainland-Sydney services would undercut the through IATA fares from $18 to $55. On mainland-Papeete services, the undercuts range from $28 to $65.

As a consequence of the above condition the combination of sector fares filed with the Board in the carriers' tariffs are valid for transportation even though the IATA through fare as published may be undercut. As we said in Order 72-10-1:

> A through fare which is higher than the aggregate of intermediate fares is ordinarily considered to be unreasonable per se, and would not ordinarily be permitted to go into effect.

While the lower combination fares are legal and can be used to secure the desired transportation, Board approval of the higher IATA through-fare agreement would mean that the higher fares will be shown in various ticket-selling publications, and as a consequence only the more knowledgeable traveler or travel agent would be aware of the savings to be realized from the purchase of a combination of fares ticket. We, therefore, conclude that approval of the agreements establishing through first-class and normal economy fares higher than the sum of the individual sector fares would be adverse to the public interest.

We do not deny that certain procedural problems may result from our decision but we do not believe these problems are insurmountable. Should domestic fares change, IATA has ample wherewithal to likewise change IATA fares by mail or cable vote. Further, as noted in Order 73-7-55, although an IATA review of the fare construction rules is pending, we have serious reservations about constructing South Pacific fares over Los Angeles rather than over Hawaii because, for example, Hawaii is a stop on many South Pacific services.

Finally, we would first point out that level of mainland-Hawaii fares is not at issue in this proceeding. In any event the Board has recently permitted certain increases in the domestic Hawaii fares. A comparison of the IATA-agreed South Pacific through fares and the combination of fares over Hawaii reflecting the increase is shown in the attachments hereto. It is apparent that significant undercuts will continue to exist.

The Board, acting pursuant to sections 102, 204(a) and 412 of the Act, finds that the agreement establishing first-class and economy fares in air transportation at levels higher than the sum of the individual sector fares are adverse to the public interest or in violation of the Act and should be disapproved.

Accordingly, *It is ordered, That:* The following resolutions incorporated in Agreement C.A.B. 23596 as they would apply in air transportation be and hereby are disapproved.

| Agreement CAB 23596 | IATA No. | Title | Application |
|---|---|---|---|
| R 6 | 015a | South Pacific Proportional Fares-North America (Revalidating and Amending). | 3/1 South Pacific. |
| R 7 | 050a | II South Pacific First-Class Fares. | Do. |
| R-9 | 066a | II South Pacific Economy-Class Fares. | Do. |

This Order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[1]

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[Docket No. 25630]

### SURINAAMSE LUCHTVRACHT ONDERNEMING N.V.

**Postponement of Prehearing Conference and Hearing**

In the matter of Surinaamse Luchtvract Onderneming N.V. (Surinam Air Cargo Corporation), foreign air carrier permit renewal, Surinam-Miami service.

Counsel for the applicant has requested a postponement of the prehearing conference and hearing in this proceeding to October 17, 1973, in order to have sufficient time to prepare exhibit material requested by the Bureau of Operating Rights.

Accordingly, notice is given that the prehearing conference and hearing now scheduled for October 3, 1973 (38 FR 25466, September 13, 1973), is hereby postponed to October 17, 1973, at 10 a.m. (local time), in Room 503, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before the undersigned.

Dated at Washington, D.C., September 17, 1973.

[SEAL] ALEXANDER N. ARGERAKIS,
*Administrative Law Judge.*

## COMMISSION ON CIVIL RIGHTS

### ARIZONA

**Notice of Hearing**

Notice is hereby given, pursuant to the provisions of the Civil Rights Act of 1957, 71 Stat. 634, as amended, that a public hearing of the U.S. Commission on Civil Rights will commence on October 22, 1973, and that an executive session, if appropriate, will be convened on October 21, 1973, to be held at the Navajo Civic Center, Window Rock, Arizona.

The purpose of the hearing is to collect information concerning legal developments constituting a denial of equal protection of the laws under the Constitution because of race, color, religion, sex, or national origin which affect educational opportunities, or the provision of medical and welfare services, or employment opportunities, or economic development for the Navajo Indians who reside on or near the Navajo Reservation in Arizona, New Mexico, or Utah; to appraise the laws and policies of the Federal Government with respect to denials of equal protection of the laws under the Constitution because of race, color, religion, sex, or national origin as they affect the educational opportunities, or the provision of medical and welfare services, or employment opportunities, or economic development for Navajo Indians, in the above areas, and to disseminate information with respect to denials of equal protection of the laws because of race, color, religion, sex, or national origin in the fields of education, medical and welfare services, employment, economic development, and related matters.

Dated at Washington, D.C., September 18, 1973.

STEPHEN HORN,
*Acting Chairman.*

### NEW JERSEY STATE ADVISORY COMMITTEE

**Agenda and Notice of Open Meeting**

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the New Jersey State Advisory Committee will convene at 7:30 p.m. on September 21, 1973, in Room 115, Labor Education Center, Rutgers University, Ryders Lane, New Brunswick, New Jersey 08903.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Mid-Atlantic Regional Office of the Commission, Room 510, 2120 L Street NW., Washington, D.C. 20425.

The purpose of this meeting shall be to discuss current developments in the progress of the New Jersey State Advisory Committee's prison study.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., September 13, 1973.

ISAIAH T. CRESWELL, JR.,
*Advisory Committee Management Officer.*

## FEDERAL COMMUNICATIONS COMMISSION

[Report 666]

### COMMON CARRIER SERVICES INFORMATION[1]

**Domestic Public Radio Services Applications Accepted for Filing[2]**

SEPTEMBER 17, 1973.

Pursuant to §§ 1.227(b)(3) and 21.30(b) of the Commissions rules, an application, in order to be considered with any domestic public radio services application appearing on the list below, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed below if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

20253-C2-74—Comex, Inc. (KCI295). C.P. to utilize facilities operating on 43.22 mHz as standby at Loc. #1: Elm Street, Manchester, New Hampshire, and to replace transmitter at Loc. #3: Swenson's Quarry, Rattlesnake Hill, Concord, New Hampshire.

20254-C2-P-74—Radio Relay Corporation (KEC745). C. P. to change antenna system operating on 43.22 MHz at Loc. #7: 135 St. Andrews Lane, Glen Cove, New York.

20255-C2-P-74—General Telephone Company of the Southwest (KKO351). C.P. for additional facilities to operate on 152.54 MHz at 5.6 Miles West of San Angelo, Texas.

20256-C2-P-74—Phenix Communications Company, Inc. (KLF555). C.P. to change antenna system and location and to replace transmitter operating on 152.09 MHz to be located at a new site described as Loc. #2: 809 S. Seventh Street, Opelika, Alabama.

20257-C2-AL-74—Collins Communications Company. Consent to Assignment of License from Clarence Collins, ASSIGNOR to Collins Radio Communications Corporation, ASSIGNEE. Station: (KUO574), Garner. Lake Route, Gillette, Wyoming.

20259-C2-P-74—Telepage, Inc. (KLF605). C.P. to change antenna system and location operatin on 158.61 mHz to a new Loc. #2: 1010 West Holly Street, Bellingham, Washington.

20260-C2-P-74—Southwestern Bell Telephone Company (NEW). C.P. for a new 2-way station to operate on 152.66 MHz to be located 6 miles South of Canadian, by Hwy. 60, Texas.

[1] All applications listed below are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

[2] The above alternative cutoff rules apply to those applications listed below as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, and Local Television Transmission Services (part 21 of the rules).

[1] Attachment A, Comparison of IATA South Pacific Through Fares and Combination of Local Fares over Honolulu (One-Way First-Class Fares), is filed as part of the original document.

V 38 I 183 SEP 21 73 XUM

20261–C2–P–74 — Massachusetts-Connecticut Mobile Telephone Company (KQZ747). C.P. for additional facilities to operate on 158.70 MHz to be located at seven new sites described as: Loc. #2: Killingsworth, Connecticut; Loc. #3: Beseck Mountain, Middletown, Connecticut; Loc. #4: End of Cook Drive, Montville, Connecticut; Loc. #5: On Route 195 approx. 0.5 mile South of Storrs, Connecticut; Loc. #6: Willis Street, Bristol, Connecticut; Loc. #7: Highland Avenue, Torrington, Connecticut; Loc. #8: Circle Watner Tract, Extension of Garden Hill, Waterbury, Connecticut; and control facilities to operate on 75.46 MHz at a location described as Loc. #9: Meriden Mountain, Connecticut.

20262–C2–P–(2)–74—Westchester Mobilfone System, Inc. (KEA274). C.P. to change antenna location and replace transmitter operating on 152.06 and 152.15 MHz to be located at St. Marys In The Field School, Mt. Pleasant, New York.

20263–C2–P–74—Zipcall (KTS212). C.P. for additional facilities to operate on 43.22 MHz at Loc. #1: End of Tower Road, Fall River, Massachusetts.

20264–C2–AL–73—Montana Communications. Consent to Assignment of License from Montana Communications, ASSIGNOR to James W. Corn d/b as Omnicom, ASSIGNEE. Station: KOF914, 3200 Clark, on TV Mtn., 9 miles north of Missoula, Montana.

*MAJOR AMENDMENTS*

4472–C2–P–(2)–73—Gulf Mobilphone Alabama, Inc. (NEW), Birmingham, Alabama. Amend to change base and mobile frequencies for location #2 to 454.275 and 459.275 respectively. All other particulars remain as reported on PN #628, dated December 26, 1972.

8336–C2–P–73—Portable Communications, Inc. (NEW). Amend to change base frequency to 454.325 MHz and location to near Rt. 83 and Center Rd., 6 miles SE. of Dunkirk, New York. All other particulars to remain as reported on PN #649, dated May 21, 1973.

8337–C2–P–73—Portable Communications, Inc. (NEW). Amend to change location to near Rt. 83 and Center Rd., 6 miles SE. of Dunkirk, New York. All other particulars to remain as reported on PN #649, dated May 21, 1973.

*CORRECTION*

20157–C2–P–74—General Telephone Company of the Southwest (KKO966). Correct call sign to read (KKQ966) instead of (KKO966). All other particulars to remain as reported on PN #662, dated August 20, 1973.

[Docket No. 19808]

## TELERENT LEASING CORP. ET AL.

### Petition for Declaratory Rulings

In the matter of Telerent Leasing Corporation, et al., petition for declaratory rulings on questions of Federal pre-emption on regulation of interconnection of subscriber-furnished equipment to the nationwide switched public telephone network.

1. In its Memorandum Opinion and Order of September 6, 1973, in this proceeding (FCC 73–901) released September 7, 1973 which designated the above captioned matter for oral argument before the Commission on October 30, 1973, preliminary procedural dates were established, namely, October 1, 1973, for filing of briefs and October 15, 1973, for filing replies and statements of intention to appear for the oral argument.

2. In order to establish a procedure whereby all parties filing briefs may receive prompt service of all briefs filed by other parties and, in light of the tight schedule previously established, we shall require all parties who plan to file briefs with the Commission on or before October 1, 1973, to notify the Chief, Common Carrier Bureau, and Chief, Domestic Rates Division, in writing, on or before September 24, 1973, of such intention. We shall promptly issue a public notice prior to October 1, 1973, listing all such parties and all parties so listed shall be served with a copy of all briefs filed on October 1, 1973, and with a copy of reply briefs. We also shall extend the time for filing reply briefs from October 15, 1973, to and including October 22, 1973, in order to grant additional time for the preparation of such reply briefs.

3. Accordingly, *it is, hereby, ordered,* Pursuant to authority delegated by section 0.303(c) of the Commission's Rules. That the time for filing reply comments is extended from October 15, 1973, to October 22, 1973.

4. *It is further ordered,* That each person or entity intending to file a brief on or before October 1, 1973, shall so notify the Chief of the Common Carrier Bureau and the Chief, Domestic Rates Division, in writing by no later than September 24, 1973.

5. *It is further ordered,* That a copy of all briefs filed on or before October 1, 1973 and replies filed on or before October 22, 1973, shall be served on all parties listed in a Public Notice to be published by the Commission prior to October 1, 1973.

[SEAL] BERNARD STRASSBURG,
*Chief, Common Carrier Bureau.*

Adopted September 14, 1973.

Released September 14, 1973.

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN PERU

### Entry or Withdrawal From Warehouse for Consumption

SEPTEMBER 19, 1973.

On November 23, 1971, the United States Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a comprehensive bilateral cotton textile agreement with the Government of Peru concerning exports of cotton textiles and cotton textile products from Peru to the United States over a five-year period beginning on October 1, 1971, and extending through September 30, 1976. Among the provisions of the agreement are those establishing an aggregate limit for the 64 categories and within the aggregate limit specific limits on Categories 22, 56, 57, 58, and 60 for the third agreement year beginning October 1, 1973.

Accordingly, there is published below a letter of September 19, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textiles and cotton textile products in the above categories, produced or manufactured in Peru, which may be entered or withdrawn from warehouse for consumption in the United States for the twelve-month period beginning October 1, 1973, and extending through September 30, 1974,, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

SETH M. BODNER,
*Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.*

COMMISSIONER OF CUSTOMS,
*Department of the Treasury,*
*Washington, D.C.*

SEPTEMBER 19, 1973.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of November 23, 1971, between the Governments of the United States and Peru, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective October 1, 1973 and for the twelve-month period extending through September 30, 1974, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 22, 56, 57, 58, and 60, produced or manufactured in Peru, in excess of the following levels of restraint:

| Category: | | *Twelve-Month Levels of Restraint* |
|---|---|---|
| 22 | square yards | 1,929,375 |
| 56 | dozen | 53,927 |
| 57 | do | 44,100 |
| 58 | do | 99,225 |
| 60 | do | 15,914 |

In carrying out this directive, entries of cotton textiles and cotton textile products in the above categories, produced or manufactured in Peru, which have been exported to the United States from Peru prior to October 1, 1973, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period October 1, 1972 through September 30, 1973. In the event that the levels of restraint established for such goods for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of November 23, 1971, between the Governments of the United States and Peru which provide, in

V 38 I 183
SEP 21 73
XUM

part, that within the aggregate limit, the limits of certain categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above will be made to you by further letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on April 29, 1972 (37 FR 8802), as amended on February 14, 1973 (38 FR 4336).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Peru and with respect to imports of cotton textiles and cotton textile products from Peru have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely.

SETH M. BODNER,
*Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.*

[FR Doc 73-20304 Filed 9-20-73;8:45 am]

## FEDERAL POWER COMMISSION

[Docket No. CI73-900]

### ADOBE OIL CO.

### Order Granting Intervention, Setting Hearing Date and Prescribing Procedure

SEPTEMBER 13, 1973.

On June 18, 1973, Adobe Oil Company (Adobe) filed an application in Docket No. CI73-900 for a limited term certificate of public convenience and necessity with pregranted abandonment authority, pursuant to section 7(c) of the Natural Gas Act and the Commission's regulations thereunder, for the sale of gas to Transwestern Pipeline Company (Transwestern) from the Rock Tank (Morrow) Field, Eddy County, New Mexico (Permian Basin).

Specifically, Adobe proposes to sell approximately 240,000 Mcf per month to Transwestern for one year from its No. 2 Smith Federal well pursuant to a letter agreement dated May 2, 1973. The proposed rate of 54.25 cents per Mcf, subject to downward Btu adjustment from a base of 1,000 and upward Btu adjustment from a base of 1,000 to a maximum of 1,100 Btu, exceeds the applicable area ceiling rate of 35 cents per Mcf for sales in the Permian Basin, established by Commission Opinion No. 662.

Adobe commenced a 60 day emergency sale pursuant to § 157.29 of the Commission's regulations under the Natural Gas Act from the subject well on June 20, 1973. This sale ended August 19, 1973. On August 17, 1973, an extension of the 60 day emergency sale was granted by letter.

A late petition to intervene in the above application was filed by Transwestern on July 18, 1973.

Transwestern, in its petition to intervene, has requested that the intermediate decision be omitted, that oral hearing be waived and that the application be heard under the shortened procedure afforded by § 1.32 of the Commission's rules of practice and procedure.

The application in this proceeding represents a sizable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentations, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of a limited-term certificate on the terms proposed in that application.

*The Commission finds*

(1) The intervention of Transwestern in this proceeding may be in the public interest.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

*The Commission orders*

(A) Petitioner's request that the intermediate decision be omitted, that oral hearing be waived and that the application be heard under the shortened procedure afforded by § 1.32 of the Commission's Rules of Practice and Procedure is not in the public interest and is hereby denied.

(B) Transwestern is hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission: *Provided, however,* That the participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of said intervenor shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure and the Regulations under the Natural Gas Act, a public hearing shall be held on October 2, 1973, at 10 a.m., e.d.t. in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by the applicant.

(D) On or before September 21, 1973, Adobe and any supporting party shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their position.

(E) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.[1]

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20130 Filed 9-20-73;8:45 am]

[Docket Nos. CP72-35, CP69-41]

### ALGONQUIN GAS TRANSMISSION CO.

### Compliance Tariff Filing

SEPTEMBER 12, 1973.

Take notice that on August 21, 1973, Algonquin Gas Transmission Company (Algonquin) tendered for filing First Revised Sheet No. 11-D to its FPC Gas Tariff, Original Volume No. 1. Algonquin states the tariff sheet as revised complies with the condition specified in the Commission's order issued in these dockets on August 10, 1973, and conforms the Minimum Bill provision to the subject tariff sheets requirements of that order.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NW., Washington, D.C 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 26, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20124 Filed 9-20-73;8:45 am]

[Docket No. RP71-122]

### ARKANSAS LOUISIANA GAS CO.

### Order Denying Petition, Establishing Procedures and Setting Hearing Date

SEPTEMBER 13, 1973.

On May 14, 1973, Arkansas Lightweight Aggregate Corporation (Arkansas Lightweight) filed its petition with the

[1] Statements of Commissioners Brooke and Moody are filed as part of the original document.

Commission seeking a declaratory order as to the proper interpretation of, or, in the alternative, extraordinary relief from the curtailment plan ordered by the Commission for Arkansas Louisiana Gas Company (Arkla) in Opinion Nos. 643 and 643-A issued in the above-captioned proceeding on January 8 and April 10, 1973, respectively. Notice of Arkansas Lightweight's petition was given by publication in the FEDERAL REGISTER on June 1, 1973 (38 FR 15383).

Arkansas Lightweight alleges that the natural gas requirements for its England, Arkansas aggregate manufacturing plant are approximately 1500-2200 Mcfd, whereas its contract maximum is 1200 Mcfd. Arkansas Lightweight states that despite the disparity between its requirements and its contract maximum, Arkla has until recently served the total requirements of the England plant. However, by letter dated April 12, 1973, Arkla notified Arkansas Lightweight that it was exceeding its daily contract maximum and that Arkla could no longer deliver more than that amount. Arkansas Lightweight further alleges that if deliveries are reduced to 1200 Mcfd, it will be forced to reduce production at its England plant by 50% which will cause it to lay off several of its 29 employees.

Therefore, Arkansas Lightweight requests the Commission by way of declaratory order to direct Arkla to measure curtailments from actual requirements rather than from contractual entitlements. Arkansas Lightweight argues that this interpretation is consistent with the intent of Opinion Nos. 643 and 643-A. Alternatively, should the Commission determine not to issue the declaratory order sought, Arkansas Lightweight requests extraordinary relief in the form of authorization to receive its daily requirements for a period of one year. During this period Arkansas Lightweight will complete the installation of alternate fuel facilities thereby enabling it to operate within its contractual limitation without disruption.

On June 19, 1973, Arkla filed its answer to Arkansas Lightweight's petition. Therein, Arkla opposed both Arkansas Lightweight's request for a declaratory order and its request for extraordinary relief.

Arkla argues that since the petition fails to disclose a case or controversy with regard to the contractual relations between Arkla and Arkansas Lightweight, a request for a declaratory order will not lie. Arkla further states that the appropriate vehicle for the relief sought by Arkansas Lightweight is extraordinary relief, not a declaratory order.

A fair reading of Opinion No. 643 issued in this docket on January 8, 1973, leaves no doubt as to the lack of merit or Arkansas Lightweight's request for a declaratory order. Therein, we stated as paragraph 42:

> If system deliverability permits only partial delivery of gas to a given category of use, curtailment will be effected on the basis of a pro rata sharing based on historical deliveries to customers for that category. Historical takes will be calculated on the basis of a 3-year average taken from the 3-year period ending September 30, 1971, which is prior to the implementation of the filed curtailment plan on October 15, 1971. On days when curtailment is required, total deliveries to individual customers may not exceed contract volumes.

The allegations made by Arkansas Lightweight, at best, constitute the basis for the filing of a request seeking extraordinary relief. Therefore, Arkansas Lightweight's petition for a declaratory order is denied. We will treat its filing solely as a petition for extraordinary relief.

*The Commission finds*

It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing to determine whether the public convenience and necessity requires the grant of extraordinary relief sought.

*The Commission orders*

(A) Pursuant to the authority of the Natural Gas Act, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter 1), a public hearing shall be held commencing on October 2, 1973, at 10:00 a.m. (EDT) in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 to determine whether extraordinary relief is required.

(B) On or before September 17, 1973, Arkansas Lightweight shall prepare and file with the Commission and serve on all parties, including Staff, testimony and exhibits in support of its request for extraordinary relief. Any other party herein choosing to file evidence and exhibits shall make them available to all participants at the beginning of the hearing and should endeavor to make such materials available at an earlier date if possible.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[FR Doc 73-20108 Filed 9-20-73;8:45 am]

[Docket No. CI73-898]

### BALLARD & CORDELL CORP.

### Order Providing for Hearing, Permitting Intervention and Establishing Procedures

SEPTEMBER 13, 1973.

On April 15, 1971, the Commission, acting pursuant to the authority of the Natural Gas Act, as amended, particularly sections 4, 5, 7, 8, 10, and 16 thereof (52 Stat. 822, 823, 824, 825, 826, 830; 56 U.S.C. 717c, 717d, 717f, 717g, 717l and 717), issued Order 431 promulgating a Statement of General Policy with respect to the establishment of measures to be taken for the protection of as reliable and adequate service as present natural gas supplies and capacities will permit.

On June 18, 1973, The Ballard & Cordell Corporation (Applicant) filed in Docket No. CI73-898 an application pursuant to section 7(c) of the Natural Gas Act and § 2.70 of the Commission's general policy and interpretations thereunder for a limited term certificate of public convenience and necessity with pre-granted abandonment, authorizing the emergency sale of natural gas to Texas Eastern Transmission Corporation (Texas Eastern) from acreage in Wharton County, Texas. Applicant requests that the application be disposed of under the shortened procedure set forth in § 1.32 of the Commission's rules of practice and procedure.

The one year limited-term certificate application, pursuant to a letter agreement dated June 1, 1973, limits Texas Eastern's obligation to purchase to 3,000 Mcf per day at a rate of 50.0¢ per Mcf.

Applicant received a limited-term certificate in Docket No. CI72-853 authorizing sales to Texas Eastern from the same acreage at a rate of 35.0¢ per Mcf. This limited-term certificate expired on August 5, 1973.

In Order 431, the Commission amended Part 2, Subchapter A, General Rules, Chapter I, Title 18 of the Code of Federal Regulations by adding a new § 2.70, which reads in pertinent part:

> (3) The Commission recognizing that additional short-term gas purchases may still be necessary to meet the 1971-1972 demands, will continue the emergency measures referred to earlier for the stated 60-day period. If the emergency purchases are to extend beyond the 60-day period, paragraph 12 in the Notice issued by the Commission on July 17, 1970, in Docket No. R-389A should be utilized (35 FR 11638). The Commission will consider if the pipeline demonstrates emergency need • • •

Paragraph 12 of R-389A provided, in part, that applicants, requesting certificates for sales of natural gas in excess of the ceiling or guideline rate, shall state the grounds for claiming that the present or future public convenience and necessity requires issuance of a certificate on the terms proposed in the application.

The application in this proceeding represents a significant volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers; nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of a limited-term certificate on

V 381 83 SEP 21 73 XUM

the terms proposed in that application.

The period for filing protests or interventions expired on July 16, 1973. No protests or interventions were received prior to that date. On July 18, 1973, Texas Eastern filed a late petition to intervene in support of the application. Texas Eastern requests that the certificate be issued under the shortened procedure prescribed in § 1.32 of the Commission's rules of practice and procedure.

*The Commission finds*

(1) Good cause exists to set for formal hearing the application for a limited term certificate herein and deny the requests to dispose of this application under the shortened procedure prescribed in § 1.32 of the Commission's rules of practice and procedure.

(2) It may be in the public interest to permit Texas Eastern Transmission Corporation, which filed a late petition, to intervene in this proceeding.

*The Commission orders*

(A) The application for limited-term certificate for sale of natural gas filed in Docket No. CI73-898 is hereby set for hearing and the requests to dispose of this application under the shortened procedure prescribed in Section 1.32 of the Commission's rules of practice and procedure are hereby denied.

(B) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly Sections 7, 15, and 16, and the Commission's rules and regulations under that Act, a public hearing shall be held commencing October 17, 1973 at 10:00 a.m. (EDT) at a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning whether the present or future convenience and necessity requires the issuance of a limited-term certificate for the sale of natural gas on the terms proposed in this application and whether the issuance of said certificate should be conditioned in any way.

(C) Texas Eastern Transmission Corporation is hereby permitted to become an intervener, subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and, *Provided, further,* That the admission of such intervener shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in these proceedings.

(D) The applicant seeking the limited-term certificate and the proposed purchaser, Texas Eastern shall, on or before October 5, 1973, file with the Commission and serve on all parties to this proceeding, including Commission Staff, all testimony to be sponsored in support of the instant application.

By the Commission.[1]

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20121 Filed 9-20-73;8:45 am]

[Docket No. CI73-920]

## BRUNSON AND McKNIGHT, INC. ET AL.

### Order Granting Intervention, Setting Hearing Date, and Prescribing Procedure

SEPTEMBER 13, 1973.

On June 25, 1973, Brunson and McKnight, Inc. (Operator), et al., (Brunson and McKnight) filed an application for a limited term certificate of public convenience and necessity with pre-granted abandonment authority, pursuant to section 7(c) of the Natural Gas Act and the Regulations thereunder, for the sale of gas to Transwestern Pipeline Company (Transwestern) from the South Carlsbad Area, Eddy County, New Mexico) Permian Basin).

Specifically, Brunson and McKnight proposes to sell approximately 40,000 Mcf of gas per month to Transwestern for a period of one year pursuant to a letter agreement dated April 17, 1973. The proposed rate of 52 cents per Mcf, subject to downward Btu adjustment from a base of 1000 and upward Btu adjustment from a base of 1000 to a maximum of 1100 Btu, exceeds the applicable area ceiling rate of 35 cents per Mcf for sales in the Permian Basin, established by Commission Opinion No. 662.

Brunson and McKnight commenced a 60 day emergency sale pursuant to § 157.29 of the Commission's regulations under the Natural Gas Act from the subject well on May 17, 1973. Such sale ended on July 16, 1973. Brunson and McKnight were authorized to extend such emergency sale an additional 60 days by letter of July 13, 1973.

A timely petition to intervene in support of the application was filed on July 23, 1973, by Transwestern.

Brunson and McKnight, in its application, has requested that the intermediate decision be omitted, that oral hearing be waived and that the application be heard under the shortened procedure afforded by § 1.32 of the Commission's rules of practice and procedure.

The application in this proceeding represents a sizeable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future convenience and necessity requires issuance of a limited-term certificate on the terms proposed in that application.

*The Commission finds*

(1) The intervention of Transwestern in this proceeding may be in the public interest.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

*The Commission orders*

(A) Applicant's request that the intermediate decision be omitted, that oral hearing be waived and that the application be heard under the shortened procedure afforded by Section 1.32 of the Commission's Rules of Practice and Procedure is not in the public interest and is hereby denied.

(B) Transwestern is hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission: *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held on October 30, 1973, at 10 a.m. (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by the applicant.

(D) On or before October 9, 1973, Brunson and McKnight and any supporting party shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their positions.

(E) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.[1]

## CITIES SERVICE GAS CO.

### Notice of Application

SEPTEMBER 12, 1973.

Take notice that on August 30, 1973, Cities Service Gas Company (Applicant), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP74-57 an application pursuant to section 7(c) of the Natural Gas Act and § 157.7(b) of the regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction during the calendar year 1974 and operation of facilities to take in to its pipeline system natural gas purchased from producers and other similar sellers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in various producing areas generally coextensive with said system.

The total cost of the proposed facilities will not exceed $4,000,000, and the cost of any single project will not exceed $1,000,000. The facilities are to be financed with cash on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations and under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20114 Filed 9-20-73;8:45 am]

[Docket No. RP72-157]

## CONSOLIDATED GAS SUPPLY CORP.

### Proposed Changes in Rates and Charges

SEPTEMBER 12, 1973.

Take notice that Consolidated Gas Supply Corporation (Consolidated) tendered for filing on August 27, 1973, proposed changes in its FPC Gas Tariff, First Revised Volume No. 1. The filing consists of a proposed Second Substitute Eighteenth Revised Sheet No. 8 which reflects an increase in revenues of $0.7 million annually over the revenues that would be generated under Alternate First Substitute Eighteenth Revised Sheet No. 8, filed July 24, 1973. The proposed effective date is October 1, 1973.

In support of its filing, Consolidated states that the proposed rates reflect an increase from Transcontinental Gas Pipe Line Corporation (Transco), filed on August 15, 1973, and proposed to be effective on October 1, 1973. Further, Consolidated states that it did not receive notice of Transco's rate change in sufficient time for Consolidated to meet the 45 day notice requirement of § 12.5 of the General Terms and Conditions of its FPC Gas Tariff. Accordingly, Consolidated requests waiver of that section and such other of the Commission's rules and regulations as may be required to permit the proposed changes to become effective October 1, 1973.

Consolidated states that copies of this filing were served on each of its jurisdictional customers and interested State Commissions.

Any person not presently a party to this proceeding who desires to be heard or protest said changes should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). Any party desiring to comment or object should also file as prescribed above. All such petitions, protests, or comments should be filed on or before September 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person not presently a party who wishes to become a party must file a petition to intervene. Copies of Consolidated's tendered filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CI73-889]

## CORPENING ENTERPRISES

### Notice Denying Motion To Reschedule Hearing

SEPTEMBER 12, 1973.

On September 6, 1973, A. V. Corpening, Jr. d/b/a Corpening Enterprises (Corpening) filed a motion requesting that the hearing on its application for a limited term certificate be rescheduled at some date after October 21, 1973.

Upon consideration, notice is hereby given that the motion is denied. The procedural dates set by the order issued August 31, 1973, are in effect.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20118 Filed 9-20-73;8:45 am]

[Docket No. E-8275]

## DUKE POWER CO.

### Notice of Application

SEPTEMBER 13, 1973.

Take notice that on June 14, 1973, Duke Power Company (Applicant) tendered for filing a supplemental Exhibit A-1 dated May 24, 1973, amending the Electric Power Contract with the City of Landis, North Carolina, designated Rate Schedule FPC No. 230. Exhibit A-1 provides for an increase in contract demand from 4,000 KW to 5,500 KW made at the City's request, to become effective July 20, 1973, for a term of one year thereafter.

Any person wishing to be heard or to make any protests with reference to such Application should, on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The Application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20109 Filed 9-20-73;8:45 am]

[Docket No. CI72-845]

## EMERALD PETROLEUM CORP.

### Order Setting Matter for Formal Hearing, Prescribing Procedures and Fixing Date of Hearing

SEPTEMBER 13, 1973.

On April 15, 1971, the Commission, acting pursuant to the authority of the Natural Gas Act, as amended, particularly Sections 4, 5, 7, 8, 10, and 16 thereof

V 38 I 183 SEP 21 73 XUM

(52 Stat. 822, 823, 824, 825, 826, 830; 56 U.S.C. 717c, 717d, 717f, 717g, 717i, and 717), issued Order 431 promulgating a Statement of General Policy with respect to the establishment of measures to be taken for the protection of as reliable and adequate service as present natural gas supplies and capacities will permit.

On July 24, 1973, Emerald Petroleum Corporation (Emerald) filed in the above-entitled docket a petition to amend a current one year limited term certificate under which it is selling natural gas to Transcontinental Gas Pipeline Corporation (Transco). The original certificate permitted Emerald to sell Transco natural gas from August 1, 1972, through August 10, 1973, from the Southwest Lake Boeuf Field, Lafourche Parish, South Louisiana, at a rate of 35 cents per Mcf.

In its current petition, Emerald proposes to continue its sale of gas to Transco for an additional year. A letter agreement submitted concurrently with the petition provides for the sale of all available gas on a best efforts basis. Emerald estimates that the initial daily volume will be 3,000 Mcf. The letter agreement requires that the gas have a gross heating value of at least 1000 Btu per cubic foot but does not provide for a price adjustment for Btu content. The new proposed rate is 50.0 cents per Mcf which is above the 26.875 cents per Mcf area rate for South Louisiana.

In Order 431, the Commission amended Part 2, Subchapter A, General Rules, Chapter I, Title 18 of the Code of Federal regulations by adding a new § 2.70, which reads, in pertinent part:

(3) The Commission recognizing that additional short-term gas purchases may still be necessary to meet the 1971-1972 demands, will continue the emergency measures referred to earlier for the stated 60-day period. If the emergency purchases are to extend beyond the 60-day period, paragraph 12 in the Notice issued by the Commission on July 17, 1970, in Docket No. R-389A should be utilized (35 FR 11638). The Commission will consider if the pipeline demonstrates emergency need * * *.

Paragraph 12 of R-389A provided, in part, that applicants, requesting certificates for sales of natural gas in excess of the ceiling or guideline rate, shall state the grounds for claiming that the present or future public convenience and necessity requires issuance of a certificate on the terms proposed in the application.

The application in this proceeding represents a sizeable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers; nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of a limited-term certificate on the terms proposed in that application.

Public notice of the petition was given with protests or petitions to intervene due on August 13, 1973. None were received. Transco filed a letter in support of the petition.

*The Commission finds*

(1) Good cause exists to set for formal hearing the petition to amend the limited-term certificate herein.

*The Commission orders*

(A) The petition to amend the limited-term certificate for sale of natural gas filed in Docket No. CI72-845 is hereby set for hearing.

(B) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 7, 15, and 16 and the Commission's rules and regulations under that Act, a public hearing shall be held commencing October 10, 1973, at 10 a.m. (e.d.t.) at a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning whether the present or future public convenience and necessity requires the issuance of a limited-term certificate for the sale of natural gas on the terms proposed in this application and whether the issuance of said certificate should be conditioned in any way.

(C) Emerald shall, on or before September 26, 1973, file with the Commission and serve on all parties to this proceeding, including Commission Staff, all testimony to be sponsored in support of this application.

By the Commission.[1]

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20137 Filed 9-20-73;8:45 am]

[Docket No. CI74-2]

## EXXON CORP.

### Order Granting Intervention, Setting Hearing Date and Prescribing Procedures

SEPTEMBER 13, 1973.

Exxon Corporation (Exxon) filed an application in Docket No. CI74-2 on July 2, 1973 for a limited-term certificate of public convenience and necessity with pre-granted abandonment authority, pursuant to Order No. 431 and § 157.23 of the Commission's regulations under the Natural Gas Act for the sale of gas to United Gas Pipe Line Company (United) from acreage in the Arp Field, Smith County, Texas Railroad Commission District 6.

Specifically, Exxon proposes to deliver gas to United at 50.0¢ per Mcf (14.65 psia) without any Btu adjustment. Exxon's proposed sale is for a period of one year. Delivery is to be made at the wellhead. The projected delivery volume is 60,000 Mcf per month. Gas is to be sold from a lease in the Arp Field, Smith County, Texas Railroad Commission District 6. Exxon initiated a 60-day emergency sale to United on June 25, 1973 which terminated on August 24, 1973. The proposed rate exceeds the applicable area base rate of 23.5 cents established by the Commission's Opinion No. 607.

The application in this proceeding represents a sizeable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers; nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of limited-term certificates on the terms proposed in the application.

A timely petition to intervene in favor of the application was filed by United on July 20, 1973.

*The Commission finds*

(1) The intervention of United in this proceeding may be in the public interest.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

*The Commission orders*

(A) United is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act, a public hearing shall be held on October 30, 1973, at 10 a.m. (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by Exxon.

(C) On or before October 16, 1973, Exxon and any supporting parties shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their positions.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.[1]

[FR Doc.73-20131 Filed 9-20-73;8:45 am]

[Dockets Nos. CI73-676; CI73-746]

## FLORIDA GAS EXPLORATION COMPANY ET AL.

### Order Granting Motion To Consolidate Proceedings and Fixing Date for Hearing

SEPTEMBER 13, 1973.

By orders of July 25, 1973, and August 2, 1973, in the above-named dockets the Commission set the two applications for separate hearings and prescribed a different set of procedural dates for each proceeding.

By a motion filed August 11, 1973, Florida Gas Exploration Company (Operator), et al., seeks consolidation of these proceedings stating that the two applications concerned natural gas production from the same well, that the two applicants have one hundred percent of the working interest in this well, and that the two underlying contracts have the same terms.

We find that orderly procedure requires that these two applications be consolidated for purposes of hearing and disposition. We further find that the procedural dates set forth in the motion seeking consolidation of these proceedings should be adopted as the procedural dates for the consolidated proceeding and we shall so provide.

*The Commission finds*

It is necessary and in the public interest that the above-docketed proceedings be consolidated for hearing and disposition and that the motion to consolidate these proceedings be granted.

*The Commission orders*

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 15, and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I) Docket Nos. CI73-676 and CI73-746 are consolidated for the purpose of hearing and disposition.

(B) The Chief Administrative Law Judge shall designate a Presiding Administrative Law Judge to preside at the hearing in this consolidated proceeding pursuant to the Commission's rules of practice and procedure.

(C) The procedural dates established by the order of August 2, 1973, in Docket No. CI73-746 are hereby adopted as the procedural dates for this consolidated proceeding, i.e.,

(a) Applicants and all intervenors supporting the applications shall file their direct testimony and evidence on or before September 24, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(b) The Commission Staff and all intervenors opposing the application shall file their direct testimony and evidence on or before October 8, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to these proceedings.

(c) All rebuttal testimony and evidence shall be served on or before October 23, 1973. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(d) The hearing will commence October 29, 1973, at 10 a.m. (e.s.t.) in a hearing room of the Federal Power Commission, Washington, D.C.

(e) The Administrative Law Judge's decision shall be rendered on or before December 4, 1973. All briefs on exceptions shall be due on or before December 14, 1973, and replies thereto shall be due on or before December 21, 1973.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20138 Filed 9-20-73;8:45 am]

[Docket No. E-8323]

## FLORIDA POWER AND LIGHT CO.

### Order Accepting Service Agreement for Filing, Denying Motion To Reject, and Permitting Intervention

SEPTEMBER 13, 1973.

On July 16, 1973, Florida Power and Light Company (Florida) tendered for filing a service agreement dated April 16, 1973, between Florida and the City of Homestead (Homestead), providing for Florida to supply emergency power and energy to Homestead under Rate Schedule WH. An effective date of September 16, 1973, was requested for the agreement.

At the same time the company exercised its right to make its FPC Electric Tariff Original Volume No. 1 and accompanying Rate Schedule SR applicable to the City of Homestead as of September 1, 1973, subject to refund in accordance with Ordering Paragraph (A) of the Commission's Order of March 29, 1973 in Docket No. E-8008.

On July 31, 1973, Florida amended the July 16 filing by requesting an effective date of September 1, 1973 for the service agreement and the substitution of Rate Schedule SR. Florida also requested such waiver of the notice requirements of our Rules as may be necessary.

In response to the Secretary's notice for comments, Homestead filed a protest, petition to intervene, a motion to reject and opposition to waiver of notice requirements.

In support of its motion to reject, Homestead claims that Florida has given no justification for the proposed rates and that the proposed increases are contrary to antitrust laws and policies. Our review of the filing reveals that the rates and charges that Florida seeks to apply to Homestead in this docket under Rate Schedule SR are currently suspended until September 1, 1973, and under review in Docket No. E-8008. Florida did file supporting data and evidence for the requested rates in that docket. Whether such support is sufficient to justify the proposed increases will be determined in the proceedings ordered in that docket. By its July 16, 1973, filing, Florida is merely exercising its contractual right to file unilaterally and apply the SR Rate to Homestead.

As to the possible antitrust problems raised by the motion to reject, Homestead argues that Florida should not be able to impose terms and rates such as those proposed in this filing. There is no question of "imposition" in this proceeding, however, because the contract filed by Florida recognizes the right of either party to "unilaterally at any time seek, by appropriate filing wth the regulatory agency * * * having jurisdiction, changes or substitutions in the rate and terms and conditions for such service." Having conceded such a right to Florida in the signed service agreement, Homestead is in no position to complain of Florida's exercise of its contractual rights.

In the alternative, Homestead requests that if we fail to reject the filing, we suspend the requested rates for the full five month statutory period. These same rates have been suspended and set for hearing in Docket No. E-8008 and are presently scheduled to become effective, subject to refund, September 1, 1973, the same effective date as requested in this docket. We fail to recognize any hardship that might be suffered by Homestead by our failure to suspend the rates for an additional five months in this docket. Homestead has a right to refund of any amount found to be unreasonable or unjustified in Docket No. E-8008; therefore, we shall deny the request for a five month suspension.

Finally, since the amendment to the filing advancing the effective date to September 1, 1973 was filed on July 31, 1973, it complies with the thirty day notice requirements of our rules and regulations; therefore, no action is required by us on the request for waiver of those regulations.

*The Commission finds*

(1) Florida's July 16, 1973, filing should be accepted for filing under Section 205 of the Federal Power Act and made effective September 1, 1973.

(2) Homestead's motion to reject should be denied.

(3) Good cause exists to permit the intervention of the above-named petitioner.

[1] Statements of Commissioners Brooke and Moody filed as part of the original document.

V 38 183 SEP 21 73 XUM

*The Commission orders*

(A) Florida's agreement with Homestead and the superseding rate schedule thereunder is accepted for filing to become effective on September 1, 1973.

(B) Consistent with our order issued March 29, 1973 in Docket No. E–8008, Florida will be required to refund to Homestead any amount found to be unjustified or unreasonable by the proceedings in Docket No. E–8008.

(C) Homestead's motion to reject is denied.

(D) The above-named petitioner is hereby permitted to interevene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenor shall be limited to matters affecting rights and interests specifically set forth in the petition to intervene, and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that he might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. CI74–3]

## FRANKS PETROLEUM, INC.

### Order Providing for Hearing, Permitting Intervention, and Prescribing Procedures

SEPTEMBER 13, 1973.

On April 15, 1971, the Commission, acting pursuant to the authority of the Natural Gas Act, as amended, particularly sections 4, 5, 7, 8, 10 and 16 thereof (52 Stat. 822, 823, 824, 825, 826, 830; 56 U.S.C. 717c, 717d, 717f, 717g, 717l, and 717), issued Order 431 promulgating a Statement of General Policy with respect to the establishment of measures to be taken for the protection of as reliable and adequate service as present natural gas supplies and capacities will permit.

On July 2, 1973, Franks Petroleum Inc. (Franks) filed in Docket No. CI74–3 an application pursuant to section 7(c) of the Natural Gas Act and Order No. 431 in Docket No. R–418, for a one year limited-term certificate of public convenience and necessity with pre-granted abandonment authorizing the sale of natural gas to United Gas Pipe Line Company (United) from acreage in Columbia County, South Arkansas.

The limited-term certificate application provides for Franks to sell to United approximately 4,500 Mcf of gas per month at a contractually agreed rate of 48.0¢ per Mcf (15.025 psia), subject to upward and downward Btu adjustment from a 1,000 Btu base.

Franks states that it commenced a sixty day emergency sale to United on July 11, 1973, pursuant to § 157.29 of the Commission's regulations. The emergency sale expires on September 9, 1973. Franks requests that its application be disposed of under the shortened procedure as prescribed by Section 1.32 of the Commission's Rules of Practice and Procedure.

In Order 431, the Commission amended Part 2, Subchapter A, General Rules, Chapter I, Title 18 of the Code of Federal Regulations by adding a new § 2.70, which reads, in pertinent part:

> (3) The Commission recognizing that additional short-term gas purchases may still be necessary to meet the 1971–1972 demands, will continue the emergency measures referred to earlier for the stated 60-day period. If the emergency purchases are to extend beyond the 60-day period, paragraph 12 in the Notice issued by the Commission on July 17, 1970, in Docket No. R–389A should be utilized (35 FR 11638). The Commission will consider if the pipeline demonstrates emergency need • • •

Paragraph 12 of R–389A provided, in part, that applicants, requesting certificates for sales of natural gas in excess of the ceiling or guideline rate, shall state the grounds for claiming that the present or future public convenience and necessity requires issuance of a certificate on the terms proposed in the application.

The application in this proceeding represents a volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers; nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of a limited-term certificate on the terms proposed in that application.

On July 20, 1973, United filed a timely petition to intervene in this proceeding, pursuant to the notice of the instant application.

*The Commission finds*

(1) Good cause exists to set for formal hearing the application for a limited term certificate herein and to deny Franks' request that its application be disposed of under the shortened procedure prescribed by § 1.32 of the Commission's rules of practice and procedure.

(2) It may be in the public interest to permit United Gas Pipe Line Company, which filed a timely petition, to intervene in this proceeding.

*The Commission orders*

(A) The application for limited-term certificate for sale of natural gas filed in Docket No. CI74–3 is hereby set for hearing.

(B) Franks' request that its application be disposed of under the shortened procedure prescribed by § 1.32 of the Commission's rules of practice and procedure is hereby denied.

(C) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 7, 15, and 16, and the Commission's rules and regulations under that Act, a public hearing shall be held commencing October 10, 1973, at 10 a.m. (e.d.t.) at a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning whether the present or future convenience and necessity requires the issuance of a limited-term certificate for the sale of natural gas on the terms proposed in this application and whether the issuance of said certificate should be conditioned in any way.

(D) United Gas Pipe Line Company is hereby permitted to become an intervenor, subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and, *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in these proceedings.

(E) The applicant seeking the limited-term certificate and the proposed purchaser, United, shall, on or before October 1, 1973, file with the Commission and serve on all parties to this proceeding, including Commission Staff, all testimony to be sponsored in support of the instant application.

By the Commission.[1]

## D. L. HANNIFIN AND JOE DON COOK

### Order Granting Intervention, Setting Hearing Date and Prescribing Procedure

SEPTEMBER 13, 1973.

On June 29, 1973, D. L. Hannifin and Joe Don Cook (Hannifin and Cook) filed an application in Docket No. CI73–940 for a limited term certificate of public convenience and necessity with pre-granted abandonment authority pursuant to section 7(c) of the Natural Gas Act, for the sale of gas to El Paso Natural Gas Company (El Paso) from the South Carlsbad Morrow Field (Grace Atlantic No. 1 well), Eddy County, New Mexico (Permian Basin).

Specifically, Hannifin and Cook propose to sell approximately 210,000 Mcf of gas per month to El Paso for a period of twelve months following the expiration of an initial 60 day delivery period, pursuant to a letter agreement dated June 9, 1973. The proposed rate of 55 cents per Mcf, subject to upward and downward Btu adjustment, exceeds the current area ceiling rate of 35 cents for sales in the Permian Basin, established by Commission Opinion No. 662.

Hannifin and Cook commenced a 60 day emergency sale pursuant to § 157.29 of the Commission's regulations under the Natural Gas Act from the subject well on June 9, 1973. This sale ended on August 8, 1973.

A timely petition to intervene in the support of the application was filed by El Paso on July 24, 1973.

Hannifin and Cook, in their application, have requested that the intermediate decision be omitted, that oral hearing be waived and that the application be heard under the shortened procedure afforded by § 1.32 of the Commission's rules of practice and procedure.

The application in this proceeding represents a sizeable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of a limited-term certificate on the terms proposed in that application.

*The Commission finds*

(1) The intervention of El Paso in this proceeding may be in the public interest.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

*The Commission orders*

(A) Applicant's request that the intermediate decision be omitted, that oral hearing be waived and that the application be heard under the shortened procedure afforded by § 1.32 of the Commission's rules of practice and procedure is not in the public interest and is hereby denied.

(B) El Paso is hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission: *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act, a public hearing shall be held on October 4, 1973, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by the applicants.

(D) On or before September 24, 1973, Hannifin and Cook and any supporting party shall file with the Commission and serve upon all parties, including the Commission Staff, their testimony and exhibits in support of their position.

(E) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.[1]

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. CI73–747]

## INEXCO OIL CO.

### Intervention and Setting Date for Hearing

SEPTEMBER 12, 1973.

The above-named Applicant has filed applications pursuant to section 7(c) of the Natural Gas Act,[1] and pursuant to § 2.75 [2] of the Commission's General Policy Statements, the Optional Procedure for Certificating New Producer Sales of Natural Gas set forth in Order No. 455,[3] (hereinafter § 2.75) for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce.

On May 5, 1973, Inexco Oil Company (Inexco) filed in Docket No. CI73–747 an application pursuant to § 2.75 of the Commission's rules of practice and procedure (18 C.F.R. § 2.75) for authorization to sell natural gas to Natural Gas Pipe Line Company (Natural) from Strong City Area, Roger Mills County, Oklahoma, Hugoton-Anadarko. The contract, dated April 1, 1973, extends for a term of 20 years and provides for an initial price of 50 cents per Mcf, 1 cent per Mcf escalations each year, upward or downward Btu adjustments from 1,000, and 100 percent reimbursements for any new or additional taxes to the seller.

Inexco states that deliveries will not commence prior to the issuance of a satisfactory certificate pursuant to § 2.75. The contract may be terminated upon 30 days notice if the Commission issues an order denying certification or granting a certificate with unacceptable conditions or upon 10 days notice if a satisfactory certificate is not issued within 8 months.

Notice of Inexco's application was issued on May 30, 1973, and published in the FEDERAL REGISTER on June 4, 1973 (38 FR 14717). Timely petitions to intervene were filed by the following:

Associated Gas Distributors
American Public Gas Association
Natural Gas Pipeline Company of America

A formal hearing has been requested, and we find a hearing is desirable to determine, on the record, whether the present and future public convenience and necessity will be served by certificating these sales, and whether the proposed rate is just and reasonable, taking into consideration all factors bearing on maintenance of an adequate and reliable supply of gas, delivered at the lowest reasonable cost.[4]

This hearing is not the proper forum for the relitigation of the propriety of the § 2.75 procedures; that matter is now before the Court of Appeals. See n. 3, supra. This hearing will be addressed solely to the issues of public convenience and necessity, and the justness and reasonableness, of the particular sales and rates herein proposed.

Those parties and intervenors desiring to submit cost and non-cost data should structure their evidence to reflect the tests under § 2.75 for determining the justness and reasonableness of the rate sought.

No intervenor has questioned Natural's need for the additional natural gas supplies that will be available to it as a result of these purchases. However, we are unable to determine the extent of Natural's need for new supplies since it has failed to submit the certification required by § 2.75h (18 CFR 2.75h). Accordingly, we shall require Natural to present evidence as to its need for additional supplies of natural gas and whether or not a comparable supply of natural gas is available to McCulloch at any rate lower than the rates proposed in these applications.

*The Commission finds*

(1) It is necessary and in the public interest that the above-docketed proceeding be set for a formal hearing.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene in this proceeding.

*The Commission orders*

(A) Pursuant to the authority of the Natural Gas Act particularly sections 4,

5, 7, 14, 15 and 16 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR, Chapter I) a public hearing on the issues presented by the applications herein shall be held commencing January 8, 1974, at 10 a.m. (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(C) Applicant and all intervenors supporting the applications shall file their direct testimony and evidence on or before November 28, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to these proceedings.

(D) The Commission Staff and all intervenors opposing the applications shall file their direct testimony and evidence on or before December 12, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to these proceedings.

(E) All rebuttal testimony and evidence shall be served on or before January 2, 1974. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(F) The above-named petitioners are permitted to intervene in these proceedings subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *provided, further,* That the admission of such interests shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in these proceedings.

(G) The Administrative Law Judge's decision shall be rendered on or before February 18, 1974. All briefs on exceptions shall be due on or before February 28, 1974, and replies thereto shall be due on or before March 9, 1974.

By the Commission.

[Docket No. E-8395]

## MAINE YANKEE ATOMIC POWER CO.

### Order Initiating Investigation and Hearing

SEPTEMBER 13, 1973.

Pursuant to the rate schedule filing requirements of the Federal Power Act, section 205, 16 U.S.C. 824d, Maine Yankee Atomic Power Company (Maine Yankee) filed on October 10, 1972, its wholesale for resale rate schedule for electric service to be rendered to that Company's 11 sponsor companies.[1]

This initial rate schedule filing was conditionally accepted by an order issued in Docket No. E-7787 on November 6, 1972, and made effective by another order in that docket issued December 13, 1972.

In order that we may determine the justness and reasonableness of Maine Yankee's Rate Schedule FPC No. 1 we will initiate an investigation and hearing under section 206 of the Federal Power Act.

Any person desiring to participate in the proceeding ordered herein should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with the requirements of §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 1, 1973. Protests will be considered by the Commission in determining whether appropriate action has been taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

*The Commission finds*

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon an investigation to determine if the rates and charges contained in Maine Yankee's Rate Schedule FPC No. 1 are unjust, unreasonable, unduly discriminatory or preferential.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

*The Commission orders*

(A) Pursuant to the authority of the Federal Power Act, particularly section 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held commencing with a prehearing conference on January 11, 1974, at 10 a.m., e.s.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, to determine if the rates, charges, classifications and services contained in Maine Yankee's Rate Schedule FPC No. 1 are unjust, unreasonable, unduly discriminatory or preferential.

(B) At the prehearing conference on January 11, 1974, prepared testimony and exhibits of all parties shall be admitted to the record as the respective complete cases-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions of § 1.18 of the Commission's rules of practice.

(C) On or before December 6, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all intervenors shall be served on or before December 20, 1973. Any evidence by Maine Yankee shall be served on or before January 7, 1973. The public hearing herein ordered shall convene on January 18, 1974, at 10 a.m., E.S.T.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in the Commission's Rules of Practice and Procedure.

(E) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. CP73-293]

## MICHIGAN WISCONSIN PIPE LINE CO.

### Certificate of Public Convenience and Necessity

SEPTEMBER 13, 1973.

Take notice that Michigan Wisconsin Pipe Line Company (Michigan-Wisconsin) on August 23, 1973, tendered for filing Origin Sheets Nos. 344 through 354 designated as Rate Schedule X-37 to Michigan Wisconsin's Gas Tariff, First Revised Volume No. 2. The Company states that the sheets are to be effective September 25, 1973.

According to Michigan Wisconsin, this filing is made to reflect authorization for the exchange of natural gas with Southern Natural Gas Company (Southern Natural), pursuant to Commission order issued July 11, 1973, in Docket No. CP73-293.

Any person desiring to be heard or to protest should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washintgon, D.C. 20426 in accordance with Commission's rules of practice and procedure. All such petitions or protests should be filed on or before September 28, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CI74-156 etc.]

## NATIONAL EXPLORATION CO.

### Notice of Applications

SEPTEMBER 14, 1973.

Take notice that on August 22, 1973, National Exploration Company (Applicant), One Elzabethtown Plaza, Elizabeth, New Jersey 07207, filed in Docket Nos. CI74-156, CI74-157, CI74-158, and CI74-159 applications pursuant to section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing sales and deliveries of natural gas in interstate commerce to Valley Gas Transmission, Inc., for resale to Iroquois Gas Corporation, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Applicant states that it commenced the sales of natural gas on August 1, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sales for one year from the end of the sixty-day emergency periods within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant requests authorization for the following sales at rates subject to upward and downward Btu adjustment:

| Docket No. | Location | Estimated monthly sales volume (Mcf) | Pressure base | Estimated initial upward Btu adjustment (cents) |
|---|---|---|---|---|
| CI74-156 | McCaskill Field, Karnes County, Tex. | 775,000 | 50.0 cents at 14.65 psia | 6.4 |
| CI74-157 | Bayes Field, Calcasieu Parish, La. | 45,000 | 50.0 cents at 15.025 psia | 6.85 |
| CI74-158 | Glasscock Field, Colorado County, Tex. | 9,000 | 50.0 cents at 14.65 psia | 1.5 |
| CI74-159 | Village Mills Field, Hardin County, Tex. | 21,000 | 50.0 cents at 14.65 psia | 1 |

Applicant, as small producer certificate holder in Docket No. CS71-484, states that it is filing the subject certificate applications solely to secure abandonment authorizations. Section 157.40(c) of the regulations under the Natural Gas Act (18 CFR 157.40(c)) provides that small producers are authorized to make small producer sales nationwide at the prices specified in their contracts with the gas purchasers but that they are not relieved from compliance with section 7(b) of the Natural Gas Act with respect to any small producer sale.

In its application in Docket No. CI74-156 Applicant states that the proposed sale will not impair Applicant's ability to sell gas from the McCaskill Field to Elizabethtown Gas Company for transportation by Transcontinental Gas Pipe Line Corporation as proposed in Docket No. CP74-3.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said applications should on or before September 28, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, hearings will be held without further notice before the Commission on these applications if no petitions to intervene are filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificates is required by the public convenience and necessity. If petitions for leave to intervene are timely filed, or if the Commission on its own motion believes that formal hearings are required, further notice of such hearings will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearings.

KENNETH F. PLUMB, *Secretary.*

[FR Doc 73-20139 Filed 9-20-73;8:45 am]

[Docket No. CP74-63]

## NORTHERN NATURAL GAS CO.

### Notice of Application

SEPTEMBER 12, 1973.

Take notice that on September 4, 1973, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska, filed in Docket No. CP74-63 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas pursuant to a new Agricultural Crop Drying Rate Schedule, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to make available on a best efforts basis volumes of gas for the drying of seed, grain and other agricultural crops pursuant to advance operating arrangements made on a daily basis. Northern anticipates that limited volumes would be available due to the fact that its utility customers normally operate within a margin of safety of their firm entitlement. Additional volumes may also be available as a result of certain exchange agreements it has entered into with other pipeline companies. Northern estimates it will have available approximately 750,000 Mcf during the months of September, October and November. For volumes authorized for delivery under this rate schedule the utility will pay a 20¢ per Mcf nomination charge plus the approximate commodity charge up to the total of the utility's firm entitlement. For volumes delivered above the utility's firm entitlement, the utility will pay a rate equivalent to the ERS-1 commodity rate.

Concurrently, with its certificate application, Northern submitted for filing, pursuant to section 4 of the Natural Gas Act, as part of its FPC Gas Tariff, Third Revised Volume No. 1, Original Sheet Nos. 42, 43 and 44; First Revised Sheet Nos. 4a and 27f, Second Revised Sheet Nos. 19, 27 and 59b, and Fifth Revised Sheet No. 1.

Original Sheet Nos. 42, 43 and 44 constitute a proposed initial rate schedule which Northern proposes to utilize to make additional volumes of gas available for Agricultural Crop Drying Service (ACDS-1). The other listed tariff sheets provide for changes in presently effective rate schedules to accommodate the proposed ACDS-1 schedule.

Northern requests waiver of the notice requirements of § 154.22 of the Commission's regulations to the extent required to permit the proposed tariff sheets to become effective concurrently with the issuance of a requested temporary certificate but not later than September 15, 1973.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 17, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to

V 38 I 183 SEP 21 73 XUM

the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc 73-20111 Filed 9-20-73;8:45 am]

[Project 137]

## PACIFIC GAS AND ELECTRIC CO.

### Application for New Major License for Constructed Project

SEPTEMBER 11, 1973.

Public notice is hereby given that application for new major license has been filed December 26, 1972, under the Federal Power Act (16 U.S.C. 791a–825r) by Pacific Gas and Electric Company (Correspondence to Mr. J. F. Roberts, Jr., Vice President—Rates and Valuation, Pacific Gas and Electric Company, 77 Beale Street, San Francisco, California 94106), for its constructed Mokelumne River Project No. 137, located in Alpine, Amador, and Calaveras Counties, California; near the Communities of West Point, Pine Grove, Mokelumne Hill, and Jackson, California on the Mokelumne River, North Fork Mokelumne River, and the Bear River. The project affects public lands and lands of the United States within the Eldorado, Stanislaus, and Toiyabe National Forests.

The Project has an installed capacity of 192,750 kw (255,000 hp). The project consists of:

(A) *Headwater Storage Dams and Reservoirs.* (1) Upper Blue Reservoir having a storage capacity of 7,300 acre-feet and a surface area of 343 acres at elevation 8,137.5 feet (all elevations are U.S.G.S. datum); (2) an earth-fill dam about 837 feet long and 31 feet high containing a 51 foot long spillway; (3) an outlet consisting of two 18-inch diameter steel pipes through the dam; (4) Lower Blue Lake Reservoir having a storage capacity of about 5,053.4 feet; (5) an earth-fill dam about 1,063 feet long and 40 feet high containing a 60 foot long spillway; (6) an outlet consisting of two 30-inch diameter steel pipes through the dam; (7) Twin Lake Reservoir having a storage capacity of 1,207 acre-feet and a surface area of 106 acres at elevation 8144.7 feet; (8) an earth-fill dam about 1520 feet long and 22 feet high; (9) an 18 foot long spillway located about 4,000 feet east of the dam; (10) an outlet consisting of two 12-inch diameter steel pipes through the dam; (11) Meadow Lake Reservoir having a storage capacity of about 5,656 acre-feet and a surface area of 140 acres at elevation 7,774.4 feet; (12) a rock-fill dam about 775 feet long and 77 feet high containing a 45 foot long spillway; (13) an outlet consisting of two 30-inch diameter steel pipes through the dam; (14) Upper Bear River Reservoir having a storage capacity of 6,959 acre-feet and a surface area of 169 acres at elevation 5,876.0 feet; (15) a rock-fill dam about 760 feet long and 77 feet high containing a 354 foot long spillway; (16) an outlet consisting of three 16-inch diameter steel pipes through the dam; (17) Lower Bear River Reservoir having a storage capacity of 49,079 acre feet and a surface area of 727 acres at elevation 5818.2 feet; (18) a main rock-fill dam about 979 feet long and 249 feet high; (19) an auxiliary rock-fill dam about 865 feet long and 145 feet high; (20) a 316 foot long spillway located between the main and auxiliary dams; (21) a concrete diversion dam about 91 feet long in Gold Creek; (22) a tunnel about 2½ miles long from the reservoir passing under Gold Creek and receiving water diverted from that stream; and (23) a steel penstock extending about 4,000 feet from the tunnel outlet to Salt Springs powerhouse.

(B) *Regulating and Diversion Dams and Reservoirs and Powerplants: Salt Springs Unit.*—(1) Salt Springs Reservoir having a storage capacity of 141,857 acre-feet and a surface area of 963 acres at elevation 3,959.2 feet; (2) a rock-fill dam about 1,257 feet long and 328 feet high within eleven 11′ by 40′ radial gates (one 11′ by 32′ radial gate and one 6′ by 11′ gate) located on a 480 foot long spillway; (3) a tunnel connected to a penstock 475 feet long diverting water from the reservoir to the powerhouse; (4) a powerhouse containing a 29,700 kw generating unit and a 9,350 kw generating unit; (5) an outdoor transformer and switching station; (6) a 16.5 mile long single circuit 115 kv transmission line; and (7) appurtenant facilities.

*Tiger Creek Unit.*—(1) Tiger Creek Conduit extending about 17.80 miles along the North Fork Mokelumne River from Salt Springs powerhouse to Tiger Creek Regulator Dam and Reservoir, thence 2.52 miles to Tiger Creek Forebay Dam and Reservoir to a penstock 4,940 feet long into the Tiger Creek powerhouse; (2) various spillways appurtenant to Tiger Creek conduit; (3) Tiger Creek Afterbay Dam and Reservoir having about 2,607 acre-feet capacity; (4) Tiger Creek powerhouse containing two 25,500 kW generating units; (5) an outdoor transformer and switching station; (6) a 23.52 mile long double-circuit 230 kV transmission line; and (7) appurtenant facilities.

*West Point Unit.* (1) A water conduit, consisting of headworks, a tunnel about 13,000 feet long, a surge tank, and 650 feet of penstock, extending from Tiger Creek Afterbay dam to West Point powerhouse; (2) a powerhouse containing a 13,600 kw generating unit; (3) an outdoor transforming station at the powerhouse; (4) a 23.5 mile long single-circuit 60 kv transmission line; and (5) appurtenant facilities.

*Electra Unit.* (1) A diversion dam and reservoir about 450 feet upstream from West Point powerhouse; (2) a tunnel leading from an intake at the diversion dam to the tailrace at the West Point Powerhouse; (3) a tunnel about 43,000 feet long leading from the tailrace to Tabeaud reservoir; (4) Tabeaud dam and reservoir of about 1,158 acre-feet capacity; (5) a pressure conduit from Tabeaud reservoir to Electra powerhouse, consisting of an outlet tunnel about 2,900 feet long and a penstock about 3,000 feet long; (6) Electra powerhouse containing three 29,700 kw generating units; (7) a low concrete afterbay dam below the powerhouse; (8) an outdoor transformer and switching station near the powerhouse; and (9) appurtenant facilities.

The project includes the following existing and proposed recreational facilities:

(1) the existing facilities at Upper and Lower Blue Lakes are composed of 63 camp units at four locations, proposed additional recreational facilities are the construction of two campgrounds, first phase of a group-camp, two picnic areas, a parking lot, and a visitor's station; (2) the existing facilities at Lower Bear River Reservoir are the Bear River Resort, two campgrounds, one picnic area, a summer home tract, a Boy Scout Camp, 97 campground units, and three unimproved boat launching sites, proposed is the construction of an 8-unit boat access campground, and (3) picnic areas exist at Tiger Creek-West Point, Electra-Lake Tabeaud, and Salt Springs, proposed are fishing areas and a nature trail at Lake Tabeaud.

According to the application: (1) the estimated net investment is $40,639,709.00 as of December 31, 1971, which is less than its estimate of fair value, (2) the annual taxes paid to State and local governments are reported to be $1,306,000.00.

Any person desiring to be heard or to make protest with reference to said application should on or before November 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. RP73-111]

## PACIFIC GAS TRANSMISSION CO.

### Order Vacating Prior Letter Order, Initiating Investigation, and Establishing Hearing Procedures

SEPTEMBER 13, 1973.

On May 17, 1973, Pacific Gas Transmission Company (PGT) tendered for filing pursuant to § 153.8 of the regulations under the Natural Gas Act and the requirements of ordering paragraph (F) of Commission Order issued March 13, 1970 in Docket No. CP69–347, an amendment to its gas purchase contract with Alberta and Southern Gas Company, Ltd. (Alberta Gas), of Calgary, Alberta Province, Canada. The proposed amendment would increase the price PGT pays for gas at the Canadian border by one cent per Mcf to provide for an exploration and development (E&D) fund in Canada, with resultant new supplies to be committed to Alberta Gas. The increase in price would be collected by PGT pursuant to its cost of service tariff on file and approved by this Commission.

Notice of PGT's proposed amendment to its purchase gas contract was issued June 12, 1973, providing for protests and petitions to intervene to be filed on or before June 25, 1973. A petition to intervene was filed on June 25, 1973, by the People of California and the Public Utilities Commission of the State of California. Hearing was not requested.

A letter order issued by the Commission's Secretary on June 29, 1973, rejected the proposed contract amendment and stated that the filing by PGT constituted a material change to PGT's importation authority granted in Docket No. CP69–347 which did not cover such a revision as that proposed.

PGT filed a Petition for Reconsideration on July 30, 1973, arguing that the Commission erred in rejecting PGT's May 17, 1973, filing. One allegation of error set forth by PGT was the treating of the filing by the Commission as a rate filing under section 154 of the Regulations when it was meant to be an informational filing under § 153.8 in compliance with the Commission's order in Docket No. CP69–347 issued March 13, 1970, concerning subsequent amendments to its contracts under its import authorization. PGT states that its filing was "patently inadequate" under section 154, and if considered as such, should have been rejected as a rate filing, but not rejected on the substantive merits without reasonable notice and a hearing as required by § 154.38.

PGT further states that the Commission's initial order authorizing gas importation by PGT, issued April 5, 1960, in Docket No. G–17351, reversed the presiding examiner who had suggested that certain conditions be adopted to provide for the possibilities that rate of return would not be regulated by Canadian authorities so as to provide adequate protection to United States consumers and that Canadian producer prices might not be regulated at all. In that order, the Commission rejected the imposition of a fixed border price or fixed Canadian rates of return to be effective for the life of the project, but rather noted that any increases in Canadian prices would receive the closest scrutiny whenever applications for contemplated expansion of the project were filed with the Commission. Rather than imposing fixed price conditions, the Commission, in its April 5, 1960, order, authorized PGT to file a cost of service tariff which allowed it to adjust its rates automatically for changes in purchased gas costs.

PGT further asserts that the Commission's rejection of its filing upon grounds that the increased purchased gas costs constituted a "material change" in PGT's outstanding importation authority is in error and inconsistent with prior Commission actions involving similar PGT filings. The most recent amendment to PGT's import authorization was approved by Commission order issued March 13, 1970 in Docket No. CP69–347. Order Paragraph (C) contained the condition that "PGT shall not materially change or alter its import operations without first obtaining the permission and approval of the Commission".

PGT states that the Commission has not applied the phrase "materially change or alter its import operation" to price changes in PGT's contract with its supplier, Alberta Gas. In support of this argument PGT cites its contract amendment filed by letter dated July 12, 1971, providing for a price of gas sold to be the greater of the cost of service price or 28 cents per Mcf, and another amendment filed by letter dated September 26, 1972, which raised the specified price to 31 cents per Mcf. PGT states that the Commission received both of these changes, made in the same manner as the filing in the instant case, without comment, without treating them as rate filings, and subsequently recognized the first amendment in an order issued January 4, 1972, (Docket No. RP71–98) by quoting it as an accomplished fact.

Upon reconsideration of our June 29 letter order, we find that PGT's May 15, 1973, filing was improperly rejected and accordingly we shall vacate our prior order. We are, however, greatly concerned with allowing PGT to pass on to its consumers as purchased gas cost the exploration and development costs of Canadian producers, without proper guarantee that any resultant benefits would accrue directly to United States' customers. Accordingly, we shall institute a proceeding under section 5(a) of the Natural Gas Act to determine whether PGT's cost of service tariff should be modified to limit or redefine the costs which may be reflected as purchased gas costs in PGT's rates.

*The Commission finds*

(1) The letter order issued June 29, 1973, in this proceeding should be vacated.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon an investigation under section 5(a) to determine whether PGT's cost of service tariff should be modified to limit or redefine the costs which may be reflected as purchased gas costs in PGT's rates.

(3) Good cause exists to grant the subject petition to intervene.

*The Commission orders*

(A) Pursuant to the authority of the Natural Gas Act, an investigation is hereby instituted under section 5(a) thereof to determine whether PGT's cost of service tariff should be modified to limit or redefine the costs which may be reflected as purchased gas costs in PGT's rates.

(B) Staff and other parties shall file testimony and exhibits on or before October 19, 1973. PGT shall file rebuttal testimony and exhibits on or before November 9, 1973. A public hearing shall be held, commencing with a prehearing conference on November 20, 1973, before a Presiding Administrative Law Judge (see Delegation of Authority, 18 CFR 3.5 (d)), beginning at 10 a.m., e.s.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

(C) The above-named petitioner is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenor shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene, and *Provided further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(D) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[Docket No. RP71-119]

## PANHANDLE EASTERN PIPE LINE CO.

### Motion of Michigan Seamless Tube Co. for Extraordinary Relief and Hearing

SEPTEMBER 12, 1973.

On August 24, 1973, Michigan Seamless Tube Company (Movant) filed a petition for extraordinary relief and an opportunity to be heard pursuant to § 1.7 (b) of the Commission rules of practice and procedure in connection with deliveries of natural gas supplies to it by its supplier Panhandle Eastern Pipe Line Company (Panhandle).

In its petition Movant alleges that it is a corporation engaged in the manufacture and sale of cold drawn seamless steel tubing and that approximately twelve percent of its production is used by the energy industry. Its principal

V 38 I 183 SEP 21 73 XUM

place of business is in the community of South Lyon, Michigan, where it employs approximately 560 persons.

On or about June 1, 1970, Movant entered into a 3-year contract with Panhandle for the direct purchase of natural gas from that pipeline on an interruptible basis. Movant uses this natural gas in virtually all of its operations, including in its manufacturing process, plant protection and to meet its heat requirements. Movant has historically required 2600 Mcf of natural gas per day to meet all of these needs.

Movant indicates that while it has limited alternate fuel capability for some operations, which it intends to substantially increase over the course of the next year, that the complete interruption of natural gas for any appreciable period during the 1973 through 1974 heating season will necessitate a drastic curtailment of plant operations with consequent loss of employment and other irreparable damages.

It alleges that any drastic curtailment would require it to shut down its entire South Lyon's operation. The Movant further contends that the extensive program it has undertaken aimed at maximizing its alternate fuel capability in view of the current shortage of natural gas will enable it to convert approximately 50 percent of its facilities to fuel oil by October 1, 1973. Movant estimates that by August 1, 1974, approximately 84 percent of its facilities will have been converted to fuel oil. However, it strongly contends that 16 percent of its facilities must continue to utilize natural gas, because of the nature of certain of its operations.

Hence, Movant alleges that it will require a minimum of 1,355 Mcf per day for its operations from October 1, 1973, to August 1, 1974, and that, thereafter, it will require only 425 Mcf of gas per day, because of its current program aimed at providing its facility at South Lyon with alternate fuel capability.

The Movant argues that the Commission's Policy Statement issued on January 8, 1973, as amended on March 2, 1973, in Order No. 467–B, Docket No. R–469 have grave potential implications as far as it is concerned, and that under the recommended curtailment priorities set forth in that order, it will be subject to 100 percent natural gas curtailment on or about October 31, 1973. It contends that such a curtailment will result in irreparable damage to both it and its employees. Movant urges that the priority guidelines set forth in Order No. 467–B, though they may establish basic policy, may not be totally inflexible. It, therefore, requests that it be granted a hearing on this matter by the Commission pursuant to § 1.7(b) of its Rules of Practice and Procedure in order to purchase a minimum volume of 1,355 Mcf of natural gas per day from Panhandle for the period from October 1, 1973, to August 1, 1974, and 425 Mcf per day, thereafter.

Any person desiring to be heard or to make any protest with reference to said petition for extraordinary relief should on or before September 21, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 5, 15, and 16 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the request is required by the public convenience and necessity. If a petition for leave to intervene is timely filed or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73–20110 Filed 9–20–73;8:45 am]

[Docket No. CI72–552]

## PHILLIPS PETROLEUM CO.

### Petition To Amend

SEPTEMBER 12, 1973.

Take notice that on September 4, 1973, Phillips Petroleum Company (Petitioner), Bartlesville, Oklahoma 74004, filed in Docket No. CI72–552 a petition to amend the order issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act by authorizing Petitioner to exchange natural gas with Natural Gas Pipeline Company of America (Natural) at an additional point, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner is authorized in the subject docket to exchange up to 10,000,000 Mcf of natural gas per month with Natural at various specified points. Petitioner now requests authorization to exchange gas at an additional redelivery point from Natural to Petitioner at a mutually agreeable point on Natural's 24-inch Old Ocean Lateral in Brazoria County, Texas. The additional redelivery point is said to provide greater flexibility in the operation of Natural's system and to enable Petitioner to receive additional gas at its industrial complex located near said point.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. E–8372]

## PUBLIC SERVICE CO. OF NEW HAMPSHIRE

### Notice of Application

SEPTEMBER 13, 1973.

Take notice that on August 20, 1973, Public Service Company of New Hampshire (Applicant) tendered for filing, pursuant to Section 205 of the Federal Power Act and Part 35 of the Commission's regulations, a Transmission Contract dated May 31, 1973, with Vermont Electric Power Company (VELCO) providing for transmission through Applicant's 345 KV system of entitlements of power which Northeast Utilities will sell VELCO from July 1, 1973 to May 31, 1974. Segments of Applicant's 345 KV system to be used for the transmission run from the point of interconnection of Applicant's system to that of Northeast Utilities at the Massachusetts-New Hampshire state boundary to the point of interconnection with VELCO's system at the New Hampshire-Vermont state line. Monthly charges of $2,025/mo. over the 11-month term of the contract are identical to those charged for similar transmission service under Applicant's Rate Schedules FPC Nos. 52 and 54, and in Docket No. E–8210. The Agreement takes effect July 1, 1973.

Any person wishing to be heard or to make any protests with reference to such Application should, on or before September 28, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The Application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73–20126 Filed 9–20–73;8:45 am]

[Docket No. CI73–694]

## RODMAN CORP.

### Order Setting Date for Hearing and Granting Intervention

SEPTEMBER 12, 1973.

The above-named Applicant has filed applications pursuant to section 7(c) of the Natural Gas Act,[1] and pursuant to § 2.75[2] of the Commission's General Policy Statements, the Optional Procedure for Certificating New Producer Sales of Natural Gas set forth in Order No. 455,[3] (hereinafter § 2.75) for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce.

On April 16, 1973, The Rodman Corporation (Rodman) filed in Docket No. CI73–694 an application pursuant to § 2.75 of the Commission's rules of practice and procedure (18 C.F.R. § 2.75) for a certificate to sell natural gas from previously dedicated acreage in the Hugoton-Anadarko to Cities Service Gas Company (Cities Service). The sale contract, dated April 5, 1973, is an amendment to contracts dated August 4, 1967, September 19, 1969, and March 1, 1971, as supplemented, and filed with the Commission as Rodman FPC Gas Rate Schedule Numbers 1, 3, and 4 respectively. Sales under these rate schedules were authorized in Docket Nos. CI68–255, CI70–573, and CI71–784, respectively. Rodman seeks an initial price of 55 cents per Mcf with 1 cent per Mcf yearly escalation, and upward and downward Btu adjustment from 1000.

The April 5, 1973, amendment which gives rise to this application requires Rodman to drill or cause to be drilled one hundred new wells within five years of the effective date on a final appealable order of the Commission approving the proposed rates. Such wells are to be drilled to a depth sufficient to adequately test all functions within the prescribed acreage from which it can reasonably be expected that gas in commercial quantities can be produced.

Rodman states that deliveries from certain wells covered by the application have commenced and that deliveries from other wells will commence as such other wells are completed. Until the six month period runs, or until certification is obtained, whichever occurs first, the rates charged will be those applicable under the respective rate schedules.

Notice of Rodman's application was issued on May 10, 1973, and was published in the FEDERAL REGISTER on May 22, 1973 (38 FR 13502). A petition of intervene was filed by Cities Service Gas Company.

This hearing is not the proper forum for the relitigation of the propriety of the § 2.75 procedures; that matter is now before the Court of Appeals. See n. 3, *supra*. This hearing will be addressed solely to the issues of public convenience and necessity, and the justness and reasonableness, of the particular sales and rates herein proposed.

Those parties and intervenors desiring to submit cost and non-cost data should structure their evidence to reflect the tests under § 2.75 for determining the justness and reasonableness of the rate sought.

*The Commission finds*

(1) It is necessary and in the public interest that the above-docketed proceeding be set for a formal hearing.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene in this proceeding.

*The Commission orders*

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14, 15 and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Chapter I) a public hearing on the issues presented by the applications herein shall be held commencing October 18, 1973, at 10:00 a.m. (EDT) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(C) Applicant and all intervenors supporting the applications shall file their direct testimony and evidence on or before September 28, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to these proceedings.

(D) The Commission Staff and all intervenors opposing the applications shall file their direct testimony and evidence on or before October 5, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to these proceedings.

(E) All rebuttal testimony and evidence shall be served on or before October 12, 1973. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(F) The above-named petitioners are permitted to intervene in these proceedings subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *provided, further,* That the admission of such interests shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in these proceedings.

(G) The Administrative Law Judge's decision shall be rendered on or before November 16, 1973. All briefs on exceptions shall be due on or before November 27, 1973, and replies thereto shall be due on or before December 3, 1973.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73–20119 Filed 9–20–73;8:45 am]

[Docket No. CI73–922, etc.]

## SHENANDOAH OIL CORP. ET AL.

### Order Consolidating Proceedings, Granting Intervention, Setting Hearing Date and Prescribing Procedures

SEPTEMBER 13, 1973.

Shenandoah Oil Corporation (Shenandoah) in Docket No. CI73–922, Rains & Williamson Oil Co., Inc. (R&W) in Docket No. CI73–930 and W. S. Etchieson and J. B. Watkins (E&W) in Docket No. CI74–4 filed applications on June 25, June 28 and July 2, 1973, respectively, for limited term certificates of public convenience and necessity with pre-granted abandonment authority, pursuant to Order No. 431 and § 157.23 of the Commission's Regulations under the Natural Gas Act for the sale of gas to Panhandle Eastern Pipe Line Company (Panhandle) from the Hugoton Anadarko Area.

Specifically, all sellers propose to deliver gas to Panhandle at 50.0¢ per Mcf (14.65 psia) with a Btu adjustment from 1000 Btu/cf, although E&W would set 1200 Btu as the highest permissible Btu adjustment. The proposed sales are for a period of one year with the exception of R&W, which is to be for a period of two years. Projected monthly volumes are as follows: Shenandoah—15,000 Mcf; R&W—60,000 Mcf; and E&W—60,000 Mcf. Delivery will be made by all applicants to acceptable points on Panhandle's pipeline. Shenandoah's saleable gas is from its Kincannon No. 1 well in Cimarron County, Oklahoma. R&W's saleable gas is from its Sword No. 1 well in Meade County, Kansas, E&W's saleable gas is from its leases in the SW/4 of Section 86 and the E/2 of the SE/4 of Section 92, Block 5, I&GN Survey, Carson County, Texas. Shenandoah is making an emergency 60-day sale to Panhandle that began on July 17, 1973 and is to terminate on September 15, 1973. E&W is making a sale for 60-days from one of its leases for the same period as Shenandoah and made another from its other lease beginning on June 14, 1973 and terminating on August 13, 1973. There is no indication that R&W is making an emergency 60-day sale to Panhandle from the instant well. The proposed rates all exceed the applicable area

[1] 15 U.S.C. 717, et seq. (1970).
[2] 18 CFR 2.75.
[3] Statement Of Policy Relating To Optional Procedure For Certificating New Producer Sales of Natural Gas, Docket No. R–441, ____ F.P.C. ____ (issued August 3, 1972, appeal pending sub nom. John E. Moss, et al. v. F.P.C., No. 72–1837 (D.C. Cir.)

V 38 I 183 SEP 21 73 XUM

base rate of 21.315 cents established by the Commission's Opinion No. 586.

The applications in this proceeding represent a sizeable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers; nevertheless, we must determine whether the rates to be paid serve the public convenience and necessity. It is therefore necessary that these applications be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of limited-term certificates on the terms proposed in the applications.

All the instant dockets contemplate limited term sales at the same price, from the same area, and to the same purchaser and thus contain common questions of law and fact. Accordingly, consolidating these dockets will aid in the expedition of the hearing process.

Petitions to intervene in each of the above applications were filed by Panhandle on July 12, 1973 in the case of CI73-922, on July 26, 1973 in the case of CI73-930, and on July 20, 1973 in the case of CI74-4.

*The Commission finds*

(1) Docket Nos. CI73-922, CI73-930 and CI74-4 should be consolidated for hearing and decision as they involve common questions of fact and law.

(2) The intervention of Panhandle in this proceeding may be in the public interest.

(3) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

*The Commission orders*

(A) The applications listed at the head of this order are hereby consolidated for hearing and decision.

(B) Panhandle is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held on October 24, 1973, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capital Street, N.E., Washington, D.C. 20426, concerning the issue of whether certificates of public convenience and necessity should be granted as requested by applicants.

(D) On or before October 10, 1973, applicants and any supporting parties shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their positions.

(E) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.[1]

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20132 Filed 9-20-73;8:45 am]

[Docket No. CI74-20]

## SKLAR & PHILLIPS OIL CO. ET AL.

### Order Granting Intervention, Setting Hearing Date and Prescribing Procedures

SEPTEMBER 13, 1973.

Sklar & Phillips Oil Co. (Operator), et al., hereinafter referred to as S & P, filed an application in docket No. CI74-20 on July 12, 1973 for a limited-term certificate of public convenience and necessity with pre-granted abandonment authority, pursuant to Order No. 431 and § 157.23 of the Commission's regulations under the Natural Gas Act for the sale of gas to Arkansas Louisiana Gas Company (Arkla) from acreage in the Danville Field, Bienville Parish, North Louisiana.

Specifically, S & P proposes to deliver gas to Arkla at 58.3¢ per Mcf (15.025 psia) which includes a 3.3¢ per Mcf tax reimbursement (100%) and does not include any Btu adjustment. S & P's proposed sale is for a period of one year. Delivery is to be made at some central point in the lease. The projected delivery volume is 300,000 Mcf per month. Gas is to be sold from a lease in the Danville Field, Bienville Parish, North Louisiana. The proposed rate exceeds the applicable area base rate of 25.875 cents established by the Commission's Opinion No. 607-A.

The application in this proceeding represents a sizeable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers; nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of limited-term certificates on the terms proposed in the application.

A timely petition to intervene in favor of the application was filed by Arkla on August 6, 1973.

*The Commission finds*

(1) The intervention of Arkla in this proceeding may be in the public interest.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

*The Commission orders*

(A) Arkla is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of said intervener shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held on October 19, 1973, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by S & P.

(C) On or before October 5, 1973, S & P and any supporting parties shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their positions.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.[1]

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. CP73-27, etc.]

## STINGRAY PIPELINE CO. ET AL.

### Consolidating Proceedings; Granting Interventions and Conditional Intervention

SEPTEMBER 13, 1973.

Pursuant to an order issued July 13, 1973, the applications for certificates of public convenience and necessity filed by Stingray Pipeline Company (Stingray), Docket No. CP73-27, Sun Oil Company (Sun), Docket Nos. CI73-878, CI73-879, CI73-880, and Pennzoil Offshore Transmission Company (POTCO), Docket No. CP72-292, were consolidated. The hearing date for this proceeding has been set for September 4 and will be commenced with a prehearing conference. In addition, the interventions of various parties were granted in the consolidated proceeding.

Since the date of the above order, additional petitions to intervene and applications pertaining to the instant proceeding have been received by the Commission.

Four untimely petitions to intervene in the Stingray Pipeline Company, Docket No. CP73-27, were tendered by Iowa Electric Light and Power Company (Iowa), Mobil Oil Corporation (Mobil), Transcontinental Gas Pipeline Company (Transco) and Diamond Shamrock Corporation (Diamond). Despite the late filings of these interventions, the petitioners have shown sufficient interest in the proceedings in Docket No. CP73-27 to warrant intervention. Specifically, these interests include Mobil's ownership of interests in offshore oil and gas leases that are potentially productive of gas within the general supply area to be served by both the Stingray and POTCO applicants. Transco's interest in the consolidated Stingray proceeding arises from their acquisition of interests in, and rights to, purchase gas from certain leases in the offshore Cameron area of Louisiana and the adjacent High Island area offshore Texas in close proximity to the proposed facilities of both Stingray and POTCO. Finally, Iowa's interest emanates from the substantial contractual purchases they make from Natural Gas Pipeline Company of America, one of the Stingray partners. Diamond Shamrock's intervention is based on their proposed sales of gas to Trunkline Gas Company which will be transported through the Stingray system. The grant of intervention for the above petitioners will not delay the consolidated proceedings.

On July 31, 1973, Anadarko Production Company (Andarko), submitted applications which were filed under Docket Nos. CI74-68, CI74-69, and CI74-70. These applications were tendered for the purpose of obtaining a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75). In these filings Anadarko proposes the sale and delivery for resale of natural gas in interstate commerce to Trunkline Gas Company (Trunkline), which is one of the participants in the Stingray project. The proposed sale covers gas to be extracted from certain Blocks in the West Cameron, Vermilion and East Cameron areas of offshore Louisiana. Since the gas which Anadarko wishes to sell represents a portion of Stingray's potential gas supply for transportation, we are of the view that Anadarko's applications herein should be consolidated with the proceedings in Docket No. CP73-27 et al.

In each of the Sun Oil Docket Nos. CI73-878, CI73-879, CI73-880, additional petitions to intervene have been submitted since the date of our July 13, 1973, order. These interventions were filed by the following parties:

Associated Gas Distributors
Central Illinois Light Company
Michigan Gas Utilities Company
American Public Gas Association
Trunkline Gas Company
Mobil Oil Corporation

Trunkline Gas Company demonstrates sufficient interest in the above dockets because it is the proposed purchaser of the gas to be sold pursuant to the contracts under scrutiny in those dockets. Central Illinois Light Company and Michigan Gas Utilities Company are both customers of Trunkline and will be affected by the Sun Oil Company sales to Trunkline. Mobil Oil Corporation illustrates sufficient interest by its aforementioned showing of ownership interests in offshore leases near those from which the gas which is the subject of the contracts in the Sun Oil dockets will be produced. Associated Gas Distributors and the American Public Gas Association both claim interest in the case by virtue of their capacity as representatives of various distributors who would be affected by any pricing precedent which may be established and by the effect a decision herein would have on the current gas supply situations. Since the above petitioners have demonstrated sufficient interest in the proceedings in Docket Nos. CI73-878, CI73-879, and CI73-880, their intervention is sufficiently warranted.

In our order of July 13, 1973, we indicated that POTCO's certificate application in Docket No. CP72-292 should be consolidated with the Stingray proceeding until such time as the question of comparative hearings with respect to the two applications is resolved. This finding and order was accompanied by a conditional intervention for the POTCO intervenors in the Stingray proceeding, conditioned upon an ultimate finding that a comparative hearing is necessary. Since our previous order, untimely petitions to intervene in Docket No. CP72-292 have been filed by Texas Eastern Transmission Company (Texas Eastern), Transcontinental Gas Pipeline Corporation and Mobil Oil Corporation. Although untimely, the petitioners have shown sufficient interest in the proceedings in Docket No. CP72-292 to warrant intervention subject to the condition set forth in our July 13, 1973, order. This interest is exemplified by the previously mentioned interest of Transco and Mobil in the Stingray Docket No. CP73-27 et al. and by the fact that Texas Eastern is a purchaser of gas from United Gas Pipe Line Company, who is to be the purchaser of the gas transported through the proposed POTCO facility.

On September 5, 1972, Shell Oil Company (Shell), filed in Docket Nos. CP73-160 and CI73-164 applicatons for certificates of public convenience and necessity covering proposed sales of natural gas from Shell to Natural Gas Pipeline Company of America (Natural). The subject of these sales is gas from the Vermilion and West Cameron Areas of offshore Louisiana. In the above applications, Shell states that Stingray will be the medium of transportation for some or all of the gas covered by the sale of Shell to Natural.

In view of the fact that Shell's applications bear such a close relationship to the Stingray proceeding, a relationship nearly identical to that between Stingray and the already consolidated Sun Oil dockets, Shell's motion to consolidate Docket Nos. CI73-160 and CI73-164 with CP73-27 et al. should be granted.

On April 5, 1973, Natural filed in Docket No. CP73-262 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities to increase the capacity of its Louisiana supply pipelne. Specifically, Natural proposes to construct and operate approximately 71.56 miles of 30-inch loop pipeline in Liberty and Jefferson Counties, Texas and Cameron Parish, Louisiana. Additionally, Natural proposes to add an extra 8,000 horsepower of compression at Compressor Station No. 343 in Liberty County, Texas and to modify certain existing compressor stations. The total estimated cost of the proposed facilities is $19,020,000.

It is readily apparent from the Natural application that the additional facilities they propose are to aid in the transportation of gas purchased by Natural and received through the Stingray pipeline system. Indeed, the additional supplies of gas from offshore sources for which Natural has contracted will be transported onshore by the Stingray line and Natural has indicated in its application that the onshore facilities they propose are sought specifically to provide the means and added capacity for the onshore transmission of gas made available from offshore Louisiana by previous transmission through the Stingray facility (Natural Application, page 3).

Therefore Natural's application in Docket No. CP73-262 should be consolidated with the proceedings in Docket No. CP73-27 et al.

On February 14, 1973, Natural tendered for filing in Docket No. CP73-219 an abbreviated application pursuant to section 7(c) of the Natural Gas Act for

V 38 I 183 SEP 21 73 XUM

a certificate of public convenience and necessity authorizing the transportation and delivery of up to 200,000 Mcf per day of natural gas for Trunkline and the construction and operation of certain facilities therefor. The proposed facilities will cost Natural $343,000. These facilities will enable Natural to redeliver quantities of gas to Trunkline which Trunkline will commit for transportation through the proposed Stingray facility. Also certain additions to Natural's Louisiana pipeline at its onshore connection with the Stingray line are proposed.

Because the transportation and delivery agreement involves gas which will be entirely transported through the Stingray facility and because the proposed facilities are intended to supplement Natural's ability to redeliver the Stingray gas, it is the opinion of the Commission that the relationship between the proposals in Docket No. CP73–219 and the Stingray project in Docket No. CP73–27 et al. compels the consolidation of the dockets.

Four petitions to intervene were timely filed in Docket No. CP73–219. The intervenors are:

Mississippi River Transmission Corporation
Michigan Gas Utilities Company
Central Illinois Light Company
Trunkline Gas Company

Trunkline Gas Company has a sufficient interest in the proceeding to warrant intervention by virtue of their status as party to the transportation and delivery agreement and as recipient of the additional quantities of gas which Natural will be able to deliver to Trunkline upon completion of the proposed facilities.

The remaining intervenors in this docket have demonstrated sufficient interest for intervention because each is a purchaser of gas from Trunkline and the quantities they thus receive may be affected by the subject matter of the docket.

*The Commission finds*

(1) It is necessary and appropriate that the proceedings in Docket Nos. CP73–27 et al., CI74–68, CI74–69, CI74–70, CI73–160, CI74–164, CP73–262, and CP73–219 be consolidated for hearing and decision.

(2) It is desirable and in the public interest to allow the aforementioned parties who have formally petitioned to intervene in Docket Nos. CI73–878, CI73–879, and CI73–880 to so intervene in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined.

(3) It is desirable and in the public interest to allow the aforementioned parties who have formally petitioned to intervene in Docket No. CP73–27 et al., to so intervene in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined.

(4) It is necessary and appropriate to grant the motion filed by Shell Oil Company to consolidated Docket Nos. CI73–160 and CI73–164 with CP73–27 et al.

(5) It is desirable and in the public interest to allow the aforementioned parties who have formally petitioned for intervention in Docket No. CP72–292 to so intervene in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined.

(6) It is desirable and in the public interest to allow the aforementioned parties who have formally petitioned for intervention in Docket No. CP73–219 to so intervene in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined.

(7) It is in the public interest to allow Texas Eastern Transmission Company, intervenor in Docket No. CP72–292, to intervene in the consolidated proceeding represented by Docket No. CP73–27 et al. subject to the conditions set forth in the body of this order.

*The Commission orders*

(A) Docket Nos. CP73–27, CI73–878, CI73–879, CI73–880, CI74–68, CI74–69, CI74–70, CI73–160, CI73–164, CP73–262, and CP73–219 are consolidated for purposes of hearing and disposition.

(B) The above-named petitioners, who have petitioned to intervene in the proceedings consolidated by ordering paragraph (A) herein, are permitted to intervene in such consolidated proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) The above-named petitioners, who have petitioned to intervene in the proceedings in Docket No. CP72–292, are permitted to intervene in such proceedings subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(D) Texas Eastern Transmission Company, a party to the proceeding in Docket No. CP72–292, is permitted to intervene in the procedings consolidated by ordering paragraph (A) herein subject to the rules and regulations of the Commission and subject to the provisions of intervention as set forth in ordering paragraph (B) herein: *Provided, however,* That the intervention of such parties shall be conditioned on the Commission's determination of the need for comparative hearings regarding the application herein and should the Commission determine that comparative hearings are not required such intervention shall be revoked.

(E) The direct case of Anadarko Production Company, Shell Oil Company, and Natural Gas Pipe Line Company of America in the proceedings consolidated by Ordering paragraph (A) herein and all intervenors in support thereof shall be filed and served on all parties of record including the Commission staff on or before September 21, 1973.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. RP74–5]

## TEXAS EASTERN TRANSMISSION CORP.

### Order Accepting for Filing and Suspending Proposed Rates, Permitting Intervention and Establishing Hearing Procedures

SEPTEMBER 13, 1973.

Texas Eastern Transmission Corporation (Texas Eastern) tendered proposed changes in its FPC Gas Tariff, Third Revised Volume No. 1 and Original Volume No. 2 on July 31, 1973.[1] The proposed changes would increase revenues from jurisdictional sales by $97,100,000 based on the 12 month period ending March 31, 1973, as adjusted.

The principal reasons for the proposed increase, as enunciated by Texas Eastern, are increased cost of labor, supplies, and working capital; the need for an increased rate of return of 9.25 percent; the need for an overall depreciation rate of 5.5 percent; and increased taxes.

The application by Texas Eastern contains certain revisions to its Purchased Gas Adjustment Provision (PGA) which were incorporated in Exhibit E to the Revised Stipulation and Agreement of July 25, 1973, in Docket No. RP72–98. The company maintains that certain other sheets in this filing are being revised as set forth in Article VII of the July 25 agreement. In accordance with Commission Order No. 483, issued April 30, 1973, in Docket No. R–462, Texas Eastern includes in this filing new tariff sheets containing procedures to track research and development expenitures.

Notice of this application was issued on August 13, 1973, providing for all comments and petitions to intervene to be filed by September 1, 1973. Numerous petitions to intervene have been filed:[2] Additionally, Notice of Intervention has been filed by the Tennessee Public Service Commission and the Public Service Commission of the State of New York.

With regard to the proposed research and development (R&D) tracking provision, our review indicates that it is consistent with the guidelines for such provisions contained in our Order No. 483, issued April 30, 1973, in Docket No. R–462. However, our acceptance of the provision shall be conditioned upon Texas Eastern's modification of it to reflect the amount which the actual balances in their Account 188 during the 12 month period ending 3 months prior to the effective date of R&D adjustment (reduced as provided in the R&D provision) exceed or are less than the amount allowed in Texas Eastern's last previous rate proceedings. These modifications are to be made before the end of the suspension period order herein.

Further review of the application indicates that the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. We will therefore suspend the proposed rates for the full statutory period and establish hearing procedures.

*The Commission finds*

(1) The proposed changes in Texas Eastern's FPC Gas Tariff should be accepted for filing as hereafter ordered.

(2) The proposed tariff sheets should be accepted for filing, suspended and the use thereof deferred until February 14, 1974.

(3) The proposed R&D tracking provision should be accepted as conditioned above and suspended until February 14, 1974.

(4) It is necessary and proper in the public interest and to aid in the enforcement of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of rates and charges contained in Texas Eastern's FPC Gas Tariff, as proposed to be amended to this docket.

(5) Good cause exists to permit the intervention of the above petitioners for intervention.

(6) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

*The Commission orders*

(A) The proposed tariff sheets filed by Texas Eastern on July 31, 1973, are accepted for filing and suspended as hereinafter ordered.

(B) Pending a hearing and a decision thereon, the accepted tariff sheets are suspended for the full statutory term and the use thereof deferred until February 14, 1973, or until such time as they are made effective in the manner provided in the Natural Gas Act.

(C) The proposed R&D tracking provision is accepted as modified above and the use thereof suspended until February 14, 1974.

(D) Pursuant to authority of the Natural Gas Act, particularly section 4 and 5 thereof, the Commission's rules and regulations (18 CFR Chapter I), a public hearing shall be held, commencing with a prehearing conference on January 9, 1974, at 10 a.m., e.s.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the lawfulness and reasonableness of the rates and charges in Texas Eastern's FPC Gas Tariff, as proposed to be amended herein.

(E) At a prehearing conference on January 9, 1974, Texas Eastern prepared testimony (Statement P) together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to the conference.

(F) On or before December 21, 1973, the Commission Staff shall serve its prepared testimony and exhibits. Any intervenor evidence will be filed on or before January 4, 1973. Any rebuttal evidence by Texas Eastern shall be served on or before January 25, 1974. The public hearing herein ordered shall convene on February 12, 1974, at 10 a.m., e.s.t.

(G) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 315(d)), shall preside at the hearing in this proceeding, shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(H) The above-named petitioners for intervention are permitted to intervene.

(I) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

## TEXAS EASTERN TRANSMISSION CORP.

### Postponement of Conference

SEPTEMBER 14, 1973.

On September 12, 1973, Texas Eastern Transmission Corporation filed a motion to postpone and reset the conference scheduled for September 18, 1973, by notice issued September 7, 1973, in the above-designated matter.

Upon consideration, notice is hereby given that the informal conference to be presided over by Staff Counsel is postponed to September 25, 1973, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission at 825 North Capitol Street N.E., Washington, D.C. 20426.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CP73–324]

## TEXAS GAS TRANSMISSION CORP.

### Amendment to Application

SEPTEMBER 12, 1973.

Take notice that on August 16, 1973, Texas Gas Transmission Corporation (Texas Gas), 3800 Frederica St., Owensboro, Kentucky 42301, filed in Docket

[1] See Appendix A.
[2] See Appendix B.

V38-1833
SEP 21 73
XUM

No. CP73-324 an amendment to its application in said docket pursuant to section 7(c) of the Natural Gas Act and § 157.7(g) of the regulations thereunder by requesting authorization for the construction and abandonment, during the twelve-month period commencing on the date of authorization, and operation of additional gas compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

In its original application in the subject docket, Texas Gas proposed to spend up to $1,000,000 for the proposed projects with no single project to exceed $250,000. Now, Texas Gas proposes to spend up to $3,000,000 for the proposed projects with no single project to exceed $500,000.

Any person desiring to be heard or to make any protest with reference to said amendment to application should on or before October 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20115 Filed 9-20-73;8:45 am]

[Docket No. E-6684]

## VIRGINIA ELECTRIC AND POWER CO. AND DAN RIVER, INC.

### Proposed Determination of Headwater Benefits Payments

SEPTEMBER 13, 1973.

Public notice is hereby given that the Commission Staff proposes a determination pursuant to the provisions of section 10(f) of the Federal Power Act (16 U.S.C. 803), of certain payments for benefits provided by the Federal Philpott and John H. Kerr headwater improvements in the Roanoke River basin to downstream hydroelectric plants owned by the Virginia Electric and Power Company (VEPCO) and Dan River Inc. (Dan River) during the period January 1, 1963, through December 31, 1968. The proposed payments, based on a report by the Commission's Bureau of Power, dated December 1972, amount to: $846,667 for benefits plus $83,975 for a share of the costs of the investigations, assigned to VEPCO; and $6,403 for benefits plus $635 for a share of the costs of the investigations assigned to Dan River.

Copies of the December 1972 Bureau of Power report were sent to all parties to the investigation on January 17, 1973, with requests for comments or suggestions. The Commission Staff reviewed the comments received and, by letter of July 24, 1973, advised the parties that it did not propose to change its proposed determination. In that letter, the Staff also offered each party the opportunity to comment further on the report or to request a conference among the parties, requesting that any responses be made by August 15, 1973. No responses to that letter have been received.

Any person desiring to be heard or to make protest with reference to the proposed headwater benefits payments to be made by VEPCO and Dan River, should on or before October 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceedings. Persons wishing to become parties to the proceeding or to participate as a party therein must file a petition to intervene in accordance with the Commission's rules of practice and procedure.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20129 Filed 9-20-73;8:45 am]

# FEDERAL RESERVE SYSTEM

## CHEMICAL NEW YORK CORP.

### Acquisition of Bank

Chemical New York Corporation, New York, New York, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares of First National Bank of Greenwich, Greenwich, New York. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Chemical New York Corporation is also engaged in the following nonbank activities: short term land development and mortgage construction loans, equipment leasing outside the United States and equipment leasing within the United States. In addition to the factors considered under section 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions in section 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of New York. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 9, 1973.

Board of Governors of the Federal Reserve System, September 14, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

## FIRST NATIONAL CITY CORP.

### Proposed Acquisition of Capital Financial Services, Inc. No. 21

First National City Corporation, New York, New York (through its wholly owned indirect subsidiary, Nationwide Financial Corporation of Oregon), has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire certain of the assets of Capital Financial Services, Inc. No. 21, Portland, Oregon. Notice of the application was published on May 11, 1973 in The Oregonian, a newspaper circulated in Portland, Oregon.

Applicant states that its indirect subsidiary would thereby engage in the activities of making consumer installment personal loans, purchasing consumer installment sales finance contracts, and acting as broker for the sale of consumer related life, accident and health insurance and consumer credit related property and casualty insurance; it would offer to sell such insurance as follows: a) Group credit life-accident and health insurance to cover the outstanding balances of loans to borrowers in the event of their death or, to make the contractual monthly payments on loans in the event of borrower's disability. b) Individual casualty insurance on property; generally automobiles and household goods, subject to Security Agreements. Further, Applicant states that in regard to the sale of credit related insurance, no offer will be made of insurance counseling.

Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 9, 1973.

Board of Governors of the Federal Reserve System, September 14, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-20079 Filed 9-20-73;8:45 am]

## FIRST NATIONAL CITY CORP.

### Order Approving Acquisition of Gateway Life Insurance Co.

First National City Corporation, New York, New York, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y to acquire all of the voting shares of Gateway Life Insurance Company, Phoenix, Arizona ("Gateway"), a company that would engage in the activity of underwriting, as reinsurer, credit life and credit accident and health insurance sold by Applicant's consumer finance subsidiary, Nationwide Financial Services Corporation ("Nationwide").[1] Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 FR 25966). The time for filing comments and views has expired, and none has been timely received.

Applicant, the largest banking organization and bank holding company in New York, controls seven banks with aggregate domestic deposits of $15.5 billion, representing 14.3 per cent of total deposits in commercial banks in the State.[2] Applicant also controls nonbanking subsidiaries engaged principally in mortgage banking, leasing, conditional sales financing, and consumer financing.

Gateway, with total assets of $1.25 million, would underwrite, as reinsurer, credit life and credit accident and health insurance made available by an unrelated direct underwriter in connection with extensions of consumer credit by Nationwide. Nationwide operates 85 small loan offices in 14 States throughout the South, the Mid-West, and the Far West. Gateway would reinsure credit life and credit accident and health insurance written in connection with Nationwide's loans in all of the States in which Nationwide conducts business, with the exception of Florida.

Applicant is not engaged in reinsurance of credit life and health and accident policies sold in connection with consumer credit. Applicant is engaged, indirectly through Lakeland Assurance Company, Phoenix, Arizona, in reinsuring mortgage life and accident and health insurance sold in connection with mortgages serviced by Applicant's mortgage banking subsidiary.[3] However, Lakeland does not engage in nor have experience in underwriting credit life and accident and health reinsurance. Accordingly, it does not appear that Applicant's acquisition of Gateway would result in any significant adverse effects on existing or potential competition.

As in past cases where credit life and credit accident and health insurance underwriting activities were acquired, the Board must be satisfied that the public interest is met. Applicant has committed that within 90 days from approval of the proposal, Gateway and its direct underwriter will reduce the rates charged on credit life insurance policies by amounts varying from 3 to 15 percent in the various States in which Nationwide operates. Further, Applicant states that within 90 days from approval of the proposal, Gateway will reduce the rates charged on credit accident and health insurance policies by 5 percent or increase policy benefits by at least 5 percent. It is the Board's judgment that these benefits to the public are consistent with approval of the application.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under Section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be consummated not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of New York.

By order of the Board of Governors,[4] effective September 11, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[FR Doc.73-20082 Filed 9-20-73;8:45 am]

## ILLINOIS NEIGHBORHOOD DEVELOPMENT CORP.

### Formation of Bank Holding Company

Illinois Neighborhood Development Corporation, Chicago, Illinois, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 percent or more of the voting shares of The South Shore National Bank of Chicago, Chicago, Illinois. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 9, 1973.

Board of Governors of the Federal Reserve System, September 14, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-20077 Filed 9-20-73;8:45 am]

## MERCANTILE BANCORPORATION

### Acquisition of Bank

Mercantile Bancorporation, Inc., St. Louis, Missouri, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 90 per cent or more of the voting shares of Lewis & Clark State Bank of St. Louis County, St. Louis, Missouri. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of St. Louis. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 9, 1973.

Board of Governors of the Federal Reserve System, September 14, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-20081 Filed 9-20-73;8:45 am]

[1] The application relates to a matter on which the Board reserved decision in its Order of December 14, 1972, approving Applicant's acquisition of Nationwide. (See Federal Reserve Bulletin, January 1973, p. 27, especially footnote 1.)

[2] Banking data are as of June 30, 1972, adjusted to reflect holding company formations and acquisitions approved through July 31, 1973.

[3] Lakeland Assurance Company was indirectly acquired by Applicant prior to December 31, 1970, and has 10-year grandfather privileges under section 4(a)(2) of the Act. The Board has not yet determined whether reinsuring mortgage redemption and accident and health insurance related thereto is an activity closely related to banking.

[4] Voting for this action: Vice Chairman Mitchell and Governors Sheehan, Bucher, and Holland. Absent and not voting: Chairman Burns and Governors Daane and Brimmer.

V 38-183 SEP 21 73 XUM

## MERCANTILE BANCORPORATION INC.

### Order Approving Acquisition of Bank

Mercantile Bancorporation Inc., St. Louis, Missouri, ("Applicant") a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire at least 90 per cent of the voting shares, plus directors' qualifying shares, of Cape State Bank and Trust Company, Cape Girardeau, Missouri ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none have been received.

Applicant, the largest banking organization in Missouri, controls eight banks [1] with aggregate deposits of $1,290 million [2] representing approximately 9.2 per cent of total commercial bank deposits in the State. The acquisition of Bank, with deposits of $15.0 million, would increase Applicant's percentage share of deposits in the State by only one-tenth of a percentage point and would not result in any significant increase in the concentration of banking resources in Missouri.

Bank, located in Cape Girardeau, Missouri, is the third largest of eight banks in its market area (approximated by Cape Girardeau County and the northern portion of Scott County). Bank holds 12.0 per cent of total market deposits, whereas the two largest banks control approximately 32 and 26 per cent, respectively. Applicant's nearest subsidiary bank is located in St. Louis, approximately 130 road miles from Bank and outside Bank's market area. Because of the distances separating Applicant's subsidiary banks from Bank and because of the restrictive Missouri branching laws, it is unlikely that competition would develop between Bank and any of Applicant's subsidiaries. Consummation of the proposal would not eliminate existing or potential competition, nor would it have significant adverse effects on any competing bank.

The financial and managerial resources and prospects of Applicant, its present subsidiaries, and Bank are all regarded as satisfactory and lend weight toward approval of the application. It appears that the major banking needs of Bank's service area are presently being met by the existing banking institutions; however, Applicant proposes to expand Bank's services, including its corporate and personal trust, real estate and investment management operations, in order to make Bank more responsive to the needs of the community. It is felt that expansion of these services would be beneficial to the area to be served and these benefits outweigh any possible adverse effects. It is the Reserve Bank's judgment that the proposed acquisition is in the public interest and that the application should be approved.

On the basis of the record as summarized above, the Federal Reserve Bank of St. Louis approves the application, provided that the transaction shall not be consummataed (a) before the thirtieth calendar day following the date of this Order or (b) later than three months after the date of this Order, unless such period is extended for good cause by the Board or by this Federal Reserve Bank pursuant to delegated authority.

By order of the Federal Reserve Bank of St. Louis, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective September 10, 1973.

[SEAL] HAROLD E. UTHOFF,
*Vice President.*

[FR Doc.73-20083 Filed 9-20-73;8:45 am]

[1] Applicant received Board approval to acquire Mercantile National Bank of St. Louis County, St. Louis County, Missouri, a de novo bank, on July 12, 1973.

[2] Banking data are as of December 31, 1972, adjusted to reflect holding company formations and acquisitions approved by the Board through June 21, 1973.

## MERCANTILE BANCORPORATION INC.

### Order Approving Acquisition of Bank

Mercantile Bancorporation Inc., St. Louis, Missouri ("Applicant"), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire at least 90 percent of the voting shares, plus directors' qualifying shares, of United Bank of Farmington, Farmington, Missouri ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time of filing comments and views has expired, and the application and comments received have been considered in light of factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization in Missouri, controls eight subsidiary banks [1] with aggregate deposits of $1.29 billion, representing 9.2 percent of total commercial bank deposits in the State.[2] Acquisition of Bank, with $17.4 million in deposits, would increase Applicant's share of commercial bank deposits in the State by only one-tenth of a percentage point and would not result in any significant increase in the concentration of banking resources in Missouri.

Bank is the larger of two banks in Farmington and the largest of seven banks in its banking market (which includes areas and towns near Farmington) and controls 23.3 per cent of market area deposits. Although Bank is the largest in the area, the second and third largest banks in the market hold, respectively, 22.5 and 15.3 per cent of deposits and all of the area banks appear to be viable competitors. Applicant's closest subsidiary to Bank is located 70 miles north of Bank, and none of Applicant's subsidiaries competes with Bank to any significant extent. Furthermore, because of the distances separating Applicant's subsidiary banks from Bank and Missouri branching restrictions, it is unlikely that competition would develop between Bank and any of Applicant's present or proposed subsidiaries. The prospect of Applicant entering Bank's market de novo is unlikely in view of the relatively low population density and below average growth rate in Bank's market area.

The financial and managerial resources and prospects of Applicant, its present subsidiaries, and Bank are all regarded as satisfactory and consistent with approval of the application. There is no evidence to suggest that the major banking needs of Bank's service area are not presently being met by existing financial institutions; however, Applicant intends to make bond investment consultation and trust service available to Farmington residents drawing on the experience of its subsidiary banks. Applicant also sees the need for offering a more diversified deposit program. Thus, considerations relating to convenience and needs are consistent with approval of the application. It is the Reserve Bank's judgement that the proposed acquisition is in the public interest and that the application should be approved.

On the basis of the record as summarized above, the Federal Reserve Bank of St. Louis approves the application, provided that the transaction shall not be consummated (a) before the thirtieth calendar day following the date of this Order or (b) later than three months after the date of this Order, unless such period is extended for good cause by the Board or by this Reserve Bank pursuant to delegated authority.

By order of the Federal Reserve Bank of St. Louis, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective September 11, 1973.

[SEAL] HAROLD E. UTHOFF,
*Vice President.*

[FR Doc.73-20084 Filed 9-20-73;8:45 am]

[1] Applicant also received Board approval to acquire Mercantile National Bank of St. Louis County, St. Louis County, Missouri, a de novo bank, on July 12, 1973.

[2] Banking data are as of December 31, 1972, adjusted to reflect holding company formations and acquisitions approved by the Board through July 15, 1973.

## UNITED MISSOURI BANCSHARES, INC.

### Order Approving Acquisition of Bank

United Missouri Bancshares, Inc., Kansas City, Missouri, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more (plus directors' qualifying shares) of the voting shares of Hickman Mills Bank & Trust Co., Kansas City, Missouri (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fifth largest bank holding company and the fifth largest banking organization in Missouri, controls twelve banks with aggregate deposits of $654.7 million representing approximately 5 percent of the total commercial bank deposits in the State. (Banking data are as of December 30, 1972, adjusted to reflect holding company formations and acquisitions approved by the Board through July 31, 1973.) Applicant's lead bank, United Missouri Bank of Kansas City, N.A. (United Missouri Bank) ($459.2 million in deposits), located in downtown Kansas City, is the second largest bank operating in the Kansas City market (approximated by the old Kansas City SMSA less the section of Cass County south of Harrisonville).[1] In addition to United Missouri Bank, applicant has two other subsidiaries in the Kansas City market;[2] aggregate deposits of the three subsidiaries ($500.9 million) represent 12.03 percent of the total deposits in the Kansas City market. Approval of the acquisition of Bank would increase Applicant's share only slightly to 12.08 percent of the total market deposits.

Bank ($20.4 million in deposits), located in the southern portion of Kansas City, approximately ninteteen miles south of Applicant's lead bank, is one of the smaller banks operating in the Kansas City market with about .5 percent of total deposits in the market. There is some present competition between Bank and Applicant's subsidiaries since they are located in the same market. However, the amount of such competition would appear to be minimized due to the fact that Applicant and Bank are affiliated through common stock ownership, and Bank has enjoyed a close working relationship with Applicant and United Missouri Bank. On the basis of the facts of record, notably the existence of numerous banking alternatives available in the Kansas City market, Bank's small market share, the common ownership and relationship between Applicant's lead bank and Bank, and the fact that the close association would be likely to continue regardless of the Board's action on the present application, the Board concludes that consummation of the proposal would not eliminate any significant existing competition nor foreclose significant potential competition.

The financial and managerial resources and future prospects of Applicant, Applicant's present subsidiaries and Bank are satisfactory and consistent with approval of the application. Considerations relating to the convenience and needs of the communities to be served are regarded as consistent with approval. It is the Board's judgment that the transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[3] effective September 13, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[FR Doc.73-20080 Filed 9-20-73;8:45 am]

[1] The old Kansas City Standard Metropolitan Statistical Area includes Cass, Clay, Jackson and Platte Counties in Missouri, and Johnson and Wyandotte Counties in Kansas.

[2] In addition, Applicant has applied to the Comptroller of the Currency to organize a national bank in Blue Springs, Missouri (located nine miles east of downtown Kansas City). The Comptroller announced preliminary approval on June 14, 1973.

## WEST FLORIDA BANK HOLDING CO., INC.

### Acquisition of Bank

West Florida Bank Holding Co., Inc., Panama City, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of Panama City National Bank, Panama City, Florida. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank, to be received not later than September 28, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-20078 Filed 9-20-73;8:45 am]

[3] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Brimmer, Sheehan and Holland. Absent and not voting: Governor Bucher.

## SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33-5422, 34-10394]

### LITIGATION AND ADMINISTRATIVE PROCEEDINGS AFFECTING PROFESSIONALS PRACTICING BEFORE THE COMMISSION

#### Extension of Comment Period

On July 25, 1973, the Commission announced an inquiry to obtain information and ascertain views of interested persons concerning the materiality of disclosure in filings with the Commission of civil and criminal litigation and of administrative disciplinary proceedings involving professionals such as accountants and attorneys who practice before the Commission. (Securities Act Release No. 5411, Securities Exchange Act Release No. 10296) (38 FR 22191). The time for submitting such comments expires September 15, 1973. However, the Commission has received requests for additional time within which to submit comments on these issues. Accordingly, the time for submitting such comments has been extended to October 30, 1973. Those submitting comments should consider and address themselves particularly to the factors set forth in the release announcing the Commission's inquiry. All communications will be placed in the public files of the Commission and should refer to File No. S7-488.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

SEPTEMBER 18, 1973.

V38-1833 SEP 21 1973 XUM

[Delegation of Authority 13, Amdt. 1]

## ASSOCIATE ADMINISTRATOR FOR PROCUREMENT AND MANAGEMENT ASSISTANCE

### Delegation of Authority

Delegation of Authority No. 13 (37 FR 20752) is hereby amended to include authorities necessary for the 406 program. The functions of this program are transferred to the Associate Administrator for Procurement and Management Assistance from the Associate Administrator for Finance and Investment.

Paragraph IC is added to Delegation of Authority No. 13 and reads as follows:

* * * * *

C. *406 Program.* 1. To execute grants, agreements, and contracts providing financial assistance to public or private organizations to pay all or part of the costs of projects designed to provide technical and management assistance to individuals or enterprises eligible for assistance under section 402 of the Economic Opportunity Act of 1964, as amended, with special attention to small business concerns located in urban areas of high concentration of unemployed or low-income individuals or owned by low-income individuals. Such financial assistance may be provided for projects, including without limitation:

a. Planning and research, including feasibility studies and market research;

b. The identification and development of new business opportunities;

c. The furnishing of centralized services with regard to public services and government programs, including programs authorized under section 402 of the Economic Opportunity Act of 1964, as amended;

d. The establishment and strengthening of business service agencies, including trade associations and cooperatives;

e. The encouragement of the placement of subcontracts by major businesses with small business concerns located in urban areas of high concentration of employed or low-income individuals or owned by low-income individuals, including the provision of incentives and assistance to such major businesses so that they will aid in the training and upgrading of potential subcontractors or other small business concerns;

f. The furnishing of business counseling, management training, and legal and other related services, with special emphasis on the development of management training programs using the resources of the business community, including the development of management training opportunities in existing businesses, and with emphasis in all cases upon providing management training of sufficient scope and duration to develop entrepreneurial and managerial self-sufficiency on the part of the individuals served.

* * * * *

*Effective Date.*—August 20, 1973.

### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before October 15, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74555. By order entered September 14, 1973, the Motor Carrier Board approved the transfer to C & W Czyzewski Enterprise, Inc., doing business as R & M Messenger and Delivery Service, Irvington, N.J., of the operating rights set forth in Certificate No. MC-2644, issued by the Commission May 21, 1973, to Ranchero Leasing, Inc., doing business as Ranchero Transport and Leasing Co., Newark, N.J., authorizing the transportation of general commodities, with the usual exceptions, between New York, N.Y., on the one hand, and, on the other, 31 specified points in New Jersey—Robert B. Pepper, 168 Woodbridge Ave., Highland Park, N.J. 08904, practitioner for applicants.

No. MC-FC-74582. By order of September 17, 1973, the Motor Carrier Board approved the transfer to Joe N. Quince, doing business as Beloit Cartage, Beloit, Wis., of Certificate No. MC-24113 issued August 11, 1960, to Earl S. Babcock, doing busines as Beloit Cartage, Beloit, Wis., authorizing the transportation of: Foodstuffs, fresh fruits and vegetables, and groceries between Janesville, Wis., and Chicago, Ill.; and general commodities, with the usual exceptions, between Beloit, Wis., and South Beloit, Wis. Dual operations were approved—Mr. John L. Bruemmer, Attorney at Law, 121 West Doty Street, Madison, Wis. 53703.

No. MC-FC-74631. By order of September 17, 1973, the Motor Carrier Board approved the transfer to Benton's Hartford Express, Inc., Stafford Springs, Conn., of Certificate of Registration No. MC-57346 (Sub-No. 1) issued March 19, 1964, to Francis C. Layman, doing business as Benton's Hartford Express, Stafford Springs, Conn., evidencing a right to engage in transportation in interstate or foreign commerce corresponding in scope to the grant of authority in Motor Common Carrier Certificate C-1061 issued July 30, 1958, by the Connecticut Public Utilities Commission—Thomas W. Murrett, 342 North Main Street, West Hartford, Conn. 06117. Attorney for applicants.

No. MC-FC-74701. By order of September 17, 1973, the Motor Carrier Board approved the transfer to Annett Bus Service, Inc., Box 123, Harrington, Del., of Certificates Nos. MC-94132 and MC-94132 (Sub-No. 2) issued January 23, 1941, and October 15, 1970, respectively, to John H. Annett, Harrington, Del., authorizing the transportation of passengers and their baggage, in charter operations, from Milford, Del., to points in New Jersey, Maryland, Pennsylvania, Virginia, and the District of Columbia; and between points in Carolina County, Md., on the one hand, and on the other, Milford, Del.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

### FOURTH SECTION APPLICATION FOR RELIEF

SEPTEMBER 18, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before Oct. 9, 1973.

FSA No. 42748—*Beet or Cane Sugar to Points in Iowa and Wisconsin.* Filed by Western Trunk Line Committee, Agent, (No. A-2689), for interested rail carriers. Rates on sugar, beet or cane, dry, in bulk, in carloads, as described in the application, from points in Montana, transcontinental and western trunk-line territories, to specified points in Iowa and Wisconsin.

Grounds for relief—Rate relationship, returned shipments.

Tariffs—Supplement 143 to Western Trunk Line Committee, Agent, tariff 159-0, I.C.C. No. A-4481, and 3 other schedules named in the application. Rates are published to become effective on October 15, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

[FR Doc.73-20169 Filed 9-20-73;8:45 am]

### FOURTH SECTION APPLICATION FOR RELIEF

SEPTEMBER 18, 1973.

An application, as summarized below, has been filed reuqesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before October 9, 1973.

FSA No. 42735—Amended—Asphalt (Asphaltum), Pitch or Tar Between Points in Southern Territory also from Points in Southwestern Territory to Points in Southern Territory. Filed by Southwestern Freight Bureau, Agent, (No. B-430, as amended), for interested rail carriers. Rates on asphalt (asphaltum), pitch or tar, in carloads, as described in the application, between points in southern territory; also from points in Arkansas, Kansas, Louisiana, Missouri, Oklahoma and Texas, to points in southern territory.

Grounds for relief—Rate relationship and market competition.

Tariffs—Supplement 73 to Southwestern Freight Bureau, Agent, tariff 126-L, I.C.C. No. 4789, and supplement 8 to Southern Freight Association, Agent, tariff S-2011-N, I.C.C. No. S-1112. Rates are published to become effective on October 18, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions

V 38-183 SEP 21 73 XUM

## DEPARTMENT OF LABOR

### Employment Standards Administration

### MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

### General Wage Determination Decisions, Modifications and Supersedeas Decisions

*General wage determination decisions.* General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes these procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

*Modifications and supersedeas decisions to general wage determination decisions.* Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in the foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

*New general wage determination decisions.* New General Wage Determination Decision No. AQ–4012 for the State of Florida; and AQ–3012 and AQ–3013 for the State of Massachusetts.

UTAH
AREA DEFINITIONS
for
Truck Drivers & Operating Engineers

** AREA 2: All areas not included within Area-1 as defined below.

* AREA 1: All areas included in the description defined below which is based upon township and range-lines as referenced to the Salt Lake City Base and Meridian:

Commencing at the intersection of the Utah-Nevada border and the Northerly line of Township 36S, thence easterly along the northerly lines of Township 36S to the Northeast corner of Township 36S, Range 17W.

Thence Northerly to the N.W. corner of township 35S, range 16 W;
Thence Easterly to the N.E. corner of township 35S, range 16 W;
Thence Northerly to the N.W. corner of township 31S, range 15 W;
Thence easterly to the N.E. corner of township 31S, range 15 W;
Thence Northerly to the N.W. corner of township 26S, range 14 W;
Thence Easterly to the N.E. corner of township 26S, range 14 W;
Thence Northerly to the N.W. corner of township 25S, range 13 W;
Thence Easterly to the N.E. corner of township 25S, range 13 W;
Thence Northerly to the N.W. corner of township 24S, range 12 W;
Thence Easterly to the N.E. corner of township 24S, range 12 W;
Thence Northerly to the N.W. corner of township 19S, range 11 W;
Thence Easterly to the N.E. corner of township 19S, range 11 W;
Thence Northerly to the N.W. corner of township 17S, range 10 W;
Thence Easterly to the N.E. corner of township 17S, range 10 W;
Thence Northerly to the N.W. corner of township 16S, range 9 W;
Thence Easterly to the N.E. corner of township 16S, range 9 W;
Thence Northerly to the N.W. corner of township 15S, range 8 W;
Thence Easterly to the N.E. corner of township 15S, range 8 W;
Thence Northerly to the S.W. corner of township 7S, range 7 W;
Thence Westerly to the S.W. corner of township 7S, range 10 W;
Thence Northerly crossing the Salt Lake Base line to the N.W. corner of township 6N, range 10 W;
Thence Easterly to the N.W. corner of township 6N, range 8 W;
Thence Northerly to the N.W. corner of township 12 N, range 8 W;
Thence Easterly to the N.E. corner of township 12 N, range 8 W;
Thence Northerly along the Westerly line of range 7 W to the Utah/Idaho border
Thence Easterly along the Utah/Idaho border crossing the Salt Lake Meridian to the Intersection of the Utah/Idaho/Wyoming borders
Thence Southerly along the Utah/Wyoming Border
Thence Easterly along the Utah/Wyoming border to the Easterly line of range 11 E;
Thence Southerly along the East line of range 11 E, crossing the Salt Lake Base line to the N.E. corner of township 4S, range 11 E;
Thence Easterly to the N.W. corner of township 4S, range 18E;
Thence Northerly to the N.W. corner of township 1S, range 18 E;
Thence Easterly along the Salt Lake Base line to the N.E. corner of township 1 S, range 24 E;
Thence Southerly to the N.E. corner of township 3 S, range 24 E;
Thence Easterly along the Northern line of township 3S, to the Utah/Colorado border;

DECISION #AQ-1,017 (Cont'd)

Thence Southerly to the N.E. corner of township 31 S, range 24 E;
Thence Easterly along the Northerly line of township 31 S, to the Utah/Colorado border;
Thence Southerly along the Utah/Colorado border to the point of beginning.

NOTE: Truck Drivers, only - If any part of portion of any job or project falls within Area 2, then the Area 2 rate of pay will apply for all work done on said job or project. This means, all actual on-site work, such as dams, bridges, roads, etc., including barrow pits which may be located in Area 1.

## HIGHLIGHTS OF THIS ISSUE

**This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.**

**PHASE IV**—CLC revises regulations regarding construction industry; effective 9–26–73 ..... 26611

**CONTROLLED DRUGS**—Justice Department exempts certain research chemicals; effective 9–24–73 ..... 26610

**HOUSEHOLD MOVERS**—ICC amendments on uniform rates for identical services and credit card systems (2 documents); effective 1–1–74 and 11–2–73, respectively ..... 26608

**HISTORIC PLACES**—Interior Department amendments to National Register ..... 26618

**MEDICARE**—HEW proposal concerning computation of supplementary medical insurance premium rates; comments by 10–24–73 ..... 26616

**AIR TAXIS**—CAB proposal on reporting requirements; comments by 10–19–72 ..... 26616

**AIR CARGO RATES**—CAB adopts IATA resolution on import service fees ..... 26627

**TEXTILE IMPORTS**—CITA renews import limitations on certain cotton products from Costa Rico ..... 26630

**NATURAL GAS**—FPC policy statement on measures for adequate service during 1973–1974 winter heating season ..... 26603

**MEETINGS**—

DoD: Army Advisory Committee for National Dredging Study, 9–27 and 9–28–73 ..... 26618

Commission on Civil Rights: State Advisory Committees, 9–25, 9–26, and 9–29–73 ..... 26629

FPC: National Power Survey, Technical Advisory Committee on Conservation of Energy, 9–26–73 ..... 26645

Coordinating Committee, 10–3–73 ..... 26645

Executive Advisory Committee, 10–4–73 ..... 26645

Commerce Department: Management-Labor Textile Advisory Committee, 10–2–73 ..... 26624

**PART II:**

**UNITED STATES BOARD OF PAROLE**—Justice Department organization, operation and procedures for Northeast Region; effective 10–1–73 .... 26651

**PART III:**

**EDUCATIONAL OPPORTUNITY GRANTS**—HEW proposes 1974–1975 expected family contribution schedules; comments by 11–23–73 ..... 26659

V38-184 SEP 24 73 XUM

# REMINDERS

**Rules Going Into Effect Today**

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

**SEPTEMBER 24**

CAB—Authority to direct air carriers to charter aircraft to foreign air freight forwarders (3 documents)..... 22771–22772; 8–24–73

EPA—Approval and promulgation of compliance schedules..... 22736; 8–23–73

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

# Contents

**AGRICULTURAL MARKETING SERVICE**

# List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

# Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 5—Administrative Personnel

### CHAPTER I—CIVIL SERVICE COMMISSION

### PART 335—PROMOTION AND INTERNAL PLACEMENT

### PART 430—PERFORMANCE EVALUATION

### PART 451—INCENTIVE AWARDS

### PART 630—ABSENCE AND LEAVE

### PART 715—NONDISCIPLINARY SEPARATIONS, DEMOTIONS AND FURLOUGHS

#### Effective Dates

In the FEDERAL REGISTER of July 11, 1973, FR Doc. 73-14107, beginning on page 18445, amendments were made to Parts 335, 430, 451, 630, and 715 without stating an effective date. The effective dates for these changes are as follows:

"Amendments to Parts 430, 451, 630, and 715 are effective upon implementation by an agency or January 19, 1974, whichever comes first. Part 335 is effective upon implementation by an agency or 6 months after issuance of revised FPM Chapter 335, whichever comes first."

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
*Executive Assistant to the Commissioners.*

## Title 7—Agriculture

### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 449, Amdt. 1]

### PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### Limitation of Handling

This regulation increases the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period September 14-20, 1973. The quantity that may be shipped is increased due to improved market conditions for California-Arizona Valencia oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674) and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Valencia Orange Regulation 449 (38 FR 25431). The marketing picture now indicates that there is a greater demand for Valencia oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Valencia oranges to fill the current demand thereby making a greater quantity of Valencia oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Valencia oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1)(ii) of § 908.749 (Valencia Orange Regulation 449 (38 FR 25431)) are hereby amended to read as follows:

"(ii) District 2: 625,000 cartons."

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Dated September 19, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division Agricultural Marketing Service.*

## Title 14—Aeronautics and Space

### CHAPTER II—CIVIL AERONAUTICS BOARD

#### SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-822]

### PART 240—INSPECTION OF ACCOUNTS AND PROPERTY

#### Amendment of Part Due to Reorganization of Board Components

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. A recent reorganization within the Board has resulted in the transfer of the Board's audit functions from the Bureau of Accounts and Statistics to the Bureau of Enforcement. In order to reflect this reorganization, we are deleting the reference to "the Field Audits Division, Bureau of Accounts and Statistics" which is contained in § 240.1(b) of our Economic Regulations (14 CFR Part 240).

Since the amendment provided for herein is of a technical nature, relating to a rule of agency organization, the Board finds that notice and public procedure hereon are not necessary, and that the amendment may be made effective immediately.

Accordingly, the Civil Aeronautics Board hereby amends section 240.1 of Part 240 of its Economic Regulations (14 CFR Part 240) effective September 18, 1973, as follows:

Amend § 240.1 by revising paragraph (b), the revised section to read in part as follows:

§ 240.1 Interpretation.

* * * * *

(b) The term "special agent" and "auditor" are construed to mean any employee of the Bureau of Enforcement and any other employee of the Board specifically designated by it or by the Director, Office of Facilities and Operations.

* * * * *

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended; 72 Stat. 743 (49 U.S.C. 1324).)

By the Civil Aeronautics Board.

Effective: September 18, 1973.
Adopted: September 18, 1973.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147 (15 U.S.C. 45, 1601–1605)) [Cease and desist order, Mo-Mod Sales Co. d/b/a Sipe's Mobile Homes, et al., Docket C-2435, August 31, 1973.]

*In the Matter of Mo-Mod Sales, Co., a corporation doing business as Sipe's Mobile Homes, and Harvey C. Herrick, and John L. Sipe, individually and as officers of said corporation.*

Consent order requiring a Sedalia, Missouri, mobile home dealer, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

*It is ordered,* That respondent Mo-Mod Sales Co., a corporation, and its officers, and Harvey C. Herrick and John L. Sipe, individually and as officers of said corporation, trading under said corporate name or under any trade name or names, their successors and assigns, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the arrangement, extension, or advertisement of consumer credit in connection with the sale of mobile homes or other products or services, as "advertisement" and "consumer credit" are defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Pub. L. 90–321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Representing, directly or by implication, in any advertisement, as "advertisement" is defined in Regulation Z, the amount of the downpayment required or that no downpayment is required, the amount of any installment payment, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are stated in terminology prescribed under § 226.8 of Regulation Z:

(a) The cash price;

(b) The amount of the downpayment required or that no downpayment is required, as applicable;

(c) The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

(d) The amount of the finance charge expressed as an annual percentage rate; and

(e) The deferred payment price.

2. Failing, in any consumer credit transaction or advertisement, to make all the disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, in the manner, form, and amount required by §§ 226.6, 226.7, 226.8, 226.9, and 226.10 of Regulation Z.

3. Failing to deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in any aspect of preparation, creation, and placing of advertising, all persons engaged in reviewing the legal sufficiency of advertising, and all present and future agencies engaged in preparation, creation, and placing of advertising on behalf of respondents, and failing to secure from each such person or agency a signed statement acknowledging receipt of said order.

*It is further ordered,* That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

*It is further ordered,* That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

*It is further ordered,* That respondents shall, within sixty (60) days after service upon them of this order, file, individually, with the Commission, a report in writing, setting forth in detail the manner and form in which each of them has complied with this order.

Issued August 31, 1973.

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

[Docket No. RM74-3; Order 491]

PART 2—GENERAL POLICY AND INTERPRETATIONS

PART 157—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AND FOR ORDERS PERMITTING AND APPROVING ABANDONMENT UNDER SECTION 7 OF THE NATURAL GAS ACT

Policy Regarding Establishment of Measures To Be Taken for Protection of Reliable and Adequate Service for 1973–1974 Winter Heating Season

SEPTEMBER 14, 1973.

Effective upon the date of issuance of this order, the Commission issues herein a new policy statement, amends §§ 2.68 and 2.70 of its General Policy and Interpretations and §§ 157.22 and 157.29 of its regulations under the Natural Gas Act.

Our authority to promulgate this policy statement and amend prior policy statements and regulations is contained in the Natural Gas Act, particularly sections 7 and 16 therein, and the Administrative Procedure Act. No notice of these actions is required under the Administrative Procedure Act, nor do we find that notice and public procedure would either be practicable, necessary, or serve the public interest.[1] We have used such summary procedures in order that we may promulgate policies to assist some 43 million gas consumers to obtain adequate, safe and reliable service for the 1973–1974 winter heating season.[2] However, we will re-examine our actions herein, on or before March 15, 1973, the latter being the termination date unless otherwise ordered.[3]

In Commission Order Nos. 402 and 402–A,[4] the Commission promulgated a policy statement (§ 2.68 of our General Policy and Interpretations), which encouraged persons and companies exempt under sections 1(b) and 1(c) of the Act (distribution companies and intrastate pipelines) to make short-term sales or deliveries of natural gas in interstate commerce so as to make available temporary emergency gas supplies, without our approval, for up to 60 days.

Under Order No. 418,[5] we amended §§ 157.22 and 157.29 of our regulations under the Natural Gas Act, to provide for emergency sales by producers to interstate pipelines and for emergency operations (e.g. exchanges) between pipelines for up to 60 days, which transactions were exempted from prior Commission certificate authorization under section 7 of the Act.

In conjunction with Order Nos. 402 and 418, the Commission issued Order No. 431,[6] promulgating § 2.70 of our General Policy and Interpretations, indicating that "[n]otwithstanding these emergency measures (Order Nos. 402 and 418), a number of natural gas pipelines indicated their inability to deliver sufficient gas to meet their firm demands." By that order we continued the prior emergency measures, i.e. up to 60 days, but provided that we would consider limited-term certificates for purchases extending beyond that 60-day period, with pregranted abandonment, if the pipeline demonstrates emergency need and has (1) made every reasonable effort to fill all storage fields and (2) filed curtailment plans.[7] § 2.70(b)(3)

Promulgation of the above-emergency measures has resulted in commitments of natural gas to interstate consumers of 1.2 trillion cubic feet, through purchases ranging for 60 days to three years, from 1971 through May of 1973.

In Order No. 418, we noted that:

> Several parties suggested that the proposed 60-day period of emergency operation be extended to periods ranging from three to six months. • • • We shall • • • defer disposition of this issue until such time as we may propose additional rules applicable to emergency transactions on a more extended basis. 44 FPC at 1575.

We now dispose of that reserved issue, at least on an interim basis.

On July 16, 1973, the Commission's staff released its most recent report on past curtailments and projected curtailments for the 1973–1974 winter heating season.[8] That report indicated (after eliminating intercompany transactions) that net curtailments of firm requirements customers of the major interstate pipelines represented about .8 trillion cubic feet from April 1972 to March 1973, and was reported to increase to about 1.2 trillion cubic feet during the April 1973–March 1974 period. Such curtailments for the 1973–1974 winter heating season are estimated to be .5 trillion cubic feet of natural gas; the equivalent of about 85 million barrels of oil. The report further indicated acute regional curtailments, both this summer and for the current winter-heating season, in the New England, Appalachian, Great Lakes and Northern Plains regions. Such curtailments will result, as they did last year, in severe economic and environmental consequences, resulting in the closing of schools and factories, the denial of utility service to new customers, the utilization by industry and electric utilities of alternate fuels which impact upon ambient air quality standards, and the transfer of unfulfilled demand to other fuels in short supply with the resultant upward price pressures. At least for the 1973–1974 winter-heating season, reliable and adequate gas service is even more jeopardized than at the juncture when we initiated emergency measures, *supra,* over three and one-half years ago.

We further take notice of the overall domestic fuel situation for this 1973–1974 winter heating season. The unfulfilled demand for natural gas cannot be readily transferred to other fuels. Propane and fuel oils are in limited supply and neither can fulfill the projected firm requirements for customers of interstate pipelines.

In order that this Commission can discharge its responsibilities to the Nation's

[6] 45 FPC 570 (1971).

[7] Such filings for limited-term certificates were made pursuant to Paragraph 12 in Docket No. R–389–A, July 17, 1970. 35 F.R. 11638.

[8] We take official notice of FPC News Release No. 19441, July 16, 1973, publishing that report.

V 38-184 SEP 24 73 XUM

gas consumers and carry out our Congressionally-delegated mandate, we are effective this day amending §§ 2.68 and 2.70 of our General Policy and Interpretations and §§ 157.22 and 157.29 of our regulations under the Natural Gas Act, to change the 60-day emergency measures provided therein, so as to change the term to a maximum of 180 days under which no Commission authorization is required in advance.* Concurrently, we are providing that § 2.70(b)(3), which provides for the filing of limited-term certificates under Paragraph 12, supra, is hereby stayed, pending further review and order of the Commission. All such limited-term certificate applications, which have been filed with the Secretary as of the date of issuance of this order, will be processed, as in the past, and any applications submitted after the date of this order, shall be returned, without prejudice to the applicant. Applicants are free to file notices of withdrawal of limited-term certificates previously filed, pursuant to § 1.11(d) of our rules and regulations.

On or before March 15, 1974, the Commission will have reviewed the emergency measures provided herein. Transactions entered into prior to March 15, 1974, may continue for a period up to 180 days, i.e. an emergency measure initiated on February 1, 1974, may continue until July 31, 1974. Those 60-day emergency transactions which have commenced as of the date of issuance of this order may continue, depending upon the agreement between the parties, for 180 days beginning at the time of termination of the 60-day transaction. In addition to the existing reporting requirements, we will require that the pipeline purchaser report to the Secretary within ten (10) days after deliveries commence under the 180-day procedure, the estimated volumes and rate charged for the emergency sale.

We will review these measures to determine their impact during the 1973–1974 winter-heating season and to determine what emergency measures may be required during the 1974 summer storage injection period and the 1974–1975 winter-heating season.

*The Commission finds*

(1) The revisions to the policy statements and regulations herein do not require notice or hearing under 5 U.S.C. 553.

(2) Many interstate natural gas pipelines have been unable to obtain and are expected to have problems in obtaining, short-term emergency, gas supplies to meet their firm requirements during the 1973–1974 winter-heating season, in the absence of the revised emergency measures herein promulgated.

*The Commission orders that effective upon issuance*

(A) Part 2, Subchapter A, General Rules, Chapter I of Title 18 of the Code of Federal Regulations, is amended by revising the following:

In § 2.68 (a) and (b)—The 60-day periods found therein are changed to 180 days.

In § 2.70(b)(3)—The 60-day periods found therein are changed to 180 days.

The following provision is stayed pending further order of the Commission:

If the emergency purchases are to extend beyond the 60-day period Paragraph 12 in the notice issued by the Commission on July 17, 1970, in Docket No. R–389–A should be utilized. The Commission will consider limited-term certificates with pregranted abandonment, if the pipeline demonstrates emergency need, after complying with subparagraphs (1) and (2) of this paragraph.

(B) Section 157.22, Subchapter E, Chapter I, Title 18 of the Code of Federal Regulations, is amended by revising the following:

In § 157.22(a)—The sixty-day period is changed to 180 days.

In § 157.22(d)—The 60-day period is changed to 180 days.

(C) Section 159.29, Subchapter E, Chapter I, Title 18 of the Code of Federal Regulations, is amended by revising the following:

In § 157.29(a)—The sixty (60) day period is changed to 180 days.

In § 157.29(b)—The 60-day period is changed to 180 days.

(D) The revisions and amendments in (A), (B), and (C) are effective upon issuance and until March 15, 1974.

(E) The Commission provides that any interested person may file comments on the revisions effective herein, such filings to be made in written form with the Secretary of the Commission and to be filed during the period January 15, 1974 to February 15, 1974, for consideration by the Commission prior to its March 15, 1974 review.

By the Commission.

105–64.400 Scope of subpart.
105–64.401 Report to Assistant Administrator.
105–64.402 Annual report to the Office of Management and Budget.

AUTHORITY.—Pub. L. 92–463 dated October 6, 1972, and Executive Order 11686 of October 7, 1972.

**§ 105–64.00 Scope of part.**

This part sets forth policies and procedures in GSA regarding the establishment, operation, termination, and control of advisory committees for which GSA has responsibility. It implements the Federal Advisory Committee Act (Pub. L. 92–463), which authorizes a system governing the establishment and operation of advisory committees in the executive branch of the Federal Government, and Executive Order 11686 of October 7, 1972, which directs the heads of all executive departments and agencies to take appropriate action to ensure their ability to comply with the provisions of the Act.

### Subpart 105–64.1—General Provisions

**§ 105–64.101 Applicability.**

This Part 105–64 applies to all advisory committees for which GSA has responsibility. In general, such committees are characterized by fixed membership, a defined purpose of providing advice regarding matters of concern to GSA operations, a formal structure (e.g., officers), and regular or periodic meetings. This part also applies to any committee used to advise GSA officials though not established for that purpose. Such applicability, however, is limited solely to the period of its use as an advisory body. This part does not apply to:

(a) Any local civic group whose primary function is to render a public service in connection with a Federal program;

(b) Any State or local committee, council, board, commission, or similar group established to advise or make recommendations to State or local officials or agencies; or

(c) The National Historical Publications Commission or the National Archives Trust Fund Board but does apply to committees that are advisory to them.

**§ 195–64.102 Definitions.**

(a) The term "advisory committee" means any committee, board, commission, council, conference, panel, task force, or other similar group, or any subcommittee thereof that is:

(1) Established by statute or reorganization plan;

(2) Established or utilized by the President; or

(3) Established or utilized by one or more agencies to obtain advice or recommendation for the President or for one or more agencies or officers of the Federal Government. The term "advisory committee" excludes the Advisory Commission on Intergovernmental Relations, the Commission on Government Procurement, and any committee which is composed wholly of full-time officers of the Federal Government.

(b) The term "Presidential advisory committee" means an advisory committee that advises the President.

**§ 105–64.103 Policy.**

The basic GSA policy on committee management is as follows:

(a) Advisory committees will be formed or used by GSA only when specifically authorized by law or by the President, or specifically determined as a matter of formal record by the Administrator of General Services to be in the public interest in connection with the performance of duties imposed on GSA by law;

(b) Advisory committees will not be used to administer a function which is the assigned responsibility of a service or staff office;

(c) The assigned responsibility of a GSA official may not be delegated to any committee;

(d) No advisory committee may be used for functions that are not solely advisory unless specifically authorized by statute or Presidential directive. Making policy decisions and determining action to be taken with respect to any matter considered by an advisory committee is solely the responsibility of GSA; and

(e) In carrying out its responsibilities, GSA will consult with and obtain the advice of interested groups substantially affected by its programs. The use of advisory committees for this purpose is considered to be in the public interest and necessary for the proper performance by GSA of its assigned functions.

**§ 105–64.104 Responsibilities.**

(a) Responsibility for coordination and control of committee management in GSA is vested in the Assistant Administrator. This responsibility will be exercised through the Director of Management Services, Office of Administration, or his designee, who shall serve as the GSA Committee Management Officer. This Officer shall, on behalf of the Assistant Administrator, carry out the functions prescribed in section 8(b) of the Federal Advisory Committee Act. Specifically he shall control and supervise the establishment, procedures, and accomplishments of advisory committees for which GSA is responsible. Such control and supervision shall be adequate to ensure compliance with the GSA guidelines provided by these regulations.

(b) Each Head of Service and Staff Office and Regional Administrator shall designate a Committee Management Officer who shall coordinate and control committee management within the service, staff office, or regional office, and shall act as liaison to the GSA Committee Management Officer. This Officer shall also:

(1) Assemble and maintain the reports, records, and other papers of any advisory committee for which GSA has responsibility. Arrangements may be made, however, for the Government chairman or other designated GSA representative to retain physical custody of such reports, records, and other papers to facilitate committee operations. After the committee is terminated, all committee records shall be disposed of in accordance with existing regulations; and

(2) Within existing agency regulations as found in Part 105–60, carry out the provisions of 5 U.S.C. 552 with respect to the reports, records, and other papers of advisory committees for which GSA is responsible.

### Subpart 105–64.2—Establishment of Advisory Committees

**§ 105–64.200 Scope of subpart.**

This subpart prescribes the policy and procedures for establishing advisory committees within GSA.

**§ 105–64.201 Proposals for establishing advisory committees.**

The Head of a Service or Staff Office may propose establishment of a Central Office or regional advisory committee within the scope of his program responsibilities. Each such proposal shall be submitted to the Assistant Administrator (Attn: GSA Committee Management Officer) for review and coordination and shall include the following:

(a) A letter to the Director, Office of Management and Budget, for signature of the Administrator of General Services, describing the nature and purpose of the proposed advisory committee and the reasons it is needed, including the reasons its functions cannot be performed by an existing committee or Federal agency; and

(b) A notice for publication in the FEDERAL REGISTER containing a certification by the Administrator that creation of the advisory committee is in the public interest and describing the nature and purpose of the committee.

**§ 105–64.202 Review and approval of proposals.**

(a) The GSA Committee Management Officer shall review each proposal for establishment of an advisory committee to ensure conformity with GSA committee management policies and procedures. Thereafter, the letter of justification addressed to the Director, Office of Management and Budget, shall be forwarded through the Assistant Administrator to the Administrator of General Services for his signature.

(b) When notified by the Office of Management and Budget that establishment of the advisory committee would be in accord with the Federal Advisory Committee Act, the GSA Committee Management Officer shall secure final clearance and approval of the Federal Register notice in accordance with established GSA procedures. The notice must be published at least 30 calendar days prior to the filing of a committee charter in accordance with § 105–64.203.

**§ 105–64.203 Advisory committee charters.**

No advisory committee may meet or take any action until its charter has been approved by the Administrator of General Services and forwarded by the Assistant Administrator to the standing committees of the Senate and the House of Representatives having legislative jurisdiction over GSA. This requirement

V 38-184 SEP 24 73 XUM

applies to committees used as advisory committees though not established for that purpose, but only to the extent that the group performs the function of advising a GSA official.

§ 105–64.203–1 Preparation of charters.

(a) The Head of Service or Staff Office having jurisdiction over an advisory committee shall, following publication of the FEDERAL REGISTER notice regarding the establishment of that committee, prepare the committee's charter in accordance with this § 105–64.203–1. The completed charter shall be forwarded to the Assistant Administrator (Attn: GSA Committee Management Officer) for review, submission to the Administrator for approval, and filing.

(b) Each advisory committee charter shall contain the following information:

(1) The committee's official designation;

(2) The committee objectives and the scope of its activities;

(3) The period of time necessary for the committee to carry out its purposes. If the committee is intended to function as a standing advisory committee, this fact should be made clear;

(4) The official to whom the committee reports, including his name, title, and organization;

(5) The agency and office responsible for providing the necessary support for the committee;

(6) A description of the duties for which the committee is responsible. If such duties are not solely advisory, the statutory or Presidential authority for such additional duties shall be specified;

(7) The estimated annual operating costs in dollars and man-years for the committee;

(8) The estimated number and frequency of committee meetings;

(9) The committee's termination date, if it is less than 2 years from the date of its establishment; and

(10) The date the charter is filed. This date shall be inserted by the GSA Committee Management Officer after the Administrator approves the charter.

§ 105–64.203–2 Active charters file.

The original signed copy of each charter shall be retained by the GSA Committee Management Officer in a special file of active charters.

§ 105–64.203–3 Submission to Library of Congress.

A copy of each charter shall be furnished by the GSA Committee Management Officer to the Library of Congress at the time or shortly after copies are filed with the requisite committees of the Congress. Copies shall be forwarded to: Library of Congress, Exchange and Gift Division, Federal Advisory Committee Desk, Washington, D.C. 20540.

§ 105–64.204 Advisory committee membership.

(a) Advisory committees established by GSA shall be representative of the points of view within the profession, industry, or other group to which they relate, taking into account such factors as size, functions, geographical location, affiliation, and other relevant considerations affecting the character of an advisory committee. Representatives of the public interest shall be included on any advisory committee concerned with questions of social policy. The chairman, members, alternates, and observers, as appropriate, of all advisory committees shall be designated by the Administrator. Nominations shall be submitted by the Head of Service or Staff Office or Regional Administrator sponsoring the committee to the Assistant Administrator (Attn: GSA Committee Management Officer) for review and forwarding to the Administrator.

(b) There shall be no discrimination on the basis of race, color, age, national origin, religion, or sex in the selection of advisory committee membership.

## Subpart 105–64.3—Advisory Committee Procedures

§ 105–64.300 Scope of subpart.

This subpart sets forth the procedures which will be followed in the operation of advisory committees within GSA.

§ 105–64.301 Meetings.

Each advisory committee and each meeting thereof shall be under the chairmanship of or shall meet only in the presence of a full-time salaried employee of GSA. The Government chairman or representative shall determine when a meeting of an advisory committee is to be held and may adjourn any meeting whenever he considers such action is in the public interest.

§ 105–64.301–1 Agenda.

An agenda shall be prepared or approved by the Government chairman or representative for each meeting of an advisory committee. The agenda shall list the matters to be considered at the meeting and shall indicate whether any part of the meeting is concerned with matters covered by the exemptions from 5 U.S.C. 552(b) (Freedom of Information Act). Ordinarily, copies of the agenda shall be distributed to committee members prior to the date of the meeting.

§ 105–64.301–2 Security clearance.

All persons attending advisory committee meetings at which classified information will be considered are required to have security clearance commensurate with the category of classified matter to be discussed.

§ 105–64.301–3 Time and place.

Meetings shall be held only at the time and place determined or approved by the Government chairman or representative. Unless otherwise authorized, meetings shall be held in space under the control of the Government.

§ 105–64.301–4 Public notice of meetings.

(a) The responsible Head of Service or Staff Office shall ensure that timely notice is given of each advisory committee meeting by publication of a notice in the FEDERAL REGISTER at least 7 calendar days prior to the date of the meeting. Shorter advance notice may be provided only in emergency situations or when 7-day notice is clearly impracticable. To the extent practicable, announcements may also be made by general press releases, direct mailing, or publication in trade and professional journals appropriate to the nature of the committee meeting.

(b) The fact that a meeting may be closed to the public pursuant to the exemptions under the Freedom of Information Act does not, in general, relieve GSA of the requirement of publication of a notice of that meeting. An exception from this notice requirement may be authorized for reasons of national security by the Director, Office of Management and Budget, upon request by the Administrator of General Services at least 30 calendar days prior to the meeting.

(c) Each notice of meeting should state the name of the advisory committee, the time of the meeting, its purpose, and whether (or the extent to which) the public will be permitted to attend or participate. Whenever practicable, a summary of the agenda should be included. If the meeting is to be open to the public, the place of meeting should be specified in the notice. If any part of the meeting is to be closed, the notice should indicate the reasons therefor.

§ 105–64.301–5 Minutes of meetings.

Detailed minutes shall be kept of each advisory committee meeting. The minutes shall include at least the following items: The time and place of the meeting; a list of the advisory committee members and staff and agency employees present at the meeting; a complete summary of matters discussed and conclusions reached; copies of all reports received, issued, or approved by the advisory committee; an explanation of the extent to which the meeting was open to the public; and an explanation of the extent of public participation, including a list of members of the public who presented oral or written statements and an estimate of the number of members of the public who attended the meeting. The committee chairman shall certify the accuracy of all minutes.

§ 105–64.301–6 Public attendance and participation.

(a) Each GSA advisory committee meeting shall be open to the public unless the Administrator determines otherwise as provided in § 105–64.301–6(e).

(b) Interested persons shall be permitted to attend, appear before, or file statements with a GSA advisory committee unless the Administrator determines otherwise as provided by § 105–64.301–6(e). When required for the orderly operation of the advisory committee, the Federal Register notice announcing the committee meeting may prescribe appropriate procedures for attendance, appearances, and filing statements.

(c) Advisory committee meetings which are open to the public shall be held at a reasonable time and at a place that is reasonably accessible. The size of the meeting room shall be adequate to accommodate the anticipated public participants in addition to the committee members.

(d) Whenever an advisory committee anticipates widespread public interest in one of its meetings, it may establish procedures for the orderly conduct of that meeting, including the requirement of advance approval for oral participation. Public notice of such procedures shall be given at the time of announcement of the meeting or, in any event, sufficiently in advance of the meeting to permit the public to comply.

(e) An advisory committee meeting will not be open to the public nor will the attendance, appearances, or filing of statements by interested persons be permitted at such a meeting whenever the Administrator of General Services determines that it is concerned with matters listed in 5 U.S.C. 552(b). If it is determined that only a portion of the meeting is concerned with such matters, only that portion of the meeting shall be closed. Any determinations concerning the closing of meetings shall be submitted in writing by the Head of the Service or Staff Office to the Administrator for approval at least 30 calendar days in advance of the scheduled date of the meeting.

(f) If a meeting is scheduled to discuss matters which are exempt under 5 U.S.C. 552(b), it may be closed to public attendance only if the Administrator determines that the meeting (or portion) will consist of an exchange of opinions, that the discussion if written would fall within exemption (5) of 5 U.S.C. 552(b), and that it is essential to close such meeting (or portion) to protect the free exchange of internal views and to avoid undue interference with GSA or committee operations.

§ 105–64.302 Committee records and reports.

(a) Except for those instances in which the Administrator of General Services has determined otherwise pursuant to 5 U.S.C. 552(b), the records, reports, transcripts, minutes, appendixes, working papers, drafts, studies, agenda, or other documents that were made available to or prepared for or by a GSA advisory committee shall be available (until the committee ceases to exist) for public inspection and copying in the office of the Government chairman (or GSA representative) of the committee. After the committee is terminated, disposition of the committee documents and the subsequent release of information therefrom shall be in accordance with existing Federal records, statutes, and regulations. The provisions of 5 U.S.C. 552(b)(5) shall not apply to access to advisory committee documents unless the Administrator determines that denial is essential to protect the free exchange of internal agency views and to avoid undue interference with GSA or committee operations. Except where prohibited by contractual agreements entered into prior to January 5, 1973, copies of transcripts, if any, of advisory committee meetings shall be made available by the Government chairman to any person at the actual cost of duplication.

(b) Subject to 5 U.S.C. 552(b) and instructions of the Director, Office of Management and Budget, at least eight copies of each report made by an advisory committee shall be filed by its Government chairman or GSA representative with the Library of Congress at the time of its issuance. Where appropriate, copies of background papers prepared by consultants to the advisory committee shall also be filed with the Library of Congress. The letter of transmittal shall identify the materials being furnished and a copy of the transmittal shall be provided to the GSA Committee Management Officer.

§ 105–64.303 Fiscal and administrative provisions.

(a) The Head of each Service or Staff Office shall ensure that in accordance with established GSA procedures records are maintained which fully disclose the disposition of any funds at the disposal of an advisory committee and the nature and extent of its activities.

(b) In those instances in which GSA is assigned administrative support responsibilities for a Presidential advisory committee, the Agency Liaison Division, Office of Management Services, Office of Administration, GSA, shall arrange for the maintenance of all necessary financial records as a part of its support services.

(c) Unless otherwise provided in the applicable Presidential order, statute, or other establishing authority, the GSA service or staff office sponsoring an advisory committee shall provide the necessary support services for operation of that committee.

§ 105–64.304 Renewal of advisory committees.

(a) The anniversary date for renewal of a nonstatutory advisory committee in existence when the Federal Advisory Committee Act became effective shall be January 5, 1975, and every 2 years thereafter. Each advisory committee established after January 4, 1973, may be renewed for successive 2-year periods beginning with the actual date of its establishment.

(b) Except in those instances in which the continued existence of an advisory committee is provided for by law, the renewal of an advisory committee requires that the responsible Head of Service or Staff Office submit to the Assistant Administrator (Attn: GSA Committee Management Officer) the following:

(1) An updated charter with a full explanation of the need for the renewal of the committee. (See § 105–64.203–1 for the contents of the charter.) The charter and explanation shall be furnished 60 calendar days prior to the 2-year anniversary date of the committee;

(2) A letter to the Director, Office of Management and Budget, for signature of the Administrator of General Services, setting forth the reasons for renewal of the committee; and

(3) A notice for publication in the FEDERAL REGISTER containing a certification by the Administrator that renewal of the advisory committee is in the public interest and describing the nature and purpose of the committee.

(c) Upon receipt of the above documents, the Assistant Administrator shall secure the approval of the Administrator for each advisory committee whose renewal is adequately justified. The Administrator will inform the Office of Management and Budget of his determination and the reasons therefor not more than 60 calendar days prior to the 2-year anniversary date of the committee. Following receipt of the Office of Management and Budget concurrence in the committee renewal, the Assistant Administrator shall publish notice of the renewal in the FEDERAL REGISTER and shall file copies of the updated charter as prescribed in § 105–64.203.

(d) No advisory committee required to file a new charter shall take any action other than the preparation of the charter between the date the new charter is required and the date it is actually filed.

§ 105–64.305 Termination of advisory committees.

(a) An advisory committee which has fulfilled its purpose as stated in its charter shall be terminated as soon as possible by the sponsoring Head of Service or Staff Office by written notification to the GSA Committee Management Officer.

(b) Failure to effect the continuation of an advisory committee by no later than each successive anniversary date will result in the automatic termination of that committee.

§ 105–64.306 Complaint procedures.

(a) Any person whose request for access to an advisory committee document is denied may seek administrative review pursuant to Part 105–60, which implements the Freedom of Information Act.

(b) On matters not involving access to documents, written complaints may be filed by aggrieved individuals or organizations with the Assistant Administrator addressed to the General Services Administration (AL), Washington, DC 20405. Such complaints must be filed within 90 days from the date the grievance arose. The Assistant Administrator shall promptly act upon the complaint and written notice of its disposition shall be provided to the complainant.

## Subpart 105–64.4—Reports

§ 105–64.400 Scope of subpart.

This subpart sets forth the reports required by this Part 105–64 and prescribes instructions for submission of the reports.

V 38 184 SEP 24 73 XUM

**§ 105–64.401 Report to Assistant Administrator.**

By January 15 of each year, the Head of the appropriate Service or Staff Office shall report on the activities of each advisory committee under his jurisdiction in existence during the preceding calendar year. The report shall be submitted to the Assistant Administrator (Attn: GSA Committee Management Officer) and shall include the following information:

(a) The exact name of the advisory committee;

(b) Whether the committee is ad hoc or continuing (Generally an ad hoc committee is one that is established for a particular purpose and has a short duration. A short duration is usually less than 12 months.);

(c) Establishment date or date of continuation (The establishment date is the original creation date of the committee. The continuation date is the latest date that a review has taken place and the determination to continue the committee has been made. Indicate the most recent date.);

(d) Specific establishment authority;

(e) A statement indicating whether the committee was:

(1) Specifically directed by law;

(2) Authorized by law;

(3) Established by agency authority; or

(4) Established by Presidential directive;

(f) Termination or report date (This date indicates when the committee will cease functioning. It may be the final terminating date or the date a new continuance is due.);

(g) Brief statement of function;

(h) The principal reports, by subject and date, submitted by the committee;

(i) The dates of the committee's meetings during the preceding year, with a summary total of the number of times met;

(j) The name, occupation, position, and address of each committee member;

(k) The estimated total aggregate annual cost to the United States to fund, service, supply, and maintain the committee;

(l) The estimated annual man-years of staff support for the committee;

(m) A statement of the specific accomplishments of the committee during the preceding year;

(n) Any recommendations for exclusion for national security reasons of information from the President's report to Congress; and

(o) Any recommendations to modify, merge, or abolish an advisory committee.

**§ 105–64.402 Annual report to the Office of Management and Budget.**

By February 1 of each year, the GSA Committee Management Officer shall prepare for the signature of the Assistant Administrator an annual GSA report to the Office of Management and Budget regarding the status of all advisory committees for which GSA is responsible.

*Effective date.*—These regulations are effective September 24, 1973.

Dated September 18, 1973.

ARTHUR F. SAMPSON,
*Administrator of General Services.*

### CHAPTER X—INTERSTATE COMMERCE COMMISSION

#### SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Ex Parte No. MC–19 (Sub-No. 7)]

### PART 1056—TRANSPORTATION OF HOUSEHOLD GOODS IN INTERSTATE OR FOREIGN COMMERCE

#### Participation in Rates at Different Levels

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 4th day of September 1973.

*It appearing* that investigation of the matters and things involved in this proceeding has been made and that the Commission has made and filed its report herein containing its findings of facts and conclusions thereon, which report is hereby referred to and made a part thereof:

*It is ordered*, That part 1056 of Chapter X of Title 49 of the Code of Federal Regulations be, and it is hereby, amended by the addition of § 1056.21 as set forth below.

*It is further ordered*, That this order shall become effective on January 1, 1974, and shall remain in effect until modified or revoked in whole or in part by further order of the Commission.

*And it is further ordered*, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

(49 U.S.C. 301, 302, 304, 308, and 317 (5 U.S.C. 553 and 559).)

By the Commission.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

49 CFR Part 1056 shall be amended by th addition of the following:

**§ 1056.21 Uniform rates for identical services.**

(a) No motor common carrier of household goods shall have in effect for its account more than one level of line-haul rates, whether local or joint, covering the transportation of noncontainerized household goods in interstate or foreign commerce between the same two points in the same direction.

(b) No motor common carrier of household goods shall have in effect for its account more than one level of line-haul rates, whether local or joint, covering the transportation of containerized household goods in interstate or foreign commerce between the same two points in the same direction.

[Ex Parte No. MC–19 (Sub-No. 16)]

### PART 1056—TRANSPORTATION OF HOUSEHOLD GOODS IN INTERSTATE OR FOREIGN COMMERCE

#### Use of Credit Card Systems

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 4th day of September 1973.

*It appearing*, that investigation of the matters and things involved in this proceeding having been made, and the Commission, on the date hereof, having made and filed a report herein containing its findings of fact and conclusions thereon, which report is hereby made a part hereof:

*It is ordered*, That Part 1056 of Subchapter A of Chapter X of Title 49 of the Code of Federal Regulations be, and it is hereby, amended by adding a new § 1056.25, reading as set forth below.

(49 U.S.C. 304, 308, and 323.)

*It is further ordered*, That this order shall become effective on November 2, 1973.

*It is further ordered*, That notice of this order shall be given the public by depositing a copy thereof in the Office of the Secretary of this Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

*And it is further ordered*, That the petition of the Mover's & Warehousemen's Association of America, Inc., filed November 9, 1971, in all other respects be, and it is hereby, denied.

By the Commission.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

**§ 1056.25 Credit card plans; quarterly reporting required.**

(a) Each motor common carrier of household goods desiring to participate in a credit card plan must obtain prior approval for such plan from the Interstate Commerce Commission by submitting a copy of its agreement with each financial institution participating in the plan. Except in unusual circumstances and on an experimental basis, such a plan shall be equally available to all certificated motor common carriers of household goods desiring to participate therein. Approval or disapproval will be made informally by the Commission in the form of a letter indicating informal consent for or disapproval of the plan. Notices of approval will be published by the Commission in the Federal Register.

(b) Each motor common carrier of household goods participating in an approved credit card plan shall file with the Commission quarterly reports showing (1) by bill of lading number and date each shipment transported for which a credit card was utilized by the shipper for the payment of all or a portion of the total charges, (2) the total charges for each such shipment, (3) the amount paid by carrier for credit checks and collection service on each shipment, (4) the points from and to which each such shipment moved, (5) the credit card system utilized (and the financial institution controlling the said system) for each such shipment, and (6) the quarterly totals for items (1), (2), and (3).

[Ex Parte No. 275]

### PART 1115—ISSUANCE OF SECURITIES, ASSUMPTION OF OBLIGATIONS, AND FILING OF CERTIFICATES AND REPORTS

#### Change in Effective Date

SEPTEMBER 18, 1973.

The report of the Commission upon further consideration and order, 344, I.C.C. 114, entered August 16, 1973, provided that the order would become effective 60 days after publication in the FEDERAL REGISTER.

In the publication in the FEDERAL REGISTER of September 5, 1973 (38 FR 23953) as corrected in the FEDERAL REGISTER of September 11, 1973 (38 FR 24903) and of September 14, 1973 (38 FR 25686) the effective date of the order entered August 16, 1973, was incorrectly set forth.

The report and order stated that the order was to become effective 60 days after publication in the FEDERAL REGISTER. The 60th day following corrected publication is Saturday, November 10, 1973, therefore, the order will be effective, Monday, November 12, 1973.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

## Title 50—Wildlife and Fisheries

### CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

#### SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

### PART 20—MIGRATORY BIRD HUNTING

#### Open Seasons, Bag Limits, and Possession of Certain Migratory Game Birds; Corrections

In FR Doc. 73–18361 appearing on page 23524 in the issue of Friday, August 31, 1973, technical or typographical errors are corrected as follows:

1. On page 23526, in § 20.105(e), the season dates for geese in the Coastal and Inland Zones of Massachusetts are amended to read "Oct. 20–Nov. 17/ Dec. 8–Jan. 17."

2. On page 23527, in § 20.105(e), in the Mississippi Flywaywide restrictions, the areas closed to canvasback and redhead hunting in Minnesota are amended to read "Statewide." The counties listed beside Minnesota are deleted.

3. On page 23527, in § 20.105(e), in the Mississippi Flyway table, the next two lines after "Illinois:" are amended to read:

| | | |
|---|---|---|
| Ducks | Oct. 20–Dec. 3 | Point system. |
| Geese: [1,2] | | |

4. On page 23527, in § 20.105(e), in the Mississippi Flyway table, the season dates for ducks in Iowa are amended to read "Oct. 6–Oct. 10/Oct. 20–Nov. 28."

5. On page 23528, footnote 2 is amended to read:

6. On page 23531, in § 20.105(g), in the Seasons in the Atlantic Flyway, the season dates for Florida are amended to read "Nov. 22–Dec. 9/Dec. 20–Jan. 20."

7. On page 23531, in § 20.105(g), in the Seasons in the Central Flyway, the lines for Montana seasons are amended to read:

| | | |
|---|---|---|
| Montana [1] | Sept. 29–Nov. 27/ Dec. 15–Dec. 30. | |

8. On page 23531, in § 20.105(h), in the Seasons in the Atlantic Flyway, the season dates for Florida are amended to read "Jan. 21–Jan. 31."

(40 Stat. 755; (16 U.S.C. 703 et seq.).)

*Effective date.*—These amendments are effective September 24, 1973.

F. V. SCHMIDT,
*Acting Director, Bureau of Sport Fisheries and Wildlife.*

SEPTEMBER 19, 1973.

## Title 21—Food and Drugs

### CHAPTER II—DRUG ENFORCEMENT ADMINISTRATION, DEPARTMENT OF JUSTICE

### AGENCY REFERENCES AND PARTS REDESIGNATION

#### Editorial Changes

On July 1, 1973, Reorganization Plan No. 2 of 1973 became effective. Pursuant to this Plan, the Bureau of Narcotics and Dangerous Drugs was abolished, and all functions of the Bureau were transferred to the Drug Enforcement Administration. On July 2, 1973, an order was published in the FEDERAL REGISTER (38 FR 18380) delegating the functions vested in the Attorney General under the Comprehensive Drug Abuse Prevention and Control Act of 1970 to the Administrator of the Drug Enforcement Administration.

Therefore, it is hereby ordered that all references to the Bureau of Narcotics and Dangerous Drugs in Title 21, Chapter II, of the Code of Federal Regulations be hereby changed to refer to the Drug Enforcement Administration, and that all references to the Director of the Bureau of Narcotics and Dangerous Drugs be hereby changed to refer to the Administrator of the Drug Enforcement Administration, and that all references to the Regional Director of the Bureau of Narcotics and Dangerous Drugs be hereby changed to refer to the Regional Administrator of the Drug Enforcement Administration.

The Office of the Federal Register has notified the Drug Enforcement Administration that the Food and Drug Administration intends to republish and redesignate its regulations in a series covering Parts 1–1299, and has asked the Drug Enforcement Administration to redesignate its parts and sections beginning with Part 1300. Therefore, pursuant to the authority vested in the Attorney General by sections 201, 202(d), 301, 302(f), 304, 305, 306(f), 307, 308, 501(b), 505, 507, 511, 513, 704(c), 705, 1002, 1003, 1004, 1006, 1007(b), 1008(d), 1008(e), and 1015 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 28 of the Code of Federal Regulations (38 FR 18380), it is hereby ordered that all parts and sections now contained in Title 21, Chapter II, of the Code of Federal Regulations be redesignated upward by one thousand (e.g., Part 301 becomes Part 1301, and § 303.37 becomes § 1303.37).

[1] In the States of Illinois and Wisconsin, the kill of Canada geese will be limited to 28,000 birds in each State. In the Swan Lake area of Missouri the kill of Canada geese will be limited to 17,500 birds. When it is determined by the Director, Bureau of Sport Fisheries and Wildlife, that the quota of Canada geese allotted to the State of Illinois or to the Swan Lake area of Missouri will have been killed, the season for taking Canada geese in the respective areas will be closed by the Director upon giving public notice through local information media at least 48 hours in advance of the time and day of closing.

V 38-184 SEP 24 73 XUM

These orders shall become effective on September 24, 1973.

Dated September 14, 1973.

JOHN R. BARTELS, JR.,
*Acting Administrator,*
*Drug Enforcement Administration.*

## PART 1308—SCHEDULES OF CONTROLLED SUBSTANCES

### Exempt Chemical Preparations

The Administrator of the Drug Enforcement Administration has received applications pursuant to § 1308.23 of Title 21 of the Code of Federal Regulations requesting that several chemical preparaitons containing controlled substances be granted the exemptions provided for in § 1308.24 of Title 21 of the Code of Federal Regulations.

The Administrator hereby finds that each of the following chemical preparations and mixtures is intended for laboratory, industrial, educational, or special research purposes, is not intended for general administration to a human being or other animal, and either (a) contains no narcotic controlled substance and is packaged in such a form or concentration that the package quantity does not present any significant potential for abuse, or (b) contains either a narcotic or nonnarcotic controlled substance and one or more adulterating or denaturing agents in such a manner, combination, quantity, proportion or concentration, that the preparation or mixture does not present any potential for abuse. If the preparation or mixture contains a narcotic controlled substance, the preparation or mixture is formulated in such a manner that it incorporates methods of denaturing or other means so that the preparation or mixture is not liable to be abused, and so that the narcotic substance cannot in practice be removed. The Administrator further finds that exemption of the following chemical preparations and mixtures is consistent with the public health and safety as well as the needs of researchers, chemical analysts, and suppliers of these products.

Therefore, under the authority vested in the Attorney General by sections 301 and 501(b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 821 and 871(b)) and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 28 of the Code of Federal Regulations (see 38 FR 18380, July 2, 1973) the Administrator hereby orders that Part 1308 of Title 21 of the Code of Federal Regulations be amended as follows:

By amending § 1308.24(e) by adding the following chemical preparations:

**§ 1308.24 Exempt chemical preparations.**

## CHAPTER III—SPECIAL ACTION OFFICE FOR DRUG ABUSE PREVENTION

## PART 1401—CONFIDENTIALITY OF DRUG ABUSE PATIENT RECORDS

### Redesignation of Part

Under date of November 17, 1972, the Special Action Office for Drug Abuse Prevention caused to be published under Title 21 of the FEDERAL REGISTER Part 401, Chapter III relating to the "Confidentiality of Drug Abuse Patient Records." (Volume 37, No. 223, pages 24636–24639; 37 CFR 401). It is now desired to redesignate said Part 401, Chapter III of the Code of Federal Regulations. Therefore, it is ordered that Part 401, Chapter III of Title 21 of the Code of Federal Regulations be redesignated and shall hereafter be referred to as Part 1401, Chapter III of Title 21 of such Code, and §§ 401.01 to 401.73 therein are redesignated accordingly and shall be hereafter referred to as §§ 1401.01 to 1401.73.

By order of the Director of the Special Action Office for Drug Abuse Prevention.

Effective September 24, 1973.

GRASTY CREWS, II,
*General Counsel.*

[FR Doc.73-20223 Filed 9-21-73;8:45 am]

## Title 6—Economic Stabilization

## CHAPTER I—COST OF LIVING COUNCIL

## PART 150—COST OF LIVING COUNCIL; PHASE IV PRICE REGULATIONS

### Construction Industry

The purpose of this amendment to Part 150 of the Cost of Living Council Phase IV Price Regulations is to revise Subpart N—Construction.

On July 19, 1973, the Cost of Living Council established Part 150 and issued Subpart N, 38 FR 19462 (July 20, 1973) as the first body of Phase IV price stabilization regulations. As originally issued, Subpart N was essentially a republication of the regulations first issued on June 18, 1973, 38 FR 15821. In light of its experience under Subpart N and the earlier regulations and on the basis of comments received, the Council finds that a number of technical adjustments to the regulations are required.

A new § 150.61 is being added to Subpart D—Exemptions, to exempt from the operation of Phase IV price regulations those small firms which are engaged in construction operations but have annual sales and revenues from construction operations of no more than $1 million.

Since profit margin limitations are the primary basis for price stabilization with respect to the construction industry, Subpart N is being revised and restated in its entirety so as to state its operative rules in terms relating to profit margins, eliminate references to individual prices, and incorporate several provisions to facilitate an effective and equitable operation of the profit margin limitation. In addition, a number of other minor technical changes are reflected.

As revised, § 150.451 provides that Subpart N applies to the construction operations of all firms other than those small firms exempt under new § 150.60. Under the earlier regulations, firms deriving less than 20 percent and less than $50 million in annual sales and revenues from construction operations were subject to other applicable provisions of Part 150 dealing with manufacturers, service organizations, retailers, etc. As revised, Subpart N becomes applicable to the construction operations of all firms, other than the small exempt firms. Paragraph (b) of § 150.451 provides that Subpart N supersedes certain provisions of Part 150 that could otherwise be applicable to a firm's construction operations.

In § 150.452 the definition of "annual sales or revenues" has been shortened by incorporating by reference the definition of that term as set forth in the general definintions in § 150.31. The definition of "base period" has been changed to conform to the phraseology in the definition of "base period" in the general definitions in § 150.31. The definition of "construction industry" has been eliminated as surplusage and covered by the defined term "construction operations".

Section 150.453 has been changed in two respects. In paragraph (c)(2) "the owner or user, the CISC or Council" have been added to the list of persons who can notify a prime contractor of a CISC or Council action resulting in a wage or salary reduction. In paragraph (d), the authorization for a prime contractor to place in escrow an amount due a subcontractor to cover a wage or salary reduction has been limited to those situations where the prime contractor does not otherwise retain a sufficient percentage of the subcontract price pending completion of the project.

Former § 150.456 has been divided into two separate sections, § 150.454 covering the calculation of a firm's base period profit margin limitation and § 150.455 setting forth the rules for measuring a firm's compliance therewith.

Under new § 150.454 governing the calculation of a firm's base period profit margin, a firm having both construction and nonconstruction operations is required to calculate a separate base period profit margin for each. Its nonconstruction operations are then governed by other appropriate provisions of Part 150 while its construction operations are subject to Subpart N. However, if its annual revenues from nonconstruction operations are more than 50 percent of its total revenues and its construction and nonconstruction operating incomes cannot be separately identified, the firm's entire operations are subject to such other provisions of Part 150 as are applicable to its nonconstruction operations. If its annual revenues from nonconstruction operations are not more than 50 percent of its total revenues and its construction and nonconstruction operating incomes cannot be separately identified, the firm's entire operations are subject to the profit margin limitation prescribed in Subpart N and in all other respects its nonconstruction operations are subject to such other pricing rules in Part 150 as may be applicable.

New § 150.455(a) prescribes the basic profit margin limitation (i.e. a firm's profit margin on construction operations may not exceed its base period profit margin on construction operations). However, under paragraph (b), if 90 percent or more of a firm's annual sales and revenues come from the sale of exempt items and it derives less than $50 million of its annual sales and revenues from nonexempt items, the firm is excused from the profit margin limitation for the following year. Under paragraphs (c) and (d), if a firm exceeds its profit margin limitation, the Cost of Living Council will consider certain enumerated causal factors in determining what sanctions should be applied for the overage.

New § 150.456 is a revision of former § 150.455 and has been recast in terms of a firm's profit margin rather than the prices it charges so as to conform to the overall restructuring of revised Subpart N.

New § 150.457 replaces former § 150.454 and prescribes an annual reporting requirement for firms deriving $10 million or more annually from construction operations. It also requires firms deriving less than $10 million but more than $1 million from construction to maintain records to demonstrate their compliance with Subpart N.

Because the purpose of this amendment is to provide immediate guidance and information with respect to the decisions of the Council, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making these amendments effective in less than 30 days.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489.)

In consideration of the foregoing Part 150 of Title 6 of the Code of Federal Regulations is amended as follows, effective September 26, 1973.

V 38-184 SEP 24 73 XUM

Issued in Washington, D.C., on September 21, 1973.

JOHN T. DUNLOP,
*Director,*
*Cost of Living Council.*

1. Section 150.60(a)(2)(iii) and (b)(2)(iii) are amended to read as follows:

**§ 150.60 Small business: exemption of firms with 60 or fewer employees.**

(a) • • •
(2) • • •
(iii) A firm which on August 12, 1973, was engaged in construction operations as defined in § 150.452 and which derived more than $1 million in annual sales and revenues from those construction operations during its most recently completed fiscal year.

• • • • • •

(b) • • •
(2) • • •
(iii) A firm which at any time during its first four calendar quarters after June 30, 1973, was engaged in construction operations as defined in § 150.452 and had annual sales and revenues from those construction operations of $1 million or more.

2. The items in the table of sections pertaining to Subpart N are amended to read as follows:

**Subpart N—Construction**

Sec.
150.451 Applicability and scope.
150.452 Definitions.
150.453 Redetermination of contracts over $500,000 when wages reduced by CISC or the Council.
150.454 Base period profit margin calculation.
150.455 Profit margin limitation.
150.456 Pass through of certain wage adjustments.
150.457 Reporting; recordkeeping.

3. Subpart N is amended to read as follows:

**Subpart N—Construction**

**§ 150.451 Applicability and scope.**

(a) This subpart applies to the construction operations of all firms which derived $1 million or more in annual sales or revenues from construction operations during its most recently completed fiscal year.

(b) With respect to firms to which this subpart applies, this subpart supersedes the provisions of §§ 150.3, 150.10, and 150.11 and Subparts E, F, G, H and K of this part except as otherwise provided in § 150.454. To the extent that this subpart may be inconsistent with any other provisions in this part, the provisions in this subpart govern.

**§ 150.452 Definitions.**

As used in this subpart—

"Annual sales or revenues" means annual sales or revenues as defined in § 150.31 and includes a firm's pro rata share of annual sales or revenues derived from the construction operations of any joint venture in which it is a participant.

"Base period" means any one, at the option of the firm concerned, of that firm's fiscal years ending after August 15, 1968, except a fiscal year for which compliance is being measured. If a firm uses for its base period, a fiscal year ending after August 15, 1971, and prior to January 11, 1973, for which the firm exceeded a profit margin limitation imposed pursuant to the provisions of Part 300 of this title in effect on January 10, 1973, it shall reduce its operating income for that fiscal year to the level of operating income it would have obtained for that fiscal year had it been in compliance with that Part 300 of this chapter profit margin restraint.

"Construction operations" includes all work relating to the erecting, construction, altering, remodeling, painting, or decorating of installations such as buildings, bridges, highways, and the like when performed on a contract basis, but does not include maintenance work performed by workers employed on a permanent basis in a particular plant or facility for the purpose of keeping such plant or facility in efficient operating condition. It also includes the transporting of materials and supplies to or from a particular building or project by the workers of the contractor or subcontractor performing the construction or the manufacturing of materials, supplies, or equipment on the site of a project by those workers and all other work classified as construction in § 5.2(g) of Title 29 Code of Federal Regulations.

**§ 150.453 Redetermination of contracts over $500,000 when wages reduced by CISC or the Council.**

(a) The contract price for each construction contract in excess of $500,000, all or part of which is performed by construction workers whose wages and salaries are subject to review by the Construction Industry Stabilization Committee (CISC) or the Cost of Living Council, shall be redetermined prior to final payment if the wage and salary level of those construction workers is reduced as a result of CISC or Council action. The amount by which the contract price is reduced as a result of the redetermination must fairly reflect the results of the CISC or Council action, including any cost increases directly resulting from the CISC or Council action.

(b) Redetermination of any Federal Government fixed-price prime construction contract in excess of $500,000 affected by CISC or Council action shall be conducted in the manner provided in the applicable federal procurement regulations and applicable regulations of the Department of Defense.

(c) Redetermination of fixed-price prime construction contracts in excess of $500,000 other than those referred to in paragraph (b) of this section shall be conducted in the following manner:

(1) Upon notification of a reduction in the wages and salaries of construction workers subject to CISC or Council review each subcontractor performing work under the prime contract, whose construction workers have had a reduction of wages and salaries as a result of CISC or Council action, shall promptly notify the prime contractor of any such reduction, notwithstanding the dollar value of the subcontract.

(2) In the absence of a contract clause relating to redetermination of the contract price, and after notification by his subcontractors, the owner or user, CISC, or the Council of a reduction in the wages and salaries of construction workers as a result of CISC or Council action, the prime contractor shall offer in writing to redetermine the contract price with the owner or user prior to final payment, and furnish the owner or user with a statement of the estimated number of employees affected by the CISC or Council action.

(3) The owner or user shall notify the contractor of his intention to jointly redetermine the contract price within 90 days after receipt of the offer referred to in paragraph (c)(2) of this section.

(d) In complying with this section, the prime contractor may require each subcontractor, regardless of tier, to submit to him a statement of the estimated number of employees affected by the results of the CISC or Council action. The final payment due the subcontractor engaged to perform the subcontracted work shall be jointly redetermined to reflect fairly the results of the CISC or Council action, including any cost increases directly resulting from such action. Pending notification by the owner or user of his intent to redetermine the contract price, and if the prime contractor does not hold sufficient funds in the form of retainage to fairly reflect the CISC or Council action, the prime contractor may place in escrow an amount which fairly reflects that action. The prime contractor shall refund to the subcontractor the amount placed in escrow if the owner or user does not indicate to the prime contractor his intention to jointly redetermine the contract price within the 90-day period specified, or if the owner or user does notify the prime contractor during that time period that he will not redetermine the contract price.

**§ 150.454 Base period profit margin calculation.**

(a) Except as provided in paragraphs (b) and (c) of this section, each firm to which this subpart applies shall, to the extent possible and consistent with the accounting principles customarily used in preparation of its financial statements, calculate its base period profit margin on construction operations separately from its base period profit margin on its other operations. In calculating a base period profit margin on construction operations, the firm shall use the definition of base period set forth in § 150.452 and in calculating a base period profit margin on other operations the firm shall use the definition of base period set forth in § 150.31. The firm's other operations are subject to Subpart E, Subpart K, or such other provisions of this part as may be applicable.

(b) If a firm's annual sales or revenues from other than construction operations are more than 50 percent of its total annual sales or revenues and the firm cannot separate its construction and nonconstruction operating income, the firm shall treat its construction operations as part of its other operations for purposes of Subpart E, Subpart K, or such other provisions of this part as may be applicable.

(c) If a firm's annual sales or revenues from other than construction operations are not more than 50 percent of its total annual sales or revenues and the firm cannot separate its construction and nonconstruction operating income, the firm shall treat its nonconstruction operations as part of its construction operations for profit margin purposes under this subpart. However, in all other respects its nonconstruction operations remain subject to Subpart E, Subpart K, or such other provisions of this part as may be applicable.

**§ 150.455 Profit margin limitation.**

(a) A firm's profit margin on construction operations for any fiscal year may not exceed the firm's base period profit margin on construction operations.

(b) A firm which during its most recent fiscal year derived both (1) 90 percent or more of its annual sales or revenues from the sales of exempt items or from exempt sales and (2) less than $50 million of its annual sales or revenues from the sale or lease of nonexempt items, is not subject to a profit margin limitation for the next ensuing fiscal year.

(c) When a firm is in violation of its profit margin limitation on construction operations, the Council in determining an appropriate sanction will consider whether the excess results from factors such as variation in the profit margin caused by the accounting method used on multiyear projects, or other factors which are unique to the construction industry and which would distort the comparison of a firm's current profit margin on construction operations with that which prevailed in its base period.

(d) Any justification advanced by a firm for its profit margin excess based on any of the factors listed in paragraph (c) of this section, must be included in the firm's annual report required under § 150.457.

**§ 150.456 Pass through of certain wage adjustments.**

In computing its profit margin under this subpart, a firm may treat as allowable costs for construction operations any wage or salary adjustment contained in a collective bargaining agreement or pay practice entered into after November 8, 1971, to the extent that adjustment has been approved by CISC or the Council. However, a firm may not treat as allowable costs any such adjustment incurred during the period from 9:00 p.m. e.s.t., June 13, 1973, through 11:59 p.m., e.s.t., August 12, 1973, unless the effective date of the adjustment was prior to June 13, 1973.

**§ 150.457 Reporting; recordkeeping.**

(a) Except as provided in paragraph (c) of this section, each firm having construction operations to which this subpart applies and which derives $10 million or more in annual sales or revenues from construction operations, shall prepare and submit to the Cost of Living Council within 90 days after the end of each fiscal year ending after June 12, 1973, a sales and profit margin report on a form prescribed by and in accordance with instructions issued by the Council.

(b) Each firm to which this subpart applies and which derives more than $1 million but less than $10 million in annual sales or revenues from construction operations shall maintain in accordance with § 150.164 such records as are sufficient to demonstrate that the firm is in compliance with this subpart.

(c) A firm is not required to submit the reports otherwise required under paragraph (a) of this section if:

(1) the firm has both construction and non-construction operations and pursuant to § 150.454(b) treats its construction operations as part of its other operations; or

(2) during its most recent fiscal year, the firm derived both (i) 90 percent or more of its annual sales or revenues from the sale of exempt items or exempt sales and (ii) less than $50 million of its annual sales or revenues from the sale of non-exempt items.

# Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 906 ]

### ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

### Proposed Limitation of Handling

This notice proposes minimum grade and size requirements for oranges grown in the Lower Rio Grande Valley in Texas for the period October 16, 1973, through November 3, 1974. The proposed requirements are designed to promote orderly marketing and provide consumers with an ample supply of acceptable quality fruit.

The proposal would limit the handling of oranges by establishing regulations, pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than October 1, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed regulation was recommended by the Texas Valley Citrus Committee, and it reflects the committee's appraisal of the need for regulation, and of the crop and current and prospective market conditions. Shipments of oranges from the production area are expected to begin on or about October 16, 1973. The proposed grade and size requirements provided herein are designed to prevent the handling on and after October 16, 1973, of any oranges of lower grades and smaller sizes than those herein specified, so as to provide consumers with good quality fruit, consistent with the overall quality of the crop, while providing producers fair returns pursuant to the declared policy of the act. The proposed grade and size requirements are the same as those currently in effect through October 15, 1973, under § 906.350 Orange Regulation 24 (37 FR 21801). Such proposal reads as follows:

§ 906.352 **Orange Regulation 25.**

*Order.* (a) During the period October 16, 1973, through November 3, 1974, no handler shall handle:

(1) Any oranges of any variety, grown in the production area, unless such oranges grade U.S. Fancy, U.S. No. 1, U.S. No. 1 Bright, U.S. No. 1 Bronze, U.S. Combination with not less than 60 percent, by count, of the oranges in any lot thereof grading at least U.S. No. 1 grade; or U.S. No. 2;

(2) Any oranges of any variety, grown in the production area, which are smaller than pack size 288, as such size is specified in § 51.691(c) of the U.S. Standards for Oranges (Texas and States other than Florida, California and Arizona), except that the minimum diameter limit for pack size 288 oranges in any lot shall be $2^{5}/_{16}$ inches;

(3) Any oranges of any variety, grown as aforesaid, for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto not more than 48 hours prior to the time of shipment; or

(4) Any oranges of any variety, grown as aforesaid, unless such oranges meet all the applicable container and pack requirements which are in effect pursuant to the aforesaid marketing agreement and order during the period.

(b) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; and terms relating to grade and diameter, when used herein, have the same meaning as is given to the respective term in the United States Standards for Oranges (Texas and States other than Florida, California and Arizona) (7 CFR 51.680–51.714).

Dated September 19, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[FR Doc.73-20277 Filed 9-21-73;8:45 am]

### [ 7 CFR Part 906 ]

### ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

### Proposed Limitation of Handling

This notice proposes minimum grade and size requirements for grapefruit grown in the Lower Rio Grande Valley in Texas for the period October 16, 1973, through November 3, 1974. The proposed requirements are designed to promote orderly marketing and provide consumers with an ample supply of acceptable quality fruit.

The proposal would limit the handling of grapefruit by establishing regulations, pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than October 1, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed grade requirements provided herein are the same as those currently in effect, while the proposed size requirements for the periods specified are comparable to those in effect during the past season. The proposed more stringent size requirement, for the period November 5, 1973, through February 24, 1974, is designed to prevent a weakening of the market during a period of normally heavy shipments, and to maintain the competitiveness of Texas grapefruit when other areas are shipping greater volumes of larger grapefruit. Grade and size requirements are currently in effect through October 15, 1973, under § 906.351 Grapefruit Regulation 24 (37 FR 21801).

Such proposal reads as follows:

§ 906.353 **Grapefruit Regulation 25.**

*Order.* (a) During the period October 16, 1973, through November 3, 1974; no handler shall handle:

(1) Any grapefruit of any variety, grown in the production area, unless such grapefruit grade U.S. Fancy; U.S. No. 1 Bright; U.S. No. 1; U.S. No. 1 Bronze; or U.S. No. 2;

(2) Any grapefruit of any variety, grown in the production area, which are smaller than pack size 112, as such size is specified in § 51.630(c) of the U.S. Standards for Grapefruit (Texas and States other than Florida, California and Arizona), except that the minimum diameter limit for pack size 112 grapefruit in any lot shall be $3^{1}/_{16}$ inches: *Provided,* That during the period November 5, 1973, through February 24, 1974, no handler shall handle any grapefruit of any variety, grown in the production area, which are smaller than pack size 96, as such size is specified in § 51.630(c) of the aforesaid U.S. Standards for Grapefruit, except that the minimum diameter limit for pack size 96 grapefruit in any lot shall be $3^{1}/_{16}$ inches;

(3) Any grapefruit of any variety, grown as aforesaid, for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto not more than 48 hours prior to the time of shipment; or

(4) Any grapefruit of any variety, grown as aforesaid, unless such grapefruit meet all the applicable container and pack requirements which are in effect pursuant to the aforesaid marketing agreement and order during the period.

(b) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; and terms relating to grade and diameter, when used herein, shall have the same meaning as is given to the respective term in the United States Standards for Grapefruit (Texas and States other than Florida, California and Arizona) (7 CFR 51.620–51.653).

Dated September 19, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[FR Doc.73-20278 Filed 9-21-73;8:45 am]

### [ 7 CFR Part 906 ]

### ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

### Proposed Container, Pack, and Container Marking Requirements

This notice proposes a modification of the container, pack, and container marking requirements for Texas oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, which would become effective October 16, 1973.

Consideration is being given to the following proposal, applicable to § 906.340 *Container, pack, and container marking regulations,* recommended by the Texas Valley Citrus Committee, established pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906) regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than October 1, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

This action reflects the committee's appraisal of the need for restricting the use of containers and pack sizes to those most suitable for the packing and handling of fruit to promote orderly marketing, so as to provide consumers with good quality fruit, while providing producers a fair return pursuant to the declared policy of the act. The proposed amendment would authorize shipment of five 8-pound bags of fruit in the master container authorized in paragraph (a)(1)(vi) of § 906.340. Currently this master container is authorized only for the shipment of eight 5-pound bags of fruit. The applicable provisions in paragraph (a)(1)(iv)(b) would also be modified to conform to this proposed change. The proposed amendment would also delete paragraphs (a)(1)(xi), (a)(1)(xii), and (a)(1)(xiii), because the provisions in these paragraphs expired July 31, 1973, and they are obsolete.

The proposal is that paragraphs (a)(1)(xi), (a)(1)(xii), and (a)(1)(xiii) be deleted and that the provisions of paragraphs (a)(1)(iv)(b) and (a)(1)(vi) of § 906.340 (7 CFR 906.340) be amended to read as follows:

§ 906.340 **Container, pack, and container marking regulations.**

(a) • • •
(1) • • •
(iv) • • •

(b) Bags having a capacity of 8-pounds of fruit: *Provided,* That fruit when packed in such bags shall be handled only when packed in the numbers and containers specified in paragraphs (a)(1)(v) and (a)(1)(vi) of this section;

• • • • • •

(vi) Closed fiberboard carton with inside dimensions of 20 x $13^{1}/_{4}$ inches and of a depth from $9^{3}/_{4}$ to $10^{3}/_{4}$ inches: *Provided,* That the container has a Mullen or Cady test of at least 250 pounds and the container is used only for the shipment of eight 5-pound bags of fruit, or five 8-pound bags of fruit;

• • • • • •

Dated: September 19, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

### [ 7 CFR Part 927 ]

### BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BEURRE CLAIRGEAU VARIETIES OF PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

### Proposed Expenses and Fixing of Rate of Assessment for 1973–74 Fiscal Period

This notice invites written comments relative to the proposed expenses of $82,445 and the assessment rate of $0.015 per standard western pear box of winter pears to support the activities of the Control Committee during the 1973–74 fiscal period under Marketing Order No. 927.

Consideration is being given to the following proposal submitted by the Control Committee, established pursuant to the marketing agreement, as amended, and Order No. 927, as amended (7 CFR Part 927), regulating the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That expenses which are reasonable and necessary to be incurred by the Control Committee, during the period July 1, 1973, through June 30, 1974, will amount to $82,445.

(2) That the rate of assessment for such period, payable by each handler in accordance with § 927.41, be fixed at $0.015 per standard western pear box of pears, or an equivalent quantity of pears in other containers or in bulk.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than October 9, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: September 18, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Social Security Administration

**[ 20 CFR Part 405 ]**

[Reg. No. 5]

### SUPPLEMENTARY MEDICAL INSURANCE BENEFITS

### Premium Rate

Notice is hereby given pursuant to the Administrative Procedure Act, as amended (5 U.S.C. 553) that the amendments to the regulations (20 CFR 405.902), set forth below in tentative form are proposed by the Acting Commissioner of Social Security with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments reflect section 203 of the Social Security Amendments of 1972 (Pub. L. 92–603) which limits any increase in the supplementary medical insurance premium rate for a 12-month period beginning July of any year to the percentage by which cash benefits under title II were increased during the preceding 12 months. The actual computation process (as promulgated by Pub. L. 92–603) is not being included since the computation process and all actuarial assumptions are published in the FEDERAL REGISTER whenever there is a premium increase. A cross-reference to section 1839 of the Act, as amended (that section stating the computation process) has been included. The premium rates and the dates for which they are effective through June 1974 are set forth below.

Prior to the final adoption of the proposed regulations, consideration will be given to any comments, views, or objections relating thereto which are submitted in writing in triplicate to the Acting Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before October 24, 1973.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

(Secs. 1102, 1839, and 1871, 49 Stat. 647 as amended, 79 Stat. 306, as amended; 79 Stat. 331 (42 U.S.C. 1302, 1395r, hh).)

(Catalog of Federal Domestic Assistance Program No. 13.801, Health Insurance for the Aged—Supplementary Medical Insurance.)

Dated August 24, 1973.

ARTHUR E. HESS,
*Acting Commissioner of Social Security.*

Approved September 19, 1973.

CASPAR W. WEINBERGER,
*Secretary of Health, Education, and Welfare.*

Subpart I of Regulations No. 5 of the Social Security Administration (20 CFR Part 405) is amended as follows:

1. Paragraph (a) of § 405.902 is revised to read as follows:

**§ 405.902 Amount of premiums.**

(a) *Enrollment in initial enrollment period.* Where an individual enrolls during his initial or deemed initial enrollment period (see § 405.212) or under the "good cause" provisions discussed in § 405.224, his monthly premiums under the supplementary medical insurance program will be the standard premium as determined under subparagraph (1) or (2) of this paragraph.

(1) The standard monthly premium under the supplementary medical insurance program is $3 for each month of coverage (see § 405.220) from July 1966 through March 1968; $4 for each month of coverage from April 1968 through June 1970; $5.30 for each month from July 1970 through June 1971; $5.60 for each month from July 1971 through June 1972; $5.80 for each month from July 1972 through June 1973.

(2) During December 1972, and each December thereafter, the Secretary shall determine and promulgate (setting forth the actuarial assumptions and bases employed by him) the standard premium which shall be applicable for the 12-month period commencing July 1 in the succeeding year. Such standard premium shall be determined as prescribed in section 1839 of the Act, as amended.

## CIVIL AERONAUTICS BOARD

**[ 14 CFR Part 298 ]**

[Docket No. 25800; EDR—251B]

### CLASSIFICATION AND EXEMPTION OF AIR TAXI OPERATORS

### Reporting of Certain Data by Commuter Air Carriers and Other Air Taxi Operators

SEPTEMBER 18, 1973.

By notice of proposed rulemaking EDR-251,[1] the Board gave notice that it had under consideration an amendment to Part 298 of its Economic Regulations (14 CFR Part 298), which would revise the report forms (Form 298–C) presently required to be filed quarterly by commuter air carriers, and would impose on all air taxis—including commuters—a new requirement to report annually with respect to their overall operations, both scheduled and nonscheduled. For the latter purpose, a new reporting form (Form 298–D) was proposed.

Since issuing said Notice, we have decided that the data which we have proposed, in this proceeding, to obtain annually from all air taxi operators with respect to their overall operations would be more useful to us if reported in a manner which would separately disclose domestic operations and international operations. We are accordingly substituting the proposed rule set forth hereinbelow, including the proposed CAB Form 298–D annexed thereto, for the proposed rule and Form 298–D set forth in EDR–251.

In view of the fact that the time for filing comments in this proceeding has already been extended to October 19, 1973, by Supplemental Notice EDR–251A,[2] and since the within proposal does not substantially revise the initial proposal in EDR–251, we are not now further extending the time for filing comments.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

*Explanatory statement.* There are between 400 and 500 U.S. air taxis which have been authorized by foreign governments (chiefly Canada) to perform international services. Schedules T–1 and T–2 of the Form 298–C filed by commuter air carriers presently provide us, and will continue to provide us, with particular information enabling us to determine the extent of a commuter's scheduled operations in any international market. However, the proposed Form 298–D which was part of EDR–251 would present data on the overall operations of air taxis in an undifferentiated manner which would completely preclude us from determining the extent of any air taxi operator's nonscheduled operations in any or all international markets.

We believe that specific information as to the volume of nonscheduled air taxi operations in country-to-country markets would be very useful to us, particularly for bilateral intergovernmental discussions on nonscheduled air services, and that to require air taxis to file reports annually on a form specifically disclosing such data would not be unduly burdensome. We have therefore tentatively concluded that the reports which we have proposed in EDR–251 to require of air taxis, including commuters, should be appropriately revised to accomplish the purpose discussed above.

Proposed rule. It is proposed to amend Part 298 of the Economic Regulations (14 CFR Part 298) as follows:

1. Amend the Table of Contents by adding a new § 298.6—Extension of filing time, under Subpart A—General; deleting and reserving § 298.62 under Subpart F—Reporting of Scheduled Operations by Commuter Air Carriers; and adding a new Subpart F–1—Reporting by Air Taxi Operators, consisting of a new § 298.67—Reporting instructions, the table as amended to read as follows:

Sec.
298.6 Extension of filing time.

**Subpart F—Reporting of Scheduled Operations by Commuter Air Carriers**

298.62 [Reserved]

**Subpart F–1—Reporting by Air Taxi Operators**

298.67 Reporting instructions.

[1] Dated August 15, 1973; 38 FR 22494.

[2] Dated August 29, 1973; 38 FR 23805, September 4, 1973.

2. Amend § 298.2 by adding thereto certain definitions, the section as amended to read as follows:

**§ 298.2 Definitions.**

* * * * * *

"Air transportation" means * * *

"Aircraft hours" means the airborne hours of aircraft computed from the moment an aircraft leaves the ground until it touches the ground at the end of a flight.

"Aircraft miles" means the miles (computed in airport-to-airport distances) for each flight stage actually completed, whether or not performed in accordance with the scheduled pattern.

* * * * * *

"Competitive market" means * * *

"Departure" means takeoff from an airport.

"Flight stage" means the operation of an aircraft from takeoff to landing.

* * * * * *

"Maximum payload capacity" means * * *

"Mile" means a statute mile *i.e.*, 5,280 feet.

"Noncompetitive market" means * * *

"Passengers carried" means passengers on board each flight stage.

"Point" when used * * *

"Revenue passenger-mile" means one revenue passenger transported one mile. Revenue passenger-miles are computed by summation of the products of the revenue aircraft miles flown on each flight stage multiplied by the number of revenue passengers carried on that flight stage.

"Revenue seat-miles available" means the total of the products of aircraft miles and number of seats available for revenue use on each flight stage, representing the total passenger-carrying capacity offered.

"Revenue ton-mile" means one ton of revenue traffic transported one mile. Revenue ton-miles are computed by summation of the products of the revenue aircraft miles flown on each flight stage multiplied by the number of revenue tons carried on that stage. (A standard weight of 200 pounds per passenger may be used in the computation.)

"Revenue ton-miles available" means the aggregate of the products of the aircraft miles flown on each flight stage multiplied by the capacity in tons available for use on that stage.

"Ton" means a short ton, *i.e.*, 2,000 pounds.

3. Add a new § 298.6, following § 298.5, to read as follows:

**§ 298.6 Extension of filing time.**

If circumstances prevent the filing of a report within the prescribed time limit, consideration will be given to the granting of an extension upon receipt of a written request therefor, addressed to the Director, Bureau of Accounts and Statistics, Civil Aeronautics Board, Washington, D.C. 20428. Such a request must give a sufficient reason for granting the extension, set forth the date when the report can be filed, and be submitted sufficiently in advance of the due date to permit proper time for consideration and communication to the carrier of the action taken. Except in cases of emergency, no request for extension will be entertained which is not received in sufficient time to enable the Board to pass thereon before the prescribed due date. If a request is denied, the carrier remains subject to the filing requirements to the same extent as if no request for extension had been made.

4. Delete and reserve § 298.62, as follows:

**§ 298.62 [Reserved]**

5. Amend paragraph (b) of § 298.64 by adding thereto new subparagraphs (5) and (6), the section as amended to read as follows:

**§ 298.64 Reporting instructions.**

* * * * * *

(b) * * *

(5) Columns (5), (6) and (7) shall set forth, respectively, aircraft hours flown, aircraft miles flown and aircraft departures performed during the reporting quarter.

(6) Columns (8), (9), (10), and (11) shall set forth, respectively, revenue passenger-miles, revenue seat-miles available, revenue ton-miles and revenue ton-miles available for the reporting quarter.

6. Amend Part 298 by adding a new Subpart F–1, consisting of a new § 298.67, the caption and text of the subpart to read as follows:

**Subpart F–1—Reporting by Air Taxi Operators**

**§ 298.67 Reporting instructions.**

(a) Each air taxi operator (including commuter air carriers) shall file CAB Form 298–D, entitled "Report of All Revenue Operations Performed by Air Taxi Operators and Commuter Air Carriers," in accordance with the provisions of this part and in the manner set forth in said form, which is made a part hereof and annexed hereto.

(b) CAB Form 298–D shall be prepared for the period January 1 through December 31 of each year. It shall be completed in triplicate and filed with the Board (i.e., postmarked) not more than forty (40) days after the end of each calendar year, and shall be addressed to the Civil Aeronautics Board, Attention of the Bureau of Accounts and Statistics, Washington, D.C. 20428.

(c) Items 1 through 4 under Part I of CAB Form 298–D shall set forth, in total, respectively, the number of passengers carried, aircraft hours flown, aircraft miles flown and number of aircraft departures performed in all revenue domestic operations, whether scheduled or nonscheduled.

(d) Items 1 through 4 under Part II of CAB Form 298–D shall set forth, respectively, the number of passengers carried, aircraft hours flown, aircraft miles flown and number of aircraft departures performed in revenue operations in each market of international operations (e.g., United States-Bahamas, United States-Canada, United States-Mexico), the name of each such market shall be inserted over columns (a) through (c), and the total for each item shall be set forth in column (d).

(e) The certificate contained in CAB Form 298–D shall be executed by the officer in charge of the carrier's accounts.

### Cancellation With Prejudice of Customhouse Broker's License No. 4010

SEPTEMBER 17, 1973.

Notice is hereby given that the Commissioner of Customs on September 17, 1973, pursuant to section 641, Tariff Act of 1930, as amended, and § 111.51(b), Customs Regulations, as amended, upon the specific request of Richard C. O'Rourke, canceled with prejudice customhouse broker's license No. 4010 issued to him on April 15, 1968, for the Customs district of Chicago.

[SEAL] VERNON D. ACREE,
*Commissioner of Customs.*

### Department of the Army

### ADVISORY COMMITTEE FOR NATIONAL DREDGING STUDY

### Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (PL 92-463) notice is hereby given of the fourth meeting of the Advisory Committee for National Dredging Study to be held September 27 and 28, 1973. The meeting will begin at 9:30 a.m. in Room 6A092, the Forrestal Building, Washington, D.C.

The purpose of the meeting is to discuss procedures with the management consulting firm conducting the National Dredging Study.

Within the facilities available (about 22 persons) the meeting will be open to observers. However, the purpose of the meeting is not compatible with participation in the proceedings by the observers. Any member of the public who wishes to do so will be permitted to file a written statement with the Committee before or after the meeting.

Inquiries may be addressed to the Designated Federal Representative, Mr. Eugene B. Conner, DAEN-CWO-M, Office Chief of Engineers, U.S. Army, Washington, D.C. 20314.

For the Chief of Engineers.

Dated September 18, 1973.

JAMES L. KELLY,
*Brigadier General, USA,*
*Deputy Director of Civil Works.*

## DEPARTMENT OF JUSTICE

### Land and Natural Resources Division

### ACTION TO ENJOIN DISCHARGE OF POLLUTANTS

### Notice of Proposed Consent Judgment

In accordance with Departmental Policy, 28 CFR 50.7, 38 FR 19020, notice is hereby given that on July 27, 1973, a proposed consent judgment and stipulation in United States v. Wire Rope Corporation of America, Inc. was lodged with the United States District Court for the Western District of Missouri. The proposed decree would establish effluent limitations for discharges from the company's wire rope manufacturing facility at St. Joseph, Missouri.

The Department of Justice will receive for 30 days from the date of publication of this notice written comments relating to the proposed judgment. Comments should be addressed to the United States Attorney, Western District of Missouri, 549 United States Court House, Kansas City, Missouri 64106, and refer to the United States v. Wire Rope Corporation of America, Inc., D.J. Ref. 62-43-8.

The proposed consent decree may be examined at the office of the United States Attorney, Western District of Missouri, 549 United States Court House, Kansas City, Missouri, at the Region VII Office of the Environmental Protection Agency, 1735 Baltimore Avenue, Kansas City, Missouri, and at the Pollution Control Section, Land and Natural Resources Division, Department of Justice, Room 2623, Department of Justice Building, Ninth Street and Pennsylvania Avenue NW., Washington, D.C. A copy of the proposed consent judgment and stipulation may be obtained in person or by mail from any of the above offices. In requesting a copy, please enclose a check in the amount of $4.90 (10 cents per page reproduction charge) payable to the Treasurer of the United States.

WALLACE H. JOHNSON,
*Assistant Attorney General,*
*Land and Natural Resources Division.*

### National Park Service

### NATIONAL REGISTER OF HISTORIC PLACES

### List of Additions, Deletions and Corrections

By notice in the FEDERAL REGISTER of February 28, 1973, Part II, there was published a list of the properties included in the National Register of Historic Places. This list has been amended by a notice in the FEDERAL REGISTER of March 6 (pp. 6084-6086), April 10 (pp. 9095-9097), May 1 (pp. 10745-10748), June 5 (pp. 14770-14777), July 3 (pp. 17744-17749), August 7 (pp. 21278-21284), and September 4 (pp. 23808-23811). Further notice is given that certain amendments or revisions in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470.

The following are corrections to previous listings in the FEDERAL REGISTER:

**Georgia**

*Liberty County*

Riceboro vicinity, *Woodmanston Site (LeConte Plantation)*, S of Riceboro.

**Louisiana**

*Caddo Parish*

Shreveport, *Lindsay, Colonel Robert H., House (Symphony House)*, 2803 Woodlawn Avenue.

## DEPARTMENT OF AGRICULTURE

### Forest Service

### CONSTRUCTION AND OPERATION OF FOREST SERVICE RECREATION CABINS IN ROADLESS AREAS

### Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for Construction and Operation of Forest Service Recreation Cabins in Roadless Areas, USDA–FS–DES (Adm) 74–29.

The environmental statement concerns the proposed construction and operation of seven public recreation cabins. The proposed locations are around Revillagigedo Island, Tongass National Forest, Ketchikan Area, near saltwater in roadless areas. The construction of the cabins will be a cooperative project between the USDA, Forest Service, Tongass National Forest, Ketchikan Area, and the Alaska Sports and Wildlife Club, Ketchikan, Alaska 99901, and will expand the existing public recreation cabin system, primarily located on freshwater lakes and streams. The intent of the project is to provide increased opportunity for the public to experience hiking, fishing, beachcombing, sightseeing, hunting, photography, and similar activities in an area not now readily accessible by small boat.

This draft environmental statement was filed with CEQ on September 18, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
So. Agriculture Bldg., Room 3230
12th St. & Independence Ave. SW.
Washington, D.C. 20250

USDA, Forest Service
Alaska Region
Federal Office Building
Juneau, Alaska 99801

Area Manager, Chatham Area
Tongass National Forest
Federal Building
Sitka, Alaska 99835

Area Manager, Stikine Area
Tongass National Forest
Federal Building

Area Manager, Ketchikan Area
Tongass National Forest
Federal Building, Room 313
Ketchikan, Alaska 99901

A limited number of single copies are available upon request to Richard M. Wilson, Area Manager, Tongass National Forest, Ketchikan Area, Box 2278, Ketchikan, Alaska 99901.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the environmental statement above when ordering.

Comments are invited from the public, and from state and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Richard M. Wilson, Area Manager, Tongass National Forest, Ketchikan Area, Box 2278, Ketchikan, Alaska 99901. Comments must be received by November 2, 1973, in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
*Deputy Chief, Forest Service.*

## DEPARTMENT OF COMMERCE

### Maritime Administration

### APOLLO MARINE SHIPPING CO.

#### Construction of DWT Tankers

Notice is hereby given that Apollo Marine Shipping Company has filed an application dated September 17, 1973, pursuant to Title V of the Merchant Marine Act, 1936, as amended, for construction-differential subsidy to aid in the construction of three 38,300 DWT, one 89,700 DWT and four 380,000 DWT tankers, a total of eight new tanker vessels to be used in the foreign commerce of the United States.

Interested parties may inspect this application in the office of the Secretary, Room 3099-B, Maritime Administration, Commerce Department Building, Fourteenth and E Streets NW., Washington, D.C. 20235.

Dated September 18, 1973.

By order of the Maritime Subsidy Board, Maritime Administration.

JAMES S. DAWSON, Jr.,
*Secretary.*

[FR Doc.73-20289 Filed 9-21-73;8:45 am]

### BULK LUMBER CARRIERS

#### Intent To Compute Estimated Cost of Construction

Notice is hereby given of the intent of the Maritime Subsidy Board to compute the estimated foreign cost of the construction of bulk lumber carriers of about 40,000 to 60,000 DWT pursuant to the provisions of section 502(b) of the Merchant Marine Act, 1936, as amended.

Any person, form or corporation having any interest (within the meaning of section 502(b)) in such computations may file written statements by the close of business on October 22, 1973, with the Secretary, Maritime Subsidy Board, Maritime Administration, Room 3099B, Department of Commerce Building, 14th & E Streets NW., Washington, D.C. 20230.

Dated September 18, 1973.

By order of the Maritime Subsidy Board, Maritime Administration.

JAMES S. DAWSON, Jr.,
*Secretary.*

[FR Doc.73-20288 Filed 9-21-73;8:45 am]

[Docket No. S-393]

### CHESTNUT SHIPPING CO.

#### Notice of Application

Notice is hereby given that Chestnut Shipping Company has filed an application for operating-differential subsidy on two (2) tankers (to be constructed) of approximately 89,700 deadweight tons each. Said vessels will operate generally from West Africa to U.S. Atlantic/Gulf ports and may be operated in other worldwide services in the carriage of liquid and dry bulk cargoes not subject to the cargo preference statutes including 10 U.S.C. 2631, 46 U.S.C. 1241, and 15 U.S.C. 616a.

This application has been submitted in lieu of an operating-differential subsidy application by Chestnut Shipping Company dated July 9, 1973, notice of which appeared in the FEDERAL REGISTER of July 25, 1973 (38 FR 19918), FR Doc. 73-15287.

Any party having an interest in such application and who would contest a finding of the Board that the service now provided by vessels of United States registry for the worldwide carriage of liquid and dry bulk cargoes, not subject to the cargo preference statutes, moving in the foreign commerce of the United States is inadequate, must, on or before October 5, 1973 notify the Secretary in writing of his interest and of his position and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Merchant Marine Act, 1936, as amended, and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing.

In the event that a section 605(c) hearing is ordered to be held, the purpose of such hearing will be to receive evidence relevant to whether the service already provided by vessels of U.S. registry for the worldwide movement of liquid and dry bulk cargoes in the foreign oceanborne commerce of the United States is inadequate and whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated in such service.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing the Maritime Subsidy Board will take such action as may be deemed appropriate.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS).)

Dated September 19, 1973.

By Order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
*Secretary.*

### National Oceanic and Atmospheric Administration

### PERMITS TO TAKE OR IMPORT MARINE MAMMALS

#### Instructions for Preparing Application

The following information will be used as the basis for determining whether an application is complete and whether a scientific research or a public display permit should be issued by the Secretary of Commerce. The Marine Mammal Commission and the Committee of Scientific Advisors on Marine Mammals will review all completed applications submitted to them by the Secretary pursuant to § 216.12(b) of the interim regulations (37 FR 28182, December 21, 1972).

An original and four copies of the application are required.

*Give complete information.* It is to the Applicant's benefit to furnish all required information. Incomplete information may delay processing of the application or even result in its rejection. Only a completed application will be forwarded to the Marine Mammal Commission and the Committee of Scientific Advisors and be noted in the FEDERAL REGISTER. Where questions do not apply so indicate rather than leave blank. Provide a response to each applicable item of the application.

If additional space is needed to provide information the Applicant should prepare an original and four copies of supplemental attachments properly identified by the appropriate item number in these instructions.

*Where to Send Application.* Send the original and four copies of the completed application to the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, Washington, D.C. 20235. Assistance may be obtained by writing the Director or calling the Law Enforcement and Marine Mammal Protection Division in Washington, D.C. (area code 202), phone number 343-4543.

*Instructions for Preparing Application.* Provide the following information using separate sheets as needed.

1. Title: As applicable, either—
(1) Application for Public Display Permit Under the Marine Mammal Protection Act of 1972, or
(2) Application for Scientific Research Permit Under the Marine Mammal Protection Act of 1972

2. List the date of the application.

3. If the Applicant is a partnership or a corporate entity set forth the details. If the marine mammal to be taken or imported, or the marine mammal product to be imported, is to be utilized or displayed by a party other than the Applicant, set forth the name of the party and such other information as would be required if such party were an Applicant.

4. Provide a statement on the purpose of the proposed taking or importing, including a brief description of:
(a) The need for the marine mammal(s) and/or marine mammal product(s); and
(b) How they will be used.

5. If the application is for a scientific research permit, provide the following additional information:
(a) A detailed description of the scientific research project or program in which the marine mammal or product thereof is to be used;
(b) A list of the names and addresses of the sponsors or cooperating institutions and the scientists involved;
(c) A copy of the formal research proposal or contract if one has been prepared;
(d) A statement of whether the proposed research has broader significance than the individual researcher's goals (i.e., does the proposed research respond directly or indirectly to recommendations of any national or international scientific body charged with research or management of marine mammals and, if so, how?); and
(e) A description of the arrangements, if any, for the disposition of any dead specimen or its skeleton or other remains, for the continual benefit to science, in a museum or other institutional collection.

6. Describe any marine mammals to be taken or imported, whether for public display or scientific research or any marine mammal products to be imported, including the following:
(a) A list of each species to be taken or imported and the number of each, including the common and scientific name;
(b) A physical description of each animal to be taken or imported, including the age, size, and sex;
(c) A list of the probable dates of capture and importation for each animal and the location of capture and importation, as specifically as possible;
(d) A description of the status of the stock of each species related insofar as possible to the location or area of taking;
(e) A description of the manner of taking for each marine mammal, including the gear to be used;
(f) The name and qualifications of the persons or entity which will capture the animals;
(g) If the capture is to be done by a contractor, a statement as to whether a qualified member of your staff (include name(s) and qualifications) will supervise or observe the capture. Accompany such statement with a copy of the proposed contract;
(h) In the case of imported animals indicate, if known, the management and protection programs of the country from which the animal originates; and
(i) For any marine mammal products to be imported, provide the information sought in this paragraph for all marine mammals from which component parts of such products are derived.

7. Describe the manner of transportation of any marine mammal taken or imported, including:
(a) Mode of transportation;
(b) Name of transportation company;
(c) Length of time in transit for the transfer of the animal(s) from the capture site to the research or display facility;
(d) Length of time in transit for any future move or transfer of the animal(s) that is planned;
(e) The qualifications of the common carrier or agent used for transportation of the animals;
(f) A description of the pen, container, cage, cradle, or other devices used, both to hold the animal at the capture cite and during transportation;
(g) Special care before and during transportation, such as salves, antibiotics, moisture; and
(h) A statement as to whether the animals will be accompanied by a veterinarian or other similarly qualified person, and the qualifications of such person.

8. Describe the contemplated care and maintenance of any mammals sought, including a complete description of the facilities where any such mammals will be maintained or displayed, including:
(a) The dimension of the pools or other holding facilities and the number of animals by species to be held in each;
(b) The water supply, amount, and quality;
(c) The diet, amount and type, for all animals;
(d) Sanitation practices used;
(e) Qualifications and experience of the staff; and
(f) A written certification from a licensed veterinarian knowledgeable in the field of marine mammals that he has personally reviewed the arrangements for transporting and maintaining the animal(s) and that in his opinion they are adequate to provide for the well-being of the animal.

9. If the application is for public display, provide a detailed description of the proposed display, including:
(a) A description of the manner, location, and number of times per day and per week the animal(s) will be displayed;
(b) An indication as to whether the display is for profit;
(c) An estimate of the numbers and types of people who it is estimated will benefit by such display;
(d) A list of any educational or scientific programs connected to the contemplated display; and
(e) A description of the Applicant's enterprise and its connections with any governmental, educational, medical, or other scientific entities.

10. If the marine mammal to be taken or imported is listed as an endangered species pursuant to the Endangered Species Act of 1969 or any Act superseding it, or has been designated by the Secretary as depleted, or if the marine mammal product to be imported is composed in whole or in part from such mammal, provide a detailed justification of the need for such mammal(s), or product(s) including a discussion of possible alternatives, whether or not under the control of the Applicant. Please note that pursuant to the Act and interim regulations that no public display permits may be issued for such endangered or depleted species.

11. For the year preceding the date of this application, provide a detailed description of all marine mammal mortalities, including:
(a) A list of all marine mammals captured, transported, maintained, displayed, or utilized for scientific research and/or for all marine mammals caused to be captured, transported, maintained, displayed, or utilized for scientific research, by the Applicant;
(b) The numbers of mortalities among such mammals, by species, by date and location of such mortalities;
(c) The cause(s) of any such mortalities; and
(d) The steps which have been taken by the Applicant to avoid or decrease any such mortalities.

12. A certification in the following language:

I hereby certify that the foregoing information is complete, true, and correct to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining a permit under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407) and regulations promulgated thereunder, and that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001, or to penalties provided under the Marine Mammal Protection Act of 1972.

Signature of Applicant

Dated September 19, 1973.

WILLIAM F. ROYCE,
*Associate Director of Research.*

[FR Doc.73-20218 Filed 9-21-73;8:45 am]

### PERMITS TO TAKE OR IMPORT MARINE MAMMALS

#### Consideration of Permits To Import

The Marine Mammal Protection Act of 1972 provides for a Marine Mammal Commission and a Committee of Scientific Advisors on Marine Mammals to assist the Secretary of Commerce and provide consultation and recommendations to him. Under the Act no permits

V 38-184 SEP 24 73 XUM

to take or import marine mammals or to import marine mammal products for purposes of scientific research or public display may be issued by the Secretary without a review by the Commission and the Committee.

The Commission was appointed on May 14, 1973, and the Committee was appointed on August 7, 1973. Therefore, notice is hereby given that since these entities are available to review applications for permits to take or import marine mammals or to import marine mammal products for purposes of scientific research or public display, such applications will be accepted at this time for consideration by the Secretary. Detailed instructions on how to prepare and file such applications are being published in the FEDERAL REGISTER contemporaneously with this notice.

*Effective date.*—This notice is effective on September 24, 1973.

Dated September 19, 1973.

WILLIAM F. ROYCE,
*Associate Director of Research.*

### Office of the Secretary

### MANAGEMENT-LABOR TEXTILE ADVISORY COMMITTEE

#### Notice of Public Meeting

SEPTEMBER 20, 1973.

The Management-Labor Textile Advisory Committee will meet at 2:00 p.m. on October 2, 1973 in Room 6802, Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

The Committee, which is comprised of 40 members representing the industry, trade associations, and trade unions, advises Department officials on conditions in the textile industry and on trade in textiles and apparel.

The agenda for the meeting is as follows:

1. Review of Import Trends.
2. Implementation of Textile Agreements.
3. Report on Conditions in the Domestic Market.
4. Other Business.

A limited number of seats will be available to the public. The public will be permitted to file written statements with the committee before or after the meeting. To the extent time is available at the end of the meeting the presentation of oral statements will be allowed.

Portions of future meetings which concern subjects not listed above will be open to public participation unless it is determined, in accord with S10(d) of the Federal Advisory Committee Act and the OMB-Justice memorandum on Advisory Committee Management, that specifically identified portions will be closed.

Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230.

SETH M. BODNER,
*Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.*

## ATOMIC ENERGY COMMISSION

[Docket No. 50-363]

### JERSEY CENTRAL POWER & LIGHT CO.

**Notice of Availability of Initial Decision of the Atomic Safety and Licensing Board for the Forked River Nuclear Generating Station, Unit 1**

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulation in Appendix D, section A.9 and A.11, to 10 CFR Part 50, notice is hereby given that an Initial Decision dated July 9, 1973, by the Atomic Safety and Licensing Board in the above captioned proceeding authorizing issuance of a permit to Jersey Central Power and Light Company for construction of Forked River Nuclear Generating Station, Unit 1 located in Ocean County, New Jersey, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C., and in the Ocean County Library, 15 Hooper Avenue, Toms River, New Jersey 08753.

The Initial Decision is also being made available at the Division of State and Regional Planning Department of Community Affairs, P.O. Box 2768, Trenton, New Jersey 08625, and at the Ocean County Planning Board, Court House Square, Toms River, New Jersey 08753.

The Initial Decision modified in certain respects the contents of the Final Environmental Statement relating to the construction of the Forked River Nuclear Generating Station, Unit 1 prepared by the Commission's Directorate of Licensing. A copy of this final Environmental Statement is also available for public inspection at the above designated locations.

Pursuant to the provisions of 10 CFR Part 50, Appendix D, section A.11, the Final Environmental Statement is deemed modified to the extent that the findings and conclusions relating to environmental matters contained in the Initial Decision are different from those contained in the Final Environmental Statement. As required by section A.11 of Appendix D, a copy of the Initial Decision, which modifies the Final Environmental Statement, has been transmitted to the Council on Environmental Quality and made available to the public as noted herein.

Single copies of the Initial Decision and of the Final Environmental Statement may be obtained by writing the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland this 18th day of September 1973.

For the Atomic Energy Commission.

WM. H. REGAN, JR.,
*Chief, Environmental Projects Branch No. 4 Directorate of Licensing.*

### NIAGARA MOHAWK POWER CORP.

**Notice and Order for Evidentiary Hearing**

The Atomic Energy Commission (the Commission) by its "Notice of hearing on application for construction permit" dated September 21, 1972, ordered a hearing to be held on the application of the Niagara Mohawk Power Corporation for a construction permit for a boiling water reactor designed for initial operation at approximately 3,323 thermal megawatts with a net electrical output of approximately 1,100 megawatts. The proposed facility, designated as the Nine Mile Point Unit No. 2, is to be located at the Applicant's site on the southeast shore of Lake Ontario in the town of Scriba, Oswego County, New York. This hearing will be held pursuant to the Atomic Energy Act of 1954, as amended, the National Environmental Policy Act of 1969, and the Regulations in 10 CFR Part 50, Licensing of Production and Utilization Facilities, and 10 CFR Part 2, Rules of Practice.

The hearing will be evidentiary in nature and will be conducted by the Atomic Safety and Licensing Board (the Board) appointed by the Commission on November 15, 1972. This Board consists of Dr. Marvin M. Mann and Dr. William E. Martin as technically qualified members, and Daniel M. Head as chairman.

Prehearing Conferences were held by the Board in Oswego, New York, on January 9, 1973, April 27, 1973, and September 12, 1973, in accordance with the provisions of §§ 2.715(a) and 2.752 of the Commission's rules of practice, 10 CFR Part 2. As a result of these prehearing conferences, the Board permitted intervention by Mrs. Susanne Weber and Ecology Action under 10 CFR 2.714(a) and admitted participation by the State of New York pursuant to the provisions of 10 CFR 2.715(c). In addition, the Board admitted as issues in controversy certain contentions raised by the intervenors.

The evidentiary hearing which is being set by this order will consider the issues in controversy between the parties as well as the issues that have been designated determination by the Board in the Commission's aforementioned "Notice of hearing on application for construction permit."

Please take notice, and *it is hereby ordered*, That the evidentiary hearing in this proceeding is scheduled to begin at 10 a.m., local time, on Wednesday, October 10, 1973, in the City Council Chamber, City Hall, West Oneida Street, Oswego, New York 13126. The hearing shall run continuously until all evidence has been received or until continued by order of this Board.

Members of the public are invited to attend this public hearing and they may request to make limited appearances pursuant to § 2.715(a) of the Commission's Rules of Practice, 10 CFR Part 2. Oral or written statements and questions to be presented by limited appearances will be received prior to the start of the taking of evidence at the hearing.

Issued at Washington, D.C., this 18th day of September 1973.

By order of the Atomic Safety and Licensing Board.

DANIEL M. HEAD,
*Chairman.*

[Docket No. 50-305]

### WISCONSIN PUBLIC SERVICE CORP., ET AL.

**Order Extending Completion Date**

Wisconsin Public Service Corporation, Wisconsin Power and Light Company, and Madison Gas and Electric Company are the holders of Provisional Construction Permit No. CPPR-50, issued by the Commission on August 6, 1968, for the construction of the Kewaunee Nuclear Power Plant, a 1650 megawatt (thermal) pressurized water nuclear reactor, presently under construction at the companies' site in the Town of Carlton, Kewaunee County, Wisconsin.

On July 17, 1973, Wisconsin Public Service Corporation filed a request for an extension of the completion date for the following reason. In December 1972, specific design criteria were issued by the AEC to deal with postulated breaks outside containment in lines carrying high-energy fluids. Meeting these criteria has required very significant modifications to many parts of the plant. The plant, in areas other than those affected by these modifications, is essentially complete, but because of the plant modifications, the overall schedule may be somewhat delayed. Fuel loading is now scheduled in early October. The Director of Regulation having determined that this action involves no significant hazards considerations, that good cause has been shown, and that the requested extension is for a reasonable period, the bases for which are set forth in a memorandum dated August 30, 1973, from R. C. DeYoung to A. Giambusso:

It is hereby ordered that the latest completion date for CPPR-50 is extended from August 31, 1973, to November 29, 1973.

For the Atomic Energy Commission.

Date of issuance September 17, 1973.

A. GIAMBUSSO,
*Deputy Director for Reactor Projects, Directorate of Licensing.*

[Docket No. 23333 Agreement CAB 23928]

### INTERNATIONAL AIR TRANSPORT ASSOCIATION

**Agreement and Order Regarding Cargo Rates**

SEPTEMBER 17, 1973.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA), and adopted at a meeting held in New York on August 16, 1973, between British Overseas Airways Corp., Pan American World Airways, Inc., and Trans World Airlines, Inc. The agreement, relating to import service charges, has been assigned the above CAB agreement number.

The agreement, for intended effectiveness October 1, 1973, amends an attachment to existing resolution 502b and governs terminal service charges on inbound shipments at U.S. airports. The amendment would clarify the existing wording by specifying that an airline shall charge a $2.50 import service fee per carrier airwaybill for providing assistance and/or facilities in presenting a shipment or portions thereof for Customs examination, and/or for opening or closing such packages if required. The previous wording was less clear as to whether such charges could be levied if the carrier did not perform the actual opening and/or closing of the shipment.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that Agreement CAB 23928 is adverse to the public interest or in violation of the Act.

Accordingly, *It is ordered*, That:

Agreement CAB 23928 be and hereby is approved.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[FR Doc.73-20282 Filed 9-21-73;8:45 am]

[Docket No. 25280; Order 73-9-36]

### INTERNATIONAL AIR TRANSPORT ASSOCIATION

**Order Relating to Cargo Rates**

SEPTEMBER 10, 1973.

Agreements have been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreements were adopted at the Composite Cargo Traffic Conferences held May/June 1973 in Mexico City. Together they comprise those portions of the worldwide cargo rate structure, intended for effectiveness from October 1, 1973, through September 30, 1975, which have only limited application in air transportation as defined by the Act.

General cargo rates over the South Atlantic, and within Traffic Conference 2 (Europe/Africa/Middle East) have indirect application in air transportation as defined by the Act insofar as they are combinable with general cargo rates to/from United States points, and will be approved herein. We will also approve currency surcharge resolutions for these areas, but will disclaim jurisdiction with respect to other resolutions (such as specific commodity rates which are noncombinable) which do not affect air transportation.

Cargo rates within Traffic Conference 3 (Asia/Australia/Australasia), and rates between that area and Conference 2 (Joint Conference 2/3), affect air transportation directly only where rates to/from the U.S. territories and possessions in the Pacific are included. Rates for these U.S. points will be considered concurrently with Board action on the overall transpacific rate agreements,[1] but

[1] By Order 73-9-30 (September 10, 1973), the Board established procedural dates for the receipt of justification, comments and replies with respect to those portions of the Mexico City Agreements directly affecting air transportation.

V 38 184 SEP 24 73 XUM

delegated
gulations,

following
the agree-
ve indirect
on as de-
o the pub-
e Act:

| Agreement C.A.B. | IATA No. | Title | Application |
|---|---|---|---|
| 23800 | | | |
| R-2 | 401tz | South Atlantic Escape Resolution—Cargo (NEW) | ½ (South Atlantic). |
| R-4 | 501 | Minimum Charges for Cargo—South Atlantic (Revalidating and Amending). | ½ (South Atlantic). |
| R-5 | 534c | South Atlantic Bulk Unitization Charges (Revalidating and Amending). | ½ (South Atlantic). |

| Agreement C.A.B. 23800 | IATA No. | Title | Application |
|---|---|---|---|
| R-7 | 590 | Specific Commodity Rates Board (Revalidating and Amending). | ½ (South Atlantic). |

| Agreement C.A.B. 23799 | IATA No. | Title | Application |
|---|---|---|---|
| R-3 | 206c | Transportation of Human Eyes and Dehydrated Corneas (Revalidating and Amending). | 2/3. |
| R-6 | 535 | JT/3 Bulk Unitization Charges (Revalidating and Amending). | 2/3. |
| R-8 | 590 | Specific Commodity Rates Board (Revalidating and Amending). | 2/3. |

3. It is not found that the following resolutions, incorporated in the agreements indicated, are adverse to the public interest or in violation of the Act to the extent they do not directly apply in air transportation as defined by the Board; transportation as defined by the Act, provided that approval is subject, where applicable, to conditions previously imposed by the Board:

| Agreement C.A.B. 23774 | IATA No. | Title | Application |
|---|---|---|---|
| R-1 | 022a | TC3 Special Rules for Sales of Cargo Air Transportation (Revalidating and Amending). | 2 |
| R-2 | 115l | Meeting Note-IATA Cargo Competition (Revalidating and Amending). | 2/3. |
| R-3 | 501 | Minimum Charges for Cargo (Revalidating and Amending). | 2/3. |
| R-4 | 536 | TC3 Bulk Unitization Rules (Revalidating and Amending). | 2/3. |
| R-5 | 590 | Specific Commodity Rates Board (Revalidating and Amending). | 2/3. |

| Agreement C.A.B. 23799 | IATA No. | Title | Application |
|---|---|---|---|

| R-2 | 022k | JT2/JT23 Special Rules for Sales of Cargo Air Transportation (Revalidating and Amending). | 2/3; 1/2/3. |
| R-4 | 501 | Minimum Charges for Cargo (Revalidating and Amending). | 2/3. |
| R-5 | 501 | Minimum Charges for Cargo (Except North and Central Pacific) (Revalidating and Amending). | 1/2/3. |
| R-7 | 555 | JT23 and JT123 General Cargo Rates | 2/3; 1/2/3. |

| Agreement C.A.B. 23819 | IATA No. | Title | Application |
|---|---|---|---|
| R-1 | 001e | Cargo Tie-In Resolution—Mid-Atlantic (NEW) | ½ (Middle Atlantic). |
| R-2 | 022k | JT12 (Mid-Atlantic) Special Rules for Sales of Cargo Air Transportation (Revalidating and Amending). | ½ (Middle Atlantic). |
| R-3 | 501 | Minimum Charges for Cargo—Mid-Atlantic (Revalidating and Amending). | ½ (Middle Atlantic). |
| R-4 | 534b | Mid-Atlantic Bulk Unitization Charges (Revalidating and Amending). | ½ (Middle Atlantic). |
| R-5 | 534b | Mid-Atlantic General Cargo Rates | ½ (Middle Atlantic). |
| R-6 | 590 | Specific Commodity Rates Board (Revalidating and Amending). | ½ (Middle Atlantic). |

we will herein approve the TC3 and JT2/3 cargo rate agreements insofar as they involve combinable rates between foreign points, and we will disclaim jurisdiction with respect to non-combinable rates. We will also take similar action with respect to the Mid-Atlantic cargo rate structure, which includes rates to/from San Juan and the U.S. Virgin Islands.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14:

1. It is not found that the following resolutions, incorporated in the agreements indicated, and which have indirect application in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act:

| Agreement C.A.B. 23798 | IATA No. | Title | Application |
|---|---|---|---|
| R-1 | 001tz | TC2 Special Effectiveness Resolution (NEW) | ½ (South Atlantic). |
| R-3 | 022m | TC2 Special Rules for Sales of Cargo Air Transportation (Revalidating and Amending). | ½ (South Atlantic). |
| R-6 | 552 | TC2 General Cargo Rates | ½ (South Atlantic). |

| Agreement C.A.B. 23800 | IATA No. | Title | Application |
|---|---|---|---|
| R-1 | 001c | Cargo Tie-In Resolution (NEW) | ½ (South Atlantic). |
| R-2 | 022k | JT12 (South Atlantic) Special Rules for Sales of Cargo Air Transportation (Revalidating and Amending). | ½ (South Atlantic). |
| R-3 | 534b | TC3 Bulk Unitization Rules (Revalidating and Amending). | ½ (South Atlantic). |
| R-6 | 552 | South Atlantic General Cargo Rates | ½ (South Atlantic). |

2. It is not found that the following resolutions, incorporated in the agreements indicated, affect air transportation within the meaning of the Act:

| Route | Effective on and after | Rate cents per mile |
|---|---|---|
| St. Louis and Kansas City, Mo., Sheldon and Des Moines, Iowa, via Spencer and Fort Dodge, Iowa. | Jan. 16, 1973 ....do | 79.52 66.21 |
| Chicago, Ill. and Louisville, Ky., Sioux City and Des Moines, via Carroll, Iowa. | ....do ....do | 62.05 55.80 |
| Burlington and Des Moines via Iowa City, Iowa. | ....do | 51.98 |
| Decorah and Des Moines, via Mason City, Iowa. | ....do | 54.75 |
| Dubuque and Des Moines, via Waterloo, Iowa. | ....do | 52.46 |
| Sioux Falls, S. Dak., and AMF Twin Cities, Minneapolis, Minn., via Windom and Willmar, Minn. | ....do | 63.83 |
| Alliance, Nebr., via North Platte and Grand Island, Nebr. | ....do | 63.90 |
| AMF Twin Cities, Minneapolis, Minn., and Des Moines, Iowa. | ....do | 168.57 |

*Accordingly, It is ordered,* That: 1. Those portions of Agreements C.A.B. 23798 and C.A.B. 23800 described in finding paragraph 1 above, which have indirect application in air transportation as defined by the Act, be and hereby are approved;

2. Jurisdiction be and hereby is disclaimed with respect to those portions of Agreements C.A.B. 23798, C.A.B. 23800 and C.A.B. 23799 described in finding paragraph 2 above;

3. Those portions of Agreements C.A.B. 23774, C.A.B. 23799, and C.A.B. 23819 described in finding paragraph 3 above be and hereby are approved to the extent they have no direct application in air transportation as defined by the Act, subject, where applicable, to conditions previously imposed by the Board; and

4. Action be and hereby is deferred with respect to those portions of Agreements C.A.B. 23774, C.A.B. 23799, and C.A.B. 23819 described in finding paragraph 3 above to the extent they have direct application in air transportation as defined by the Act.

This order will be published in the FEDERAL REGISTER.

[Docket No. 25119 etc.; Order 73-9-51]

## SEDALIA, MARSHALL, BOONVILLE STAGE LINE, INC.

### Service Mail Rates; Order To Show Cause

SEPTEMBER 12, 1973.

Dockets Nos. 25119, 25120, 25121, 25122, 25123, 25124, 25125, 25126, 25127, 25128, 25131, 25133, 25134, 25269, 25270, 25271, 25285, 25286.

Final service mail rates per great circle aircraft mile for the transportation of mail by aircraft as shown by the Appendix were established by the Board and are currently in effect for Sedalia, Marshall, Boonville Stage Line, Inc. (Sedalia), an air taxi operating pursuant to 14 CFR, Part 298.

As set forth in the Appendix,[2] Sedalia petitioned the Board to reopen its current service mail rates and fix new final service mail rates per great circle aircraft mile.

On July 11, 1973, the Postal Service filed a late reply with petition to the Board for leave to file a late document, which is granted. The reply stated that the parties had come to an agreement and supported the rates set forth in the Appendix.

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the petition and other matters officially mentioned, it is proposed to issue an order[1] to include the following findings and conclusions:

*It is ordered,* That: 1. Sedalia, Marshall, Boonville Stage Line, Inc., the Postmaster General, Texas International Airlines, Inc., Ozark Air Lines, Inc., Frontier Airlines, Inc., Braniff Airways, Inc., Delta Air Lines, Inc., United Air Lines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rates specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rates of compensation to be paid to Sedalia, Marshall, Boonville Stage Line, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and notice of any objection to the rates or to the other findings and conclusions proposed herein, shall be filed within ten days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objection is not filed within ten days after service of this Order, or if notice is filed and answer is not filed within 30 days after service of this Order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rates specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rates shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the Rules of Practice (14 CFR 302.307); and

5. This order shall be served on Sedalia, Marshall, Boonville Stage Line, Inc., the Postmaster General, Ozark Air Lines, Inc., Frontier Airlines, Inc., Braniff Airways, Inc., Delta Air Lines, Inc., Texas International Airlines, Inc., and United Air Lines, Inc.

The fair and reasonable final service mail rates to be paid, on and after effective dates indicated, to Sedalia, Marshall, Boonville Stage Line, Inc., in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be the rates per great circle aircraft mile based on five round trips per week as set forth below:

| Agreement C.A.B. 23798 | IATA No. | Title | Application |
|---|---|---|---|
| R-2 | 005a | Procedures for Changes to Rates and Conditions within Scandinavia (NEW). | 2 |
| R-4 | 501 | Minimum Charges for Cargo (Revalidating and Amending) | 2/3. |
| R-5 | 534c | Shipper Packed Unit Rates (NEW) | 2/3. |
| R-7 | 590 | Specific Commodity Rates Board (Revalidating and Amending) | 2/3. |

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[FR Doc.73-20162 Filed 9-21-73;8:45 am]

[1] As this Order to Show Cause is not a final action, it is not regarded as subject to the review provisions of 14 CFR, Part 385. These provisions will apply to final action taken to by the staff under authority delegated in § 385.16(g).

## CIVIL SERVICE COMMISSION

### VETERINARIAN, WORLDWIDE

### Notice of Establishment of Minimum Rates and Rate Ranges

Under authority of 5 U.S.C. 5303 and Executive Order 1121, the Civil Service Commission has increased special minimum salary rates and rate ranges as follows:

GS-701 VETERINARIAN

Geographic coverage: World-wide
Effective date: First day of the first pay period beginning on or after September 30, 1973

(Per Annum Rates)

| Grade | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
|---|---|---|---|---|---|---|---|---|---|---|
| GS-9 | $13,162 | $13,549 | $13,936 | $14,323 | $14,710 | $15,097 | $15,484 | $15,871 | $16,258 | $16,645 |

All new employees in the specified occupational level will be hired at the minimum rates.

As of the effective date, all agencies will process a pay adjustment to increase the pay of employees on the roles in the affected occupational level. An employee who immediately prior to the effective date was receiving basic compensation at one of the statutory rates shall receive basic compensation at the corresponding numbered rate authorized by this notice on or after such date. The pay adjustment will not be considered an equivalent increase within the meaning of 5 U.S.C. 5335.

Under the provisions of section 3-2b, Chapter 571, FPM, agencies may pay the travel and transportation expenses to first post of duty under 5 U.S.C. 5723, of new appointees to positions cited.

UNITED STATES CIVIL SERVICE COMMISSION,

[SEAL] JAMES C. SPRY,
*Executive Assistant to the Commissioners.*

(This special rate schedule for computer purposes is designated as Table No. 400.)

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### CERTAIN COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN COSTA RICA

### Entry or Withdrawal From Warehouse for Consumption

SEPTEMBER 19, 1973.

On September 17, 1973, the United States Government in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles, done at Geneva on February 9, 1962, including Article 6(c) thereof relating to nonparticipants, informed the Government of Costa Rica that it was renewing for an additional twelve-month period beginning October 1, 1973 and extending through September 30, 1974, the restraint on imports into the United States of cotton textile products in Category 53, produced or manufactured in Costa Rica. Pursuant to Annex B, paragraph 2, of the Long-Term Arrangement, the level of restraint for this twelve-month period is five (5) percent greater than the level of restraint applicable to this category for the preceding twelve-month period.

There is published below a letter of September 19, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amount of cotton textile products in Category 53, produced or manufactured in Costa Rica, which may be entered or withdrawn from warehouse for consumption in the United States for the twelve-month period beginning October 1, 1973, be limited to 32,414 dozen.

SETH M. BODNER,
*Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.*

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
*Department of the Treasury,*
*Washington, D.C.*

SEPTEMBER 19, 1973.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, including Article 6(c) thereof relating to non-participants, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective October 1, 1973 and for the twelve-month period extending through September 30, 1974, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 53, produced or manufactured in Costa Rica, in excess of a level of restraint for the period of 32,414 dozen.

In carrying out this directive, entries of cotton textile products in Category 53, produced or manufactured in Costa Rica, which have been exported to the United States from Costa Rica prior to October 1, 1973, shall, to the extent of any unfilled balances, be charged against the level of restraint established for such goods during the period October 1, 1972 through September 30, 1973. In the event that the level of restraint established for that period has been exhausted by previous entries, such goods shall be subject to the level set forth in this letter.

A detailed description of Category 53 in terms of TSUSA numbers was published in the Federal Register on April 29, 1972 (37 FR 8802), as amended on February 14, 1973 (38 FR 4436).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Costa Rica and with respect to imports of cotton textiles and cotton textile products from Costa Rica have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
*Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.*

## FEDERAL POWER COMMISSION

[Docket No. E-8360]

### ALABAMA POWER CO.

### Notice of Filing of Petition for Declaratory Order

SEPTEMBER 18, 1973.

Take notice that on August 13, 1973, Alabama Power Company (Petitioner) petitioned the Commission pursuant to sections 202, 205, 206, 307 and 309 of the Federal Power Act and § 1.7(c) of the regulations issued thereunder, to issue a declaratory order adjudicating a controversy between petitioner and Alabama Electric Cooperative (Cooperative) over proper calculation of the fuel cost adjustment factor provided for in the interconnection agreement between the parties, accepted for filing June 22, 1972 and designated FPC Rate Schedule No. 133. The dispute pertains to controverted inclusion of a transmission loss factor in fuel cost adjustment computations, with petitioner claiming proper entitlement to $755.97 witheld by the Cooperative upon its own recalculation of fuel adjustment unit price for electric service rendered in June, 1973. Petitioner asks the Commission to take jurisdiction herein and set this matter for hearing to determine matters raised hereby.

Any person wishing to be heard or to make any protests with reference to this petition should on or before October 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. This petition is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20238 Filed 9-21-73;8:45 am]

[Docket No. RP74-10]

### ARKANSAS LOUISIANA GAS CO.

### Notice of Proposed Changes in FPC Gas Tariff

SEPTEMBER 18, 1973.

Take notice that Arkansas Louisiana Gas Company (Arkansas), on August 30, 1973, tendered for filing proposed changes in its FPC Gas Tariff Original Volume No. 3. According to Arkansas, the proposed changes would increase revenues from jurisdictional sales and service by approximately $330 based on the 12 month period ending September 30, 1974, as adjusted.

Arkansas states that the reason for the proposed changes are that a routine periodic price escalation has occurred under a field sale contract covering small volumes of gas attributable to minor interests in wells in the Bryans Mill Field, Cass County, Texas.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 2, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20229 Filed 9-21-73;8:45 am]

[Docket No. CI74-169]

### ATLANTIC RICHFIELD CO.

### Notice of Application

SEPTEMBER 18, 1973.

Take notice that on September 10, 1973, Atlantic Richfield Company (Applicant), P.O. Box 2819, Dallas, Texas 75221, filed in Docket No. CI74-169 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company from acreage in Pecos County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of gas on August 30, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for two years from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 60,000 Mcf of gas per month at 45.0 cents per Mcf at 14.65 psia.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before October 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20237 Filed 9-21-73;8:45 am]

[Docket No. CP73-307]

### BROCKTON TAUNTON GAS CO.

### Order Amending Order Authorizing Importation of Liquefied Natural Gas

SEPTEMBER 14, 1973.

On August 10, 1973, Brockton Taunton Gas Company (Petitioner) filed in Docket No. CP73-307 a petition to amend the order authorizing the importation of liquefied natural gas (LNG) pursuant to section 3 of the Natural Gas Act by extending the time in which Petitioner may import LNG purchases from Gaz Metropolitan, Inc., Montreal, P.Q., Canada, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner was authorized by order issued July 31, 1973, in the instant docket to import 4,583,440 U.S. gallons of LNG at 12.742 cents per U.S. gallon, equivalent

V 38-184
SEP 24 73
XUM

to approximately 400 billion Btu at a price of $1.46 per million Btu between June 15, 1973, and September 15, 1973.

As a result of a delay in commencement of deliveries, Petitioner now proposes to complete the authorized importation and to transport said quantities of LNG to its storage facilities at Easton, Massachusetts, by October 31, 1973, in lieu of the September 15, 1973, deadline.

*The Commission finds*

It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and to amend the order authorizing the importation of liquefied natural gas as hereinafter ordered.

*The Commission orders*

(A) The order authorizing the importation of liquefied natural gas in Docket No. CP73-307 is amended by extending the term of the authorization from September 15, 1973, to October 31, 1973.

(B) In all other respects said order shall remain in full force and effect.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20239 Filed 9-21-73;8:45 am]

## COLORADO INTERSTATE GAS CO.

### Notice of Proposed Changes in Service Agreements

SEPTEMBER 19, 1973.

Take notice that Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), on August 30, 1973, tendered for filing 16 revised service agreements between CIG and certain of its existing jurisdictional customers. These revised service agreements provide for various changes in peak day demand and annual or seasonal volumes, plus other minor revisions, to become effective on October 1, 1973.

Copies of the filing were mailed to each of the customers for which a revised service agreement was filed.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or bfore September 24, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20226 Filed 9-21-73;8:45 am]

[Docket No. E-8377]

## CONSOLIDATED EDISON CO.

### Notice of Termination

SEPTEMBER 18, 1973.

Take notice that on August 28, 1973, Consolidated Edison Company of New York, Inc. (Consolidated) tendered for filing notice that its Rate Schedule F.P.C. No. 26, effective April 30, 1972, terminated on October 28, 1972.

Consolidated states that pursuant to section 3 of the Rate Schedule, its term ended on October 28, 1972.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 2, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants partis to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. RP72-157]

## CONSOLIDATED GAS SUPPLY CORP.

### Notice of Proposed Changes in Rates and Charges

SEPTEMBER 17, 1973.

Take notice that Consolidated Gas Supply Corporation (Consolidated), on August 27, 1973, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, pursuant to its PGA clause which provides for increased rates to become effective October 1, 1973. The proposed rate increase would generate approximately $710,000 in additional jurisdictional revenues, annually.

Consolidated states that the proposed rates reflect an increase in rates from Transcontinental Gas Pipe Line Corporation (Transco), filed on August 15, 1973, to become effective October 1, 1973. Consolidated states further that since it did not receive notice of Transco's increase in sufficient time to make a timely filing, it is requesting a waiver of the 45-day notice requirement of rate change contained in its PGA clause and any other of the Commission's rules and regulations as may be required to permit the proposed rates to become effective on October 1, 1973.

Copies of the filing were served upon Consolidated's jurisdictional customers, and interested state commissions.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 24, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. E-8314]

## DUKE POWER COMMISSION

### Notice of Application

SEPTEMBER 18, 1973.

Take notice that on July 12, 1973, Duke Power Company (Applicant) tendered for filing, pursuant to Section 205 of the Federal Power Act and Part 35 of the regulations issued thereunder, a Supplemental Contract dated June 20, 1973, to an original contract and supplement thereto with the United States Government acting by and through the Southeastern Power Administration. The original contract dated December 16, 1963 was designated Rate Schedule FPC No. 130 and took effect December 20, 1963, while the supplement thereto was designated Supplement No. 2 to Rate Schedule FPC No. 130 and became effective November 20, 1966. The Supplemental Contract notice hereby extends the present expiration date for five years to midnight, July 20, 1978, effective July 20, 1973.

Any person wishing to be heard or to make any protests with reference to such Application should, on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The Application is on file with the Commission and is available for public inspection.

[Docket N. R-463]

## FILING OF ELECTRIC SERVICE TARIFF CHANGES

### Order Denying Applications for Rehearing

SEPTEMBER 14, 1973.

On July 17, 1973, the Commission issued Order No. 487 amending § 35.13 of its Regulations under the Federal Power Act to require, inter alia, all electric utilities that apply for rate increases to file unadjusted cost of service data for the most recent twelve consecutive months of actual experience (Period I) and to file estimated cost data for any twelve consecutive month period beginning after period I but no later than the date on which the new rates become effective (Period II). Period II is the test period and is voluntary for electric utilities with applications for increases less than one million dollars. In addition, Order No. 487 requires that electric utilities file workpapers in support of its case.

Order No. 487 was issued as a result of the notice of proposed rulemaking in Docket No. R-463 (37 FR 28195 December 21, 1972) requesting comments on the proposal.

On August 16, 1973, Consumer Owned Systems (Consumers)[1] and the American Public Power Association (APPA) filed separate applications for rehearing of Order No. 487.[2] Consumers and APPA allege that the Commission has not shown how Order No. 487 will meet the objections set forth in that order; the Commission made no attempt to explain how the departure from actual cost ratemaking will lead to data better suited for determining rates; the rulemaking will facilitate a price squeeze by a utility; the rulemaking is inconsistent with the Phase IV of the Economic Stabilization Program; the differences between Order No. 488 issued on July 17, 1973, in Docket No. R-464 as to utilizing year end rate base for natural gas as companies and Order No. 487 discriminates against wholesale customers of electric utilities; the order established no guidelines for the future test period data.

Also on August 16, 1973, the Cities of Bedford, et al., (Cities)[3] filed an application for rehearing of Order No. 487. In support of their application Cities maintain that the regulations under Order No. 488 (the Natural Gas Act) and Order No. 487 (Federal Power Act) are not "essentially the same"; the Commission's assurance of due process safeguard are without merit; the legal authority for use of future test period data is doubtful; and Order No. 487 violates due process principles.

In addition, on August 16, 1973, Congressman Michael J. Harrington filed a formal application for rehearing. In support of his application Congressman Harrington claims Order No. 487 is not in the public interest and will result in prolonged rate cases. Congressman Harrington also urged consideration of the alternative proposal filed by APPA on June 5, 1973.

In Order No. 487 we stated that the goal of the future test period is to enable us to determine rates for the future based on the costs of service during the period in which the rates are in effect. To the extent the applications for rehearing object to the principle of a future test period they raise no issues or facts not previously considered or warrant modification of Order No. 487.

As to the contention that the test period in Order No. 487 is different than the test period in Order No. 488, we agree. What is important however is that in substantive import the test periods are similar. Under the Natural Gas Act, we have jurisdiction to certificate new plant facilities and therefore the issue as to new facilities is an issue before us in a certificate proceeding. Therefore, a future test period as set forth in Order No. 487 would be improper for gas pipelines since it would be tantamount to prejudgment of Commission action on certification of the facilities. On the other hand, we have no jurisdiction under Parts II and III of the Federal Power Act to certificate electric plant facilities and therefore do not have the same constraint on data we may consider in determining just and reasonable rates.

Moreover, the existing regulations under the Natural Gas Act preclude inclusion of non-certificated facilities in rate base. There is no such limitation in the Regulations under the Federal Power Act since we have no certification authority over electric facilities.

The argument that use of future test period data is contrary to court preference for actual data misconceives the the essence of the rulemaking. By requiring actual and estimated data to be filed we provide for a means by which estimates can be compared to actual experience in arriving at the rates to be set for the future. In addition, as we noted in the order, the burden is on the applicant to support the estimated costs. If such estimates can be shown through discovery or cross-examination to be excessive, too speculative or conjectural, their appropriateness will be questioned. None of the cases cited by APPA or Consumers hold that fully supported cost estimates cannot be used in ratemaking.

APPA and Consumers allege that the future test period will facilitate price squeezes. Such an issue, if raised by a filing, cannot be dealt with summarily in a rulemaking and would require development at an evidentiary hearing.

The manner in which estimates are to be filed is set forth in Order No. 487 (mimeo page 9) along with workpapers. We see no reason to dictate by what method estimates will be determined since we believe this is a question of fact to be developed in a hearing. As to the claim that a detailed description of workpapers is required, we disagree. The workpapers to be filed reflect the data on the specific statements required by § 35.13b(iii) and (ill) of the regulations, therefore further detail is not required. If further information is required it may be obtained through discovery.

Cities contend that the holding in "Mobil Oil Corp. v. F.P.C.," (Slip Opinion No. 72-1471) (July 11, 1973) (Mobil) makes our issuance of Order No. 487 somehow invalid and violative of due process. Based upon our review of Mobil we do not agree with Cities contention and believe due process has been afforded. In "Mobil" the Court was faced with a rulemaking proceeding in which a rate was established. Here, no rate has been established, only filing requirements have been changed and a new test period designated.

Contrary to the assumption of Cities, (Application Page 10) there is no requirement in section-553 of the Administrative Procedure Act or in "Mobil" which requires the Commission to hold a hearing or permit cross examination or oral argument when the Commission is establishing a procedural rule of general applicability such as Order No. 487.[4] Cities claim that Order No. 487 will be detrimental to wholesale customers and that such customers have thereby been harmed is unsubstantiated and without merit. Cities also argues that the Commission is required to give the opportunity to show "the impossibility of private electric companies making accurate future estimates." (Application Page 12). Cities will have the opportunity to make such a showing in the context of a rate increase filing.

Some applicants question the reference to "El Paso Natural Gas Company v. F.P.C.,"[5] in our prior order and its applicability to this proceeding. That case was cited only for the proposition that the test period approach to rulemaking has been affirmed and that the formulation of a test period is a matter within the Commission's discretion and is not to be overturned unless it plainly contravenes the statutory scheme.

Arguments raised in the applications for rehearing not considered above raise no new issues or facts not previously considered or which warrant modification of the prior order.

*The Commission finds*

For the reasons set forth above the Applications for Rehearing by APPA, Consumers, Cities and Congressman Harrington should be denied.

*The Commission orders*

The above described Applications for Rehearing are denied.

By the Commission.

V 38-184 SEP 24 73 XUM

[Docket No. R-464]

## FILING OF NATURAL GAS TARIFF CHANGES

### Order Denying Rehearing

SEPTEMBER 14, 1973.

On August 16, 1973, El Paso Natural Gas Company (El Paso) filed a petition seeking rehearing of our Order No. 488, issued in Docket No. R-464 on July 17, 1973.

El Paso requests that the Commission renotice its requirements set out in paragraph 4 of revised Statement O. El Paso states that in Order No. 488, the Commission imposed new requirements which were not specified in the notice of proposed rulemaking and which impose an additional burden on the Company. Specifically, El Paso objects to the requirement that the digest of contractual provisions with individual producers include "estimated peak day deliverability for reserves dedicated under each contract as well as contemplated swings between sources of supply". (Order No. 488, p. 17.)

El Paso also seeks clarification of revised Statement O as regards which contracts must be reported—all contracts with a producer who supplies over 1.0 billion cubic feet (BCF) per year or only individual contracts for deliveries in excess of 1 BCF per year. Also, El Paso has expressed concern about the meaning of the term "swing", used in Order No. 488.

Finally El Paso seeks a postponement of the effective date of Order No. 488 until January 1, 1974, to allow time for the reporting companies to prepare the data and to permit action on the matters raised in its petition.

We fail to see how paragraph (4) of Statement O, as finally adopted, represents "an entirely new subject not set forth in the Commission notice of proposed rulemaking * * *" (Petition pg. 4). As El Paso correctly points out, we indicated in the notice that we were seeking a digest of contractual provisions relative to pricing, volumes (both minimum and maximum obligations) and terms. Clearly, we expressed our intent to obtain as complete a compilation as possible relative to volumes. An estimate of peak day deliverability relates anticipated operations to the contractual provisions. This gives the Commission and its staff a better understanding of the pipeline company's view of actual potential versus contractual entitlements. Obviously, it is meaningless to have contractual data which does not reflect the Company's anticipated operations as reflected in other portions of the rate increase filing.

El Paso also requests clarification of the term "swing" as used in Order No. 488. No meaningful analysis can be made of the deliverability of a pipeline company without an analysis of the flexibility afforded by individual contracts, and the shifts in takes under those contracts as reflected in the rate increase filing. Pipeline companies are required by Section 154.63 of the Regulations to file test year sales volumes and revenues under Statement G and the associated purchased gas costs under Schedule H(1)-3 of Statement H. In preparing its estimated test year sales and purchased gas cost it is necessary for the pipeline company to determine where it has the flexibility to increase takes under certain contracts and cut back on others. We recognize that contractual provisions are not always controlling since capacity limitations as well as the existence of other pipelines in the area are important considerations. What we are requiring in Statement O is an explanation of the level of takes under individual contracts during different times of the year as reflected in other portions of the filing. As regards the additional point of clarification raised by El Paso, the ordering language of R-488 presents the correct requirement as to which contracts must be reported. The requirement is that all contracts with producer suppliers who deliver in excess of 1.0 billion cubic feet annually must be reported.

Finally, El Paso requests a postponement of the effective date of our Order No. 488 to afford the affected parties a reasonable period of time to develop the new information and to permit action on the matters raised in its petition. As we have stated, we fail to see how any pipeline company preparing a rate increase filing would not have the requested information available to it. Furthermore, we note that El Paso's general rate increase filings in Docket No. RP73-104 and RP73-109 are not subject to this rulemaking since they were filed before July 17, 1973. We fail to see the justification for granting El Paso's request for an extension of the effective date.

*The Commission finds*

El Paso's Application for Rehearing raises no new issues of fact or law not already considered by us or which would warrant an amendment of Order No. 488.

*The Commission orders*

El Paso's Petition, filed on August 16, 1973, is hereby denied.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[Docket No. E-8340]

## FLORIDA POWER CORP.

### Notice of Applications

SEPTEMBER 18, 1973.

Take notice that on July 27, 1973, Florida Power Corporation (Applicant) tendered for filing, pursuant to Section 205 of the Federal Power Act and Part 35 of the Regulations issued thereunder, an interconnection agreement executed July 2, 1973, with the City of Gainesville, Florida pursuant to the Supreme Court's ruling in "Gainesville Utilities Department v. Florida Power Corporation", 402 U.S. 515 (1971). The provisions of the agreement, to take effect July 2, 1973, accord with the Commission's order issued November 5, 1968 (Opinion No. 550 in Docket No. E-7257), excepting the parties' agreement to (1) certain modifications of physical facilities, and (2) exclusion of any provision permitting recovery of annual costs of frequency regulation for Applicant's control area.

Applicant additionally files letters of commitment for limited term purchases of firm power by the Cities of Wauchula (1,500 kw for the period commencing June 25, 1973, and terminating September 30, 1974), Tallahassee (from 40,000 to 50,000 kw for the period May 1, 1975 to October 1, 1975; from 75,000 to 90,000 kw for the period April 1, 1976, to March 31, 1977; 130,000 kw for the period from the later of the commercial operation date of the New Hopkin's No. 2 Generating Unit or April 1, 1977, to March 31, 1978; and 90,000 kw for the period from April 1, 1978, to March 31, 1979), and Kissimmee and St. Cloud (10,000 kw from February 15, 1973 to May 1, 1974).

Applicant files a contract dated October 10, 1972, supplemental to Rate Schedule FPC No. 70, providing for the sale by Tampa Electric Company of 200 megawatts of firm capacity from April 1, 1973, through September 30, 1973, and December 1, 1973, through March 31, 1974, the quantity of the sale falling to 100 megawatts for the intervening period October 1, 1973, through November 30, 1973.

Also tendered for filing are:

(1) An amendment dated November 14, 1972, to Applicant's interconnection agreement with Tallahassee (Rate Schedule FPC No. 70), providing for additional facilities and establishment by negotiation of demand charge for firm service; (2) a letter of commitment dated November 14, 1972, with Tallahassee for construction of additional 230 kv facilities; and, (3) an amendment dated October 10, 1972, to Applicant's purchase contract with Tampa Electric Company (Rate Schedule FPC No. 70), extending the term thereof until April 1, 1973.

Any person wishing to be heard or to make any protests with reference to such Applications should, on or before October 12, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The Application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. E-8008]

## FLORIDA POWER & LIGHT CO.

### Notice of Extension of Time and Postponement of Prehearing Conference

SEPTEMBER 14, 1973.

On September 13, 1973, Florida Power & Light Company filed a motion for revision of procedural dates as fixed by order issued on May 31, 1973, in the above-designated matter. The motion states that counsel for intervener joins in the request and that Staff Counsel has no objection.

Upon consideration, notice is hereby given that the procedural dates are modified as follows:

Prehearing Conference, September 20, 1973, 10:00 a.m., e.d.t.
Intervenors' Testimony and Exhibits, October 1, 1973.
FP&L's Rebuttal Testimony, October, 15, 1973.
Cross-examination, October 23, 1973, 10:00 a.m., e.d.t.

KENNETH F. PLUMB,
*Secretary.*

[Project No. 1218]

## GEORGIA POWER CO.

### Notice of Issuance of Annual License

SEPTEMBER 14, 1973.

On February 26, 1970, Georgia Power Company, Licensee for Flint River Project No. 1218 located on Flint River in Dougherty and Lee Counties, Georgia, near the City of Albany, filed an application for a new license under § 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1-16.6).

The license for Project No. 1218 was issued effective January 1, 1933, for a period ending September 16, 1971. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of Licensee's application and Commission's action thereon, it is appropriate and in the public interest to issue an annual license to Georgia Power Company for continued operation and maintenance of Project No. 1218.

Take notice that an annual license is issued to Georgia Power Company (Licensee) under section 15 of the Federal Power Act for the period September 17, 1973, to September 16, 1974, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Flint River Project No. 1218, subject to the terms and conditions of its license.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. E-8306]

## GULF POWER CO.

### Notice of Application

SEPTEMBER 14, 1973.

Take notice that on June 25, 1973, Gulf Power Company (Applicant) tendered for filing pursuant to section 205 of the Federal Power Act and Part 35 of the Commission's rules, a Wholesale Electric Service Contract and original supplement thereto with Gulf Coast Electric Cooperative, dated May 30, 1973. Service under the agreement commenced July 1, 1972, with a delivery voltage of 46,000 volts and capacity of 12,000 kVA.

Any person wishing to be heard or to make any protests with reference to such Application should, on or before September 28, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The Application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. E-8153]

## ILLINOIS POWER CO.

### Order Accepting for Filing and Suspending Rates

SEPTEMBER 17, 1973.

Illinois Power Company (IP) by letter dated April 18, 1973, submitted for filing an Interconnection Agreement dated March 30, 1973, between itself and Central Illinois Light Company (CILCO). Said filing was completed on August 16, 1973. The tendered filing provides an increase in the rate for emergency energy and revises other services classifications and the rates and charges therefore.

The proposed agreement provides for IP and CILCO to each maintain reserve capacity of at least (1) 15 percent of such party's highest adjusted demand, or (2) 50 percent of the accredited capacity of such party's largest single generating source, or (3) 50 percent of such party's largest non-firm power purchase, whichever is greater. The proposed agreement incorporates Service Scheduled A through F which specify classifications of service and rates therefor as follows:

(A) Firm Power and Participation (unit) Power—to be negotiated by separate agreement.

(B) Emergency Energy—17.5 mills/kWh or 110% of out-of-pocket costs, whichever is greater.

(C) Maintenance Power—8¢/kW per day or 40¢/kW per week (less 8¢/kW per day up to 40¢/kW per week for each kW curtailed by the supplier), Maintenance Energy—110% of out-of-pocket costs; or at the option of the supplying party, maintenance power and energy may be settled for by the return of equivalent power and energy.

(D) Economy Energy—priced on a split-the-savings basis, Non-Displacemen (surplus) Energy—negotiated rate, but not less than supplier's incremental cost plus 0.5 mill/kWh.

(E) Short-Term Firm Power—10¢/kW per day or 50¢/kW per week, associated energy is billed at 110 percent of out-of-pocket costs.

(F) Short-Term Non-Firm—8¢/kW per day or 40¢/kW per week (less 8¢/kW per day up to 40¢/kW per week for each kW curtailed by the supplier); associated energy is billed at 110 percent of out-of-pocket costs.

Out-of-pocket costs are based on the costs of fuel, labor, maintenance and operation supplies (including start-up costs, if any), purchased energy, losses in transmission and transformation, including all other factors that are a part of incremental costs.

The proposed agreement contains a tax clause and provision for interest to accrue on past due amounts at a rate equal to the prime rate of Continental Illinois National Bank and Trust Company of Chicago.

As maintenance energy was billed at 110 percent of out-of-pocket costs, the added 10 percent was about .53 mill/kW with respect to the sale by CIL, while the added 10 percent was about 1.3 mills/kWh with respect to the sale by IP. In light of such difference, IP was requested to explain the cost basis of the 10 percent adder. IP responded that the 10 percent adder was designed to cover administrative costs and provide a reasonable margin of profit. IP further stated that variations in out-of-pocket costs are anticipated but that over an extended period of time, out-of-pocket costs should reflect average costs. In the case of the cited sale of maintenance energy, IP explained that forced outages of large generating units resulted in abnormally high costs.

The Commission is unable to accept as sufficient IP's support for the 10 percent adder. The Commission therefore, deems it appropriate to suspend the tendered filing for 1 day and order a hearing to determine the validity of the proposed addition of 10 percent to out-of-pocket costs as provided in the tendered rate filings.

*The Commission finds*

(1) It is necessary and proper and in the public interest for the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates of charges contained in the proposed filing in this docket, and that the tendered rates be suspended as hereinafter provided.

*The Commission orders*

(A) Pursuant to the authority of the Federal Power Act, particularly section 205(e) thereof, a public hearing shall be heard, commencing with a prehearing conference on November 1, 1973, at 10:00 a.m. in a hearing room at the Federal Power Commission, 825 North Capitol St. NE., Washington, D.C. 20426, concerning the lawfulness of the rates,

V 38 I 184 SEP 24 73 XUM

charges, classifications and services contained in the rate filings subject to this Docket.

(B) Pending hearing and a final decision in this proceeding, the proposed rate schedules in this Docket are hereby accepted for filing as of September 15, 1973, suspended and the use thereof deferred until September 16, 1973.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. RP74-11]

## KANSAS-NEBRASKA NATURAL GAS CO., INC.

### Notice of Proposed Changes in FPC Gas Tariff

SEPTEMBER 17, 1973.

Take notice that Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska), on August 31, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1.

According to Kansas-Nebraska, Original Sheet No. 24D; First Revised Sheet Nos. 8, 8B, 15B, 23, 24B, and 24C; Second Revised Sheet Nos. 15, 24A and PGA-1; Third Revised Sheet Nos. 6, 7, and 14 and Fourth Revised Sheet Nos. 5, 9, 12, and 16 FPC Gas Tariff, Second Revised Volume No. 1 have an effective date of October 16, 1973, and will supersede the tariff sheets on file with the FPC in Docket No. CP73-224.

Kansas-Nebraska states that the proposed changes would increase revenues from jurisdictional sales and service by $2,179,700 based on the 12 month period ending April 30, 1973, as adjusted. In addition, Kansas-Nebraska states that it proposes to change the definition of Billing Demand in paragraph 3.b. on Sheet No. 5, Rate Schedule CD-1 so that deliveries under this rate schedule will be limited to 80 percent of the contract demand during the months of April, May, September and October and 60 percent of the contract demand during the months of June, July and August.

According to Kansas-Nebraska it proposes to restrict the reselling of gas for boiler fuel or generation of electricity for new or additional use to any presently served customers or to any new customer. Kansas-Nebraska further states that under the proposed tariff the largest new installation which would be accepted would be one with an annual requirement of 50,000 Mcf.

Kansas-Nebraska also states that it proposes to increase its depreciation rate for its transmission system properties to a rate of 4 percent. In addition, Kansas-Nebraska states that the proposed rate of return of 9.78 percent will enable Kansas-Nebraska to earn a return of 13 percent on equity.

Any person desiring to be heard or to protest should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Commission's rules of Practice and procedure. All such petitions or protests should be filed on or before September 24, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20224 Filed 9-21-73;8:45 am]

[Docket No. CP74-58]

## MICHIGAN WISCONSIN PIPE LINE CO.

### Notice of Application

SEPTEMBER 18, 1973.

Take notice that on August 31, 1973, Michigan Wisconsin Pipeline Company (Applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP74-58 an application pursuant to sections 7(b) and 7(c) of the Natural Gas Act requesting permission and approval to abandon certain facilities by sale to Keokuk Gas Service Company (Keokuk) and for a certificate of public convenience and necessity authorizing the relocation of a delivery point for Keokuk, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it proposes to sell to Keokuk at a net depreciated cost of $201,452.25 approximately 25 miles of right-of-way, pipeline, sales meter station sites and related facilities, owned and operated by Applicant to render service to Keokuk in Lee County, Iowa. Applicant also proposes to construct a relocated delivery point facility located at approximately Mile Post 31.93 in Lee County, Iowa. The estimated cost of the proposed facility is $26,510, which will be financed by Applicant from internally generated funds.

Applicant states the abandonment by sale to Keokuk will eliminate three existing delivery points and approximately 25 miles of right-of-way pipeline and related facilities and will enable Keokuk to utilize these facilities as a part of its local distribution system with resulting operational and cost advantages to the company. Applicant further states that the construction of the relocated station will enable Applicant to continue selling the the same volumes of gas to Keokuk presently authorized under various Commission certificates of public convenience and necessity.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecesary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20246 Filed 9-21-73;8:45 am]

[Rate Schedule Nos. 3, etc.]

## MONSANTO CO., ET AL.

### Notice of Rate Change Filings

SEPTEMBER 14, 1973.

Take notice that the producers listed in the appendix attached below have filed proposed increased rates to the applicable area new gas ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972.

The information relevant to each of these sales is listed in the appendix below.

Any person desiring to be heard or to make any protest with reference to said filings should on or before September 27, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

[Docket No. E-8385]

## MONTANA-DAKOTA UTILITIES CO.

### Notice of Application

SEPTEMBER 18, 1973.

Take notice that on September 4, 1973, Montana-Dakota Utilities Co. filed an application pursuant to Section 204 of the Federal Power Act seeking an Order authorizing the Applicant to enter into a Guaranty Agreement with a bank (to be selected) acting as Trustee (the "Trustee"), guaranteeing payment of the principal, premium, if any, and interest on pollution control revenue bonds designated "County of Richland, Montana, Pollution Control Revenue Bonds (Montana-Dakota Utilities Co. Project)" (the "Bonds") to be issued by Richland County, Montana, an organized county within the State of Montana, being a body corporate and politic (the "County"), pursuant to a Trust Indenture (the "Indenture") to be entered into between the County and the Trustee. The aggregate amount of such obligations to be the subject of the Guaranty Agreement shall not exceed $4,500,000.

The Applicant proposes to enter into a Guaranty Agreement with the Trustee under the Indenture pursuant to which the Bonds of the County are to be issued to finance the construction and acquisition in the County of water and air pollution control facilities at an existing 50 megawatt electric generating station, known as the Lewis and Clark Station, presently owned by the Applicant (said air and water pollution control facilities are hereinafter referred to as the "Project"). The Project will be owned by the County and will be leased by the County to the Applicant. The term of the lease (the "Lease"), will commence with the date of issuance of the bonds and will terminate on the date of final payment of the Bonds, such lease term to be more specifically set forth in the Lease at the time of execution.

Under the Guaranty Agreement, the Applicant will unconditionally guaranty to the Trustee for the benefit of the holders from time to time of the Bonds and the interest coupons appertaining thereto (a) the full and prompt payment of the principal of and premium, if any, on each Bond when and as the same shall become due, whether at the stated maturity thereof, by acceleration, call for redemption or otherwise, and (b) the full and prompt payment of any interest on any Bond when and as the same shall become due.

The County is authorized to issue the bonds under the Industrial Development Projects Acts, being Title 11, Chapter 41, Revised Code of Montana, 1947, as amended, and the County will issue the Bonds pursuant to the Indenture. Interest payable on the Bonds will be exempt from Federal Income Tax as enacted and construed on the date of original delivery (except as provided by section 103(c)(7) of the Internal Revenue Code of 1954 as to bonds held by a substantial user of the Project or a "related user" as such term is defined in section 103(c)(6)(C) of the Code).

While the County will be the issuer of the Bonds as required for purposes of exemption of the interest on the Bonds from Federal Income taxation, the credit of the County will not be pledged to the payment of the bonds. The Bonds will be payable only from the revenues and income under the Lease, and all lease rentals will be assigned to, and deposited directly with, the Trustee. The Lease will require that the Company continue to pay rental whether or not the Project is destroyed, and the amount payable will be the amount required to pay principal, premium, if any, and interest on the Bonds and to pay from time to time the fees and expenses of the County and Trustee. Under the terms of the Lease Agreement, the County will sell, assign, transfer and convey to the Applicant at a purchase price of $1,000, payable in cash or certified check, all of its right, title and interest in the Project within 30 days from the completion date as specified in the Lease, provided however, notwithstanding the foregoing, such sale, assignment, transfer and conveyance will not operate by merger or otherwise to terminate the Lease, the lease term or the obligations, terms and conditions of the Lease.

The guaranty proposed herein is required because, under the United States Bankruptcy Act, the claim provable with respect to a lease is limited to one year's rent in the case of the bankruptcy of the Applicant and three years' rent in the event of the reorganization of the Applicant. If there is no guaranty as herein proposed, rating agencies customarily rate industrial revenue bonds to be paid out of the lease payments one grade lower than they rate senior unsecured long-term debt of the lessee.

The guaranty is to be absolute and unconditional. It will apply notwithstanding any default on the part of the County or any compromise, settlement, modification, amendment, release or termination of any or all of the obligations, convenants or agreements of the County. The guaranty is desired by the Applicant, since it will permit the Applicant to obtain the most advantageous interest rate for the Bonds with a consequent reduction in the rental to be paid by the Applicant under the Lease.

The Bonds will be sold to underwriters by the County, and a Bond Purchase Agreement relating to the Bonds will be entered into between the County and the underwriters. The Applicant will not be a party to that agreement.

The sale of the bonds will be governed by state law and will be accomplished without competitive bidding by the County. Since the guaranty by the Applicant will be given to the Trustee for the benefit of the holders of the Bonds issued by the County, the Applicant believes that competitive bidding with respect to the guaranty is not possible. The guaranty is the subject of an application for exemption from competitive bidding under § 34.2(f)(2).

Any person desiring to be heard or to make any protest with reference to said application should on or before October 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20248 Filed 9-21-73; 8:45 am]

[Docket No. E-8384]

## MONTANA-DAKOTA UTILITIES CO.

### Notice of Application

SEPTEMBER 18, 1973.

Take notice that on September 4, 1973, Montana-Dakota Utilities Co. filed an

V 38-184 SEP 24 73 XUM

application pursuant to section 204 of the Federal Power Act seeking an order authorizing the Applicant to enter into a Guaranty Agreement with a bank (to be selected) acting as Trustee (the "Trustee"), guaranteeing payment of the principal, premium, if any, and interest on pollution control revenue bonds designated "County of Morton, North Dakota, Pollution Control Revenue Bonds (Montana-Dakota Utilities Co. Project)" (the "Bonds") to be issued by Morton County, North Dakota, an organized county within the State of North Dakota, being a body corporate and politic (the "County"), pursuant to a Trust Indenture (the "Indenture") to be entered into between the County and the Trustee. The aggregate amount of such obligations to be the subject of the Guaranty Agreement shall not exceed $6,000,000.

The Applicant proposes to enter into a Guaranty Agreement with the Trustee under the Indenture pursuant to which the Bonds of the County are to be issued to finance the construction and acquisition in the County of water and air pollution control facilities at an existing 100 megawatt electric generating station, known as the Rolland M. Heskett Station, presently owned by the Applicant (said air and water pollution control facilities are hereinafter referred to as the "Project"). The Project will be owned by the County and will be leased by the County to the Applicant. The term of the lease (the "Lease"), will commence with the date of issuance of the bonds and will terminate on the date of final payment of the Bonds, such lease term to be more specifically set forth in the Lease at the time of execution.

Under the Guaranty Agreement, the Applicant will unconditionally guaranty to the Trustee for the benefit of the holders from time to time of the Bonds and the interest coupons appertaining thereto (a) the full and prompt payment of the principal of and premium, if any, on each Bond when and as the same shall become due, whether at the stated maturity thereof, by acceleration, call for redemption or otherwise, and (b) the full and prompt payment of any interest on any Bond when and as the same shall become due.

The County is authorized to issue the bonds under the Municipal Industrial Development Act of 1955, being Chapter 40–57 of the North Dakota Century Code, as amended, and the County will issue the Bonds pursuant to the Indenture. Interest payable on the Bonds will be exempt from Federal Income Tax as enacted and construed on the date of original delivery (except as provided by section 103(c)(7) of the Internal Revenue Code of 1954 as to bonds held by a substantial user of the Project or a "related user" as such term is defined in section 103(c)(6)(C) of the Code).

While the County will be the issuer of the Bonds as required for purposes of exemption of the interest on the Bonds from Federal Income taxation, the credit of the County will not be pledged to the payment of the bonds. The Bonds will be payable only from the revenues and income under the Lease, and all lease rentals will be assigned to, and deposited directly with, the Trustee. The Lease will require that the Company continue to pay rental whether or not the Project is destroyed, and the amount payable will be the amount required to pay principal, premium, if any, and interest on the Bonds and to pay from time to time the fees and expenses of the County and the Trustee. Under the terms of the Lease Agreement, the County will sell, assign, transfer and convey to the Applicant at a purchase price of $1,000, payable in cash or certified check, all of its right, title and interest in the Project within 30 days from the completion date as specified in the Lease, provided however, notwithstanding the foregoing, such sale, assignment, transfer and conveyance will not operate by merger or otherwise to terminate the Lease, the lease term or the obligations, terms and conditions of the Lease.

The guaranty proposed herein is required because, under the United States Bankruptcy Act, the Claim provable with respect to a lease is limited to one year's rent in the case of the bankruptcy of the Applicant and three years' rent in the event of the reorganization of the Applicant. If there is no guaranty as herein proposed, rating agencies customarily rate industrial revenue bonds to be paid out of the lease payments one grade lower than they rate senior unsecured long-term debt of the lessee.

The guaranty is to be absolute and unconditional. It will apply notwithstanding any default on the part of the County or any compromise, settlement, modification, amendment, release or termination of any or all of the obligations, covenants or agreements of the County. The guaranty is desired by the Applicant, since it will permit the Applicant to obtain the most advantageous interest rate for the Bonds with a consequent reduction in the rental to be paid by the Applicant under the Lease.

The Bonds will be sold to underwriters by the County, and a Bond Purchase Agreement relating to the Bonds will be entered into between the County and the underwriters. The Applicant will not be a party to that agreement.

The sale of the bonds will be governed by state law and will be accomplished without competitive bidding by the County. Since the guaranty by the Applicant will be given to the Trustee for the benefit of the holders of the Bonds issued by the County, the Applicant believes that competitive bidding with respect to the guaranty is not possible. The guaranty is the subject of an application for exemption from competitive bidding under § 34.2(f)(2).

Any person desiring to be heard or to make any protest with reference to said application should on or before October 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20249 Filed 9-21-73;8:45 am]

[Docket Nos. G-16026 etc.]

## NATURAL GAS PIPELINE COMPANY OF AMERICA

### Order Granting Motion and Adopting Settlement Agreement Relative to Consolidated Effective Tax Rate Issue

SEPTEMBER 17, 1973.

On June 27, 1973, Natural Gas Pipeline Company of America (Natural) filed a motion renewing a motion made on April 3, 1972, for Commission approval of a settlement agreement in the above dockets. The proposed settlement concerns the consolidated effective tax rate issue raised in the above dockets.

These proceedings arose from a petition filed by Natural on May 19, 1970, in these dockets, requesting an order finding and declaring that Natural had no liability under "the consolidated effective tax rate" conditions in settlement agreements previously approved by this Commission in these dockets. Natural also asked approval of the use of that interpretation of the consolidated effective tax rate issue in any future rate proceedings it might be involved in before the Commission.

The settlement agreement provides that Natural would not have a refund obligation under these dockets relative to the consolidated effective tax rate conditions existing therein; further, such conditions were to be terminated by the agreement. Additionally, if Peoples Gas (parent of Natural), through its own operations or those of any company other than Natural in which Peoples Gas owns 50 percent or more of the stock, shall suffer tax losses, even to the extent of creating a "loss company" within the system, such result will not and may not be used to reduce the rates of Natural below the level they otherwise would be.

Notice of this motion renewing the April 3, 1972, motion was issued on July 6, 1973, providing for all comments to be filed by July 16, 1973. No comments have been received.

The provisions of this settlement are consistent with our decision in "Florida Gas Transmission Company," Opinion Nos. 611 and 611–A (issued February 16, 1972, and January 19, 1973, respectively). In that decision, we stated:

> • • • In our opinion a utility should be regarded on the basis of its being an independent entity; that is, a utility should be considered as nearly as possible on its own merits and not on those of its affiliates. (47 FPC 363).

Our reasoning was that reducing the rate of a regulated pipeline because of exploration and development by an affiliated company would discourage the very enterprise which, in this time of limited natural gas supplies, we wish to encourage; therefore, the tax losses sustained by an affiliate should not be used to reduce the tax allowance of another affiliate.

*The Commission finds*

The settlement of the consolidated effective tax rate issues as contained in the agreement submitted on April 3, 1972, and renewed on June 27, 1973, is reasonable, proper, and in the public interest. The agreement carries out the provisions of the Natural Gas Act and should be approved.

*The Commission orders*

(A) The settlement agreement, hereby incorporated by reference, is approved: *Provided, however,* That such approval is without prejudice to any findings or orders which may be made by the Commission in any proceeding hereinafter instituted by or against Natural or any other person or party.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[Docket No. E-8378]

## NORTHERN INDIANA PUBLIC SERVICE CO.

### Notice of Supplement to Service Agreement

SEPTEMBER 18, 1973.

Take notice that on August 30, 1973, Northern Indiana Public Service Company (Northern) tendered for filing Exhibit B–9, Supplement to Service Agreement, between Northern and Kankakee Valley Rural Electric Membership Corporation, covering supply of electric energy for resale at the Four Seasons Delivery Point located in Porter Township, Porter County, Indiana.

Northern states that the supplement provides for service to be furnisehd under Rate VA11 of Northern's FPC Electric Service Tariff—First Revised Volume No. 1.

According to Northern the map appearing in the tariff is being revised to show all delivery points for which contracts have been filed with the Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and proecedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 2, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken ,but will not serve to make protestants parties to teh proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20231 Filed 9-21-73;8:45 am]

## PANHANDLE EASTERN PIPE LINE CO.

### Notice of Proposed Tariff Changes

SEPTEMBER 19, 1973.

Take notice that on August 28, 1973, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing the following tariff sheets to its FPC Gas Tariff, Original Volume No. 2:

Ninth Revised Sheet No. 1.
Original Sheet Nos. 205 through 231.

The tariff sheets are being filed in order to effectuate the Transportation and Sale, and Exchange Agreement between Panhandle and Colorado Interstate Gas Company as authorized by the Federal Power Commission's orders issued March 30, 1973, and July 19, 1973, in Docket Nos. CP72–181 and CP73–44. Panhandle proposes that the tariff sheets be made effective October 1, 1973.

Copies of the filing were served upon Colorado Interstate Gas Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 24, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20227 Filed 9-21-73;8:45 am]

[Docket No. RP73-92]

## RATON NATURAL GAS CO.

### Notice of Proposed Filing Pursuant to Purchased Gas Adjustment Clause

SEPTEMBER 14, 1973.

Take notice that on August 16, 1973, Raton Natural Gas Company (Raton) submitted for filing as a part of its FPC Gas Tariff, Original Volume No. 1, the following revised Tariff Sheets, to become effective October 1, 1973:

Second Revised Sheet No. 3a.
First Revised Sheet No. 20b.

Raton states that the filing of Second Revised Sheet No. 3a is submitted only for the purpose of effecting a change in Raton's rates to compensate Raton for the increase in charges for gas purchased from Colorado Interstate Company (CIG) in the amount of 2.39¢ per Mcf, which CIG proposes to make effective October 1, 1973, and to pass through a reduction in charges by CIG as the result of the settlement in Docket No. RP72–113, approved by Commission order issued July 5, 1973.

Raton states that the filing reflects an increase in demand charge of 4.0¢ per Mcf, an increase in commodity charge of 1.93¢ per Mcf and a reduction in the surcharge to recover Deferred Gas Purchase Costs from 10.56¢ to 2.55¢ for the succeeding six months from effective date.

Raton says that the filing of First Revised Sheet No. 20b is for inclusion of Paragraph 18.10 providing for flow-through of jurisdictional refunds in compliance with Commission order in Docket No. RP73–92.

On September 6, 1973, Raton filed another letter with the Commission. Raton states that since the filing of August 16, 1973, it has been brought to Raton's attention that certain of the figures set forth on said proposed Second Revised Sheet No. 3a and the accompanying Exhibit A do not correctly reflect the rates and charges which Raton should charge to include CIG filing of PGA and in Docket No. RP73–93 which become effective October 1, 1973. Accordingly, Raton submitted a substitute Second Revised Sheet No. 3a and a substitute Exhibit A in substitution for the same instruments filed on August 16, 1973, and requests the Commission to accept this filing as though filed on August 16, 1973. In the alternative, Raton requests the Commission to waive the 45-day notice requirement of Section 18.2 of Raton's tariff in order that the changes proposed may become effective as of October 1, 1973.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 25, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

## ROBERT DAVIS WEIMER

### Notice of Application

SEPTEMBER 18, 1973.

Take notice that on August 27, 1973, Robert Davis Weimer (Applicant), filed a supplemental application pursuant to section 305(b) of the Federal Power Act, seeking authority to hold the position of President of Delmarva Power & Light Company.

By Commission order dated July 12, 1971, Applicant was authorized to hold the positions of Executive Vice-President and Director of Delmarva Power & Light Company, Director of Delmarva Power & Light Company of Maryland, and Director of Delmarva Power & Light Company of Virginia, Delmarva Power & Light Company of Maryland and Delmarva Power & Light Company of Virginia are a part of the public utility holding company system of Delmarva Power & Light Company. Delmarva Power & Light Company owns the total outstanding long-term debt and common stock of Delmarva Power & Light Company of Maryland and Delmarva Power & Light Company of Virginia.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 28, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene in accordance with the requirements of the Commission's rules of practice and procedures (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. CI74–166]

## SIGNAL OIL AND GAS CO.

### Notice of Application

SEPTEMBER 18, 1973.

Take notice that on September 4, 1973, Signal Oil and Gas Company (Applicant), P.O. Box 94193, Houston, Texas 77018, filed in Docket No. CI74–166 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Company at its Aline Plant, Alfalfa County, Oklahoma, from production in Alfalfa and Major Counties, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced a sale of natural gas on August 24, 1973, within the contemplation of Section 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for two years from the end of the sixty-day emergency period. Applicant proposes to sell approximately 18,000 Mcf of gas per month at 50.0 cents per Mcf at 14.65 p.s.i.a., subject to upward and downward Btu adjustment, but states that it will accept a certificate conditioned to 45.0 cents per Mcf, subject to Btu adjustment, which reserving its right to file for its full contractual entitlement.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before October 4, 1973 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

## SOUTHERN NATURAL GAS CO.

### Notice of Proposed Changes in FPC Gas Tariff

SEPTEMBER 19, 1973.

Take notice that Southern Natural Gas Company (Southern) on August 28, 1973, tendered for filing Rate Schedule X–23 containing original tariff sheets to its FPC Gas Tariff, Original Volume No. 2 to become effective thirty (30) days after filing. Southern states that the Rate Schedule X–23 tariff sheets contain an agreement dated January 29, 1973, for the exchange of natural gas between Southern and Michigan Wisconsin Pipe Line Company (Michigan Wisconsin).

Southern states that this filing is being made pursuant to Commission order dated July 11, 1973, issuing certificates of public convenience and necessity in Docket No. CP73–290 authorizing Southern and Michigan Wisconsin to exchange and transport natural gas in interstate commerce.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 24, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing have been mailed to Michigan Wisconsin and are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. CP74–60]

## TENNESSEE GAS PIPELINE CO. AND TENNECO INC.

### Notice of Application

SEPTEMBER 10, 1973.

Take notice that on August 31, 1973, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP74–60 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas in interstate commerce for The Greenwich Gas Company (Greenwich), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport up to 4,000 Mcf of natural gas per day for Greenwich until October 31, 1974. Applicant states that to enable Greenwich to meet its peak shaving requirements, Greenwich has arranged to purchase 100,000 Mcf of vaporous gas equivalent of liquefied natural gas (LNG) from The Southern Connecticut Gas Company (Southern Connecticut). Southern Connecticut will vaporize the LNG and make equivalent volumes available to Applicant for transportation to Greenwich by reducing Southern Connecticut's takes from Applicant. Applicant proposes to collect a transportation charge comprised of a demand charge of 29.41 cents per Mcf per month plus a volume charge of 4.90 cents per Mcf. Applicant states that the proposed service would be rendered by means of existing facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20253 Filed 9-21-73;8:45 am]

[Docket No. RP72–64]

## TEXAS GAS TRANSMISSION CORP.

### Notice of Proposed Change in FPC Gas Tariff

SEPTEMBER 14, 1973.

Take notice that on August 29, 1973, Texas Gas Transmission Corporation (Texas Gas) tendered for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Substitute First Revised Sheet No. 91. Texas Gas requests that the filing be made effective as of the date of Commission approval of the requested substitution.

Texas Gas states that the sole purpose of this filing is to include in Category No. 2 of the curtailment priorities set in Texas Gas' filing of May 17, 1973, firm industrial sales up to 300 Mcf per day as authorized in Opinion No. 647–A, "United Gas Pipe Line Company", Docket Nos. RP71–29, et al., issued May 30, 1973.

Copies of the filing have been served upon Texas Gas' customers and interested State commissions.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the requirements of §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 24, 1973. All protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to patricipate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Persons that have previously filed a notice or petition for intervention in this proceeding need not file additional notices or petitions to become parties with respect to the instant filing. This filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20254 Filed 9-21-73;8:45 am]

[Docket No. CP72–93]

## TEXAS EASTERN TRANSMISSION CORP.

### Order Granting Withdrawal of Application

SEPTEMBER 17, 1973.

On February 6, 1973, Texas Eastern Transmission Corporation (Texas Eastern) filed in Docket No. CP72–93 a notice of withdrawal of its application in that docket. Texas Eastern filed an application on October 4, 1971, requesting authorization pursuant to section 3 of the Natural Gas Act for the importation of approximately 12 trillion Btu of liquefied natural gas (LNG) from Libya. The LNG was to be imported in 12 cargo lots of approximately one trillion Btu each. By order issued February 15, 1972, the Commission authorized the importation of two shiploads of LNG, and scheduled hearing on the remaining ten shiploads. The formal hearing was held on March 14, 1972. On May 2, 1972, the Administrative Law Judge issued his Initial Decision, authorizing the importation of the remaining ten shiploads, subject to certain conditions. Texas Eastern's notice of withdrawal was filed while the proceeding was pending decision by the Commission.

Upon consideration, the Commission finds that good cause exists for permitting withdrawal, pursuant to Section 1.11(d) of the Commission's Rules of Practice and Procedure, of Texas Eastern's application filed in the above-entitled docket.

*The Commission orders*

Permission is hereby granted for the withdrawal of the application filed October 4, 1971, by Texas Eastern Transmission Corporation.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20255 Filed 9-21-73;8:45 am]

[Docket No. CI74–170]

## TOMLINSON DRILLING PROGRAM

### Notice of Application

SEPTEMBER 18, 1973.

Take notice that on September 10, 1973, Tomlinson Drilling Program—1972—A Limited Partnership, et al. (Applicants), c/o Tomlinson Oil Co., Inc., Suite 1030, 200 West Douglas, Wichita, Kansas 67202, filed in Docket No. CI74–170 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Northern Natural Gas Company from the North Balko Area, Beaver County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants propose to sell approximately 15,000 Mcf of gas per month for one year at 45.0 cents per Mcf at 14.65 p.s.i.a., subject to upward and downward Btu adjustment within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before October 4, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required,

V 38-184 SEP 24 73 XUM

further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20233 Filed 9-21-73;8:45 am]

[Docket Nos. CP67-26 etc.]

## UNITED GAS PIPE LINE CO. ET AL.

### Findings and Order After Statutory Hearing Granting Abandonment, Fixing Date for Hearing, Establishing Procedures, Granting Interventions and Terminating Proceedings

SEPTEMBER 17, 1973.

United Gas Pipe Line Company (United) and Texas Eastern Transmission Corporation (Texas Eastern) filed a joint application on November 27, 1972, pursuant to section 7(c) of the Natural Gas Act (Act) for an amendment to the certificate of public convenience and necessity issued by the Commission on September 23, 1966, in Docket No. CP67-26 at 36 FPC 670.[1]

The Commisison in the aforementioned certificate authorized United and Texas Eastern to exchange natural gas and to establish specific delivery points for this purpose. These joint Applicants presently request authorization to operate two additional delivery points. It is unclear from their application to amend whether they request permission to make additional exchanges in a quantitative sense or whether they seek permission solely to operate two new exchange delivery points in order to make exchanges of natural gas previously authorized by the Commission. In their proposed amendment, applicants seek to establish the following two new delivery points:

(1) At the outlet side of United's existing measuring station located at the point of interconnection of the lines of Texas Eastern and United near Kosciusko in Attala County, Mississippi.[2]

(2) At the tailgate of Gulf Oil Corporation's Venice Gasoline Plant near Venice in Plaquemines Parish, Louisiana.

The proposed additional exchange points sought by the joint applicants in their application to amend the certificate issued in Docket No. CP67-27 are considerably distant from a geographic point of view. The Venice exchange point is located in southern Louisiana close to where the Mississippi flows into the Gulf of Mexico and the other proposed exchange point is close to that terminus on United's system situated near Kosciusko in the Attala County Mississippi.

[1] The Commission by order issued on July 22, 1969, amended the aforementioned certificate by authorizing the joint applicants to construct and operate two additional delivery points for the exchange of natural gas (42 FPC 157).

[2] United is presently delivering gas to Texas Eastern at this point pursuant to the terms of a service agreement between the latter two companies.

The following petitioners have filed petitions to intervene in the proceeding relating to the joint application filed in Docket No. CP67-26:

| Applicant: | *Date of filing* |
|---|---|
| Shell Oil Co. | Dec. 18, 1972 |
| Texaco Inc. | Dec. 26, 1972 |
| Exxon Corp. | Dec. 26, 1972 |
| State of Louisiana, Louisiana Public Service Commission and Louisiana Municipal Gas Association | Dec. 26, 1972 |
| New Orleans Public Service Inc. and the City of New Orleans | Dec. 27, 1972 |
| Louisiana Gas Service Co. | Jan. 2, 1973 |
| Louisiana Power & Light Co. | Jan. 2, 1973 |

The aforementioned petitioners generally contend that the joint applicants did not allege certain definitive facts in their application upon which a full evaluation of the proposal could be made. They raise questions relating to the benefit and impact that the proposed exchanges will have upon the respective markets and operations of the joint-applicants. Certain interveners stress that the joint-application does not specify the volumes of gas contemplated under this exchange and that it also fails to reveal the source, nature and status of those volumes to be delivered from the tailgate of the Gulf Oil Corporation's Venice Gasoline Plant near Venice in Plaquemines Parish, Louisiana.

The questions raised by petitioners present issues that require an evidentiary record to resolve. We shall order a hearing to be held on the issues presented in the joint application for amendment filed in Docket No. CP67-26.

On November 27, 1972, United filed an application in Docket No. CP73-142 requesting that the Commission issue an order pursuant to section 7(b) of the Act permitting it to abandon the natural gas transportation service under which it transports certain volumes of gas belonging to Mid-Louisiana Gas Company (Mid-Louisiana) from the Hester Storage Field in St. James Parish, Louisiana, to points of interconnection with Mid-Louisiana's facilities in East Baton Rouge Parish, Louisiana.[3]

United seeks to abandon only that service that specifically relates to its transportation of Hester Field volumes for Mid-Louisiana and desires to maintain the points of receipt and delivery of the transport gas as exchange points under the provisions of an existing exchange agreement between the latter two companies.

In support of its application in Docket No. CP73-142, United contends that the uncertificated reserves attached to its system in the New Orleans Area are declining so rapidly that it can only render adequate service to that area by changing the flow patterns on its system to enable it to divert gas from its Napoleonville-Kosciusko line. United further alleges that the approval of its application will not affect the volumes which need to be diverted from its Napoleonville-Kosciusko line, but will only affect the percentages of gas diverted therefrom that will flow toward New Orleans and Baton Rouge. It therefore contends that the approval of this application will not have an adverse affect on its customers.

On January 2, 1973, Mid-Louisiana filed a petition to intervene in opposition to the abandonment proceeding in Docket No. CP73-142, alleging that it would be aggrieved by the grant of United's application through the loss of a means of transporting its Hester Storage Field gas to its Baton Rouge market.

Subsequently, on January 22, 1973, Mid-Louisiana filed a motion to withdraw its intervention alleging that it no longer had any objection to the Commission's approval of the abandonment since it had made other suitable arrangements to transport its gas, which arrangements have been certificated by order issued January 12, 1973, in Transcontinental Gas Pipe Line Corporation, Docket No. CP73-52.

The following petitioners have filed timely petitions to intervene in the proceeding in Docket No. CP73-142 in which United seeks to abandon the above-described transportation service for Mid-Louisiana:

| *Applicants* | *Date of filing* |
|---|---|
| Shell Oil Co. | Dec. 18, 1972 |
| Laclede Gas Co. | Dec. 27, 1972 |
| The Exxon Corp. | Jan. 2, 1973 |
| State of Louisiana, Louisiana Public Service Commission and Louisiana Municipal Association. | Jan. 2, 1973 |
| Louisiana Gas Service Co. | Jan. 2, 1973 |
| Louisiana Power and Light Co. | Jan. 2, 1973 |

In those petitions to intervene, petitioners generally contend that approval of United's application in Docket No. CP73-142 will permit United to change the flow patterns of gas on its system in such a manner that will be to the detriment of all who oppose the proposition that United's "Green System—east" is jurisdictional under the Act and that the Commission should issue a certificate for the operation of these facilities. They urge that the patterns of flow on United's system will be the crucial factor in determining the jurisdictional status of United's "Green System—east."[4]

[3] The Commission authorized the aforementioned transportation service by order issued on November 15, 1971, in United Gas Pipe Line Company, in Docket No. CP72-42, 46 FPC 1215. This service commenced on January 3, 1972, under United's Rate Schedule X-44 of its FPC Gas Tariff, Original Volume No. 2.

[4] These petitioners also contend that the approval of United's abandonment application in Docket No. CP73-142 and its request in Docket No. CP73-143 to operate a presently existing, though closed, valve at its Marchand Junction (connection point between United's jurisdictional Napoleon-Kosciusko line and its New Orleans-Baton Rouge line) will enable United to divert additional interstate gas into its intrastate system.

[5] See Louisiana Power and Light Company, et al. v. Federal Power Commission, case Nos. 72-1714, et al. (5th Cir.), issued on June 28, 1973, — F. 2d —.

The United States Court of Appeal for the 5th Circuit has recently handed down its decision sustaining the Commission's decision in Opinion Nos. 610 and 610-A that United's "Green System" is jurisdictional.[5] Accordingly, there is no basis for delaying our decision on the question of abandonment insofar as it relates to the jurisdictional issue sought to be preserved by these petitions.

The above-noted petitions to intervene in Docket CP73-142 were filed well before June 28, 1973, the date on which the Court handed down its decision in the "Louisiana Power" case, supra. The main basis of possible aggrievement cited in these petitions was predicated upon the hypothesis that any change in the existing flow patterns on United's system might affect the outcome of certain matters pending before the Court and this Commission relating to the jurisdiction and certification of specific portions of United's system. Upon the basis of the evidentiary record in Docket No. CP71-89, the Court found that United's facilities and the services it renders in these areas to be jurisdictional. Shortly after the Court handed down the aforementioned decision, the Commission issued a conditional certificate of public convenience and necessity permitting United to operate its facilities and provide certain services, previously uncertificated, in its New Orleans and Victoria Divisions.[6] Hence, the course of events subsequent to the filing of the aforementioned petitions have resolved these pending issues and mooted much of the basis for opposition to the grant of the abandonment.

Laclede Gas Company (Laclede) filed a petition to intervene in Docket No. CP73-142 predicated upon a different hypothesis from that noted above. In its petition, Laclede contends that the abandonment sought by United in the aforementioned docket is closely related to United's filing in Docket No. CP73-143. It argues that United in the aforementioned dockets is seeking authority to divert interstate gas to a specific portion of its intrastate market when it is curtailing up to thirty percent of its contract obligation to its pipeline customers. However, the Commission in Opinion No. 610 provided for United to deliver interstate gas into various parts of its uncertificated system on an emergency basis (47 FPC at 267-268). In Opinion No. 661, supra, we granted United the certificate it requested subject to several conditions. In so doing we reiterated our position that it was to operate its system on an integrated basis and that there was to be no disparity in the service rendered anywhere on its pipeline. (See Opinion No. 661, mimeo pp. 4-5.) There no longer is any purpose to isolating such parts of United's system from each other because of jurisdictional distinctions.

[6] See Commission Opinion No. 661 issued on July 20, 1973, in United Gas Pipe Line Company, Docket No. CP71-89.

Our Opinions Nos. 610 and 661, supra, are dispositive of the manner in which United will be required to render service to its customers. Hence, United can no longer be viewed as having an interstate and intrastate market. Laclede certainly has presented no predicate upon which it can be assumed that United, contrary to the directives of this Commission, will provide its formerly intrastate customers with more than their proper entitlements as determined by the Commission.

The petitions do not raise any issue of substance in the light of the subsequent decisions rendered by the Courts and this Commission. Thus formal hearing in order to re-argue the same issues that have finally been adjudicated will serve no useful purpose. The Commission has, therefore, on its own motion received and made part of the record in this proceeding all evidence, including the application and exhibits thereto, submitted in support of the authorization sought herein at a hearing held on September 12, 1973, and in consideration of this record will grant the abandonment sought by United herein.

United filed its application in Docket No. CP73-143 on November 27, 1972, seeking authorization, as previously noted pursuant to section 7(c) of the Act to divert natural gas from its certificated Napoleonville-Kosciusko line to its then uncertificated New Orleans-Baton Rouge line by opening an existing, though closed, valve between these facilities. However, the aforementioned Opinions are dispositive of United's application in Docket No. CP73-143. In those Opinions, the Commission determined that United's facilities in its New Orleans Division are jurisdictional and issued a certificate to operate those facilities with the other sections of United's pipeline on an integrated basis. Accordingly, we will terminate the proceeding initiated by the filing of United in Docket No. CP73-143.

*The Commission finds*

(1) The public convenience and necessity requires that the proceeding entitled "United Gas Pipe Line Company" in Docket No. CP67-26 be set for formal hearing.

(2) The intervention of the above-named petitioners who filed petitions to intervene in Docket No. CP67-26 may be in the public interest.

(3) The public convenience and necessity requires that the proceeding entitled "United Gas Pipe Line Company" in Docket No. CP73-143 should be terminated.

(4) The public convenience and necessity requires that the abandonment of service sought in the proceeding entitled "United Gas Pipe Line Company" in Docket No. CP73-142 should be granted.

(5) The intervention of the above-named petitioners who filed petitions to intervene in Docket No. CP73-142 may be in the public interest.

*The Commission orders*

(A) A hearing will be convened on October 17, 1973, in the proceeding entitled "United Gas Pipe Line Company" in Docket No. CP67-26 in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 at 10:00 a.m. (EDT). The Chief Administrative Law Judge will designate an appropriate Administrative Law Judge of the Commission to preside at this hearing pursuant to the Commission's Rules of Practice and Procedure.

(B) United Gas Pipe Line Company and all parties in support of its application, will serve their direct case on all parties to the proceeding, including Commission Staff, on or before October 5, 1973.

(C) The above-named petitioners seeking permission to intervene in the proceedings entitled "United Gas Pipe Line Company" in Docket Nos. CP67-26 and CP73-142 are hereby permitted to intervene in these proceedings, as indicated above, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting rights and interests specifically set forth in their petitions to intervene: *And provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that such interveners might be aggrieved, because of any order or orders issued by the Commission in these proceedings.

(D) The abandonment sought in the proceeding entitled "United Gas Pipe Line Company" in Docket No. CP73-142 is granted.

(E) The proceeding entitled United Gas Pipe Line Company in Docket No. CP73-143 is terminated.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[Docket No. E-8393]

## DEPARTMENT OF THE INTERIOR, ET AL.

### Notice for Recommendation for Approval of Rates and Charges

SEPTEMBER 14, 1973.

Notice is hereby given that the Secretary of the Interior (Secretary), acting on behalf of the Alaska Power Administration (APA), filed with the Federal Power Commission on September 10, 1973, a recommendation in Docket No. E-8393 for confirmation and approval of Rate Schedule SN-F1 for wholesale firm electric power service from the Snettisham Project (Project). The Secretary recommends approval of the proposed rate schedule for the 5-year period beginning with the date of issuance of the Commission's order granting such approval.

V 38-184
SEP 24 73
XUM

The Project is a hydroelectric development located near Juneau, Alaska. It is being constructed by the Corps of Engineers of the U.S. Army under the provisions of section 204 of the Flood Control Act of 1962 (Pub. L. 87-874, approved October 23, 1962, 76 Stat. 1173, 1193), which also provides for the Secretary to operate and maintain the Project as well as to sell the electric power and energy generated at the Project. The Secretary has delegated his functions to APA. The first stage of the Project, known as Long Lake, is scheduled for completion by October 1, 1973. It is anticipated that the second stage, known as Crater Lake, will be completed in fiscal year 1978.

The proposed rate schedule provides for a straight energy charge of 15.6 mills per kilowatt-hour for all energy sold thereunder and makes no provision for a capacity charge. It is available in the area served by the Project to wholesale firm power customers for general power service.

In support of the proposed rate schedule, the Secretary submitted to the Commission the repayment study prepared by APA for the purpose of showing that such rate schedule will produce revenues sufficient to assure repayment of the Project's costs associated with electric power within 54 years of the commencement of commercial operation of the Long Lake stage and within 50 years of the commencement of commercial operation of the Crater Lake stage.

Proposed Rate Schedule SN-F1, together with the repayment study in support thereof, is on file with the Commission and available for public inspection. Any person desiring to make comments or suggestions for the Commission's consideration with respect to said rate schedule sohuld submit the same in writing on or before October 1, 1973, to the Federal Power Commission, Washington, D.C. 20426.

KENNETH F. PLUMB,
*Secretary.*

[Project No. 1979]

## WISCONSIN PUBLIC SERVICE COMMISSION

### Notice of Application for Approval of Conveyance of Interest in Project Lands

SEPTEMBER 17, 1973.

Public notice is hereby given that application was filed September 5, 1972, under the Federal Power Act (16 USC 791a-825r) by the Wisconsin Public Service Corporation (Correspondence to: Mr. D. A. Bollom, Controller, Wisconsin Public Service Corporation, P.O. Box 700, Green Bay, Wisconsin 54305) for approval of conveyance of an interest in project lands for constructed Project No. 1979, known as the Alexander Project, located on the Wisconsin River in Lincoln County, Wisconsin near the City of Merrill.

Wisconsin Public Service Corporation seeks Commission approval to lease approximately 0.40 acre of project land to the Wisconsin Department of Natural Resources for use as a parking lot adjacent to Council Grounds State Park. The proposed parking lot would be located within the project's transmission line right-of-way near a water recreation area.

Any person desiring to be heard or to make protest with reference to said application should on or before October 29, 1973, file with the Federal Power Commission, Washington, D.C., 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[Docket Nos. RI73-198, etc.]

## RATE CHANGES

### Order Providing for Hearing and Suspension

SEPTEMBER 14, 1973.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

*The Commission finds*

It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

*The Commission orders*

(A) Under the Natural Gas Act, particularly sections 4 and 15, the Regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

* Unless otherwise stated, the pressure base is 14.65 psia.
[1] Rate decrease filed pursuant to Ordering Paragraph (E) of Opinion No. 662.
[2] Reflects treating charge deduction.
[3] Subject to quality adjustments pursuant to Opinion No. 662.
[4] The proposed rate is accepted as of the date shown in the "Effective Date Unless Suspended" column, the date of issuance of Opinion No. 662. The proposed rate accepted herein shall not exceed the applicable area rate as adjusted for quality, and gathering allowance if applicable, pursuant to Opinion No. 662.
[5] Includes 1.5¢ gathering allowance.

Mobile is currently collecting increased rates subject to refund which are in excess of the just and reasonable rates established in Opinion No. 662 (Permian II). Mobil has filed herein decreased rates down to the levels prescribed in that opinion, and concurrently has filed rate increases back up to its current rate levels. The proposed decreases are accepted as of August 7, 1973, the effective date of Opinion No. 662. Mobil's proposed rate increases are suspended in the same suspension proceedings applicable to its currently effective rates for one day from the date of filing with waiver of the 30 day notice period granted.

## NATIONAL POWER SURVEY; EXECUTIVE ADVISORY COMMITTEE

### Agenda for Meeting

Agenda for a meeting of the Executive Advisory Committee, to be held at the Federal Power Commission Offices, 825 North Capitol Street NE., Washington, D.C., October 4, 1973, at 9:30 a.m., in Hearing Room A.

1. Call to order and opening remarks by FPC Chairman John N. Nassikas.
2. Objectives and purposes of meeting.
A. Comments by EAC Chairman Shearon Harris.
B. Status of Technical Advisory Committee Report Preparation and Plans for Distribution—Mr. D. G. Lewis, National Power Survey Director.
C. Report from Technical Advisory Committee on Finance: Development of Future Financial Requirements Model—Mr. Gordon R. Corey.
D. Other Business.
3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20236 Filed 9-21-73;8:45 am]

## NATIONAL POWER SURVEY; COORDINATING COMMITTEE

### Agenda for Meeting

Agenda for a meeting of the Coordinating Committee, to be held at the Federal Power Commission Offices, 825 North Capitol Street NE., Washington, D.C., October 3, 1973, 1:30 p.m., Room 5200.

1. Call to order by FPC Coordinating Representative.
2. Objectives and purposes of meeting.
A. Introductory Remarks—Mr. Shearon Harris.
B. Review of Status of Technical Advisory Committee Report Preparation.
C. Plans for Executive Advisory Committee Review of TAC Reports.
D. Other Business.
3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
*Secretary.*

## NATIONAL POWER SURVEY; TECHNICAL ADVISORY COMMITTEE ON CONSERVATION OF ENERGY, TASK FORCE ON PRACTICES AND STANDARDS

### Agenda for Meeting

Agenda for Technical Advisory Committee on Conservation of Energy Task Force on Practices and Standards, to be held at the Federal Power Commission Offices, 825 North Capitol Street NE., Washington, D.C., September 26, 1973, in Room 6200 at 9:30 a.m.

1. Meeting called to order by FPC Staff Representative.
2. Objectives and purposes of the meeting.
A. Introductory remarks by Chairman Charles A. Berg.
B. Review of revised Chapter VI—Draft Report on Electricity Pricing and Rate Structures.
3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the Committee—which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the Committee.

KENNETH F. PLUMB,
*Secretary.*

## INTERSTATE COMMERCE COMMISSION

[Notice 347]

### ASSIGNMENT OF HEARINGS

SEPTEMBER 19, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC-5227 Sub 6, Economy Movers, Inc., and MC-114211 Sub 189, Warren Transport, Inc., now assigned September 28, 1973 at Omaha, Nebr., is postponed indefinitely.

MC-F-11613, Brown Transport Corp—Control—Harper Motor Lines, Inc., Finance Docket No. 27338, Harper Motor Lines, Inc., Notes, now assigned September 24, 1973, at Atlanta, Ga., is postponed to October 29, 1973, at Atlanta, Ga., same time and place.

MC-C-7901, North American Van Lines, Inc.,—Investigation and Revocation of Certificates, now assigned October 1, 1973, hearing will be held in the Auxiliary Court Room, 2nd Floor, Federal Bldg., 1300 S. Harrison Street, Fort Wayne, Ind.

MC-C-7924, Overland Motor Express, Inc., D.B.A. Boulder-Denver Truck Line, et al. -V-Englewood Transit Company, now assigned October 5, 1973, will be held in Room 1430 Federal Bldg., 1961 Stout Street, Denver, Colo.

MC-F-11840, Consolidated Freightways Corporation of Del.—Purchase—Harris Motor Express, Inc., now assigned October 3, 1973, at Washington, D.C., is cancelled and transferred to modified procedure.

## U.S. Board of Parole

■

## PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS, AND JUVENILE DELINQUENTS

Revision of Organization, Operation and Procedures

V 38-184 SEP 24 73 XUM

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

PART 2—PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS, AND JUVENILE DELINQUENTS

Organization, Operation and Procedures

The following rules reflect the revised organization, operation, and procedures of the United States Board of Parole, and are published under the authority of 28 CFR, Part O, Subpart V, and 18 U.S.C. §§ 4201–4210, 5001–5037.

The Board of Parole expressly disclaims that its rules are subject to the rule making provisions of the Administrative Procedure Act, 5 U.S.C. § 553(b) and does not acquiesce in the Order of the United States District Court for the District of Columbia, dated July 25, 1973, in Richard Pickus, et al. v. U.S. Board of Parole, Civil Action 112–73, from which Order the Board of Parole has filed an appeal to the United States Court of Appeals for the District of Columbia Circuit.

These rules will become effective in the Board's Northeast Region (Region I) on October 1, 1973, and will apply to all subsequent parole and parole revocation hearings conducted in that region. Region I is comprised of the following states: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, and the District of Columbia. Federal prisoners outside of the Northeast Region will be considered for parole and parole revocation under the Board's present rules until such time as the revised procedures are made applicable to other regions as these regions become operational.

Part 2 of 28 CFR is revised to read as follows:

Sec.

2.1 Definitions.
2.2 Granting of parole.
2.3 Eligibility for parole.
2.4 Same; indeterminate sentence.
2.5 Same; juvenile delinquents.
2.6 Same; committed youth offenders.
2.7 Youth offenders; observation and study.
2.8 Date service of sentence commences.
2.9 Parole of prisoners subject to local detainer.
2.10 Parole of prisoner subject to deportation.
2.11 Application by prisoner.
2.12 Withheld and forfeited good time.
2.13 Delegation to hearing examiners.
2.14 Reports considered.
2.15 Initial hearing.
2.16 Communication with the Board.
2.17 Review hearings.
2.18 Hearing procedure.
2.19 Parole of prisoner in state or territorial institutions.
2.20 Appeal of hearing panel decision.
2.21 Appeal to National Appellate Board.
2.22 Original jurisdiction cases.
2.23 Appeal of original jurisdiction decisions.
2.24 Consideration by the Board.
2.25 Release plans.
2.26 Release; discretionary power of Board.
2.27 Reopening of cases.
2.28 Petition for consideration of parole prior to date set at hearing.
2.29 Community supervision by United States Probation Officers.
2.30 Same; sponsorship of parolees.
2.31 Same; changes in parole plan.
2.32 Same; travel by parolees and mandatory releasees.
2.33 Same; supervision reports.
2.34 Duration of period of community supervision.
2.35 Committed fines.
2.36 Mandatory release in the absence of parole.
2.37 Same; youth offenders.
2.38 Revocation of parole or mandatory release.
2.39 Same; youth offenders.
2.40 Same; warrant placed as detainer and dispositional interview.
2.41 Same; execution of warrant; notice of alleged violations.
2.42 Same; unexpired term of imprisonment.
2.43 Revocation by the Board.
2.44 Same; legal counsel and witnesses at preliminary interviews and revocation hearings.
2.45 Discharge from supervision.
2.46 Same; youth offenders.
2.47 Setting aside of conviction.
2.48 Jurisdiction over District of Columbia prisoners.
2.49 Jurisdiction over District of Columbia committed youth offenders.
2.50 Confidentiality of parole records.
2.51 Mental competency proceedings.

AUTHORITY.—18 U.S.C. 4201–4210, 5001–5037, 28 CFR Part 0, Subpart V.

**§ 2.1 Definitions.**

(a) For the purposes of this part, the term "Board" means the United States Board of Parole; and the terms "Youth Correction Division" and "Division" each mean the Youth Correction Division of the Board.

(b) As used in this part, the term "National Appellate Board" means the Chairman, Vice Chairman and at least one member of the Board, all of whom also serve as National Appellate Board members in the headquarters office, i.e., Washington, D.C.

(c) All other terms used in this part shall be deemed to have the same meaning as identical or comparable terms have when those terms are used in Chapter 311 of Part IV of Title 18 of the United States Code.

**§ 2.2 Granting of parole.**

The granting of parole rests in the discretion of the Board of Parole. The Board may parole a prisoner who is otherwise eligible if (a) in the opinion of the Board such release is not incompatible with the welfare of society; (b) he has observed substantially the rules of the institution in which he is confined; and (c) there is reasonable probability that he will live and remain at liberty without violating the laws. (18 U.S.C. 4203(a))

**§ 2.3 Eligibility for parole.**

A Federal prisoner, other than a juvenile delinquent or a committed youth offender, wherever confined and serving a definite term or terms of over one hundred and eighty days may, in accordance with the regulations prescribed in this part, be released on parole after serving one third of such term or terms or after fifteen years of a life sentence, or of a sentence of over forty-five years. (18 U.S.C. 4202.)

**§ 2.4 Same; indeterminate sentence.**

A Federal prisoner, other than a juvenile delinquent or a committed youth offender, who has been sentenced to a maximum term of imprisonment in excess of one year may, if the court has designated a minimum term to be served, which term may be less than, but not more than, one third of the maximum sentence imposed, be released on parole after serving the minimum term. In cases in which a court imposes a maximum sentence of imprisonment upon a prisoner and specifies that the prisoner may become eligible for parole at such times as the Board may determine, the prisoner may be released on parole at any time in the discretion of the Board. (18 U.S.C. 4208.)

**§ 2.5 Same; juvenile delinquents.**

A juvenile delinquent who has been committed and who, by his conduct, has given satisfactory evidence that he has reformed, may be released on parole at any time under such terms and conditions as the Board deems proper if it shall appear to the satisfaction of the Board that there is reasonable probability that the juvenile will remain at liberty without violating the law. (18 U.S.C. 5037.)

**§ 2.6 Same; committed youth offenders.**

The Youth Correction Division may at any time, after reasonable notice to the Director of the Bureau of Prisons, release conditionally under supervision a committed youth offender. A youth offender committed under section 5010(b) of Title 18 of the United States Code to a maximum six-year term shall be released conditionally under supervision on or before the expiration of four years from the date of his conviction. A youth offender committed under section 5010(c) of Title 18 of the United States Code to a maximum term which is more than six years shall be released conditionally under supervision not later than two years before the expiration of the term imposed by the court. (18 U.S.C. 5017.)

**§ 2.7 Youth offenders; observation and study.**

The court may order a youth to be committed to the custody of the Attorney General for observation and study at an appropriate classification center or agency. Within sixty days from the date of the order, or such additional period as the court may grant, the Youth Correction Division shall, pursuant to the authority delegated to the Division by the Attorney General by § 0.127(b)(3) of this chapter, report its findings to the court. (18 U.S.C. 5010(e))

**§ 2.8 Date service of sentence commences.**

(a) Service of a sentence of imprisonment commences to run on the date on which the person is received at the penitentiary, reformatory, or jail for

service of the sentence: Provided, however, that any such person shall be allowed credit toward the service of his sentence for any days spent in custody in connection with the offense or acts for which sentence was imposed.

(b) Service of the sentence of any person who is committed to a jail or other place of detention to await transportation to the place at which his sentence is to be served shall commence to run from the date on which he is received at such jail or other place of detention.

(c) Service of the sentence of a committed youth offender commences to run and continues to run uninterruptedly from the date of conviction.

**§ 2.9 Parole of prisoner subject to local detainer.**

A prisoner, after he becomes eligible for parole, may, in the discretion of the Board, be released to the custody of an authorized official who has lodged a detainer against the prisoner, and, in such case, the Board may expressly provide that the prisoner be released only to the detaining authorities.

**§ 2.10 Parole of prisoner subject to deportation.**

A prisoner, who is an alien and subject to deportation, may be released on parole on the express conditions that he be deported and that he remain outside of the jurisdiction of the United States. Any such prisoner, when his parole becomes effective, shall be delivered to a duly authorized immigration official for deportation. Alien prisoners who are deemed fit for release into community supervision by the Board, even though they may eventually be deported under detainers filed against them, may be paroled generally; provided, that immigration authorities shall be notified of all such general paroles, as well as other forms of release, and of the effective date of such releases as established by orders of the Board. In such cases, the Board may parole the prisoner subject either "to the immigration detainer only" or "to the immigration detainer or an approved plan should the detainer be lifted."

**§ 2.11 Application by prisoner.**

A prisoner, other than a juvenile delinquent or a committed youth offender, desiring to apply for a parole shall execute such form or forms as may be prescribed by the Board. Such forms shall be available at each Federal institution and shall be provided to prisoners eligible for parole. Juvenile delinquents and committed youth offenders shall not apply for parole. Instead, regular hearings, which may not be waived, shall be scheduled for each juvenile and committed youth offender by the Youth Correction Division. The Division may order parole as the result of any such hearing or may order a later review of the adjustment of the juvenile or youth concerned.

**§ 2.12 Withheld and forfeited good time.**

(a) Section 4202 of Title 18 of the United States Code permits Federal prisoners to be paroled if they have observed the rules of the institution in which they are confined and if they are otherwise eligible for parole. Any forfeiture of statutory good time shall be deemed to indicate that the prisoner has violated the rules of the institution to a serious degree, and a parole will not be granted in any such case in which such a forfeiture remains effective against the prisoner concerned. Any withholding of statutory good time shall be deemed to indicate that the prisoner has engaged in some less serious breach of the rules of the institution. Nevertheless, parole will not usually be granted unless and until such good time has been restored.

(b) Neither a forfeiture of good time nor a withholding of good time shall bar a prisoner from applying for and receiving a parole hearing.

**§ 2.13 Delegation to hearing examiners.**

(a) As provided below, the Board of Parole may delegate to hearing examiners the authority to make decisions relative to the granting or denial of parole or reparole; and revocation or reinstatement of parole or mandatory release.

(b) Hearing examiners shall function as two-man panels and the concurrence of both examiners shall be required for their decision. In the event of a split decision by the panel, the appropriate regional Administrative Hearing Examiner shall cast the deciding vote.

(c) When a hearing examiner panel proposes to make a decision which falls outside of explicit guidelines for parole decisionmaking promulgated by the Board, the concurrence of the appropriate regional Administrative Hearing Examiner is required.

(d) In the event the Administrative Hearing Examiner is serving as a member of a hearing examiner panel or is otherwise unavailable, cases requiring his action under paragraphs (b) or (c) of this section will be referred to another hearing examiner.

(e) However a Regional Director may review the decision of any examiner panel and submit this decision, prior to written notification to the prisoner, with his recommendation and vote to the National Appellate Board for reconsideration and any action it may deem appropriate. Written notice of this reconsideration action shall be mailed or transmitted to the prisoner within fifteen working days of the date of the hearing.

(f) All decisions made under paragraphs (b) and (c) of this section and the action of the National Appellate Board under paragraph (e) of this section shall be subject to a prisoner's right of appeal as provided in §§ 2.20 and 2.21.

**§ 2.14 Reports considered.**

Decisions as to whether a parole shall be granted or denied shall be determined on the basis of the application, if any, submitted by the prisoner, together with the classification study and all reports assembled by all the services which shall have been active in the development of the case. These reports may include the reports by the prosecuting officer and the sentencing judge, records from the Federal Bureau of Investigation, report from the officials in each institution in which the applicant shall have been confined, all records of social agency contacts, and all correspondence and such other records as are necessary or appropriate for a complete presentation of the case. Before making a decision as to whether a parole should be granted or denied in any particular case, the Board will consider all available relevant and pertinent information concerning the case. The Board encourages the submission of such information by interested persons.

**§ 2.15 Initial hearing.**

(a) Initial hearings shall be conducted by examiners designated by the Board. The examiner panel shall inform the prisoner of the decision and, if parole is denied, of the reasons therefor. This decision of the examiner panel, subject to the provisions of § 2.13(b) and (c), shall be final unless action is initiated by the Regional Director pursuant to § 2.13(e).

(b) In accordance with § 2.2, the reasons for parole denial may include, but are not limited to, the following reasons with further specification where appropriate:

(1) Release at this time would depreciate the seriousness of the offense committed and would thus be incompatible with the welfare of society.

(2) There does not appear to be a reasonable probability at this time that the prisoner would live and remain at liberty without violating the law.

(3) The prisoner has (a serious) (repeated) disciplinary infraction(s) in the institution.

(4) Additional institutional treatment is required to enhance the prisoner's capacity to lead a law-abiding life.

(c) Written notification of the decision shall be mailed or transmitted to the prisoner within fifteen working days of the date of the hearing. If parole is denied, the prisoner shall also receive in writing as part of the decision the reasons therefor.

**§ 2.16 Communication with the Board.**

Attorneys, relatives, or interested parties wishing a personal interview to discuss a specific case with a representative of the Board of Parole must submit a written request to the appropriate regional office setting forth the nature of the information to be discussed.

**§ 2.17 Review hearings.**

All hearings subsequent to the initial hearing shall be considered as review hearings. Review hearings by examiners designated by the Board shall be scheduled for each Federal institution, and prisoners shall appear for such hearings in person, except those with continuance of six months or less. Such cases shall be considered by an examiner panel on the basis of the prisoner's record and a written institutional report. Notification of review hearing decisions shall be given as set forth in § 2.15.

V 38 I 184 SEP 24 73 XUM

§ 2.18 Hearing procedure.

(a) Prisoners shall be given written notice of the time and place of the hearing described in § 2.15 and § 2.17. Prisoners may be represented at hearings by a person of their choice. The function of the prisoner's representative shall be to offer a statement at the conclusion of the interview of the prisoner by the examiner panel and to provide such additional information as the examiner panel shall request. Interested parties who oppose parole may select a representative to appear and offer a statement. The presiding hearing examiners shall limit or exclude any irrelevant or repetitious statement.

(b) No interviews with the Board, or any representative thereof, shall be granted to a prisoner unless his name is docketed for a hearing in accordance with Board procedures. Hearings shall not be open to the public, and the records of all such hearings shall be treated as confidential and shall not be open to inspection by the prisoner concerned, his representative or any other unauthorized person.

§ 2.19 Parole of prisoner in state or territorial institutions.

Any person who has been convicted of any offense against the United States, which is punishable by imprisonment but who is confined therefor in a state reformatory or other state or territorial institution, shall be eligible for parole by the Board on the same terms and conditions and by the same authority, and subject to recommital for the violation of such parole as though he were confined in a Federal penitentiary, reformatory, or other correctional institution. However, a prisoner who is serving concurrent state and federal sentences in a state institution may be considered for parole by an examiner panel on the record only.

§ 2.20 Appeal of hearing panel decision.

(a) A prisoner may file with the responsible Regional Director a written request for appeal of a hearing panel decision to grant, deny, or revoke parole or to revoke mandatory release. This request for appeal must be filed within thirty days from the entry of such decision. The appeal shall be considered by the Regional Director who may affirm the decision, order a new institutional hearing, order a regional appellate hearing, reverse the decision, or modify a continuance or the effective date of parole. Reversal of an examiner panel decision or the modification of such a decision by more than ninety days, whether based upon the record or following a regional appellate hearing, shall require the concurrence of two out of three Regional Directors. Appeal decisions requiring a second or additional vote shall be referred to other Regional Directors on a rotating basis.

(b) Attorneys, relatives, or other interested parties who wish to appear for (or against) a prisoner at a regional appellate hearing must submit a written request to the responsible Regional Director.

(c) If no request for appeal is made within thirty days of entry of the original decision, this decision shall stand as the final decision of the Board.

§ 2.21 Appeal to National Appellate Board.

(a) A prisoner may file a written appeal of the Regional Director's decision with the National Appellate Board. The appeal must be submitted within thirty days after the entry of the Regional Director's written decision. The National Appellate Board may, upon the concurrence of two members, affirm, modify, or reverse the decision, or order a rehearing at the institutional or regional level.

(b) Decisions of the National Appellate Board shall be final.

§ 2.22 Original jurisdiction cases.

(a) A Regional Director may designate certain cases to be within the original jurisdiction of the Regional Directors. All original jurisdiction cases shall be heard by a panel of hearing examiners who shall follow the procedures provided in § 2.18. A summary of this hearing and any additional comments that the hearing examiners may deem germane shall be submitted to the five Regional Directors. The Regional Directors shall by a majority vote serve as the original decisionmakers.

(b) The following criteria will be used in designating cases for the original jurisdiction of the Regional Directors:

(1) National Security. Prisoners who have committed serious crimes against the security of the nation, e.g., espionage or aggravated subversive activity.

(2) Organized Crime. Prisoners who in the Board's judgment were professional criminals or played a significant role in organized criminal activity.

(3) National or unusual interest. Prisoners who have received national or unusual attention because of the nature of the crime, arrest, trial or prisoner status, or because of the community status of the offender or his victim.

(4) Long-term sentences. Prisoners sentenced to a maximum term of twenty-five years (or more), or prisoners serving a life sentence.

§ 2.23 Appeal of original jurisdiction decisions.

(a) Cases decided under the procedure specified in § 2.22 may be appealed within thirty days of the entry of the decision to the National Appellate Board. The National Appellate Board, upon the concurrence of two members may affirm the decision or schedule the case for hearing before the entire Board at its next quarterly meeting. A quorum of six members shall be required and all decisions shall be by a majority vote. The Chairman shall vote on the decision only in the absence of a member. This appellate decision shall be final.

(b) Attorneys, relatives, or other interested parties who wish to speak for or against parole at this appeal hearing must submit a written request to the Chairman of the Board.

(c) If no request for appeal is made within thirty days of the entry of the Regional Directors' decision, this decision shall stand as the final decision of the Board.

§ 2.24 Consideration by the Board.

In the exercise of its discretion, the Board generally considers, but is not limited to, the following factors:

(a) *Sentence data.* (1) Type of sentence.

(2) Length of sentence.

(3) Recommendations of judge, U.S. Attorney, and other responsible officials.

(b) *Present offense.* (1) Facts and circumstances of the offense.

(2) Mitigating and aggravating factors.

(3) Activities following arrest and prior to confinement, including adjustment on bond or probation, if any.

(c) *Prior criminal record.* (1) Nature and pattern of offenses.

(2) Adjustment to previous probation, parole, and confinement.

(3) Detainers.

(d) *Changes in motivation and behavior.* (1) Changes in attitude toward self and others.

(2) Reasons underlying changes.

(3) Personal goals and description of personal strength or resources available to maintain motivation for law-abiding behavior.

(e) *Personal and social history.* (1) Family and marital history.

(2) Intelligence and education.

(3) Employment and military experience.

(4) Physical and emotional health.

(f) *Institutional experience*—(1) *Program goals and accomplishments.* (A) Academic.

(B) Vocational education, training or work assignments.

(C) Therapy.

(2) *General adjustment.* (A) Interpersonal relationships with staff and inmates.

(B) Behavior, including misconduct.

(g) *Community resources, including release plans.* (1) Residence; live along, with family, or others.

(2) Employment, training, or academic education.

(3) Special needs and resources to meet them.

(h) *Use of scientific data and tools.* (1) Psychological and psychiatric tests and evaluations.

(2) Statistical parole experience tables (salient factor score).

(i) *Decision guidelines.* The Board shall adopt and periodically review explicit guidelines for parole decisionmaking to insure consistent treatment of similarly situated offenders.

(j) *Comments by hearing examiners.* Evaluative comments supporting a decision, including impressions gained from the hearing.

§ 2.25 Release plans.

(a) In general, the following factors should be present before a prisoner is released after parole has been granted.

(1) There should be available to the parolee an adviser who is a responsible citizen living in or near the community in which the parolee will reside. The probation officer may serve as such adviser in appropriate cases with approval of the Board;

(2) There should be satisfactory evidence that the prospective parolee will be legitimately employed following his release; and

(3) There should be satisfactory assurance that necessary after care will be available to a parolee who is ill or who has some other demonstrable problem which requires special care.

(b) Generally, parolees will be released only to the place of their legal residence unless the Board is satisfied that another place of residence will serve the public interest more effectively or will improve the probabilities of the applicant's readjustment. Any of the requirements described in paragraphs (a) and (b) of this section may be waived by the Board whenever circumstances warrant such waiver.

(c) Insofar as it is practicable, the details of each plan for release shall be verified by a field investigation by the United States Probation Officer of the district into which release will be made.

§ 2.26 Release; discretionary power of Board.

When an effective date has been set by the Board, release on that date shall be conditioned upon continued good conduct by the prisoner and the completion of a satisfactory plan for his supervision. The appropriate Regional Director may, on his own motion, reconsider any case prior to release and may reopen and advance, postpone, or rescind a parole which has been granted. If such a previously granted parole is rescinded, or postponed for more than sixty days, the prisoner will be given a new hearing in accordance with § 2.18, except that a postponement for development and approval of release plans up to one hundred and twenty days may be had without a new hearing. The Board, or a member thereof, may add to or modify the conditions of parole at any time.

§ 2.27 Reopening of cases.

Notwithstanding the appeal procedure of §§ 2.20 and 2.21, the appropriate Regional Director may on his own motion reopen any case at any time upon the receipt of new information of substantial significance. Original jurisdiction cases may be reopened under the procedure of this section on the motion of two out of three Regional Directors.

§ 2.28 Petition for consideration of parole prior to date set at hearing.

When a prisoner has met the minimum time of imprisonment required by law, the Bureau of Prisons may petition the responsible Regional Director for consideration of parole prior to the date set by the Board at the initial or review hearing. The petition must show cause why it should be granted, i.e., an emergency, hardship, or other extraordinary circumstances exist that would warrant consideration of early parole.

§ 2.29 Community supervision by United States Probation Officers.

Pursuant to section 3655 of Title 18 of the United States Code, United States Probation Officers are required to provide such parole services as the Attorney General may request. The Attorney General has delegated his authority in this regard to the Board (28 CFR 0.126 (b)). In conformity with the foregoing, probation officers function as parole officers and provide supervision to parolees and mandatory releases under the Board's jurisdiction.

§ 2.30 Same; sponsorship of parolees.

It is the policy of the Youth Correction Division to cooperate with groups desiring to serve as sponsors of parolees. The functions and responsibilities of sponsors are prescribed by rules and regulations adopted by the Division. In all cases, sponsors are subordinate to and cooperate with probation officers to whom the parolees are assigned.

§ 2.31 Same; changes in parole plan.

A parole plan approved by the Board with respect to a prisoner may be changed after release of the prisoner upon application by a probation officer and approval by the Board.

§ 2.32 Same; travel by parolees and mandatory releasees.

Except as otherwise provided in this section, it is the general rule of the Board that a parolee may travel outside his supervision district only with the prior approval of the Board. Travel outside a district without prior Board approval may be authorized by a probation officer subject to the following-described limitations.

(a) Board approval shall be required for vacation trips outside the district.

(b) Board approval shall be required for recurring travel outside the district, except in cases involving parolees who cross district boundaries to engage in or seek employment or for shopping or recreation, if such travel is not more than fifty miles from the district line.

(c) Board approval shall be required for travel outside the continental limits of the United States, including travel or work aboard ship.

(d) Board approval shall be required in any case in which specific travel conditions have been imposed upon the parolee by the Board.

Board approval shall not be required for temporary leave to enter another district for a period not to exceed twenty days to investigate reasonably certain employment possibilities, if such leave shall have been approved by the probation officer concerned.

§ 2.33 Same; supervision reports.

All parolees and mandatory releasees shall make such reports to the United States Probation Officers to whom they have been assigned as may be required by the Board. On the basis of summary reviews of the progress of parolees, submitted in accordance with Board procedures, the Board may modify the reporting requirement of parolees and releasees.

§ 2.34 Duration of period of community supervision.

Any prisoner, with the exception of those sentenced prior to June 29, 1932, who is paroled under the provisions of laws relating to parole, shall continue on parole until the expiration of the maximum term or terms specified in his sentence without deductions of allowance for good time. Prisoners sentenced prior to June 29, 1932, shall receive reductions in their maximum term or terms of imprisonment for such good time allowances as may be authorized by law.

§ 2.35 Committed fines.

In any case in which a prisoner shall have had a fine imposed upon him by the committing court for which he is to stand committed until it is paid or until he is otherwise discharged according to law, such prisoner shall not be released on parole or mandatory release until payment of the fine is resolved according to law.

§ 2.36 Mandatory release in the absence of parole.

Whenever an applicant shall have been denied a parole and there shall have been no subsequent change in the Board's order of denial such individual shall be released by operation of law. Such mandatory release shall occur at the end of the sentence imposed by the court less such good time and extra good time deductions as he may have earned through his behavior and efforts at the institution of confinement. He shall be released as though on parole, with supervision until the expiration of the maximum term or terms for which he was sentenced less one hundred and eighty days. Insofar as possible release plans shall be completed before the release of any such prisoner and he shall be continued under supervision for any period in excess of one hundred and eighty days which remains of his term, under such conditions as may be prescribed by the Board.

§ 2.37 Same; youth offenders.

A prisoner committed under the Youth Corrections Act must be released conditionally under supervision not later than two years before the expiration of the term imposed by the court.

§ 2.38 Revocation of parole or mandatory release.

(a) If a parolee or mandatory releasee violates any of the conditions under which he shall have been released, and satisfactory evidence thereof is presented

V 38-184 SEP 24 73 XUM

to the Board, or a member thereof, a warrant may be issued and the offender returned to an institution. Warrants shall be issued only by the Board, or a member thereof.

(b) A warrant for the apprehension of any parolee shall be issued only within the maximum term or terms for which the prisoner was sentenced.

(c) A warrant for the apprehension of any mandatory releasee shall be issued only within the maximum term or terms for which the prisoner was sentenced, less one hundred and eighty days.

**§ 2.39 Same; youth offenders.**

In addition to issuance of a warrant on the basis of violation of any of the conditions of release, the Youth Correction Division may, when the Division is of the opinion that such youth offender would benefit by further treatment, direct his return to custody or issue a warrant for his apprehension and return to custody. Upon return to custody, such youth offender shall be given an opportunity to appear before the Division, or hearing examiner(s). The Division may then, or at its own discretion, revoke its order of conditional release.

**§ 2.40 Same; warrant placed as detainer and dispositional interview.**

(a) In those instances where the prisoner is serving in an institution on a new sentence, the warrant may be placed there as a detainer. The prisoner shall be advised that he may communicate with the Board relative to disposition of the warrant. Should further information be deemed necessary, the Regional Director may designate a hearing examiner to conduct a dispositional interview at the institution where the prisoner is confined. At such dispositional interview, the prisoner may be represented by counsel of his own choice and may call witnesses in his own behalf, provided that he bears their expenses. He shall be given timely notice of the dispositional interview and its procedure.

(b) Following the interivew, the Regional Director may withdraw the warrant, let the warrant stand, or execute the warrant. If the warrant is executed, the prisoner shall be given a revocation hearing.

(c) In all cases, including those where a dispositional interivew is not conducted, the Board shall conduct annual reivews relative to the disposition of the warrant. These decisions will be made by the Regional Director. The Board shall request periodic reports from institution officials for its consideration.

**§ 2.41 Same; execution of warrant; notice of alleged violations.**

(a) Any officer of any Federal correctional institution, or any Federal officer authorized to serve criminal process within the United States, to whom a warrant shall be delivered shall execute such warrant by taking such prisoner and returning him to the custody of the Attorney General. Delivery of the warrant to a Federal officer shall be considered completed when the warrant is signed and placed in the mail at the Board headquarters or regional office before the expiration of the maximum term of sentence.

(b) On arrest of the prisoner the officer executing the warrant shall deliver to him a copy of the Warrant Application listing the alleged violations of parole or mandatory release upon which the warrant was issued.

**§ 2.42 Same; unexpired term of imprisonment.**

Service of the unexpired term of imprisonment of any such prisoner shall begin to run on the date he is returned to the custody of the Attorney General under a violator warrant, and the time the prisoner was on parole or mandatory release shall not diminish the time he was sentenced to serve.

**§ 2.43 Revocation by the Board.**

(a) A prisoner who is retaken on a warrant issued by a Board Member shall be given a preliminary interview by an official designated by the Board. This preliminary interview shall be held prior to the possible return of the prisoner to a Federal institution. Following receipt of a summary or digest of the preliminary interview, the Board or a member thereof, unless he decides to reinstate the prisoner to parole or mandatory release supervision, shall give the prisoner an opportunity to appear at a revocation hearing before a hearing examiner panel designated by the Board.

(b) If the prisoner requests a local hearing prior to his return to a Federal institution, he shall be given a revocation hearing reasonably near the place of an alleged violation if the following conditions are met: (1) The local hearing would facilitate the production of witnesses or the retention of counsel; (2) the prisoner has not been convicted of a crime committed while under community supervision; and (3) the prisoner denies that he has violated any condition of his release. Otherwise, he shall be given a revocation hearing after he is returned to a Federal institution.

(c) Following the revocation hearing, parole or mandatory release may be reinstated, revoked, or the terms and conditions thereof may be modified. If the parole or mandatory release is revoked, the prisoner shall receive a written statement of the reasons for revocation and the evidence upon which the decision was based. Whenever parole or mandatory release is revoked, the prisoner may be required to serve all or any part of the remaining term for which he was originally sentenced, less such good time as he may earn following his recommitment.

(d) The decision resulting from a revocation hearing shall be subject to a prisoner's right to appeal as provided in §§ 2.20 and 2.21 or 2.23.

**§ 2.44 Same; legal counsel and witnesses at preliminary interviews and revocation hearings.**

(a) Each alleged parole or mandatory release violator shall be advised that he may be represented by counsel at the preliminary interview, the revocation hearing, or both, as authorized by § 2.43, and that he may present documentary evidence and testimony of voluntary witnesses who have relevant and material information. The alleged violator must, however, arrange for the appearance of counsel and witnesses and presentation of documentary evidence. The presiding hearing examiner shall limit or exclude any irrelevant or repetitious statement.

(b) Such alleged violator shall also be advised that if he is financially unable to retain counsel, he may make application to the United States District Court, which court may in its discretion appoint counsel to represent him if it finds that he is financially unable to retain counsel and that the interests of justice require appointment of counsel for the preliminary interview or revocation hearing, or both.

(c) When the alleged violator has not been convicted of a new criminal offense while under supervision and does not admit violation of any of the conditions of his parole or mandatory release, the Board shall on request of the alleged violator or, on its own motion, ask adverse witnesses, i.e., persons whose testimony would support revocation, to attend the preliminary interview or the revocation hearing to permit cross-examination. However, such an adverse witness need not appear for confrontation and cross-examination if the hearing officer or examiner panel finds good cause for his nonappearance.

**§ 2.45 Discharge from supervision.**

When the Board shall have modified the reporting requirement of a parolee and a period of at least one year shall have passed since the modification occurred, the Board may further order that the parolee be released from all supervision by the probation officer. In such cases, however, the parolee may be reinstated to supervision, or a warrant may be issued for him as a violator at any time prior to the expiration of the sentence or sentences imposed by the court.

**§ 2.46 Same; youth offenders.**

A committed youth offender may remain under supervision until the expiration of his sentence or he may be unconditonally discharged at any time after one year of continuous supervision or parole.

**§ 2.47 Setting aside of conviction.**

When an unconditional discharge has been granted to a youth offender prior to the expiration of his maximum term of sentence, his conviction shall be automatically set aside and the Division shall issue to the youth offender a certificate to that effect.

**§ 2.48 Jurisdiction over District of Columbia prisoners.**

Whenever a prisoner who was convicted in the District of Columbia is confined in, or as a parolee is returned to, a penal or correctional institution other than an institution of the District of Columbia, the Board shall exercise the same power and authority with respect to that prisoner as the Board of Parole for the District of Columbia would exercise with respect to him if the prisoner had been confined in or returned to an institution of the District of Columbia.

**§ 2.49 Jurisdiction over District of Columbia committed youth offenders.**

The Youth Corrections Act (18 U.S.C. Ch. 402) applies to youth offenders convicted in the District of Columbia. Committed youth offenders convicted in the District of Columbia, wherever they may be undergoing treatment, are subject to all the provisions of the Youth Corrections Act and are therefore under the jurisdiction of the Youth Correction Division as provided in that Act.

**§ 2.50 Confidentiality of parole records.**

To the end that the objectives and procedures of professionalized parole may be advanced and, more specifically, so that the channels of information vital to sound parole actions may be kept open and that offenders released on parole may be protected against publicity deleterious to their adjustment, the following principles relating to the confidentiality of parole records shall be followed by the Board:

(a) Dates of sentence and commitment, parole eligibility dates, mandatory release dates, and dates of termination of sentence will be disclosed in individual cases upon proper inquiry by a party in interest.

(b) Whther an inmate is being considered for parole, has been granted or denied parole, and if granted parole, the effective date set by the Board may be disclosed by the Board in its discretion whenever the public interest is deemed to require it.

(c) Who, if anyone, has supported an application for parole may be revealed at the Board's discretion only in the most exceptional circumstances, with the express approval of such person(s), and after a decision to grant parole has been made.

(d) Other matters contained in parole records will be held strictly confidential and will not be disclosed to unauthorized persons.

**§ 2.51 Mental competency proceedings.**

(a) Whenever a prisoner is scheduled for a hearing in accordance with the provisions of this part and reasonable doubt exists as to his mental competency, i.e., his ability to understand the nature of and participate in scheduled proceedings, a preliminary hearing to determine his mental competency shall be conducted by a panel of hearing examiners designated by the Board of Parole.

(b) At the competency hearing, the hearing examiners shall receive oral or written psychiatric testimony and other evidence that may be available. A preliminary determination of the prisoner's mental competency shall be made upon the testimony, evidence and the hearing examiners' personal observations of the prisoner. If the examiners determine that the prisoner is mentally competent, the previously scheduled hearing shall be held. If they determine that the prisoner is not mentally competent, the previously scheduled hearing shall be tentatively postponed.

(c) Whenever the hearing examiners determine that a person is incompetent and postpone the previously scheduled hearing, they shall forward the record of the preliminary hearing with their findings to the Regional Director for review. If the Regional Director concurs with their findings, he shall order the tentatively postponed hearing to be postponed indefinitely until such time as it is determined that the prisoner has recovered sufficiently to understand the nature of and participate in the proceedings. In any such case, the Regional Director shall require a progress report at least every six months on the mental health of the prisoner. When the Regional Director determines that the prisoner has sufficiently recovered, he shall reschedule the hearing for the earliest possible date.

(d) If the Regional Director disagrees with the findings of the hearing examiners as to the mental competency of the prisoner, he shall take such action as he deems appropriate.

Dated September 14, 1973.

MAURICE H. SIGLER,
*Chairman,*
*U.S. Board of Parole.*

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Office of Education

[ 45 CFR Part 190 ]

### BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAM

### Family Contribution Schedules for Use in Academic Year 1974–75

Pursuant to the authority contained in Subpart I of Part A of Title IV of the Higher Education Act of 1965 as amended (20 U.S.C. 1070a) notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education and Welfare, proposes to issue the following regulations under Part 190 of Title 45 of the Code of Federal Regulations, covering the basis for determining the expected family contributions toward the education of both dependent and independent students for awards to be received during academic year 1974–75. The regulations appear below in their entirety. The previous set of regulations describing Family Contributions for the Basic Educational Opportunity Grant Program for use during academic year 1973–74, were published in the FEDERAL REGISTER on Monday, June 11, 1973 (38 FR 15418–15427).

These regulations are being submitted in advance of the February 1 deadline specified in the Higher Education Act of 1965 as amended so that the required Congressional review of the Schedules may be completed earlier than the May 1 date specified in the statute. It is the opinion of the Commissioner that the May 1 deadline for the Congressional action does not permit students, parents, and educational institutions sufficient time to make effective decisions concerning the packaging of student financial aid resources.

This opinion is also shared by the House Special Subcommittee on Education, which has introduced H.R. 9196. This Bill, if adopted, would require that the Commissioner submit the Schedule of Family Contributions to be used for Fiscal Year 1975 no later than August 15, 1973, and not later than July 1 in succeeding years. Further, the Bill would give the Congress until December 15, 1973, for Fiscal Year 1975, and until November 1 in succeeding years, to review the proposed Schedule.

Although this Bill has not yet been enacted into law, the Commissioner is submitting the Family Contribution Schedules at this time. Further, the completion of the Congressional review before December 15 is clearly in the best interest of students, parents, and institutions of higher education and, therefore, is sought for these Schedules.

The Schedules submitted for use in academic year 1974–75 are identical to those in use during academic year 1973–74. It is realized that changes in the Family Contribution Schedules will need to be considered as comments are received by the Office of Education on the basis of experience gained regarding the effect of the Schedules during academic year 1973–74.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed rules to Peter K. U. Voigt, Acting Coordinator, Basic Educational Opportunity Grants, U.S. Office of Education, Room 4010, Federal Office Building No. 6, 400 Maryland Avenue SW., Washington, D.C. 20202, on or before November 23, 1973. Comments received will be available for public inspection at the above office Monday through Friday between 8:00 a.m. and 4:30 p.m.

(The Catalogue of Federal Domestic Assistance number for this program is 13.539, Basic Educational Opportunity Grant Program.)

Dated August 27, 1973.

PETER P. MUIRHEAD,
*U.S. Commissioner of Education.*

Approved September 19, 1973.

CASPAR W. WEINBERGER,
*Secretary, Department of Health, Education, and Welfare.*

#### Subpart C—Expected Family Contribution for Dependent Students

Sec.
190.31 Indicators of financial strength.
190.32 Special definitions.
190.33 The expected family contribution for dependent students from parents' income.
190.34 Computation of standard expected contribution from parents' assets.
190.35 Computation of standard expected contribution from parents' other assets.
190.36 Computation for expected contribution from parents' income, assets, and other assets adjusted for number of family members attending institutions of postsecondary education.
190.37 Computation of expected contribution from the student's effective income.
190.38 Computation of expected contribution from students' assets.
190.39 Computation of the total expected family contribution.

AUTHORITY: Subpart 1 of Part A of Title IV of the Higher Education Act of 1965, as amended (20 U.S.C. 1070a).

#### Subpart C—Expected Family Contribution for Dependent Students

**§ 190.31 Indicators of financial strength.**

"Expected family contribution" with respect to each dependent student means the amount which the family of that student may reasonably be expected to contribute toward the cost of his education for an academic year. Each of the following elements of financial strength will be considered in determining the family contribution for dependent students:

(a) The amount of the effective income of the student.

(b) The amount of the effective income of the student's parent(s).

(c) The number of dependents of the student's parent(s).

(d) The number of dependents of the student's parent(s) who are in attendance, on at least a half-time basis, in a program of postsecondary education.

(e) The amount of assets of the student.

(f) The amount of assets and other assets of the student's parent(s).

(g) Unusual expenses of the student and the unusual expenses of the student's parent(s). Such unusual expenses shall be limited to medical and dental expenses and expenses arising from catastrophe.

(h) The additional expenses incurred in providing an income when two parents are employed or when a family is headed by a single parent.

(20 U.S.C. 1070a(a)(3)(B)(ii).)

**§ 190.32 Special definitions.**

For purposes of this subpart:

(a) "Assets" means cash on hand including amounts in checking accounts, savings accounts and trusts, the current market value at the time of application of stocks, bonds, any other securities, real estate, home (if owned), income producing property, business equipment and business inventory which are held by the student's parents and by the student.

(b) "Other assets" means consumer durables and personal assets such as automobiles, boats, art objects, electronic sound and visual equipment, jewelry, antiques, and cameras, each of which has a value of $500 or more.

(c)(1) "Annual adjusted family income" for any base year means the sum of the following: Adjusted gross income as defined in section 62 of the Internal Revenue Code of the student's parents, investment income of the student's parents upon which no Federal income tax is required to be paid such as interest on municipal and State bonds, other income of the parents upon which no Federal income tax is required to be paid such as child support payments, income of the parents received under income maintenance programs including welfare benefits, social security benefits except those benefits paid to or on account of the student included in paragraph (f) of this section, and Veteran's benefits except those veteran's benefits paid under chapters 34 and 35 of title 38 of the United States Code.

(2) In the case of the student whose parents are divorced, or are separated and file separate returns for Federal income tax puposes, only the income as described in paragraph (c)(1) of this section of the parent claiming or eligible to claim the student as an exemption for Federal income tax purposes for the base year shall be considered in determining the annual adjusted family income. If no parent claims or is eligible to claim the student as an exemption for Federal income tax purposes, the income of both parents shall be combined to determine the annual adjusted family income.

(3) In the case of the student whose parents are married and not separated but file separate returns for Federal income tax purposes, the income as described in paragraph (c)(1) of this section of both parents shall be combined to determine the annual adjusted family income for that student.

(d) "Base year" means the tax year for which information is requested by the Commissioner for the purpose of determining family income.

(e) "Dependent student" means any student who does not qualify as an independent student as defined in § 190.42(a).

(f) "Effective income of the student" means any amount paid to, or on account of, the student under the Social Security Act which would not be paid if he were not a student, i.e., under section 202(d) of title II of the Social Security Act, 42 U.S.C. 402(d), and one-half of any amount paid the student under chapter 34 of title 38, United States Code (Veterans Educational Assistance—38 U.S.C. 1651 et seq.) and chapter 35 of title 38, United States Code (War Orphans' and Widows' Education Assistance—38 U.S.C. 1700 et seq.). The amount of the effective income of the student is the amount to be received during the academic year for which Basic Grant assistance is requested.

(20 U.S.C. 1070a(a)(3)(B)(iv).)

(g) "Effective family income" of a student's parents means the annual adjusted family income received for the base year minus the Federal income tax paid or payable with respect to such income during the base year.

(20 U.S.C. 1070a(a)(3)(B)(iii).)

(h) "Employment expenses offset" means an allowance to meet expenses relating to employment where both parents are employed or where one parent qualifies as a surviving spouse or as head of a household under section 2 of the Internal Revenue Code.

(i) "Expenses arising from catastrophe" means those types and amounts of casualty losses which may be deducted under section 165(c)(3) of the Internal Revenue Code which were incurred during the base year by the student, the parents of the student and the parents' dependents.

(20 U.S.C. 1070a(a)(3)(B)(ii)(V).)

(j) "Family size offset" means an allowance to meet subsistence expenses, including food, shelter, clothing, and other basic needs of a family. For purposes of this part the "Weighted Average Threshold at the Low Income Level," as developed by the Social Security Administration shall be used as a basis to determine the amount for the family size offset.

(k) "Federal income tax" means the tax on income paid to the U.S. Government under chapter 2 of the Internal Revenue Code and the tax on income paid to the Governments of Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands under the laws applicable to those jurisdictions.

(20 U.S.C. 1070a(a)(3)(B)(iii).)

(l) "Medical expenses" means those types of medical and dental expenses, except premiums for medical insurance, that may be deducted under section 213 of the Internal Revenue Code which were incurred during the base year by the student, the parents of the student and the parents' dependents.

(m) "Net assets" means the current market value of the assets included in paragraph (a) of this section, minus the outstanding liabilities (indebtedness) against such assets at the time of application.

(n) "Net other assets" means the current market value of the assets, included in paragraph (b) of this section, minus the outstanding liabilities (indebtedness) against such assets at the time of application.

(o) "Parent" means the mother or father of the student, unless any other person, except the student's spouse, provides more than one-half of the student's support and claims or is eligible to claim the student as an exemption for Federal income tax purposes for the base year, in which case such person shall be considered the parent.

(20 U.S.C. 1070a(a)(3)(B) unless otherwise noted.)

**§ 190.33 The expected family contribution for dependent students from parents' income.**

The expected family contribution for dependent students from parents' income for each grant shall be an amount determined in the following manner:

(a) Add to annual adjusted family income the effective income of the student attributable to the dependents of the student who is a veteran.

(b) Determine effective family income by subtracting from the amount determined in paragraph (a) of this section the amount of Federal income tax paid or payable with respect to such income.

(c) Determine discretionary income by deducting the following from effective family income:

(1) *Family size offset.* A family size offset in the amount specified in the following table. Family size includes the student, the student's parents and persons for whom the parents may claim an exemption under section 151 of the Internal Revenue Code. Family size is to be determined for the base year. If the parents are divorced or separated, family size shall include the student and any parent whose income is taken into account for the purpose of computing the annual adjusted family income and his or her exemptions.

FAMILY SIZE OFFSETS

| *Family size* | *Dollar amount* |
|---|---|
| 2 | 2,800 |
| 3 | 3,350 |
| 4 | 4,300 |
| 5 | 5,050 |
| 6 | 5,700 |
| 7 | 6,300 |
| 8 | 7,000 |
| 9 | 7,700 |
| 10 | 8,400 |
| 11 | 9,100 |
| 12 | 9,800 |

(2) *Unusual expenses.* The amount by which the sum of medical and dental expenses and losses resulting from catastrophes incurred in the base year and not compensated by insurance exceeds 20 percent of effective family income. Unusual expenses may be deducted if they were incurred by the student and any parent (and any persons for whom an exemption was claimed by that parent) whose income is taken into account for the purpose of computing the annual adjusted family income.

(3) *Employment expense offset.* An employment expense offset in an amount equal to 50 percent of the adjusted gross income earned in the base year by the parent earning the lesser income if both parents are employed, or 50 percent of the adjusted gross income of a parent qualifying as surviving spouse or as head of household as defined in section 2 of the Internal Revenue Code, but in no case shall such an offset exceed $1,500. The expense may be claimed only if the income of both parents or the income of the surviving spouse or head of household is taken into account for the purposes of computing the annual adjusted family income.

(d) To determine the expected family contribution from parental income the following rates shall be applied to discretionary income:

| | |
|---|---|
| $0 | (No contribution expected.) |
| $1 to 4,999 | 20 percent of Discretionary Income. |
| $5,000 or more | $1,000 plus 30 percent of Discretionary Income in excess of 5,000. |

(20 U.S.C. 1070a(a)(3)(B).)

**§ 190.34 Computation of standard expected contribution from parents' assets.**

(a) The expected contribution from parental assets shall be an amount determined in the following manner:

(1) Determine the net assets owned by the parents.

(2) If the amount of discretionary income determined in paragraph (c) of § 190.33 is a negative amount, subtract that amount from the amount of net assets determined in paragraph (a)(1) of this section.

(3) Deduct an asset reserve of $7500 from net assets as determined in paragraph (a)(1) or paragraph (a)(2) of this section whichever is applicable.

(4) The contribution from parental assets shall be an amount equal to 5 percent of the remainder obtained in paragraph (a)(3) of this section.

(b) If the student's parents are divorced or separated only the assets of the parent whose income is taken into account for the purpose of computing annual adjusted family income shall be considered.

(20 U.S.C. 1070a(a)(3)(B).)

**§ 190.35 Computation of standard expected contribution from parents' other assets.**

(a) The expected contribution from other parental assets shall be an amount determined in the following manner:

(1) Determine the total amount of net other assets owned by the parents and deduct from that amount an asset reserve of $7,500.

V 38 I 184 SEP 24 73 XUM

(2) The contribution from other parental assets shall be an amount equal to 5 percent of the remainder obtained in subparagraph (1) of this paragraph.

(b) If the student's parents are divorced or separated only the other assets of the parent whose income is taken into account for the purpose of computing annual adjusted family income shall be considered.

(20 U.S.C. 1070a(a)(3)(B).)

**§ 190.36 Computation for expected contribution from parents' income, assets, and other assets adjusted for number of family members attending institutions of postsecondary education.**

(a) For each grant the amount expected from parents' income as determined in § 190.33 shall be added to the amount expected from parents' assets as determined in § 190.34 and parent's other assets as determined in § 190.35.

(b) For each grant the combined expectation calculated on the basis of the above formula shall be further adjusted in the following manner to take into consideration the number of family members who will be in attendance, on at least a half-time basis, in programs of postsecondary education during the academic year for which basic grant assistance is required:

| *Number of family members attending institutions of postsecondary education* | *Expected contribution from combined contribution per student* |
|---|---|
| 1 | 100 percent of contribution from the amount determined in paragraph (a) of this section. |
| 2 | 70 percent of contribution from the amount determined in paragraph (a) of this section. |
| 3 | 50 percent of contribution from the amount determined in paragraph (a) of this section. |
| 4 or more | 40 percent of contribution from the amount determined in paragraph (a) of this section. |

Family members include the student, the student's parents and persons for whom the parent may claim an exemption under section 151 of the Internal Revenue Code. When the student's parents are divorced or separated and are filing separate returns for Federal income tax purposes, family members shall include the student and any parent whose income is taken into account for the purpose of computing annual adjusted family income and his or her exemptions.

(20 U.S.C. 1070a(a)(3)(B).)

**§ 190.37 Computation of expected contribution from the student's effective income.**

The expected family contribution shall include 100 percent of the student's effective income for the academic year for which aid is requested; except that, that portion of effective income of the student attributable to the dependents of a veteran shall instead be included as a part of, and treated as, annual adjusted family income.

(20 U.S.C. 1070a(a)(3)(B).)

**§ 190.38 Computation of expected contribution from student's assets.**

For each grant the contribution from the student's assets shall be an amount equal to 33 per centum of his net assets as defined in § 190.32(m).

(20 U.S.C. 1070a(a)(3)(B).)

**§ 190.39 Computation of the total expected family contribution.**

For each grant the total expected family contribution shall be the sum of:

(a) The expected contribution from parents' discretionary income, parents' assets, and other assets as determined in § 190.36.

(b) The expected contribution from the student's effective income as determined in § 190.37, and

(c) The expected contribution from the student's assets as determined in § 190.38.

**Subpart D—Expected Family Contribution for Independent Students**

Sec.

190.41 Indicators of financial strength.
190.42 Special definitions.
190.43 Computation of the expected family contribution from effective income for independent students.
190.44 The expected family contribution for independent students from annual adjusted family income.
190.45 Computation of expected contribution from the assets of the independent student and his or her spouse.
190.46 Computation of expected contribution from the other assets of the independent student and his or her spouse.
190.47 Computation for expected contribution from income, assets, and other assets adjusted for number of family members attending institutions of postsecondary education.
190.48 Computation of the total expected family contribution.

AUTHORITY: Subpart 1 of part A of title IV of the Higher Education Act of 1965, as amended (20 U.S.C. 1070a).

**Subpart D—Expected Family Contribution for Independent Students**

**§ 190.41 Indicators of financial strength.**

"Expected Family Contribution" with respect to each independent student means the amount which that student, and his or her spouse, if any, may reasonably be expected to contribute toward the cost of his or her education for an academic year. Each of the following elements of financial strength will be considered in determining the family contribution for independent students:

(a) The amount of effective income of the independent student.

(b) The amount of annual adjusted family income of the independent student and the independent student's spouse.

(c) The number of persons whom the independent student can claim as an exemption.

(d) The number of dependents of the independent student who in addition to the student will be in attendance, on at least a half-time basis, in a program of postsecondary education.

(e) The amount of the assets and the other assets of the independent student and his or her spouse.

(f) The unusual expenses of the independent student, and his or their dependents. Such unusual expenses shall be limited to medical and dental expenses and expenses arising from catastrophe.

(g) The additional expenses incurred in providing an income where both the independent student and his spouse are employed or where the independent student qualifies as a surviving spouse or as head of a household under section 2 of the Internal Revenue Code.

(20 U.S.C. 1070a(a)(3)(C).)

**§ 190.42 Special definitions.**

For the purposes of this subpart:

(a) "Independent Student" means a student who:

(1) Has not and will not be claimed as an exemption for Federal income tax purposes by any person except his or her spouse for the calendar year(s) in which aid is received and the calendar year prior to the academic year for which aid is requested,

(2) Has not received and will not receive financial assistance of more than $600 from his or her parent(s) in the calendar year(s) in which aid is received and the calendar year prior to the academic year for which aid is requested, and

(3) Has not lived or will not live for more than 2 consecutive weeks in the home of a parent during the calendar year in which aid is received and the calendar year prior to the academic year for which aid is requested.

(b) "Assets" means cash on hand including amounts in checking accounts, savings accounts and trusts, the current market value at the time of application of stocks, bonds, and other securities, real estate, home (if owned), income producing property, business equipment and business inventory which are held by the independent student and/or his spouse.

(c) "Other assets" means consumer durables and personal assets such as automobiles, boats, art objects, electronic sound and visual equipment, jewelry, antiques, and cameras, each of which has a value of $500 or more.

(d) (1) "Annual Adjusted Family Income" for any base year means the sum of the following: Adjusted gross income as defined in section 62 of the Internal Revenue Code of the student and the student's spouse, investment income upon which no Federal income tax is required to be paid such as interest on municipal and State bonds, other income of the student and the student's spouse upon which no Federal income tax is required to be paid such as child support payments, income of the student and the student's spouse received under income maintenance programs including welfare benefits, social security benefits except those benefits paid to or on account of the student included in paragraph (g) of this section, and veteran's benefits except those veteran's benefits paid to the independent student under chapters 34 and 35 of title 38 of the United States Code.

(2) In the case of the student who is divorced, or is separated and files a separate return for Federal income tax purposes, only the student's own income shall be considered in determining the annual adjusted family income.

(3) In the case where the student and his spouse are married and not separated but file separate returns for Federal income tax purposes, the income as described in paragraph (d)(1) of this section of both the applicant and spouse shall be combined to determine the annual adjusted family income for that student.

(e) "Base year" means the tax year for which information is requested by the Commissioner for the purpose of determining family income.

(f) "Dependent" means the independent student's spouse and such other persons who are eligible to be claimed as an exemption for Federal income tax purposes by the student during the base year.

(g) The "effective income of the student" means any amount paid to, or on account of, the student under the Social Security Act which would not be paid if he were not a student; i.e., under section 202(d) of title II of the Social Security Act, 42 U.S.C. 402(d), and one-half of any amount paid the student under chapter 34 of title 38, United States Code (Veterans Educational Assistance—38 U.S.C. 1651 et seq.) and chapter 35 of title 38, United States Code (War Orphans' and Widows' Education Assistance—38 U.S.C. 1700 et seq.). The amount of the effective income of the student is the amount to be received during the academic year for which basic grant assistance is requested.

(h) "Effective family income" means the annual adjusted family income received during the base year minus the Federal income tax paid or payable with respect to such income.

(i) "Employment expense offset" means an allowance to meet expenses relating to employment where both the independent student and his or her spouse are employed or where the independent student qualifies as a surviving spouse or as head of a household under section 2 of the Internal Revenue Code.

(j) "Expenses arising from catastrophe" means those types and amounts of casualty losses which may be deducted under section 165(c)(3) of the Internal Revenue Code which were incurred by the independent student and his dependents during the base year.

(k) "Family size offset" means an allowance to meet subsistence expenses, including food, shelter, clothing, and other basic needs of the independent student and his dependents. For purposes of this part the "Weighted Average Thresholds at the Low Income Level," as developed by the Social Security Administration, shall be used as a basis to determine the amount for the family size offset except in the case of a single independent student, where an amount estimated to be equal to living expenses during periods of nonenrollment shall be utilized.

(l) "Federal income tax" means the tax on income paid to the U.S. Government under chapter 2 of the Internal Revenue Code and the tax on income paid to the Governments of Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands under the laws applicable to those jurisdictions.

(20 U.S.C. 1070a(a)(3)(B)(iii).)

(m) "Medical expenses" means those types of medical and dental expenses, except premiums for medical insurance, that may be deducted under section 213 of the Internal Revenue Code, which were incurred by the independent student and his dependents during the base year.

(n) "Net assets" means the current market value at the time of application of the assets included in paragraph (b) of this section minus the outstanding liabilities (indebtedness) against such assets.

(20 U.S.C. 1070a(a)(3)(C).)

(o) "Net other assets" means the current market value at the time of application of the other assets included in paragraph (c) of this section minus the outstanding liabilities (indebtedness) against such assets.

(20 U.S.C. 1070a(a)(3)(C).)

**§ 190.43 Computation of the expected family contribution from effective income for independent students.**

The expected family contribution shall include 100 per centum of the student's effective income for the academic year for which aid is requested; except that, that portion of effective income of the student attributable to the dependents of a veteran shall instead be included as a part of, and treated as, annual adjusted family income.

(20 U.S.C. 1070a(a)(3)(C).)

**§ 190.44 The expected family contribution for independent students from annual adjusted family income.**

The expected family contribution of the independent student from annual adjusted family income shall be an amount determined in the following manner:

(a) Determine effective family income by subtracting from the annual adjusted family income (including the portion of the effective income of the student attributable to the dependents of a veteran) the amount of Federal income tax paid or payable with respect to such income.

(b) Determine discretionary income by deducting the following from effective family income:

(1) *Family size offset.* A family size offset in the amount specified in the following table. Family size includes the student and his dependents, as defined in section 190.42(f) at the close of the base year. If the student is divorced or separated, family size shall include any person whose income is taken into account for the purpose of computing the annual adjusted family income and his or her exemptions as defined in section 151 of the Internal Revenue Code.

| *Family size* | *Dollar amount* |
|---|---|
| 2 | $2,800 |
| 3 | 3,350 |
| 4 | 4,300 |
| 5 | 5,050 |
| 6 | 5,700 |
| 7 | 6,300 |
| 8 | 7,000 |
| 9 | 7,700 |
| 10 | 8,400 |
| 11 | 9,100 |
| 12 | 9,800 |

An offset of $700 shall be made for the single independent student.

(2) *Unusual expenses.* The amount by which the sum of medical and dental expenses, and losses resulting from catastrophes incurred in the base year and not compensated by insurance, exceeds 20 percent of effective family income. Unusual expenses may be deducted if they were incurred by the independent student and his dependents during the base year.

(3) *Employment expense offset.* An employment expense offset in an amount equal to 50 percent of the adjusted gross income earned in the base year by either a married independent student or the student's spouse, whoever earns the lesser, or 50 percent of the adjusted gross income during the base year of an independent student qualifying as a surviving spouse or as head of household as defined in section 2 of the Internal Revenue Code, but in no case shall such an offset exceed $1,500.

(c) Determine the expected family contribution from the family income of the independent student and his or her spouse by applying the following rates to discretionary income:

(1) 75 percent of discretionary income for the single independent student with no dependents;

(2) 50 percent of discretionary income for the married independent student with no dependents other than spouse; and

(3) 40 percent of discretionary income for the independent student who has dependents other than spouse.

(20 U.S.C. 1070a(a)(3)(C).)

**§ 190.45 Computation of expected contribution from the assets of the independent student and his or her spouse.**

The expected contribution from the assets of the independent student and his or her spouse shall be determined in the following manner:

(a) Determine the total amount of net assets owned by the student and the student's spouse.

(b) If the amount of discretionary income determined in paragraph (b) of § 190.44 is a negative amount, subtract that amount from the amount of net

V 38 1 184
SEP 24 73
XUM

assets determined in paragraph (a) of that section.

the amount determined in paragraph (a)

(c) The contribution from assets shall be an amount equal to 33 percent of or (b) of this section, whichever is applicable.

**§ 190.46 Computation of expected contribution from the other assets of the independent student and his or her spouse.**

The expected contribution from the other assets of the independent student and his or her spouse shall be determined in the following manner:

(a) Determine the total amount of net other assets owned by the student and the student's spouse and deduct from that amount an other asset reserve of $7,500.

(b) The contribution from other assets shall be an amount equal to 33 percent of the remainder obtained in paragraph (a) of this section.

**§ 190.47 Computation for expected contribution from annual adjusted family income, assets and other assets adjusted for number of family members attending institutions of postsecondary education.**

(a) For each grant the amount expected from family income as determined in § 190.44 shall be added to the amount expected from assets as determined in § 190.45 and other assets as determined in § 190.46.

(b) For each grant the combined expectation calculated on the basis of the above formula shall be further adjusted in the following manner to take into consideration the number of family members who will be in attendance, on at least a half-time basis, in programs of postsecondary education during the academic year for which basic grant assistance is requested:

| *Number of family members attending institutions of postsecondary education* | *Expected contribution from combined contribution per student* |
|---|---|
| 1 | 100 percent of contribution from the amount determined in paragraph (a) of this section. |
| 2 | 70 percent of contribution from the amount determined in paragraph (a) of this section. |
| 3 | 50 percent of contribution from the amount determined in paragraph (a) of this section. |
| 4 or more | 40 percent of contribution from the amount determined in paragraph (a) of this section. |

Family members shall include any person whose income is taken into account for the purpose of computing the annual adjusted family income and his or her exemptions.

**§ 190.48 Computation of the total expected family contribution.**

For each grant the total expected family contribution shall be the sum of:

(a) The expected contribution from the student's effective income as determined in § 190.43, and

(b) The expected contribution from discretionary income, assets, and other assets as determined in § 190.47.

APPENDIX

EXPECTED FAMILY CONTRIBUTION FOR DEPENDENT STUDENTS, ACADEMIC YEAR 1974–75

*Summary of Calculation*

| | | |
|---|---|---|
| 1. Parents' adjusted gross income in 1973 | | |
| 2. Other parental income in 1973 | + | |
| 3. Parents' annual adjusted income in 1973 | = | |
| 4. Parents' Federal income tax paid for 1973 | − | |
| 5. Effective family income in 1973 | = | |
| 6. Family size offset | + | |
| 7. Unusual expenses | + | |
| 8. Employment expense offset | + | |
| 9. Total offsets against income (lines 6+7+8) | − | |
| 10. Discretionary income (line 5 minus line 9) | | |
| 11. Determine net assets of parents | | |
| 12. If line 10 is a negative amount, subtract from line 11 the amount necessary to bring discretionary income up to zero. Enter the remainder of the net assets | | |
| 13. If line 10 is a positive amount, enter that amount. If line 10 is a negative amount enter zero | | |
| 14. Determine net other assets of parents | | |
| 15. Multiply discretionary income in line 13 by applicable rate to obtain standard contribution | | |
| 16. Subtract asset reserve of $7500 from amount entered on line 12 to obtain available parental assets | | |
| 17. Multiply available parental assets by 0.05 | × 0.05 | |
| 18. Parental contribution from assets | | |
| 19. Subtract other asset reserve of $7500 from amount entered on line 14 to obtain available other assets of parents | | |
| 20. Multiply available other assets of parents by 0.05 | × 0.05 | |
| 21. Parental contribution from other assets | | |
| 22. Add lines 15 plus line 18 plus 21 to obtain standard contribution from income, assets, and other assets | | |
| 23. Multiply standard contribution by multiple student rate to determine expected family contribution for each family member in postsecondary education | | |
| 24. Effective income of student | | |
| 25. Determine net assets of student | | |
| 26. Multiply student's net assets by 0.33 | × 0.33 | |
| 27. Student's contribution from assets | | |
| 28. Total family contribution equals sum of lines 23 plus 24 plus 27 | = | |

EXPLANATION OF CALCULATION [1]

1. *Parents' adjusted gross income in 1973 (line 1).* All income which is available to the parents should be considered in the evaluation of parental ability to support the cost of postsecondary education. The most valid reference for parental income subject to Federal income tax is the adjusted gross income item in the family's Federal income tax return. This information is readily available to most families, and the information can be verified by referring to the IRS forms actually filed by the parents.

If it may be assumed that family income will be measured on an annual basis, which year of family income shall be used? Parents provide from their current income for the education of their children. However, if we attempted to use current year information, a parent would have to estimate the amount of income which he will receive during a year in which a child is a student since application for aid is made before the student enrolls for a particular year of study. A study by Orwig and Jones shows that income received during the tax year prior to the year in which the student is applying for aid is the best practical indicator of the income from which a student's actual expenses will be paid.[2] If estimates of the income received during the actual year of attendance are provided by parents, middle income families systematically underestimate their earnings, and lower income families systematically overestimate their earnings. The amount to be entered here, therefore, is from the previous year's Federal income tax form.

2. *Other parental income in 1973 (line 2).* Information on other family income must also be collected since this income does clearly contribute to family financial strength and may represent a considerable portion of the parental income of many Basic Grant recipients. Elements of other family income are: Income from tax exempt bonds, that portion of pensions on which no Federal income tax is required, welfare benefits, social security benefits (except those included in effective income of the student), child support payments, income of families which didn't file income tax returns, that portion of capital gains on which no Federal income tax is required, etc.

3. *Parents' annual adjusted income in 1973 (line 3).* Parents' annual adjusted income is the sum of parents' adjusted gross income (line 1) plus other family income (line 2).

4. *Parents' Federal income tax paid for 1973 (line 4).* The legislation requires that a deduction be made, from annual adjusted income, for the amount of Federal income tax paid on income received during the base year.

5. *Effective family income in 1973 (line 5).* The result of subtracting Federal income tax paid (line 4) from the annual adjusted income (line 3) is effective family income and is the base for calculating expected contribution from parental income.

6. *Family size offset (line 6).* In addition to taxes, a family has basic subsistance expenses which must be met before any contribution from income can be expected. These expenses will vary depending on size of the family involved. For purposes of the basic grant, the "Weighted Average Thresholds At the Low Income Level," developed by the Social Security Administration and published by the Bureau of the Census, have been used as a reasonable approximation of basic family expenses.[3] These expenses are based on the food costs of a family of a given size, and make certain assumptions about the additional expenses of shelter and other family needs.

The data are revised annually, and thus can be used to update the family contribution schedules from year to year. The figures supplied by the Bureau of the Census have been incremented by 4 percent to reflect estimated cost of living increases from the fall of 1971 to the present, and then rounded to facilitate calculation. The resulting figures have been called "Family Size Offsets." Their derivation is illustrated below:

DERIVATION OF FAMILY OFFSETS

| *Family size* | *Family size offset* |
|---|---|
| 2 Member Family | 2800 |
| 3 Member Family | 3350 |
| 4 Member Family | 4300 |
| 5 Member Family | 5050 |
| 6 Member Family | 5700 |
| 7 Member Family | 6300 |
| 8 Member Family | 7000 |
| 9 Member Family | 7700 |
| 10 Member Family | 8400 |
| 11 Member Family | 9100 |
| 12 Member Family | 9800 |

*Census Bureau category "7 or more persons" are for 8 member family. Values for family size 7–12 have been extrapolated.

7. *Unusual expenses (line 7).* The Basic Grant program is required by law to take into consideration two kinds of unusual expenses, those arising from a "catastrophe" and "unusual medical expenses." It is proposed to use the Internal Revenue Service definitions of medical and dental expenses and casualty loss in determining "unusual expenses" for the Basic Grant program. The use of Internal Revenue Service definitions avoids the need for creating a new definition of expenses which would be used only by the Basic Grants program. However, some distinction must be made between expenses which may be itemized for income tax purposes, and those itemized expenses which are "unusual" as used for the Basic Grant legislation.

For purposes of the Basic Grant program, those items which may be included as unusual expenses are:

1. Those medical and dental expenses (not compensated by insurance or otherwise) which may be listed as "medicine and drugs" on line 2 of Schedule A, Form 1040 of the Internal Revenue Service and those expenses which may be listed as "Other Medical and Dental Expenses" on line 6 of Schedule A, Form 1040. The gross amount of all such medical, dental and drug expenses is to be used in the Basic Grant calculation.

2. Those casualty or theft loss(es) permitted by the Internal Revenue Service (Form 1040, Schedule A, line 30).

The amount of unusual expenses which may be deducted from effective family income (line 5 of this illustration) is that amount of unusual expenses (as defined above) in excess of 20 percent of effective family income. This exclusion is designed to confine claims for such expenses to those which are genuinely unusual.

8. *Employment expense offset (line 8).* In constructing budgets which recognize expenses for families, due provision must be made for the expenses of the breadwinner which occur as a result of employment itself. Some expenses for clothing, transportation, and other items are attributable to occupational needs. When both parents work, additional employment expenses are incurred. Also, if a household is headed by a single parent, the costs associated with that employment are greater than for a comparable worker who has the economic advantage of a nonemployed spouse. Therefore in the determination of family contribution an "Employment Expense Offset" has been constructed to treat more equitably the income of the two parent family where both parents work, or the single parent household. It is recognized that both of these types of families will occur frequently in the lower income families where Basic Grant eligibility is greatest. The offset provides that 50 percent of the earnings of that parent with the lesser earnings, or 50 percent of the earnings of the single parent, will be protected from any contribution toward education. The maximum offset is $1,500 and would thus assure that up to $30 a week would be available for the additional expenses which these parents face.

9. *Total offsets against income (line 9).* The sum of line 6 (family size offset) plus line 7 (unusual expenses) plus line 8 (employment expense offset) is the total amount which can be deducted from effective family income (line 5) in order to determine discretionary parental income.

10. *Discretionary income (line 10).* The income which remains after allowance has been made for family living expenses, Federal income taxes, unusual expenses and the employment expense offset may be identified as discretionary income. This income is available for the purchases of goods and services which enhance the standard of living of the family including the cost of postsecondary education.

11. *Net assets of parents (line 11).*—For purposes of Basic Grants, the following types of assets will be considered: Equity in farm, business, home, other real estate, stocks, bonds, other investments, savings accounts, etc. Since equity is being measured, debts against the stated assets will be deducted in evaluating the net worth of these assets.

12. *Asset adjustment in cases of negative discretionary income (line 12).*—In measuring family financial strength both income and assets must be considered. Very low income families may have a strong enough asset position such that a contribution from those assets can be expected. At the same time, the calculation of discretionary income for those families may yield a negative amount due to the low level of income. Therefore, in order to arrive at a family contribution which more equitably treats both the income and the assets of these families, an amount sufficient to offset the negative discretionary income is subtracted from the net assets. The resulting amount of adjusted net assets becomes the base from which the contribution from assets is expected.

13. *Discretionary income (line 13).*—In cases where the discretionary income on line 10 is a negative amount a zero is entered here. Where line 10 is a positive amount, that positive amount is repeated here.

14. *Net other assets of parents (line 14).*—For purposes of basic grants the following types of other assets will be considered: automobiles, boats, art objects, electronic sound and visual equipment, jewelry, antiques, cameras, etc., each of which has a value of $500 or more. Since equity is being measured, debts against the stated assets will be deducted in evaluating the net worth of these assets.

15. *Standard income contribution rate (line 15).*—A contribution of 20 percent is expected from the first $5,000 of discretionary income. When discretionary income exceeds $5,000, the expected income contribution is $1,000 plus 30 percent of the amount in excess of $5,000. The contribution rates will generally be at the 20 percent level for most of the income range where basic grant eligibility will occur.

These contribution rates appear reasonable in terms of the several demands made on family income especially in light of the fact that the cost of supporting the student for the academic year is included in the cost of education and does not have to be met from the general budget resources.

The illustrative chart below shows the expected family contribution from annual adjusted family income which does not reflect adjustments for Federal income taxes paid, unusual expenses, or employment expense offset.

CONTRIBUTION FROM ANNUAL ADJUSTED FAMILY INCOME FOR DEPENDENT STUDENTS

| Annual adjusted* family income | Family Size | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| $3,000 | $34 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 |
| 4,000 | 216 | $117 | 0 | 0 | 0 | 0 | 0 | 0 | 0 |
| 5,000 | 375 | 289 | $120 | 0 | 0 | 0 | 0 | 0 | 0 |
| 6,000 | 543 | 458 | 291 | $163 | $64 | 0 | 0 | 0 | 0 |
| 7,000 | 708 | 625 | 460 | 334 | 236 | $127 | 0 | 0 | 0 |
| 8,000 | 870 | 789 | 636 | 502 | 406 | 299 | $180 | $99 | 0 |
| 9,000 | 1,022 | 953 | 791 | 669 | 576 | 469 | 333 | 235 | $116 |
| 10,000 | 1,303 | 1,181 | 959 | 838 | 746 | 642 | 526 | 410 | 292 |
| 11,000 | 1,555 | 1,432 | 1,190 | 1,008 | 914 | 812 | 698 | 583 | 467 |
| 12,000 | 1,800 | 1,684 | 1,442 | 1,260 | 1,122 | 980 | 868 | 755 | 640 |
| 13,000 | 2,049 | 1,928 | 1,693 | 1,511 | 1,374 | 1,221 | 1,054 | 925 | 811 |
| 14,000 | 2,281 | 2,166 | 1,930 | 1,755 | 1,620 | 1,467 | 1,300 | 1,133 | 977 |
| 15,000 | 2,515 | 2,400 | 2,164 | 1,989 | 1,858 | 1,710 | 1,543 | 1,376 | 1,209 |
| 16,000 | 2,745 | 2,634 | 2,398 | 2,223 | 2,092 | 1,947 | 1,786 | 1,619 | 1,452 |
| 17,000 | 2,970 | 2,861 | 2,632 | 2,457 | 2,326 | 2,181 | 2,020 | 1,860 | 1,695 |
| 18,000 | 3,169 | 3,065 | 2,857 | 2,688 | 2,560 | 2,415 | 2,254 | 2,094 | 1,933 |
| 19,000 | 3,420 | 3,311 | 3,082 | 2,913 | 2,790 | 2,649 | 2,488 | 2,328 | 2,167 |
| 20,000 | 3,640 | 3,536 | 3,307 | 3,138 | 3,015 | 2,876 | 2,722 | 2,562 | 2,401 |

*Adjusted gross income plus nontaxable income.

16. *Available parental assets (line 16).*—In order to determine the amount of parental assets which can be assessed for contribution for educational purposes, an asset reserve of $7,500 is subtracted from the net assets of parents. Since families accumulate assets for several purposes including retirement, future consumption, the postsecondary education of their children and the provision of an economic buffer in the event of catas-

[1] Reference numbers are keyed to the line numbers in preceeding summary.

[3] From "Weighted Average Thresholds At the Low Income Level" in 1971 by size of family and sex of head, by farm-nonfarm residence; current population reports, consumer income, characteristics of the low-income population; 1971 series p. 60, No. 82, July 1972.

V 38 184 SEP 24 73 XUM

trophe, some portion of assets should be reserved from any contribution toward postsecondary education, and remaining assets be assessed at some rate less than 100 percent. After a review of the available data, it was decided that $7,500 was an adequate asset reserve since it appears that average home equity for the families of the majority of basic grant recipients may be in approximately this amount. If data from the Department of the Census are read in conjunction with the Survey of Economic Opportunity. In addition, the $7,500 amount would allow for emergencies and retirement needs.

17. *Asset assessment rate (line 17).*—Once the available parental assets have been determined, a contribution rate of 5 percent will be assessed on the parents' net worth in excess of $7,500. Because the value of assets grows, this rate of asset assessment will generally leave the family's asset position largely unimpaired.

18. *Parental contribution from assets (line 18).*—The result of multiplying the available parental assets (line 16) by the assets assessment rate (line 17) is the expected parental contribution from assets.

19. *Available other parental assets (line 19).*—In order to determine the amount of other parental assets which can be assessed for contribution for educational purpoes, an other asset reserve of $7,500 is subtracted from the net other assets of parents (line 14).

20. *Other asset assessment rate (line 20).*—Once the available other parental assets have been determined, a contribution rate of 5 percent will be assessed on the parents' net worth in excess of $7,500.

21. *Parental contribution from other assets (line 21).*—The result of multiplying the available other parental assets (line 19) by the other assets assessment rate (line 20) is the expected parental contribution from other assets.

22. *Standard parental contribution from income, assets, and other assets (line 22).*—The standard parental contribution (contribution before multiple student adjustment) from income, assets, and other assets is determined by adding the contribution from income (line 15), the contribution from assets (line 18), and the contribution from other assets (line 21).

23. *Multiple student adjustment (line 23).*—Adding the Parental Income Contribution to the parental asset contribution and the other parental asset contribution results in the expected contribution from parents with one family member in postsecondary education. Some adjustment must then be made for those families in which more than one family member will be enrolled in postsecondary education for the academic year 1974–75.

Since each student has an allowance for costs of attendance, the family's discretionary income is effectively increased when there is more than one family member in postsecondary education. In order to determine the appropriate percentages, the contributions expected from different family sizes were compared. These investigations indicated that 140 percent of the contribution for one child would be a reasonable assessment against the family with two students. Thus, each student would receive 70 percent of the contribution which the family would make if there were only one student in the family. Similarly, 150 percent of the single student contribution seemed adequate for the family with three children in postsecondary education; each student could expect 50 percent of the single student contribution. For families with four or more students, each family will be assessed 40 percent of the single student contribution for each child in postsecondary education.

The following table summarizes the treatment of families with different numbers of family members in postsecondary education:

| Number of students | Contribution per student as a percent of standard contribution | Family contribution for all students as a percent of standard contribution |
|---|---|---|
| | *Percent* | *Percent* |
| 1 | 100 | 100 |
| 2 | 70 | 140 |
| 3 | 50 | 150 |
| 4 or more | 40 | 160+ |

24. *Effective income of the student (line 24).*—For purpose of the Basic Grants program effective income of the student is: That amount of social security benefits paid to or on behalf of a student because he is a student; and one-half of that amount of veteran's readjustment benefits and/or war orphan's benefits (exclusive of dependency allowances) paid to or on behalf of a student because he is a student. In both cases the amount is the total to be received during the academic year for which Basic Grant assistance is requested. Veteran's dependency allowance are clearly not for the support of the Veteran himself. Therefore they are included with and given the same treatment as "other family income".

25. *Net assets of the student (line 25).*—The applicant's net assets would be defined in the same fashion as the assets of the parents. Debts against these assets would be deducted. Trust funds in the student's name would be included.

26. *Student asset assessment rate (line 26).*—In determining a fair treatment of student assets the theory of the major need analysis systems has been followed; i.e., that because the student himself is the direct beneficiary of postsecondary education, he should be expected to invest a greater portion of his resources in meeting his educational costs than should be expected from his parents.

Usual financial aid procedures divide a student's assets by the number of years remaining for a 4-year program of postsecondary education. The result of this division is considered to be the student's asset contribution.

For the Basic Grants program, a different treatment of student assets is employed. One-third of the student's assets (recalculated each year) would be expected. This method is simple, provides a modest reserve for the student, and avoids the assumption that all students are enrolled in a traditional 4-year program.

27. *Student's contribution from assets (line 27).*—The result of multiplying the student's net assets (line 25) by the student asset assessment rate (line 26) is that amount expected from student assets for educational purposes.

28. *Total family contribution (line 28).*—The total expected family contribution for a dependent student is determined by adding line 23 plus line 24 plus line 27.

EXPECTED FAMILY CONTRIBUTION FOR INDEPENDENT STUDENTS, ACADEMIC YEAR 1974–75

Summary of Calculations

EXPECTED FAMILY CONTRIBUTION FOR INDEPENDENT STUDENTS ACADEMIC YEAR 1974–75

*Explanation of calculations.*[1] For the purposes of the Basic Grants program, independent (self-supporting) student status may be claimed if the applicant:

(1) Has not been and will not be claimed as an exemption for Federal income tax purposes by any person except his or her spouse for the calendar year(s) in which aid is received and the calendar year prior to the academic year for which aid is requested, and

(2) Has not received and will not receive financial assistance of more than $600 (in cash or kind) from his or her parent(s) in the calendar year(s) in which aid is received and the calendar year prior to the academic year for which aid is requested, and

(3) Has not lived or will not live for more than two consecutive weeks in the home of a parent during the calendar year(s) in which aid is received and the calendar year prior to the academic year for which aid is requested.

Once a student has been determined to meet these criteria and is defined as an independent student, his expected family contribution is calculated according to the process outlined below.

[1] Reference numbers are kneyed to line items of preceding summary.

1. *Effective income of student (line 1).* For purposes of the Basic Grants program. Effective income of the student is: That amount of social security benefits paid to or on behalf of the student because he is a student; and, one-half of the amount of veteran's readjustment benefits and/or war orphan's benefits (exclusive of dependency allowances) paid to or on behalf of a student because he is a student. In both cases, the amount is the total to be received during the academic year for which Basic Grant assistance is requested. Dependency allowances are clearly not for the support of the Veteran himself. Therefore they are included with, and given the same treatment as, "other family income".

2. *Adjusted gross income of applicant (and spouse) (line 2).* All income which is available to the applicant (and spouse) should be considered in the evaluation of ability to support the cost of postsecondary education. The most valid reference for taxable income is the adjusted gross income item in the Federal income tax return. This information is readily available and can be verified by referring to the IRS forms actually filed.

The decision as to which year's income is to be considered is a difficult one for independent students. Traditionally, a student's income may vary considerably from year to year. While it may be preferable to ask the student to estimate his earnings for the current year, obtaining realistic projections of earnings would not be possible without establishing counseling centers where students could be assisted in preparing this information.

Because this is not feasible at this time, it has been determined that the adjusted gross income to be considered is that amount entered on the previous year's Federal income tax form.

This also has the advantage of being consistent with the data collected for dependent students and assures that the family contribution of all students is determined from the same base.

3. *Other income of the independent student (line 3).* Information on other income of the independent student must also be collected since this income does clearly contribute to financial strength and may represent a considerable portion of the income of many Basic Grant recipients. Elements of other income are: Income from tax exempt bonds, that portion of pensions on which no Federal income tax is required, that portion of capital gains on which no Federal income tax is required, welfare benefits, social security retirement, child support payments, veteran's disability, income of persons who did not file income tax returns, etc.

4. *Annual adjusted family income of applicant (and spouse) (line 4).*—Annual adjusted family income is the sum of adjusted gross income (line 2), and other family income (line 3).

5. *Federal income tax paid by applicant (and spouse) (line 5).* The legislation requires that a deduction be made, from annual adjusted income, for the amount of Federal income tax paid on income received during the base year.

6. *Effective family income (line 6).* The result of subtracting Federal income tax paid (line 5) from the annual adjusted family income (line 4) is effective family income.

7. *Family size offset (line 7).* In addition to taxes, there are basic subsistence expenses which must be met before any contribution from income can be expected. These expenses will vary depending on the size of the family involved. For the single independent student, this offset is $700 which covers the student's summer living expenses. Using the same base for deriving family size offsets as is used for multiple member families (weighted average thresholds at the low-income level) and adjusting for an estimated 4 percent inflation, the family size offset for a single member family is $2,114 per year. Generally, a student is in school for approximately 65 percent of the year (two 16-week semesters plus a 2-week break between semesters). Since his expenses during this 34-week academic year are covered in his cost of attendance, the $700 offset provides for his expenses during that period of time when he is not in school.

For married independent students and those with additional dependents, the family size offset is the same as that for the parent's of dependent students:

| *Family size* | *Family size offset* |
|---|---|
| 2 | $2, 800 |
| 3 | 3, 350 |
| 4 | 4, 300 |
| 5 | 5, 050 |
| 6 | 5, 700 |
| 7 | 6, 300 |
| 8 | 7, 000 |
| 9 | 7, 700 |
| 10 | 8, 400 |

8. *Unusual expenses (line 8).*—The Basic Grants program is required by law to take into consideration at least two kinds of unusual expenses, those arising from a "catastrophe" and "unusual medical expenses." It is proposed to use the Internal Revenue Service definitions for medical and dental expenses and casualty loss(es) to constitute "unusual expenses" for the Basic Grants program. The use of Internal Revenue Service definitions avoids the need for creating a new definition of expenses which would be used only by the Basic Grants program. However, some distinction must be made between expenses which may be itemized for income tax purposes, and those itemized expenses which are "unusual" for Basic Grants.

For purposes of the Basic Grants program those items which may be included as unusual expenses are:

1. Those medical and dental expenses incurred during the base year (not compensated by insurance or otherwise) which may be listed as "medicine and drugs" on line 2 of Schedule A, Form 1040 of the Internal Revenue Service and those expenses which may be listed as "Other Medical and Dental Expenses" on line 6 of Schedule A, Form 1040. The gross amount of all medical, dental and drug expenses may be listed.

2. In addition, those casualty or theft loss(es) incurred during the base year permitted by the Internal Revenue Service (Form 1040, Schedule A, line 30).

The amount of unusual expenses which may be deducted is that amount of unusual expenses (as defined above) in excess of 20 percent of the effective family income. This exclusion is designed to confine claims for such expenses to those which are genuinely unusual.

9. *Employment expense offset (line 9).* In constructing budgets which recognize minimum expenses for families, provision must be made for the expenses of the breadwinner which occur as a result of employment itself. Some expenses for clothing, transportation, food, and other items are attributable to occupational needs. When two persons work, additional employment expenses are incurred Also, if a household is headed by a single person, the costs associated with that employment are greater than for a comparable worker who has the economic advantage of a nonemployed spouse. Therefore, in the determination of family contribution an "Employment Expense Offset" has been constructed to treat more equitably the income of the two-person family where both persons work during the base year, or the single person who heads a household during the base year. It is recognized that both of these types of families will occur frequently in the lower income families where Basic Grants eligibility is greatest. The offset provides that 50 percent of the earnings of that person with the lesser earnings, or 50 percent of the earnings of the single head of household, will be protected from any contribution toward education. The maximum offset would be $1,500 and would thus assure that up to $30 a week would be available for the additional expenses which these persons face.

10. *Total offsets from income (line 10).* The sum of line 7 (family size offset) plus line 8 (unusual expenses) plus line 9 (employment expense offset) is the total amount which can be deducted from effective family income (line 8) in order to determine discretionary income.

11. *Discretionary income (line 11).* The income which remains after adjustment has been made for family living expenses, Federal income taxes, unusual expenses and the employment expense offset may be identified as discretionary income. This income is available for the purchase of goods and services which enhance the standard of living of the family, including postsecondary education.

12. *Net assets of applicant (and spouse) (line 12).* For purposes of Basic Grants, the following types of assets will be considered: Equity in farm, business, home, other real estate, stocks, bonds, other investments, savings accounts, etc. Since equity is being measured, debts against the stated assets will be deducted in evaluating the net worth of these assets.

13. *Asset adjustment in cases of negative discretionary income (line 13).*—In measuring family financial strength both income and assets must be considered. Very low income families may have a strong enough asset position such that a contribution from those assets can be expected. At the same time, the calculation of discretionary income for those families may yield a negative amount due to the low level of income. Therefore, in order to arrive at a family contribution which more equitably treats both the income and the assets of these families, an amount sufficient to offset the negative discretionary income is subtracted from the net assets. The resultant amount of adjusted net assets becomes the base from which the contribution from assets is expected.

14. *Discretionary income (line 14).*—In cases where the discretionary income on line 11 is a negative amount a zero is entered here. Where line 11 is a positive amount, that positive amount is repeated here.

15. *Net other assets of applicant (and spouse) (line 15).*—For purposes of Basic Grants, the following types of other assets will be considered: automobiles, boats, art, objects, electronic sound and visual equipment, jewelry, antiques, cameras, etc., each of which has a value of $500 or more. Since equity is being measured, debts against the stated assets will be deducted in evaluating the net worth of these assets.

16. *Standard income contribution rate (line 16).*—Because of the direct benefits of postsecondary education received by the independent student, the expected contribution rate for such students from income has traditionally been much greater than the rate applied to the discretionary income of the parents of dependent students. In fact, the independent student has usually been expected to use all of his discretionary income for educational purposes.

In developing a system for the Basic Grants program, it was felt that a 100 percent contribution rate was excessive, espe-

V 38-184
SEP 24 73
XUM

cially for independent students with family responsibilities.

The following income contribution schedule was developed to accommodate these responsibilities:

(a) 75 percent of discretionary income for the single independent student with no dependents.

(b) 50 percent of discretionary income for the married independent student with no dependents other than spouse.

(c) 40 percent of discretionary income for independent students who have dependents other than spouse.

The amount of expected contribution from annual adjusted family income is shown in the illustrative charts at the end of this paper. Annual adjusted family income does not reflect the adjustments for Federal income taxes paid, unusual expenses, or employment expense offset.

17. *Asset contribution rate (line 17).*—In determining a fair treatment of student assets, it has been assumed that since a student is the direct beneficiary of postsecondary education, he should be expected to invest a greater portion of his resources in meeting his educational costs than would be expected from his parents.

Existing financial aid procedures divide a student's assets by the number of years remaining in a 4-year program of postsecondary education. The result of this division is considered to be the student asset contribution.

For the Basic Grants program, a different treatment of student assets is employed. One-third of the student's assets (recalculated each year) would be expected. This method is simple, provides a modest reserve for the student, and avoids the assumption that a student is enrolled in a traditional 4-year program.

18. *Contribution from assets (line 18).*—The result of multiplying the student's net assets (line 13) by the student asset assessment rate (line 17) is that amount expected from student assets for educational purposes.

19. *Available other assets of applicant (and spouse) (line 19).*—In order to determine the amount of other assets which can be assessed for contribution for educational purposes, an other asset reserve of $7500 is subtracted from the net other assets (line 15).

20. *Other asset contribution rate (line 20).*—A contribution rate of 33 percent (recalculated each year) is expected from other assets.

21. *Contribution from other assets (line 21).*—The result of multiplying the student's net other assets (line 15) by the student's other asset assessment rate (line 20) is that amount expected from students' other assets for educational purposes.

22. *Standard contribution from income, assets, and other assets (line 22).*—The standard contribution (contribution before multiple student adjustment) from income, assets, and other assets is determined by adding the contribution from income (line 16), the contribution from assets (line 18) and the contribution from other assets (line 21).

23. *Multiple student adjustment (line 23).*—Adding the Income Contribution from annual adjusted family income to the asset contribution and the other asset contribution results in the expected contribution for one family member in postsecondary education from family income and assets. Some adjustment must then be made for those families in which more than one family member will be enrolled in postsecondary education for the academic year 1974–75.

Since each student has an allowance for costs of attendance, the family's discretionary income is effectively increased when there is more than one family member in postsecondary education. In order to determine the appropriate percentages, the contributions expected from different family sizes were compared. These investigations indicated that 140 percent of the contribution for one child would be a reasonable assessment against the family with two students. Thus, each student would receive 70 percent of the contribution which the family would make if there were only one student in the family. Similarly, 150 percent of the single student contribution seemed adequate for the family with three children in postsecondary education; each student could expect 50 percent of the single student contribution. For families with four or more students, each family will be assessed 40 percent of the single student contribution for each child in postsecondary education.

The following table summarizes the treatment of families with different numbers of family members in postsecondary education:

| Number of students | Contribution per student as a percent of standard contribution | Family contribution for all students as a percent of standard contribution |
|---|---|---|
| | *Percent* | *Percent* |
| 1 | 100 | 100 |
| 2 | 70 | 140 |
| 3 | 50 | 150 |
| 4 or more | 40 | 160+ |

24. *Total family contribution (line 24).*—The total expected family contribution for an independent student is determined by adding line 1 plus line 23.

CONTRIBUTION FROM ANNUAL ADJUSTED INCOME FOR INDEPENDENT STUDENTS—NO DEPENDENTS

# REMINDERS

NOTE: There were no items published after October 1, 1972, that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 15—Commerce and Foreign Trade

## CHAPTER X—OFFICE OF FOREIGN DIRECT INVESTMENTS, DEPARTMENT OF COMMERCE

## FOREIGN DIRECT INVESTMENT REGULATIONS

### Revision of Parts

The Office of Foreign Direct Investment (the Office) publishes hereinafter a complete composite of the Foreign Direct Investment Regulations (the Regulations) as amended to date. The amended Regulations include changes published in the FEDERAL REGISTER on September 6, 1972, February 3, 1973, May 17, 1973, and June 25, 1973.

In this edition of the regulations the Office also promulgates a minor amendment to section 319 of the Foreign Direct Investment Regulations. The countries designated under section 319(b) are amended to include the Iraq-Saudi Arabia Neutral Zone as an additional "country" and, commencing May 15, 1972, the Ryukyu Islands as part of Japan.

This amendment takes effect September 25, 1973. These designations of additional Schedule B Areas represent clarifications of the Regulations. Accordingly it is unnecessary to have notice or public procedure regarding the change.

ROBERT H. ENSLOW,
*Director, Office of Foreign Direct Investments.*

Accordingly, Parts 1000, 1025, 1030, 1035, 1040, and 1050 are revised to read as follows:

## PART 1000—FOREIGN DIRECT INVESTMENT REGULATIONS

### Subpart A—Relation of This Part to Other Laws and Regulations

Sec.
1000.101 Relation of this part to other laws and regulations.

### Subpart B—Prohibitions

1000.201 Prohibited direct investment in affiliated foreign nationals.
1000.202 Repatriation of direct investment earning. (REVOKED)
1000.203 Liquid foreign balances.
1000.204 Evasion.

### Subpart C—General Definitions

1000.301 Foreign country.
1000.302 Foreign national.
1000.303 Nationals of more than one foreign country. (REVOKED)
1000.304 Affiliated foreign national.
1000.305 Direct investor.
1000.306 Positive and negative direct investment.
1000.307 Person; corporation.
1000.308 Transfer.
1000.309 Property; property interest.
1000.310 Interest.
1000.311 Banking institution. (REVOKED)
1000.312 Transfers of capital.
1000.313 Net transfer of capital.
1000.314 Authorization and exemption.
1000.315 General authorization and exemption.
1000.316 Specific authorization and exemption.
1000.317 Domestic bank; foreign bank.
1000.318 United States.
1000.319 Schedule A, B, and C countries.
1000.320 Effective date.
1000.321 Year; period.
1000.322 Person within the United States.
1000.323 International finance subsidiary.
1000.324 Long-term foreign borrowing.
1000.325 Incorporated and unincorporated affiliated foreign nationals. (proposed but withdrawn prior to adoption; see § 1000.304 (b) (3)).

### Subpart D—Interpretations

1000.401 Reference to amended sections.
1000.402 Effect of amendment of sections of this part or of other orders, etc.
1000.403 Transactions between principal and agent. (REVOKED)
1000.404 Distribution, apportionment or allocation of earnings.

### Subpart E—Authorizations or Exemptions

1000.501 Exclusion from authorization or exemption.
1000.502 Elections with respect to §§ 1000.503 and 1000.504.
1000.503 Positive direct investment not exceeding $6,000,000; minimum allowable.
1000.504 Authorized positive direct investment in scheduled areas; schedular allowables.
1000.505 Transfers between affiliated foreign nationals.
1000.506 Additional authorized positive direct investment in any one or more scheduled areas; incremental earnings allowable.
1000.507 Alternative minimum and Schedule A supplemental allowable. (REVOKED)

### Subpart F—Records and Reports

1000.601 Records.
1000.602 Reports.

### Subpart G—Penalties

1000.701 Penalties.
1000.702 Effect upon lenders.

### Subpart H—Procedures

1000.801 Applications for specific authorizations and exemptions.
1000.802 Petition for reconsideration; appeals.
1000.803 Proof of authority to file certain documents.
1000.304 Amendment, modification, or revocation.
1000.805 Rules governing availability of information.
1000.806 Delegations.

### Subpart I—Direct and Indirect Interests; Affiliated, Associated and Family Groups; Ownership of Direct Investors; Rules for Reporting

1000.901 Direct interests.
1000.902 Indirect interests.
1000.903 Affiliated groups.
1000.904 Family groups.
1000.905 Associated groups.
1000.906 Ownership of direct investors.
1000.907 Reporting.

### Subpart J—Repayment of Borrowings

1000.1001 Definitions.
1000.1002 Transfers of capital in connection with repayment of borrowings.
1000.1003 Effect of transfers of capital in repayment of borrowings.
General Authorization No. 1—Transfers of Capital. (REVOKED)

### Subpart K—Direct Investment in Canada

1000.1101 Definitions.
1000.1102 Authorized positive direct investment in Canada.
1000.1103 Net transfers of capital to Schedule B countries.
1000.1104 Reinvested earnings—Schedule B countries.
1000.1105 Foreign balances.
1000.1106 Long-term foreign borrowing.
1000.1107 Canadian program.

### Subpart L—Exploration and Development Expenditures (Withdrawn)

### Subpart M—Affiliated Foreign Nationals of Air Carriers Engaged in Foreign Air Transportation

1000.1301 Exclusions.
1000.1302 Foreign air transport allowable.
1000.1303 Adjustment to incremental earning allowable.

### Subpart N—Overseas Finance Subsidiaries

1000.1401 Definitions.
1000.1402 Qualification.
1000.1403 Transfers of overseas proceeds; foreign balances.
1000.1404 Repayment of overseas borrowing and proceeds borrowing.
1000.1405 Authorized repayments.
1000.1406 Substitution of borrowing.
1000.1407 Assumption of debt obligation incurred by overseas finance subsidiary.

### General Authorizations

1 Transfers of Capital. (REVOKED, superseded by Subpart J, Repayment of Borrowings).
2 Limited Authorization to Refrain from Repatriation. (REVOKED)
3 Authorized Transfers of Capital. (REVOKED)
4 Canada—Application of Foreign Direct Investment Regulations (Proposed but withdrawn prior to adoption; superseded by Subpart K, Direct Investment in Canada).

### General Interpretative Rules

1 § 1000.312—Transfer of capital. (REVOKED)
2 G.A.1(2)(b)—Certificate. (REVOKED)
3 § 1000.312—Transfer of capital. (REVOKED)

Identity of Countries in Schedules A, B, and C.

AUTHORITY: The provisions of this Part 1000 issued pursuant to sec. 5 of the Act of Oct. 6, 1917, 40 Stat. 415, as amended, 12 U.S.C. 95a; E.O. 11387, Jan. 1, 1968, 33 FR 47; Department Organization Order 25-3A (formerly Department Order 184-A), Jan. 1, 1968, 33 FR 54.

### Subpart A—Relation of This Part to Other Laws and Regulations

#### § 1000.101 Relation of this part to other laws and regulations.

(a) This part is independent of Title 31 CFR, Chapter V. The prohibitions contained in this part are in addition to the prohibitions contained in said Chapter V. No license contained in or issued pursuant to said Chapter V shall be deemed to authorize any transaction prohibited by this part, nor shall any license or authorization issued pursuant to any other provision of law be deemed to authorize any transaction so prohibited.

(b) No authorization or exemption contained in or issued pursuant to this part shall be deemed to authorize any transaction to the extent that it is prohibited by reason of the provisions of any law or statute other than 12 U.S.C. 95a, as amended, or any proclamation, order, or regulation other than those contained in or issued pursuant to Executive Order 11387 or this part.

(c) No authorization or exemption contained in or issued pursuant to this part shall be deemed to authorize any transaction to the extent that it is prohibited by reason of the provisions of any part of Title 31 CFR.

### Subpart B—Prohibitions

#### § 1000.201 Prohibited direct investment in affiliated foreign nationals.

(a) Except as provided in this part, and as otherwise permitted by the Secretary of Commerce (hereinafter referred to as the Secretary) by means of rulings, instructions, authorizations, waivers, exemptions or otherwise, positive direct investment by a direct investor in affiliated foreign nationals of such direct investor in Schedule A, B, or C countries is prohibited during any year (as defined in § 1000.321) commencing with the effective date.

(b)(1) All transactions prohibited by section 1 of Executive Order 11387 which are not prohibited by this part are hereby authorized.

(2) To the extent delineated from time to time by the Board of Governors of the Federal Reserve System nothing in this part shall apply to any bank or other financial institution certified by the Board as being subject to the Federal Reserve Foreign Credit Restraint Program, or to any program instituted by the Board under section 2 of Executive Order 11387.

(c) Nothing contained in this part shall be construed to limit the right of a person within the United States to make a bona fide transfer of capital or earnings in the ordinary course of business to a foreign national in respect of an interest in such person held by such foreign national.

(d) In addition to all other powers reserved to the Secretary in this part, the Secretary may in his discretion, as to any direct investor, amend or revoke the authorizations set forth in this part by reducing the amount of positive direct investment, positive net transfers of capital and reinvestment of earnings authorized in any scheduled area during a year, by limiting the application of such authorizations and exemptions and of § 1000.201 from "during any year" to periods shorter than a year, and by otherwise imposing such conditions as the Secretary shall deem appropriate to carry out the purposes of this part. In exercising his discretion with respect to any direct investor, the Secretary may consider, among other factors, the following:

(1) Whether the positive direct investment, positive net transfers of capital or reinvestment of earnings by such direct investor in any scheduled area during any quarter is, or may reasonably be estimated to be, materially in excess of 25 percent of the amount thereof generally authorized to such direct investor during the year;

(2) Whether the transactions resulting in such excess during such quarter are in accordance with the customary business practices of the direct investor; and

(3) Whether the direct investor has complied with the provisions of Subpart F.

#### § 1000.202 Repatriation of direct investment earnings. (REVOKED)

#### § 1000.203 Liquid foreign balances.

(a) For purposes of this section:

(1) The term "foreign balances" means money on deposit in a foreign bank (as defined in § 1000.317), including certificates of deposit and fixed interest deposits of such a bank, negotiable instruments, nonnegotiable instruments acquired after June 30, 1968, and commercial paper of an unaffiliated foreign national (other than negotiable instruments, nonnegotiable instruments or commercial paper arising from the export by the direct investor of goods or services from the United States to foreign nationals) and securities issued or guaranteed by a foreign country.

(2) The term "liquid foreign balances" means foreign balances (as defined in paragraph (a)(1) of this section) other than (i) those negotiable instruments, nonnegotiable instruments, commercial paper and securities which are acquired on or before June 30, 1968, and which are not redeemable at the option of the direct investor and are not transferable and readily marketable; (ii) bank deposits, negotiable instruments, nonnegotiable instruments, commercial paper and securities with a period of more than 1 year remaining to maturity when acquired by the direct investor and which are not redeemable in full at the option of the direct investor within a period of 1 year after such acquisition; (iii) foreign balances which are subject to restrictions of a foreign country on liquidation and transfer; and (iv) foreign balances which have been pledged or hypothecated in connection with borrowings by a direct investor or its affiliated foreign nations.

(3) [Revoked]

(4) Foreign balances shall be deemed to be held by a direct investor if title to such balances is held (i) by any person (including an affiliated foreign national of the direct investor) principally formed or availed of for the purpose of holding title to such balances; or (ii) by any person (including an affiliated foreign national of the direct investor), if such balances are returnable to the direct investor on its demand without material conditions and if the holding of such balances is unrelated to the business needs of such person.

(5) Negotiable instruments, nonnegotiable instruments, commercial paper and securities constituting foreign balances shall be valued at their respective fair market values or, if evidence of fair market value is not readily available, at the cost to the direct investor.

(b) Each direct investor shall maintain books and records that identify separately all proceeds of long-term foreign borrowing received with respect to each long-term foreign borrowing made by the direct investor and the uses to which such proceeds have been put.

(c) Each direct investor is hereby required to limit the amount of liquid foreign balances held at the end of any month (other than Canadian foreign balances, as defined in § 1000.1105(a)) to the sum of (1) the amount of available proceeds (as defined in § 1000.324(d)) of such direct investor at the end of such month, plus (2) the greater of (i) the average end-of-month amount of such balances (other than available proceeds in the form of such balances, and Canadian foreign balances) held by such direct investor during 1965 and 1966 (whether or not a direct investor at that time) or (ii) $100,000.

(d) (1) [Revoked]

(2) A direct investor which expended proceeds of long-term foreign borrowing made during 1965 or any succeeding year and deducted the amount of such proceeds from net transfer of capital to a schedule area under § 1000.313(d)(1) may thereafter deduct, during 1973 or any succeeding year, from positive direct investment in a different scheduled area, an amount equal to all or a part of such expended proceeds as are allocated pursuant to this subparagraph. Proceeds shall be allocated in a different scheduled area pursuant to this subparagraph if (i) an entry is made in the books and records maintained by the direct investor under paragraph (b) of this section and § 1000.601; (ii) the allocation and the deduction from positive direct investment in a different scheduled area are reported on the next annual report of the direct investor (Form FDI–102F) filed for the year for which the deduction is made; and (iii) the proceeds with respect to which such deduction is made, as of the end of the year for which the deduction is made and thereafter, are not held, directly or indirectly, in the form of foreign balances or in the form of securities (including debt obligations, equity interests and any other type of investment contract) of foreign nationals or in the form of any other foreign property: *Provided*, That such proceeds may remain expended in an affiliated foreign national or again be expended at any time in making transfers of capital to affiliated foreign nationals. The direct investor shall be deemed at the time of such deduction from positive direct investment in a different scheduled area to have made a transfer of capital equal to the amount of such deduction to the scheduled area in which the deduction from net transfer of capital under § 1000.313(d)(1) was previously made. The direct investor may thereafter continue to change the scheduled area in which a deduction from positive direct investment is made, up to the amount of proceeds of long-term foreign borrowing expended in making the original transfer of capital for which a deduction under § 1000.313(d)(1) was made: *Provided*, That each time such change occurs, the direct investor shall be deemed to have

V 38 185 SEP 25 73 XUM

made a transfer of capital to the immediately previous scheduled area in the amount of the deduction from positive direct investment in the subsequent scheduled area.

(3) A direct investor which, during 1968 or any succeeding year, allocates proceeds of long-term foreign borrowing and deducts the amount of such proceeds from positive direct investment in a scheduled area under § 1000.306(e), may, during 1969 or any succeeding year, reallocate all or part of such proceeds of long-term foreign borrowing to positive direct investment in another scheduled area. The direct investor which makes a reallocation under this paragraph (d)(3) of this section shall be deemed at the time of such reallocation to have made a transfer of capital equal to the amount so reallocated to the scheduled area in which the proceeds of long-term foreign borrowing were allocated immediately prior thereto. The direct investor may thereafter continue to reallocate to different scheduled areas, up to the amount of proceeds of long-term foreign borrowing previously allocated: *Provided*, That each time such reallocation occurs, the direct investor shall be deemed to have made a transfer of capital equal to the amount so reallocated to the scheduled area to which the proceeds of long-term foreign borrowing were allocated or reallocated immediately prior to such reallocation.

(e) [Revoked]

**§ 1000.204 Evasion.**

Anything in this part to the contrary notwithstanding, any transaction for the purpose of, or which has the effect of, evading or avoiding any of the provisions set forth in this part may be disregarded in whole or in part for purposes of measuring compliance with the provisions of this part.

## Subpart C—General Definitions

**§ 1000.301 Foreign country.**

The term "foreign country" includes, but not by way of limitation:

(a) The state and the government of any foreign country as well as any political subdivision, agency, or instrumentality thereof or any territory, dependency, colony, protectorate, mandate, dominion, possession or place subject to the jurisdiction thereof.

(b) Any other government (including any political subdivision, agency, or instrumentality thereof) to the extent and only to the extent that such government exercises or claims to exercise control, authority, jurisdiction or sovereignty over territory which constitutes such foreign country.

(c) [Revoked]

(d) Any territory which is controlled or occupied by the military, naval or police forces or other authority of a foreign country.

**§ 1000.302 Foreign national.**

(a) The term "foreign national" means a foreign country (as defined in § 1000.301) and any person which is not a person within the United States (as defined in § 1000.322), including a corporation or partnership organized under the laws of a foreign country (as defined in § 1000.304(a)(1)(i)), a business venture conducted within a foreign country (as defined in § 1000.304(a)(1)(ii) and (iii)), and a foreign bank (as defined in § 1000.317(b)).

(b) Notwithstanding the provisions of paragraph (a) of this section, the Secretary retains full power to determine that any person is a foreign national.

**§ 1000.304 Affiliated foreign national**

(a) Except as provided in paragraphs (b)(4), (c), and (d) of this section, the term "affiliated foreign national" of a person within the United States includes each of the following in which such person owns, directly or indirectly, a 10-percent interest:

(1) A corporation or partnership organized under the laws of a foreign country (including all business ventures conducted by employees or partners of such corporation or partnership on behalf of such corporation or partnership within any foreign countries assigned to the same scheduled area as the country of organization);

(2) A business venture conducted within a foreign country on behalf of such person within the United States by such person or by employees or partners of such person; and

(3) A business venture conducted on behalf of a corporation or partnership organized under the laws of a foreign country by employees or partners of such corporation or partnership if the business venture is conducted within a foreign country which is not assigned to the same scheduled area as the country of organization.

For purposes of determining whether a business venture conducted on behalf of a foreign corporation or partnership is a separate affiliated foreign national, Canada shall be deemed to be in a scheduled area other than Schedule B.

(b)(1) A corporation or partnership referred to in paragraph (a)(1) of this section is an affiliated foreign national in the scheduled area in which the foreign country under whose laws it is organized is located. A business venture referred to in paragraph (a)(2) or (3) of this section is an affiliated foreign national in the scheduled area in which the business is conducted: *Provided*, That, if such a business venture is conducted in more than one scheduled area during any year, the scheduled area in which the business venture is conducted for the greatest period of time during such year shall, for purposes of this section, be deemed the only scheduled area in which the business venture is conducted during such year.

(2) The term "10 percent interest," when used with respect to any corporation, partnership or business venture referred to in paragraph (a) of this section, means (i) 10 percent or more of the total combined voting power of all outstanding securities of such corporation or (ii) 10 percent or more of the profit interest in such partnership or business venture. Whether a person within the United States directly or indirectly owns a 10 percent interest in a corporation, partnership or business venture referred to in paragraph (a) of this section shall be determined in accordance with the provisions of §§ 1000.901 and 1000.902.

(3) For purposes of this part, the term "incorporated affiliated foreign national" includes a corporation described in paragraph (a)(1) of this section and the term "unincorporated affiliated foreign national" includes a partnership described in paragraph (a)(1) of this section and a business venture described in paragraph (a)(2) or (3) of this section.

(4) Notwithstanding the provisions of paragraph (a) of this section and the foregoing provisions of this paragraph (b), the Secretary retains full power, with respect to any person within the United States, to determine that any person is an affiliated foreign national of such person within the United States and to determine the scheduled area in which such affiliated foreign national is located.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a corporation, partnership or business venture referred to in paragraph (a) of this section shall not be considered an affiliated foreign national of a person within the United States if the operations of such corporation, partnership, or business venture consist solely of charitable, educational, religious, scientific, literary, or other similar activities not engaged in for profit.

(d) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a business venture referred to in paragraph (a)(2) or (3) of this section shall not be considered an affiliated foreign national of a person within the United States during any year if (1) the business venture does not have or involve, at any time during such year, gross assets of more than $50,000 (valued at the greatest of cost, book value, replacement value or market value); or (2) the business venture is commenced during such year and is not reasonably expected to be conducted within one or more foreign countries for more than 12 consecutive months; or (3) the business venture is terminated during such year and was not in fact conducted within one or more foreign countries for more than 12 consecutive months.

**§ 1000.305 Direct investor.**

The term "direct investor" means any person within the United States which directly or indirectly owns or acquires a 10-percent interest in a corporation or partnership organized under the laws of a foreign country or in a business venture conducted within a foreign country as described in § 1000.304.

**§ 1000.306 Positive and negative direct investment.**

(a) Direct investment by a direct investor in all affiliated foreign nationals in any scheduled area during any period means:

(1) The net transfer of capital (as defined in § 1000.313(c)) made during such period by the direct investor to all incorporated and unincorporated affiliated foreign nationals in such scheduled area; and

(2) The direct investor's share in the total reinvested earnings of all incorporated affiliated foreign nationals in such scheduled area during such period (computed in accordance with paragraphs (b) and (c) of this section).

(3) If the sum of paragraphs (a)(1) and (2) of this section is in excess of zero, the direct investment during such period shall be positive direct investment; if a negative amount, it shall be negative direct investment.

(b) A direct investor's share in the total reinvested earnings of all incorporated affiliated foreign nationals in any scheduled area during any period means the direct investor's share in the total earnings or losses during such period of such incorporated affiliated foreign nationals (computed in accordance with paragraph (c) of this section) less an amount (which may be positive or negative) obtained by subtracting (1) the sum of (i) the direct investor's share of all dividends paid during such year to such affiliated foreign nationals by incorporated affiliated foreign nationals of the direct investor in other scheduled areas and (ii) the direct investor's share of all earnings remitted during such year to such affiliated foreign nationals by unincorporated affiliated foreign nationals of the direct investor in other scheduled areas from (2) the sum of (x) all dividends paid during such year by such affiliated foreign nationals to the direct investor and (y) the direct investor's share of all dividends paid during such year by such affiliated foreign nationals to affiliated foreign nationals of the direct investor in other scheduled areas: *Provided*, That, in calculating a direct investor's share in the total reinvested earnings of incorporated affiliated foreign nationals for any year (including the years 1965 and 1966), a direct investor may elect, in such manner as the Secretary may determine, to treat dividends paid within 60 days after the end of the year as having been paid during such year.

(c) Computations of earnings or losses of affiliated foreign nationals under this section or any other provision of this part shall (except as otherwise provided herein) be made in accordance with accounting principles generally accepted in the United States and consistently applied: to the extent such principles are reflected in reports to stockholders, the computation shall follow the principles used in preparing such reports. The earnings or loss of each incorporated affiliated foreign national in that scheduled area shall be added to the earnings or loss of every other incorporated affiliated foreign national in that scheduled area in order to determine the total earnings or losses of such affiliated foreign nationals as a group. In computing such total earnings and losses, there shall be excluded all dividends paid during such year to such affiliated foreign nationals by incorporated foreign nationals of the direct investor in the same or other scheduled areas and all earnings of unincorporated affiliated foreign nationals of the direct investor in other scheduled areas. Earnings and losses shall be computed without regard to U.S. taxes and foreign withholding taxes on the payment of dividends. Earnings shall not be reduced by application or provision by the direct investor of reserves for devaluation or impairment of investment. Notwithstanding the foregoing, the Secretary shall have the right, generally or specifically, in his discretion to disapprove any such accounting principles determined by him to be inconsistent with the purposes of this part and to prescribe such principles as he may deem appropriate to carry out the purposes of this part.

(d) For purposes of this part:

(1) Earnings of an unincorporated affiliated foreign national during any period shall be deemed to have been remitted to the extent that such earnings exceed the net increase in the net assets of the unincorporatd affiliated foreign national during the period.

(2) The term "dividends" means cash dividends, whether paid out of current or accumulated earnings (other than liquidating dividends). The amount of a dividend paid shall be calculated before deducting foreign withholding taxes. A dividend shall be deemed to have been paid to a direct investor or an affiliated foreign national, as the case may be, when entered on the books of account of the recipient as actually having been paid in cash or as being subject to payment upon demand, whichever first

(e)(1) There shall be deducted from positive direct investment in a scheduled area during any year, as calculated under paragraph (a) of this section, an amount equal to any available proceeds (as defined in § 1000.324(d)) allocated by the direct investor to such positive direct investment for such year. Available proceeds shall be allocated to such positive direct investment for such year if (i) an entry is made in the books and records maintained by the direct investor under §§ 1000.203(b) and 1000.601; (ii) the allocation and deduction is reported on the next annual report of the direct investor (Form FDI–102F) filed for the year for which the deduction is made; and (iii) the proceeds, as of the end of the year for which the deduction is made and thereafter, are not held, directly or indirectly, in the form of foreign balances or in the form of securities (including debt obligations, equity interests, and any other type of investment contract) of foreign nationals or in the form of any other foreign property: *Provided*, That proceeds so allocated may at any time be expended in making transfers of capital to affiliated foreign nationals. In addition, available proceeds of long-term foreign borrowing made on or before February 28, 1974 (including available proceeds so treated under § 1000.1403(a) (1) as the result of proceeds borrowing made on or before February 28, 1974), shall be allocated to such positive direct investment for the year 1973 if bookkeeping entries and a report on Form FDI–102F for 1973 are made with respect to such allocation, as required under this section, and such proceeds, as of February 28, 1974, are not held, directly or indirectly, in the form of foreign balances or in the form of securities of foreign nationals or in the form of any other foreign property: *Provided*, That proceeds so allocated may at any time be expended in making transfers of capital to affiliated foreign nationals.

(2) [Revoked]

(3) A deduction made pursuant to paragraph (e)(1) of this section from positive direct investment in all scheduled areas by a direct investor electing to be governed by § 1000.503 for any year, commencing with the year 1969, shall be deemed to have been made in each scheduled area in the same proportions as the amount of positive direct investment (calculated as provided in paragraph (a) of this section and, in the case of positive direct investment in the year 1969, disregarding each scheduled area's proportionate share of aggregate annual losses, as defined in § 1000.503(b) in effect for the year 1969) in such scheduled area during such year. A deduction made pursuant to paragraph (e)(1) of this section or § 1000.203(d)(2) or (3) from positive direct investment in Schedules B and C by a direct investor that elected to be governed by § 1000.507 for any year shall be deemed to have been made in each such scheduled area in the same proportions as the amount of positive direct investment (calculated as provided in paragraph (a) of this section) made by the direct investor in such scheduled area during such year. The Secretary may, upon application pursuant to § 1000.801, permit a direct investor to apportion such deductions in some other manner reasonably reflecting the direct investor's interests in each scheduled area during such year.

**§ 1000.307 Person; corporation.**

(a) The term "person" means an individual, corporation, partnership, business venture, trust, or estate.

(b) The term "corporation" means an organization or entity incorporated under the laws of the United States or a foreign country and any other organization or entity not so incorporated but which is organized under the laws of the United States or a foreign country and has all or a substantial part of the legal characteristics commonly attributed to corporations under the laws of the United States.

**§ 1000.308 Transfer.**

The term "transfer" means any act or transaction, whether or not evidenced by a writing and whether or not done or performed within the United States, the purpose, intent, or effect of which is to create, surrender, release, transfer, or

V 38 185 SEP 25 73 XUM

alter, directly or indirectly, any right, remedy, power, privilege, or interest with respect to any property wherever located.

**§ 1000.309 Property, property interest.**

The terms "property" and "property interest" include any property, real, personal, or mixed, tangible or intangible (including the value of services performed), or interest or interests therein, present, future or contingent.

**§ 1000.310 Interest.**

The term "interest" when used with respect to property shall mean an interest of any nature whatsoever, direct or indirect.

**§ 1000.311 Banking institution. (REVOKED)**

**§ 1000.312 Transfers of capital.**

(a) *Transfers of capital by direct investor.*—Except as otherwise provided in paragraph (c) of this section, a transfer of capital by a direct investor to an affiliated foreign national means any transfer of funds or other property by or on behalf or for the benefit of a direct investor directly or indirectly to or on behalf or for the benefit of an affiliated foreign national (including a transfer described in § 1000.505); and any transaction or occurrence as a result of or in connection with which the direct investor directly or indirectly acquires or increases a debt or equity interest in the affiliated foreign national or the affiliated foreign national directly or indirectly disposes of or reduces a debt or equity interest in the direct investor held by the affiliated foreign national. Such transfers of capital shall include, but not by way of limitation:

(1) The aquisition by the direct investor of an equity interest in or debt obligation of an affiliated foreign national (including the acquisition of an equity interest in or a debt obligation of a foreign national as a result of which the foreign national becomes an affiliated foreign national of the direct investor).

(2) A contribution by the direct investor to the capital of the affiliated foreign national.

(3) The complete or partial satisfaction by the direct investor of a debt obligation of the direct investor held by the affiliated foreign national.

(4) The reduction of an equity interest in the direct investor held by the affiliated foreign national (as the result of a redemption of stock, liquidating dividend, or like transaction).

(5) A transfer by the affiliated foreign national of an equity interest in or debt obligation of the direct investor held by the affiliated foreign national.

(6) The complete or partial satisfaction by the direct investor of a debt obligation of an affiliated foreign national, whether or not such debt obligation was guaranteed or assumed by the direct investor.

(7) The complete or partial satisfaction by a direct investor of a long-term foreign borrowing made by the direct investor before or after the effective date of the regulations to the extent the proceeds of the borrowing were expended in making transfers of capital on or after January 1, 1965, or were allocated by the direct investor (on the books and records maintained by the direct investor under §§ 1000.203(b) and 1000.601) to positive direct investment. A transfer of capital resulting from the repayment of a borrowing by a direct investor shall be deemed to have been made to the scheduled area in which such proceeds were expended or to which they were allocated at the time of such repayment and with respect to which a deduction was made under § 1000.203(d)(2), § 1000.203(d)(3), § 1000.306(e), or § 1000.313(d)(1); or if deductions were made in two or more scheduled areas with respect to such repaid borrowing, the transfer shall be apportioned among such scheduled areas in the same proportions as the amount of such deductions in each such scheduled area. If any apportionment made by a direct investor hereunder is determined by the Secretary to be inconsistent with the purposes of this part, the Secretary shall have the right, in his discretion, to make an apportionment consistent with the purposes of this part.

(8) A lease of property by a direct investor to an affiliated foreign national, if the property has a remaining useful life when leased of a year or more and is not required or expected to be returned to the direct investor in less than one year.

(9) A pledge, hypothecation or other transfer by a direct investor of foreign balances (as defined in § 1000.203(a)(1)) or equity securities of a foreign corporation owned by the direct investor (other than equity securities of an affiliated foreign national of the direct investor), which pledge, hypothecation, or other transfer is made by the direct investor to or with a foreign national, on or after the effective date of the regulations, pursuant to an express or implied agreement with the foreign national whereby the foreign national transfers or agrees to transfer funds or other property, as a loan or otherwise, to an affiliated foreign national of the direct investor or to the direct investor itself for investment in such an affiliated foreign national: *Provided*, That this subparagraph shall not apply to a pledge, hypothecation or other transfer by a direct investor to a foreign national in connection with a borrowing by the direct investor for investment in an affiliated foreign national, if the borrowing is not a long-term foreign borrowing (as defined in § 1000.324(a)).

(b) *Transfers of capital by affiliated foreign nationals.*—Except as otherwise provided in paragraph (c) of this section, a transfer of capital by an affiliated foreign national to a direct investor in such affiliated foreign national means any of the following transactions or occurrences as a result of or in connection with which the affiliated foreign national directly or indirectly acquires or increases a debt or equity interest in the direct investor or the direct investor directly or indirectly disposes of or reduces a debt or equity interest in the affiliated foreign national held by the direct investor:

(1) The acquisition by an affiliated foreign national of an equity interest in or debt obligation of the direct investor.

(2) A contribution by an affiliated foreign national to the capital of the direct investor.

(3) The complete or partial satisfaction by an affiliated foreign national of a debt obligation of the affiliated foreign national held by the direct investor.

(4) The reduction of an equity interest in an affiliated foreign national held by the direct investor (as the result of a redemption of stock, liquidating dividend, or like transaction):

(5) A transfer by the direct investor of an equity interest in or debt obligation of an affiliated foreign national held by the direct investor.

(6) The complete or partial satisfaction by an affiliated foreign national of a debt obligation of the direct investor, whether or not such debt obligation was guaranteed or assumed by the affiliated foreign national.

(c) *Transactions not involving transfer of capital.*—Notwithstanding the provisions of paragraphs (a) and (b) of this section, the following shall not be deemed transfers of capital:

(1)(i) An acquisition by a direct investor described in paragraph (a)(1) of this section if the acquisition is from a person within the United States acting for its own account. If the acquisition is of an equity interest from a person within the United States which was immediately prior to the transaction a direct investor in the affiliated foreign national, and the acquiring and divesting direct investors each file Form FDI–107 on or before the end of the month following the close of the calendar quarter during which the acquisition occurs, direct investment made by the divesting direct investor in 1965, 1966, and the year of the acquisition that corresponds to the interest transferred shall be deemed to have been made by the acquiring direct investor (except that the provisions of §§ 1000.203(d)(2) and (3), 1000.306(e)(1) and 1000.313(d)(1) shall be disregarded in calculating such direct investment unless the acquiring direct investor shall have assumed the obligation to repay long-term foreign borrowing in connection with which deductions under such sections were made), and annual earnings (as defined in § 1000.504(b)(4)) in 1966, 1967, and the year immediately preceding the year of acquisition that correspond to the interest transferred shall be attributed to the acquiring direct investor.

(ii) A transfer of capital shall not be deemed to occur in connection with or as the result of any combination of two or more direct investors or of a direct investor and a person within the United States. For purposes of this subparagraph, such combination shall include merger, consolidation, reorganization, acquisition (from a person within the United States acting for its own account) of a direct investor which thereby becomes an affiliate, or other combination. The surviving direct investor shall file Form FDI–107 on or before the end of the month following the close of the calendar quarter during which the combination occurs. The aggregate amount of direct investment made by each of the direct investors involved in the combination in 1965, 1966, and the year in which the combination occurs shall be deemed to have been made by the surviving direct investor. The aggregate amount of annual earnings (as defined in § 1000.504(b)(4)) of each of the direct investors involved in the combination in 1966, 1967, and the year immediately preceding the year in which the combination occurs shall be attributed to the surviving direct investor. The aggregate amount of liquid foreign balances held by each of the direct investors involved in the combination in 1965 and 1966 and each month commencing with the month during which the combination occurs shall be attributed to the surviving direct investor.

(2) A transfer described in paragraph (a)(5) of this section unless (i) the transferee is the direct investor or (ii) the transferor or transferee is an affiliated foreign national which is an affiliate of the direct investor as defined in § 1000.903(a).

(3) An acquisition by an affiliated foreign national described in paragraph (b)(1) of this section unless the acquisition is from the direct investor.

(4) A transfer described in paragraph (b)(5) of this section, other than a transfer after December 31, 1972, of a qualified export obligation, unless (i) the transfer is made (A) to a foreign national or (B) to a financial institution subject to the Federal Reserve Foreign Credit Restraint Program and the transfer is charged against the ceiling of such institution under such Program, and (ii) the transfer constitutes a transfer of capital after application of paragraph (c)(12) of this section: *Provided*, That, if the transfer is of a debt obligation and does not constitute a transfer of capital because of this paragraph, repayment by the affiliated foreign national of such debt obligation to a person within the United States shall be deemed a transfer of capital by the affiliated foreign national.

(5) An increase in an equity interest in a corporation resulting from the reinvestment of earnings of such corporation.

(6) An increase or decrease in the value of assets resulting from a reappraisal of such assets.

(7) The making of a guarantee.

(8) The payment by the primary obligor of interest currently due, fees or commissions in connection with borrowings or extensions of credit (including prepayments of interest if such prepayments are made in the course of customary lending practices or commercial transactions).

(9) The payment by the lessee under a lease of real or personal property of rental currently due (including prepayments of rental if such prepayments are customarily made by lessees under leases of the type involved).

(10) The payment by the licensee under a license agreement of royalties currently due (including prepayments of royalties if such prepayments are customarily made by licensees under agreements of the type involved).

(11) A transfer of patents, copyrights, trademarks, trade names, trade secrets, technology, proprietary processes, proprietary information or similar intangibles or any rights or interests therein or applications or contracts relating thereto (each of the foregoing being hereinafter referred to as an intangible), regardless of the form of the transfer or the consideration exchanged therefor: *Provided*, That the foregoing shall not apply to the transfer of an intangible by a direct investor to an affiliated foreign national on or after the effective date if (i) the direct investor had a previously established practice with respect to the exploitation of intangibles of the type so transferred and the transfer represents a substantial departure from such previously established practice and (ii) the intangible transferred was, prior to the transfer, a substantial source of royalty or other like income to the direct investor: *And provided, further*, That, if the transfer of an intangible to an affiliated foreign national does not constitute a transfer of capital under this subparagraph, no deduction for amortization or any like charge with respect to the intangible transferred shall be made against earnings in calculating the earnings of the transferee affiliated foreign national.

(12) On or after July 1, 1972, any transaction described in paragraph (b) of this section, other than a transaction entered into after December 31, 1972, involving a qualified export obligation or qualified export lease, in connection with which a financial institution subject to the Federal Reserve Foreign Credit Restraint Program, without charging its ceiling under such Program, acquires a debt obligation of a foreign national and transfers funds or other property (i) to the direct investor, or (ii) to an affiliated foreign national, or (iii) to a foreign financial institution which transfers funds or other property to an affiliated foreign national or to the direct investor, or (iv) to a foreign national other than a financial institution and other than an affiliated foreign national ("unaffiliated foreign national"), or to a foreign financial institution which transfers funds or other property to an unaffiliated foreign national, which unaffiliated foreign national transfers funds or other property to an affiliated foreign national or to the direct investor, unless, for purposes of this paragraph (c)(12) of this section, (iv) the debt obligation is treated as a direct or indirect export credit to an unaffiliated foreign national under the Federal Reserve Foreign Credit Restraint Program and is acquired without the intervention of the direct investor or an affiliated foreign national in a manner that departs from their previously established practices: *Provided*, That if the transaction does not constitute a transfer of capital because of this paragraph, repayment of the debt obligation by a foreign national to a person within the United States shall be deemed a transfer of capital by the affiliated foreign national.

(13)(i) Commencing January 1, 1973: (A) The acquisition by a direct investor of a qualified export obligation of an incorporated affiliated foreign national, until such obligation has been outstanding for a period longer than the arm's length term applicable to it; (B) the payment or satisfaction of a qualified export obligation by an incorporated affiliated foreign national to a direct investor, or the transfer by a direct investor of a qualified export obligation of an incorporated affiliated foreign national, except to the extent that a transfer of capital by the direct investor was previously recognized with respect to such obligation in 1973 or subsequently; and (C) any repayment, relating to a qualified export obligation, that would be deemed a transfer of capital by an affiliated foreign national under the proviso to paragraph (c)(4) or the proviso to paragraph (c)(12) of this section.

(ii)(A) The term "qualified export obligation" means a debt obligation of an affiliated foreign national acquired in any year by a direct investor attendant to a sale by a direct investor to an affiliated foreign national of United States goods or United States services. Each installment payable on an installment sale which entails a qualified export obligation is considered a separate qualified export obligation of the affiliated foreign national.

(B) In no case shall a qualified export obligation arise in connection with (*1*) a transaction which is in substance a contribution to capital, regardless of the manner in which such transaction is entered in the books and records of the direct investor, or (*2*) an installment sale, unless its terms require installment payments at an arm's length rate, considering the time and amount of each payment to be made, except that, for purposes of determining the arm's length rate, the credit standing of the affiliated foreign national shall be disregarded.

(iii) The term "United States goods" means tangible property (A) grown, produced or manufactured in the United States, and (B) exported from the United States by the direct investor. Property is grown, produced or manufactured in the United States only if it may be classified as "domestic" for purposes of a Department of Commerce Shipper's Export Declaration (Commerce Department Form 7525–V or any superseding form).

(iv) The term "United States services" means services performed for an

V 38 185 SEP 25 73 XUM

affiliated foreign national by a direct investor but does not include services performed by any affiliated foreign national of the direct investor.

(v) The "arm's length term" means the period for which credit would have been extended, at the time the sale was entered into, in an independent transaction between unrelated parties under similar circumstances, considering all relevant factors, such as the type of goods or services involved, the security involved, shipping time, and the terms prevailing at the situs for comparable transactions, except that the credit standing of the affiliated foreign national shall be disregarded. With respect to the sale of United States goods, any term of 180 days or less from the time of shipment of the goods shall be deemed an arm's length term. With respect to the sale of United States services, any term of 90 days or less, measured from the end of the month in which such services would be billed in a similar transaction between unrelated parties, shall be deemed an arm's length term: *Provided*, That in the case of United States services related and subsidiary to a sale of goods which entails a qualified export obligation, the arm's length term shall be the same as that for the sale of the goods.

(vi) (A) Any direct investor may elect that none of its transactions shall be deemed to involve qualified export obligations (as defined in paragraph (c) (13) (ii) of this section) or qualified export leases (as defined in paragraph (c) (14) of this section).

(B) An election pursuant to this paragraph (c) (13) (vi) must be made on the Form FDI–102F filed by the direct investor for the year 1973 and may not thereafter be revoked by the direct investor without obtaining the prior permission of the Office.

(C) Notwithstanding any other provision of this part, the Secretary retains full power to deem that any direct investor has elected that none of its obligations shall be deemed to involve qualified export obligations or qualified export leases, effective for 1973 or any subsequent year.

(14) Commencing January 1, 1973, a transfer of property pursuant to a qualified export lease or the return of property so transferred. The term "qualified export lease" means a lease of United States goods (as defined in paragraph (c) (13) (iii) of this section) by a direct investor to an affiliated foreign national which requires rental payments at an arm's length rate, considering the time and amount of each rental payment to be made, except that, for purposes of determining the arm's length rate the credit standing of the affiliated foreign national shall be disregarded.

(d) The term "debt obligation" or "debt interest" means any item of indebtedness or liability, regardless of the maturity thereof (excluding capital surplus, and contingency reserves) which would, in accordance with accounting principles generally accepted in the United States, be included in determining total liabilities as of the date on which the existence of a debt obligation or debt interest is to be determined: *Provided*, That a debt obligation or debt interest shall not include the liability of an affiliated foreign national to a direct investor arising out of the declaration of a dividend until such dividend becomes payable on demand.

(e) [Revoked]

### § 1000.313 Net transfer of capital.

(a) A net transfer of capital (which may be a positive or negative amount) by a direct investor to all incorporated affiliated foreign nationals in any scheduled area during any period means (1) the aggregate of all transfers of capital made during such period by the direct investor to such affiliated foreign nationals, less (2) the aggregate of all transfers of capital made during such period by such affiliated foreign nationals to the direct investor.

(b) (1) A net transfer of capital (which may be a positive or negative amount) by a direct investor to all unincorporated affiliated foreign nationals in any scheduled area during any period means the direct investor's share of the aggregate net increase or net decrease, during such period, in the aggregate net assets of such affiliated foreign nationals (whether such net increase or decrease results from any transfer of capital (as defined in § 1000.312), earnings, or losses or any combination thereof). In calculating the net assets of all unincorporated affiliated foreign nationals in any scheduled area, there shall be excluded (i) all equity interests in and debt obligations of such unincorporated affiliated foreign nationals held by the direct investor or affiliated foreign nationals of the direct investor, except qualified export obligations held and acquired by the direct investor after 1972 unless such obligations have been outstanding for periods longer than the qualifying terms applicable to them, and (ii) all assets of such unincorporated affiliated foreign nationals consisting of equity interests in or debt obligations of the direct investor or affiliated foreign national of the direct investor.

(2) Any reduction in net assets of an unincorporated affiliated foreign national resulting from a repayment after 1972 of a qualified export obligation acquired by a direct investor prior to 1973 shall be disregarded in calculating the increase or decrease in net assets of such unincorporated affiliated foreign national.

(c) A net transfer of capital (which may be a positive or negative amount) by a direct investor to all incorporated and unincorporated affiliated foreign nationals in any scheduled area during any period means (1) the net transfer of capital by the direct investor to all incorporated affiliated nationals in such scheduled area during such period, and (2) the net transfer of capital by the direct investor to all unincorporated affiliated foreign nationals in such scheduled area during such period. If the sum of paragraphs (c) (1) and (2) of this section is in excess of zero, the net transfer of capital during such period shall be deemed a positive net transfer of capital; if a negative amount, it shall be deemed a negative net transfer of capital.

(d) In calculating the amount of the net transfer of capital made by a direct investor to a scheduled area during any period (including the years 1965 and 1966) pursuant to paragraph (c) of this section:

(1) [Revoked][1]

(2) There shall be included all transfers of funds or other property as a result of which the direct investor became a direct investor in any affiliated foreign national and all transfers of funds or other property to or on behalf of or for the benefit of such affiliated foreign national made by or on behalf of or for the benefit of such direct investor within 12 months (whether or not during the period for which the calculation is being made) prior to the date of the transfer by which it became a direct investor in such affiliated foreign national, to the same extent as if the direct investor had been a direct investor in such affiliated foreign national during such 12-month period.

(e) (1) In calculating the amount of the net transfer of capital made by a direct investor to all affiliated foreign nationals in any scheduled area during the year 1972, the direct investor may include transfers of capital by incorporated affiliated foreign nationals and decreases in net assets of unincorporated affiliated foreign nationals in such scheduled area that are recognized upon repayments of debt obligations outstanding as of December 31, 1972, by such affiliated foreign nationals to the direct investor during January 1973 or, as alternatively elected by the direct investor, during January and February 1973: *Provided*, That the direct investor has made a worldwide negative net transfer of capital during the period elected under this section: *And provided further*, That the aggregate amount of such transfers of capital and decreases in net assets included in calculating the amounts of the net transfers of capital made by the direct investor during the year 1972 does not exceed the amount of such worldwide negative net transfer of capital.

(2) The worldwide net transfer of capital by a direct investor during the period elected by the direct investor under this section means the algebraic sum of the net transfers of capital by the direct investor to all incorporated and unincorporated affiliated foreign nationals in all scheduled areas during such period.

[1] All references to § 1000.313(d)(1) refer to that section prior to its revocation effective July 1, 1972. Former § 1000.313(d)(1) read as follows:

"(1) There shall be deducted an amount equal to the proceeds of long-term foreign borrowing actually expended in making transfers of capital to affiliated foreign nationals in such scheduled area during such period."

(3) Any transfer of capital or decrease in net assets that is included in calculating the amount of a net transfer of capital made by a direct investor to all affiliated foreign nationals in any scheduled area during the year 1972 pursuant to this section shall be excluded in calculating the amount of the net transfer of capital made by the direct investor to such affiliated foreign nationals in such scheduled area during the year 1973.

(4) All calculations under this paragraph (e) shall be made in accordance with this part as in force on December 31, 1972.

(f) [Revoked]

### § 1000.314 Authorization and exemption.

The terms "authorization" and "exemption" mean an authorization or exemption which is set forth in this part or which is issued pursuant to this part.

### § 1000.315 General authorization and exemption.

The term "general authorization" and "general exemption" mean an authorization or exemption which is set forth in this part or which is issued pursuant to this part and published in the FEDERAL REGISTER.

### § 1000.316 Specific authorization and exemption.

The terms "specific authorization" and "specific exemption" mean an authorization or exemption which is issued pursuant to this part but which is neither set forth in this part nor published in the FEDERAL REGISTER.

### § 1000.317 Domestic bank; foreign bank.

(a) The term "domestic bank" includes any branch or office within the United States of any of the following: (1) A bank or trust company organized under the banking laws of the United States; (2) a private bank or banker subject to supervision and examination under the banking laws of the United States; and (3) a foreign bank described in paragraph (b) (1) of this section.

(b) The term "foreign bank" includes any branch or office within a foreign country of any of the following: (1) A bank, trust company, private bank or merchant bank organized under the laws of a foreign country; and (2) a domestic bank described in paragraphs (a) (1) or (2) of this section.

### § 1000.318 United States.

(a) The term "United States" includes the States, the District of Columbia, the Commonwealth of Puerto Rico, the Panama Canal Zone, the Virgin Islands, Guam, Wake Island, American Samoa, and the Trust Territory of the Pacific Islands.

(b) For purposes of this part, a person is organized under the laws of the United States if it is organized under the laws of the United States, any State, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or the Trust Territory of the Pacific Islands.

### § 1000.319 Schedule A, B, and C countries.

(a) Schedule A countries are all foreign countries designated as less developed countries in the Executive order, as from time to time in force, issued under section 4916 of the Internal Revenue Code.

(b) Schedule B countries are such other foreign countries as the Secretary may determine to be developed countries in which a high level of capital inflow is essential for the maintenance of economic growth and financial stability, and where those requirements cannot be adequately met from non-U.S. sources. The following countries are hereby determined to fall in this category: Abu Dhabi, Australia, The Bahamas, Bahrain, Bermuda, Canada, Hong Kong, Iran, Iraq, Iraq-Saudi Arabia Neutral Zone, Ireland, Japan (including Ryukyu Islands commencing May 15, 1972), Kuwait, Kuwait-Saudi Arabia Neutral Zone, Libya, New Zealand, Qatar, Saudi Arabia, the United Kingdom, and, commencing with the year 1970, Spain.

(c) Schedule C countries are all foreign countries not included as Schedule A or B countries.

(d) The Secretary may in his discretion, from time to time, transfer any foreign country from any one of the Schedules to another.

### § 1000.320 Effective date.

The term "effective date" means 12:00 noon eastern standard time of January 1, 1968.

### § 1000.321 Year; period.

(a) The term "year" shall mean a calendar year except with respect to a person who has applied for and received the permission provided in paragraph (b) of this section. With respect to such person, the term "year" shall mean such person's fiscal year. The term "period" shall mean any period of time (including a year) on the basis of which compliance with the provisions of this part is or may be measured, or for which reports must be filed pursuant to Subpart F of this part.

(b) A direct investor which customarily maintains its books of account on the basis of a fiscal year other than a calendar year may apply to the Secretary for permission to have its compliance with the provisions of this part measured on the basis of its fiscal year. The Secretary may, in his discretion, grant the application upon a showing of good cause therefor, including a showing that, notwithstanding the granting of such application, the direct investor will substantially comply with the provisions of this part on a calendar year basis. The Secretary may make the grant of the application subject to any terms and conditions that he deems necessary.

### § 1000.322 Person within the United States.

(a) The term "person within the United States" means:

(1) An individual who is a resident of the United States;

(2) An individual, wherever residing, who is a citizen of the United States and the center of whose economic interests is located within the United States;

(3) A corporation or partnership organized under the laws of the United States (excluding a branch of such a corporation or partnership if the branch is a separate foreign national under § 1000.302);

(4) A trust (other than a trust which is deemed a corporation under § 1000.307 (b)) governed by the laws of the United States if the grantor of the trust is, or the person under whose will the trust was created was at the time of his death, a person within the United States;

(5) An estate, if the decedent was a person within the United States at the time of his death;

(6) A domestic bank (as defined in § 1000.317(a));

(7) An affiliated group (as defined in § 1000.903); and

(8) A family group (as defined in § 1000.904).

(b) Notwithstanding the provisions of paragraph (a) of this section, the Secretary retains full power to determine that any person is a person within the United States.

### § 1000.323 International finance subsidiary.

(a) The term "international finance subsidiary" of a direct investor means a corporation organized under the laws of the United States, all the stock of which (disregarding directors' qualifying shares) is owned directly or indirectly by the direct investor, and the principal business of which is to borrow funds from foreign nationals other than affiliated foreign nationals and to invest such funds in debt or equity security of affiliated foreign nationals.

(b) For purposes of this part, a direct investor and all of its international finance subsidiaries shall be considered a single person.

### § 1000.324 Long-term foreign borrowing.

(a) (1) "Foreign borrowing" means a borrowing made by a direct investor on or after May 1, 1970, from any foreign national (other than an affiliated foreign national and except as provided in § 1000.1106), including, but not by way of limitation, an extension of credit by any such foreign national to the direct investor in connection with the purchase of property (including securities) by the direct investor from such foreign national: *Provided*, That (i) the borrowing is from a foreign bank; or (ii) the borrowing is from or is guaranteed by a foreign country or any agency thereof; or (iii) at the time of the borrowing, the debt obligations resulting therefrom would, if purchased by nationals or residents of the United States, be subject to the Interest Equalization Tax (Internal Revenue Code, Chapter 41, sections 4911–4931); or (iv) the lender agrees in writing that, for a period of

V 38 185 SEP 25 73 XUM

3 years from the original date of the borrowing or until final maturity, whichever first occurs, it will not sell or otherwise transfer the debt obligation resulting from the borrowing to a resident or national of the United States (other than a foriegn bank described in § 1000.317(b)(2) or a Canadian person (as defined in § 1000.1101(d)) or to any person who the lender has reason to believe will sell or otherwise transfer the debt obligation to any such U.S. resident or national or Canadian person.

(2) In the case of borrowings made on or after May 1, 1970, "long-term foreign borrowing" means a foreign borrowing (as defined in paragraph (a)(1) of this section) to the extent that such foreign borrowing is not repaid within 12 months after the original date of the borrowing: *Provided*, That solely for purposes of this subparagraph, a borrowing that is repaid in whole or in part pursuant to provisions in a debt instrument for acceleration upon default or that is repaid by reason of the conversion of convertible debt instruments shall be deemed to have been repaid in accordance with the maturities otherwise provided in such instruments.

(3) In the case of borrowings made prior to May 1, 1970, "long-term foreign borrowing" shall be as defined by paragraphs (a) and (e) of this section as in effect on April 30, 1970.

(b) (1) The refinancing in whole or in part of a foreign borrowing or a long-term foreign borrowing (by renewal, extension, or continuance of such borrowing or by making a foreign borrowing from the same or another lender) shall not, to that extent, be deemed a repayment of the borrowing or the making of a new borrowing.

(2) The delivery of equity securities of a direct investor to holders of debt instruments issued by the direct investor in connection with a long-term foreign borowing, pursuant to the exercise of conversion or similar rights, shall be deemed a repayment of the borrowing to the extent of the principal amount of indebtedness surrendered by such holders in exchange for such equity securities.

(c) "Proceeds of long-term foreign borrowing" means (1) the gross amount or value (before deducting any discounts, commissions or fees) of funds or other property received by a direct investor from the first purchaser or holder in exchange for the debt obligation issued or created in connection with the borrowing, and reported by the direct investor on its next and all succeeding periodic reports filed with the Office (whether quarterly on Form FDI–102 or annually on Form FDI–102F) for periods during which such borrowing is outstanding, less (2) repayments of principal of such borrowing.

(d) "Available proceeds" means proceeds of long-term foreign borrowing (as defined in paragraph (c) of this section) less (1) amounts allocated to positive direct investment and deducted under § 1000.306(e), and (2) amounts expended prior to July 1, 1972 in transfers of capital to affiliated foreign nationals other than Canadian affiliates as defined in § 1000.1101(a) and deducted under § 1000.313(d)(1).

(e) [Revoked]

**§ 1000.325 Incorporated and unincorporated affiliated foreign nationals. (Proposed but withdrawn prior to adoption; see § 1000.304(b)(3)).**

**Subpart D—Interpretations**

**§ 1000.401 Reference to amended sections.**

Reference to any section of this part or to any regulation, ruling, order, instruction, direction, authorization, license or exemption issued pursuant to this part shall be deemed to refer to the same as currently amended unless otherwise so specified.

**§ 1000.402 Effect of amendment of sections of this part or of other orders, etc.**

Any amendment, modification, or revocation of any section of this part or of any order, regulation, ruling, instruction, authorization, license, or exemption issued by or under the direction of the Secretary pursuant to 12 U.S.C. 95a, as amended, shall not unless otherwise specifically provided be deemed to affect any act done or omitted to be done, or any suit or proceeding had or commenced in any civil or criminal case, prior to such amendment, modification, or revocation, and all penalties, forfeitures, and liabilities under any such section, order, regulation, ruling, instruction, authorization, license, or exemption shall continue in effect and may be enforced as if such amendment, modification, or revocation had not been made.

**§ 1000.403 Transactions between principal and agent. (REVOKED)**

**§ 1000.404 Distribution, apportionment or allocation of earnings.**

In any case of two or more organizations, trades or businesses owned or controlled directly or indirectly by the same interests, the Secretary may distribute, apportion or allocate earnings or any component of earnings, if he determines that such distribution, apportionment, or allocation is necessary or appropriate clearly or properly to reflect earnings attributable to a direct investor's interest in affiliated foreign nationals or otherwise to carry out the purposes of this part.

**Subpart E—Authorizations or Exemptions**

**§ 1000.501 Exclusion from authorization or exemption.**

(a) No authorization or exemption contained in this part, or issued by or under the direction of the Secretary pursuant to this part, shall be deemed to authorize or validate any direct investment made prior to the issuance thereof, unless such authorization or other exemption specifically so provides.

(b) The Secretary reserves the right to exclude transactions or property or classes thereof from the operation of any authorization or exemption or from the privileges therein conferred, or to restrict the applicability thereof with respect to particular persons. Such action shall be binding upon all persons receiving actual notice or constructive notice thereof.

**§ 1000.502 Elections with respect to §§ 1000.503 and 1000.504.**

(a) A direct investor shall elect for each year, commencing with the year 1973, to be governed by the provisions of

(1) Section 1000.503, or

(2) Section 1000.504 (a) and (c), or

(3) Section 1000.504(b).

(4) [Revoked]

(b) The election made pursuant to this paragraph shall be binding and effective as to all (and not less than all) scheduled areas and as to the year for which the election is made, and shall be made on Form FDI–102F timely filed by the direct investor pursuant to § 1000.602 (b)(3) for the year for which the election is made.

(c) [Revoked]

(d) [Revoked]

**§ 1000.503 Positive direct investment not exceeding $6 million; minimum allowable.**

(a) If for any year commencing with the year 1973 a direct investor elects under § 1000.502(a)(1), positive direct investment is authorized for such year in all scheduled areas in an aggregate amount not exceeding $6 million.

(b) [Revoked]

(c) If a direct investor elects to make positive direct investment during any year commencing with the year 1969 as authorized under this section, no positive direct investment shall be authorized in such year under § 1000.504 and any positive direct investment which would otherwise have been authorized in such year under § 1000.504 (d), (e), or (f) or § 1000.1302 shall, notwithstanding those provisions, not be authorized in such year or succeeding years.

(d) Positive direct investment made during the year 1968 which was authorized by § 1000.503 as in effect for such year shall reduce the amount of positive direct investment authorized to be made in succeeding years under § 1000.504(f). Such reduction shall first be made in the scheduled area in which such positive direct investment was made, and to the extent that the amount of positive direct investment made in such scheduled area exceeds the amount of positive direct investment authorized to be made in such scheduled area under § 1000.504(f), further reductions shall be made in the amount of positive direct investment authorized under § 1000.504(f) in Schedules C, B, and A, in that order, until such reductions shall equal in the aggregate the total amount of positive direct investment made or the total amount of positive direct investment authorized under § 1000.504(f), whichever is less.

**§ 1000.504 Authorized positive direct investment in scheduled areas; scheduular allowables.**

(a) *Historical allowables.*—If for any year commencing with the year 1969 a direct investor elects under § 1000.502(a)(2), positive direct investment for such year is authorized as follows:

(1) In Schedule A, in an amount not exceeding 110 percent of the average of direct investment by the direct investor in Schedule A during the years 1965 and 1966;

(2) In Schedule B, in an amount not exceeding 65 percent of the average of direct investment by the direct investor in Schedule B during the year 1965 and 1966;

(3) In Schedule C, in an amount not exceeding 35 percent of the average of direct investment by the direct investor in Schedule C during the years 1965 and 1966.

(b) *Earnings allowable.*—If for any year commencing with the year 1971 a direct investor elects under § 1000.502(a)(3), positive direct investment for such year is authorized as follows:

(1) In Schedule A, in an amount not exceeding 40 percent of the annual earnings of the direct investor in Schedule A during the immediately preceding year.

(2) In Schedule B, in an amount not exceeding 40 percent of the annual earnings of the direct investor in Schedule B during the immediately preceding year;

(3) In Schedule C, in an amount not exceeding 40 percent of the annual earnings of the direct investor in Schedule C during the immediately preceding year.

(4) The term "annual earnings" means the algebraic sum of a direct investor's share of total earnings or total losses during a year of all the direct investor's incorporated affiliated foreign nationals in a schedule area (excluding Canadian affiliates as defined in § 1000.1101(a) from Schedule B) determined in accordance with the provisions of § 1000.306(c) and the direct investor's share of net earnings or losses during such year of all the direct investor's unincorporated affiliated foreign nationals in such scheduled area (excluding Canadian affiliates as defined in § 1000.1101(a) from Schedule B) determined in accordance with accounting principles generally accepted in the United States consistently applied: *Provided*, That annual earnings of less than zero shall for purposes of this section be treated as zero.

(c) *Adjustment to historical allowable.*—If for any year commencing with the year 1971 a direct investor elects under § 1000.502(a)(2),

(1) The amount of positive direct investment authorized in Schedule C under paragraph (a)(3) of this section shall be increased by the lesser of either the amount by which 40 percent of annual earnings in Schedule C during the immediately preceding year is in excess of positive direct investment authorized in Schedule C under said paragraph (a)(3) of this section during the current year or the amount of positive direct investment authorized in Schedule A under paragraph (a)(1) of this section: *Provided*, That the amount of positive direct investment authorized in Schedule A under said paragraph (a)(1) of this section shall be reduced by the amount of such increase:

(2) The amount of positive direct investment authorized in Schedule C under paragraph (a)(3) of this section shall be increased by the lesser of either the amount by which 40 percent of annual earnings in Schedule C during the immediately preceding year is in excess of positive direct investment authorized in Schedule C under paragraph (a)(3) of this section during the current year or the amount of positive direct investment authorized in Schedule B under paragraph (a)(2) of this section: *Provided*, That the amount of positive direct investment authorized in Schedule B under said paragraph (a)(2) of this section shall be reduced by the amount of such increase; and

(3) The amount of positive direct investment authorized in Schedule B under paragraph (a)(2) of this section shall be increased by the lesser of either the amount by which 40 percent of annual earnings in Schedule B during the immediately preceding year is in excess of positive direct investment authorized in Schedule B under said paragraph (a)(2) of this section during the current year or the amount of positive direct investment authorized in Schedule A under paragraph (a)(1) of this section (calculated after the reduction provided in subparagraph (1) of this paragraph): *Provided*, That the amount of positive direct investment authorized in Schedule A under paragraph (a)(1) of this section shall be reduced by the amount of such increase.

(d) *Carryforward allowables and use of schedular allowables in other scheduled areas.*—(1) If, during any year commencing with the year 1969, the amount of positive direct investment authorized to a direct investor in Schedule A under paragraphs (a)(1) and (c) of this section or paragraph (b)(1) of this section exceeds the amount of direct investment (whether positive or negative) made by the direct investor during such year in Schedule A, or if no positive direct investment is so authorized to the direct investor in Schedule A during such year but the direct investment by the direct investor in Schedule A during such year is negative, the direct investor is authorized to make additional positive direct investment in Schedule A during succeeding years in an aggregate amount of not more than the amount of such excess, or the amount of such negative direct investment, as the case may be.

(2) If, during any year commencing with the year 1969, the amount of positive direct investment authorized to a direct investor in Schedule B under paragraphs (a)(2) and (c) of this section or paragraph (b)(2) of this section exceeds the amount of direct investment (whether positive or negative) made by the direct investor during such year in Schedule B, or if no positive direct investment is so authorized to the direct investor in Schedule B during such year but the direct investment by the direct investor in Schedule B during such year is negative, the direct investor is authorized to make additional positive direct investment in Schedule A during such year, and, to the extent additional positive direct investment in Schedule A is not made during such year the direct investor is authorized to make additional positive direct investment in Schedules A and B during succeeding years: *Provided*, That the aggregate amount of additional positive direct investment authorized by this subparagraph shall not be more than the amount of such excess, or the amount of such negative direct investment, as the case may be.

(3) If, during any year commencing with the year 1969, the amount of positive direct investment authorized to a direct investor in Schedule C under paragraphs (a)(3) and (c) of this section or paragraph (b)(3) of this section exceeds the amount of direct investment (whether positive or negative) made by the direct investor during such year in Schedule C, or if no positive direct investment is so authorized to the direct investor in Schedule C during such year but the direct investment by the direct investor in Schedule C during such year is negative, the direct investor is authorized to make additional positive direct investment in Schedule A or B during such year, and, to the extent additional positive direct investment in Schedules A or B is not made during such year, the direct investor is authorized to make additional positive direct investment in Schedules A, B, or C during succeeding years: *Provided*, That the aggregate of additional positive direct investment authorized by this subparagraph shall not be more than the amount of such excess, or the amount of such negative direct investment, as the case may be.

(e) *Schedule C total losses; reinvestment allowable.*—If the incorporated affiliated foreign nationals of a direct investor in Schedule C have total losses during any year commenting with the year 1969 (calculated as provided in § 1000.306(c)), such losses shall, for purposes of this section, be disregarded in calculating the direct investment (whether positive or negative) made by the direct investor in Schedule C for such year: *Provided*, That the direct investor shall be authorized to reinvest additional earnings of incorporated affiliated foreign nationals in Schedule C during succeeding years in an aggregate amount of not more than the direct investor's share of such total losses.

(f) *Carryforward allowables from 1968.*—(1) A direct investor authorized under former § 1000.504(b)(1), as in effect on December 31, 1968, to make positive direct investment in Schedule A during 1969 is authorized to make positive direct investment in Schedule A during 1969 and succeeding years in an aggregate amount not to exceed the amount of positive direct investment so authorized to be made during 1969 under said former § 1000.504(b)(1).

(2) A direct investor authorized under former § 1000.504(b)(2), as in effect on

V 38 185 SEP 25 73 XUM

December 31, 1968, to make positive direct investment in Schedule B during 1969 is authorized to make positive direct investment in Schedules A or B during 1969 and succeeding years in an aggregate amount not to exceed the amount of positive direct investment so authorized to be made during 1969 under said former § 1000.504(b)(2).

(3)(i) A direct investor authorized to make positive direct investment, to make a positive net transfer of capital, or to reinvest additional earnings of incorporated affiliated foreign nationals under former § 1000.504(c) (1) and (2), as in effect on December 31, 1968, is authorized to make positive direct investment in Schedules A, B, or C during 1969 and succeeding years in an aggregate amount not to exceed the aggregate amount of positive direct investment, positive net transfer of capital, and additional reinvested earnings so authorized to be made under said former § 1000.504 (c) (1) and (2).

(ii) A direct investor authorized under former § 1000.504(c)(3), as in effect on December 31, 1968, to reinvest earnings of incorporated affiliated foreign nationals in Schedule C during 1969 shall be authorized to reinvest earnings of incorporated affiliated foreign nationals in Schedule C during 1969 or succeeding years in an aggregate amount not to exceed the amount of earnings so authorized to be reinvested during 1969 under said former § 1000.504(c)(3).

**§ 1000.505 Transfers between affiliated foreign nationals.**

(a) (1) For purposes of the succeeding provisions of this § 1000.505, (i) if funds or other property are transferred by an unincorporated affiliated foreign national of a direct investor to the direct investor or to another affiliated foreign national of the direct investor, the funds or property shall, if the transferee is not the immediate parent of the transferor affiliated foreign national, be treated as having been transferred by such immediate parent and (ii) if funds or other property are transferred to an unincorporated affiliated foreign national of a direct investor by the direct investor or by another affiliated foreign national of the direct investor, the funds or property shall, if the transferor is not the immediate parent of the transferee affiliated foreign national, be treated as having been transferred to such immediate parent: *Provided*, in each case, That the immediate parent is the direct investor or an incorporated affiliated foreign national of the direct investor and that such immediate parent is not the immediate parent of both the transferor and transferee affiliated foreign national.

(2) For purposes of §§ 1000.312 and 1000.313(a), (i) if funds or other property are deemed under paragraph (a)(1)(ii) of this section to have been transferred by an incorporated affiliated foreign national of a direct investor to the direct investor, the transfer shall be treated as a transfer of capital by the incorporated affiliated foreign national to the direct investor (in an amount equal to the full amount or value of the funds or property so transferred) and (ii) if funds or other property are deemed under paragraph (a)(1)(i) of this section to have been transferred by the direct investor to an incorporated affiliated foreign national of the direct investor, the transfer shall be treated as a transfer of capital by the direct investor to the incorporated affiliated foreign national (in an amount equal to the full amount or value of the funds or property so transferred): *Provided, in each case*, That either the affiliated foreign national actually transferring the funds or other property or the affiliated foreign national actually receiving such funds or other property is an affiliate of the direct investor as defined in § 1000.903(a) and that the transfer, if actually made by or to the direct investor, as the case may be, would have constituted a transfer of capital under § 1000.312.

(3) For purposes of §§ 1000.312 (a) and (b) and 1000.313(a), if funds or other property are transferred (or deemed under paragraph (a)(1) of this section to have been transferred) by an incorporated affiliated foreign national of a direct investor to another incorporated affiliated foreign national of such direct investor, the transfer shall be treated as a transfer of capital by the transferor affiliated foreign national to the direct investor (in an amount equal to the full amount or value of the funds or property so transferred) and as a further transfer of capital in an equivalent amount by the direct investor to the transferee affiliated foreign national: *Provided*, That the affiliated foreign national actually transferring the funds or other property or the affiliated foreign national actually receiving such funds or other property is an affiliate of the direct investor as defined in § 1000.903(a) and that the transfer, if actually made by the direct investor, would have constituted a transfer of capital under § 1000.312(a): *And provided further*, That a charter of a vessel by an incorporated affiliated foreign national of such direct investor shall not be subject to this subparagraph.

(4) In calculating the net transfer of capital made by a direct investor during any period to all unincorporated affiliated foreign nationals in a schedule area under § 1000.313(b), the direct investor shall be deemed not to have any share in a net increase or decrease in the net assets of an unincorporated affiliated foreign national in the scheduled area if the immediate parent of such unincorporated affiliated foreign national is not the direct investor or an affiliate of the direct investor as defined in § 1000.903(a).

(5) For purposes of §§ 1000.312(a) and 1000.313(a), if an unincorporated affiliated foreign national of a direct investor has a net decrease in its net assets during any period, the direct investor shall be deemed to have made a transfer of capital to the immediate parent of such unincorporated affiliated foreign national to the extent that the direct investor's share of such net decrease is not attributable to losses incurred by the unincorporated affiliated foreign national during such period: *Provided*, That such immediate parent is an incorporated affiliated foreign national and is an affiliate of the direct investor as defined in § 1000.903(a).

(6) For purposes of §§ 1000.312(b) and 1000.313(a), (i) if an unincorporated affiliated foreign national of a direct investor has a net increase in its net assets during any period, the immediate parent of such unincorporated affiliated foreign national shall be deemed to have made a transfer of capital to the direct investor to the extent that the direct investor's share of such net increase is not attributable to earnings of the unincorporated affiliated foreign national during such period, and (ii) if an unincorporated affiliated foreign national of a direct investor incurs a loss during any period but such unincorporated affiliated foreign national has no change or has a net increase in its net assets during such period, or has a net decrease in its net assets during such period but the loss exceeds the net decrease in net assets, the immediate parent of such unincorporated affiliated foreign national shall be deemed to have made a transfer of capital to the direct investor in an amount equal to (*a*) the direct investor's share of the loss, (*b*) the direct investor's share of the net increase in net assets plus the direct investor's share of the loss or (*c*) the amount by which the direct investor's share of the loss exceeds the direct investor's share of the net decrease in net assets, as the case may be: *Provided, in each case*, That the immediate parent of the unincorporated affiliated foreign national is an incorporated affiliated foreign national and is an affiliate of the direct investor as defined in § 1000.903(a).

(7) In determining the effect of transfers between affiliated foreign nationals and the effect of changes in net assets of unincorporated affiliated foreign nationals under this § 1000.505, the fact that the underying transactions may involve qualified export obligations or qualified export leases (as defined respectively in §§ 1000.312(c)(13) and 1000.312(c)(14) shall be disregarded.

(b) Notwithstanding anything to the contrary contained in paragraph (a) of this section, a trade credit extended by one affiliated foreign national of a direct investor to another affiliated foreign national of such direct investor in the ordinary course of business pursuant to arm's-length terms shall not be deemed a transfer of capital by the direct investor to the affiliated foreign national receiving the credit nor a transfer of capital by the affiliated foreign national extending the credit to the direct investor if the obligation is in fact paid within 12 months after extension of the credit, in which event payment of the obligation shall not be deemed a transfer of capital by the direct investor to the affiliated foreign national receiving payment nor a transfer of capital by the affiliated foreign national making payment to the direct investor. If the affiliated foreign national extending or receiving the credit is an unincorporated affiliated foreign national of the direct investor and the obligation is in fact paid within 12 months, any change in the net assets of the unincorporated affiliated foreign national attributable to the transaction shall not be taken into account under § 1000.313(b) in calculating the net transfer of capital made by the direct investor to all unincorporated affiliated foreign nationals in the scheduled area in which such unincorporated affiliated foreign national is located.

(c) For purposes hereof, the immediate parent of a partnership referred to in § 1000.304(a)(1) is the direct investor or affiliated foreign national which is the partner, the immediate parent of a business venture referred to in § 1000.304(a)(2) is the direct investor, and the immediate parent of a business venture referred to in § 1000.304(a)(3) is the corporation or partnership on whose behalf the business venture is conducted.

**§ 1000.506 Additional authorized positive direct investment in any one or more scheduled areas; incremental earnings allowable.**

(a) For the purposes of this section:

(1) The term "aggregate annual earnings" means the algebraic sum of a direct investor's annual earnings in all scheduled areas as defined in § 1000.504(b)(4).

(2) The term "base period aggregate annual earnings" means an amount equal to 50 percent of the sum of the aggregate annual earnings for the years 1966 and 1967: *Provided*, That the base period aggregate annual earnings shall in no event be less than zero.

(3) The term "incremental earnings" means, with respect to each year beginning with the year 1970, the amount, if any, by which the aggregate annual earnings for such year exceed the base period aggregate annual earnings.

(4) The term "incremental earnings allowable" means, with respect to each year beginning with the year 1973 in which there are incremental earnings, the amount by which 40 percent of the incremental earnings for such year exceeds the greatest of the following (computed without regard to the reduction provisions of § 1000.1003 or any authorization, exemption, ruling, compliance settlement or order, and without regard to any election made under § 1000.502(a)): (i) $2 million, or (ii) the amount of positive direct investment, if any, authorized to be made by the direct investor during such year in all scheduled areas under § 1000.504(a)(1), (2), and (3), or (iii) the amount of positive direct investment, if any, authorized to be made by the direct investor during such year in all scheduled areas under § 1000.504(b)(1), (2), and (3).

(b) For any year, commencing with the year 1970, a direct investor that elects under § 1000.502(a)(1) may make additional positive direct investment in excess of that authorized by § 1000.503 in all scheduled areas in an aggregate amount not exceeding the direct investor's incremental earnings allowable for such year.

(c) For any year, commencing with the year 1973, a direct investor that elects under § 1000.502(a) (2) or (3) may make additional positive direct investment in excess of that authorized by § 1000.504 in any scheduled area in an amount not exceeding the direct investor's incremental earnings allowable for such year: *Provided*, That the aggregate of positive direct investment made pursuant to this paragraph in all scheduled areas shall not exceed the incremental earnings allowable. Additional positive direct investment made in Schedule C for such year pursuant to this section shall be computed in accordance with § 1000.504(e).

(d) If, during any year commencing with the year 1970, the incremental earnings allowable authorized to a direct investor exceeds the aggregate of additional positive direct investment made in all scheduled areas pursuant to paragraph (b) or (c) of this section, the direct investor is authorized to make additional positive direct investment, during succeeding years, in the same manner as provided in paragraphs (b) and (c) of this section, in an aggregate amount not exceeding such excess.

**§ 1000.507 Alternative minimum and Schedule A supplemental allowable. [Revoked]**

## Subpart F—Records and Reports

**§ 1000.601 Records.**

Every person subject to the provisions of this part shall keep in the United States a full and accurate record of each transaction engaged in by it which is subject to the provisions of this part, regardless of whether such transaction is effected pursuant to authorization or otherwise, and of every other transaction between such person and an affiliated foreign national. Such records (including, but not limited to, source materials, journals or other books of original entry, ledgers, financial statements, work papers, regardless of by whom prepared, and minute books) shall be retained for the greater of (a) 3 years after the date on which an annual report, relating to the year in which the transaction is effected, is due, irrespective of whether such person is exempt from filing such report and irrespective of whether there is a reporting requirement with respect to such transaction, or (b) 3 years after the due date for the filing of an annual report relating to or containing information concerning or based upon such transaction, whether or not the transaction is individually identified.

**§ 1000.602 Reports.**

(a) Every person is required to furnish under oath, in the form of reports or otherwise, from time to time and at any time as may be required by the Secretary, complete information relative to any transaction with respect to which records are required to be kept under this part or information otherwise reasonably related to direct investment or the purposes of Executive Order 11387 or of this part. The Secretary may require that such reports include the production of any books of account, contracts, letters, or other papers, relevant to direct investment or transactions related thereto in the custody or control of persons required to make such reports. Complete information with respect to transactions related to direct investment may be required either before or after such transactions are completed. The Secretary may, through any person or agency, investigate any such transaction or any violation of the provisions of this part, regardless of whether any report has been required or filed in connection therewith.

(b) In addition to such other reports as may be required under paragraph (a) of this section, the following reports are required to be filed by direct investors with the Office of Foreign Direct Investments, Department of Commerce, Washington, D.C. 20230:

(1) *Form FDI–101, Base Period Report.*—Each direct investor must file this report on or before the end of the month following the close of the calendar quarter during which it becomes a direct investor, unless the direct investor is exempt from filing as provided in the instructions to this report. If an exemption from filing ceases to apply to a direct investor, such direct investor must file this report on or before the end of the month following the close of the calendar quarter during which the exemption ceases to apply.

(2) *Form FDI–102, Cumulative Quarterly Report.*—Each direct investor must file this report (on Form FDI–102/102F) within 45 days after the close of each quarter of the calendar year, unless such filing is waived by OFDI or the direct investor is exempt from filing as provided in the instructions to this report.

(3) *Form FDI–102F, Annual Report.*—Each direct investor must file this report (on Form FDI–102/102F) for each year on or before April 30 of the succeeding year, unless the direct investor is exempt from filing as provided in the instructions to this report or is exempt from filing a Base Period Report on Form FDI–101 as provided in the instructions to such report.

(4) *Form FDI–102F/S, Annual Report: Short Form.*—If a direct investor elects pursuant to § 1000.502(a)(1) to be governed by the provisions of § 1000.503 and satisfies other criteria specified in the instructions to this report, it may file its Annual Report on Form FDI–102F/S in lieu of Form FDI–102F on or before April 30 of the year succeeding the year for which the report is filed.

(5) *Form FDI–105, AFN Financial Structure and Related Data.*—Each direct investor must file this report on or before the date specified in the instructions to this report.

V 38 185 SEP 25 73 XUM

(6) *Form FDI–106, Standard Certificate for Repayment of Borrowings Made on or after May 1, 1970.*—In order for positive direct investment resulting from the repayment of borrowing made by a direct investor or its affiliated foreign national to be authorized under Subpart J of this part, a certificate on Form FDI–106 must be filed not later than 10 days after the direct investor makes the borrowing or guarantees the borrowing by its affiliated foreign national.

(7) *Form FDI–107, Adjusted 1965–67 Base Period and Prior Years' Annual Earnings Report for DIs Engaging in § 312(c)(1) Transactions.*—If the filing of Forms FDI–107 is elected under § 1000.312(c)(1)(i), this report must be filed by the acquiring and divesting direct investors on or before the end of the month following the close of a calendar quarter during which the acquisition occurred. The surviving direct investor is required by § 1000.312(c)(1)(ii) to file this report on or before the end of the month following the close of the calendar quarter during which a combination of direct investors occurred.

(c) Applications for extensions of time in which to file reports shall be made to the Office of Foreign Direct Investments and must be received by the Office prior to the time such reports are due. Applications shall contain a statement of reasons for inability to report on time. An extension of time will be given for good cause shown.

(d) Reports mailed to the Office are deemed filed on the date post-marked on the envelope in which they are mailed. Reports delivered directly to the Office are deemed filed when received as evidenced by the Office's date stamp thereon.

(e) Copies of all necessary forms, and instructions as to their preparation and filing, may be obtained from the Office of Foreign Direct Investments, Department of Commerce, Washington, D.C. 20230.

### Subpart G—Penalties

**§ 1000.701 Penalties.**

(a) Attention is directed to 12 U.S.C. 95a, which provides in part:

> Whoever willfully violates any of the provisions of this section or of any license, order, rule, or regulation issued thereunder, shall, upon conviction, be fined not more than $10,000, or, if a natural person, may be imprisoned for not more than 10 years, or both; and any officer, director, or agent of any corporation who knowingly participates in such violation may be punished by a like fine, imprisonment, or both. As used in this section the term "person" means an individual, partnership, association, or corporation.

This section is applicable to violations of any provision of this part and to violations of the provisions of any license, ruling, regulation, order, direction or instruction issued by or pursuant to the direction or authorization of the Secretary pursuant to this part or otherwise under such section.

(b) Attention is also directed to 18 U.S.C. 1001, which provides:

> Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals, or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious, or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than 5 years, or both.

**§ 1000.702 Effect upon lenders.**

Any person (other than an affiliated foreign national of a direct investor) who lends money or extends credit to such direct investor or to an affiliated foreign national of such direct investor and who does not have actual knowledge, when such loan is made or credit extended (or when a commitment is given to make the loan or extend the credit), that the use of the proceeds thereof, the repayment thereof or any other transaction in connection therewith will involve or constitute a violation by the direct investor of any provision of this part or of any license, ruling, regulation, order, direction or instruction issued by or pursuant to the authorization or direction of the Secretary pursuant to this part or otherwise under § 1000.701, may receive repayment thereof (together with all interest and other fees and charges) and otherwise participate in any other transaction in connection therewith without being subject to the penalties referred to in § 1000.701(a), and such person's rights against the direct investor or affiliated foreign national in connection with such loan or extension of credit shall not in any way be affected or impaired by reason of the provisions of this part.

### Subpart H—Procedures

**§ 1000.801 Applications for specific authorizations and exemptions.**

(a) *Filing.*—Transactions subject to the prohibitions contained in this part which are not generally authorized may be effected only under specific authorization. Persons subject to the requirements of this part may be exempted from complying with any requirement thereof only through a specific exemption. Any person may file an application for specific authorization or for specific exemption. Such application shall contain all relevant information and shall be filed in triplicate with the Director, Office of Foreign Direct Investments, Department of Commerce, Washington, D.C. 20230. An applicant may furnish additional information or present views concerning the application at any time before a decision has been rendered thereon. The application may include a request that the Director, in his discretion, grant the applicant a conference with the Director or his designee.

(b) *Decisions.*—Written notice of action taken on an application shall be given to the applicant. Whenever an application is denied, such notice shall include a brief statement of the grounds therefor.

**§ 1000.802 Petitions for reconsideration; appeals.**

This section sets forth the procedures applicable to (1) petitions to the Director for reconsideration of administrative actions and (2) appeals to the Foreign Direct Investments Appeals Board (the "Board") from administrative actions and decisions on petitions for reconsideration.

(a) *General provisions.*—(1) The term "administrative action" means, with respect to any person, (i) a decision upon an application for a specific authorization or exemption filed by such person, or (ii) any action taken specifically with respect to such person pursuant to the exercise of a discretionary power by the Secretary in accordance with any provision of this part. The term "administrative action" does not include an opinion or ruling interpreting the regulations, or a decision upon a petition for reconsideration or upon an appeal.

(2) Notice of an administrative action or of a decision rendered upon a petition for reconsideration or upon an appeal shall be deemed to have been given on the date when mailed or delivered to the petitioner or appellant: *Provided*, That notice of an administrative action taken prior to the effective date of this section shall be deemed to have been given on such effective date.

(3) A petition for reconsideration shall be deemed filed on the date received by the Office of Foreign Direct Investments. An appeal shall be deemed filed on the date received by the secretary of the Board.

(4) Any person may withdraw a petition for reconsideration or an appeal at any time prior to the date a decision is rendered thereon.

(b) *Petitions for reconsideration.*—Any person may petition for reconsideration of an administrative action taken with respect to such person unless such person has previously appealed the same or a related administrative action to the Board and such appeal is then pending or a decision has been rendered thereon. The filing of a petition for reconsideration shall not suspend or stay the effect of the administrative action of which reconsideration is sought unless the Director, in his discretion, so orders.

(1) *Form of petitions.*—An original and five copies of the petition for reconsideration and all supporting documents shall be submitted. The petition shall enclose a copy of the administrative action of which reconsideration is asked, and shall state the grounds upon which the petition is based and the relief requested. All facts and argument in support of the petition shall be separately identified and set forth in detail.

(2) *Filing.*—A petition for reconsideration of an administrative action shall be filed not later than 20 days after notice of the administrative action is given to the petitioner. It shall be addressed to the Director, Office of Foreign Direct Investments, Ref.: "Petition for Reconsideration," U.S. Department of Commerce, Washington, D.C. 20230. If a petition is withdrawn, the time which has elapsed since notice of the administrative action was given to the petitioner shall not be counted as part of the time allowed for appeal. Requests for extension of time within which to file petitions for reconsideration may be granted in the discretion of the Director.

(3) *Conferences.*—The petition may include a request that the Director, in his discretion, grant an informal conference with the Director or his designee.

(4) *Decisions.*—The Director may dismiss the petition, may grant or deny the petition in whole or in part, or may modify all or part of the administrative action under reconsideration. Written notice of the decision shall be given to the petitioner.

(c) *Appeals*—(1) *Foreign Direct Investment Appeals Board.*—The Foreign Direct Investment Appeals Board is established in the Office of the Secretary. The Secretary of Commerce (without power of delegation) shall appoint three responsible officials of the Department of Commerce, none of whom shall be employees of the Office of Foreign Direct Investments, to serve as members of the Board. The Board may, in its discretion, establish rules of procedure in addition to those set forth in this section. Any person may appeal in writing to the Board on the ground that an administrative action or a decision on petition for reconsideration with respect to such person resulted in unusual hardship upon appellant and is inconsistent with achievement of the goals and objectives of Executive Order 11387 and this part. An appeal may not be filed if such person has previously filed a petition for reconsideration respecting the same or a related administrative action and no decision has been rendered thereon or the petition has not been withdrawn. The filing of an appeal shall not suspend or stay the effect of the administrative action or decision on the petition for reconsideration under appeal unless the Board, in its discretion, so orders.

(2) *Form of appeals.*—An original and ten copies of the appeal and all supporting documents shall be submitted. The appeal shall enclose a copy of the administrative action or decision on the petition for reconsideration from which appeal is made, and shall state the particulars upon which the appeal is based and the relief requested. All facts and argument in support of the appeal shall be separately identified and set forth in detail. The Board may, in its discretion, request an appellant to make an oral presentation to the Board or any member thereof, at a time and place designated by the Board.

(3) *Filing.*—Appeals shall be filed with the Board not later than 30 days after notice of the administrative action or decision on the petition for reconsideration has been given to the appellant. Requests for extensions of time within which to file appeals may be granted in the discretion of the Board. Appeals shall be addressed to the Secretary, Foreign Direct Investment Appeals Board, U.S. Department of Commerce, Washington, D.C. 20230.

(4) *Decisions.*—The Board may dismiss, grant or deny the appeal in whole or in part or modify all or part of the administrative action or decision on the petition for reconsideration under appeal. Written notice of the Board's decision shall be furnished to the appellant and shall constitute final Departmental action.

**§ 1000.803 Proof of authority to file certain documents.**

An application for a specific authorization or exemption, a request for an interpretative opinion, a petition for reconsideration or an appeal will not be considered unless in the case of:

(a) A corporation, partnership, trust, or other unincorporated entity, it is executed by a corporate officer, general partner, trustee, or other duly authorized person who shall certify his authority to act on behalf of the entity;

(b) A natural person, it is executed and acknowledged by him; or

(c) Submission by an attorney or agent on behalf of any person, it is accompanied by a duly authorized power of attorney.

**§ 1000.804 Amendment, modification, or revocation.**

The provisions of this part and any rulings, exemptions, authorizations, instructions, waivers, orders, or forms issued under this part may be amended, modified, or revoked at any time. Unless the Secretary otherwise specifies, the public interest requires that such amendments, modifications, or revocations be made without prior notice.

**§ 1000.805 Rules governing availability of information.**

Completed Forms FDI–101, –102, –102F, –103, –104, –105, –106, or any other completed forms filed with the Office, applications and requests for specific authorizations, exemptions or interpretations, petitions for reconsideration, appeals, materials submitted thereunder, and decisions thereon are considered to be matters covered by 5 U.S.C. 552(b). Other information, records, and material of the Office of Foreign Direct Investments if required by 5 U.S.C. 552 to be made available to the public shall be available in accordance with the provisions of Department Order 64 of the Secretary of Commerce (32 FR 9643, July 4, 1967) and in accordance with the provisions of Part 4 of this title (32 FR 9643, July 4, 1967).

**§ 1000.806 Delegations.**

Any function, duty or authority under this part may be performed or exercised by the Secretary or any person, agency or instrumentality designated by him (directly or indirectly by one or more redelegations of authority); and the term "Secretary," as used in this part, shall include any such designated person, agency, or instrumentality, as applicable.

### Subpart I—Direct and Indirect Interests; Affiliated, Associated and Family Groups; Ownership of Direct Investors; Rules for Reporting

**§ 1000.901 Direct interests.**

A direct interest in a person is an interest which is not owned through an intervening person or chain of persons. The amount of a direct interest owned by one person in another person is calculated according to the following rules:

(a) The amount of a direct interest owned by a person in a corporation is the percentage of the total combined voting power of all outstanding securities of the corporation possessing voting power represented by such securities which are beneficially owned by such person or in respect of which such person beneficially owns voting trust certificates, depositary receipts or other similar instruments representing such securities. Voting power means the power presently to vote in the election of the directors of the corporation or, if the corporation does not have directors, in the election or appointment of persons performing management functions or functions supervisory of management.

(b) The amount of a direct interest owned by a person in a partnership, trust, or business venture which is not a corporation is such person's percentage share in the profits of such organization: *Provided*, That if an interest in an such organization shall entitle the owner to a fixed amount out of, rather than a percentage of profits, or another arrangement is in effect which may cause the interest in profits to vary in accordance with future conditions or contingencies, the interest shall be calculated by reference to the proportion of the profits of the organization actually distributed or distributable to such person at the close of the most recent annual accounting period of the organization.

(c) If the rules set forth in paragraphs (a) or (b) of this section are not applicable to a particular corporation, partnership, trust or business venture in which such person owns an interest, the amount of the interest shall be calculated by any reasonable method which fairly reflects the amount thereof.

**§ 1000.902 Indirect interests.**

An indirect interest in a person is an interest owned through ownership of an intervening person or chain of persons. The amount of an indirect interest owned by one person in another person is calculated by multiplying together the direct interests of each person in the chain in each person in the chain (treating stock of a higher tier corporation held by a lower tier corporation as not outstanding).

**§ 1000.903 Affiliated groups.**

(a) For purposes of paragraph (b) of this section, an "affiliate" of a person within the United States means any other person (other than an individual), wheresoever located, in which the aggregate of direct interests owned by such

V 38 I 185 SEP 25 73 XUM

person within the United States and any affiliate or affiliates (as herein defined) of such person exceeds 50 percent.

(b) An "affiliated group" means a person within the United States and all of its affiliates which are persons within the United States; such person and such affiliates are members of the affiliated group. Any person which owns a direct or indirect interest in a member of an affiliated group but which is not itself a member thereof shall be deemed to own a direct or indirect interest, as the case may be, in the affiliated group.

(c) Except as provided in § 1000.906(b)(1), the members of an affiliated group shall, for all purposes of this part, be considered a single person within the United States.

(d) An affiliated group shall file reports under § 1000.602 in the manner provided in § 1000.907.

**§ 1000.904 Family groups.**

(a) For all purposes of this part, an individual who is a person within the United States, his spouse (unless legally separated), and all relatives of such individual or his spouse residing with such individual shall be considered a single person within the United States.

(b) A family group shall file reports under § 1000.602 in the manner provided in § 1000.907.

**§ 1000.905 Associated groups.**

(a) An "associated group" consists of two or more persons within the United States (one or all of which may be an affiliated or family group) which, pursuant to an express or implied agreement or understanding, act in concert to own or acquire interests in the same corporation or partnership organized under the laws of a foreign country or in the same business venture conducted within a foreign country: *Provided*, That, the interests are not owned or acquired through a corporation, partnership (other than a joint venture), or trust which is a person within the United States (without regard to whether the corporation, partnership, or trust is organized or created for the purpose of owning or acquiring such interests); *And provided further*, That the aggregate of such interests would, if owned or acquired by only one of such persons, cause such person to be a direct investor in the corporation, partnership, or business venture under § 1000.305.

(b)(1) Notwithstanding the provisions of § 1000.305, each member of an associated group shall be deemed a direct investor in the corporation, partnership, or business venture in which the interests are owned or acquired (hereinafter referred to as the "group affiliated foreign national") for all purposes of this part: *Provided*, That, a person which is a direct investor by virtue of this paragraph (b)(1) of this section but not by virtue of the provisions of § 1000.305 shall not be subject to the provisions of § 1000.203.

(2)(i) Notwithstanding the provisions of § 1000.503, positive direct investment made during any year, commencing with the year 1970, by members of an associated group that elect § 1000.503 in group affiliated foreign nationals of the associated group shall not be authorized by § 1000.503, unless the aggregate of direct investment made during the year by all such members (being considered for purposes of this subdivision as a single direct investor) in all group affiliated foreign nationals would have been authorized by § 1000.503.

(ii) [Revoked]

(iii) [Revoked]

(3) Unless the election referred to in § 1000.907(c)(2) has been made and approved by the Secretary, each member of an associated group shall file separate reports under § 1000.602 in the manner provided in § 1000.907.

**§ 1000.906 Ownership of direct investors.**

(a)(1) Unless the election provided for in paragraph (b)(1) of this section is made, no direct investment made or foreign balances held before or after the effective date by a direct investor shall be deemed to have been made or held by any other person within the United States because such other person owns or acquires a direct or indirect interest in such direct investor.

(2) A person within the United States which owns a direct or indirect interest in a direct investor may, depending on all the facts and circumstances of the particular case, be deemed to be acting for or on behalf of the direct investor if such person transfers funds or other property to affiliated foreign nationals of the direct investor.

(b)(1) Persons within the United States owning a direct interest in a direct investor may elect not to be governed by the rule set forth in paragraph (a)(1) of this section: *Provided*, That this election shall not, unless the Secretary in his sole discretion determines otherwise, be available if there are more than 10 persons (whether such persons are persons within the United States or foreign nationals) which own direct interest in such direct investor. For purposes of this paragraph (b) of this section, each member of an affiliated group shall be considered a separate person within the United States.

(2) An election pursuant to paragraph (b)(1) of this section as to any direct investor shall be made with the consent of those persons within the United States owning, in the aggregate, a majority interest in such direct investor. The election shall be evidenced by a document executed by or on behalf of all persons consenting thereto (hereinafter referred to as the "consenting owners") and such documents shall be filed promptly after its execution with the Program Reports Division, Office of Foreign Direct Investments, U.S. Department of Commerce, Washington, D.C. 20230. All persons within the United States owning a direct interest in the direct investor shall be afforded a reasonable opportunity to join in the election and, if any persons within the United States owning a direct interest in the direct investor do not join in the election, the document evidencing the election shall recite that a reasonable opportunity to join in the election was in fact afforded to such persons.

(3)(i) Notwithstanding the provisions of § 1000.305, if an election pursuant to paragraph (b)(1) of this section is made as to any direct investor (hereinafter referred to in this paragraph (3) of this section as the "principal direct investor"), each consenting owner shall be deemed a direct investor in every affiliated foreign national of the principal direct investor for all purposes of this part. The entire amount of direct investment made and foreign balances held by the principal direct investor before and after the effective date shall be deemed to have been made or held by the consenting owners. The portion of such foreign balances and direct investment allocable to each such consenting owner shall be a fraction thereof, the numerator of such fraction to be the direct interest in the principal direct investor owned by such consenting owner and the denominator of such fraction to be the aggregate of the direct interest in the principal direct investor owned by all consenting owners.

(ii) Notwithstanding the provisions of § 1000.503, positive direct investment made (or deemed to have been made under subdivision (i) of this subparagraph) during any year, commencing with the year 1970, by consenting owners that elect § 1000.503 in an affiliated foreign national of the principal direct investor shall not be authorized by § 1000.503, unless the aggregate of direct investment made or deemed to have been made during the year by all consenting and nonconsenting owners electing § 1000.503 (such owners being considered for purposes of this subdivision as a single direct investor) in all affiliated foreign nationals of the principal direct investor would have been authorized by § 1000.503.

(iii) [Revoked]

(iv) [Revoked]

(4) Once an election is made pursuant to paragraph (b)(1) of this section, it may not be changed without the permission of the Secretary.

**§ 1000.907 Reporting.**

(a) Except as provided in paragraph (b)(3) of this section (or unless a specific exemption from reporting is otherwise available) each person within the United States which is a direct investor by virtue of the provisions of §§ 1000.305, 1000.905(b)(1), or 1000.906(b)(3)(i), other than a direct investor as to which an election has been made under § 1000.906(b)(1), shall file separate reports (including Forms FDI–101 and FDI–102) under § 1000.602.

(b)(1) If a direct investor owns direct interests in one or more other direct investors as to which an election has been made under § 1000.906(b)(1) and such direct investor has consented to

the election, the reports filed by the direct investor shall include, in addition to all other required information, the direct investor's fractional share (computed in accordance with § 1000.906(b)(3)(i)) of the amount of foreign balances, direct investment and other items which such direct investors would have been required to include in their reports if the elections had not been made.

(2) If a direct investor owns indirect interests in one or more other direct investors, or owns direct interests in one or more other direct investors as to which an election has not been made under § 1000.906(b)(1) or as to which such an election has been made but the direct investor has not consented thereto, reports filed by the direct investor shall not include any foreign balances held or direct investment made by such other direct investors during the relevant period before or after the effective date or any other items required to be included in the reports of such other direct investors for such period.

(3) If, by virtue of the provisions of paragraph (b)(2) of this section, a direct investor has no foreign balances or direct investment transactions which are reportable by it for any period before or after the effective date, the direct investor shall not be required to file a Form FDI–101 or FDI–102 for such period.

(c)(1) If a direct investor is a member of one or more associated groups, the reports filed by the direct investor shall include, in addition to all other required information, the net transfers of capital made by the direct investor to all group affiliated foreign nationals during the relevant period, and, if any of the group affiliated foreign nationals are incorporated affiliated foreign nationals as defined in § 1000.304, shall also include the direct investor's proportionate share in the reinvested earnings of such incorporated affiliated foreign nationals during such period. A member of an associated group which is a direct investor under § 1000.905(b)(1) but not under § 1000.305 is not subject to the provisions of § 1000.203, and such member shall not report its foreign balances on Forms FDI–101 or FDI–102.

(2) Notwithstanding the foregoing, the members of an associated group may elect, by a document executed by or on behalf of a majority in interest of the members of the group and filed with the Program Reports Division, Office of Foreign Direct Investments, U.S. Department of Commerce, Washington, D.C. 20230, to have one member of the group file reports under § 1000.602 on behalf of all members, each such report to reflect the aggregate direct investment transactions of all members with all group affiliated foreign nationals during the relevant period before or after the effective date. Such election shall be subject to the approval of the Secretary who may grant such approval subject to any terms and conditions that he deems necessary. Once an election is made pursuant to this paragraph (c)(2) of this section it may not be changed without the permission of the Secretary.

(d) If a direct investor is an affiliated or family group, the reports filed by the direct investor shall aggregate all foreign balances, direct investment transactions and other reportable items attributable to each member of the group. The group's Forms FDI–101 and FDI–102 shall be filed on behalf of the group by one member thereof. Such member shall also file all other reports, certificates, and other documents required to be filed by the group under the provisions of this part.

## Subpart J—Repayment of Borrowings

**§ 1000.1001 Definitions.**

For purposes of this part and General Authorization No. 1 (33 FR 818):

(a) The term "borrowing by an affiliated foreign national" means a borrowing by an affiliated foreign national of a direct investor from any person (other than the direct investor or another affiliated foreign national of the direct investor), including, but not by way of limitation, an extension of credit by any such person to the affiliated foreign national in connection with the purchase of property (including securities) by the affiliated foreign national from such person. Repayment by a direct investor of a borrowing by an affiliated foreign national includes repayment of all interest, premiums and other fees and charges, if any, owing to the lender in connection therewith.

(b) The term "borrowing by a direct investor" means a borrowing by the direct investor, repayment of which by the direct investor would constitute a transfer of capital under § 1000.312(a)(7).

(c) The term "guarantee," when used with respect to a borrowing by an affiliated foreign national, includes (1) a written acknowledgement of secondary responsibility (whether or not legally enforceable) to a bank with respect to the borrowing or with respect to the financial condition of the affiliated foreign national; (2) a written guarantee, endorsement, surety agreement, application for letter of credit or standby agreement with respect to the borrowing; (3) a contingent contractual commitment with respect to the borrowing of the type involved in so-called through-put agreements, take-or-pay contracts, keep-well agreements, and other similar written agreements; and (4) a mortgage, pledge or hypothecation of property as security for repayment of the borrowing, other than a mortgage, pledge or hypothecation to or with a foreign national which constitutes a transfer of capital under § 1000.312(a)(9). The term "guarantee" includes a guarantee given by one affiliated foreign national of a direct investor with respect to a borrowing by another affiliated foreign national of the direct investor if repayment pursuant to the guarantee would result in a transfer of capital by the direct investor under § 1000.505.

(d) The term "bank" means a domestic bank or a foreign bank as described in § 1000.317.

**§ 1000.1002 Transfers of capital in connection with repayment of borrowings.**

(a) Subject to the provisions of § 1000.1003, positive direct investment by a direct investor during any year in affiliated foreign nationals in any Scheduled Area is authorized, notwithstanding the provisions of § 1000.201, to the extent such positive direct investment is attributable in whole or in part to those transfers of capital by the direct investor (including transfers of capital under § 1000.505) as are described in paragraphs (a)(1) through (6) of this section:

(1) A transfer of capital, pursuant to a guarantee made prior to June 10, 1968, which transfer is made in repayment of, or to enable an affiliated foreign national to repay, a borrowing by such affiliated foreign national: *Provided*, That, in the case of a guarantee made on or after January 1, 1968, the direct investor shall have complied with the certification requirements set forth in section 2(a)(1) of General Authorization No. 1.

(2) A transfer of capital in repayment of, or to enable an affiliated foreign national to repay, a borrowing by such affiliated foreign national from a bank made prior to January 1, 1968, or a borrowing by such affiliated foreign national from a bank made on or after January 1, 1968, pursuant to a fixed loan commitment or line of credit established prior to such date or pursuant to any renewal or extension of such a fixed loan commitment or line of credit: *Provided*, That the liquid assets of the affiliated foreign national are not sufficient to repay such borrowing and that the affiliated foreign national has made every reasonable effort to refinance the borrowing on terms generally available to companies of similar size and financial position; *And provided further*, That, if, on or after January 1, 1968, the amount of such a fixed loan commitment or line of credit is increased by 10 percent or more, a new fixed loan commitment or line of credit shall be deemed to have been established at the time of such increase in an amount equal to the amount of the increase.

(3) A transfer of capital consisting of the delivery of equity securities of the direct investor, pursuant to the exercise of conversion or similar rights, to holders of debt obligations issued by the direct investor or by an affiliated foreign national of the direct investor, without regard to the date the borrowing is made: *Provided*, That, for purposes of § 1000.1003, any such transfer of capital shall be deemed to have been made in the year immediately following the year in which the conversion or similar rights are exercised.

(4) A transfer of capital (other than a transfer referred to in paragraph (a)(3) of this section) in repayment of a borrowing by the direct investor made prior to June 10, 1968: *Provided*, That with respect to a borrowing made on or after January 1, 1968, the direct investor shall

V 38 185
SEP 25 73
XUM

have complied with the certification requirements set forth in section 2(b) of General Authorization No. 1.

(5) A transfer of capital, pursuant to a guarantee made on or after June 10, 1968, which transfer is made in repayment of, or to enable an affiliated foreign national to repay, a borrowing by such affiliated foreign national: *Provided*, That the direct investor shall have complied with the certification requirements set forth in paragraph (b) of this section.

(6) A transfer of capital (other than a transfer referred to in paragraph (a)(3) of this section) in repayment of a borrowing by the direct investor made on or after June 10, 1968: *Provided*, That the direct investor shall have complied with the certification requirements set forth in paragraph (b) of this section.

(b) The certificate required by paragraphs (a)(5) and (6) of this section shall (after June 9, 1969) be made on Form FDI–106, and shall, except as otherwise provided in paragraph (e)(3) of this section, be delivered to the Secretary not later than 10 days after the date of the borrowing by the direct investor or the date of the guarantee of the borrowing by the affiliated foreign national, as the case may be. It shall be executed by the direct investor or a duly authorized representative of the direct investor, shall state the amount of the borrowing, and the amount of the required principal repayment, shall identify the lender (or the managing underwriter, if the borrowing involves a public offering), and shall certify as follows:

(1) If the direct investor believes, on the basis of all facts and circumstances existing when the certificate is delivered to the Secretary, that it will not make any transfers of capital in connection with repayment of the borrowing within 7 years after the date of the borrowing (or the date of the guarantee, if the borrowing is by an affiliated foreign national), the certificate shall state such belief and the reasons therefor.

(2) If the direct investor believes, on the basis of all facts and circumstances existing when the certificate is delivered to the Secretary, that it will make transfers of capital in connection with repayment of the borrowing within the aforesaid 7-year period, but also believes, on the basis of such facts and circumstances, that no positive direct investment by the direct investor in any scheduled area during any year will result in whole or in part from such transfers, or that any positive direct investment in any scheduled area which does result from such transfers will be authorized by this part (otherwise than by this section), the certificate shall state such beliefs and the reasons therefor.

(c) In determining whether a transfer of capital in connection with the repayment of a borrowing will be made within 7 years from the date of the borrowing or the guarantee thereof, as the case may be, and whether any such transfer will result in unauthorized positive direct investment during any year:

(1) A direct investor may disregard the possible occurrence of events (such as defaults by the direct investor or the borrowing affiliated foreign national, as the case may be), which are not reasonably likely to occur in view of the facts and circumstances existing when the certificate is delivered to the Secretary;

(2) A direct investor may disregard potential transfers of capital resulting from conversions into equity securities of the direct investor of the debt obligation as to which the certificate is being given and of other convertible debt obligations issued by the direct investor or affiliated foreign nationals of the direct investor: *Provided*, That potential transfers of capital resulting from conversions of debt obligations issued on or after June 10, 1968, shall not be disregarded if (i) the obligations have an original maturity of less than 7 years or (ii) the obligations are not sold in a public offering and are convertible within 3 years from the date of issuance; and

(3) A direct investor must consider, if a guaranteed borrowing by an affiliated foreign national is involved, whether the borrowing affiliated foreign national is reasonably likely to have sufficient financial resources to repay the borrowing after such affiliated foreign national (and all other affiliated foreign nationals in the same scheduled area) have paid all dividends or remittance which they may be required to pay by virtue of the limitations imposed in this part on positive direct investment.

(d) Notwithstanding the provisions of paragraph (a) of this section, no positive direct investment resulting from repayment of a borrowing shall be authorized by this subpart if repayment is made at the option of the direct investor. For purposes hereof, a repayment shall be deemed to have been made at the option of a direct investor if it was made pursuant to a call or like provision resting control of the time of repayment in the direct investor or an affiliated foreign national or if, at the time of repayment, the direct investor or an affiliated foreign national had the option to renew, extend or continue the borrowing and such option was not exercised.

(e) For purposes of this part and of General Authorization No. 1:

(1) A borrowing by a direct investor or an affiliated foreign national shall be deemed to have been made on the date the proceeds thereof are received by the borrower or, if an extension of credit in connection with the purchase of property is involved, on the date such property is purchased. Notwithstanding the foregoing, (i) if a borrowing involves a public offering of debt obligations, the borrowing shall be deemed to have been made on the date the obligations are issued and (ii) if a borrowing involves the use of an overdraft facility, the borrowing shall be deemed to have been on the date the overdraft is used.

(2) The refinancing by a direct investor of a foreign borrowing or a long-term foreign borrowing in accordance with the provisions of § 1000.324(b)(1), or the refinancing of a borrowing by an affiliated foreign national (by renewal, extension or continuance of such borrowing or by making a subsequent borrowing from the same or another lender), shall not be deemed a repayment of the original borrowing or the making of a new borrowing.

(3) If funds are to be borrowed by a direct investor or an affiliated foreign national pursuant to an arrangement with a lender (such as a line of credit or revolving credit arrangement) whereby the funds may be taken down from time to time over a specified period up to a stated maximum aggregate amount (or pursuant to a renewal or extension of such an arrangement), the direct investor may, in lieu of filing a separate certificate as to each take-down which constitutes a borrowing, file a single certificate with respect to all such borrowings, such certificate to be filed on or prior to the date of the first borrowing under the arrangement or under the renewal or extension thereof, as the case may be.

**§ 1000.1003 Effect of transfers of capital in repayment of borrowings.**

(a) For the purposes of this § 1000.1003, the term "repayment charge" shall mean an amount equivalent to the amount of positive direct investment made by a direct investor pursuant to § 1000.1002. A repayment charge shall be incurred by a direct investor in any year in which positive direct investment is made pursuant to § 1000.1002.

(b) The amount of positive direct investment authorized to be made by a direct investor under Subparts E and M of this part shall be reduced as provided in paragraphs (c) and (d) of this section until reductions equal in the aggregate to the repayment charge shall have been made.

(c)(1) In any year, commencing with the year 1973, in which a repayment charge is incurred, the amount of positive direct investment authorized to be made by the direct investor shall be reduced and, except as hereinafter provided, such reduction shall be made first in the amount of positive direct investment authorized under Subpart E of this part in the scheduled area in which the positive direct investment under § 1000.1002 was made, and, to the extent that the repayment charge exceeds the amount of positive direct investment so authorized in such scheduled area, further reduction shall be made in the amount of positive direct investment authorized under Subpart E of this part in Schedules C, B, and A, in that order, and then in the amount of positive direct investment authorized under Subpart M of this part: *Provided*, That a direct investor electing to be governed by § 1000.503 that makes negative direct investment, as defined in § 1000.306, may decrease the amount of the repayment charge in the amount of such negative direct investment: *And provided further*, That the amount of the reduction of the amount of positive direct investment authorized under Subpart E or M of this part shall not exceed the repayment charge (as decreased by negative direct investment), and that such reduction shall not reduce authorized positive direct investment under said subparts in any year to an amount less than zero.

(2) Reductions under paragraph (c)(1) of this section in the amount of positive direct investment authorized under Subpart E of this part shall be made first on the aggregate amount of positive direct investment authorized under § 1000.503 or § 1000.504, whichever is elected by the direct investor for the year, and then in the amount of positive direct investment authorized under § 1000.506.

(3) Reductions under paragraph (c)(1) of this section in the amount of positive direct investment authorized in Schedule C pursuant to § 1000.504 shall be made first in the amount of authorized positive direct investment under § 1000.504 (a) and (c) or (b), (d)(3), and (f)(3)(i), and then in the amount of authorized reinvested earning under § 1000.504 (e) and (f)(3)(ii).

(4) Reductions in the amount of authorized positive direct investment under paragraph (c)(1) of this section for a repayment charge attributable to transfers of capital primarily related to operations in foreign air transportation by direct investors described in § 1000.1302(a) shall be made first in the amount of authorized positive direct investment under Subpart M of this part.

(5) [Revoked]

(d) If the repayment charge incurred in any year exceeds the amount of authorized positive direct investment reduced under this section, reductions shall be made in each succeeding year in the same manner and order as set forth in paragraph (c) of this section.

General Authorization No. 1—Transfers of Capital, (REVOKED), superseded by Subpart-J, Repayment of Borrowings).

## Subpart K—Direct Investment In Canada

**§ 1000.1101 Definitions.**

(a) The term "Canadian affiliate" of a direct investor means an affiliated foreign national of the direct investor in Canada.

(b) The term "Non-Canadian Scheduled B affiliate" of a direct investor means an affiliated foreign national of the direct investor in a Schedule B country other than Canada.

(c) The term "Canadian bank" includes any branch or office within Canada of any of the following: Any bank or trust company organized under the banking laws of Canada or any province thereof, or any private bank or banker subject to supervision and examination under the banking laws of Canada or any province thereof.

(d) The term "Canadian person" means an individual who is a resident of Canada, a Canadian bank, and a Corporation or other entity (other than a bank) organized under the laws of Canada or any political subdivision thereof.

**§ 1000.1102 Authorized positive direct investment in Canada.**

Positive direct investment by a direct investor during any year in Canadian affiliates of the direct investor is authorized, without limitation as to amount.

**§ 1000.1103 Net transfers of capital to Schedule B countries.**

(a) For purposes of determining the net transfer of capital by a direct investor to all incorporated affiliated foreign nationals of the direct investor in Schedule B countries during any period (including the years 1965 and 1966) under § 1000.313(a), there shall be included only (1) the aggregate of all transfers of capital made during such period by the direct investor to incorporated Non-Canadian Schedule B affiliates of the direct investor less (2) the aggregate of all transfers of capital made during such period by such incorporated Non-Canadian Schedule B affiliates to the direct investor.

(b) For purposes of determining the net transfer of capital by a direct investor to all unincorporated affiliated foreign nationals of the direct investor in Schedule B countries during any period (including the years 1965 and 1966) under § 1000.313(b), there shall be included only the direct investor's share of the aggregate net assets of unincorporated Non-Canadian Schedule B affiliates of the direct investor.

(c) The provisions of § 1000.505(b) relating to the extension of short-term trade credits from one affiliated foreign national of a direct investor to another affiliated foreign national of the direct investor shall not be applicable if either the affiliated foreign national extending the credit or the affiliated foreign national receiving the credit is a Canadian affiliate.

(d) [Revoked]

**§ 1000.1104 Reinvested earnings—Schedule B countries.**

(a) For purposes of determining a direct investor's share in the total reinvested earnings of all incorporated affiliated foreign nationals of the direct investor in Schedule B countries during any period (including the years 1965 and 1966) under § 1000.306(a)(2), there shall be included only the direct investor's share in the total reinvested earnings of all incorporated Non-Canadian Schedule B affiliates of the direct investor during such period.

(b) In determining the direct investor's share in the total reinvested earnings of all incorporated Non-Canadian Schedule B affiliates during any period pursuant to § 1000.306(b), all incorporated and unincorporated Canadian affiliates of the direct investor shall be deemed to be in a scheduled area other than Schedule B.

**§ 1000.1105 Foreign balances.**

(a) The term "Canadian foreign balances" means (1) money on deposit in a Canadian bank (including fixed interest deposits of a Canadian bank); (2) negotiable instruments, nonnegotiable instruments or commercial paper of Canadian persons; and (3) securities issued or guaranteed by the Government of Canada or any political subdivision thereof or by any agency or instrumentality of the Government of Canada or any such political subdivision.

(b) For purposes of § 1000.203(c), the average end-of-month amounts of liquid foreign balances (other than direct investment liquid foreign balances) held by a direct investor during 1965 and 1966 and as of the end of any month commencing June 1968 shall be calculated by excluding all such liquid foreign balances then held by the direct investor which constitute Canadian foreign balances.

(c) [Revoked]

**§ 1000.1106 Long-term foreign borrowing.**

For all purposes of this part, a borrowing by a direct investor from a Canadian person, whether before or after the effective date, shall not be deemed a "long-term foreign borrowing": *Provided*, That, a borrowing involving the public offering, prior to April 1, 1968, of instruments of indebtedness of a direct investor, shall be considered a long-term foreign borrowing in its entirety if less than 25 percent of the aggregate principal amount of such instruments was sold to Canadian persons, or, if 25 percent or more of the aggregate principal amount of such instruments was sold to Canadian persons, the borrowing shall be considered a long-term foreign borrowing to the extent of the aggregate principal amount which the direct investor proves, to the satisfaction of the Secretary, to have been sold to persons other than Canadian persons: *And provided further*, That, a borrowing involving the public offering, on or after April 1, 1968, of instruments of indebtedness of a direct investor, shall be considered a long-term foreign borrowing in its entirety if such instruments are sold through underwriters in accordance with agreements limiting such sales to persons other than Canadian persons (other than sales to underwriters or securities dealers who are Canadian persons but who agree that they are purchasing such instruments as principals for resale to persons who are not Canadian persons and sales to agents or fiduciaries who are Canadian persons but who are acting for the benefit of persons who are not Canadian persons).

**§ 1000.1107 Canadian program.**

If a program for governing transfers of capital to foreign countries or the nationals thereof by Canadian affiliates and other Canadian business ventures shall hereafter be instituted by the Canadian Government or by any department or agency thereof (which program is consistent with the purposes of the regulations), the regulations will be amended appropriately with respect to transfers of capital to or from Canadian affiliates of a direct investor certified as subject to

V 38 185 SEP 25 73 XUM

or participating in such program by the Canadian Government or such department or agency.

## Subpart L—Exploration and Development Expenditures

**(Proposed but Withdrawn Prior to adoption; see Federal Register, Vol. 34, No. 122—Thursday, June 26, 1969)**

## Subpart M—Affiliated Foreign Nationals of Air Carriers Engaged in Foreign Air Transportation

### § 1000.1301 Exclusions.

(a) For purposes of determining transfers of capital to incorporated or unincorporated affiliated foreign nationals, for any period (including the years 1965 and 1966), a direct investor who is an "air carrier" or "supplemental air carrier", engaged in "foreign air transportation" as those terms are defined in the Federal Aviation Act of 1958 as amended, 49 U.S.C. § 1301 (3), (21), and (32), may elect to exclude from such transfers (i) flight equipment expendable parts described in Civil Aeronautics Board asset account number (CAB No.) 1310, (ii) aircraft engines described in CAB No. 1602, and (iii) flight equipment rotable parts and assemblies described in CAB No. 1608; *Provided*, That if such assets are so excluded, the direct investor shall also exclude, in calculating the amount of such transfers, reserves for depreciation or obsolescence or like reserves associated with such assets, and shall exclude all charges to depreciation expense or any other charges against earnings associated with such assets; *And provided further*, That such assets are reasonably necessary to the direct investor's operations in foreign air transportation.

(b) The election provided under this section shall be made as to any compliance year commencing with 1968 by stating that a § 1000.1301 election is made on the cover page of the last quarterly report for such year on Form FDI–102 timely filed by the direct investor pursuant to § 1000.602(b)(2) and by filing with said Form FDI–102, if not previously filed, an appropriately revised base period report on Form FDI–101. An election made pursuant to this section shall be binding and effective as to all assets meeting the requirements of paragraph (a) of this section and shall be binding and effective as to the year for which the election is made and for all succeeding years. Such an election may not thereafter be changed without the consent of the Secretary.

### § 1000.1302 Foreign air transport allowable.

(a) Positive direct investment by a direct investor who is an "air carrier" or "supplemental air carrier" engaged in "foreign air transportation" as those terms are defined in the Federal Aviation Act of 1958, as amended, 49 U.S.C. § 1301 (3), (21), and (32), and who elects under § 1000.502(a) (2) or (3), is authorized during any year commencing with the year 1971 in an amount not to exceed 40 percent of aggregate annual foreign air transport earnings for the immediately preceding year: *Provided*, That such positive direct investment is primarily related to the direct investor's operations in foreign air transportation.

(b) "Aggregate annual foreign air transport earnings" for any year shall mean operating profit from international and territorial route operations as properly reported by the direct investor for such year for Civil Aeronautics Board (CAB) income statement account number 7999 minus (1) annual net interest expense (including amortization of debt discount less capitalized interest) or amortization charges related to investment in international and territorial route operations as properly reported on and included in CAB Schedule P–3 or comparable nondivisional report; (2) taxes assessed by foreign countries and primarily related to the direct investor's operations in foreign air transportation; and (3) Federal subsidy as properly reported in CAB account number 4100.

(c) (1) If, during any year commencing with the year 1969, the amount of positive direct investment authorized under § 1000.504 to a direct investor governed by this section exceeds the amount of direct investment (whether positive or negative) not primarily related to the direct investor's operations in foreign air transportation made by the direct investor during such year under § 1000.504, the direct investor is authorized to make additional positive direct investment as provided in paragraph (a) of this section during such year or succeeding years: *Provided*, That the aggregate amount of additional positive direct investment authorized by this subparagraph shall not be more than the amount of such excess, and that the amount of positive direct investment authorized to the direct investor under § 1000.504 shall be reduced by the amount of additional positive direct investment made under this subparagraph.

(2) If, during any year commencing with the year 1969, the amount of positive direct investment authorized to a direct investor under paragraph (a) of this section exceeds the amount of direct investment (whether positive or negative) made by the direct investor during such year under paragraph (a) of this section, the direct investor is authorized to make additional positive direct investment as provided in paragraph (a) of ths section during succeeding years in a aggregate amount of not more than the amount of such excess.

(d) A direct investor governed by this section shall recalculate the amount of positive direct investment authorized to be made in any year commencing with the year 1971 under § 1000.504 (a) and (b) to exclude from the calculation of direct investment during the years 1965 and 1966 under § 1000.504(a), and from the calculation of annual earnings during any year under § 1000.504(b)(4), transfers of capital primarily related to the direct investor's operations in foreign air transportation, aggregate annual foreign air transport earnings and all component accounts and charges associated with such earnings, and all reserves or charges against earnings associated with such transfers.

(e) A direct investor governed by this section shall file on or before June 30, 1969, a revised Base Period Report on Form FDI–101 to exclude any direct investment primarily related to foreign air transportation, and shall thereafter file separate Cumulative Quarterly Reports and Annual Reports on Forms FDI–102 and FDI–102F as provided in § 1000.602 (b) (2) and (3) with respect to direct investment governed by this section and with respect to direct investment not so governed.

### § 1000.1303 Adjustment to incremental earnings allowable.

(a) For direct investors governed by § 1000.1302, "aggregate annual earnings" under § 1000.506(a)(1) shall mean the sum of "aggregate annual foreign air transport earnings" as defined in § 1000.1302(b) plus the algebraic sum of such direct investor's annual earnings (as calculated under §§ 1000.504(b)(4) and 1000.1302(d)) during a year in all scheduled areas.

(b) All reference to § 1000.504 in § 1000.506(a)(4) and (c) shall be deemed to include reference to § 1000.1302(a).

## Subpart N—Overseas Finance Subsidiaries

### § 1000.1401 Definitions.

(a) "Overseas finance subsidiary" of a direct investor means an affiliated foreign national which:

(1) Is incorporated under the laws of a foreign country other than Canada;

(2) Is directly or indirectly wholly owned (disregarding directors' qualifying shares) by the direct investor;

(3) Has as its principal business making overseas borrowing (as defined in paragraph (b) of this section) and investing overseas proceeds (as defined in paragraph (c) of this section) in (i) debt obligations of the direct investor and (ii) debt obligations of or equity securities in affiliated foreign nationals of the direct investor; and

(4) Has been qualified as an overseas finance subsidiary pursuant to § 1000.1402(a).

(b) "Overseas borrowing" means borrowing by an overseas finance subsidiary which, if made by a direct investor, would qualify as long term foreign borrowing under § 1000.324.

(c) "Overseas proceeds" means the funds or other property received by an overseas finance subsidiary from the first purchaser or holder in exchange for the debt obligation issued or created in connection with an overseas borrowing, less reductions provided for in § 1000.1404.

(d) "Available overseas proceeds" means overseas proceeds held by the overseas finance subsidiary.

(e) "Proceeds borrowing" means a borrowing by a direct investor from its overseas finance subsidiary of overseas proceeds, (1) which borrowing is continuously outstanding for at least 12 months after the date of the borrowing and (2) in exchange for which borrowing the overseas finance subsidiary receives and thereafter holds a debt obligation of the direct investor until such borrowing is repaid or until such debt obligation is canceled.

### § 1000.1402 Qualification.

(a) *Certificate.* An affiliated foreign national may be qualified as an overseas finance subsidiary for any year, commencing with the year 1970, if its direct investor shall have delivered to the Secretary in such year or in any prior year a certificate executed by the direct investor, or its duly authorized representative, which certificate states that:

(1) The affiliated foreign national has been organized as provided in § 1000.1401(a)(1), is owned as provided in paragraph (a)(2) of that section and is operating so that its principal business is as provided in paragraph (a)(3) of that section; and

(2) The direct investor will take all action necessary to cause such affiliated foreign national at all times to operate in the manner provided in § 1000.1401(a)(3).

(b) *Records.* A direct investor shall maintain books and records that identify separately each overseas borrowing and proceeds borrowing, the uses to which all overseas proceeds have been put, and all repayments of proceeds borrowing and overseas borrowing.

(c) *Revocations.* Qualifications as an overseas finance subsidiary may not thereafter be withdrawn or canceled by the direct investor except as permitted by the Secretary by authorization, exemption or otherwise. The Secretary may revoke the qualification of an affiliated foreign national as an overseas finance subsidiary if he determines, in his discretion, that such affiliated foreign national was not organized as provided in § 1000.1401(a)(1), is not owned as provided in paragraph (a)(2) of that section, is not operating so that its principal business is as provided in paragraph (a)(3) of that section, or has not complied with paragraph (b) of this section.

(d) *Effect on certain specific authorizations.* Any foreign-incorporated finance subsidiary of a direct investor which, pursuant to specific authorization issued under § 1000.801, has been deemed to be a person within the United States or an unaffiliated foreign lender, shall, beginning January 1, 1970, be governed in all respects by the provisions of this subpart in lieu of the provisions and conditions of such specific authorization, except that no certificate need be filed pursuant to paragraph (a) of this section.

### § 1000.1403 Transfers of overseas proceeds; foreign balances.

(a) *Transfers of overseas proceeds.* (1) The transfer of funds or other property in proceeds borrowing shall not be a transfer of capital under § 1000.312(b). For all purposes of this part, the funds or other property received by the direct investor in exchange for the debt obligation issued or created in connection with a proceeds borrowing shall be treated as available proceeds of long-term foreign borrowing (as defined in § 1000.324(d)).

(2) Notwithstanding the provisions of § 1000.505, the transfer of overseas proceeds by an overseas finance subsidiary in the acquisition of an equity interest in or a debt obligation of another affiliated foreign national of the direct investor shall not be included by the direct investor in the calculation of net transfer of capital under § 1000.313.

(3) Notwithstanding the provisions of § 1000.505, the return of overseas proceeds to an overseas finance subsidiary upon the satisfaction, liquidation, sale or other disposition of an equity interest or debt obligation acquired pursuant to paragraph (a)(2) of this section shall not be included by the direct investor in the calculation of net transfer of capital under § 1000.313:

(b) *Foreign balances.* (1) Foreign balances, as defined in § 1000.203(a)(1), held in liquid form by an overseas finance subsidiary, other than (i) available overseas proceeds and (ii) funds contributed to an overseas finance subsidiary as original or additional equity capital, shall be included in the computation of liquid foreign balances held by the direct investor for purposes of § 1000.203(c).

(2) [Revoked]

### § 1000.1404 Repayment of overseas borrowing and proceeds borrowing.

(a) For the purposes of this subpart, repayment by a direct investor of overseas borrowing shall mean (i) the complete or partial repayment by the direct investor directly of overseas borrowing and (ii) complete or partial repayment by the direct investor of proceeds borrowing to enable the overseas finance subsidiary to repay overseas borrowing. Notwithstanding the provisions of § 1000.312(a) (6) and (7), a repayment by the direct investor of overseas borrowing or a repayment by the direct investor of proceeds borrowing shall have the effect prescribed by subparagraphs (1) through (6) of this paragraph:

(1) Any repayment by the direct investor of overseas borrowing or proceeds borrowing shall constitute a reduction of available proceeds of long-term foreign borrowing held by the direct investor pursuant to § 1000.1403(a)(1). Overseas proceeds which became available proceeds of long-term foreign borrowing pursuant to such section shall be reduced in the same amount.

(2) The amount of any repayment by the direct investor or overseas borrowing or proceeds borrowing that exceeds the aggregate amount of reduction of available proceeds pursuant to subparagraph (1) of this paragraph shall constitute a transfer of capital to each scheduled area in proportion to and to the extent that the direct investor has expended or allocated to each such scheduled area available proceeds of long-term foreign borrowing and has made a deduction under § 1000.203(d)(2), § 1000.203(d)(3), § 1000.306(e), or § 1000.313(d)(1). Overseas proceeds so expended or allocated shall be reduced in the amount of transfers of capital to scheduled areas prescribed by this subparagraph.

(3) The amount of any repayment by the direct investor of overseas borrowing or proceeds borrowing that exceeds the aggregate amount of reduction of available proceeds pursuant to subparagraph (1) of this paragraph and the aggregate amount of transfers of capital pursuant to subparagraph (2) of this paragraph shall constitute a transfer of capital under § 1000.312(a) to each scheduled area in proportion to and to the extent that the overseas finance subsidiary has, as of the time of repayment, transferred overseas proceeds to other affiliated foreign nationals of the direct investor pursuant to § 1000.1403(a)(2). Overseas proceeds held by such affiliated foreign nationals shall be reduced by an amount equal to the transfers of capital prescribed by this subparagraph.

(4) The amount of any repayment by the direct investor of overseas borrowing or proceeds borrowing that exceeds the aggregate amount of (i) the reduction of available proceeds pursuant to subparagraph (1) of this paragraph and (ii) transfers of capital pursuant to subparagraphs (2) and (3) of this paragraph, shall constitute a transfer of capital under § 1000.312(a) to the scheduled area in which the overseas finance subsidiary is incorporated. Overseas proceeds held by the overseas finance subsidiary at the time of the repayment shall be reduced by an amount equal to the transfer of capital prescribed by this subparagraph.

(5) For purposes of subparagraphs (2), (3), and (4) of this paragraph, transfers of capital resulting from the delivery of equity securities of a direct investor to holders of debt instruments issued by the overseas finance subsidiary in connection with an overseas borrowing, pursuant to the exercise of conversion or similar rights, shall be deemed to have been made in the year immediately following the year in which the conversion or similar rights are exercised.

(6) The aggregate amount of transfers of capital and reduction of available proceeds of long-term foreign borrowing pursuant to paragraphs (a)(1) through (4) of this section and paragraph (b) of this section shall not exceed the amount of overseas proceeds (calculated without regard to the provisions of paragraphs (a)(1) through (4) of this section): *Provided*, That any transfer of funds or other property, in partial or complete repayment by the direct investor of proceeds borrowing, which repayment is made after complete repayment of the overseas borrowing, shall be a transfer of capital to the scheduled area in which such overseas finance subsidiary is incorporated.

(b) For purposes of this subpart, repayment by the overseas finance subsidiary of overseas borrowing shall mean the complete or partial repayment of overseas borrowing other than with funds

V 38 I 185 SEP 25 73 XUM

or other property supplied to the overseas finance subsidiary by the direct investor to enable the overseas finance subsidiary to repay overseas borrowing. A repayment by the overseas finance subsidiary of overseas borrowing shall have the effect prescribed by subparagraphs (1) and (2) of this paragraph:

(1) The complete or partial repayment by an overseas finance subsidiary of overseas borrowing shall reduce available overseas proceeds, but not to an amount less than zero. Overseas proceeds held by the overseas finance subsidiary shall be reduced by an amount equal to the reduction of available overseas proceeds prescribed by this subparagraph.

(2) The amount of any repayment by an overseas finance subsidiary of overseas borrowing that exceeds the reduction of available overseas proceeds pursuant to subparagraph (1) of this paragraph shall be treated as a repayment by the direct investor of overseas borrowing with the effects prescribed by paragraph (a) of this section.

(c) Notwithstanding the provisions of § 1000.505, the complete or partial repayment by an affiliated foreign national (other than an overseas finance subsidiary) of overseas borrowing shall be treated as a repayment by the direct investor of overseas borrowing, with the effects prescribed by paragraph (a) of this section: *Provided*, That such repayment shall also be treated as a transfer from such affiliated foreign national to the direct investor in the amount of such repayment.

**§ 1000.1405 Authorized repayments.**

(a) Overseas borrowing shall be deemed to be a borrowing by an affiliated foreign national within the meaning of § 1000.1001(a). A borrowing by an overseas finance subsidiary other than an overseas borrowing shall not be deemed to be a borrowing by an affiliated foreign national for any purposes of this part.

(b) Subject to the provisions of § 1000.1003, positive direct investment during any year in affiliated foreign nationals in any scheduled area is authorized, notwithstanding the provisions of § 1000.201, to the extent such positive direct investment is attributable to a transfer of capital in repayment of overseas borrowing pursuant to a guarantee: *Provided*, That the direct investor shall have complied with the certification requirements set forth in § 1000.1002(b).

(c) For the purposes of § 1000.1002(b) and (c), the term "transfer of capital" shall include a transfer of capital attributable to a repayment of overseas borrowing pursuant to § 1000.140(a).

(d) All reference to Subpart J in § 1000.1002(d) and all reference to § 1000.1002 in § 1000.1003 shall be deemed to include reference to paragraph (b) of this section.

**§ 1000.1406 Substitution of borrowing.**

(a) To the extent that a foreign borrowing (as defined in § 1000.324(a)(1)) is substituted for a proceeds borrowing, as defined in § 1000.1401(e), or for other borrowing by a direct investor from its overseas finance subsidiary that would qualify as a proceeds borrowing under § 1000.1401(e) if such borrowing and the underlying borrowing by the overseas finance subsidiary were continuously outstanding for at least 12 months, such foreign borrowing shall, for the purposes of this part, be treated as a continuance of such proceeds borrowing or other borrowing by the direct investor from its overseas finance subsidiary: *Provided*, That repayment of such foreign borrowing shall reduce proceeds of long-term foreign borrowing or involve a transfer of capital, or both, as prescribed under §§ 1000.324(c) and 1000.312(a)(7).

(b) To the extent that a proceeds borrowing, as defined in § 1000.1401(e), or other borrowing by a direct investor from its overseas finance subsidiary that would qualify as a proceeds borrowing under § 1000.1401(e) if such borrowing and the underlying borrowing by the overseas finance subsidiary were continuously outstanding for at least 12 months, is substituted for a foreign borrowing (as defined in § 1000.324(a)(1)), such proceeds borrowing or other borrowing by the direct investor from its overseas finance subsidiary shall, for the purposes of this part, be treated as a continuance of such foreign borrowing: *Provided*, That repayment of such borrowing from the overseas finance subsidiary or underlying foreign borrowing shall have the effect prescribed under § 1000.1404.

(c) A substitution under paragraph (a) or (b) of this section shall be made on the books and records maintained by the direct investor under §§ 1000.203(b), 1000.601, and 1000.1402(b).

**§ 1000.1407 Assumption of debt obligation incurred by overseas finance subsidiary.**

(a) To the extent that a direct investor, pursuant to an election under section 4912(c) of the Internal Revenue Code of 1954, as amended, assumes the obligation to repay overseas borrowing incurred by an overseas finance subsidiary, such assumption is foreign borrowing as defined in § 1000.324(a)(1) and also shall have the effect prescribed by subparagraphs (1) through (5) of this paragraph:

(1) To the extent of available overseas proceeds of such overseas borrowing held by the overseas finance subsidiary at the time of assumption, such assumption shall constitute a transfer of capital by the direct investor to the overseas finance subsidiary.

(2) The amount of such assumption that exceeds the amount of the transfer of capital pursuant to subparagraph (1) of this paragraph shall constitute a transfer of capital by the direct investor to and to the extent of the amount of overseas proceeds of such overseas borrowing that have been transferred by the overseas finance subsidiary to other affiliated foreign nationals in such scheduled area pursuant to § 1000.1403(a)(2) and are held by such affiliated foreign nationals at the time of assumption.

(3) The amount of such assumption that exceeds the aggregate amount of transfers of capital pursuant to subparagraphs (1) and (2) of this paragraph shall constitute foreign borrowing substituted for proceeds borrowing pursuant to § 1000.1406(a) to the extent that overseas proceeds of such overseas borrowing have been transferred by the overseas finance subsidiary to the direct investor in a proceeds borrowing, as defined in § 1000.1401(e), that is outstanding at the time of assumption.

(4) The amount of such assumption that exceeds the aggregate amount of transfers of capital pursuant to subparagraphs (1) and (2) and substituted foreign borrowing pursuant to subparagraph (3) of this paragraph shall constitute foreign borrowing made by the direct investor on the date of the assumption.

(5) Overseas proceeds of such overseas borrowing shall be reduced by the amount of such assumption or the amount of such proceeds, whichever is less.

(b) To the extent that a direct investor, pursuant to an election under section 4912(c) of the Internal Revenue Code of 1954, as amended, assumes the obligation to repay borrowing incurred by an overseas finance subsidiary that would qualify as overseas borrowing if it were continuously outstanding for at least 12 months but at the time of such assumption has not so qualified, such assumption is foreign borrowing as defined in § 1000.324(a)(1) and also shall have the effect prescribed by subparagraphs (1) through (4) of this paragraph:

(1) To the extent that proceeds of such borrowing by the overseas finance subsidiary are held by the overseas finance subsidiary at the time of assumption, such assumption shall constitute a transfer of capital by the direct investor to the overseas finance subsidiary.

(2) The amount of such assumption that exceeds the amount of the transfer of capital pursuant to subparagraph (1) of this paragraph shall constitute a transfer of capital by the direct investor to each scheduled area in proportion to and to the extent of the amount of proceeds of such borrowing by the overseas finance subsidiary that have been transferred by the overseas finance subsidiary to other affiliated foreign nationals in such scheduled area pursuant to § 1000.1403(a)(2) and are held by such affiliated foreign nationals at the time of assumption.

(3) The amount of such assumption that exceeds the aggregate amount of transfers of capital pursuant to subparagraphs (1) and (2) of this paragraph shall constitute foreign borrowing substituted for borrowing by a direct investor from its overseas finance subsidiary pursuant to § 1000.1406(a) to the extent that proceeds of such borrowing by the overseas finance subsidiary have been transferred by the overseas finance subsidiary to the direct investor in a borrowing that is outstanding at the time of assumption and would qualify as proceeds borrowing under § 1000.1401(e) if such borrowing and the underlying borrowing by the overseas finance subsidiary were continuously outstanding for at least 12 months.

(4) The amount of such assumption that exceeds the aggregate amount of transfers of capital pursuant to subparagraphs (1) and (2) and substituted foreign borrowing pursuant to subparagraph (3) of this paragraph shall constitute foreign borrowing made by the direct investor on the date of assumption.

(c) An asumption under paragraph (a) or (b) of this section shall be reported on the books and records maintained by the direct investor under §§ 1000.203(b), 1000.601 and 1000.1402(b).

GENERAL AUTHORIZATIONS

1 Transfers of capital. (REVOKED, superseded by Subpart-J, Repayment of Borrowings).
2 Limited authorization to refrain from repatriation. (REVOKED)
3 Authorized transfers of capital. (REVOKED)
4 Canada—Application of foreign direct investment regulations. (Proposed but withdrawn prior to adoption; superseded by Subpart-K, Direct Investment in Canada).

GENERAL INTERPRETATIVE RULES

1 § 1000.312—Transfer of capital. (REVOKED)
2 General Authorization 1(2)(b)—Certificate. (REVOKED)
3 § 1000.312—Transfer of capital. (REVOKED)

IDENTITY OF COUNTRIES IN SCHEDULES A, B, AND C

For the information of the public, there follow the names of the countries allocated to Schedule A, Schedule B, and Schedule C pursuant to § 1000.319 of the Foreign Direct Investment Regulations. Determination of the schedule of any country, territory, department, province or possession under § 1000.319 depends upon its classification as to less developed country status under § 4916(b) of the Internal Revenue Code, and applicable Executive orders thereunder, administered by the Department of the Treasury. Since no official enumeration of less developed countries has been promulgated pursuant to § 4916(b), the lists below cannot be either definitive or exhaustive.

*I. Schedule A Countries*

Afghanistan.
Algeria.
Angola.
Anguilla.
Antigua.
Argentina.
Bangladesh.
Barbados.
Belize.
Bhutan.
Bolivia.
Botswana.
Brazil.
British Indian Ocean Territory.
British Solomon Islands.
British Virgin Islands.
Brunei.
Burma.
Burundi.
Cambodia.
Cameroon.
Canton and Enderbury Islands.
Cape Verde.
Central African Republic.
Chad.
Chile.
China, Republic of.
Christmas Island.
Cocos (Keeling) Islands.
Colombia.
Comoro Islands.
Congo.
Cook Islands.
Costa Rica.
Cyprus.
Dahomey.
Dominica.
Dominican Republic.
Ecuador.
El Salvador.
Egypt.
Equatorial Guinea.
Ethiopia.
Faeroe Islands.
Falkland Islands.
Fiji.
Finland.
French Guiana.
French Polynesia.
French Southern and Antarctic Lands.
French Territory of Afars and Issas.
Gabon.
Gambia.
Ghana.
Gibraltar.
Gilbert and Ellice Islands.
Greece.
Greenland.
Grenada.
Guadeloupe.
Guatemala.
Guinea.
Guyana.
Haiti.
Honduras.
Iceland.
India.
Indonesia.
Israel.
Ivory Coast.
Jamaica.
Jordan.
Kenya.
Korea, Republic of.
Laos.
Lebanon.
Lesotho.
Liberia.
Macao.
Madagascar.
Malawi.
Malaysia.
Maldives.
Mali.
Malta.
Martinique.
Mauritania.
Mauritius.
Mexico.
Montserrat.
Morocco.
Mozambique.
Nauru.
Nepal.
Netherlands Antilles.
New Caledonia.
New Hebrides.
Nicaragua.
Niger.
Nigeria.
Niue.
Norfolk Island.
Oman.
Pakistan.
Panama.
Papua New Guinea.
Paraguay.
Peru.
Philippines.
Pitcairn Island.
Portuguese Guinea.
Portuguese Timor.
Reunion.
Rwanda.
Ryukyu Islands, including Okinawa, (prior to May 15, 1972).
St. Christopher—Nevis—Anguilla.
St. Helena.
St. Lucia.
St. Pierre and Miquelon.
St. Vincent.
Sao Tome and Principe.
Senegal.
Seychelles.
Sierra Leone.
Sikkim.
Singapore.
Somalia.
Southern Rhodesia.
Spanish North Africa.
Spanish Sahara.
Sri Lanka (Ceylon).
Sudan.
Surinam.
Svalbard.
Swaziland.
Syria.
Tanzania.
Thailand.
Togo.
Tonga.
Trinidad and Tobago.
Tunisia.
Turkey.
Turks and Caicos Islands.
Uganda.
United Arab Emirates (excluding Abu Dhabi).
Upper Volta.
Uruguay.
Venezuela.
Vietnam, Republic of
Wallis and Futuna.
Western Samoa.
Yemen (Aden).
Yemen (San'a).
Yugoslavia.
Zaire.
Zambia.

*II. Schedule B Countries*

Abu Dhabi.
Australia.
Bahamas.
Bahrain.
Bermuda.
Canada.
Hong Kong.
Iran.
Iraq.
Iraq-Saudi Arabia Neutral Zone.
Ireland.
Japan (including Ryukyu Islands commencing May 15, 1972).
Kuwait.
Libya.
New Zealand.
Qatar.
Saudi Arabia.
Spain (effective January 1, 1970).
United Kingdom.

*III. Schedule C Countries*

Albania.
Andorra.
Austria.
Belgium.
Bulgaria.
China, Peoples Republic of.
Cuba.
Czechoslovakia.
Denmark.
France.
Germany, East.
Germany, West.
Hungary.
Italy.
Korea, North.
Liechtenstein.
Luxembourg.
Monaco.
Mongolia.
Netherlands.
Norway.
Poland. (*)
Portugal.
Romania.
San Marino.
South Africa.
South-West Africa.
Soviet Union. (**)
Spain (prior to January 1, 1970).
Sweden.
Switzerland.
Vatican City.
Vietnam, North.

*IV. Areas Not Subject to the Regulations*

American Samoa.
Canal Zone.
Guam.
Johnston Atoll.
Midway Islands.
Navassa Island.
Puerto Rico.
Trust Territory of the Pacific Islands (Caroline Islands, Mariana Islands, and Marshall Islands).
Virgin Islands.
Wake Island.

Any country in any Schedule may be subject to additional Treasury Department, Commerce Department, and other governmental controls.

## FOREIGN DIRECT INVESTMENT RULES OF PRACTICE AND GENERAL PROCEDURES

### PART 1020—INVESTIGATIVE PROCEDURES

Sec.
1020.111 Investigations.
1020.112 Investigative policy.
1020.113 By whom conducted.
1020.114 Notification of purpose.
1020.121 Orders to furnish information.
1020.122 Authority to initiate investigations and to issue or modify agency process.
1020.123 Motions relating to agency process.
1020.124 Review; finality.
1020.131 Investigative hearings.
1020.132 Rights of witnesses in investigations.
1020.141 Noncompliance with orders or directions.
1020.151 Termination of investigations.

AUTHORITY: The provisions of this Part 1020 issued pursuant to sec. 5 of the Act of Oct. 6, 1917, 40 Stat. 415, as amended, 12 U.S.C. 95a; E.O. 11387, Jan. 1, 1968, 33 FR 47; Department Organization Order 25-3A (formerly Department Order 184-A), Jan 1, 1968, 33 FR 54.

**§ 1020.111 Investigations.**

The Office [1] may, in its discretion, initiate investigations relating to com-

(*) Includes Danzig and de facto areas of 1937 Germany east of the Oder-Neisse Line.
(**) Includes the de facto areas of Estonia, Latvia, Lithuania, Southern Kuril Islands, Habomai Islands, southern Sakhalin, and northern East Prussia.

[1] As used in Parts 1020–1050 of this chapter, the "Office" means the Office of Foreign Direct Investments, U.S. Department of Commerce.

V 38 N 185
SEP 25 73
XUM

pliance by any person[1] with the Foreign Direct Investments Program (hereinafter referred to as the Program) as embodied in E.O. 11387 and Part 1000 of this chapter, any rule, regulation, or order thereunder, term or condition of any authorization or exemption issued thereunder, any decree of court relating thereto, or any other agency action thereunder.

**§ 1020.112 Investigative policy.**

The Office encourages voluntary cooperation with its investigations. Where the circumstances appear so to require, however, the Office may invoke compulsory process as authorized by law.

**§ 1020.113 By whom conducted.**

Investigations will be conducted by representatives of the Office duly designated and authorized for the purpose. Such representatives are authorized, among other things, to administer oaths and receive affirmations in any matter under investigation by the Office.

**§ 1020.114 Notification of purpose.**

Any person under investigation who is compelled or requested to furnish information or documentary evidence shall be advised with respect to the general purpose for which such information or evidence is sought.

**§ 1020.121 Orders to furnish information.**

(a) The Office may issue orders requiring any person or persons named therein:

(1) To appear before a designated representative at a designated time and place to testify, produce documentary evidence, and/or produce other information relating to any transaction involving foreign direct investment; and/or

(2) To file (whether on a continuing basis, at stated intervals, upon the occurrence of specified acts or omissions, or otherwise) reports or answers in writing to specified questions, relating to any matter that is or has been under investigation or inquiry, or is likely to lead to the production of information relating to any such matter.

(b) Any person required to submit any report, whether under this section or under § 1000.602(b) of this chapter, shall preserve, or cause to be preserved, for at least 3 years after the date of filing of such report all working papers, irrespective of by whom prepared, used in the preparation of such report; all exhibits, all schedules, and all attachments to such papers; and all books and all records related to such report or to such other papers, that were prepared in the ordinary course of business.

**§ 1020.122 Authority to initiate investigations and to issue or modify agency process.**

The Director of the Compliance Division is hereby delegated, without power of redelegation, the authority to initiate investigations under § 1020.111 and to issue orders under § 1020.121 and, for good cause shown, to limit, quash, modify, or withdraw such orders or to extend the time prescribed therein for compliance.

**§ 1020.123 Motions relating to agency process.**

Any motion to limit, quash, modify, or withdraw any order issued under § 1020.121 or to extend the time prescribed for compliance must be filed with the Office (to the attention of the person issuing said order) within seven (7) days after service of such order, or, if the return date is less than seven (7) days after service of the order, within such other time prior to the return date as may be designated in such order. Any allegation of undue burden must be accompanied by an affidavit setting forth with particularity the supporting facts.

**§ 1020.124 Review; finality.**

(a) Upon denial of a motion made under § 1020.123, the moving party may appeal to the decision officer pursuant to the procedure set out in § 1030.514 of this chapter. The determination of the decision officer shall constitute final agency action.

(b) The Director of the Compliance Division may extend the return date specified in an order issued pursuant to § 1020.121 by up to twenty (20) days later than the date of denial of relief under paragraph (a) of this section where:

(1) Such relief is requested by motion under § 1020.123 for the purpose of seeking judicial review of the order without first committing a willful violation thereof, and

(2) The public interest in effective enforcement and administration of the Program will not be compromised thereby.

**§ 1020.131 Investigative hearings.**

(a) The Office may conduct investigative hearings in the course of any investigation or inquiry relating to the administration or enforcement of the Program, as described in § 1020.111, including inquiries initiated for the purpose of determining whether to institute a proceeding under Part 1030 of this chapter.

(b) Investigative hearings shall be nonadjudicative proceedings, presided over by a representative of the Office (hereinafter referred to as the "presiding official") designated in the order issued pursuant to § 1020.121.

(c) Investigative hearings shall be stenographically recorded unless the presiding official, in his discretion upon the request of a witness, otherwise orders.

(d) Unless otherwise ordered by the Director of the Office, investigative hearings shall not be public.

**§ 1020.132 Rights of witnesses in investigations.**

Any person compelled or requested to submit information to the Office, or to testify in an investigative hearing, shall be entitled to be accompanied, represented, and advised by counsel or another person who has entered an appearance under § 1050.101 of this chapter (referred to hereafter in this section as "counsel") as follows:

(a) Counsel for a witness may advise his client, in confidence, and upon the initiative of either himself or the witness, with respect to any question asked of his client. If it appears that counsel is prompting the witness under color of this paragraph, the presiding official will so note and take appropriate action in respect thereto under paragraph (f) of this section. If, upon advice of counsel, the witness refuses to answer a question, counsel may briefly state that he has advised his client not to answer the question and the legal grounds for such refusal.

(b) Where it is claimed that the testimony or other evidence sought is outside the scope of the investigation, or that the witness is privileged to refuse to answer a question or to produce other evidence, counsel for the witness may object and briefly and precisely state the grounds therefor.

(c) Cumulative objections are unnecessary. Repetition of the grounds for any objection will not be allowed. At the request of counsel and/or when directed by the presiding official, any objections will be treated as continuing objections and preserved throughout the further course of the hearings as to any related line of inquiry.

(d) Any motion challenging the Office's authority to conduct the investigation or the sufficiency or legality of the order to testify or produce documents or other information must have been addressed to the Office prior to the hearing (see § 1020.123). Additional copies of such motions may be filed with the presiding official as part of the record of the investigation and may be incorporated by reference into counsel's statements or objections, but no arguments in support thereof will be allowed at the hearing.

(e) After the presiding official and/or counsel for the Compliance Division have completed the examination of a witness, counsel for the witness may request the presiding official to permit the witness to clarify any of his answers in order that they may not remain equivocal or incomplete. The granting or denial of such request shall be within the sole discretion of the presiding official, and any grant may be withdrawn if counsel attempts to lead the witness or suggest answers.

(f) The presiding official shall take all necessary and appropriate actions to avoid delay, to prevent or restrain disorderly, dilatory, obstructive, or contumacious conduct and/or otherwise to regulate the course of the hearing.

**§ 1020.141 Noncompliance with orders or directions.**

(a) In cases of failure to comply fully with any compulsory process, including an order issued under § 1020.121, or refusal to obey a direction by a presiding official to answer a specific question, the Office may initiate or recommend appropriate action. The fact that an order is partially defective, or that a person may so believe, will not excuse compliance with the remainder of the order.

(b) Honest mistakes or isolated oversights, made in a good faith attempt to comply with an order of the Office or the direction of a presiding official, will normally not lead to an enforcement action.

**§ 1020.151 Termination of investigations.**

When the facts disclosed by an investigation indicate that further action is not necessary or warranted in the public interest, the investigative file will be closed, without prejudice to further investigation by the Office at any time if circumstances so warrant.

[1] As used in Parts 1020–1050 of the chapter, "person" means any individual, corporation, partnership, business venture, trust, or estate.

## PART 1025—SETTLEMENT PROCEDURES

Sec.
1025.111 General policy.
1025.211 Informal, voluntary settlement.
1025.311 Consent agreement policy and procedures.

AUTHORITY: The provisions of this Part 1025 issued pursuant to Sec. 5 of the Act of Oct. 6, 1917, 40 Stat. 415, as amended (12 U.S.C. 95a); E.O. 11387, Jan. 1, 1968, 33 FR 47; Department Organization Order 25–3A (formerly Department Order 184–A), Jan. 1, 1968, 33 FR 54.

**§ 1025.111 General policy.**

When the Office has reason to believe that any person subject to the jurisdiction of the Office (referred to hereinafter in this part as a "party") has violated any requirement of the Program, the Office may initiate enforcement action. Sections 5(b)(3) and 17 (as amended) of the Act of October 6, 1917 (50 U.S.C. App. 5(b)(3) 17), permit either criminal or civil sanctions, and Part 1030 of this chapter provides for formal administrative proceedings. Ordinarily, in the absence of willful violation or flagrant disregard of Program requirements, the Office will utilize one of the settlement procedures described in this part when such resolution is deemed to be in the public interest.

**§ 1025.211 Informal, voluntary settlement.**

(a) *Policy.* In determining whether to afford a party the opportunity for informal, voluntary settlement, the Office will consider the following:

(1) Whether the party acted in good faith;

(2) Whether the alleged noncompliance was unintentional or unforeseeable and whether the party took steps to avoid the alleged noncompliance;

(3) Whether the party cooperated with the office in ascertaining the facts and did not attempt to conceal or falsify information;

(4) The nature of the alleged noncompliance;

(5) The prior conduct of the party with respect to Program requirements; and

(6) Other relevant factors, including whether the Office believes that the party's assurances of future compliance with the Program will be adequate to ensure such compliance.

(b) *Investigation.* In addition to any investigation the Office may conduct into the substantive nature of the noncompliance, the Office may conduct an independent inquiry regarding any or all of the items enumerated in paragraph (a) of this section.

(c) *Conference policy.* It is the policy of the Office to give any party the opportunity to discuss with the staff, on an informal basis, the possible settlement of any compliance investigation involving such party. Ordinarily, any request for such discussion should be directed, in the first instance, to the staff member responsible for conducting the investigation.

(d) *Form.* (1) Disposition of a matter by an informal settlement will be in the form of an exchange of agreed-upon letters passing between the party and the Office. The letter from the Office will be signed by the Director of the Office.

(2) The letter from the party to the Office will set forth the pertinent circumstances relating to and constituting the alleged noncompliance, the steps taken to undo, correct, and prevent its recurrence, and other matters agreed upon by the party and the Office. The letter from the Office to the party will state the intention of the Office, based on the representations in the party's letter, to close the matter; however, the Office will expressly reserve the power to reopen the matter should the public interest so require.

**§ 1025.311 Consent agreement policy and procedures.**

(a) *Preliminary Notice.* If the Office, in its discretion, determines that informal, voluntary settlement is inappropriate, it will, where time, the nature of the matter involved, and the public interest permit, notify the party (i) of its intention to institute a formal proceeding against the party and (ii) that the party will be afforded an opportunity to confer with the Office staff and to submit an appropriate consent agreement proposal for consideration by the Office. Such notice may be in the form specified in § 1030.211 of this chapter or, in the discretion of the Office, in such other form sufficient to apprise the party of the nature of the alleged noncompliance. The party may appear personally or he may be represented by a person who has entered an appearance under § 1050.101 of this chapter.

(b) *Conditions.* The Office will consider each such case individually, on the basis of all relevant facts and circumstances, including any mitigating or extenuating factors. Depending upon the circumstances of the case, administrative settlement of compliance matters by a consent agreement may entail one or more of the remedies set forth in § 1030.472 of this chapter.

(c) *Form of agreement.* (1) Every consent agreement tendered by a party shall contain an appropriate form of order or judgment to be entered, an admission of all jurisdictional facts, and express waivers of further procedural steps, of any requirement of findings, and of rights to seek any form of judicial or appellate review or otherwise to challenge or contest the content, validity, or finality of the order. In addition, such proposed agreement may contain a statement that the signing thereof is for settlement purposes only and does not constitute an admission by the party that the law has been violated.

(2) The Office will determine whether the public interest would be better served by an agreement providing for an administrative consent order or a judicial consent judgment. Among the factors that the Office will ordinarily consider in making such determination are: (i) The nature and gravity of the alleged noncompliance, (ii) the prior conduct of the party with respect to Program requirements and (iii) the likelihood that subsequent enforcement proceedings against the party will be necessary.

## PART 1030—PROCEDURES AND RULES OF PRACTICE FOR FORMAL ADMINISTRATIVE PROCEEDINGS

**Subpart A—General Policies and Procedures; Scope of Rules**

Sec.
1030.111 Formal administrative proceedings.
1030.112 Scope of the rules in this part.

**Subpart B—Notice; Answer; Other Pleadings**

1030.211 Commencement of proceedings.
1030.212 Answer.
1030.213 Default.
1030.221 Amendments, by leave.
1030.222 Amendments conforming pleadings to evidence.
1030.223 Supplemental pleadings.

**Subpart C—Prehearing Procedures; Motions; Discovery**

1030.311 Prehearing conferences.
1030.321 Motions.
1030.326 Interlocutory appeals.
1030.331 Discovery.

**Subpart D—Hearings**

1030.411 Public hearings.
1030.412 Expedition of hearings.
1030.413 Rights of parties.
1030.414 Examination of witnesses.
1030.415 Admissibility of evidence.
1030.416 Objections.
1030.417 Burden of proof.
1030.418 Use of information obtained in investigations.
1030.421 Transcript.
1030.422 Record.
1030.423 Excluded evidence.
1030.431 Hearing examiners.
1030.433 Powers and duties.
1030.434 Suspension of attorneys.
1030.451 In camera policy.
1030.461 Submission by the parties of proposed findings, conclusions, and order.
1030.471 Hearing examiner's findings, conclusions, recommended decision and proposed order.
1030.472 Form of proposed order.

Subpart E—Decision and Review

Sec.
1030.510 Decision officer: designation and disqualification.
1030.511 Objections.
1030.513 Decision.
1030.514 Appeals from orders under Part 1020 of this chapter.
1030.515 Petition for reconsideration.

AUTHORITY: The provisions of this Part 1030 issued pursuant to sec. 5 of the Act of Oct. 6, 1917, 40 Stat. 415, as amended, 12 U.S.C. 95a; E.O. 11387, Jan. 1, 1968, 33 FR 47; Department Organization Order 25-3A (formerly Department Order 184-A), Jan. 1, 1968, 33 FR 54.

## Subpart A—General Policies and Procedures; Scope of Rules

### § 1030.111 Formal administrative proceedings.

The Office may institute a formal administrative proceeding when, on the basis of facts known to the Office, there is reason to believe that any person (hereinafter referred to as "respondent") has violated any requirement of the Program. Such proceedings may include, but are not limited to, allegations that the respondent has failed to comply with or is in violation, willfully or otherwise, of any such agency action; or that the respondent has made a transaction with intent to evade any requirement of the Program. Such proceedings shall be conducted in accordance with procedures that will assure due process of law to any party who may be adversely affected because of the determination therein.

### § 1030.112 Scope of the rules in this part.

(a) The rules in this part govern procedure in formal administrative proceedings described in § 1030.111.

(b) Except as specifically provided, the rules in this part do not govern any other proceedings, such as negotiations for the entry of consent orders, investigative hearings pursuant to § 1020.131 of this chapter, applications for specific authorizations or exemptions, or promulgation of substantive rules and regulations, general bulletins, interpretative opinions, or other rule making procedures.

## Subpart B—Notice; Answer; Other Pleadings

### § 1030.211 Commencement of proceedings.

A formal administrative proceeding is commenced by the issuance and service of a notice, signed by the Director of the Office, containing the following:

(a) A clear and concise statement of facts sufficient to inform the respondent with reasonable definiteness of the type of acts or practices alleged to constitute a violation;

(b) Designation of specific requirements of the Program actions alleged to have been violated;

(c) A statement that the notice has been issued upon representations of the Director of the Compliance Division as summarized in the notice, and that respondent will have the opportunity to controvert the same;

(d) The substance of §§ 1030.212 and 1030.213;

(e) Specification of the time and place for hearing, such time to be at least twenty (20) days after service of the notice unless it is found and so stated in the notice that the public interest requires a shorter period;

(f) Identification of the person who will preside over the hearing and/or prehearing matters (hereinafter referred to as the "hearing examiner") and of the representative or representatives of the Compliance Division designated to prosecute the matter;

(g) A form of order which the Office has reason to believe should issue if the facts are found to be as alleged in the notice; and

(h) Recital of the legal authority and jurisdiction for institution of the proceeding.

### § 1030.212 Answer.

(a) A respondent shall, except as provided otherwise pursuant to § 1030.211 (e), have twenty (20) days after service of such notice within which to file an answer.

(b) Each answer shall contain a specific admission, denial, or explanation of each fact alleged in the notice or, if the respondent is without knowledge thereof, a statement to that effect. Allegations of a notice not specifically answered pursuant to this paragraph shall be deemed to have been admitted.

(c) Each answer shall contain a concise statement of each defense or affirmative matter that respondent will present, including a concise statement of the facts upon which it is founded. No defense or affirmative matter of which the respondent was aware at the time of filing his answer but did not include therein may be added by way of amendment or supplemental pleading under §§ 1030.221–1030.223, unless the hearing examiner, in his discretion, is convinced that respondent's failure was justifiable and that the interests of justice require its later admission.

### § 1030.213 Default.

Failure of the respondent to file an answer within the time provided or to appear as ordered shall constitute a waiver of his right to appear and contest the allegations of the notice and shall authorize the Office, without further notice, to find the facts to be as alleged in the notice and to enter findings and an order thereon.

### § 1030.221 Amendments, by leave.

The hearing examiner may, in his discretion, in the interests of justice, to facilitate the determination of a controversy, and upon such terms as are just, allow amendments to the notice or answer at any time prior to the filing of his decision.

### § 1030.222 Amendments conforming pleadings to evidence.

When issues not raised by the notice or answer but reasonably within the scope thereof are tried by express or implied consent of the parties, they shall be treated in all respects as though they had been timely raised. Amendments necessary to make the notice or answer conform to the evidence and the raising of such issues shall be allowed at any time.

### § 1030.223 Supplemental pleadings.

The hearing examiner may, in his discretion, in the interests of justice, to facilitate the determination of a controversy, and upon such terms as are just, allow service of a supplemental notice or answers setting forth transactions, occurrences, or events which occurred or were discovered since the date of the notice or answer sought to be supplemented and which are relevant to any of the issues involved in the proceeding.

## Subpart C—Prehearing Procedures; Motions; Discovery

### § 1030.311 Prehearing conferences.

(a) The hearing examiner may direct any or all parties to meet with him for a conference to consider any or all of the following:

(1) Simplication and clarification of the issues;

(2) Necessity or desirability of amendments to pleadings;

(3) Stipulations or admissions of fact and of the contents, authenticity, and admissibility of documents; and

(4) Such other matters as may aid in the orderly and expeditious disposition of the proceeding, including disclosure of documents or other physical exhibits which will be offered in evidence in the course of the proceeding and of the names of witnesses.

(b) Prehearing conferences shall not be public unless all parties so agree.

(c) The hearing examiner, at his discretion, may direct that the prehearing conference be stenographically reported.

(d) When, as a result of a prehearing conference, it appears to the hearing examiner that the orderly, fair, and expeditious disposition of the proceeding will be aided thereby, he shall enter upon the record an order reciting any and all actions taken as a result of the conference. Insofar as such order states the issues to be resolved in the proceeding or the facts or documents which have been admitted to or stipulated by the parties, such order shall take precedence over any prior pleading or portion of the proceeding.

### § 1030.321 Motions.

(a) While a proceeding is before a hearing examiner all motions must be addressed to him. Copies of all written motions must be served upon each party.

(b) Motions should, if practicable, be in writing and shall state the particular order, ruling, or action desired and the grounds therefor. However, the hearing examiner may allow oral motions to be made before him, in appropriate cases, when each party affected or to be affected by such motion is present. Oral motions must be made upon the record.

(c) Within ten (10) days after service of any written motion, or within such longer or shorter time as may be fixed by the hearing examiner, the opposing party shall answer. Failure to answer shall constitute consent to the granting of the relief or sanction requested in the motion. The moving party will ordinarily have no right to reply.

(d) As a matter of discretion, the hearing examiner may waive the requirements of paragraphs (a) through (c) of this section as to motions for extensions of time and he may rule upon such motions ex parte.

(e) The hearing examiner shall rule, either in writing or upon the record, upon all motions presented to him. No formal opinion or findings are required on any motion.

### § 1030.326 Interlocutory appeals.

No interlocutory appeal to the decision officer (see § 1030.510) will be allowed from any decision of the hearing examiner unless the hearing examiner certifies that the ruling involves an important question of law that should be resolved at that time.

### § 1030.331 Discovery.

(a) The Federal Rules of Civil Procedure shall apply to discovery proceedings. There will be no fixed rule on priority of discovery.

(b) Discovery (including requests for admission) and compulsory process for discovery shall be available to the parties to a formal administrative proceeding under this part. Upon written motion pursuant to § 1030.321, the hearing examiner shall promptly rule upon any objection to discovery action initiated pursuant to this section. The hearing examiner shall also have the power to grant a protective order or relief to any party or third party subjected to discovery or compulsory process for discovery.

## Subpart D—Hearings

### § 1030.411 Public hearings.

All hearings in formal administrative proceedings shall be public unless otherwise ordered by the hearing examiner.

### § 1030.412 Expedition of hearings.

Hearings shall proceed with all reasonable expedition, be held at one place, and continue without suspension until concluded, unless the hearing examiner specifically provides otherwise. The hearing examiner may, in the interests of justice, in order to assure full and fair presentation of the issues, and consistent with the public interest in the expeditious administration and enforcement of the Program, order brief intervals in any proceeding. In unusual and exceptional circumstances, for good cause stated on the record, he shall have the authority to order hearings at more than one place and to order brief intervals to permit discovery necessarily deferred during the prehearing procedures.

### § 1030.413 Rights of parties.

Every party shall have the right of representation by counsel, due notice, presentation of evidence, objection, cross-examination, motion argument, determination upon a record, and all other rights essential to a fair hearing.

### § 1030.414 Examination of witnesses.

An adverse party, or an officer, agent, or employee thereof, and any witness determined by the hearing examiner to be hostile, unwilling, or evasive, may be interrogated by leading questions. Any witness may be contradicted and impeached by any party, including the party calling him.

### § 1030.415 Admissibility of evidence.

Technical rules of evidence shall not apply in proceedings under this part. Relevant, material, and reliable evidence shall be admitted. Irrelevant, immaterial, unreliable, and unduly repititious evidence shall be excluded. Immaterial or irrelevant parts of admissible documents shall be segregated and excluded so far as practicable.

### § 1030.416 Objections.

Objections to evidence shall be timely and shall briefly state the grounds relied upon but the transcript shall not include argument or debate thereon except as ordered by the hearing examiner. The hearing examiner shall, when requested by a party, rule upon the record on any properly presented objection, or specifically defer such ruling. Any objection not ruled upon shall be deemed overruled. The substance of any overruled objection shall be deemed preserved without formal exception.

### § 1030.417 Burden of proof.

Counsel representing the Compliance Division shall have the burden of persuasion and the burden of going forward with evidence to show, prima facie, that respondent failed to comply with a requirement of the Program, but the proponent of any proposition shall be required to sustain the burden of persuasion and the burden of going forward with evidence with respect thereto.

### § 1030.418 Use of information obtained in investigations.

Any documents, papers, books, physical exhibits, or other materials or information obtained by the Office under any of its powers may be disclosed by counsel representing the Compliance Division when necessary in connection with formal administrative proceedings and may be offered in evidence by such counsel in any such proceeding.

### § 1030.421 Transcript.

Hearings shall be stenographically recorded and transcribed by a reporter under the supervision of the hearing examiner. The original transcript shall be a part of the record and the sole official transcript.

### § 1030.422 Record.

The record shall include the pleadings, all motions, all orders of the hearing examiner, the original transcript, all exhibits offered in evidence by any party, all proposed findings of fact, conclusions, and orders, and the recommended decision and proposed order of the hearing examiner. Except as provided under § 1030.451, the record shall be open to public inspection during business hours at the Department of Commerce, Office of Foreign Direct Investments, upon application therefor to the Clerk.

### § 1030.423 Excluded evidence.

When an objection to a question propounded to a witness is sustained, the examining attorney may make a specific offer on the record of what he expected to prove by the answer of the witness, or the hearing examiner may, in his discretion, hear and record the evidence in full. Rejected exhibits, adequately marked for identification, and other rejected evidence shall be retained in the record and be available for consideration by any reviewing authority.

### § 1030.431 Hearing examiners.

(a) Hearings and prehearing matters in formal administrative proceedings shall be presided over by a hearing examiner appointed or designated pursuant to section 3105 or section 3344 of title 5, United States Code.

(b) The hearing examiner for prehearing matters may differ from the hearing examiner presiding over the hearing. A hearing examiner who opens the hearings under a particular notice shall, in the ordinary course, be the sole hearing examiner for such hearings, but, in the event of the death, illness, or other unavailability of a hearing examiner, or other extenuating and unusual circumstances, another hearing examiner may be appointed as provided in paragraph (a) of this section.

(c) In the event of the substitution of a new hearing examiner for the one originally designated, any motion predicated upon such substitution shall be made within five (5) days following notice of such substitution.

### § 1030.433 Powers and duties.

Hearing examiners shall conduct fair and impartial hearings, take all necessary action to avoid delay in the disposition of proceedings, and maintain order. They shall have all powers necessary and appropriate to that end, including, but not limited to, the following:

(a) To administer oaths and receive affirmations;

(b) To issue compulsory process;

(c) To take depositions or to order depositions or other discovery procedures as provided in § 1030.331;

(d) To rule upon offers of proof and receive evidence;

(e) To regulate the course of the hearings and the conduct of the parties and their counsel therein;

(f) To hold conferences for stipulations, simplification of issues, settlement, or any other proper purpose;

(g) To consider the rule upon, as justice may require, all procedural and other motions;

V 38 185 SEP 25 73 XUM

(h) To make findings of fact and conclusions of law and to issue recommended decisions and proposed orders and

(i) To take any action authorized by the rules in this part or in conformance with law.

**§ 1030.434 Suspension of attorneys.**

(a) The hearing examiner shall have the authority, for good cause stated on the record, to suspend or bar from participation in a particular proceeding any attorney who shall refuse to comply with his direction, or who shall be guilty of disorderly, dilatory, obstructive, or contumacious conduct in the course of such proceeding.

(b) Any attorney so suspended or barred may appeal to the decision officer. Appeals shall be in the form of a brief, not to exceed ten (10) pages in length and shall be filed within five (5) days after notice of the hearing examiner's action. Answer thereto may be filed within five (5) days after service of the appeal brief and may not exceed ten (10) pages. The decision of the decision officer shall constitute final agency action. The appeal shall not operate to suspend the hearing unless otherwise ordered by the decision officer. In the event the hearing is not suspended, the attorney may continue to participate therein pending disposition of the appeal.

**§ 1030.451 In camera policy.**

(a) Hearing examiners shall have the authority, for good cause stated on the record, to order any documents, or oral testimony, or other matter offered in evidence, whether admitted or rejected, to be placed in camera.

(b) Except as provided in paragraph (c) of this section, matter placed in camera is kept confidential and is not part of the public record. Only the respondent, his counsel, authorized personnel of the Office and court personnel concerned with judicial review shall have access to such matter. Where it is appropriate, in order to protect a trade secret or other confidential business information, the hearing examiner may enter other orders necessary and appropriate to protect such information from misuse.

(c) The power of the hearing examiner, the Office and reviewing courts to disclose in camera matter to the extent necessary for the proper disposition of a proceeding is specifically reserved.

**§ 1030.461 Submission by the parties of proposed findings, conclusions, and order.**

(a) Within such time after the close of the reception of the evidence as the hearing examiner may fix, each party to a proceeding under this part shall file with the hearing examiner for his consideration all proposed findings of fact, conclusions of law, and forms of order, together with briefs in support thereof. Answering briefs may be filed within a reasonable time thereafter, as fixed by the hearing examiner. The hearing examiner, in his discretion, may vary the sequence of filing documents following the close of reception of evidence.

(b) Such proposed findings, conclusions, and orders and any briefs or other papers shall be in writing, shall be served upon all parties, and shall contain adequate references to the record and authorities relied on. "Passim" references to the record may not be used.

(c) If a party fails to file a proposed finding as to any fact involved in the proceeding, or a proposed conclusion of law as to any legal question raised by the proceeding, he shall be deemed to have waived any objections or contentions with regard to that fact or that question of law.

**§ 1030.471 Hearing examiner's findings, conclusions, recommended decision and proposed order.**

(a) Within a reasonable time after receipt of all briefs and/or other papers pursuant to § 1030.461, the hearing examiner who presided, unless he shall become unavailable to the Office, shall make findings of fact and conclusions of law and issue a recommended decision and proposed order. The findings, conclusions, recommended decision and proposed order shall be served upon the parties and shall be included in the record.

(b) The findings of fact and conclusions of law shall be numbered and shall contain appropriate references to the record.

**§ 1030.472 Form of proposed order.**

(a) If the hearing examiner determines that the respondent has not violated any requirement of the Program, he shall in his proposed order dismiss the notice.

(b) If the hearing examiner determines that the respondent has violated any requirement of the Program, he shall issue a proposed order taking into account, in fashioning said proposed order, the nature and circumstances of the violation as well as the importance of encouraging future good faith efforts to comply with the Program. Where appropriate (including, but not limited to, cases where the respondent's violation involves positive direct investment or the holding of liquid foreign balances under circumstances where such is prohibited or in excess of the amount generally and/or specifically authorized or failure to comply with conditions of specific authorizations, and/or willful failure to or delay in filing required reports) the proposed order may include in addition to any other appropriate remedies:

(1) Reduction during any year or years in the amount of positive direct investment and/or liquid foreign balances that would have been authorized to the respondent under Part 1000 of this chapter;

(2) A requirement that the respondent repatriate all or part of its share in the earnings of incorporated affiliated foreign nationals, which repatriation shall be disregarded for the purpose of measuring compliance with the provisions of Part 1000 of this chapter;

(3) A requirement that the respondent cause its affiliated foreign nationals to make transfers of capital to the respondent, which transfers shall be disregarded for the purpose of measuring compliance with the provisions of Part 1000 of this chapter;

(4) A requirement that the respondent repatriate available proceeds of long-term foreign borrowing, which proceeds may not be held thereafter in the form of foreign balances or other foreign property;

(5) A requirement that quarterly or other special reports be filed with the Office containing such information as may be appropriate.

## Subpart E—Decision and Review

**§ 1030.510 Decision officer; designation and disqualification.**

(a) The Director of the Office shall be the decision officer unless he is unavailable by reason of disqualification or otherwise, in which case the Deputy Director of the Office shall be the decision officer.

(b) The decision officer shall withdraw from any case when he is disqualified by reason of personal relationship or interest or other just cause. If the decision officer has not withdrawn from the case and respondent believes that grounds for disqualification exist, respondent shall submit, with its first brief submitted pursuant to § 1030.511, a motion supported by an affidavit or affidavits specifying such grounds with particularity. In such case, the decision officer shall himself rule upon the motion in writing and his decision shall become part of the record of the case.

(c) If both the Director and the Deputy Director of the Office are disqualified or otherwise unavailable, the Appeals Board for the Department of Commerce shall perform the functions of the decision officer under the rules contained in this subpart, and the decision and order of the Appeals Board shall constitute the final agency action.

**§ 1030.511 Objections.**

(a) Any party in a proceeding under this part may file specific objections to the hearing examiner's findings of fact, conclusions of law, recomemnded decision and/or proposed order, provided that notice of intent to file such ojections is filed with the Office within ten (10) days after service upon the parties of the hearing examiner's recommended decision and proposed order.

(b) Objections shall be in the form of a brief, not to exceed thirty (30) pages, filed no later than thirty (30) days after service of the hearing examiner's recommended decision and proposed order. Answering briefs, not to exceed thirty (30) pages, shall be filed not later than thirty (30) days after the closing date for submission of each objection. Reply briefs, not to exceed fifteen (15) pages, shall be filed not later than seven (7) days after the closing date for submission of answering briefs. Briefs, if typewritten, shall be double spaced.

(c) The briefs shall be made a part of the record and the entire record shall then be certified promptly to the decision officer.

(d) If no notice of intent to file objections to the hearing examiner's findings of fact, conclusions of law, recommended decision or proposed order are filed within the time provided in paragraph (a) of this section, the record shall be certified at the conclusion of such time to the decision officer who shall decide the case in the manner provided in § 1030.513(b). The decision officer may, at his discretion, request the parties to submit briefs on any or all of the issues raised by the record.

**§ 1030.513 Decision.**

(a) If objections are filed pursuant to § 1030.511, unless all parties have stipulated otherwise in writing, there shall be oral argument before the decision officer at a date and time set by him in writing and served on all parties, which argument shall be reported stenographically. The original transcript shall be made a part of the record. Each party shall be limited to thirty (30) minutes for presentation of oral argument, unless the decision officer shall determine that the circumstances of the case require more lengthy presentation.

(b) The decision officer, in deciding a matter, shall not be limited to consideration of the issues raised by the parties, but may consider all issues raised by the record.

(c) Within a reasonable time after receipt and consideration of the record and oral argument, if any, the decision officer shall do one of the following:

(1) Remand the case to the hearing examiner for the reception of additional evidence;

(2) Issue an interlocutory decision, either orally or in writing, with respect to the issues of fact and questions of law involved in the proceeding. Thereafter, in his discretion, he may direct the hearing examiner to conduct a separate hearing on relief and form of order. The decision officer may permit the filing of additional briefs and may request that the prevailing party or parties propose a form of order and the other party or parties comment thereon, or that all parties present their views concurrently. Any failure to object to any part of a form of order proposed by a prevailing party will constitute a waiver of objection to it. The decision officer shall then render a decision as specified in subparagraph (3) of this paragraph;

(3) Issue findings of fact and conclusions of law and render a decision that adopts, modifies or sets aside the hearing examiner's findings, conclusions and recommended decision and states the reasons for his action, and enter an order which shall be served on each party to the proceeding.

(d) The order entered by the decision officer shall become effective ten (10) days after service thereof, unless the respondent appeals to the Appeals Board for the Department of Commerce, pursuant to the procedure set out in Part 1035 of this chapter or files a petition for reconsideration under § 1030.515.

**§ 1030.514 Appeals from orders under Part 1020 of this chapter.**

Any party appealing from the denial of a motion under § 1020.123 of this chapter, shall file an appeal brief, not to exceed thirty (30) pages, within seven (7) days after service of the order denying said motion. The answering brief, not to exceed thirty (30) pages, shall be filed within seven (7) days thereafter. Oral argument will not be allowed. Within a reasonable time after receipt of the briefs, the decision officer shall render an appropriate decision.

**§ 1030.515 Petition for reconsideration.**

Any party may petition for reconsideration of a final decision or order of the decision officer by filing a written brief with the Office stating succinctly and with particularity the grounds upon which reconsideration is being sought within five (5) days after the date of service of the decision officer's order. The decision officer shall thereafter enter as promptly as possible an order either granting or denying the petition.

---

## PART 1035—RULES OF PRACTICE FOR APPEALS IN PROCEEDINGS ORIGINATING UNDER PART 1030

Sec.

1035.101 Scope of rules.
1035.102 Board.
1035.103 Appeals.
1035.104 Certification of the record.
1035.105 Briefs.
1035.107 Oral Argument.
1035.108 Disposition of appeals by Board.
1035.109 Content of orders.

AUTHORITY: The provisions of this Part 1035 issued pursuant to sec. 5 of the Act of Oct. 6, 1917, 40 Stat. 415, as amended, (12 U.S.C. 95a); E.O. 11387, Jan. 1, 1968, 33 FR 47; Department Organization Order 25-3A (formerly Department Order 184-A), Jan. 1, 1968, 33 FR 54.

**§ 1035.101 Scope of rules.**

The rules of practice in this part shall govern appeals from final decisions of the decision officer in proceedings originating under Part 1030 of this chapter. Appeals in proceedings originating under Part 1000 of this chapter shall be governed by § 1000.802 of this chapter.

**§ 1035.102 Board.**

(a) The Appeals Board for the Department of Commerce (referred to in this part as the "Board") shall have sole and exclusive jurisdiction to hear administrative appeals from final decisions of decision officers in proceedings under Part 1030 of this chapter. The decision of the Board shall constitute final agency action.

(b) The Chairman of the Board shall designate a panel of three Board members, from time to time, to pass upon such appeals.

(c) All communications to the Board shall be addressed to: Chairman, Department of Commerce Appeals Board, Department of Commerce, Washington, D.C. 20230, and shall be in writing.

**§ 1035.103 Appeals.**

(a) The respondent in a proceeding under Part 1030 of this chapter may appeal to the Board from the decision and order of the decision officer, provided that notice of intent to appeal is filed with the Board within ten (10) days after service of the decision officer's decision and order or, if the respondent files a petition for reconsideration of the decision officer's order (pursuant to § 1030.515 of this chapter), notice of intent to appeal shall be filed with the Board within ten (10) days after the date of service of the decision officer's order either denying the petition for reconsideration or disposing of a petition that had been granted.

(b) The respondent, in a proceeding under Part 1030 of this chapter, may appeal on the following grounds: that prejudicial error of law was committed; that the findings were clearly erroneous or were not supported by substantial evidence; or that the provisions of the order are arbitrary, capricious or an abuse of discretion.

**§ 1035.104 Certification of the record.**

Promptly after the filing of notice of intent to appeal, the record including the decision and order of the decision officer, and any petition for reconsideration and order relating thereto, shall be certified to the Board.

**§ 1035.105 Briefs.**

(a) The appeal brief shall be served and filed no later than thirty (30) days after service of the appropirate order of the decision officer (determined pursuant to § 1035.103(a)); the answering brief shall be served and filed no later than thirty (30) days after service of the appeal brief; and the reply brief shall be served and filed no later than seven (7) days after service of the answering brief. The appeal and answering briefs shall not exceed thirty (30) pages (if typewritten, double spaced) exclusive of appendices, and the reply brief shall not exceed fifteen (15) pages.

(b) An original and five (5) copies of each brief shall be filed with the Board and three (3) copies shall be served upon each party to the proceeding, including the Office.

(c) The appeal and answering briefs shall contain in the following order:

(1) Index, table of cases, statutes, and other authorities—and page references thereto;

(2) Concise, nonargumentative statement of facts, with specific page references to the record to support each assertion;

(3) Argument, with specific page references to the record to support each assertion;

(4) Conclusion;

V 38 185 SEP 25 73 XUM

(5) Appendix (optional), any record material or exhibits on which the party places particular reliance.

(d) The appeal brief shall, in addition, include in the argument section a specific explanation of how the grounds for appeal fall within the standards of § 1035.103(b), and, following the conclusion, any form of order that the respondent proposes be issued in lieu of the order issued by the decision officer.

**§ 1035.107 Oral argument.**

The Board will ordinarily determine an appeal on the basis of the briefs. The Board will allow oral argument only in exceptional cases when it deems it necessary, upon its own motion.

**§ 1035.108 Disposition of appeals by Board.**

(a) The appeal shall be determined upon the basis of the record and the briefs and argument ,and shall not constitute a hearing de novo. The Board shall not substitute its discretion for that of the decision officer in any matter involving expertise in interpreting, defining, administering, or effectuating the policies and purposes of the regulations or other agency actions under the Program. The Board shall not consider facts or arguments affecting the merits of the policies embodied in the regulations or other agency actions alleged to have been violated.

(b) Unless two members of the Board are of the opinion, and so advise the Chairman of the Board in writing within 20 days after the date of the filing of the appeal brief, that they desire to grant the appeal or consider further briefs or arguments, the Chairman of the Board shall, on the 20th day after the date of the filing of the appeal brief, enter an order pursuant to § 1035.109(b).

**§ 1035.109 Content of orders.**

(a) The grant of an appeal may be by an order remanding the matter to the decision officer, accompanied with a brief statement of reasons therefor.

(b) The denial of an appeal ordinarily will be in the form of an order signed by the Chairman of the Board, stating that the appeal was denied by the Board on a particular date, and ordinarily will not be accompanied by an explanatory statement. Such denial without an explanatory statement shall be deemed equivalent to adoption by the Board of the decision officer's decision.

(c) Where the Board grants an appeal in part and denies it in part, it ordinarily will remand the matter to the decision officer, as specified in paragraph (a) of this section. Where the Board can appropriately dispose of such a matter by entering its own order, rather than by remanding the matter, it may do so.

(d) Entry of an order by the Board shall be effective ten (10) days after service thereof.

## PART 1040—COMPLIANCE PROCEDURES; REPORTS, ADVISORY OPINIONS, AND ENFORCEMENT

### Subpart A—Compliance Reports

Sec.
1040.111 Compliance reports following Parts 1030 or 1035 orders.
1040.114 Noncompliance with reporting requirements.
1040.121 Comment on report.

### Subpart B—Advisory Opinions on Compliance

Sec.
1040.211 Request for opinion.
1040.212 Response by Office.
1040.214 Advisory opinion during compliance investigation.
1040.221 Revocation.
1040.222 Reliance.

### Subpart C—Enforcement

1040.311 Enforcement.

AUTHORITY: The provisions of this Part 1040 issued pursuant to sec. 5, of the Act of Oct. 6, 1917, 40 Stat. 415, as amended, (12 U.S.C. 95a); E.O. 11387, Jan. 1, 1968, 33 FR 47; Department Organization Order 25-3A (formerly Department Order 184-A), Jan. 1, 1968, 33 FR 54.

### Subpart A—Compliance Reports

**§ 1040.111 Compliance reports following Parts 1030 or 1035 orders.**

(a) Whenever, in a proceeding under Parts 1030 or 1035, an order is entered requiring the respondent to refrain from or to undertake any future act or practice, the Office will further require the respondent to file a compliance report with the Office. Such requirement will be by action of the Director of the Compliance Division pursuant to § 1020.121(a)(2) of this chapter.

(b) Such report shall be in writing, signed by the respondent or an officer thereof, be made under oath or affirmation, and be filed with the Office, Attention: Director of Compliance Division.

(c) Such report shall set forth in detail the manner and form of the respondent's compliance with each of the provisions of the order.

(d) Such report shall be filed within twenty (20) days after the order becomes effective unless the Director of the Compliance Division, upon timely request, extends such time. Further and subsequent reports may also be required by the Director of the Compliance Division.

**§ 1040.114 Noncompliance with reporting requirements.**

In cases of failure to comply with compliance report requirements, the Office may initiate appropriate action pursuant to § 1020.141 of this chapter.

**§ 1040.121 Comment on report.**

The Office will review compliance reports. The Director of the Compliance Division may comment in wrting to the respondent in respect to whether the actions set forth in such a report evidence compliance with the order.

### Subpart B—Advisory Opinions on Compliance

**§ 1040.211 Request for opinion.**

Any respondent subject to an order issued under Parts 1030 or 1035 of this chapter may request advice from the Office as to whether a proposed course of action, if pursued by it, will constitute compliance with such order. The request for advice should be submitted in writing and should include full information regarding the proposed course of action.

**§ 1040.212 Response by Office.**

On the basis of the facts submitted as well as other information properly available to it, the Office will, where it is practicable and otherwise appropriate, by letter signed by the Director of the Compliance Division, inform the respondent whether the proposed course of action, if pursued, would constitute compliance with the order. The Office expressly reserves the power to take such other and/or additional action as the public interest may require.

**§ 1040.214 Advisory opinion during compliance investigation.**

Once the Office has instituted an investigation to determine whether a respondent is in violation of an outstanding order issued against it, the Office will ordinarily consider it inappropriate to give the respondent an advisory opinion on the subject. No request for an advisory opinion, in such circumstances, will ordinarily cause the Office to discontinue such investigation.

**§ 1040.221 Revocation.**

The Office may, at any time, reconsider any advice or comment made under §§ 1040.121 or 1040.212, and rescind, alter, or revoke the same. If it does so, the Office will, whenever possible, give prompt notice to the respondent.

**§ 1040.222 Reliance.**

(a) When the Office believes that a respondent has violated an order issued against it under Parts 1030 or 1035 of this chapter but the respondent establishes to the Office that it acted in actual, properly warranted, and good faith reliance upon written advice to it under §§ 1040.121 or 1040.212, then the Office will not proceed or recommend any proceeding against such respondent in respect to such possible violation without first giving respondent notice under § 1040.221 and an opportunity to discontinue the questioned practice or transaction and to correct the effects thereof.

(b) If the respondent effects such discontinuance and correction promptly and fully, and satisfies the Office that it is complying with the requirements of the Program is regard to the matter, then the Office will take no further action.

### Subpart C—Enforcement

**§ 1040.311 Enforcement.**

When the Office has information indicating that a respondent has failed or is failing to comply with the provisions of an order entered against the respondent under Part 1030, the Office may institute or recommend a civil or criminal enforcement proceeding (see, e.g., 50 U.S.C. App. 5(b)(3), 17) or a further administrative proceeding under Part 1030 of this chapter.

## PART 1050—MISCELLANEOUS RULES

Sec.
1050.101 Appearances.
1050.102 Standards of conduct.
1050.103 Requirements as to form and filing of documents.
1050.104 Clerk.
1050.105 Time computation.
1050.106 Service.
1050.107 Fees.
1050.108 Ex parte communications.
1050.111 Freedom of information.

AUTHORITY: The provisions of this Part 1050 issued pursuant to sec. 5 of the Act of Oct. 6, 1917, 40 Stat. 415, as amended, (12 U.S.C. 95a); E.O. 11387, Jan. 1, 1968, 33 FR 47; Department Organization Order 25-3A (formerly Department Order 184-A), Jan. 1, 1968, 33 FR 54.

**§ 1050.101 Appearances.**

(a) *Qualifications.* (1) Members of the bar of a Federal Court or of the highest court of any State or territory of the United States are eligible to practice before the Office and the Appeals Board for the Department of Commerce in any proceeding under Parts 1020–1050 of this chapter.

(2) Any individual or member of a partnership involved in any such proceeding may appear on behalf of himself or of such partnership, upon adequate identification. A corporation or association may be represented by an Officer thereof.

(3) Accountants who are authorized to practice in any State or territory of the United States are eligible to appear before the Office on behalf of any person or party in matters arising under Part 1025 or 1040 of this chapter.

(b) *Notice of appearance.* Any person desiring to appear before the Office on behalf of a person or party shall file a written notice of his appearance, stating the basis of his eligibility under this section. No other application shall be required for admission to practice, and no register of attorneys will be maintained.

**§ 1050.102 Standards of conduct.**

(a) All attorneys practicing before the Office shall conform to the standards of ethical conduct required of practitioners in the courts of the United States. Accountants who prepare reports or other documents for submittal to the Office or who appear before the Office shall conform to the standards of ethical conduct prescribed by the State Board of Accountancy or other licensing authority for the State in which such accountant maintains his principal place of business.

(b) If the Office has reason to believe that any person is not conforming to such standards, or that he has been otherwise guilty of conduct warranting disciplinary action, the Office may issue an order requiring such person to show cause why he should not be suspended or disbarred from practice or appearance before, or from the preparation of reports or other documents for submittal to, the Office. The alleged offender shall be granted due opportunity to be heard and may be represented by counsel. Thereafter, if warranted by the facts, the Office may issue against the person an order of reprimand, suspension, disbarment, or other appropriate sanction.

**§ 1050.103 Requirements as to form and filing of documents.**

(a) *Filing.* In formal administrative proceedings under Part 1030 of this chapter, except as otherwise provided, all documents submitted to the Office shall be addressed to the hearing examiner. Where practicable, such documents shall be filed with him; otherwise, they shall be filed with the Clerk (see § 1050.104). Informational applications or requests, however, may be submitted directly to the official in charge thereof or to the Director of the appropriate Division.

(b) *Title.* Documents shall clearly show the file or docket number and title of the matter in connection with which they are filed.

(c) *Copies.* Five copies of all formal documents shall be filed, unless otherwise specified. Informal applications and correspondence should be submitted in the form of an original and two copies thereof.

(d) *Form.* (1) Documents shall be printed, typewritten (double spaced) or otherwise processed in permanent form.

(2) Wherever practicable, documents shall be on paper approximately 8½ inches by 11 inches, bound or stapled on the left side.

(e) *Signature.* One copy of each document filed shall be signed by a person who has entered an appearance (or in informal matters by a person qualified to do so).

**§ 1050.104 Clerk.**

The Director of the Office shall designate an employee of the Office to serve as Clerk of the Office. The Clerk shall, in general, perform the functions of the Clerk of a district court, in respect to the proceedings under Part 1030 of this chapter and where otherwise appropriate. Papers may be filed with him; he shall accept and record receipt of formal papers; he shall enter the orders of hearing examiners and cause them to be served upon parties. Where it is appropriate, the Clerk shall sign documents and other papers in the name of the Office. Nothing contained in this section shall be deemed to preclude the Clerk from performing any other functions within the Office.

**§ 1050.105 Time computation.**

Computation of any period of time prescribed or allowed under Parts 1020–1040 of this chapter shall begin with the first business day following that on which the act, event, or development initiating such period of time shall have occurred. When the last day of the period so computed is a Saturday, Sunday, or national holiday, or other day on which the Office is closed, the period shall run until the end of the next following business day. When such period of time, with the intervening Saturdays, Sundays, and national holidays counted, is 5 days or less, each Saturday, Sunday, and any such holiday shall be excluded from the computation. When such period of time, with the intervening Saturdays, Sundays, and national holidays counted, exceeds 5 days, each of the Saturdays, Sundays, and such holidays shall be included in the computation.

**§ 1050.106 Service.**

(a) *By the Office.* (1) Service of notices, orders, and other processes of the Office or a hearing examiner may be effected as follows:

(i) *By registered or certified mail.* A copy of the document shall be addressed to the person to be served, at its residence, office, or place of business, and sent thereto by registered or certified mail; or

(ii) *By delivery to an individual.* A copy thereof may be delivered to the natural person to be served, or to a member of the partnership to be served, or to any officer or director of the corporation or unincorporated association to be served; or

(iii) *By delivery to an address.* A copy thereof may be left at the office or place of business of the person, or it may be left at the residence of the person or of a member of the partnership or of an officer or director of the corporation or unincorporated association to be served.

(2) All other documents may be similarly served, or they may be served by ordinary first-class mail.

(b) *By other parties.* Service of documents by parties other than the Office shall be by delivering copies thereof as follows: Upon the Office, by personal delivery or delivery by first-class mail to the Clerk; upon any other party, by delivery to the party, as specified in paragraph (a) of this section.

(c) *Service on attorney of party.* When a party is represented by a person qualified pursuant to § 1050.101(a), and such representative has filed a notice of appearance as required by § 1050.101(b), or has filed any pleading or other document on behalf of the party, any notice, order, or other process or communication required or permitted to be served upon a person or party may be served upon such representative in lieu of any other service.

(d) *Proof of service.* (1) When service is by registered, certified, or ordinary first class, it is complete upon delivery of the document by the post office to the person served.

(2) The return post office receipt for a document registered or certified and mailed, or the verified return or certificate by the person serving the document

V 38 185 SEP 25 73 XUM

by personal delivery, shall be proof of the service of the document. All documents served by ordinary mail shall have appended thereto a certificate of service, setting forth the manner of said service, including the address of any person so served.

**§ 1050.107 Fees.**

(a) *Witnesses.* Any person compelled to appear in person in response to compulsory process shall, upon his application therefor, be paid the same fees and mileage as are paid witnesses in the courts of the United States.

(b) *Responsibility.* The fees and mileage referred to in this section shall be paid by the party at whose instance the witness appears.

**§ 1050.108 Ex parte communications.**

(a) In a formal administrative proceeding, no person not employed by the Office and no employee or agent of the Office who performs any investigative or prosecuting function in connection with the proceeding, shall communicate ex parte, directly or indirectly, with any person involved in the decisional process in such proceeding, with respect to the merits of that or a factually related proceeding.

(b) In a formal administrative proceeding, no person involved in the decisional process of such proceeding shall communicate ex parte, directly or indirectly, with any person not employed by the Office, or with any employee or agent of the Office who performs any investigative or prosecuting function in connection with the proceedings, with respect to the merits of that or a factually related proceeding.

(c) In a formal administrative proceeding, if an ex parte communication is made to or by any employee involved in the decisional process, in violation of paragraph (a) or (b) of this section, such employee shall promptly inform the Office of the substance of such communication and the circumstances thereof. The Office will take such action thereon as it may consider appropriate.

**§ 1050.111 Freedom of information.**

(a) All documents (including transcripts) filed in formal administrative proceedings conducted under Part 1030 of this chapter (except those documents placed in camera pursuant to § 1030.451 (b) of this chapter), and such other documents as the Office may from time to time designate, shall be made part of the public records of the Office. Copies thereof are maintained for public inspection and copying in the office of the Clerk (see § 1050.104).

(b) For good cause shown and upon application by any party submitting a document that is to be placed on the public record, pursuant to paragraph (a) of this section, the Office may excise trade secrets and customarily privileged commercial or financial information obtained from any person. Requests for such excision may be made by timely submittal to the Office of a written request specifying with particularity each item sought to be excised and setting forth in each instance a full statement of the party's business reasons for requesting excision. Mere conclusory allegations and requests that an entire document be omitted from the public record will not be deemed to satisfy the requirements of this paragraph.

(c) All documents of any description received by the Office from any person in connection with an investigation of possible noncompliance with the Program, and not described in paragraph (a) of this section, are considered part of the investigatory files of the Office, compiled for law enforcement purposes, and will not be disclosed to any person except pursuant to law.

(d) Terms used in this section shall have the meanings ascribed thereto in 5 U.S.C. §§ 551–553.

*Effective date.* The amendments to Parts 1020–1050 shall be effective as of the date of publication in final form in the FEDERAL REGISTER, and shall govern all proceedings commenced after the effective date and all pending proceedings except to the extent that the Director of the Office determines, in his discretion, that application of the amendments or any portion thereof in a pending proceeding would not be feasible or would work injustice, in which case the appropriate former rule or rules shall apply.

[FR Doc.73-19181 Filed 9-24-73;8:45 am]

## Title 7—Agriculture

### CHAPTER VIII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (SUGAR), DEPARTMENT OF AGRICULTURE

SUBCHAPTER K—GENERAL CONDITIONAL PAYMENTS PROVISIONS

### PART 891—DOMESTIC BEET SUGAR AREA

#### Subpart F—Determination of Sugar Commercially Recoverable

RATES OF RECOVERABILITY: 1973 CROP

Pursuant to section 302(a) of the Sugar Act of 1948, as amended (7 U.S.C. 1132(a)), and as provided in § 891.45 (38 F.R. 6374), Subpart F of Part 891 is amended by adding § 891.46 to read as follows:

**§ 891.46 Rates of recoverability, 1973 crop.**

The hundredweight of sugar, raw value, commercially recoverable from sugarbeets on the 1973 crop shall be computed by multiplying the net weight thereof in tons, at the time of delivery to a processor, by the rate of commercially recoverable sugar which is applicable under the following provisions of this section:

(a) For sugarbeets marketed within a settlement area under any type of agreement other than "individual test" or a "combined individual-cossette test" contract, the rate of commercially recoverable sugar per ton of beets with respect to each settlement area is established as follows:

| Sugar companies and settlement areas | 1966–72 average sugar content (percent) | Rate of commercially recoverable sugar (hundredweight) |
|---|---|---|
| Amalgamated Sugar Co.: | | |
| Idaho Districts and Elwyhee District | 16.01 | 2.820 |
| Cache, Franklin, and Ogden District | 15.24 | 2.679 |
| Utah-Idaho Sugar Co.: | | |
| Layton, Idaho District | 15.79 | 2.776 |
| Buckeye Sugars, Inc.: | | |
| Ottawa, Ohio | 14.76 | 2.595 |

(b) For sugarbeets marketed under "individual test" contracts, other than those sugarbeets marketed for processing by the American Crystal Sugar Company at their Moorhead, Crookston, and East Grand Forks, Minnesota, and Drayton, North Dakota factories, the rate of commercially recoverable sugar per ton of beets shall be computed by multiplying 20 hundredweight by the percentage of sugar content of such beets, and then multiplying the result by 83.9 percent (the average extraction rate, as adjusted for shrink, effective for such beets). This computation can be shortened by the use of the factor of 0.1678. As an example, a content of 16.37 when multiplied by 0.1678 would result in a rate of commercially recoverable sugar of 2.747 hundredweight.

(c) For sugarbeets marketed under "combined individual-cossette test" contracts, including those sugarbeets marketed for processing by the American Crystal Sugar Company at their Moorhead, Crookston, and East Grand Forks, Minnesota, and Drayton, North Dakota factories, the rate of commercially recoverable sugar per ton of beets for a producer shall be computed by multiplying 20 hundredweight by the adjusted percentage of sugar content of the beets delivered by such producer and then multiplying the result by 87.9 percent (the average extraction rate effective for such beets). This computation can be shortened by the use of the factor of 0.1758. As an example, an adjusted content of 16.37 when multiplied by 0.1758 would result in a rate of commercially recoverable sugar of 2.878 hundredweight. The adjusted percentage of sugar content for each producer shall be obtained by multiplying the weighted average percentage of sugar content of the beets delivered by him by a factor, the numerator of which shall be the appropriate factory cossette test average set forth below and the denominator of which shall be the weighted average sugar content of all beets delivered to the factory at such time as the Agricultural Stabilization and Conservation State Committee determines that at least 97 percent of the current crop of beets has been delivered to such factory.

| Sugar companies and settlement areas: | 1966–72 average sugar content (percent) |
|---|---|
| Amalgamated Sugar Co., Nyssa-Nampa District | 15.08 |
| American Crystal Sugar Co., Moorhead, Crookston, and East Grand Forks, Minn., Factories and Drayton, N. Dak. | 15.64 |
| Utah-Idaho Sugar Co.: | |
| Toppenish-Mosses Lake District | 15.69 |
| Utah Area (also includes beets from the Layton Utah Area) and Idaho District | 15.55 |

STATEMENT OF BASES AND CONSIDERATIONS

Section 891.45 (38 FR 6374) provides the method of determining and establishing amount of sugar commercially recoverable from sugarbeets and provides that the rates shall become effective when public notice thereof is given in the Federal Register.

Pursuant to that regulation, this section sets forth the rates of recoverability as determined for the 1973 crop. Definitive rates are specified for the various settlement areas wherein sugarbeets are marketed under "cossette test" contract. Within these areas, the rates give effect to 1966–72 average percentages of sugar content and the 1967–71 national average extraction rate of beet sugar, raw value, of 87.9 percent.

The Amalgamated Sugar Company's Idaho districts of Twin Falls Northside, Twin Falls Southside, Mini-Cassia Northside, Mini-Cassia Southside and Elwyhee are not listed as separate settlement areas in paragraph (a) of this section since there is no separate past production history for each of these districts. Therefore, payments for these districts will be based on the 1966–72 average sugar content computed for the company's Idaho and Elwyhee districts combined.

In lieu of an extensive table of definitive rates applicable to sugarbeets of various percentages of sugar content as marketed under "individual test" contracts, this section provides that the rate of recoverability per ton of beets of any given percentage of sugar content so marketed may be computed by multiplying such content by the factor of 0.1678. This factor gives effect to the average rate of extraction of sugar, raw value, of 83.9 percent, as applicable to individual test beets. Listings of the applicable rates (expressed in hundredths) will be available for inspection at county ASCS offices in sugarbeet producing counties. Similarly, for beets marketed under "combined individual-cossette test" contracts, a factor of 0.1758 may be used to give effect to the average extraction rate of 87.9 percent. The difference between 87.9 and 83.9 represents the average "shrink" in percentage of sugar content between the time of delivery and the time of processing for all beets of the crops of 1967–71 marketed under individual test contracts. The lower percentage is not specified for beets marketed under combined individual-cossette tests because the results of such tests include adjustments to the cossette basis.

The percentages of 87.9 and 83.9 as determined herein for the 1973 crop, compare with the percentages of 88.8 and 84.8 for the 1972 crop.

Beginning with the 1964 crop, the regulations have provided that the 7-year factory cossette test average be substituted for the current year's factory cossette test average in calculating the factor to be applied to individual grower's sugar content for those growers marketing beets under "combined individual-cossette contracts". The average sugar content for each factory shown in paragraph (c) of this section represents the weighted average of the factory's cossette tests for the crops 1966–72.

The American Crystal Sugar Company factories at Moorhead, Crookston, and East Grand Forks, Minnesota and Drayton, North Dakota have been included in paragraph (c) of this section as a "combined individual-cossette test" area effective with the 1973 crop. This determination is based on the method the company proposes to use in making individual tests of producers' beets and is deemed necessary to avoid inequities in Sugar Act payments.

A notice of proposed rule making was not given for this determination as it follows mathematical formulas which make use of actual operating and production data reported by the sugar factories involved. Therefore, no discretionary decisions are involved and a public recommendation would not change the data. Public notice is, therefore, unnecessary.

Accordingly, I hereby find and conclude that the foregoing determination will effectuate the applicable provisions of the Act.

(Secs. 302, 303, 304, 403, 61 Stat. 930 as amended, 932; 7 U.S.C. 1132, 1133, 1134, 1153.)

Effective date.—September 25, 1973.

Signed at Washington, D.C., on September 19, 1973.

E. J. PERSON,
*Deputy Administrator, Programs, Agricultural Stabilization and Conservation Service.*

### CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 73; Docket No. AO-173-A29]

### PART 1073—MILK IN THE WICHITA, KANSAS, MARKETING AREA

#### Order Amending Order

*Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Wichita, Kansas, marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in sec. 8c (9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

*It is therefore ordered*, That on and after the effective date hereof, the handling of milk in the Wichita, Kansas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as

V 38 1185
SEP 25 73
XUM

amended, and as hereby further amended, as follows:

1. Section 1073.7 is revised as follows:

**§ 1073.7 Producer.**

"Producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted regulatory agency, which milk is received at a pool plant, diverted to a nonpool plant pursuant to § 1073.14(b), or accounted for by a cooperative association pursuant to § 1073.14(c), except:

(a) A producer-handler as defined in any order (including this part) issued pursuant to the Act, or

(b) A person with respect to milk that is physically received at a pool plant as diverted milk from an other order plant if a Class II or Class III classification under this order is designated for such milk and it is subject to the pricing and pooling provisions of another order issued pursuant to the Act.

2. In § 1073.8, paragraphs (c) and (d) are revised as follows:

**§ 1073.8 Handler.**

* * * * *

(c) Any cooperative association with respect to milk of producers it diverts from a pool plant to a nonpool plant;

(d) Any cooperative association with respect to milk it receives for its account from the farm of a producer in a tank truck owned and operated by, or under the control of, such association, for delivery to a pool plant(s); and

* * * * *

3. Section 1073.10 is revised as follows:

**§ 1073.10 Distributing plant.**

"Distributing plant" means a plant approved by a duly constituted regulatory agency for the processing or packaging of Grade A milk and from which during the month route disposition is made in the marketing area.

4. Section 1073.11 is revised as follows:

**§ 1073.11 Supply plant.**

"Supply plant" means a plant from which fluid milk products, acceptable to a duly constituted regulatory agency for distribution under a Grade A label, are shipped during the month to, and physically received at, a distributing plant.

5. Section 1073.12 is revised as follows:

**§ 1073.12 Pool plant.**

"Pool plant" means a plant specified in paragraph (a), (b) or (c) of this section that is not an other order plant or a producer-handler plant.

(a) A distributing plant that has:

(1) Route disposition, except filled milk, during the month of not less than 35 percent (25 percent for each month of March through July) of the fluid milk products, except filled milk, that are approved by a duly constituted regulatory agency for distribution under a Grade A label and are physically received at such plant, or diverted therefrom by the plant operator or a cooperative association to a nonpool plant as producer milk pursuant to § 1073.14, and route disposition, except filled milk, in the marketing area during the month is not less than 10 percent of such fluid milk products. If the entire quantity of fluid milk products, except filled milk, disposed of in packages in a particular size and form is received in such packages from other plants, all such disposition shall be credited to the plant from which such packages were received and shall be deducted from the appropriate disposition of the receiving plant; or

(2) Qualified as a pool plant in the immediately preceding month on the basis of performance standards described in paragraph (a)(1) of this section.

(b) A supply plant from which during the month not less than 50 percent of the total quantity of Grade A milk approved by a duly constituted regulatory agency that was physically received at such plant from dairy farmers and handlers described in § 1073.8(d), or diverted therefrom by the plant operator or a cooperative association as producer milk to a nonpool plant pursuant to § 1073.14, is shipped to a plant(s) described in paragraph (a) of this section. A supply plant that was a pool plant pursuant to this paragraph in each of the months of September through December shall be a pool plant in each of the following months of January through August unless the plant operator requests the market administrator in writing that such plant not be a pool plant. Such nonpool status shall be effective the first month following such notice and thereafter until the plant again qualifies as a pool plant on the basis of shipments; and

(c) A plant that is approved by a duly constituted regulatory agency to handle milk for fluid consumption, that is operated by a cooperative association, and from which during the month not less than 50 percent of the milk of producer members of such association is delivered directly or is transferred by the association to pool plants described in paragraph (a) of this section, unless such plant qualifies for the month as a pool plant under another order issued pursuant to the Act by delivering 50 percent or more of its Grade A receipts from dairy farmers to plants qualified as pool distributing plants under such other order.

6. Section 1073.14 is revised as follows:

**§ 1073.14 Producer milk.**

"Producer milk" shall be that skim milk and butterfat in milk from producers that is:

(a) Received at a pool plant directly from a producer or a handler pursuant to § 1073.8(d);

(b) Diverted by the operator of a pool plant or by a cooperative association to a nonpool plant other than a producer-handler plant, subject to the conditions of paragraph (d) of this section; or

(c) The difference between the quantity of milk as received by a handler pursuant to § 1073.8(d) from producers' farms and the quantity of such milk delivered to pool plants. For the purposes of §§ 1073.53 and 1073.82, such milk shall be deemed to have been received by such handler at the pool plant to which all other producer milk in the same tank truck was delivered.

(d) The following conditions shall apply to milk diverted from a pool plant to a nonpool plant that is not a producer-handler plant:

(1) Such milk shall be accounted for as received by the diverting handler at the location of the nonpool plant;

(2) Milk of a producer shall not be eligible for diversion from a pool plant under this section if during the month less than 15 percent of total milk of such person as a producer is received at a pool plant;

(3) The total quantity of milk diverted by a cooperative association that is greater than the total quantity of producer milk received at all pool plants during the month from the cooperative association shall not be producer milk;

(4) The total quantity of milk diverted by the operator (other than a cooperative association) of a pool plant that is greater than the total quantity received at such plant during the month from producers who are not members of a cooperative association shall not be producer milk;

(5) The diverting handler shall designate the dairy farmers' deliveries that are not producer milk pursuant to this paragraph. If the handler falls to make such designation, no milk diverted by him to a nonpool plant shall be producer milk;

(6) To the extent that it would result in nonpool plant status for the pool plant from which diverted, milk diverted for the account of a cooperative association from the pool plant of another handler shall not be producer milk; and

(7) Milk diverted to an other order plant shall be producer milk only if a Class II or Class III classification is designated for such milk pursuant to the provisions of another order issued pursuant to the Act and such milk is not subject to the pricing and pooling provisions of such order.

7. In § 1073.30, paragraph (c) is revised as follows:

**§ 1073.30 Reports of receipts and utilization.**

* * * * *

(c) Each cooperative association shall report with respect to milk for which it is a handler pursuant to § 1073.8(c) and (d), as follows:

(1) Receipts of skim milk and butterfat in producer milk;

(2) The quantities delivered to each pool plant of another handler pursuant to § 1073.8(d) (the utilization of which is accountable by the latter under paragraph (a) of this section);

(3) The utilization of milk received under § 1073.8(d) but not delivered to the pool plant of another handler pursuant to such paragraph, and the utilization of milk for which the cooperative

is the handler pursuant to § 1073.8(c); and

(4) Such other information as the market administrator may require.

8. In § 1073.53, the section title and the introductory paragraph are revised as follows:

**§ 1073.53 Location adjustments to handlers.**

For milk received from producers or from a handler pursuant to § 1073.8(d) at a plant and classified as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (d) of this section or for other source milk to which a location adjustment is applicable, the price at such plant when located:

* * * * *

9. In § 1073.61, paragraph (c) is revised as follows:

**§ 1073.61 Plants subject to other Federal orders.**

* * * * *

(c) A supply plant meeting the requirements of § 1073.12(b) that also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part, except during the months of January through August if such plant retains automatic pooling status under this part.

10. In § 1073.71, paragraph (a) is revised as follows:

**§ 1073.71 Computation of uniform prices.**

* * * * *

(a) Combine into one total the values computed pursuant to § 1073.70 for all handlers who filed the reports prescribed by § 1073.30 for the month, except those in default of payments required pursuant to § 1073.84 for the preceding month;

11. In § 1073.80, the introductory sentence in paragraph (d) is revised as follows:

**§ 1073.80 Time and method of payment.**

* * * * *

(d) Each handler who receives milk for which a cooperative association is the handler pursuant to § 1073.8(d), including the milk of producers who are not members of such association, and who the market administrator determines have authorized such cooperative association to collect for their milk, shall, on or before the second day prior to the date payments are due individual producers, pay such cooperative association for such milk as follows:

* * * * *

12. In § 1073.82, the section title and paragraph (a) are revised as follows:

**§ 1073.82 Location adjustments to producers and on nonpool milk.**

(a) For producer milk received at plants located outside Zone 1 there shall be added or deducted, as the case may be, an adjustment for each such plant for all milk at the rates specified in § 1073.53 (b) and (c); and

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

*Effective date.*—November 1, 1973.

Signed at Washington, D.C., on September 19, 1973.

CLAYTON YEUTTER,
*Assistant Secretary.*

[Milk Order No. 129]

## PART 1129—MILK IN THE AUSTIN-WACO, TEXAS, MARKETING AREA

### Order Suspending Certain Provisions

This order suspending certain provisions is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Austin-Waco marketing area.

Notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 23535) concerning a proposed suspension of certain provisions of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon. None was filed in opposition to the proposed suspension.

After consideration of al relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, and other available information, it is hereby found and determined that for the months of October 1973 through March 1974 the following provisions of the order do not tend to effectuate the declared policy of the Act:

In § 1129.20, which defines a "fluid milk product", the language "cultured sour cream."

STATEMENT OF CONSIDERATION

This suspension will result in milk used in sour cream being classified as Class II milk rather than Class I milk under the order.

The suspension was requested by the two pool plant operators regulated under the Austin-Waco order. Handlers in the North Texas and San Antonio Federal order markets, where sour cream is a Class II product, account for a substantial portion of the total sour cream sales in the Austin-Waco marketing area, competing with handlers under the Austin-Waco order. By changing the classification of sour cream under the Austin-Waco order as proposed, the producer price to Austin-Waco handlers for milk in such use will be closely aligned with the price of milk so used under such other orders.

The uniform classification of milk in Austin-Waco and other Texas markets has been recommended by the Department on the basis of a hearing covering 32 Federal orders. In this circumstance, the suspension of sour cream from the fluid milk product definition should apply for the period of October 1973–March 1974.

It is thereby found and determined that thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area;

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rulemaking was given interested parties and they were afforded opportunity to file written data, views or arguments concerning this suspension (38 FR 23535).

Therefore, good cause exists for making this order effective October 1, 1973.

*It is therefore ordered*, That the aforesaid provisions of the order are hereby suspended for the months of October 1973 through March 1974.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

*Effective date.*—October 1, 1973.

Signed at Washington, D.C., on September 19, 1973.

CLAYTON YEUTTER,
*Assistant Secretary.*

## Title 12—Banks and Banking

## CHAPTER V—FEDERAL HOME LOAN BANK BOARD

### SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 73-1340]

## PART 545—OPERATIONS

### NOW Accounts

SEPTEMBER 14, 1973.

Section 2(a) of Public Law No. 93-100 of August 16, 1973, provides that "No depository institution [as defined in section 2(b)] shall allow the owner of a deposit or account on which interest or dividends are paid to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties, except that such withdrawals may be made in the States of Massachusetts and New Hampshire." By section 8 thereof, section 2 takes effect on the thirtieth day after the day of its enactment.

The Federal Home Loan Bank Board considers it desirable to amend Part 545 of the Rules and Regulations for the Federal Savings and Loan System by adding a new subparagraph (3) to § 545.4-1(a) thereof. The purpose of the new subparagraph (3) is to make clear that the Board considers that section 2 of said Public Law No. 93-100 permits each Federal association having its home office in New Hampshire or Massachusetts to allow the owner of a savings account on which interest or dividends are paid to

V 38 185 SEP 25 73 XUM

make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties. By companion Resolution No. 73-1341, the Board adopts a similar amendment to Part 563 of the Rules and Regulations for Insurance of Accounts (12 CFR Part 563). By companion Resolution No. 73-1339, the Board proposes amendments to Part 526 of the Regulations for the Federal Home Loan Bank System (12 CFR Part 526) relating to the issuance and payment of interest or dividends on transaction accounts by member institutions having their home offices in New Hampshire or Massachusetts.

Accordingly, the Federal Home Loan Bank Board hereby amends said § 545.4-1(a) by adding a new subparagraph (3) thereto to read as set forth below, effective September 15, 1973.

Since affording notice and public procedure on the above amendment would delay it from becoming effective for a period of time and since it is in the public interest that such amendment becomes effective as soon as possible, the Board hereby finds that notice and public procedure thereon are contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and the Board hereby finds that publication of such amendment for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date thereof is unnecessary since it relieves restrictions; and the Board hereby provides that such amendment shall become effective as hereinbefore set forth.

**§ 545.4-1 Payments to third parties by withdrawal or transfer of savings accounts; checks and money orders.**

(a) *Withdrawals and transfers.* • • •

(3) *Exception for transaction accounts.* Notwithstanding this paragraph (a) or any other provision of this subchapter C to the contrary, each Federal association having its home office in New Hampshire or Massachusetts may allow the owner of a savings account on which interest or dividends are paid to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties.

• • • • • •

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Public Law 93-100. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

[No. 73-1337]

## PART 545—OPERATIONS

### Real Estate Loan Percentage-of-Assets Limitations

SEPTEMBER 14, 1973.

The Federal Home Loan Bank Board, by Resolution No. 73-921, dated July 3, 1973, proposed to amend Part 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Part 545) for the purposes described herein. By a companion document (Resolution No. 73-922; July 3, 1973) the Board proposed collateral amendments to Parts 561 and 563 of the Rules and Regulations for Insurance of Accounts (12 CFR Parts 561 and 563). Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on July 15, 1973, and allowed until August 15, 1973, for interested persons to submit written comments.

On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board hereby amends said Part 545 by revising § 545.6-6 and paragraphs (a)(1)(i), (c)(1)(ii) and (iii), and (c)(2)(i) and (iii) of § 545.6-7 thereof to read as set forth below. By companion Resolution No. 73-1338, the Board adopts amendments to said Parts 561 and 563.

Section 5(c) of the Home Owners' Loan Act of 1933 (12 U.S.C. 1464(c)) provides that Federal associations "shall lend their funds only • • • on the security of first liens on real property within 100 miles of their home office or within the State in which such home office is located • • •." Pursuant to that language, the revised § 545.6-6 expands the "regular lending area" of a Federal association to include the entire State in which an association's home office is located and any area outside such State within a radius of 100 miles from such an association's home office. In the previous § 545.6-6, the Board had confined the "regular lending area" of a Federal association to the area within a radius of 100 miles from such an association's home office both within and without the State in which such home office is located and an additional area within a radius of 100 miles from each branch or agency of such an association to the extent that such additional area is also within the State in which the association's home office is located. (There continues to be a further provision for additional lending area for Federal associations which have converted from State-chartered institutions.) In so prescribing the regular lending area of Federal associations, the Board did not grant the full lending area available in section 5(c). Furthermore, this restriction on regular lending area was a basis for certain real estate loan percentage-of-assets restrictions in § 545.6-7.

Under paragraph (a) of § 545.6-7 a loan on the security of a single-family dwelling, a home or combination of home and business property is not subject to a percentage-of-assets limitation if such a loan, among other things, is made on the security of any such property located within the Federal association's "regular lending area." A loan on the security of such properties located beyond the association's regular lending area is subject to the "general" 20-percent-of-assets category of § 545.6-7(c)(1). As a result, prior to the instant amendment a loan of $45,000 or less on the security of a single-family dwelling or on the security of a home or combination of home and business property located within the State in which the association's home office is located but located beyond the 100 mile radius around home or branch offices had to be included within the general 20-percent-of-assets category under § 545.6-7(c)(1). The expansion of the "regular lending area" to include the entire State thereby allows for the removal of such loans from the "general" 20-percent-of-assets category.

Under paragraph (c)(1)(i) of § 545.6-7, any loan on the security of other dwelling units (defined in § 541.10-3; generally multi-family apartment loans) falls within the general 20-percent-of-assets category without regard to the location of the security property. However, loans made on other dwelling units located within regular lending area also may be placed in the "special" 20-percent-of-assets category of § 545.6-7(c)(2), assuming that the other requirements of that category are met also. Under the previous "regular lending area" computation, a loan made on an apartment building located within the State but beyond the 100 mile radius around home or branch offices had to be included within the general category and could not be included in the special category. Under the revised "regular lending area" definition, such an apartment loan could be included within the "special" category. The same result applies to the type of security property described as "a combination of dwelling units, including homes, and business property involving only minor or incidental business use" (defined in § 541.11-1).

This same result applies to certain participation loans. Under § 545.6-7(c)(3)(ii) and (iii), a participation interest in a loan on the security of a single-family dwelling, a home, or combination of home and business property located beyond regular lending area but within the State had to be placed in either the general category or the "participation" 20-percent-of-assets category. By applying the revised statewide regular-lending-area definition, participation loans made on the security of such properties located within the State but beyond a 100-mile radius of home or branch offices, would not be subject to percentage-of-assets limitations.

In connection with expanding the regular lending area, the Board also finds it desirable to make four conforming amendments to § 545.6-7, as were discussed in said Resolution No. 73-921. These amendments delete now unnecessary exceptions from the previous restrictions for insured loans secured by a single-family dwelling, a home, or combination of home and business property located more than 100 miles from an office of the Federal association but within the State in which the association's home office is located. These exceptions are deleted from § 545.6-7(a)(1)(i), (c)(1)(ii)(b), (c)(1)(iii)(b) and (c)(2)(i). Insured loans now must be allocated to percentage-of-assets categories on the same basis as uninsured conventional loans.

Revised § 545.6-7(c)(2)(iii) provides that otherwise qualifying loans secured by other dwelling units or a combination of dwelling units, including homes, and business property involving only minor or incidental business use may be placed in the "special" 20-percent-of-assets category if, at the time the loan is allocated to that category, the lending Federal association meets the net worth requirement set forth in Insurance Regulation § 563.13. The provision previously required that at the time the loan was to be allocated to the "special" category, the Federal association's net worth had to be not less than 5% of the average of the association's savings accounts balances as of the close of the three preceding calendar years.

Accordingly, the Federal Home Loan Bank Board hereby amends said Part 545 by revising § 545.6-6 and paragraphs (a)(1)(i), (c)(1)(ii) and (iii), and (c)(2)(i) and (iii) of § 545.6-7 to read as set forth below, effective September 25, 1973.

Since the above amendments relieve restrictions, the Board hereby finds that the delay in the effective date of 30 days after publication in the FEDERAL REGISTER with respect to said amendments is unnecessary under the provisions of 12 CFR 508.14 and 5 U.S.C. 553(d), and the Board hereby provides that such amendments shall become effective as hereinbefore set forth.

**§ 545.6-6 Lending area.**

The regular lending area of a Federal association consists of the area: (a) Within the State in which such association's home office is located; (b) within any portion of a circle with a radius of 100 miles from such association's home office which is outside of the State in which such association's home office is located; and (c) in the case of a Federal association which is converted from a State-chartered institution, beyond the areas specified in paragraphs (a) and (b) of this section but within which area such association made loans while operating under State charter. Each converted association that desires to continue to make loans beyond the areas specified in paragraph (a) and (b) of this section but in the areas in which it made loans while operating under State charter shall file with the Board a map showing the areas within which such association made loans while operating under State charter. For the purpose of this section, the term "State" shall include the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States; and a county, parish, or similar political subdivision of a State is the unit of "area" in which a converted association made loans beyond the areas specified in paragraphs (a) and (b) of this section while operating under State charter.

**§ 545.6-7 Percentage limitations on real estate loan investments.**

(a) *Loan investments not subject to percentage limitations.* The following investments by a Federal association in loans on the security of real estate shall not be subject to any percentage-of-assets or percentage-of-savings-accounts limitation:

(1) A loan on the security of a single-family dwelling, or on the security of a home or combination of home and business property except, however, any such loan which is:

(i) On the security of any such property located beyond the association's regular lending area;

• • • • • •

(c) *Percentage limitations for other loans.* Except as specified in paragraphs (a) and (b) of this section, no Federal association may make any investment in a real estate loan unless the amount of such investment can be allocated within one or more of 3 percentage-limitation categories specified in this paragraph. In the case of a loan investment which is specified as allocable to more than one of the 3 categories, all or part of any allocation to any one of such categories may be reallocated at any time to another one of such categories, if applicable.

(1) *General 20-percent-of-assets category.* The following investments, not to exceed at any one time an amount equal to 20 percent of the association's assets, are allocable to this category:

(i) Any loan on the security of other improved real estate, other dwelling units, or a combination of dwelling units, including homes, and business property involving only minor or incidental business use, without regard to the location of the security property;

(ii) Any loan on the security of a single-family dwelling, if either—

(*a*) Such loan exceeds $45,000, or

(*b*) The security property is located beyond the association's regular lending area;

(iii) Any loan on the security of a home or combination of home and business property if either—

(*a*) The amount of such loan exceeds, for any dwelling unit in any such security property which is not a single-family dwelling, an amount prescribed in or under section 207(c)(3) of the National Housing Act; or

(*b*) The security property is located beyond the association's regular lending area;

• • • • • •

(2) *Special 20-percent-of-assets category.* The following investments, not to exceed at any one time an amount equal to 20 percent of the association's assets, are allocable to this category: any loan, or participation interest in a loan, on the security of other dwelling units or a combination of dwelling units, including homes, and business property involving only minor or incidental business use, if—

(i) The security property is located within the association's regular lending area;

• • • • • •

(iii) At the time of the allocation to this category, the association's net worth (as defined in § 561.13 of this chapter) meets the net worth requirement of § 563.13 of this chapter.

• • • • • •

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.)

## SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

[No. 73-1338]

## PART 561—DEFINITIONS

## PART 563—OPERATIONS

### Normal Lending Territory

SEPTEMBER 14, 1973.

The Federal Home Loan Bank Board, by Resolution No. 73-922, dated July 3, 1973, proposed to amend Parts 561 and 563 of the Rules and Regulations for Insurance of Accounts (12 CFR Parts 561 and 563), for the purposes described herein. By a companion document (Resolution No. 73-921; July 3, 1973) the Board proposed collateral amendments to Part 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Part 545). Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on July 15, 1973, and allowed until August 15, 1973, for interested persons to submit written comments. On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board hereby amends said Parts 561 and 563 by revising §§ 561.22 and 563.9(b) to read as set forth below. By companion Resolution No. 73-1337, the Board adopts amendments to said Part 545.

The revised § 561.22 expands the definition of "normal lending territory" of insured institutions to conform with the expansion of "regular lending area" of § 545.6-6 for Federal associations as amended by Resolution No. 73-1337. "Normal lending territory" as previously defined by the Board in Insurance Regulation 561.22 was the same area as "regular lending area", except that the 100-mile radius from an insured institution's principal office, branch office or agency office was reduced to 50 miles if the insured institution has scheduled items (other than assets acquired in a merger instituted for supervisory reasons) in excess of 4 percent of its specified assets. Under the revised definition, "normal lending territory" includes the entire State in which an insured institution's

V 38 185 SEP 25 73 XUM

principal office is located, plus the territory within any portion of a circle with a radius of 100 miles from the institution's principal office which is outside of such state. The provision for "grandfathered" normal lending territory and the reduction in normal lending territory caused by having a scheduled items ratio in excess of 4 percent remains unchanged.

The term "normal lending territory" is used principally for nationwide loans (§ 563.9) and participation loans (§ 563.9–1). Under the previous § 563.9(b) nationwide lending provision, an insured institution having a scheduled-items ratio in excess of 4% had a 20-percent-of-assets limit on loans made on the security of real estate located between 50 and 100 miles from the principal, branch, agency or other approved office of the institution. Under revised § 563.9(b), the Board has put the section in conformity with the expanded normal lending territory definition by substituting a statewide limitation for the 100-mile limitation. This means that the 20-percent limit applies to loans made on the security of real estate located anywhere in the State but beyond 50 miles from the offices of an association which has a scheduled-items ratio in excess of 4%.

The application of § 563.9(e), concerning other nationwide loans, is also affected by the expansion of normal lending territory, although no language change was necessary. An investment by an insured institution in a conventional whole loan secured by improved real estate located beyond the previous 100 mile normal lending territory but within the State in which the insured institution's principal office is located was a "nationwide loan" and was subject to the 15%-of-assets limitation of § 563.9(e). As a result of the revision of "normal lending territory", such an in-State investment is no longer a "nationwide loan" and would not be subject to that percentage-of-assets limitation.

A similar change occurs in the participation loan provisions of § 563.9–1. Under § 563.9–1(b), concerning participation loans outside normal lending territory, the 40%-of-assets limitation previously included participation loan investments on the security of improved real estate located beyond the 100-mile radius but within the State. Under the expanded definition of normal lending territory, such investments are still "participation loans", but now are within § 563.9–1(a) (participation loans within normal lending territory) and are therefore not subject to any of the § 563.9–1(b) requirements.

Accordingly, the Federal Home Loan Bank Board hereby amends Parts 561 and 563 of the Rules and Regulations for the Federal Savings and Loan Insurance Corporation by revising §§ 561.22 and 563.9(b) to read as set forth below, effective September 25, 1973.

Since the above amendments relieve restriction, the Board hereby finds that the delay in the effective date of 30 days after publication in the FEDERAL REGISTER with respect to said amendments is unnecessary under the provisions of 12 CFR 508.14 and 5 U.S.C. 553(d), and the Board hereby provides that such amendments shall become effective as hereinbefore set forth.

**§ 561.22 Normal lending territory.**

(a) *Scheduled items not in excess of 4 percent.* "Normal lending territory" for an insured institution which, at the close of its most recent semiannual period, had scheduled items (other than assets acquired in a merger instituted for supervisory reasons) not in excess of 4 percent of its specified assets means the territory: (1) Within the State in which such institution's principal office is located; (2) within any portion of a circle with a radius of 100 miles from such institution's principal office which is outside of the State in which such institution's principal office is located; and (3) beyond paragraph (a)(1) and (2) of this section but within which territory the institution was operating on June 27, 1934.

(b) *Scheduled items in excess of 4 percent.* "Normal lending territory" for an insured institution which, at the close of its most recent semiannual period, had scheduled items (other than assets acquired in a merger instituted for supervisory reasons) in excess of 4 percent of its specified assets means the territory: (1) Within the portion of the State in which the institution's principal office is located which is within a radius of 50 miles from such principal office or from each place of business which has been approved in writing by the institution's appropriate supervisory authority as a branch office, agency office, or similar place of business for such institution; (2) within any portion of a circle with a radius of 50 miles from such institution's principal office which is outside of the State in which such institution's principal office is located; and (3) beyond 50 miles from such institution's principal office but within which territory the institution was operating on June 27, 1934.

(c) *Definitions.* For the purpose of this section, the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States; and a county, parish, or similar political subdivision of a State is the unit of "territory" in which the institution was operating on June 27, 1934.

**§ 563.9 Nationwide lending.**

* * * * *

(b) *Loans beyond normal lending territory when scheduled items exceed 4%.* Any insured institution which, at the close of its most recent semiannual period, had scheduled items (other than assets acquired in a merger instituted for supervisory reasons) in excess of 4 percent of its specified assets, may, to the extent that it has legal power to do so, make or purchase whole loans in an aggregate amount not exceeding 20 percent of its assets on the security of real estate located outside its normal lending territory but within the State in which its principal office is located.

* * * * *

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071.)

FEDERAL HOME LOAN BANK BOARD

[No. 73–1341]

## PART 563—OPERATIONS

### NOW Accounts

SEPTEMBER 14, 1973.

Section 2(a) of Public Law No. 93–100 of August 16, 1973, provides that "No depository institution [as defined in section 2(b)] shall allow the owner of a deposit or account on which interest or dividends are paid to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties, except that such withdrawals may be made in the States of Massachusetts and New Hampshire." By section 8 thereof, section 2 takes effect on the thirtieth day after its enactment.

The Federal Home Loan Bank Board, as the operating head of the Federal Savings and Loan Insurance Corporation, considers it desirable to amend Part 563 of the Rules and Regulations for Insurance of Accounts by adding a new § 563.7–3 thereto. The purpose of the new section is to make clear that the Board considers that section 2 of said Public Law No. 93–100 permits each insured institution having its principal office in New Hampshire or Massachusetts to allow the owner of a savings account on which interest or dividends are paid to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties. By companion Resolution No. 73–1340, the Board adopts a similar amendment to Part 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Part 545). By companion Resolution No. 73–1339, the Board proposes amendments to Part 526 of the Regulations for the Federal Home Loan Bank System (12 CFR Part 526) relating to the issuance and payment of interest or dividends on transaction accounts by member institutions having their home offices in New Hampshire or Massachusetts.

Accordingly, the Federal Home Loan Bank Board hereby amends said Part 563 by adding a new § 563.7–3 thereto, immediately after § 563.7–2, to read as set forth below, effective September 15, 1973.

Since affording notice and public procedure on the above amendment would delay it from becoming effective for a period of time and since it is in the public interest that such amendment becomes effective as soon as possible, the Board hereby finds that notice and public procedure thereon are contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and the Board hereby finds that publication of such amendment for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date thereof is unnecessary since it relieves restrictions; and the Board hereby provides that such amendment shall become effective as hereinbefore set forth.

**§ 563.7–3 Exception for transaction accounts.**

Notwithstanding any other provision of this subchapter D to the contrary, each insured institution having its principal office in New Hampshire or Massachusetts is not prohibited from allowing the owner of a savings account on which interest or dividends are paid to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties.

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Public Law 93–100. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

## Title 14—Aeronautics and Space

## CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 11423; Amdt. 39–1723]

## PART 39—AIRWORTHINESS DIRECTIVES

### Nickel-Cadmium Batteries

Amendment 39–1521 (37 FR 18522), AD 72–19–4, as amended by Amendment 39–1598 (38 FR 5238), effective March 6, 1973, requires, in part, that aircraft to which it applies be modified before October 1, 1973, to prevent a possible battery fire that could result from overheating caused by an undetected battery failure. The required modification must be FAA approved as meeting one of the following three alternative objectives: (1) Automatic control of battery charging rate as a function of battery temperature; (2) warning of battery overtemperature, based on sensing of battery temperature, with means and procedures for disconnecting the battery from the charging source; and (3) warning of battery failure with means and procedures for disconnecting the battery from its charging source.

After the issuance of Amendment 39–1598, the FAA has determined that parts are not available in sufficient quantities to permit timely compliance by all affected persons. Furthermore, the FAA has determined that sufficient parts will be available in time to permit compliance by February 1, 1974, and that extension of the compliance time until that date will have no adverse effect on safety. Therefore, Amendment 39–1521, AD 72–19–4, as amended by Amendment 39–1598, is being further amended to require acceptable modification before February 1, 1974.

Since this amendment merely extends a compliance date and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c).)

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR § 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–1521 (37 F.R. 18522), AD 72–19–4, as amended by Amendment 39–1598 (38 F.R. 5238), is further amended by striking out the words "October 1, 1973" from paragraph (f) and inserting the words "February 1, 1974" in place thereof.

Issued in Washington, D.C., on September 11, 1973.

This amendment becomes effective September 19, 1973.

## PART 39—AIRWORTHINESS DIRECTIVES

### General Dynamics Model 340/440 and C–131E Airplanes, Including Those Converted to Turbo-Propeller Power

There have been cracks in the nose landing gear, left hand upper, drag struts in the area of the shear-bolt bore that could result in failure of the drag strut and collapse of the nose landing gear. Since this condition is likely to exist or develop in airplanes of the same type design, an A.D. is being issued to require repetitive inspections and replacement or repair of cracked drag struts on General Dynamics Model 340/440 and C–131E airplanes, including those converted to turbo-propeller power.

The 1200 landing compliance time for the initial inspection and modification has been established by the agency on the basis of safety considerations. It is the same as that recommended in General Dynamics Service Bulletin No. 32–8, dated August 10, 1973.

This compliance time provides the lead time for operators to schedule and plan compliance with the AD with a minimum burden. To prescribe the initial inspection and modification required by this AD under the usual notice and public procedures followed by the agency within the time the agency has determined is required in the interest of safety, would necessarily result in a reduction of the compliance time for the initial inspection and modification required by this A.D. This could possibly leave the operators insufficient time to schedule airplanes for compliance with the A.D. Therefore, accomplishment of the initial inspection and modification required by this A.D. within the time the agency has determined is necessary makes strict compliance with the notice and public procedure provisions of the Administrative Procedure Act impracticable and this amendment becomes effective 30 days after publication in the Federal Register. However, interested persons are invited to submit such written data, views, or arguments as they may desire regarding this A.D. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Regional Counsel, FAA Western Region, Attention: Rules Docket, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009. All communications received before the effective date will be considered by the Administrator, and the AD may be changed in the light of comments received. All comments will be available both before and after the effective date in the Rules Docket for examination by interested persons. Operators are urged to submit their comments as early as possible so that comments will be received in sufficient time to amend the AD before it becomes effective.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

GENERAL DYNAMICS. Applies to Models 340/440 and C–131E airplanes certificated in all categories, including those converted to Turbo-propeller power.

Compliance required as indicated.

To detect cracks originating at the shear-bolt bore in the drag strut, and to prevent possible failure of the landing gear, accomplish the following:

(a) Non-Modified Struts (See Note, below).

(1) Within 1200 landings after the effective date of this A.D., unless already accomplished within the last 4800 landings prior to this A.D., perform a disassembly inspection of the nose landing gear, left hand, upper drag strut for crack development in the area of the clutch plate to strut shear bolt attach hole per General Dynamics Service Bulletin No. 32–8, dated August 10, 1973, or later FAA-approved revisions, and modify the strut per Part III of the Bulletin.

(2) If no cracks are found, repeat the inspection at intervals not to exceed 6000 landings thereafter, until the strut has been modified in accordance with the provisions of Part IV, Service Bulletin No. 32–8, or later FAA-approved revisions.

(3) If cracks are located, replace the drag strut with new or serviceable parts of the same type design. The various configurations and the reinspection requirements are as shown below:

(A) The installation of new P/N 340–7310231–1 parts reconfigured per Part IV of Service Bulletin No. 32–8 or original configuration P/N's 340–5210103 and 340–5215103 struts modified per Part III and Part IV of Service Bulletin No. 32–8 constitutes terminating action.

(B) If new or previously modified struts are used for replacement, which do not have the modifications of Part IV, Service Bulletin No. 32–8 incorporated, perform repetitive inspections at intervals not to exceed

V 38 185 SEP 25 73 XUM

6000 landings from the time of replacement.

(C) If previously modified parts are used for replacement that have a subsequent rework accomplished per Part IV of Service Bulletin No. 32–8, perform an initial inspection at or before 20,000 landings following rework, and at intervals not to exceed 6000 landings thereafter.

(D) Struts repaired per Part II of the Service Bulletin No. 32–8, or later FAA-approved revisions, will be inspected at intervals not to exceed 6000 landings following the repair.

(b) Modified or New Struts (See Note, below).

(1) On or before 20,000 landings after the effective date of this AD, perform a disassembly inspection of the nose landing gear, left hand upper drag strut in the area of the clutch plate to strut shear bolt attach hole as specified in General Dynamics Service Bulletin No. 32–8, or later FAA-approved revisions.

(2) If no cracks are found, repeat the inspection in (b)(1), above, at intervals not to exceed 6000 landings until the strut has been modified in accordance with the provisions of Part IV, Service Bulletin No. 32–8, or later FAA-approved revisions.

(3) If cracks are found, replace the drag struts with new or serviceable parts of the same type design. Re-inspection requirements for each type part are as specified in (a)(3)(A)(B)(C) and (D), above.

(c) Equivalent inspections and installations may be approved by the Chief, Aircraft Engineering, FAA Western Region.

(d) For the purpose of complying with this A.D., subject to acceptance by the assigned FAA Maintenance Inspector, the number of landings may be determined by dividing each airplane's hours time in service by the operators fleet average time from takeoff to landing for the airplane type.

NOTE.—The following definitions apply.

Non-Modified Struts—This is an original configuration strut, which has not been modified by previous Service Engineering Reports or by Service Bulletin 32-8.

Modified Struts—This includes all struts modified by previous SER's No. 15–4–340–38/440–38 and 15–4–440–44A/440–44 and/or by Part III of Service Bulletin No. 32–8 that have not been modified per Part IV of Service Bulletin No. 32–8.

New Struts—Part Number 340–7310231–1 struts that have not been reworked per Part IV of Service Bulletin No. 32–8.

This amendment becomes effective October 18, 1973.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c).))

Issued in Los Angeles, California, on September 7, 1973.

ROBERT O. BLANCHARD,
*Acting Director,*
*FAA Western Region.*

[Airspace Docket No. 73–AL–8]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Redesignation of Colored Federal Airways and Reporting Points

On June 26, 1973, a notice of proposed rulemaking (NPRM) was published in the Federal Register (38 FR 16785) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter Amber Federal Airway No. 1 between Anchorage and Skwentna, Alaska, Radio Rangers; revoke Red Federal Airway No. 82 between Skwentna and Matanuska, Alaska, Intersection; redesignate the Skwentna Transition Area to include a smaller area and also lower the floor; and effect editorial changes generated by conversion of the Anchorage and Skwentna Radio Ranges to Radio Beacons and NAVAID name changes.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

Effective October 11, 1973, the Anchorage and Skwentna Radio Ranges (RR) will be converted to Radio Beacons (RBN), and the Anchorage NAVAID will be renamed at that time as the Campbell Lake RBN. The editorial amendment associated with these NAVAIDS will be made effective simultaneously with the conversions, and are contained herein as Airspace Docket No. 73–AL–8. The substantive amendment proposed in the Notice will be contained in Airspace Docket No. 73–AL–8A which will be published later with an effective date of November 8, 1973, and will reflect the realignment of Amber Airway No. 1 from Campbell Lake RBN to Skwentna RBN, revocation of Red Airway No. 82 in its entirety, and reconfiguration of the Skwentna Transition Area.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 GMT, October 11, 1973, as hereinafter set forth.

1. Section 71.103 (38 FR 305 and 22770) is amended as follows:

a. In G–8 "INT northeast course Kenai and a bearing of 266° from Anchorage, Alaska, RR; Anchorage RR; INT northeast course Anchorage RR and southeast course Skwentna, Alaska, RR;" is deleted and "INT northeast course Kenai and a bearing of 266° from Campbell Lake, Alaska, RBN; Campbell Lake RBN; INT Campbell Lake RBN 026° and Skwentna, Alaska, RBN 111° bearings;" is substituted therefor.

b. In G–9 "Anchorage, Alaska, RR." is deleted and "to Campbell Lake, Alaska, RBN." is substituted therefor.

2. Section 71.105 (38 FR 305 and 21492) is amended as follows:

In A–1 "INT west course Hinchinbrook RR and southeast course Anchorage, Alaska, RR; Anchorage, RR; INT northwest course Anchorage and southeast course Skwentna, Alaska, RR; Skwentna RR;" is deleted and "INT west course Hinchinbrook RR and 122° Campbell Lake, Alaska, RBN; Campbell Lake RBN; INT Campbell Lake RBN 331° and Skwentna, Alaska, RBN 111° bearings; Skwentna RBN;" is substituted therefor.

3. Section 71.107 (38 FR 306) is amended as follows:

a. In R–40 "INT east course Kenai, Alaska, RR and southwest course Anchorage, Alaska, RR; Anchorage, RR." is deleted and "to Campbell Lake, Alaska, RBN." is substituted therefor.

b. R–82 is amended to read:

"R–82 from Skwentna, Alaska, RBN; to INT Skwentna RBN 111° and Campbell Lake, Alaska, RBN 026° bearings."

4. Section 1.109 (38 FR 306 and 8133) is amended as follows:

In B–26 "From Anchorage, Alaska, RR," is deleted and "From Campbell Lake, Alaska, RBN, via" is substituted therefor.

5. Section 71.171 (38 FR 351) is amended as follows:
